under The Police Act

ARBITRATION

1. A copy of a decision of an arbitrator for filing in the office of the Registrar of the Supreme Court, under subsection 2 of section 35 of the Act, shall be in Form 1. O. Reg. 299/70, s. 1.

Form 1

The Police Act

In the matter of the decision of an arbitrator under section 35 of *The Police Act*.

Between:

— and — Complainant,
Respondent.

To: The Registrar of the Supreme Court

I, being the arbitrator (agreed upon by the parties) (appointed by the Attorney General)
(strike out whichever is not applicable)

hereby file a copy of my decision under the said section 35.

The decision is filed by me
on the request of
(strike out if not applicable)

- i. Date and Place of Hearing:
- ii. Appearances for Complainant:
- iii. Appearances for Respondent:
- iv. Date of Decision:
- v. Date of Delivery of Decision:
- vi. Date provided in Decision for Compliance:

The decision, exclusive of the reasons therefor, reads as follows:

Dated at, this
day of, 19....

I certify this to be a true copy of my decision.

.....
Arbitrator

O. Reg. 299/70, Form 1.

REGULATION 679

under The Police Act

EQUIPMENT

1. This Order applies to police forces established under the Act. O. Reg. 137/70, s. 1.

2. In this Order,

- (a) "board" means a board of commissioners of police;
- (b) "chief of police" includes an acting chief of police;
- (c) "Commission" means the Ontario Police Commission;
- (d) "Commissioner" means Commissioner of the Ontario Provincial Police;
- (e) "committee of council" means a committee composed of the head or acting head of council and two other members thereof appointed by council;
- (f) "firearm" means a firearm as defined in section 82 of the *Criminal Code* (Canada). O. Reg. 137/70, s. 2.

FIREARM

3.—(1) Subject to subsections 2 and 3, where the Commissioner or chief of police carries a firearm or authorizes any member of a police force under his control or administration to carry a firearm, the firearm issued and carried shall be a .38 special calibre double-action revolver with a safety hammer block and swing-out cylinder, having a minimum single action trigger pressure of $3\frac{1}{2}$ to 4 lbs., and the ammunition shall be factory-loaded standard velocity.

(2) The Commissioner or chief of police or any other constable or police officer designated for the purpose by the Commissioner or chief of police, may authorize a member of a police force under his control to carry, for a special purpose or special purposes, a firearm of a type other than that prescribed in subsection 1.

(3) Where on the 26th day of March, 1970 the members of a police force were carrying firearms of a type other than that prescribed by subsection 1, the Commission may, on such terms and conditions and for such period of time as it considers proper, authorize the continued carrying of such type of firearm. O. Reg. 137/70, s. 3.

4. Before a firearm is issued to a member of a police force, the Commissioner or chief of police, as the case may be, shall satisfy himself that the member has received instruction and is competent in its use, and where there is no chief of police, the board or committee of council, as the case may be, shall so satisfy itself. O. Reg. 137/70, s. 4.

5. The revolver shall be carried in a holster with a full flap cover, or be otherwise concealed. O. Reg. 137/70, s. 5.

6. A member of a police force shall not draw or display his revolver, except when it is necessary to do so in the performance of his duty. O. Reg. 137/70, s. 6.

7. A member of a police force shall not threaten or attempt to intimidate any person by means of a firearm, except when necessary in the performance of duty. O. Reg. 137/70, s. 7.

8. A member of a police force shall not draw his revolver except when he believes it may be necessary for the protection of his life or the life of another, or when he believes that it is necessary in the apprehension or detention of a person whom he believes to be dangerous. O. Reg. 137/70, s. 8.

9.—(1) A member of a police force shall not discharge a firearm in the performance of duty except where, on reasonable or probable grounds, he believes it necessary,

- (a) for the defence of his life or the life of another;
- (b) to effect the apprehension, when other means are insufficient, of a person whom he, on reasonable or probable grounds, believes to be dangerous;
- (c) to destroy a potentially dangerous animal or one that is so badly injured that humanity requires its removal from further suffering; or
- (d) to give an alarm or to call assistance for an important purpose, when no other means can be used.

(2) Sections 3 to 8, both inclusive, and subsection 1 do not apply to a member of a police force when engaged in target practice or ordinary weapon maintenance in accordance with regulations of the force. O. Reg. 137/70, s. 9.

10. Where a member of a police force, other than the Commissioner or chief of police, unintentionally or intentionally, except on a target range or in the course of ordinary weapon maintenance, discharges his firearm, the Commissioner or chief of police, as the case may be, shall immediately cause an investigation to be made into the circumstances. O. Reg. 137/70, s. 10.

11.—(1) Where a member of a police force, other than the Commissioner or chief of police, by the discharge of a firearm in the performance of his duty, kills or injures another person, the Commissioner or chief of police, as the case may be, shall immediately cause an investigation to be made into the circumstances.

(2) The Commissioner shall submit a report of any investigation made by him under subsection 1 with the Commission and the chief of police shall submit a report on any investigation made by him with the board or, where there is no board, with the committee of council.

(3) The Commission or the board or committee of council, on receiving a report of the Commissioner or the chief of police, as the case may be, under subsection 2 shall, as soon as practicable, review the report and make such further inquiries as they consider necessary or expedient.

(4) The board or committee of council shall file with the Commission any report submitted to it by the chief of police under subsection 2, together with a report of any additional inquiries undertaken.

(5) Where the Commissioner discharges his firearm in the performance of duty, he shall forthwith report the matter to the Commission, who shall inquire into the circumstances.

(6) Where a chief of police discharges his firearm in the performance of duty, he shall forthwith report the matter to the board or committee of council, as the case may be, who shall inquire into the circumstances and file a report of such inquiry with the Commission.

(7) The Commission shall inform the Minister of Justice and Attorney General of the contents of any report filed with it under subsection 2, 4, 5 or 6 and, on his request, submit to him a copy of such report for whatever action he considers necessary. O. Reg. 137/70, s. 11.

GAS AND CHEMICAL WEAPONS

12.—(1) Subject to subsection 2, no member of a police force shall use any gas or chemical weapon.

(2) The use of the substance commonly known as tear gas is permitted, provided it is not applied intentionally in concentrated form directly to the person. O. Reg. 137/70, s. 12.

REGULATION 680

under The Police Act

GENERAL

PART I

MUNICIPAL POLICE FORCES

1. This Part applies to a police force established under Part II of the Act. O. Reg. 451/69, s. 1.

2. In this Part,

- (a) "agent" means a member of a police force or a *bona fide* member of an association or the Police Association of Ontario who has had at least five years experience with a police force governed by the Act;
- (b) "board" means a board of commissioners of police;
- (c) "chief of police" includes an acting chief of police;
- (d) "code" means the code of offences set out in the Schedule;
- (e) "Commission" means the Ontario Police Commission;
- (f) "committee of council" means a committee composed of the head or acting head of council and two other members thereof appointed by council;
- (g) "council" includes the trustees of a police village;
- (h) "counsel" means a barrister or solicitor authorized to practise in the courts of Ontario;
- (i) "presiding officer" means a chief of police, an acting chief of police, or an officer designated by the chief of police under section 3. O. Reg. 451/69, s. 2.

3. The chief of police may designate the deputy chief of police or, where the rank of inspector is established, any other officer of the rank of inspector or higher, who may exercise the powers and perform the duties of the chief of police in the hearing and disposition of charges. O. Reg. 451/69, s. 3.

DISCIPLINE

4. The code applies to every police force.

5.—(1) Where a constable or other police officer is charged with an offence against the code, the charge shall be in writing on a charge sheet and a true copy of the charge sheet shall be served, as soon as is practicable, upon the person charged, together with a statement of the allegations upon which the charge is founded.

(2) The charge sheet shall be prepared in accordance with Form 1 but may be varied to suit the case, and forms to the like effect shall be deemed to be good, valid and sufficient.

(3) The charge sheet shall be signed by the chief of police, or an officer designated by him, and shall show the date upon which it is so signed.

(4) All charges shall, where practicable, be included in one charge sheet, but where it is considered desirable the charges may be recorded in separate charge sheets.

(5) Where there is more than one charge in a charge sheet, the charges shall be numbered.

(6) A charge sheet shall be prepared for each person charged.

(7) Persons charged with the same offence may be tried jointly, notwithstanding they are charged on separate charge sheets.

(8) Each charge in the charge sheet shall,

- (a) allege one offence only; and
- (b) be divided into two parts as follows:
 - i. A statement of the offence with which the accused is charged.
 - ii. A statement of the particulars of the act, omission, conduct, disorder or neglect constituting the offence.

(9) Every statement of the particulars of an offence in a charge sheet shall include sufficient details to enable the accused to determine exactly the offence with which he is charged, so that he may prepare his defence and direct it to the occasion and events indicated in the charge.

(10) A statement of the particulars of an offence shall, where practicable, include an allegation of the place, date and time of the alleged commission of the offence.

(11) The charge shall specifically designate whether the offence is minor or major.

(12) The charge sheet shall state the time and place that the person charged is to appear before the presiding officer, and such time shall be not sooner than seventy-two hours after the person charged has been served with a true copy of the charge sheet. O. Reg. 451/69, s. 5.

6. Any constable or other police officer may lay a complaint before a chief of police or any officer designated by him under section 3, alleging an offence in accordance with the code and the chief of police or designated officer shall consider the allegations in the complaint and, where he considers that the allegations so warrant, he shall sign the charge sheet. O. Reg. 451/69, s. 6.

7. Where a person charged appears before a presiding officer, he shall first be asked whether he requires further time to consider his plea and,

(a) where he indicates that he does not require further time to consider his plea, he shall then be asked whether he pleads guilty or not guilty to each offence contained in the charge sheet; or

(b) where he requests further time to consider his plea, a reasonable adjournment shall be granted and a new date set when he shall appear before the presiding officer, at which time he shall be asked whether he pleads guilty or not guilty to each offence contained in the charge sheet. O. Reg. 451/69, s. 7.

8.—(1) Where the person charged pleads guilty to an offence contained in the charge sheet, the presiding officer, after hearing sufficient evidence to inform himself as to the circumstances surrounding the commission of the offence and upon being satisfied as to the guilt of the person charged, may find him guilty and impose a punishment authorized by this Part.

(2) Where the presiding officer is not satisfied as to the guilt of the person charged, he shall direct that a plea of not guilty be entered.

(3) The person charged may, at any time before the presiding officer renders his verdict, change his plea to that of guilty or not guilty, as the case may be.

(4) The presiding officer may postpone the imposition of punishment for a period of time not longer than eight days. O. Reg. 451/69, s. 8.

9. Where a person charged pleads not guilty to an offence contained in the charge sheet, the presiding officer shall fix the time and place for the hearing of the charge and in fixing the time for the hearing, he shall allow the person charged a reasonable opportunity to prepare his defence. O. Reg. 451/69, s. 9.

10. The person charged may inform the presiding officer in writing of the names of the members of the police force whom he desires to give evidence at the hearing and the chief of police shall order those members to be present at the hearing. O. Reg. 451/69, s. 10.

11. The hearing and final disposition of a charge by way of review, confirmation or appeal shall be proceeded with as expeditiously as possible and, where undue delay occurs, the person charged may make application,

(a) to the board or, where there is no board, to the committee of council; or

(b) to the Commission,

to have the charge quashed and the board, committee of council or the Commission, as the case may be, may order that the charge be quashed and thereupon the person charged shall be deemed to have been acquitted of the charge. O. Reg. 451/69, s. 11.

12. The presiding officer may, in his discretion, before or during a hearing on notice to the person charged, adjourn the hearing to a time and place to be appointed, but no such adjournment shall unduly delay the hearing. O. Reg. 451/69, s. 12.

13.—(1) A chief of police may designate a counsel, constable or other police officer who shall have conduct of the hearing against the person charged and, in the conduct of the hearing, the person so designated may,

(a) examine and cross-examine witnesses;

(b) sum up the evidence in support of the charge; and

(c) before the final verdict is rendered, at the direction of or with the consent of the chief of police, withdraw the charge.

(2) The constable or other police officer designated under subsection 1 shall be of equal rank to or higher rank than the person charged.

(3) The person charged is entitled to make his full answer and defence to the charge and, for such purpose, may examine and cross-examine witnesses and make representations on his behalf, either personally or by his counsel or agent. O. Reg. 451/69, s. 13.

14. A person charged may admit any fact alleged against him for the purpose of dispensing with proof thereof. O. Reg. 451/69, s. 14.

15. Where a person charged is acquitted, no reference to that charge or acquittal shall be entered in his personal record. O. Reg. 451/69, s. 15.

TRIAL OF MINOR OFFENCES

16.—(1) Where the offence charged is a minor offence,

- (a) the evidence shall be given under oath but need not be taken down in writing; and
- (b) the person charged shall have an opportunity of,
 - (i) hearing the evidence against him,
 - (ii) calling witnesses, whether members of a police force or any other persons, in his defence, and
 - (iii) giving evidence as a witness on his own behalf.

(2) Where the person charged absconds or refuses or neglects without good and sufficient cause to attend the hearing at the time and place fixed, the case may be decided in his absence.

(3) Where the presiding officer has heard the person charged, the witnesses and any representations made, he shall, after considering the matter, convict the person charged or dismiss the charge, as the case may be.

(4) A person found guilty of a minor offence is liable to,

- (a) an admonition; or
- (b) forfeiture of leave or days off not exceeding five days; or
- (c) forfeiture of pay not exceeding three days pay.

(5) The decision of the presiding officer, including the punishment imposed, if any, shall be in writing and a copy shall forthwith be served upon the person charged.

(6) Where the presiding officer is not the chief of police he may refer, and on the request of the chief of police shall refer, the charge for hearing to the chief of police or another presiding officer designated by him, and the person charged shall be notified of the time and place fixed for the hearing.

(7) Where the presiding officer designated by the chief of police hears and decides a charge and imposes a punishment, the chief of police shall, within seven days, review the decision and punishment and either confirm or quash the conviction and he may confirm, mitigate, commute or remit any or all punishments imposed and shall forthwith notify the convicted person in writing of his decision.

(8) Where the chief of police fails to review the decision and punishment within seven days, he shall be deemed to have confirmed both the decision and punishment.

(9) A person found guilty of a minor offence may appeal his conviction or the punishment imposed, or both, as confirmed or altered by the chief of police,

- (a) where there is a board, to the board; or
- (b) where there is no board, to the committee of council.

(10) The appeal may be made by serving a notice thereof in writing upon,

- (a) the chief of police; and
- (b) where there is a board, the secretary of the board; or
- (c) where there is no board, the clerk of the municipality,

not later than fifteen days after the time of the service of the copy of the decision appealed from.

(11) The board or committee of council may, before or after the expiration of the time for service of a notice of appeal, extend the time for service for a further period not exceeding thirty days within which service may be effected.

(12) Where the chief of police is served with a notice of appeal, he shall forward the charge sheet to the board or committee of council and the board or committee shall decide the appeal by holding a hearing *de novo*, and for such purpose the provisions of this Part that apply to the initial hearing of a charge apply *mutatis mutandis* to a hearing *de novo*.

(13) There shall be a verbatim record of every hearing under subsection 12.

(14) After the time for appeal has expired any punishment imposed under this section is subject to the approval of the board or committee of council, as the case may be, who may confirm, mitigate, commute or remit any or all punishments imposed and shall forthwith notify the convicted person in writing of its decision.

(15) A person convicted of a minor offence may appeal his conviction or the punishment imposed, or both, as confirmed or altered by the board or committee of council on appeal, to the Commission. O. Reg. 451/69, s. 16.

TRIAL OF MAJOR OFFENCES

17.—(1) Where the offence charged is a major offence,

- (a) the witnesses shall be sworn;
- (b) the evidence shall be recorded verbatim by some reliable means; and
- (c) the person charged shall have an opportunity of,
 - (i) hearing the evidence against him,
 - (ii) calling witnesses, whether members of a police force or any other persons, in his defence, and
 - (iii) giving evidence as a witness on his own behalf.

(2) Where the person charged absconds or refuses or neglects without good and sufficient cause to attend the hearing at the time and place fixed, the case may be decided in his absence.

(3) When the presiding officer has heard the person charged, the witnesses and any representations made, he shall, after considering the matter, convict the person charged or dismiss the charge, as the case may be.

(4) The decision of the presiding officer, including the punishment imposed, if any, shall be in writing and a copy shall forthwith be served upon the person charged.

(5) Where the presiding officer is not the chief of police, he may refer, and on request of the chief of police shall refer, the charge for hearing to the chief of police or another presiding officer designated by him, and the person shall be notified of the time and place fixed for the hearing.

(6) The chief of police may refer the charge for hearing before the board, or where there is no board, the committee of council and the provisions of this Part that apply to the hearing of a charge by the chief of police or a presiding officer designated by him apply *mutatis mutandis* to the hearing of a charge by the board or committee of council.

(7) Where the presiding officer designated by the chief of police hears and decides a charge and imposes a punishment, the chief of police shall, within seven days, review the decision and punishment and either confirm or quash the conviction and he may confirm, mitigate, commute or remit any or all punishments imposed and shall forthwith notify the convicted person in writing of his decision.

(8) Where the chief of police fails to review the decision and punishment within seven days, he shall be deemed to have confirmed both the decision and punishment. O. Reg. 451/69, s. 17.

18.—(1) Upon notice to the person charged, other than a chief of police, a board, or where there is no board, a committee of council, may designate a county court judge, a district court judge or a provincial court judge (criminal division) who consents to the designation to hear a charge or appeal that the board or committee of council may hear.

(2) The provisions of this Part that apply to the hearing of a charge or an appeal by a board or committee of council apply *mutatis mutandis* to a hearing by a judge designated under subsection 1.

(3) The judge designated under subsection 1 shall hear and determine the charge and where the accused is found guilty of an offence against the code shall impose a punishment authorized by this Part or shall hear and determine the appeal, as the case may be.

(4) The decision of the judge shall be deemed to be the decision of the board or committee of council that designated such judge. O. Reg. 451/69, s. 18.

19.—(1) A person found guilty of a major offence on a charge heard and determined by the chief of police or a presiding officer designated by him may appeal his conviction or the punishment imposed or both, as confirmed or altered by the chief of police,

- (a) where there is a board, to the board; or
- (b) where there is no board, to a committee of council.

(2) The appeal may be made by serving a notice thereof in writing not later than fifteen days after the time of the service of the copy of the decision appealed from to,

- (a) the chief of police; and
- (b) where there is a board, the secretary of the board; or
- (c) where there is no board, the clerk of the municipality.

(3) The board or committee of council may, before or after the expiration of the time for service of a notice of appeal, extend the time for service for a further period not exceeding thirty days within which service may be effected.

(4) Where the chief of police is served with a notice of appeal under this section, he shall forward to the board or committee of council, as the case may be, the record of the hearing including all documents, evidence and exhibits considered at the hearing, and the board or committee of council shall decide the appeal from the record but may, in special circumstances, hear such evidence as the board or committee of council deems advisable.

(5) The board or committee of council on appeal may,

- (a) confirm the conviction;
- (b) quash the conviction;
- (c) alter the punishment imposed as it deems just; or
- (d) order a new hearing of the charge,

and shall forthwith notify the appellant in writing of its decision. O. Reg. 451/69, s. 19.

20.—(1) After the time for appeal has expired any punishment imposed under this section is subject to the approval of the board or committee of council, as the case may be, who may confirm, mitigate, commute or remit any or all punishments imposed and the board or committee of council shall forthwith notify the convicted person in writing of its decision.

(2) A person found guilty of a major offence is liable to,

- (a) dismissal; or
- (b) be required to resign, and in default of resigning within seven days, to be summarily dismissed from the force; or
- (c) reduction in rank or gradation of rank; or
- (d) forfeiture of leave or days off not exceeding twenty days; or
- (e) forfeiture of pay not exceeding five days pay; or
- (f) a reprimand, which may be imposed in lieu of or in addition to any other punishment imposed.

(3) A person convicted of a major offence may appeal his conviction or the punishment imposed, or both, as confirmed or altered by the board or committee of council on appeal, to the Commission. O. Reg. 451/69, s. 20.

FORFEITURE OF PAY

21. Where a penalty of more than one day's forfeiture of pay is imposed, it shall be deemed to mean the forfeiture of not more than one day's pay in each pay period until the full penalty has been paid but, where the person convicted leaves the police force, the whole amount of the forfeiture of pay then remaining may be deducted from any pay then due. O. Reg. 451/69, s. 21.

TRIAL OF CHIEF OF POLICE

22. Section 5 applies *mutatis mutandis* to a charge against a chief of police. O. Reg. 451/69, s. 22.

23.—(1) A charge against a chief of police may be laid by the chairman of a board or a member thereof, or where there is no board, by the head or acting head of council.

(2) The board or, where there is no board, the committee of council shall hear any charge against a chief of police.

(3) The board, or where there is no board, the committee of council may designate, and on the request of a chief of police so charged shall designate, a county court judge, a district court judge or a provincial judge (criminal division) to hear any charge that the board or committee of council may hear, but the judge designated by a board shall not be a member of the board.

(4) The judge so designated shall determine the charge and where the chief of police is found guilty of an offence against the code shall impose a punishment authorized by this Part.

(5) The decision of the judge shall be deemed to be the decision of the board or committee of council that designated such judge.

(6) The provisions of this Part that apply to the hearing of a charge against a constable or police officer in respect of a major offence, including the right to counsel, apply *mutatis mutandis* to the hearing of a charge against a chief of police.

(7) A chief of police who is found guilty of an offence is liable to,

- (a) dismissal; or
- (b) be required to resign, and in default of resigning within seven days, to be summarily dismissed from the force; or
- (c) reduction in rank; or
- (d) reprimand.

(8) A chief of police convicted of an offence may appeal his conviction or the punishment imposed, or both, to the Commission. O. Reg. 451/69, s. 23.

APPEALS TO THE COMMISSION

24.—(1) In the case of a conviction of an offence, a notice of appeal to the Commission shall be in writing, directed to the chairman of the Commission and shall set forth the conviction, the punishment imposed and the grounds on which the appeal is based.

(2) The notice of appeal shall be served on the secretary of the board, where there is a board, or where there is no board, on the clerk of the municipality, and the Commission not later than fifteen days after the time the appellant receives notice of his conviction and the punishment imposed, as confirmed or altered on appeal.

(3) The Commission may, before or after the expiration of the time for service of a notice of appeal, extend the time for service for a further period not exceeding thirty days within which service may be effected.

(4) Where a notice of appeal is served on the secretary of the board or the clerk of the municipality, the board or committee of council shall forward to the Commission the original charge sheet with particulars of the conviction and the punishment imposed, and the record of the hearing, including all documents, evidence and exhibits.

(5) The Commission shall notify all parties of the time and place for the hearing of the appeal.

(6) The Commission shall decide the appeal from the record but may, in special circumstances, hear such evidence as the Commission considers advisable.

(7) The decision of the Commission is final.

(8) At the hearing of the appeal, the appellant, the chief of police and the board or committee of council, as the case may be, are entitled to appear and to be represented by counsel or agent and to present their argument.

(9) On the hearing of an appeal against a conviction or the punishment imposed, or both, the Commission may,

- (a) dismiss the appeal;
- (b) allow the appeal and quash the conviction and punishment imposed;
- (c) vary the punishment imposed as it considers just;
- (d) affirm the punishment imposed;
- (e) substitute a decision that in its opinion should have been reached; or
- (f) order a new hearing of the charge. O. Reg. 451/69, s. 24.

WITNESS FEES

25. Witnesses at a hearing under this Part, other than members of a police force, shall be paid by the municipality fees and expenses as follows:

- 1. Attending the hearing, each day \$6

2. Where a witness travels by private automobile, 10 cents a mile each way for each mile necessarily travelled between his place of residence and the place where the hearing is held but where the hearing is held in the municipality where the witness resides, 75 cents.

3. Where a witness travels by means other than private automobile, a sum equal to the amount of the fare actually paid for the transportation from his place of residence to the place where the hearing is held, and return.

4. Where a witness is required to attend the hearing on more than one day and returns to his place of residence at night, the travelling allowance mentioned in paragraph 2 or 3, as the case may be, is payable in respect of each day's attendance.

5. Where a witness resides elsewhere and in the opinion of the person conducting the hearing it is desirable that the witness remain overnight at the place where the hearing is held, a sum actually and reasonably paid by him for living expenses. O. Reg. 451/69, s. 25.

SUSPENSIONS

26.—(1) Where a constable or other police officer is suspected of or is charged with a contravention of an Act of the Parliament of Canada or of the Legislative Assembly of the Province of Ontario, or is suspected of or charged with an offence against the code, the chief of police may suspend him from duty, but where the constable or other police officer is not charged within forty-eight hours after being suspended, he shall be returned to duty.

(2) The officer in charge of a station may exercise the powers of suspension of a chief of police under subsection 1, subject to such suspension being subsequently confirmed by the chief of police within twenty-four hours.

(3) Where a constable or other police officer is convicted of an offence for which a term of imprisonment is imposed, he may, notwithstanding any appeal, be suspended without pay.

(4) Subject to subsection 3, suspension of a constable or other police officer shall cease on the determination of the charge or charges against him.

(5) The chief of police may at any time revoke the suspension and order that the constable or other police officer be returned to duty.

(6) Where a police force has no chief of police, the acting chief of police, chairman of the board, or head or acting head of a council shall exercise the disciplinary powers and perform the duties of a chief of

police in suspending any constable or other police officer or in hearing any charge of an offence against the code, and for such purpose shall be deemed to be a chief of police.

(7) Where a chief of police is suspected of or is charged with a contravention of an Act of the Parliament of Canada or of the Legislative Assembly of the Province of Ontario, or suspected or charged with an offence against the code, the chairman of the board or a member thereof or, where there is no board, the head or acting head of council may suspend him from duty, but where the chief of police is not charged within forty-eight hours after being suspended, he shall be returned to duty.

(8) Where a chief of police is convicted of an offence for which a term of imprisonment is imposed, he may, notwithstanding any appeal, be suspended without pay.

(9) Subject to subsection 8, suspension of a chief of police shall cease on determination of the charge or charges against him.

(10) The chairman of the board or, where there is no board, the head or acting head of council may at any time revoke the suspension of a chief of police and order that he be returned to duty. O. Reg. 451/69, s. 26.

GENERAL

27. No chief of police, constable or other police officer is subject to any penalty under this Part except after a hearing and final disposition of a charge on appeal as provided by this Part, or after the time for appeal has expired, but nothing herein affects the authority of a board or council,

- (a) subject to the consent of the Commission, to dispense with the services of any member of a police force for the purpose of reducing the size of or abolishing the police force, where the reduction or abolition is not in contravention of the Act;
- (b) to dispense with the services of any constable within eighteen months of his appointment to the force;
- (c) to make rules or regulations for the retirement of members of the police force who are entitled to a pension under a pension plan established for the members of the force, under which the municipality contributes an amount not less than 5 per cent of the amount of the salaries of the members participating in the plan, and to retire the members in accordance with those rules or regulations;
- (d) to act in accordance with a report or recommendation of the Commission made under section 28; or

- (e) to discharge or place on retirement, if he is entitled thereto, any member of the force who, on the evidence of two legally qualified medical practitioners is, due to mental or physical disability, incapable of performing his duties in a manner fitted to satisfy the requirements of his position but any decision of the board or council made pursuant to this clause may be appealed to the Commission. O. Reg. 451/69, s. 27.

28. Where the Commission or any member thereof holds an investigation or inquiry under subsection 1 of section 56 of the Act and reports that any person referred to in the said subsection does not perform, or is incapable of performing, his duties in a manner fitted to, or his conduct is such as not to, satisfy the requirements of his position, the council or, where there is a board, the board, may,

- (a) reduce the person in rank and in pay in accordance with the rank to which he is reduced;
- (b) where the report is concurred in by all members of the Commission and it is so recommended therein, dismiss the person concerned or place him on retirement if he is entitled thereto. O. Reg. 451/69, s. 28.

29. Except with the consent of the chief of police, granted in accordance with the by-laws of the board or council, as the case may be, no member of a police force shall engage directly or indirectly in any other occupation or calling, and he shall devote his whole time and attention to the service of the police force. O. Reg. 451/69, s. 29.

30. To enable the Commission to carry out its duties under the Act, the members of police forces shall give their assistance and co-operation to the Commission, its members and staff. O. Reg. 451/69, s. 30.

31.—(1) No chief of police, constable or other police officer shall take or act upon any order, direction or instruction of a member of a board or council.

(2) Notwithstanding the code, a chief of police, constable or other police officer shall report forthwith to the Commission the particulars of any order, direction or instruction that he is prohibited from taking or acting upon under subsection 1, and the Commission shall report the particulars to the Minister of Justice and Attorney General. O. Reg. 451/69, s. 31.

QUALIFICATIONS

32. No chief of police, constable or other police officer shall be appointed to a police force unless he,

- (a) is a Canadian citizen or a British subject;

- (b) is at least nineteen years of age and is not over thirty-five years of age plus the total number of years of previous experience in police work;
- (c) is at least five feet and eight inches in height;
- (d) is certified by a legally qualified medical practitioner to be in good health, mentally and physically, and fit for duty as a member of a police force;
- (e) produces satisfactory proof of having successfully completed at least two years secondary school education or its equivalent; and
- (f) is of good moral character and habits.
O. Reg. 451/69, s. 32.

UNIFORM AND EQUIPMENT

33. All articles of uniform and equipment necessary for the performance of duty shall be provided by the municipality, but, where damage or loss occasioned by the fault of a member of a police force, the cost of replacement shall be borne by him. O. Reg. 451/69, s. 33.

BOARD OF COMMISSIONERS OF POLICE

34.—(1) A municipality shall pay to each member of the board who is designated by the Lieutenant Governor in Council or appointed by the Minister of Justice and Attorney General,

- (a) in cities having a population exceeding 500,000 according to the last revised assessment roll, not less than \$1,000 a year;
- (b) in cities having a population exceeding 100,000 and not exceeding 500,000 according to the last revised assessment roll, not less than \$500 a year;
- (c) in cities having a population not exceeding 100,000 according to the last revised assessment roll, not less than \$300 a year; and
- (d) in municipalities other than cities, not less than \$100 a year.

(2) A board shall hold at least one regular meeting every three months. O. Reg. 451/69, s. 34.

OATH OF AUXILIARY MEMBER

35. The oath to be taken and subscribed to by an auxiliary member of a police force shall be in Form 3. O. Reg. 451/69, s. 35.

PART II

ONTARIO PROVINCIAL POLICE FORCE

36. This Part applies to the Ontario Provincial Police Force. O. Reg. 451/69, s. 36.

37. In this Part,

- (a) "agent" means a member of the Force or a *bona fide* member of an association or the Police Association of Ontario who has had at least five years experience with a police force governed by the Act;
- (b) "Commission" means the Ontario Police Commission;
- (c) "counsel" means a barrister or solicitor authorized to practise in the courts of Ontario;
- (d) "Force" means the Ontario Provincial Police Force; and
- (e) "presiding officer" means the Commissioner or an officer designated by him under section 38. O. Reg. 451/69, s. 37.

38. The Commissioner may designate a Deputy Commissioner, an Assistant Commissioner or any other officer of the rank of Superintendent or higher, who may exercise the powers and perform the duties of the Commissioner in the hearing and disposition of charges provided that on a plea of not guilty to a major offence a Superintendent shall refer the matter to the Commissioner who may hear the case himself or designate a Deputy Commissioner or an Assistant Commissioner to hear the case against the person charged. O. Reg. 451/69, s. 38.

DISCIPLINE

39. The code of offences against discipline in the Schedule apply to the Force and in the code for the purposes of this Part "Chief of Police" means the Commissioner. O. Reg. 451/69, s. 39.

40.—(1) Where a constable or other police officer is charged with an offence against the code, the charge shall be in writing and a true copy of the charge sheet shall be served as soon as is practicable upon the person charged, together with a statement of the allegations upon which the charge is founded.

(2) The charge sheet shall be prepared in accordance with Form 2 but may be varied to suit the case, and forms to the like effect shall be deemed to be good, valid and sufficient.

(3) The charge sheet shall be signed by the Commissioner or an officer designated by him and shall show the date upon which it is so signed.

(4) All charges shall, where practicable, be included in one charge sheet but, where it is considered desirable, the charges may be recorded in separate charge sheets.

(5) Where there is more than one charge in a charge sheet, the charges shall be numbered.

(6) A charge sheet shall be prepared for each person charged.

(7) Persons charged with the same offence may be tried jointly, notwithstanding they are charged on separate charge sheets.

(8) Each charge in the charge sheet shall,

(a) allege one offence only; and

(b) be divided into two parts as follows:

i. A statement of the offence with which the accused is charged.

ii. A statement of the particulars of the act, omission, conduct, disorder or neglect constituting the offence.

(9) Every statement of the particulars of an offence in a charge shall include sufficient details to enable the accused to determine exactly the offence with which he is charged, so that he may prepare his defence and direct it to the occasion and events indicated in the charge.

(10) A statement of the particulars of an offence shall, where practicable, include an allegation of the place, date and time of the alleged commission of the offence.

(11) The charge shall specifically designate whether the offence is minor or major.

(12) The charge sheet shall state the time and place that the person charged is to appear before the presiding officer, and such time shall be not sooner than seventy-two hours after the person charged has been served with a true copy of the charge sheet. O. Reg. 451/69, s. 40.

41. Any constable or other officer may lay a complaint before the Commissioner or any officer designated by him under section 38, alleging an offence in accordance with the Code, and the Commissioner or designated officer shall consider the allegations in the complaint and, where he considers that the allegations so warrant, he shall sign the charge sheet. O. Reg. 451/69, s. 41.

42. Where a person charged appears before a presiding officer, he shall first be asked whether he requires further time to consider his plea and,

(a) where he indicates that he does not require further time to consider his plea, he shall

then be asked whether he pleads guilty or not guilty to each offence contained in the charge sheet; or

(b) where he requests further time to consider his plea, a reasonable adjournment shall be granted and a new date set when he shall appear before the presiding officer, at which time he shall be asked whether he pleads guilty or not guilty to each offence contained in the charge sheet. O. Reg. 451/69, s. 42.

43.—(1) Where the person charged pleads guilty to an offence contained in the charge sheet, the presiding officer, after hearing sufficient evidence to inform himself as to the circumstances surrounding the commission of the offence and upon being satisfied as to the guilt of the person charged, may find him guilty and impose a punishment authorized by this Part.

(2) Where the presiding officer is not satisfied as to the guilt of the person charged, he shall direct that a plea of not guilty be entered.

(3) The person charged may, at any time before final adjudication, change his plea to that of guilty or not guilty, as the case may be.

(4) The presiding officer may postpone the imposition of punishment for a period of time not longer than eight days. O. Reg. 451/69, s. 43.

44. Where a person charged pleads not guilty to an offence contained in the charge sheet, the presiding officer shall fix the time and place for the hearing of the charge and in fixing the time for the hearing, he shall allow the person charged a reasonable opportunity to prepare his defence. O. Reg. 451/69, s. 44.

45. The person charged may inform the presiding officer in writing of the names of the members of the Force whom he desires to give evidence at the hearing and the Commissioner shall order those members to be present at the hearing. O. Reg. 451/69, s. 45.

46. The hearing and final disposition of a charge by way of review, confirmation or appeal shall be proceeded with as expeditiously as possible and, where undue delay occurs, the person charged may make application to the Commission to have the charge quashed and the Commission may order that the charge be quashed and thereupon the person charged shall be deemed to have been acquitted of the charge. O. Reg. 451/69, s. 46.

47. The presiding officer may, in his discretion before or during a hearing, on notice to the person charged, adjourn the hearing to a time and place to be appointed, but no such adjournment shall unduly delay the hearing. O. Reg. 451/69, s. 47.

48.—(1) The Commissioner may designate a counsel, constable or other police officer who shall have conduct of the hearing against the person charged, and in the conduct of the hearing, the person so designated may,

- (a) examine and cross-examine witnesses;
- (b) sum up the evidence in support of the charge; and
- (c) before the final verdict is rendered, at the direction of or with the consent of the Commissioner, withdraw the charge.

(2) The constable or other police officer designated under subsection 1 shall be of equal rank to or higher rank than the person charged.

(3) The person charged is entitled to make his full answer and defence to the charge and, for such purpose, may examine and cross-examine witnesses and make representations on his behalf, either personally or by his counsel or agent. O. Reg. 451/69, s. 48.

49. The person charged may admit any fact alleged against him for the purpose of dispensing with proof thereof. O. Reg. 451/69, s. 49.

50. Where a person charged is acquitted, no reference to that charge or acquittal shall be entered on his personal record. O. Reg. 451/69, s. 50.

TRIAL OF MINOR OFFENCES

51.—(1) Where the offence charged is a minor offence,

- (a) the evidence shall be given under oath but need not be taken down in writing; and
- (b) the person charged shall have an opportunity of,
 - (i) hearing the evidence against him,
 - (ii) calling witnesses, whether members of a police force or any other persons, in his defence, and
 - (iii) giving evidence as a witness on his own behalf.

(2) Where the person charged absconds or refuses or neglects without good and sufficient cause to attend the hearing at the time and place fixed, the case may be decided in his absence.

(3) Where the presiding officer has heard the person charged, the witnesses and any representations made, he shall, after considering the matter, convict the person charged, or dismiss the charge, as the case may be.

(4) A person found guilty of a minor offence is liable to,

- (a) an admonition; or
- (b) forfeiture of leave or days off not exceeding five days; or
- (c) forfeiture of pay not exceeding three days pay.

(5) The decision of the presiding officer, including the punishment imposed, if any, shall be in writing and a copy shall forthwith be served upon the person charged.

(6) Where the presiding officer is not the Commissioner, he may refer, and on the request of the Commissioner, shall refer the charge for hearing to the Commissioner or another presiding officer designated by him, and the person charged shall be notified of the time and place fixed for the hearing.

(7) Where the presiding officer designated by the Commissioner hears and decides a charge and imposes a punishment, the Commissioner, shall within seven days, review the decision and punishment, and either confirm or quash the conviction and may confirm, mitigate, commute or remit any or all punishments imposed.

(8) Where the Commissioner fails to review the decision and punishment within seven days, he shall be deemed to have confirmed both the decision and punishment.

(9) A person convicted of a minor offence may appeal his conviction or the punishment imposed, or both, as confirmed or altered by the Commissioner, to the Commission. O. Reg. 451/69, s. 51.

TRIAL OF MAJOR OFFENCES

52.—(1) Where the offence charged is a major offence,

- (a) the witness shall be sworn;
- (b) the evidence shall be recorded verbatim by some reliable means; and
- (c) the person shall have an opportunity of,
 - (i) hearing the evidence against him,
 - (ii) calling witnesses, whether members of a police force or any other persons, in his defence, and
 - (iii) giving evidence as a witness on his own behalf.

(2) Where the person charged absconds or refuses or neglects without good and sufficient cause to attend the hearing at the time and place fixed, the case may be decided in his absence.

(3) When the presiding officer has heard the person charged, the witnesses and any representations made, he shall, after considering the matter, convict the person charged or dismiss the charge, as the case may be.

(4) The decision of the presiding officer, including the punishment imposed, if any, shall be in writing and a copy shall forthwith be served upon the person charged.

(5) Where the presiding officer is not the Commissioner, he may refer, and on request of the Commissioner, shall refer the charge for hearing to the Commissioner or another presiding officer designated by him, and the person charged shall be notified of the time and place fixed for the hearing.

(6) Where the presiding officer designated by the Commissioner hears and decides a charge and imposes a punishment, the Commissioner shall within seven days review the decision and punishment, and either confirm or quash the conviction and he may confirm, mitigate, commute or remit any or all punishments imposed and shall forthwith notify the convicted person in writing of his decision.

(7) Where the Commissioner fails to review the decision and punishment within seven days, he shall be deemed to have confirmed both the decision and punishment.

(8) A person found guilty of a major offence is liable to,

- (a) dismissal; or
- (b) be required to resign, and in default of resigning within seven days, to be summarily dismissed from the Force; or
- (c) reduction in rank or gradation of rank; or
- (d) forfeiture of pay not exceeding five days pay; or
- (e) forfeiture of leave or days off not exceeding twenty days; or
- (f) a reprimand, which may be imposed in lieu of or in addition to any other punishment imposed.

(9) A person convicted of a major offence may appeal his conviction or the punishment imposed, or both, as confirmed or altered by the Commissioner, to the Commission. O. Reg. 451/69, s. 52.

WHEN PENALTY TO TAKE EFFECT

53. No member of the Force is subject to any penalty under this Part except after a hearing and final disposition of a charge on appeal as provided by this Part, or after the time for appeal has expired. O. Reg. 451/69, s. 53.

FORFEITURE OF PAY

54. Where a penalty of more than one day's forfeiture of pay is imposed it shall be deemed to mean the forfeiture of not more than one day's pay in each pay period until the full penalty has been paid, but where the person convicted leaves the Force, the whole amount of the forfeiture of pay then remaining may be deducted from any pay then due. O. Reg. 451/69, s. 54.

SUBMISSION OF DECISION TO MINISTER OF JUSTICE AND ATTORNEY GENERAL

55. Where a decision imposing punishment under this Part becomes final and action by the Lieutenant Governor in Council is required to implement the punishment, the Commissioner or Commission, as the case may be, imposing the punishment shall submit the decision to the Minister of Justice and Attorney General for his recommendation to the Lieutenant Governor in Council. O. Reg. 451/69, s. 55.

SUSPENSION FROM DUTY

56.—(1) Where a constable or other police officer is suspected of or charged with a contravention of an Act of the Parliament of Canada or of the Legislative Assembly of the Province of Ontario, or is suspected of or charged with an offence against the code, the Commissioner or a Deputy Commissioner or Assistant Commissioner may suspend him from duty until the charge has been disposed of, but where the constable or other police officer is not charged within seventy-two hours after being suspended, he shall be returned to duty.

(2) During the period of suspension, the member shall not,

- (a) exercise any power or authority vested in him as a member of the Force; or
- (b) wear or use any article of clothing or equipment issued to him as a member of the Force.

(3) A superintendent or inspector in charge of a district may exercise the powers of suspension mentioned in subsection 1, subject to such suspension being subsequently confirmed by the Commissioner, a Deputy Commissioner or an Assistant Commissioner within seventy-two hours.

(4) The Commissioner may, at any time, revoke a suspension and order that the suspended constable or other police officer be returned to duty.

(5) Where a constable or other police officer is convicted of an offence for which a term of imprisonment is imposed, the Commissioner may, notwithstanding any appeal, suspend the constable or other police officer without pay. O. Reg. 451/69, s. 56.

ACTING COMMISSIONER

57.—(1) Where there is a vacancy in the office of Commissioner or if, for any reason, the Commissioner is unable to carry on his duties, the Minister of Justice and Attorney General may designate a Deputy Commissioner or an Assistant Commissioner to exercise the disciplinary powers and perform the duties of the Commissioner in suspending any constable or other police officer or in hearing or reviewing any charge of an offence against the code.

(2) Subject to subsection 1, where the Commissioner is temporarily absent or incapable of acting due to illness, a Deputy Commissioner or an Assistant Commissioner, designated by the Commissioner, may exercise the disciplinary powers and perform the duties of the Commissioner in suspending any constable or other police officer or in hearing or reviewing any charge of an offence against the code. O. Reg. 451/69, s. 57.

APPEALS TO THE COMMISSION

58.—(1) In the case of a conviction of an offence, a notice of appeal shall be directed to the chairman of the Commission, setting forth the conviction, the punishment imposed and the grounds on which the appeal is based.

(2) The notice of appeal shall be served on the Commissioner and the Commission not later than fifteen days after the time the appellant received notice of his conviction and the punishment imposed, as confirmed or altered by the Commissioner.

(3) The Commission may, before or after the expiration of the time for service of a notice of appeal, extend the time for service for a further period not exceeding thirty days within which service may be effected.

(4) Where a notice of appeal is served on the Commissioner, he shall forward to the Commission the original charge sheet with particulars of the conviction and the punishment imposed, and the record of the hearing, including all documents, evidence and exhibits.

(5) The Commission shall notify all parties of the time and place for the hearing of the appeal.

(6) The Commission shall decide an appeal of a conviction of, or the punishment imposed for, a minor offence by holding a hearing *de novo*, and for such purpose the provisions of this Part that apply to the initial hearing of a charge apply *mutatis mutandis* to a hearing *de novo*.

(7) The Commission shall decide an appeal of a conviction of, or the punishment imposed for, a major offence from the record but the Commission may, in special circumstances, hear such evidence as it considers advisable.

(8) The decision of the Commission is final.

(9) At the hearing of the appeal, the appellant and the Commissioner are entitled to appear and to be represented by counsel or agent and to present their argument.

(10) On the hearing of an appeal against a conviction or the punishment imposed, or both, the Commission may,

- (a) dismiss the appeal;
- (b) allow the appeal and quash the conviction and punishment imposed;
- (c) vary the punishment imposed as it considers just;
- (d) affirm the punishment imposed;
- (e) substitute a decision that in its opinion should have been reached; or
- (f) order a new hearing of the charge. O. Reg. 451/69, s. 58.

WITNESS FEES

59. Witnesses at a hearing under this Part, other than members of a police force, shall be paid by the Force fees and expenses as follows:

1. Attending the hearing each day\$6
2. Where a witness travels by private automobile, 10 cents a mile each way for each mile necessarily travelled between his place of residence and the place where the hearing is held but where the hearing is held in the municipality where the witness resides, 75 cents.
3. Where a witness travels by means other than private automobile, a sum equal to the amount of the fare actually paid for the transportation from his place of residence to the place where the hearing is held, and return.

4. Where a witness is required to attend the hearing on more than one day and returns to his place of residence at night, the travelling allowance mentioned in paragraph 2 or 3, as the case may be, is payable in respect of each day's attendance.
5. Where a witness resides elsewhere and in the opinion of the person conducting the hearing it is desirable that the witness remain overnight at the place where the hearing is held, a sum actually and reasonably paid by him for living expenses. O. Reg. 451/69, s. 59.

GENERAL

60. Where the Ontario Police Commission has held an inquiry into the conduct or capabilities of any member of the Force under subsection 3 of section 42 of the Act and reports that the member does not perform or is incapable of performing his duties in a manner fitted to, or his conduct is such as not to, satisfy the requirements of his position, the Commission may recommend to the Minister of Justice and Attorney General that the member be dismissed, placed on retirement if he is entitled thereto, or reduced in rank and pay, but a recommendation for dismissal shall not be made unless it is concurred in by all members of the Commission. O. Reg. 451/69, s. 60.

61. Except with the consent of the Commissioner, no member of the Force shall engage directly or indirectly in any other occupation or calling, and he shall devote his whole time and attention to the service of the Force. O. Reg. 451/69, s. 61.

62. No member of the Force shall,

- (a) join or associate himself with any union connected with any labour organization or any body not belonging to or affiliated with the Force or the civil service except where a membership in the organization or body is authorized by the Minister of Justice and Attorney General;
- (b) take any part in politics or occupy an official position in a party organization, but this does not affect the right of the member to private political views or to vote;
- (c) sign any petition on any subject to the government;
- (d) cause or permit any person not a member of the Force to make requests in his behalf that relate to the Force, but shall make his own applications through the proper channels to the Commissioner; or
- (e) contract debts that he is unwilling or unable to discharge and that may interfere with the performance of his duties as a member of the Force. O. Reg. 451/69, s. 62.

SERVICE BADGES

63.—(1) A service badge shall be granted to a member of the Force for each five-year period of continuous service.

(2) The member shall be paid an allowance of \$5 a month for each service badge to which he is entitled. O. Reg. 451/69, s. 63.

RESIGNATION OR RETIREMENT FROM THE FORCE

64.—(1) Without the consent of the Commissioner, no member of the Force shall resign unless he has given two weeks notice in writing to the Commissioner.

(2) Upon the resignation or retirement of any member of the Force, he shall return to the Force in good order all of the last issue of uniform and equipment with which he has been provided.

(3) No allowance shall be made for transportation from the point at which any member leaves the Force. O. Reg. 451/69, s. 64.

65. A certificate of service and character may be issued by the Commissioner to any member who has left the Force after he has served at least two years with the Force and has not been dismissed or required to resign by reason of disciplinary action, and no duplicate of the certificate shall be issued. O. Reg. 451/69, s. 65.

APPOINTMENT TO THE FORCE

66. Applications for appointment to the Force shall be made in writing to the Commissioner. O. Reg. 451/69, s. 66.

67.—(1) No person shall be appointed to the Force unless he,

- (a) is a Canadian citizen or a British subject;
- (b) is between twenty-one and thirty-five years of age and produces a birth certificate or other proof of age;
- (c) is at least five feet and eight inches in height;
- (d) weighs not less than 160 pounds;
- (e) is certified by a legally qualified medical practitioner in the public service of Ontario to be in good health, mentally and physically, and fit for duty as a member of the Force;
- (f) produces satisfactory proof of having successfully completed at least two years secondary school education or its equivalent and passes the test required by the Commissioner; and

(g) is of good moral character and habits and submits at least three satisfactory references as to his character and previous employment.

(2) Notwithstanding clause *b* of subsection 1, a person,

(a) who is over thirty-five years of age;

(b) who is otherwise qualified under subsection 1; and

(c) who has served on a municipal police force in Ontario that has been or is about to be abolished or reduced in size,

may be appointed to the Force if the number of years that his age exceeds thirty-five years does not exceed the number of years of previous police experience.

(3) A certificate of the Commission that a person is eligible for appointment to the Force under subsection 2 shall be sufficient for the purpose. O. Reg. 451/69, s. 67.

68.—(1) The Commissioner may require the applicant to appear personally before him in order to determine his suitability for appointment.

(2) The Commissioner is not obliged to give any reason for the rejection of an applicant. O. Reg. 451/69, s. 68.

UNIFORM AND EQUIPMENT

69. All articles of uniform and equipment necessary for the performance of duty shall be provided at the public expense, but, where damage or loss is occasioned by the fault of a member of the Force, the cost of replacement shall be borne by him. O. Reg. 451/69, s. 69.

OATH OF AUXILIARY MEMBER

70. The oath to be taken and subscribed to by an auxiliary member of the Force shall be in Form 3. O. Reg. 451/69, s. 70.

TRANSITIONAL

71. Any charges laid before the 12th day of November, 1969 that have not been heard or finally determined, as the case may be, shall be heard and determined in accordance with this Regulation. O. Reg. 451/69, s. 71.

Schedule

CODE OF OFFENCES

1. Any chief of police, other police officer or constable commits an offence against discipline if he is guilty of,

i. DISCREDITABLE CONDUCT, that is to say, if he,

(a) acts in a disorderly manner, or in a manner prejudicial to discipline or likely to bring discredit upon the reputation of the police force;

(b) is guilty of oppressive or tyrannical conduct towards an inferior in rank;

(c) uses profane, abusive or insulting language to any other member of a police force;

(d) wilfully or negligently makes any false complaint or statement against any member of a police force;

(e) assaults any other member of a police force;

(f) withholds or suppresses a complaint or report against a member of a police force;

(g) is guilty of an indictable offence or an offence punishable upon summary conviction under the *Criminal Code* (Canada); or

(h) contravenes any provision of *The Police Act* or the regulations.

ii. INSUBORDINATION, that is to say, if he,

(a) is insubordinate by word, act or demeanour; or

(b) without lawful excuse, disobeys, omits or neglects to carry out any lawful order.

iii. NEGLIGENCE OF DUTY, that is to say, if he,

(a) without lawful excuse, neglects or omits promptly and diligently to perform a duty as a member of the police force;

(b) idles or gossips while on duty;

(c) fails to work in accordance with orders, or leaves an area, detachment, detail or other place of duty, without due permission or sufficient cause;

- (d) by carelessness or neglect permits a prisoner to escape;
- (e) fails, when knowing where an offender is to be found, to report him or to make due exertions for bringing him to justice;
- (f) fails to report a matter that it is his duty to report;
- (g) fails to report anything that he knows concerning a criminal or other charge, or fails to disclose any evidence that he, or any person within his knowledge, can give for or against any prisoner or defendant;
- (h) omits to make any necessary entry in any official document or book;
- (i) feigns or exaggerates sickness or injury to evade duty;
- (j) is absent without leave from or late for parade, court or any other duty, without reasonable excuse; or
- (k) is improperly dressed, dirty or untidy in person, clothing or equipment while on duty.

iv. DECEIT, that is to say, if he,

- (a) knowingly makes or signs a false statement in an official document or book;
- (b) wilfully or negligently makes a false, misleading or inaccurate statement pertaining to official duties; or
- (c) without lawful excuse destroys or mutilates an official document or record or alters or erases an entry therein.

v. BREACH OF CONFIDENCE, that is to say, if he,

- (a) divulges any matter which it is his duty to keep secret;
- (b) gives notice, directly or indirectly, to any person against whom any warrant or summons has been or is about to be issued, except in the lawful execution of such warrant or service of such summons;
- (c) without proper authority communicates to the public press or to any unauthorized person any matter connected with the police force;

- (d) without proper authority, shows to any person not a member of the police force or any unauthorized member of the force any book, or written or printed paper, document or report that is the property of the police force;
- (e) makes any anonymous communication to the Chief of Police or superior officer or authority;
- (f) canvasses, except as authorized by the Act or the regulations, any person in respect of a matter concerning the police force;
- (g) signs or circulates a petition or statement in respect to a matter concerning the police force, except through the proper official channel or correspondence or established grievance procedure; or
- (h) calls or attends any unauthorized meeting to discuss any matter concerning the police force.

vi. CORRUPT PRACTICE, that is to say, if he,

- (a) takes a bribe;
- (b) fails to account for or to make a prompt, true return of money or property received in an official capacity;
- (c) directly or indirectly solicits or receives a gratuity, present, pass, subscription or testimonial without the consent of the Chief of Police;
- (d) places himself under a pecuniary or other obligation to a licensee concerning the granting or refusing of whose licence a member of the police force may have to report or give evidence;
- (e) improperly uses his character and position as a member of the police force for private advantage;
- (f) in his capacity as a member of the police force writes, signs or gives, without the consent of the Chief of Police, a reference or recommendation to a member or former member of the police force, or any other police force; or
- (g) without the consent of the Chief of Police, supports in any way an application for a licence of any kind.

vii. UNLAWFUL OR UNNECESSARY EXERCISE
OF AUTHORITY, that is to say, if he,

- (a) without good and sufficient cause makes an unlawful or unnecessary arrest;
- (b) uses any unnecessary violence to a prisoner or other person contacted in the execution of duty; or
- (c) is uncivil to a member of the public.

viii. DAMAGE TO CLOTHING OR EQUIPMENT,
that is to say, if he,

- (a) wilfully or carelessly causes waste, loss or damage to any article of clothing or equipment, or to any book, document or other property of the police force; or
- (b) fails to report waste, loss or damage however caused.

ix. CONSUMING INTOXICATING LIQUOR IN A
MANNER PREJUDICIAL TO DUTY, that is to
say, if he,

- (a) while on duty is unfit for duty through drinking intoxicating liquor; or
- (b) reports for duty and is unfit for duty through drinking intoxicating liquor; or
- (c) except with the consent of a superior officer or in the discharge of duty, drinks or receives from any other person intoxicating liquor on duty; or
- (d) demands, persuades or attempts to persuade another person to give or purchase or obtain for a member of the police force any intoxicating liquor, while on duty.

x. LENDING MONEY TO A SUPERIOR.

xi. BORROWING MONEY FROM OR ACCEPTING A
PRESENT FROM ANY INFERIOR IN RANK.

2. Any chief of police, other police officer or constable also commits an offence against discipline and shall be liable to punishment as provided in the regulations, if he connives at, abets or is knowingly an accessory to any offence against discipline under this code. O. Reg. 451/69, Sched.

The Police Act

AUXILIARY MEMBER'S OATH

I,

do swear that I will well and truly perform the
functions of an auxiliary member of the

..... Police Force.

And that in the event of my being duly and lawfully authorized to perform police duties, I will well and truly serve Her Majesty the Queen in the office of constable of the said Police Force without favour or affection, malice or ill-will; and that, to the best of my ability, I will cause the peace to be kept and preserved, and prevent all offences against the persons and properties of Her Majesty's subjects; and that, while I continue to hold the said office, I will, to the best of my skill and knowledge, discharge all the duties thereof faithfully according to the law. So help me God. O. Reg. 451/69, Form 3.

REGULATION 681

under The Police Act

RESPONSIBILITY OF POLICING

1.—(1) The part of the village named in column 1 that is described in column 2 of Schedule 1 is designated as having a density of population and real property assessment sufficient to warrant the maintenance of a police force.

(2) The part of the townships and improvement districts designated as townships named in column 1 that is described in column 2 of Schedule 2 is designated as having a density of population and real property assessment sufficient to warrant the maintenance of a police force. O. Reg. 168/70, s. 1.

5. CHINGUACOUSY	— the whole
6. COLCHESTER SOUTH	— that part described as follows: Beginning at a point where the shore of Lake Erie is intersected by the boundary between the townships of Colchester South and Malden; thence northerly along that boundary to the southerly limit of the road allowance between the 1st and 2nd concessions of the Township of Colchester South; thence easterly along the southerly limit of the road allowance between the 1st and 2nd concessions to the boundary between the townships of Colchester South and Gosfield South; thence southerly along the last-mentioned boundary to the shore of Lake Erie; thence in a general westerly direction along the shore of Lake Erie to the place of beginning.
7. ESSA	— that part described as follows: Beginning at the point where the line between concessions 4 and 5 intersects the southerly limit of that part of the King's Highway known as No. 90; thence southerly along the said line between concessions 4 and 5 to its intersection with the northerly limit of Township Road No. 25; thence westerly along the said northerly limit and along its production westerly to the intersection of the said production westerly of Township Road No. 25 with the westerly limit of the Township of Essa; thence northerly along the said westerly limit to its intersection with the northerly limit of the Township of Essa; thence easterly along the said northerly limit and along the southerly limit of that part of the King's Highway known as No. 90 to the place of beginning; excepting therefrom that part of the Camp Borden Military Area lying within the limits of the area hereinbefore described.
8. ELLIOT LAKE	— the whole
9. GLOUCESTER	— the whole
10. GOSFIELD SOUTH	— that part described as follows: Beginning at a point where the shore of Lake Erie is intersected by the boundary between the townships of Gosfield South and Colchester South; thence northerly along that boundary to the northerly limit of Highway No. 18; thence easterly along the northerly limit of Highway No. 18 to its intersection with the westerly limit of the McCane Sideroad; thence northerly along the westerly limit of the McCane Sideroad to its intersection with the northerly limit of the Jack Miner Crown Game Preserve; thence easterly along the northerly limit of the Jack Miner Crown Game Preserve (or the 4th Concession Road) to the easterly limit of Division Road; thence southerly along the easterly limit of Division Road to the northerly limit of the 3rd Concession Road; thence along the northerly limit of the 3rd Concession Road to the boundary between the townships of Gosfield South and Mersea; thence southerly along the last-mentioned boundary to the shore of Lake Erie; thence in a general westerly direction along the shore of Lake Erie to the place of beginning; excepting therefrom any portion of the Town of Kingsville.

COLUMN 1	COLUMN 2
Name of Township	Part
11. INNISFIL	— the whole
12. MAIDSTONE	— that part described as follows; Beginning at a point where the shore of Lake St. Clair is intersected by that boundary between the townships of Maidstone and Sandwich East; thence southerly along that boundary to the northerly limit of the right of way of the Canadian Pacific Railway; thence easterly along the last-mentioned limit to the production southerly of the westerly boundary of the Town of Belle River; thence northerly to and along the westerly boundary of the Town of Belle River to the shore of Lake St. Clair; thence westerly along the shore of Lake St. Clair to the place of beginning; excepting therefrom the Village of St. Clair Beach.
13. MALDEN	(a) that part described as follows: Beginning at a point where the shore of Lake Erie is intersected by the boundary between the townships of Malden and Colchester South; thence northerly along that boundary to the southerly limit of Highway No. 18, abutting Lot 86 in the 8th Concession of the Township of Malden; thence westerly following the southerly limit of the highway to the westerly limit of a road running northerly therefrom and lying immediately east of Big Creek; thence northerly along the last-mentioned limit to the northerly limit of a road between lots 20 and 21 in the 2nd Concession of the township; thence westerly along the northerly limit of the road between lots 20 and 21 to the easterly limit of the road allowance between the 1st and 2nd concessions of the township; thence northerly along the easterly limit of the road allowance between the 1st and 2nd concessions to the southerly boundary of the Town of Amherstburg; thence westerly along the last-mentioned boundary to the easterly bank of Detroit River; thence southerly along the bank of Detroit River to the shore of Lake Erie; thence easterly along the shore of Lake Erie to the place of beginning; and (b) Bois Blanc Island—the whole
14. MARATHON	— the whole
15. MCGARRY	— the whole
16. MERSEA	— that part described as follows: Beginning at a point where the shore of Lake Erie is intersected by the boundary between the townships of Mersea and Gosfield South; thence northerly along the last-mentioned boundary to the southerly limit of the right of way of the Chesapeake and Ohio Railway; thence easterly along that southerly limit to the boundary between the townships of Mersea and Romney; thence southerly along the last-mentioned boundary to the shore of Lake Erie; thence southerly and northwesterly following the shore of Lake Erie to the place of beginning; excepting therefrom those parts of the Town of Leamington and the Village of Wheatley lying within the limits of the area herein-before described.
17. MICHIPICOTEN	— the whole
18. NEELON AND GARSON	
19. NEPEAN	— the whole

29. WAINFLEET	— that part described as follows: Beginning where the shore of Lake Erie is intersected by the boundary between the townships of Wainfleet and Humberstone; thence northerly along that boundary to the southerly limit of the right of way of the Canadian National Railways crossing the 1st Concession of the Township of Wainfleet; thence westerly along the southerly limit of the right of way to the boundary between the townships of Wainfleet and Moulton; thence southeasterly along the last-mentioned boundary to the shore of Lake Erie; thence in a general easterly direction following the shore of Lake Erie to the place of beginning.
30. WATERLOO	— the whole

O. Reg. 168/70, Sched. 2.

REGULATION 682

under The Power Commission Act

CONVERSION TO SIXTY CYCLES

1. Where the periodicity in alternations of current at which the Commission supplies electrical power or energy to any person is other than 60 cycles per second, the Commission shall change the periodicity in alternation of current to 60 cycles per second. R.R.O. 1960, Reg. 488, s. 1.

2. The Commission shall,

- (a) for the purposes of standardizing and making uniform the periodicity in alternations of current under section 1 at which it supplies electrical power or energy, alter, reconstruct, rebuild, re-assemble, construct, extend, replace, or do whatever else is necessary in respect of its works and works held by it under section 84 of the Act; and
- (b) for the purposes of standardizing and making uniform the periodicity in alternations of current under section 1 at which electrical power or energy generated or procured by it is utilized and with the consent of the owner alter, reconstruct, rebuild, re-assemble, construct, extend, replace or do whatever else is necessary in respect of the electrical equipment, apparatus, appliances, devices and works of any person by which the electrical power is taken and used, except meters of any municipal corporation or commission or the electrical equipment, apparatus, appliances, devices or works of any municipal corporation or commission used for distribution stations or distribution or street lighting systems. R.R.O. 1960, Reg. 488, s. 2.

3. The Commission shall bear the expense of anything done under clause *a* of section 2. R.R.O. 1960, Reg. 488, s. 3.

4. The Commission shall bear the expense of anything done under clause *b* of section 2 to the electrical equipment, apparatus, appliances, devices or works of commercial lighting consumers, or domestic or rural consumers other than rural power consumers. R.R.O. 1960, Reg. 488, s. 4.

5. The Commission shall charge to and collect from the owners of electrical equipment, apparatus,

appliances, devices or works other than the electrical equipment, apparatus, appliances, devices or works mentioned in section 4, the expense of anything done thereto under clause *b* of section 2 to the extent set forth in the tariff in the Schedule, after deducting,

- (a) \$250 for anything done to the aggregate of all the electrical equipment, apparatus, appliances, devices or works, other than those set forth in section 4, wherever situated, and

- (i) rented or lent, or

- (ii) for renting or lending,

by the owner to other persons; and

- (b) \$250 for each service furnished under a contract for power generated or procured by the Commission and used to operate electric equipment, apparatus, appliances, devices or works other than those set forth in section 4, to an owner who does not rent or lend or keep for renting or lending electrical equipment, apparatus, appliances, devices or works other than those set forth in section 4,

and shall bear the balance of such expense. R.R.O. 1960, Reg. 488, s. 5.

6. Where a 25/60-cycle dual-frequency motor does not successfully start and operate a driven unit of equipment coupled thereto, after proper terminal connections have been made at the motor and 60-cycle power at approximately rated voltage has been applied, the Commission shall replace that motor with a 60-cycle motor and the expense shall be computed as follows:

- 1. For replacing a single-phase dual-frequency motor, the cost prescribed in item 1 of column 3 of the tariff in the Schedule, based on the 25-cycle rating of the dual-frequency single-phase motor being replaced.
- 2. For replacing a dual-frequency squirrel-cage three-phase induction motor, the cost prescribed in item 2 of column 3 of the tariff in the Schedule, based on the 25-cycle rating of the dual-frequency three-phase squirrel-cage induction motor being replaced. R.R.O. 1960, Reg. 488, s. 6.

Schedule

TARIFF

Item No.	Column 1 Type of present electrical equipment, apparatus, appliance, device or work	Column 2 Rated capacity in horse-power of items in column 1		Column 3 Cost of altering, reconstructing, rebuilding, re-assembling, constructing, extending, replacing or doing whatever else is necessary in respect of the items in column 1, determined where applicable by the capacity in column 2
		Minimum	Maximum	
1	25-cycle single-phase motor	nil over 1 over 3	1 3 7.5	\$50.00 per horse-power 40.00 per horse-power 30.00 per horse-power
2	25-cycle three-phase squirrel-cage induction motor	nil over 1 over 1.5 over 2 over 3 over 5 over 7.5 over 10 over 15 over 25	1 1.5 2 3 5 7.5 10 15 25 150	30.00 per horse-power 27.00 per horse-power 23.00 per horse-power 18.00 per horse-power 12.00 per horse-power 11.00 per horse-power 10.00 per horse-power 9.00 per horse-power 8.00 per horse-power 7.00 per horse-power
3	25/60-cycle dual-frequency motors based on 25-cycle rating, (a) single-phase motor (i) (ii) (iii) (b) three-phase squirrel-cage induction motor (i) (ii) (iii) (iv) (v) (vi) (vii) (viii) (ix) (x)	nil over 1 over 3 nil over 1 over 1.5 over 2 over 3 over 5 over 7.5 over 10 over 15 over 25	1 3 7.5 1 1.5 2 3 5 7.5 10 15 25 150	25.00 per horse-power 20.00 per horse-power 15.00 per horse-power 15.00 per horse-power 13.50 per horse power 11.50 per horse-power 9.00 per horse-power 6.00 per horse-power 5.50 per horse-power 5.00 per horse-power 4.50 per horse-power 4.00 per horse-power 3.50 per horse-power
4	25-cycle motors not included in items 1, 2 and 3 and frequency changers			60 per cent of the price at date of purchase of any new or used motor or frequency changer set, including exciter and spare coils, or 60 per cent of the cost incurred in altering, reconstructing or rebuilding a motor or a frequency changer set, including exciter and the replacement of spare coils, or 60 per cent of the price at date of purchase of transformers, including related switching equipment or other types of equipment required to replace a frequency changer

Item No.	Column 1 Type of present electrical equipment, apparatus, appliance, device or work	Column 2 Rated capacity in horsepower of items in column 1		Column 3 Cost of altering, reconstructing, rebuilding, re-assembling, constructing, extending, replacing or doing whatever else is necessary in respect of the items in column 1, determined where applicable by the capacity in column 2
		Minimum	Maximum	
5	25-cycle rotary converters, non-rotating rectifying equipment, motor-generator sets, and welding sets			60 per cent of the price at date of purchase of any new or used rotary converter, motor-generator set or welding set, including exciters and spare coils, or 60 per cent of the price at date of purchase of non-rotating rectifying equipment, including related transformers and controls, purchased to replace rotary converters and non-rotating rectifying equipment or other types of equipment required to replace a motor-generator set or welding set, or 60 per cent of the cost incurred in altering, reconstructing or rebuilding a rotary converter, motor-generator set or welding set, including exciter and the replacement of spare coils, or 60 per cent of the cost incurred in altering, reconstructing or rebuilding non-rotating rectifying equipment, including related transformers and controls
6	25-cycle voltage-transformers rated 3 kilo-volt amperes or over			30 per cent of the price at date of purchase of any new transformer, or 30 per cent of the cost incurred in altering, reconstructing or rebuilding any transformer

REGULATION 683

under The Power Commission Act

ELECTRICAL SAFETY CODE

SECTION 0—INTERPRETATION

0-002 In this Code:

1. "acceptable" means acceptable to an inspector;
2. "accessible" when applied to wiring methods means that the wiring is not permanently closed in by the structure or finish of a building and is capable of being removed without disturbing the building structure or finish;
3. "accessible" when applied to electrical equipment means that the equipment may be closely approached because it is not guarded by locked doors, elevation, or other effective means;
4. "alive" or "live" means electrically connected to a source of potential difference, or electrically charged so as to have a potential different from that of the earth; and in this Code "current-carrying" has the same meaning where the intention is clear;
5. "aluminum-sheathed cable" means a cable consisting of one or more conductors of approved type assembled into a core and covered with a liquid- and gas-tight sheath of aluminum or aluminum alloy;
6. "ampacity" means current-carrying capacity expressed in amperes;
7. "approved", when applied to electrical equipment, means that the advertisement, display, use, installation, sale, offer for sale or other disposal of the electrical equipment has been authorized under Section 2 of this Code, and when applied to any other articles, methods or things means that the articles, methods or things are approved by the inspection department for the particular use or purpose to which the articles, methods or things are put or for which they are employed;
8. "approved fire-door" means a fire-door including the hardware which has been approved and labelled by the Underwriters' Laboratories of Canada or Underwriters' Laboratories Incorporated, for the location in which it is used;
9. "armour" means a wrapping of galvanized interlocking steel strip or other approved metal, forming an integral part of the assembly of certain insulated cables, wires, or cords;
10. "armoured-cable" means a cable provided with a wrapping of metal tape other than lead, which wrapping forms an integral part of the assembly;
11. "authorized person" means a qualified person who by the nature of his duties or occupation is obliged to approach or handle electrical equipment, or a person who, having been warned of the hazards involved, has been instructed or authorized to do so by someone having authority to give the instruction or authorization;
12. "auxiliary gutter" means a raceway consisting of a sheet metal enclosure used to supplement the wiring space of electrical equipment and to enclose interconnecting conductors;
13. "AWG" means the American (or Brown and Sharpe) wire gauge as applied to non-ferrous conductors and non-ferrous sheet metal;
14. "branch circuit" means that part of a circuit extending beyond the final overcurrent devices in the circuit;
15. "building" means a structure that stands alone or which is cut off from adjoining structures by unpierced fire-walls or by openings protected by approved fire-doors;
16. "bus" means a conductor which serves as a common connection for the corresponding conductors of two or more circuits;
17. "busway" means a raceway consisting of a system of metal troughing, including its elbows, tees, crosses and straight runs, containing conductors supported on insulators;
18. "cabinet" means an enclosure of adequate mechanical strength, composed entirely of fire- and absorption-resistant material, designed either for surface or flush mounting and provided with a frame, matt, or trim, in which swinging doors are hung;
19. "cabletrough" means a raceway consisting of a system of metal troughing, and fittings therefor, so formed and constructed that insulated conductors and cables may be readily installed or removed after the system has been completely installed, without injury either to conductors or their covering; and
 - (a) "ladder cabletrough" means a cabletrough with openings exceeding 2 inches in a longitudinal direction;
 - (b) "non-ventilated cabletrough" means a cabletrough in which there are no ventilating openings in the bottom or sides;
 - (c) "ventilated cabletrough" means a cabletrough having adequate ventilating openings with no opening exceeding 2 inches in a longitudinal direction;

20. "cell" means a single, enclosed tubular space in a cellular metal-floor member, the axis of the space being parallel to the axis of the metal-floor member;
21. "cellular" when applied to a metal-floor or part thereof means that the metal-floor or part thereof is so constructed as to contain one or more cells;
22. "cellular metal-floor raceway" means the cells of cellular metal-floors which, with suitable fittings, may be approved as enclosures for electrical conductors;
23. "circuit" means a path usually of metal through which electric current can flow;
24. "circuit-breaker" means an electro-mechanical device designed to automatically open a current-carrying circuit on a pre-determined over-current, under both overload and short-circuit conditions without injury to the device;
25. "communication circuit" means a circuit which is part of a communication system;
26. "communication system" means an electrical system whereby intelligence signals may be transmitted to or through a central station, including telephone, telegraph, district messenger, fire and burglar alarm, watchman or sprinkler supervisory-system, and other central station systems, which commonly receive the power supply necessary for their operation from central office or local power sources, but does not include radio communication equipment;
27. "concealed" means rendered permanently inaccessible by the structure or finish of a building;
28. "conductor" means a wire, cable or other form of metal installed for the purpose of conveying electric current from one piece of electrical equipment to another or to ground;
29. "conduit" means a raceway of circular cross-section into which it is intended that conductors be drawn, and includes metallic and non-metallic rigid conduit and flexible conduit; and,
 - (a) "rigid conduit" means a rigid conduit of metallic or non-metallic material;
 - (b) "rigid metal conduit" means a rigid conduit of metallic material having the same dimensions as standard pipe and suitable for threading with standard pipe thread;
 - (c) "rigid non-metallic conduit" means a rigid conduit of non-metallic material which may not be threaded;
 - (d) "rigid PVC conduit" means a rigid non-metallic conduit of unplasticized poly-vinyl chloride;
 - (e) "rigid Type I non-metallic conduit" means a rigid non-metallic conduit of bituminized fibre or asbestos cement which requires to be encased in concrete;
 - (f) "rigid Type II non-metallic conduit" means a rigid non-metallic conduit of bituminized fibre or asbestos cement of heavier construction than Type I, which does not require to be encased in concrete;
- (g) "flexible conduit" means a conduit of metallic material which may be easily bent without the use of tools;
- (h) "liquid-tight flexible metal conduit" means a flexible metal conduit having an outer liquid-tight jacket;
30. "connection authorization" means written permission by the inspection department to a supply authority, or any other person or corporation, to supply electric energy to a particular electrical installation;
31. "contractor" means any person who as principal, servant or agent, by himself or his associates, employees, servants or agents performs or engages to perform either for his own use and benefit or for that of another and for or without remuneration or gain any work with respect to any electrical installation or any other work to which this Code applies;
32. "cut out box" means an enclosure of adequate mechanical strength, composed entirely of fire-resistant and absorption-resistant material, designed for surface mounting and having swinging doors or covers secured directly to, and telescoping with, the walls of the box proper;
33. "dead" when applied to electrical equipment means that the current-carrying electrical equipment is free from any electrical connection to a source of potential difference and from electrical charge or has not a potential different from that of earth;
34. "dead front" when applied to electrical equipment means that the electrical equipment is so constructed that all live parts, except the wells for plug fuses in panelboards and in enclosed branch-circuit cut-outs, are enclosed in such manner as to be inaccessible;
35. "different systems" means systems which derive their energy from different transformers or from different banks of transformers or from different generators or other sources;
36. "disconnecting means" means a device, group of devices, or other means whereby the conductors of a circuit can be disconnected from their source of supply;
37. "dust-tight" means an enclosure constructed so that dust cannot enter it;
38. "duty" means a requirement of service that specifies the degree of regularity of the load; and,
 - (a) "continuous duty" means a requirement of service that demands operation at a substantially constant load for an indefinitely long time;
 - (b) "short time duty" means a requirement of service that demands operation at a substantially constant load for a short and definitely specified time;
 - (c) "intermittent duty" means a requirement of service that demands operation for definitely specified alternate intervals of,

- (i) load and no load,
 - (ii) load and rest, or
 - (iii) load, no load and rest;
 - (d) "periodic duty" means a type of intermittent duty in which the load conditions are regularly recurrent;
 - (e) "varying duty" means a requirement of service that demands operation at loads and for intervals of time, both of which may be subject to wide variation;
39. "electrical equipment" means any apparatus, appliance, device, instrument, fitting, fixture, machinery, material or thing used in or for, or capable of being used in or for, the generation, transformation, transmission, distribution, supply, or utilization of electric power or energy, and without restricting the generality of the foregoing, includes any assemblage or combination of materials or things which is used, or is capable of being used, or adapted to serve or perform any particular purpose or function when connected to an electrical installation, notwithstanding that any of such materials or things are mechanical, metallic or non-metallic in origin;
40. "electrical installation" means a system or part of a system of wiring installed or to be installed in or upon any land, building or premises from the point or points of delivery of electric power or energy therein or thereon, up to the point or points where the power or energy can be consumed or used therein or thereon by any electrical equipment, and the expressions "work on an electrical installation" or "make an electrical installation" include the installation, maintenance, alteration, extension and repair of the wiring and the connection of the wiring with any of the electrical equipment or with any other part of the wiring system;
41. "electrical metallic tubing" means a metal raceway into which it is intended that conductors shall be drawn, and which has a circular cross-section, a wall thinner than that of rigid metal conduit and an outside diameter sufficiently different from that of rigid conduit to render it impracticable for threading it with standard pipe-thread;
42. "electric elevator" means an elevator in which the motion of the car or platform is obtained through an electric motor applied directly to the elevator machinery;
43. "elevator" means a hoisting and lowering mechanism equipped with a car or platform which moves in guides in a substantially vertical direction but not including tiering-machines or piling-machines which operate within one storey, or endless belts, conveyors, chains, buckets or similar devices used for the purpose of elevating materials;
44. "elevator machinery" means the machinery and its equipment used in raising and lowering the elevator car or platform;
45. "emergency and exit lights" means all lights required by law for the purpose of facilitating safe exit in case of fire or other emergency;
46. "enclosure" means a protective housing for switchgear, switches, air circuit breakers, panelboards, industrial control equipment and similar apparatus; and
- (a) "enclosure I" means a general purpose enclosure of metal or other suitable material, designed to protect live parts from accidental contact, which is suitable for use indoors in ordinary locations;
 - (b) "enclosure II" means a drip-tight enclosure similar to an enclosure I but constructed or protected by the addition of drip shields or their equivalent capable of preventing moisture or dirt from accumulating on the enclosure and which is suitable for use indoors where the enclosure may be subject to falling moisture or dirt;
 - (c) "enclosure III" means a weatherproof enclosure constructed or protected so that exposure of the enclosure to weather, falling moisture or external splashing will not impair the effectiveness of the enclosed equipment and which is suitable for use outdoors;
 - (d) "enclosure IV" means a watertight enclosure constructed so that a direct stream of water from a hose cannot penetrate into the enclosure and which is suitable for use where the enclosure may be subject to direct streams of water;
 - (e) "enclosure V" means a dust-tight enclosure constructed so that dust, readily ignitable fibres or combustible flyings can not penetrate into the enclosure and which is suitable for use indoors in Class III hazardous locations or where the atmosphere may contain a substantial quantity of non-hazardous dust.
47. "explosion-proof" means enclosed in a case which is capable of withstanding without damage an explosion which may occur within it of a specified gas or vapour and which is also capable of preventing the ignition of a specified gas or vapour surrounding the enclosure from sparks, flashes or explosion of the specified gas or vapour within the enclosure;
48. "exposed" as applied to live parts means that a live part can be inadvertently touched or approached more closely than is safe by any person and the term is applied to parts not suitably guarded, isolated or insulated;
49. "exposed" as applied to wiring methods means not concealed;
50. "extra-low-voltage power circuit" means a circuit, such as valve operator and similar circuits, which is neither a remote control circuit nor a signal circuit, but which operates at not more than 30 volts and which is supplied from a transformer or other device restricted in its rated output to 1,000 volt-amperes and approved for the purpose, but in which the current is not limited in accordance with the requirements for a Class 2 circuit;
51. "feeder" means a conductor or group of conductors which transmits electrical energy from a service supply, transformer, switchboard,

distribution centre, generator, or other source of supply to the branch-circuit over-current devices;

52. "fire resisting" as applied to buildings means constructed of masonry, reinforced concrete, or equivalent materials in accordance with the requirements of the fire underwriters;
53. "flame-retarding" when applied to a material means that the material will not burn for more than a specified period of time and will not permit flame to travel or extend beyond a specified distance;
54. "flammable" means capable of being easily set on fire;
55. "flexible tubing" means flexible non-metallic tubing commonly known as loom for the mechanical protection of insulated wires;
56. "garage" means a building or portion of a building in which one or more self-propelled vehicles carrying volatile, flammable liquid for fuel or power are kept;
57. "ground" means a connection to earth of electrical equipment by means of a ground electrode;
58. "ground electrode" means a metallic water-piping system, or a metallic object or device buried in, or driven into, the earth so as to make intimate contact therewith, to which a grounding conductor is electrically and mechanically connected;
59. "ground fault circuit interrupter" means a device which will interrupt the circuit to the load when the effective ground fault current is 5 milliamperes or more in a time;

- (a) not greater than that calculated in accordance with the equation

$$T = \left(\frac{20}{I} \right)^{1.43}$$

where T is the time in milliseconds, and I is the effective ground fault current in milliamperes between the 5 and 260 milliamperes;

and

- (b) not greater than 25 milliseconds for ground fault currents of over 260 milliamperes;

and which will interrupt the circuit to the load in accordance with the foregoing requirements in the event that the neutral conductor should become grounded between the ground fault circuit interrupter and the load;

60. "grounded" means connected effectually with the general mass of the earth through a grounding system of sufficiently low impedance and having current-carrying capacity sufficient at all times, under the most severe conditions which are likely to arise in practice, to prevent any current in the grounding conductor from causing a harmful voltage to exist;
- (a) between the grounded conductors and neighboring exposed conducting surfaces which are in good contact with the earth; or

- (b) between the grounded conductors and neighboring surfaces of the earth itself;

61. "grounding conductor" means a path of copper or other suitable metal specially arranged as a means whereby electrical equipment is electrically connected to a ground electrode;
62. "grounding system" means all conductors, clamps, ground clips, ground plates or pipes, and ground electrodes by means of which electrical equipment or an electrical installation is grounded;
63. "guarded" when applied to electrical equipment means that the electrical equipment is so covered, shielded, fenced, enclosed, or otherwise protected by means of suitable covers, casings, barriers, rails, screens, mats or platforms as to remove the likelihood of dangerous contact or approach by persons or objects;
64. "header" means a transverse raceway for electrical conductors, providing access to predetermined cells of a cellular metal-floor and permitting the installation of conductors from a distribution centre to the cells;
65. "hoistway" means a shaftway, hatchway, well hole, or other vertical opening or space in which an elevator, escalator or dumbwaiter operates or is intended to operate;
66. "identified" when applied to a conductor means that the conductor has a white or gray covering or separator, has a tracer in the outer braid or has some other approved means of identification indicating that the conductor is a grounded conductor, and when applied to other electrical equipment means that the terminals to which grounded conductors are to be connected have been distinguished for identification by being tinned, nickel-plated or otherwise suitably marked;
67. "inaccessible" when applied to a room or compartment means that the room or compartment is sufficiently remote from access or so placed or guarded that unauthorized persons cannot inadvertently enter the room or compartment, and when applied to electrical equipment means that the electrical equipment is covered by the structure or finish of the building in which it is installed or maintained or is sufficiently remote from access or so placed or guarded that unauthorized persons cannot inadvertently touch or interfere with the equipment;
68. "industrial establishment" means a building or part of a building in which any manufacturing process, assembling or handling of materials in connection with the manufacturing, preparing, treating or finishing of any goods or products, is carried on;
69. "inspection department" means The Hydro-Electric Power Commission of Ontario;
70. "inspector" means any person duly appointed by the inspection department for the purpose of enforcing this Code;
71. "insulated" means separated from other conducting surfaces by a dielectric material or

- air space having a degree of resistance to the passage of current and to disruptive discharge sufficiently high for the condition of use;
72. "insulating" as applied to non-conducting substances means that they are capable of bringing about the condition defined as insulated;
 73. "lamp holder" means a device constructed for the mechanical support of lamps and for connecting them to circuit conductors;
 74. "location",
 - (a) "ordinary location" means a dry location in which at normal atmosphere pressure and under normal conditions of use, electrical equipment is not unduly exposed to injury from mechanical causes, excessive dust, moisture, or extreme temperatures, and in which electrical equipment is entirely free from the possibility of injury through corrosive, flammable or explosive atmospheres;
 - (b) "damp location" means a location which is normally or periodically subject to condensation of moisture in, on or adjacent to electrical equipment;
 - (c) "wet location" means a location in which liquids may drip, splash or flow on or against electrical equipment;
 - (d) "hazardous location" means premises, buildings, or parts thereof in which there exists the hazard of fire or explosion because,
 - (i) highly flammable gases, flammable volatile liquids, mixtures or other highly flammable substances are manufactured or used or are stored in other than original containers,
 - (ii) combustible dust or flyings are likely to be present in quantities sufficient to produce an explosive or combustible mixture, or where it is impracticable to prevent such dust or flyings from being deposited upon incandescent lamps or from collecting in or upon motors or other electrical equipment in such quantities as to produce overheating by reason of the prevention of normal radiation,
 - (iii) easily ignitable fibres or materials producing combustible flyings are manufactured, handled or used in a free open state, or
 - (iv) easily ignitable fibres or materials producing combustible flyings are stored in bales or containers but are not manufactured, handled or used in a free open state;
 75. "low-energy power circuit" means a circuit other than a remote control or signal circuit for which the power supply is limited in accordance with the requirements for Class 2 remote control circuits;
 76. "low-voltage protection" means the effect of a device operative on the reduction or failure of voltage to cause and maintain the interruption of power to the main circuit;
 77. "low-voltage release" means the effect of a device operative on the reduction or failure of voltage to cause the interruption of power to the main circuit, but not to prevent its re-establishment on the return of voltage to safe operating value;
 78. "machine tool, metal cutting" means a power driven device, not portable by hand, used for the purpose of removing metal in the form of chips;
 79. "machine tool, metal forming" means a power driven machine not portable by hand, used to press, forge, emboss, hammer, blank or shear metals;
 80. "metallic water-piping system" means,
 - (a) an active, underground, public water supply system having metallic mains and services;
 - (b) an active, underground, private water supply system having at least 100 feet of metal pipe buried in the ground; or
 - (c) the metallic casing, not less than 3 inches in diameter, of an artesian well;
 81. "mill construction" as applied to a building means one in which walls are of masonry or reinforced concrete and an interior framing of wood, with plank or laminated wood floors and roofs, and in which the interior structural elements are arranged in heavy solid masses and smooth flat surfaces assembled to avoid thin sections, sharp projections, and concealed or inaccessible spaces, but the interior framing may be partly or entirely of protected steel or concrete and the floors and roofs may be constructed in whole or in part of incombustible material;
 82. "mineral-insulated cable" means a cable having one or more bare solid conductors supported and insulated by a highly compressed refractory material enclosed in a liquid-tight and gas-tight metallic tube sheathing and the term includes both the regular type (MI) and the light-weight type (LWMI) unless otherwise qualified;
 83. "MSG" means the Manufacturer's Standard Gauge for uncoated steel;
 84. "multi-outlet assembly" means a surface or flush enclosure carrying conductors for extending one branch-circuit to two or more receptacles of the grounding type which are attached to the enclosure;
 85. "multi-wire branch circuit" means a branch circuit consisting of two or more ungrounded conductors having a potential difference between them and an identified ground conductor having equal potential between it and each ungrounded conductor, and in which the grounded conductor is connected to the neutral conductor of the system;

86. "neutral conductor" means that conductor of a polyphase circuit, or of a single-phase, 3-wire circuit having an approximately uniform potential difference and an equal spacing in phase with each of the other conductors;
87. "noncombustible" means incapable of sustaining combustion in air, either when ignited or when subjected to and maintained at a high temperature;
88. "non-incendive circuit" means a circuit or part of a circuit in which any sparking that may be produced by normally arcing parts is incapable, under normal operating conditions, of causing an ignition of the prescribed flammable gas or vapour;
89. "open" as applied to electrical equipment means that moving parts, windings or live parts are exposed to accidental contact;
90. "outlet" means a point on the wiring system at which current is taken to supply fixtures, lamps, heaters, motors and electrical equipment generally;
91. "out-of-reach" means that equipment is located more than 5 feet horizontally or more than 8 feet vertically from any floor, platform or other surface from which it would otherwise be readily accessible;
92. "over current device" means any device capable of automatically opening an electric circuit both under predetermined overload and short-circuit conditions, either by fusing of metal or by electro-mechanical means;
93. "overload device" means a device affording protection from excess current, but not necessarily short-circuit protection, and capable of automatically opening an electric circuit either by the fusing of metal or by electro-mechanical means;
94. "panelboard",
- (a) "panelboard" means an assembly of buses and connections, over-current devices and control apparatus with or without switches, or other equipment, constructed for installation as a complete unit in a cabinet; and
 - (b) "enclosed panelboard" means an assembly of buses and connections, over-current devices and control apparatus with or without switches, or other equipment, installed in a cabinet;
95. "plenum" means a chamber associated with air-handling apparatus, for distributing the processed air from the apparatus (supply plenum) to the supply ducts, or for receiving air to be processed by the apparatus (return plenum);
96. "portable" when applied to electrical equipment means the equipment is specifically designed not to be used in a fixed position and receives current through the medium of a flexible cord or cable, and usually a detachable plug;
97. "potential",
- (a) "extra low potential" means any potential up to and including 30 volts;
 - (b) "low potential" means any potential from 31 to 750 volts inclusive;
 - (c) "high potential" means any potential above 750 volts;
98. "protected" as applied to electrical equipment means the equipment is constructed so that the electrical parts are enclosed so as to protect the equipment against damage from the intrusion of foreign objects;
99. "qualified person" means a person familiar with the construction and operation of the apparatus and the hazards involved;
100. "raceway" means any channel for holding wires, cables or bus bars, which is designed expressly for and used solely for this purpose, and unless otherwise qualified in this Code, includes rigid, flexible, metallic and non-metallic conduit, electrical metallic tubing, underfloor raceways, cellular metal-floor raceways, surface raceways, wire-ways, cable-troughs, busways and auxiliary gutters;
101. "readily accessible" means capable of being reached quickly without climbing over or removing obstacles or resorting to portable ladders, chairs or similar aids;
102. "receptacle" means a contact device installed in an outlet for the connection of a portable lamp or appliance by means of a plug and flexible cord;
103. "remote control circuit" means any electrical circuit which controls any other circuit through a relay or an equivalent device;
104. "repellent" used as a suffix (such as moisture-repellent) means constructed, treated or surfaced so that liquid will tend to run off, and cannot readily penetrate the surface;
105. "resistant" used as a suffix means constructed, protected or treated so that it will not be injured readily when subjected to the specified material or condition;
106. "service",
- (a) "consumer's service" means all that portion of the consumer's installation from the service box or its equivalent up to and including the point at which the supply authority makes connection;
 - (b) "supply service" means any one set of conductors run by a supply authority from its mains to a consumer's service;
 - (c) "service agreement" means a form of agreement prescribed or approved by the inspection department and pertaining to the labelling or re-examination of approved electrical equipment;
 - (d) "service box" means an approved assembly consisting of a metal box or cabinet constructed so that it may be effectually

locked or sealed, containing either service fuses and a service switch or a circuit breaker and of such design that either the switch or circuit breaker may be manually operated when the box is closed;

107. "service or filling station" means premises or portions of premises on which are installed pumps or other devices used for the purpose of receiving or delivering volatile flammable liquids to or from vehicles;
108. "shock-proof" as applied to X-ray and high-frequency equipment, means that the equipment is guarded with grounded metal so that no person can come into contact with any live part;
109. "signal circuit" means any electrical circuit, other than a communication circuit, which supplies energy to a device which gives a recognizable audible or visible signal, such as circuits for doorbells, buzzers, code-calling systems, signal lights and similar devices;
110. "slow-burning" as applied to conductor insulation means the insulation has flame-retarding properties;
111. "soldered" means a uniting of metallic surfaces by the fusion thereon of a metallic alloy, usually of lead and tin;
112. "special permission" means the permission of an inspector;
113. "splitter box" means a metal troughing or box containing terminal blocks, or bus bars, having main terminals and distribution terminals, with bare live parts supported by insulating material;
114. "supply authority" means any person, firm, corporation, company, commission or other organization supplying electric power or energy;
115. "surface raceway" means a raceway in the form of a metal channel with a backing and capping for loosely holding conductors and cables in surface wiring;
116. "switch" means a device for making, breaking, or changing connection in a circuit; and
 - (a) "general use switch" means a switch intended for use in general distribution and branch-circuits and which is rated in amperes and capable of interrupting its rated current at rated voltage;
 - (b) "indicating switch" means a switch designed or marked to show readily whether the switch is in an "On" or "Off" position;
 - (c) "isolating switch" means a switch intended for isolating a circuit or electrical equipment from the source of supply of electrical power or energy, but does not include a switch intended for establishing or interrupting the flow of current in a circuit;
 - (d) "motor-circuit switch" means a fused or unfused manually-operated knife or snap switch rated in horsepower;
117. "switchboard" means a panel or assembly of panels on which is mounted any combination of switching, measuring, controlling and protective devices, buses, and connections, designed with a view to successfully carrying and rupturing the maximum fault current encountered when controlling incoming and outgoing feeders;
118. "system" means an electrical system in which all conductors and the apparatus are designedly capable of being readily connected electrically by metallic contact to a common source of potential difference;
119. "theatre" means a building, or any portion thereof, which is used for public dramatic, operatic, motion-picture or other performances;
120. "thermal cut out" means a device affording protection from excessive current but not necessarily short-circuit protection, and containing a heating element in addition to, and affecting, a fusible member which opens the circuit;
121. "underfloor-raceway" means a raceway suitable for use in the floor;
122. "utilization equipment" means equipment which utilizes electrical power or energy for mechanical, chemical, heating, lighting, or similar useful purposes;
123. "vault" means an isolated enclosure, either above or below ground, with fire-resistant walls, ceilings and floors, for the purpose of housing transformers or other electrical equipment;
124. "ventilated flexible cableway" (VFC) means a ventilated metal raceway into which conductors may be drawn, designed so as to be rigid in one plane and flexible in another plane at a 90 degree angle to the first plane and constructed so that approximately 30 per cent of its surface consists of ventilating openings;
125. "voltage of a circuit" means the greatest effective voltage between any two conductors of the circuit concerned.
126. "voltage to ground" means the voltage between any live ungrounded part and any grounded part in the case of grounded circuits, or the greatest voltage existing in the circuit in the case of ungrounded circuits;
127. "waterproof" when applied to electrical equipment means that the equipment is so constructed or protected that moisture cannot enter in quantity sufficient to interfere with the effective operation of the equipment, and when applied to a substance means that the substance is impervious to moisture;
128. "water-tight" when applied to enclosed electrical equipment means that the equipment is so constructed that moisture cannot enter the enclosing case;
129. "wire television distribution system" means a distribution system of coaxial or other suitable cable or wire, together with any necessary amplifiers, which is used in the transmission of television signals;

130. "wire-way" means a raceway consisting of a completely enclosed system of metal troughing, and fittings therefor, so formed and constructed that insulated conductors may be readily drawn in and withdrawn, or laid in and removed, after the system has been completely installed without injury either to conductors or their covering.

SECTION 2—GENERAL RULES

General

2-000 This Code does not apply to,

- (1) electrical equipment and electrical installations used exclusively in the generation, transformation, or transmission of electrical power or energy intended for sale or distribution to the public subject to the requirements of Rules 10-004 to 10-018 inclusive;
- (2) electrical equipment and electrical installations used by telephone and telegraph companies in the operation of communication facilities subject to the requirements of Section 60;
- (3) electrical equipment and electrical installations in the cars, car-houses, passenger stations or freight stations used in the operation of an electric railway or electric street railway and supplied with electric current from the railway power-circuit;
- (4) aircraft;
- (5) a mine as defined in *The Mining Act* save only as regards any dwelling house or other building not connected with or required for mining operations or purposes or used for the treatment of ore or mineral;
- (6) a ship as defined by the *Canada Shipping Act* unless it is connected to a shore supply of electricity for a period exceeding five months.

2-002 Special Requirements. Sections devoted to rules governing particular types of installations are not intended to embody all rules governing these particular types of installations, but cover only those special rules or regulations which are additional to or amendatory of those prescribed in other sections covering installations under ordinary conditions.

2-004 Inspection

- (1) A contractor shall file with the inspection department a completed application for inspection of any work on an electrical installation:
 - (a) Before the commencement of the work where electrical power or energy has not been previously supplied to the land, building or premises on which the work is to be performed; or
 - (b) Before the electrical installation is used for any purpose where electrical power or energy has been previously supplied to the land, building or premises on which the work was performed; and
 - (c) Pay the fees prescribed by the inspection department therefor.
- (2) An application for inspection which has been refused in accordance with the provisions of Rule 2-008 shall, for purposes of Subrule (1) hereof, be deemed not to be a completed application.

- (3) Subject to the provisions of Rule 2-008, payment of the fees prescribed by the inspection department entitles the contractor to one complete inspection of the installation.

- (4) Every contractor who makes an electrical installation is responsible for procuring its inspection by the inspection department before the installation is used for any purpose.

- (5) The contractor shall give to the inspection department at least forty-eight hours' notice in writing that the work on the electrical installation has been completed and that the installation is ready for inspection but where the work is being performed in a remote district or is not immediately accessible for any other reason the notice shall be of such greater length as is necessary to accommodate the inspection schedule of the inspection department.

- (6) The inspection shall be made at such time and in such manner as the inspection department determines.

- (7) No electrical installation shall be concealed or rendered inaccessible, until it has been inspected by the inspection department and found to conform to this Code.

2-006 Annual Inspection

- (1) An annual application for inspection may be made by the owner or occupant of any manufacturing, mercantile or other building where in the opinion of the inspection department electrical installation work of a routine nature in connection with the maintenance or operation of the building or the plant therein is required to be performed at frequent intervals, and where the owner or occupant employs his own electricians for the purpose.

- (2) Acceptance of the application by the inspection department shall authorize the commencement and carrying out of such work during the year for which the acceptance is issued and Rule 2-004 does not apply.

- (3) The owner or occupant shall as the work is performed record it on a form provided by the inspection department which shall be produced to any inspector of the inspection department at any time and from time to time upon request and the inspection shall be made at such time and in such manner as the inspection department determines.

2-008 Right of Refusal. The inspection department may refuse an application for inspection to any person who has failed to pay any fees or dues owing to the inspection department for a period of more than thirty days or who has failed to remedy defects in any electrical work or installation after having been notified by the inspection department that the defects exist, until the fees have been paid or the defects have been remedied.

2-010 Plans and Specifications. No contractor shall commence work on any electrical installation consisting of:

- (a) The installation of a wiring system in any public building, commercial or industrial establishment, apartment house or other building in which the public safety may be involved;
- (b) A large light-and-power installation; or

- (c) The installation of generators, transformers, switchboards, large storage batteries and similar equipment,

or that in the opinion of the inspection department is of special magnitude or nature without first filing with the inspection department in duplicate, or in greater number if required, complete wiring plans and specifications relating to the proposed work and obtaining the written approval of the inspection department thereof.

2-012 Connection Authorization

(1) Where any electrical installation or part thereof to which electric power or energy has not previously been supplied is made in or upon any land, building or premises or where any electrical installation or part thereof has been disconnected or cut off from any service or other source of supply under this Code, no supply authority, contractor or other person shall connect or re-connect the installation or part thereof to any service or other source of supply unless:

- (a) The installation and all work in respect thereof have been inspected by the inspection department and found to conform to this Code; and
- (b) A connection authorization has been issued by the inspection department in respect of the installation.

(2) Where any electrical installation or part thereof has been disconnected or cut off from a source of supply by a supply authority for non-payment of rates or because of a change of occupancy of premises for six months or less, the supply authority may reconnect the installation or part thereof without obtaining a connection authorization.

2-014 Temporary Connection Authorization

(1) Notwithstanding the provisions of Rule 2-012 the inspection department may issue a temporary connection authorization authorizing a supply authority to connect its lines for a stated length of time to a temporary electrical installation or to a permanent but unfinished electrical installation and may renew the connection authorization from time to time.

(2) Issuance of a temporary connection authorization does not obligate the inspection department to issue a permanent connection authorization where a contractor has not complied with this Code.

2-016 Re-inspection. The inspection department may at any time re-inspect any electrical installation notwithstanding any previous inspection and acceptance of the installation.

2-018 Defects

(1) Every contractor who has performed work on an electrical installation and has been notified by the inspection department that the installation does not conform to this Code shall remedy all defects in workmanship and replace all electrical equipment that is not approved within such time and in such manner as the notice from the inspection department directs.

(2) The inspection department may by notice in writing require any owner or occupant of land, buildings or premises upon or within which is found an electrical installation in which in the opinion of the inspection department a condition dangerous to persons or property has developed to make such changes in the electrical installation as are necessary to remedy the condition.

(3) Upon receipt of the notice the owner or occupant of the lands, buildings or premises shall cause the installation to be changed in the manner and to the extent prescribed by the notice within the time limited therein.

(4) Where:

- (a) A contractor refuses or neglects to comply with a notice given under Subrule (1); or
- (b) The owner or occupant of lands, buildings or premises refuses or neglects to comply with a notice given under Subrule (2),

the inspection department, if it deems such course necessary for purposes of safety, may:

- (c) Cut off the supply of electrical power or energy to the lands, buildings or premises in which is contained the electrical installation that was the subject of the notice; or
- (d) Require the supply authority to cut off the supply,

and in either event the supply shall not be re-connected until full compliance with the notice has been made.

2-020 Sale or Other Disposal and Use

(1) No person shall advertise, display or offer for sale or other disposal, or sell or otherwise dispose of any electrical equipment unless it has been approved in accordance with Rule 2-024.

(2) No person shall use any electrical equipment unless it has been approved in accordance with Rule 2-024.

(3) Where an approvals report in respect of any approved electrical equipment requires that a notice indicating the proper and safe manner of use of the equipment be affixed thereto or furnished therewith, no person shall sell or otherwise dispose of the equipment without affixing or furnishing the notice in the manner required by the approvals report.

2-024 Approval of Electrical Equipment

(1) Electrical equipment of a regular line of manufacture for which approval is sought shall be submitted to Canadian Standards Association for examination and testing.

(2) The electrical equipment referred to in Subrule (1) shall be deemed to be approved when:

- (a) An approvals report has been issued by Canadian Standards Association in respect of the equipment;
- (b) The approvals report has been adopted by the inspection department;
- (c) The manufacturer of the equipment or his agent has entered into a service agreement with Canadian Standards Association;
- (d) The equipment, if so required by the service agreement, bears an approval label supplied under the terms of the service agreement; and
- (e) The equipment meets all standards of design and construction prescribed by the approvals report and complies with all terms and conditions contained therein.

(3) As an alternative to the requirements of Subrules (1) and (2), electrical equipment consisting of an assemblage or combination of component parts intended for use solely in conjunction with or as an integral part of any appliance within the meaning of *The Energy Act* shall be deemed to be approved when:

- (a) An approvals report has been issued by an organization designated to test the appliance by section 6 of Regulation 254 of Revised Regulations of Ontario, 1970;
- (b) The approvals report has been adopted by the inspection department;
- (c) The equipment meets all standards of design and construction prescribed by the approvals report and Canadian Standards Association specifications relating thereto and complies with all terms and conditions contained in the report and the specifications;
- (d) The seal of the organization has been affixed permanently to the equipment verifying compliance with Canadian Standards Association specifications; and
- (e) The manufacturer of the equipment, or his agent, has entered into a service agreement with the organization.

(4) Electrical equipment of other than a regular line of manufacture, electrical equipment built to customer's order, electrical equipment manufactured or produced singly or in small quantities and electrical equipment that in the opinion of the inspection department cannot be conveniently examined and tested by submission of samples shall be submitted to the inspection department for examination and testing in conformance with the procedure from time to time prescribed by the inspection department.

(5) The prescribed equipment referred to in Subrule (4) shall be deemed to be approved when:

- (a) The electrical equipment or a sample thereof has been examined and tested by the inspection department and found to conform to this Code and to present no undue hazard to persons or property;
- (b) A certificate or other writing evidencing the conformity has been issued by the inspection department;
- (c) All fees payable to the inspection department in respect of the examination, testing and certification have been paid;
- (d) The equipment, if so required by the inspection department, bears an approval label supplied by the inspection department; and
- (e) The equipment, in the case of examination and test by sample, is of the same standard of design and construction as the standard of the sample referred to in the certificate or writing.

(6) Where any electrical equipment is used in, or connected to, an electrical installation or is about to be so used or connected, and it appears to the inspection department that, having regard to public safety and protection of property, it would be sufficient to have the equipment inspected under Subrule (3), (4) and (5) of Rule 2-004 instead of being approved under the foregoing provisions of this Rule, the inspection department may direct accordingly and thereupon the equipment shall be deemed to form a part of the electrical installation.

(7) Approval of any electrical equipment shall be evidenced by a certificate or other writing to that effect issued by the inspection department but, where electrical equipment is approved under Subrule (2) the approval-record guide-card issued by the Canadian Standards Association shall have the same force and effect as a certificate or writing of the inspection department.

(8) No person shall affix to any electrical equipment other than the electrical equipment referred to in Subrule (3) any label indicating or intended to indicate that the electrical equipment is approved other than an approval label that has been supplied by the inspection department or under a service agreement.

(9) No person shall affix any approval label to any electrical equipment other than the approved electrical equipment for which the label was issued.

(10) No person to whom approval labels have been supplied, either by the inspection department or under a service agreement, shall sell, give, transfer or permit any other person to have possession of the labels without first obtaining the consent in writing of the inspection department.

2-026 Cancellation of Approval

(1) The inspection department may cancel the approval of any electrical equipment where:

- (a) The equipment is not being manufactured or produced in conformance with the standards, design and construction prescribed by the approvals report or certificate of approval relating thereto;
- (b) In the opinion of the inspection department field experience has shown the equipment to be unduly hazardous to life or property; or
- (c) The manufacturer of the equipment makes default in observing or performing any of the terms of the service agreement to which he is a party.

(2) When an approval has been cancelled, the equipment shall be deemed to be not approved.

2-028 Miscellaneous

(1) The testing and inspection by the inspection department of any electrical equipment under Subrules (4) and (5) of Rule 2-024 may be carried out by such inspectors at such times and places and in such manner as the inspection department from time to time determines.

(2) Subject to Subrule (6) of Rule 2-024, any electrical equipment used or capable of being used or adapted to serve or perform any particular purpose or function when connected to an electrical installation shall be approved before being so connected unless the connection is made for the purpose of inspection or testing of the equipment under this Code.

(3) Any electrical equipment that consists of an assembly or combination of other electrical equipment is subject to this Code respecting approval, and is not approved by reason only that any or all of the component parts thereof have been individually approved.

2-030 Deviation or Postponement

(1) In any case where deviation from or postponement of these rules and regulations may be necessary,

special permission shall be obtained before proceeding with the work, but such special permission shall apply only to the particular installation for which it is given.

(2) By special permission, the requirements of this Code may be varied for installations associated with fire pumps:

2-500 General

(1) No contractor shall perform any work on an electrical installation in any manner contrary to the requirements of this Code.

(2) No contractor in performing any work on an electrical installation shall use therein any electrical equipment other than approved electrical equipment of a kind or type and rating approved for the specific purpose for which it is to be employed.

(3) In any case in which for a given purpose no standard electrical equipment of the exact size or rating required is procurable, equipment of the next larger size or rating shall be used unless permission of an inspector is obtained to use equipment of a smaller size or rating.

(4) If in the opinion of an inspector an electrical installation has been badly arranged or poorly executed, either generally or in any particular, the inspector shall reject the electrical installation.

(5) No contractor shall use wood for plugging for the support of any electrical equipment.

(6) No contractor shall use as a solder any so-called solder consisting of a metallic powder mixed with an adhesive vehicle in the use of which fusion of a metal is not involved.

(7) No contractor shall use for soldering copper, aluminum or their alloys a soldering flux corrosive to those metals.

2-502 Rebuilt Equipment

(1) Where any electrical machine or apparatus is re-built or re-wound with any change in its rating or characteristics it shall be provided with a name plate giving the name of the person, or firm, by whom such change was made, together with the new marking.

(2) Where the original name plate is removed the original manufacturer's name and any original identifying data, such as serial numbers, shall be added to the new name plate.

2-504 Use of High Potentials. Potentials exceeding 15,000 volts shall not be employed without the permission of an inspector designated by the inspection department for the purpose of this Rule except in the case of equipment covered by Sections 34, 52 and 54.

2-506 Interference. No person shall:

- (a) Cut, damage or interfere with any electrical equipment; or
- (b) Place or install any equipment or material near installed electrical equipment,

so as to create a condition which an inspector deems dangerous.

2-508 Use of Thermal Insulation. Where the hollow spaces between studding, joists, or rafters of

buildings are to be filled with thermal insulation, the following restrictions, as applicable, shall apply to the installation of electric wiring in such spaces:

- (a) If the space is to be filled with an approved loose or free flowing material which is non-corrosive, fire-resisting, and non-conducting, any type of wiring system recognized by this Code may be used, but special care shall be taken to ensure that there will be no strain on the conductors due to the weight or pressure of such material;
- (b) If approved material in the form of batts, or the equivalent, is installed prior to the installation of the wiring and secured in place so that there will be no undue pressure on the conductors, no special precaution need be observed;
- (c) If the space is to be filled with combustible thermal insulation, the wiring shall conform to the following requirements:
 - (i) The wiring method shall be rigid conduit, electrical metallic tubing, lead-sheathed cable in flexible conduit, lead-sheathed armored cable, mineral-insulated cable, aluminum-sheathed cable, or non-metallic-sheathed cable having conductors of not less than No. 12 AWG;
 - (ii) The conduit or electrical metallic tubing shall be sealed off as required by Rule 22-016;
- (d) If thermal insulation made of or faced with metal is installed, the wiring shall conform to the following requirements:
 - (i) A one-inch separation shall be provided between the thermal insulation and the knob-and-tube wiring;
 - (ii) Non-metallic sheathed cable may be in contact with the insulation;
- (e) Mineral-insulated cable or aluminum-sheathed cable shall not be used with any thermal insulation which is liable to have a corrosive action on the sheath.

2-510 Fire Spread. Every electrical installation shall be made in such manner as to reduce to a minimum the probability of spread of fire through fire-stopped partitions, floors, hollow spaces, fire walls, fire partitions, vertical shafts and ventilating and air-conditioning ducts.

Maintenance and Operation

2-512 General Requirements for Maintenance and Operation

(1) All electrical equipment shall be so installed and guarded as to afford provision for the safety of persons and property and for the protection of the electrical equipment from mechanical or other injury to which it is likely to be exposed.

(2) Every owner and tenant of a factory, workshop or other premises on or in which employees are engaged in operating or using any electrical equipment shall keep the electrical equipment and the electrical installation in safe operating condition at all times.

(3) No person shall use any electrical equipment that is not in safe and proper working condition.

(4) Electrical equipment that is not in regular use shall not be used until it has been thoroughly examined by a qualified person and is found fit for service.

(5) Electrical equipment that is kept in reserve for emergency service shall be examined and tested by a qualified person at regular and frequent intervals.

(6) Defective equipment shall either be put in good order or permanently disconnected.

2-514 Guarding of Bare Live Parts

(1) Bare live parts shall be guarded against accidental contact by means of approved cabinets or other forms of approved enclosures except where the bare live parts are:

- (a) Located in a suitable room, vault, or similar enclosed area which is accessible only to qualified persons; or
- (b) Located in a manner permitted by this Code.

(2) Where electrical equipment has mounted on it, within 3 feet of bare live parts, non-electrical components which require servicing by unqualified persons, suitable barriers or covers shall be provided for the bare live parts.

(3) Entrances to rooms and other guarded locations containing exposed bare live parts shall be marked with conspicuous warning signs forbidding entry to unqualified persons.

2-516 Maintenance in Hazardous Locations. In locations where explosive or highly flammable materials or gases are present, special precautions shall be observed as follows:

- (a) Repairs or alterations shall not be made on any live equipment; and
- (b) Fits or seals in enclosures shall be maintained in their original safe condition.

2-518 Disconnection

(1) No person shall make repairs or alterations to live equipment unless complete disconnection of the equipment is impracticable.

(2) For the purpose of Subrule (1), three-way or four-way switches shall be deemed not to be a means of disconnection.

(3) Adequate precautions, such as locks on circuit breakers or switches, warning notices, sentries, or other equally effective means, shall be taken to prevent electrical equipment from being electrically charged when work is being done thereon.

2-520 Maintenance of Live Equipment. No person shall work on any live equipment unless protected by approved insulated or insulating devices such as tongs, rubber gloves, boots, mats, or other like appliances, which shall always be maintained in proper condition for use.

2-522 Accessibility for Maintenance. All passageways and working space around generators, transformers, switchboards and similar equipment shall not be used for storage and shall be kept clear of any obstruction and so arranged as to give authorized persons ready access to all parts requiring attention.

2-524 Illumination of Equipment. Adequate illumination shall be provided to allow for proper operation and maintenance of electrical equipment.

2-526 Flammable Material Near Electrical Equipment. Flammable material shall not be stored or placed in dangerous proximity to electrical equipment.

2-528 Ventilation. Adequate ventilation shall be provided so as to prevent the development about electrical equipment of ambient air temperatures in excess of those normally permissible for such equipment.

Enclosures

2-530 Enclosures, Designations and Use

(1) The following designations of enclosures for switchgear, switches, air circuit breakers, panelboards, industrial control equipment and similar apparatus shall be recognized for the purpose of this Code for the intended use as specified:

- (a) **Enclosure 1:** A general purpose enclosure, for use indoors in ordinary locations, designed to protect live parts from accidental contact and constructed of metal or other suitable material;
- (b) **Enclosure 2:** A drip-tight enclosure for use indoors where enclosure may be subject to drops of falling liquid due to severe condensation or other causes and similar to a general purpose enclosure but constructed or protected by the addition of drip shields or their equivalent so as to exclude falling moisture or dirt;
- (c) **Enclosure 3:** A weatherproof enclosure, for use outdoors, constructed or protected so that exposure to the weather, to falling moisture, or to external splashing, will not impair the effectiveness of the enclosed equipment;
- (d) **Enclosure 4:** A watertight enclosure for use where the enclosure may be subject to direct streams of water and constructed so that a stream of water from a hose cannot enter the enclosure;
- (e) **Enclosure 5:** A dust-tight enclosure for use indoors where the atmosphere may carry considerable non-hazardous dust or in Class III locations, but not in Class II locations, and constructed so that dust, readily ignitable fibres, or combustible flyings cannot enter the enclosure.

(2) An enclosure may be constructed so as to comply with two or more of the designations described in Subrule (1) hereof.

(3) Enclosures of equipment for use in hazardous locations shall be designated in accordance with Rule 18-012.

2-532 Marking of Enclosures. General purpose enclosures need not be marked to indicate the enclosure designation.

2-534 Circuit Voltages-to-Ground—Residential Occupancies.

Branch circuits in residential occupancies shall not have a voltage exceeding 150 volts-to-ground except that where the calculated load on the service conductors exceeds 250 kilovolt-amperes and where trained maintenance personnel are available, higher voltages not exceeding the voltage-to-ground of a nominal system voltage of 347/600Y may be used to supply the following fixed (not portable) equipment:

- (a) Space heating;
- (b) Water heaters;
- (c) Air conditioning.

2-536 Corrosion Protection for Materials used in Wiring

(1) Metallic materials used in wiring, such as raceways, cable sheaths and armour, boxes and fittings shall be suitably protected against corrosion for the environment in which they are to be used or shall be made of suitable corrosion-resistant material.

(2) Where practicable, dissimilar metals shall not be used where there is a possibility of galvanic action.

2-538 Working Space about Electrical Equipment (Low Potential).

A minimum unobstructed working space of three feet with secure footing shall be provided and maintained about all electrical equipment which may require adjustment and maintenance, except that working space is not required behind assemblies such as dead-front switchboards or control centres where there are no renewable parts such as fuses or switches on the back and where all connections are accessible from other locations than the back.

2-540 Entrance to Working Space

(1) At least one entrance of sufficient area shall be provided to give access to the working space about electrical equipment.

(2) Doors or gates of suitable material may be provided but they shall be capable of being readily opened from the equipment side without the use of a key or tool.

2-542 Marking of Equipment

(1) Each piece of electrical equipment shall bear such of the following markings as may be necessary to identify the equipment and insure that it is suitable for the particular installation:

- (a) The maker's name, trade mark, or other recognized symbol of identification;
- (b) Catalogue number or type;
- (c) Voltage;
- (d) Rated load amperes;
- (e) Watts, volt amperes, or horsepower;
- (f) Whether for ac, dc, or both;
- (g) Number of phases;
- (h) Frequency in cycles per second;
- (i) Rated load speed in revolutions per minute;
- (j) Designation of terminals;
- (k) Whether for continuous or intermittent duty;
- (l) Evidence of approval; and
- (m) Such other marking as may be necessary to ensure safe and proper operation.

(2) Each service box, at the time of installation, shall be marked in a conspicuous, legible, and permanent manner, to indicate clearly the maximum rating of the overcurrent device which may be used for this installation.

(3) At each distribution point, circuit breakers, fuses, and switches shall be marked, adjacent thereto, in a conspicuous and legible manner to indicate clearly:

- (a) Which installation or portion of installation they protect or control; and
- (b) The maximum rating of overcurrent device that is permitted.

2-544 Space for Service and Distribution Equipment.

The space provided for electrical service and distribution equipment shall be satisfactory to the inspection department.

SECTION 4—CONDUCTORS

4-000 Size of Conductors. Except for flexible cord, fixture wire, control circuit wire and cable, and grounding conductors as permitted by Table 16, conductors shall be not smaller than No. 14 AWG when of copper and not smaller than No. 12 AWG when of aluminum.

4-002 Control-Circuit Wire and Cable. When used in communication, control and signalling systems, control-circuit wire and cable shall have an ampacity not less than that of a No. 18 AWG copper conductor.

4-004 Ampacity of Wires and Cables

(1) The maximum current which a copper conductor of a given size and insulation may carry shall be as follows:

- (a) Single conductor, and single-conductor metal-sheathed or armoured cable, in a free air run, as specified in Table 1;
- (b) 1, 2, or 3 conductors in a run of raceway, or 2- or 3-conductor cable, as specified in Table 2;
- (c) 4, 5, or 6 conductors in a run of raceway or cable, 80 per cent of that specified in Table 2;
- (d) 7 to 24 conductors, inclusive, in a run of raceway or cable, 70 per cent of that specified in Table 2;
- (e) 25 to 30 conductors, inclusive, in a run of raceway or cable, 60 per cent of that specified in Table 2.

(2) The maximum current which an aluminum conductor of a given size and insulation may carry shall be as follows:

- (a) Single conductor, and single-conductor metal-sheathed or armoured cable, in a free air run, as specified in Table 3;
- (b) 1, 2, or 3 conductors in a run of raceway, or 2- or 3-conductor cable, as specified in Table 4;
- (c) 4, 5, or 6 conductors in a run of raceway or cable, 80 per cent of that specified in Table 4;
- (d) 7 to 24 conductors, inclusive, in a run of raceway or cable, 70 per cent of that specified in Table 4;

(e) 25 to 30 conductors, inclusive, in a run of raceway or cable, 60 per cent of that specified in Table 4.

(3) The ampacity of armoured cable having two or more conductors shall be the same as for the same size and number of conductors in a raceway.

(4) A neutral-conductor which carries only the unbalanced current from other conductors, as in the case of normally balanced circuits of three or more conductors, shall not be counted in determining ampacities as provided for in Subrules (1), (2), and (3).

(5) A common conductor of a three-wire circuit, consisting of conductors connected to two phase wires and the neutral conductor of a four-wire, three-phase system, carries approximately the same current as the other conductors, and shall not be considered as a neutral conductor.

(6) The maximum allowable ampacity of neutral supported cable shall be as specified in Table 36.

(7) For the purposes of this Rule a wireway or auxiliary gutter shall not be considered as a raceway and the ampacity of one or more conductors in a wireway or in an auxiliary gutter shall be as specified in Tables 2 or 4 as applicable.

(8) A grounding conductor shall not be counted in determining the ampacities as provided for in Subrules (1), (2), and (3).

(9) The derating factors specified in this Rule apply only to, and shall be determined from, the number of power and lighting conductors in a cable or raceway.

4-006 Insulated Conductors

(1) Insulated conductors shall be of types specified in Table 19 for each specific condition of use, except as may be otherwise required by other Sections of this Code.

(2) Where harmful condensed vapours or liquids of either an acid or alkaline nature or organic solvents such as hydrocarbons, ketones, esters, alcohols, or liquid derivatives thereof, may collect on or come in contact with insulation on conductors, such insulation shall be of a type approved for the application, or the insulation shall be protected by a sheath of lead or by other approved means.

4-008 Sheath Currents in Single-Conductor Metallic-Sheathed Cables

(1) Where sheath currents in single-conductor cables having continuous sheaths of lead, aluminum, or copper are likely to cause the insulation of the conductors to be subjected to temperatures in excess of the insulation ratings, the cables shall be:

- (a) Derated to 70 per cent of current-carrying rating which would otherwise apply;
- (b) Derated in accordance with the manufacturer's recommendations by special permission; or
- (c) Installed in such a manner as to prevent the flow of sheath currents.

(2) Circulating currents in single-conductor armoured cable shall be treated in the same manner as sheath currents in Subrule (1).

4-010 Uses of Flexible Cord

(1) Flexible cord shall be of the types specified in Table II for each specific condition of use.

(2) Flexible cord may be used for:

(a) Electrical equipment for domestic or similar use having a rating of 15 amperes or less at voltages not exceeding 250 volts and which is intended to be:

- (i) Moved from place to place, or
- (ii) Detachably connected according to a Part II Standard;

(b) Electrical equipment for industrial use which must be capable of being moved from place to place for operation;

(c) Pendants;

(d) Elevator cables;

(e) Wiring of cranes and hoists;

(f) The connection of stationary equipment to facilitate its interchange, by special permission;

(g) The prevention of transmission of noise and vibration;

(h) The connection of electrical components between which relative motion is necessary; and

(i) The connection of appliances such as ranges and clothes dryers.

(3) Flexible cord shall not be used:

(a) As a substitute for the fixed wiring of structures and shall not be:

- (i) Permanently secured to any structural member,
- (ii) Run through holes in walls, ceilings, or floors, or
- (iii) Run through doorways, windows, or similar openings;

(b) At temperatures sufficiently low as to be liable to cause damage to the insulation or jacket;

(c) For the suspension of any device weighing more than 5 pounds.

(4) Flexible cord shall be protected by an insulating bushing or in some other acceptable manner where it enters or passes through a wall or partition of a device or enters a lampholder.

(5) Where a flexible cord is used as an extension cord or to plug into an appliance or other device, no live parts shall be exposed when one end is connected to a source of supply and the other end is free.

4-012 Sizes of Flexible Cord. Flexible cord shall be not smaller than a No. 18 AWG copper conductor except for:

(a) Tinsel cord, which may be No. 27 AWG;

(b) Types X and TX Christmas-tree cords, which may be No. 20 AWG; and

- (c) Cords approved for use with domestic electric clocks of the wall or mantel types, or indoor individual decorative lighting devices, which may be No. 20 AWG.

4-014 Ampacity of Flexible Cords. The maximum current which 2 or more copper conductors of given size contained in a flexible cord may carry, shall be as follows:

- (a) 2 or 3 conductors—as specified in Table 12;
- (b) 4, 5, or 6 conductors—80 per cent of that specified in Table 12.

4-016 Flexible Cord Used in Show Windows or Show Cases

(1) Flexible cord used in show windows or show cases shall, except for chain fixtures, be at least of types approved for hard usage.

(2) The use of flexible cord to supply current to portable lamps and other devices for exhibition purposes shall be permitted.

4-018 Fixture Wire and Christmas-Tree Wire

(1) Fixture wire and Christmas-tree wire shall be of types specified in Table 11 for each specified condition of use.

(2) Fixture wire shall not be smaller than a No. 18 AWG copper conductor.

(3) Christmas-tree wire shall not be smaller than a No. 20 AWG copper conductor.

(4) The maximum current which a fixture wire or a Christmas-tree wire of a given size may carry shall be that specified in Table 12.

4-020 Insulation of Neutral Conductors. Except as permitted by Rules 6-004, 6-018, 6-024, 12-250, and 12-266 neutral conductors shall be insulated.

4-022 Size of Neutral Conductor

(1) The neutral conductor shall have sufficient ampacity to carry the unbalanced load.

(2) The maximum unbalanced load shall be the maximum connected load between the neutral conductor and any one ungrounded conductor as determined by Section 8 but subject to the following:

- (a) For a 5-wire 2-phase system the maximum unbalanced load shall be 140 per cent of that determined as above;
- (b) For a feeder supplying electric ranges, the maximum unbalanced load for the ranges shall be considered as 70 per cent of the load on the ungrounded conductors as determined by Rule 8-032;
- (c) In a feeder where the load consists of 50 per cent or more of electric discharge lamp ballasts, there shall be no reduction in size of the neutral conductor below the size of the ungrounded conductors;
- (d) Except as required otherwise by paragraph (c), a demand factor of 70 per cent may be applied to that portion of the unbalanced load in excess

of 200 amperes and, where applicable, this shall be applied to the currents determined by paragraphs (a) or (c).

(3) The size of an uninsulated neutral conductor used in services shall be not smaller than the size of an insulated neutral conductor selected in accordance with Subrule (1) and shall be:

- (a) Not smaller than No. 10 AWG copper or No. 8 AWG aluminum; and
- (b) Not smaller than the size of a grounding conductor required by Rule 10-102(1), except in approved service entrance cable, or where the circuit conductors are No. 10 AWG copper or No. 8 AWG aluminum.

(4) In determining the ampacity of an uninsulated neutral conductor run in a raceway, it shall be considered to be insulated with insulation having a temperature rating not higher than that of the adjacent circuit conductors.

4-024 Common Neutral Conductor. Provided that when in metal enclosures all conductors of feeder circuits employing a common neutral conductor are contained within the same enclosure, a common neutral conductor may be employed for:

- (a) Two or three sets of three-wire, single-phase feeders; or
- (b) Two sets of four-wire, three-phase feeders.

4-026 Installation of Neutral Conductor and Branch Connections. The neutral conductor of feeders shall be run directly from the service box to all centres of distribution and all branch connections to this conductor shall be made at such centres.

4-028 Identification of Insulated Neutral Conductors Up to and Including No. 2 AWG

(1) All insulated neutral conductors up to and including No. 2 AWG and all flexible cords permanently attached thereto shall be identified.

(2) The covering of the other conductor or conductors shall show a continuous colouring contrasting with that of the identified conductor.

4-030 Identification of Insulated Neutral Conductors Larger Than No. 2 AWG. For insulated neutral conductors larger than No. 2 AWG and for those having other than rubber or thermoplastic insulation, identification shall either be continuous, as for No. 2 AWG and smaller, or else each continuous length of conductor shall be suitably labelled or otherwise clearly marked at each end at the time of installation, so that it can be readily identified.

4-032 Identification of Type MI Neutral Conductors. Where mineral-insulated cable is used for neutral conductors, and where continuous identification of this type of conductor is, at present, technically impossible in manufacture, each continuous length of conductor shall be permanently and clearly marked at each end at the time of installation, so that it can be readily identified.

4-034 Use of Identified Conductors

(1) An identified conductor shall not be used as a conductor for which identification is not required by these Rules except that in armoured cable, aluminum-sheathed cable, and non-metallic sheathed cable work, the identified conductor may be rendered permanently

unidentifiable by painting or other suitable means at every point where the separate conductors have been rendered accessible and visible by removal of the outer covering of the cable.

(2) Where armoured cable, aluminum-sheathed cable, or non-metallic sheathed cable containing an identified conductor is used for single-pole 3-way or 4-way switch loops, it shall not be necessary to render the identified conductor permanently unidentified at the switch if the connections are made so that an unidentified conductor is the return conductor from the switch to the outlet.

(3) Where armoured cable, aluminum-sheathed cable or non-metallic sheathed cable is used so that the identified conductor forms no part of the circuit, the identified conductor shall be cut off short or other suitable means shall be employed to indicate clearly that the identified conductor does not form part of the circuit, and this shall be done at every point where the separate conductors have been rendered accessible and visible by removal of the outer covering of the cable.

4-036 Colour Coding of Circuit Conductors.

Where colour coded circuits are required, the following colour coding shall be used, except in the case of service-entrance cable and insofar as Rules 4-030, 4-032, 6-024, and 12-028 may modify these requirements:

single phase ac
or dc (2-wire) — 1 black and 1 red
or
1 black and 1 white* (where identified conductor is required)

single phase ac
or dc (3-wire) — 1 black, 1 red, and 1 white*

3 phase ac — 1 red (phase A), 1 black (phase B), 1 blue (phase C), and 1 white* (where neutral is required).

*Or natural grey

SECTION 6—LOW-POTENTIAL SERVICES AND SERVICE EQUIPMENT

General

6-000 Scope. This Section applies to services, service equipment, and metering equipment for installation operating at potentials of 750 volts or less.

6-002 Number of Supply Services Permitted

(1) Two or more supply services of the same potential and characteristics shall not be run to any building from the same system of any one supply authority except by special permission.

(2) Equipment of such services shall be grouped if practicable.

(3) The supply for fire-alarm systems shall be taken from the load side of the consumer's service at the first point of distribution after any transformation.

6-004 Aerial Conductors. Conductors run aerially between buildings or structures shall be not less than No. 10 AWG, and shall be of types suitable for exposure to the weather as indicated in Table 19.

6-006 Underground Services

(1) Service conductors run underground from an underground supply system or from a pole line to a building shall be installed in conduit, or as mineral-insulated cable other than the light-weight type, or as aluminum-sheathed cable, except that, by special permission, conductors or cable assemblies acceptable for direct earth burial may be used.

(2) Conductors installed in conduit shall be of types acceptable for use in wet locations as indicated in Table 19.

(3) Conductors or cable assemblies acceptable for direct earth burial as indicated in Table 19 shall:

- (a) Be without splice or joint from the point of connection to the supply service to the service equipment in the building; and
- (b) Be installed in accordance with Rule 12-006, with rigid conduit being used for mechanical protection at the point of entrance to the building and, where the supply service is on a pole, from the service fitting on the pole to approximately the bottom of the trench with the conduit formed so as to prevent damage to the emerging conductors in the trench.

(4) Service conduit entering a building underground shall be suitably drained.

(5) Service conduit connected to an underground supply system shall be sealed with a suitable compound to prevent the entrance of moisture or gases.

6-008 Service from an Electric Railway System.

A supply service shall not be run to a building from an electric railway system using a ground return, unless the building is connected with the operation of an electric railway.

6-010 Service Head Location. The supply end of a service shall be installed:

- (a) In a location satisfactory both to the inspection department and to the supply authority;
- (b) Not less than 15 feet nor more than 30 feet above sidewalk or grade level;
- (c) In such a way that the supply service wires can be maintained at the required ground clearances; and
- (d) So that open conductors, which are not higher than windows, doors, and porches shall have a clearance of not less than 3 feet, therefrom.

6-012 Type of Service Head. The supply end of a service shall be equipped with an approved raintight service-entrance cap, except that the cap may be dispensed with where mineral-insulated cable or aluminum-sheathed cable is used provided that:

- (a) The cable terminates in a fitting suitable for exposure to the weather; and
- (b) The cables are bent, as may be necessary, so that the emerging conductors point downward.

6-014 Condensation in Service Conduit

(1) Where in the opinion of the inspection department condensation is likely to occur due to changes in temperature, service conduit or the equivalent shall be either effectively drained or sealed.

(2) The service conduit shall not be terminated on top of the service box except where drained outdoors.

6-016 Support for the Attachment of Service Wires

(1) Where the exterior wall of any building consists of metal sheathing, or of hollow tile or other form of hollow building block, the wiring contractor shall provide acceptable means for attachment of the supply service wires.

(2) Where service masts are used they shall be assembled from components approved for service mast use and shall be installed in an acceptable manner.

6-018 Service Conductors

(1) Conductors of a consumer's service which are connected to an overhead supply service at any point above ground on a building shall be installed in rigid metal conduit or in one of the following ways if acceptable:

- (a) Other types of rigid conduit;
- (b) Busway;
- (c) Flexible conduit, the conductors being lead-sheathed;
- (d) Armoured lead-sheathed cable;
- (e) Mineral-insulated cable other than the light-weight type;
- (f) Aluminum-sheathed cable;
- (g) Type ACWU cable;
- (h) Type TECK cable;
- (i) Service entrance cable, Type ASE;
- (j) Service entrance cable, Types SE and USE, provided that:
 - (i) It is protected by approved means if within 7 feet of the ground;
 - (ii) The potential does not exceed 300 volts between conductors and 150 volts to ground;
 - (iii) It is supported at intervals not exceeding 3 feet; and
 - (iv) For aluminum-sheathed service entrance cable, it is mounted on insulating supports which hold it not less than 2 inches from a conducting surface if adjacent to such a surface.

(2) That portion of the consumer's service conductors on the supply side of the service head run on the outside walls of buildings may be run as open wiring using types of conductors suitable for exposure to the weather.

(3) Consumer's service conductors shall each extend not less than 30 inches beyond the supply end of the consumer's service head and be provided with drip loops.

(4) Consumer's service conductors shall be not less than No. 10 AWG copper wire, nor less than No. 8 AWG aluminum wire.

6-020 Use of Mineral-Insulated and Aluminum-Sheathed Cable

(1) Mineral-insulated cable and aluminum-sheathed cable may be used for services as specified in Rule 6-018:

- (a) In a multi-conductor construction; or
- (b) In single-conductor construction in sizes larger than No. 4 AWG.

(2) Mineral-insulated cable and aluminum-sheathed cable may be exposed and secured directly to the surface over which it is run, but subject to protection as specified in Rule 6-022(c).

6-022 Service Conduit, Steel Electrical Metallic Tubing. Service conduit and steel electrical metallic tubing shall:

- (a) Have an internal diameter of not less than $\frac{3}{4}$ inch electrical trade size;
- (b) Contain no other than service conductors and except by special permission only the conductors of one consumer's service; and
- (c) If installed in lanes or driveways less than 6 feet above the grade, be protected by an iron guard of not less than No. 10 MSG secured by bolts or lag screws not less than $\frac{3}{8}$ inch by $2\frac{1}{2}$ inches.

6-024 Neutral Service Conductors. The neutral conductor of a consumer's service may by special permission be bare, subject to the following conditions:

- (a) The supply is ac and 150 volts or less to ground;
- (b) The neutral conductor of the supply system is grounded in addition to being grounded at the consumer's service; and
- (c) The bare neutral conductor is run in the same protective covering as the other conductors of the service.

6-026 Services Encased in Concrete or Masonry. Where service and other conductors are installed in conduit or duct which is run beneath a building or within a wall of concrete or masonry and is surrounded by not less than 2 inches of concrete, masonry or its equivalent, the conductor shall be considered as being outside the building.

6-028 Service Equipment Location. Service boxes or other approved service equipment shall be installed in a location satisfactory to both the inspection department and the supply authority and shall be:

- (a) Readily accessible, or have the means of operating them readily accessible;
- (b) Not located in coal bins, clothes closets, bathrooms, stairways, dangerous or hazardous locations, nor in any similar undesirable places;
- (c) Except by special permission, placed within the building;
- (d) If placed on the outside of a building or on a pole:
 - (i) Protected from the weather, or be weather-proof, and
 - (ii) Protected from mechanical injury if less than six feet above ground; and

- (e) As close as practicable to the point where the service conductors enter the building.

Control and Protective Equipment

6-030 Service Boxes. Service boxes shall consist of a device, manually operable when the box is closed, which will disconnect all ungrounded conductors of the circuit simultaneously at the point of supply, and shall be of a type approved for the use.

6-032 Overcurrent Devices. Overcurrent devices shall be connected on the load side of the service box or other approved service equipment.

6-034 Service Boxes, Sealed or Locked. Where service boxes are sealed or locked by the supply authority they shall not be opened except by an electrical inspector or by an authorized agent of the supply authority.

6-036 Three-Phase Service Divided into Single-Phase Services. A two- or three-phase consumer's service may be sub-divided into single-phase subservices provided that the voltage to ground does not exceed 150 volts from any wire of a single-phase service.

6-038 Overcurrent Devices Accessible to the Consumer. If a service supplies one branch circuit only and the service box containing the fuse is to be locked or sealed, overcurrent devices accessible to the consumer shall be inserted in series with the service overcurrent device and on the load side of the meter, but they shall be of a smaller ampacity than the service overcurrent devices, unless the latter be not more than 15 amperes.

6-040 Current Supply from More Than One System. Where an installation, or portion thereof, is to be supplied, with current from two or more different systems, the switching equipment controlling the various supplies shall be constructed or arranged so that it will be impossible to accidentally switch on current from one source before that from another has been cut off.

6-042 Service Equipment

(1) Every consumer's service shall be provided with a main service box except as provided in Subrule (2).

(2) Where the supply is ac, and not more than 150 volts to ground and there are two or more subdivisions of the main service, the main service box is not required if:

- (a) There are not more than six subdivisions of the main service; and
- (b) The subdivision service boxes are grouped.

(3) In Subrule (4), "single-family dwelling" means a house or housing unit that was not previously permanently supplied with power and that provides facilities ordinarily required for the accommodation of one family and has a separate basement or separate heating system.

(4) Where a single-family dwelling has five or more rooms or 800 or more square feet of floor space exclusive of basement floor space:

- (a) The service box shall contain a service switch and overcurrent devices rated or set at not less than 100 amperes, and that part of the electrical

equipment extending from the service box to the point at which the supply authority makes connection shall have a like ampacity; and

- (b) The distribution panelboard shall have space for the equivalent of twenty-four 120-volt branch circuits including at least two 120/240-volt branch circuits for which overcurrent protection shall be at least 35 amperes.

(5) Where Subrule (4) does not apply the consumer's service of any single family residence shall have a capacity of at least 50 amperes, and space shall be provided in the panelboard of the single family residence, supplied by a three-wire single-phase service, for at least 12 branch-circuit overcurrent devices and 1 range-circuit overcurrent device.

6-044 Oil Switches and Oil Circuit Breakers Used as Service Switches

(1) Isolating switches shall be installed on the supply side and interlocked with oil switches and oil circuit breakers except in the case of metal clad equipment where the primary isolating device shall be considered to be the equivalent of an isolating switch or link.

(2) Where overcurrent trip coils are used for breakers, one shall be installed on each ungrounded conductor of the circuit except that if the capacity of the transformers and the extent of the network supplying the service is sufficiently small, by special permission two trip coils, one in each phase of a four-wire two-phase ungrounded service, may be used.

6-046 Subdivision of Main Service. Where there are two or more subdivisions of a main service, each subdivision shall be provided with a separate service box except that a number of service boxes may be combined in an approved assembly.

6-048 Marking of Service Boxes. If there be more service boxes than one, each such box shall be labelled in a conspicuous, legible and permanent manner to indicate clearly which installation or portion of an installation it controls.

6-050 Fuse Enclosures on Service Boxes. If a service box embodies one or more fuse receptacles, access to which may be had without opening the door, such receptacles and their fuses shall be completely enclosed by a separate door, spring-closed, or having a substantial catch.

6-052 Wiring Space in Enclosures. Enclosures for circuit breakers and externally-operated switches shall not be used as junction boxes, troughs, or raceways for conductors feeding through or tapping off to other apparatus.

Metering Equipment

6-054 Metering Equipment. Metering equipment includes any current and potential transformers as well as the associated measuring instruments.

6-056 Method of Installing Meter Loops

(1) Meter loops shall be installed so that:

- (a) Conductors between the service box and the meter are inaccessible to unauthorized persons;
- (b) The wiring method is rigid conduit, flexible conduit, electrical metallic-tubing, aluminum-sheathed cable, or armoured cable, except where equivalent protection is provided;

- (c) Spare conductors not less than 18 inches in length are provided at meter or current transformer connection points; and
- (d) A suitable fitting, or service box with meter back-plate is provided.

(2) Metering equipment shall be connected on the load side of the service box except that it may be connected on the supply side where:

- (a) No live parts or wiring are exposed;
- (b) The supply is ac and the potential does not exceed 300 volts between conductors; and
- (c) The rating of the service does not exceed 200 amperes.

(3) Instrument transformers used in connection with meters shall be installed in metal enclosures except when mounted on switchboards or in electrical equipment vaults or otherwise rendered inaccessible to unauthorized persons.

6-058 Disconnecting Provisions for Meters. In multiple occupancy and in single occupancy multi-rate service where individual metering is required the conductors to each meter shall be provided with one of the following:

- (a) A separate service box or service equipment; or
- (b) A sealable meter fitting.

6-060 Location of Meters

(1) Meters and metering equipment shall be installed in locations satisfactory to both the inspection department and the supply authority and shall be:

- (a) Located as near as practicable to the service box except as provided for in Subrule (2);
- (b) Grouped where practicable;
- (c) Readily accessible;
- (d) Not located in coal bins, clothes closets, bathrooms, stairways, dangerous or hazardous locations, nor in any similar undesirable places; and
- (e) If mounted outdoors, of weatherproof construction or in weatherproof enclosures.

(2) Instrument transformers may be outside the consumer's premises and the meter inside the premises, providing the secondary leads between the instrument transformers and the meter terminal box or test links are continuous and are installed in the same manner as service entrance conductors, with the exception that a service box with disconnecting switch is not required.

6-062 Minimum Space Required for Meters. The minimum space provided for meters shall be 12 inches wide, 22 inches high, and be acceptable to the supply authority and the inspection department.

SECTION 8—CIRCUIT LOADING AND DEMAND FACTORS

General

8-000 Scope. This Section covers the conductor ampacities required for services, feeders, and branch circuits.

8-002 Currents Based on Wattage Requirements

When calculating currents which will result from wattages to be supplied by a single-phase system, the voltage divisors to be used shall be either 115 or 230.

8-004 Use of Demand Factors

(1) Since the use of demand factors less than 100 per cent has the effect of reducing the size of conductors that would be otherwise required, the size of conductors, and switches, computed in accordance with this Section shall be the minimum used except that, if the next smaller standard size in common use has an ampacity not more than 5 per cent less than this minimum, the inspection department may, at its discretion, permit the use of the smaller size.

(2) In any case other than a service calculated in accordance with Rules 8-006 and 8-008, where the design of an installation is based on requirements in excess of those given in this Section, the service and feeder capacities shall be increased accordingly.

(3) Where two or more loads are so installed that only one can be used at any one time, the one providing the greatest demand shall be used in determining the calculated demand.

Services

8-006 Single Family Residences.

(1) Except as provided in Subrule (4) of Rule 6-042, the minimum ampacity of the consumer's service shall be based on the following:

- (a) A basic load of:
 - (i) 5,000 watts for residences having up to and including 1,000 square feet of living area (see Rule 8-018); plus
 - (ii) An additional 1,000 watts to be added for each 1,000 square feet or portion thereof by which the living area exceeds 1,000 square feet; plus
- (b) The sum of the ratings of:
 - (i) Any surface and space heating loads provided for with demand factors as permitted in Section 62; and
 - (ii) Any air conditioning loads provided for with individual ratings in excess of 1,500 volt-amperes, with a demand factor of 100 per cent,

except that where it is known that equipment with loads as provided for in Subparagraphs (i) and (ii) are installed and will not be used simultaneously, whichever is the greater of these loads may be used; plus

- (c) Any electric range load provided for as follows:

- (i) 6,000 watts for a single range having a rating of 12 kilowatts or less; or
- (ii) 6,000 watts plus 25 per cent of the rating that is in excess of 12 kilowatts for a single range having a rating of more than 12 kilowatts; or
- (iii) 6,000 watts plus 25 per cent of the amount by which the sum of the ratings of two or more ranges exceeds 12 kilowatts; the minimum rating of a range being considered to be 12 kilowatts; plus

(d) Any loads provided for in addition to those outlined in paragraphs (a) (b) and (c) of this Subrule as follows:

- (i) 25 per cent of the rating of each load, with a rating in excess of 1,500 watts if an electric range has been provided for; or
- (ii) 100 per cent of the rating of each load, with a rating in excess of 1,500 watts up to a total of 6,000 watts plus 25 per cent of the load in excess of 6,000 watts if an electric range has not been provided for.

(2) Notwithstanding the requirements of Subrule (1) the minimum ampacity of a consumer's service or a feeder to a residential unit shall be not less than 50 amperes.

8-008 Apartments, Motels, and other Multi-Family Residences

(1) The ampacity of service conductors, or of feeder conductors from a main service, supplying loads in individual residential units shall comply with Rule 8-006.

(2) The ampacity of service conductors or of feeder conductors from a main service, supplying a load in an individual residential unit not over 1,000 square feet shall be 50 amperes plus any electrical space heating load.

(3) The minimum ampacity of main service conductors, or of feeder conductors from a main service, supplying two or more residential units shall be based on the following:

- (a) If there is no electric space heating or air conditioning the total load shall be considered to be:
 - (i) 65 per cent of the sum of the loads in the two units having the heaviest loads; plus
 - (ii) 25 per cent of the sum of the loads in the next 18 units; plus
 - (iii) 10 per cent of the sum of the loads in the remaining units;
- (b) If electric space heating is used, the sum of all the space heating loads, as determined in accordance with the requirements of Section 62, shall be added to the load determined in accordance with paragraph (a);
- (c) If electrically operated air conditioning is used, the sum of all the air conditioning loads with a demand factor of 100 per cent shall be added to the load determined in accordance with paragraphs (a) and (b); and
- (d) In addition, any lighting, heating, and power loads not located in individual units shall be added with a demand factor of 75 per cent.

8-010 Schools. The minimum ampacity of service conductors shall be based on the following:

- (a) A basic load of 3 watts per square foot of classroom area plus 1 watt per square foot of the remaining area of the building based on the outside dimensions; plus
- (b) Heating and power loads based on the rating of the equipment installed;

(c) A demand factor of 75 per cent may be applied to the total load for buildings with an area up to and including 10,000 square feet based on the outside dimensions; or

(d) For a building with an area exceeding 10,000 square feet, the total load may be divided by the number of square feet to obtain a total-load-per-square-foot rating and the demand load for the purpose of calculating the minimum ampacity of service conductors may be considered to be the sum of:

- (i) 75 per cent of the total-load-per-square-foot multiplied by 10,000, and
- (ii) 50 per cent of the total-load-per-square-foot multiplied by the area of the building in excess of 10,000 square feet.

8-012 Hospitals. The minimum ampacity of service conductors shall be based on the following:

- (a) A basic load of 1 watt per square foot of the area of the building based on the outside dimensions; plus
- (b) 10 watts per square foot for high-intensity areas, such as operating rooms; plus
- (c) Heating and power loads based on the rating of the equipment installed;
- (d) A demand factor of 80 per cent may be applied to the total load for a building with an area up to and including 10,000 square feet based on the outside dimensions;
- (e) For a building with an area exceeding 10,000 square feet, the total load may be divided by the number of square feet to obtain a total-load-per-square-foot rating and the demand load for the purpose of calculating the minimum ampacity of service conductors may be considered to be the sum of:
 - (i) 80 per cent of the total-load-per-square-foot multiplied by 10,000, and
 - (ii) 65 per cent of the total-load-per-square-foot multiplied by the area of the building in excess of 10,000 square feet.

8-014 Hotels, Dormitories, and Buildings of Similar Occupancy. The minimum ampacity of service conductors shall be based on the following:

- (a) A basic load of 1.5 watts per square foot of the area of the building based on the outside dimensions; plus
- (b) Lighting loads for special areas such as ball-rooms, etc., with a demand factor of 100 per cent; plus
- (c) Heating and power loads based on the rating of the equipment installed;
- (d) A demand factor of 80 per cent may be applied to the total load for a building with an area up to and including 10,000 square feet based on the outside dimensions;
- (e) For a building with an area exceeding 10,000 square feet, the total load may be divided by the number of square feet to obtain a total-load-per-square-foot rating and the demand load for

the purpose of calculating the minimum ampacity of service conductors may be considered to be the sum of:

- (i) 80 per cent of the total-load-per-square-foot multiplied by 10,000, and
- (ii) 65 per cent of the total-load-per-square-foot multiplied by the area of the building in excess of 10,000 square feet.

8-016 Other Types of Occupancy. The minimum ampacity of service conductors shall be based on the following:

- (a) A basic load to be calculated on the basis of wattage per square foot required by Table 14 with application of demand factors as indicated therein; plus
- (b) Heating and power loads based on the rating of the equipment installed with such demand factors as are permitted by this Code for the specific types and number of equipments.

8-018 Determination of Areas

(1) The living area designated in sub-paragraphs (i), and (ii) of paragraph (a) of Rule 8-006 shall be determined from the outside dimensions of the ground floor of the residence plus 75 per cent of the basement area, based on the inside dimensions, plus any area which might normally be used for living purposes on the upper floors.

(2) The square-footage referred to in paragraph (a) of Rule 8-016 shall be determined from the outside dimensions of all floors on or above grade and the inside dimensions of all floors below grade, according to the type of occupancy of individual floors

Feeders and Branch Circuits

8-020 General

(1) The ampacity of feeder or branch circuit conductors shall be as required by this or other Sections of this Code for the specific type of load supplied.

(2) Where a feeder supplies loads of a cyclic or similar nature such that the maximum connected load will not be supplied at the same time, the ampacity of the feeder conductors may be based on the maximum load that may be connected at any one time.

(3) Notwithstanding the requirements of this Section, the ampacity of the conductors of a feeder, or of a branch circuit, need not exceed the ampacity of the conductors of the service, or of the feeder, from which they are supplied.

8-022 Schools. The minimum ampacity of feeder conductors for schools shall be based on:

- (a) A basic load of 3 watts per square foot of classroom area plus 1 watt per square foot of any additional area served by the feeder; plus
- (b) An ampacity sufficient for any heating or power loads.

8-024 Hospitals. The minimum ampacity of feeder conductors for hospitals shall be based on:

- (a) A basic load of 1 watt per square foot of the area plus 10 watts per square foot of any high-intensity area served by the feeder; plus

- (b) An ampacity sufficient for any heating or power loads.

8-026 Hotels, Dormitories, and Buildings of Similar Occupancies and Demands. The minimum ampacity of feeder conductors for hotels, dormitories and buildings of similar occupancies and demands shall be based on:

- (a) A basic load of 1.5 watts per square foot of the area served by the feeder; plus
- (b) Lighting loads for special areas such as ball rooms, etc., served by the feeder with a demand factor of 100 per cent; plus
- (c) Ampacity sufficient for any heating or power loads.

8-028 Other Types of Occupancy. The minimum ampacity of feeder conductors for the types of occupancies specified in Table 14 shall be based on:

- (a) A basic load to be calculated on the wattage per square foot required by Table 14 for the area served by the feeder; plus
- (b) An ampacity sufficient for any special loads, such as heating, air conditioning, power loads, show window lighting, stage lighting, etc.

8-030 Special Lighting Circuits. Where a panel is supplying special types of lighting, such as exit lights or emergency lights, which may be located throughout a building so that it is not possible to calculate the area served, the connected load of the circuits involved shall be used in determining a feeder size.

8-032 Conductors Supplying Electric Ranges

(1) Conductors of a branch circuit supplying a range in a residential occupancy shall be considered as having a demand load as follows:

- (a) 8 kilowatts where the range has a rating of 12 kilowatts or less;
- (b) 8 kilowatts, plus 5 per cent for each kilowatt or fraction thereof, by which the rating exceeds 12 kilowatts.

(2) For the purpose of Subrule (1), two or more separate built-in cooking units in a single-family residential occupancy may be considered as one range.

(3) Conductors of a branch circuit supplying ranges or cooking units installed in commercial, industrial and institutional establishments shall be considered as having a demand load not less than the rating of the ranges or cooking units.

(4) Ranges approved for use in residential occupancies shall not be used in other occupancies without special permission.

(5) The demand loads prescribed by this Rule do not apply to cord connected hot plates, rangettes, or other appliances used in residential occupancies.

8-034 Branch Circuit Connected Loads

(1) For show window lighting installations the number of branch circuits and size of conductors shall be determined on the assumption that not less than 200 watts will be required per lineal foot, measured along the base of the window, except that a lower figure may be used by special permission where circumstances warrant such a reduction.

(2) The connected load of a circuit shall not exceed 80 per cent of the circuit capacity unless it can be shown that, in normal operation, the loading is of an intermittent nature.

(3) Branch circuits supplying loads which are not specifically permitted to have a lower demand factor in this or other Sections of this Code shall not be allowed a demand factor of less than 100 per cent, except by special permission.

8-036 Minimum Number of 15-Ampere Branch Circuits. The minimum number of 15-ampere branch circuits to be provided for in an installation shall be calculated on the basis of a maximum loading of 12 amperes for each such circuit.

8-038 Conductors in Cabletroughs. The ampacity of conductors in cabletroughs shall be decreased, where necessary, as required by Rule 12-436.

8-040 Motor Feeders and Branch Circuits. The ampacity of conductors of motor feeders or branch circuits shall be in accordance with the requirements of Section 28.

8-042 Conductors for Capacitors. The ampacity of conductors supplying capacitors shall be as required in Section 26.

8-044 Conductors for Welders. The ampacity of conductors supplying welders shall be as required by Section 42.

8-046 Conductors for Fixed Electric Heating Equipment. The ampacity of conductors of feeders or branch circuits supplying fixed electric heating equipment shall be in accordance with the requirements of Section 62.

8-048 Conductors for Induction and Dielectric Heating Equipment. The ampacity of conductors of feeders or branch circuits supplying induction or dielectric heating equipment shall be in accordance with the requirements of Section 64.

SECTION 10—GROUNDING

Scope and Object

10-000 Scope

(1) This Section covers the protection of electrical installations by grounding.

(2) Insulating, isolating, and guarding may be used as acceptable means of affording supplemental protection to grounding or, where permitted in this Code, as a suitable alternative.

10-002 Object. Grounding as required by this Code shall be done in such a manner as to efficiently serve the following purposes:

- (a) To protect life from the danger of electric shock, and property from damage;
- (b) To limit the voltage upon a circuit when exposed to higher voltages than that for which the circuit is designed;
- (c) In general to limit ac circuit voltages to ground to 150 volts or less on circuits supplying interior wiring systems;

(d) To facilitate the operation of electrical apparatus and systems;

(e) To limit the voltage on a circuit which might otherwise occur through exposure to lightning.

Systems and Circuits

10-004 Circuits. Circuits shall be grounded as necessary in accordance with this Section.

10-006 Two-Wire Direct-Current Systems

(1) Two-wire direct-current systems supplying interior wiring and operating at not more than 300 volts or not less than 50 volts between conductors shall be grounded, unless such system is used for supplying industrial equipment in limited areas and the circuit is equipped with a ground detector.

(2) If such a circuit operates at more than 300 volts between conductors and a neutral point can be established so that the maximum difference of potential between the neutral point and any other point on the system does not exceed 300 volts, the neutral conductor may be grounded.

10-008 Three-Wire Direct-Current System. The neutral conductor of all three-wire direct-current systems supplying interior wiring shall be grounded.

10-010 Alternating-Current Systems

(1) Except as otherwise provided for in this Code, secondary ac systems supplying interior wiring and interior wiring ac systems shall be grounded if:

- (a) By so doing, their maximum potential to ground does not exceed 150 volts; or
- (b) The system incorporates a neutral conductor.

(2) It is recommended that systems exceeding 150 volts to ground either be grounded or provided with a suitable ground detection device to indicate operation of the system with an accidental ground on one phase.

10-012 Electric Arc Furnace Circuits. Circuits for electric arc furnaces may, but need not be grounded.

10-014 Electric Crane Circuits. Circuits for electric cranes operating over combustible fibres in Class III hazardous locations shall not be grounded.

10-016 Isolated Circuits. Special circuits supplied from the secondaries of isolating transformers and used where there is particular accident and fire hazard may be ungrounded.

10-018 Circuits of Less than 50 Volts. Circuits of less than 50 volts shall be grounded:

- (a) Where run overhead outside of buildings;
- (b) Where supplied by transformers energized from:
 - (i) Systems of more than 150 volts to ground, or
 - (ii) Ungrounded systems unless the circuits are provided in accordance with Rule 10-016.

Location of Grounding Connections

10-020 Current Over Grounding Conductors

(1) Where wiring systems, circuits, electrical equipment, arresters, cable armour, conduit and other metal raceways are grounded as a protective measure, the grounding shall be arranged so that there is no objectionable passage of current over the grounding conductors.

(2) The temporary currents which are set up under accidental conditions while the grounding conductors are performing their intended protective functions shall not be considered as objectionable.

(3) Where through the use of multiple grounds an objectionable flow of current occurs over the grounding conductor:

- (a) One or more of the grounds shall be abandoned;
- (b) The location of the grounds shall be changed;
- (c) The continuity of the conductor between the grounding connections shall be suitably interrupted;
- (d) Other effective action shall be taken to limit the current.

10-022 Grounding Connection for Direct-Current Systems. Direct-current systems which are to be grounded shall have the grounding connection made at one or more supply stations but not at individual services or elsewhere on interior wiring.

10-024 Grounding Connections for Alternating-Current Systems

(1) Secondary alternating-current circuits which are to be grounded shall have:

- (a) A connection to a grounding electrode at each individual service, except as provided for in Rule 10-020;
- (b) The grounding connection made on the supply side of the service disconnecting means;
- (c) At least one additional connection to a grounding electrode at the transformer or elsewhere; and
- (d) No connection between the grounded circuit conductor on the load side of the service disconnecting means and the grounding electrode, except as provided for in Rule 10-026.

(2) Where the system is grounded at any point, the conductor shall be run to each individual service and be not smaller than the required grounding conductor specified in Table 17 and where the grounded circuit conductor also serves as the neutral conductor, the requirements of Rule 4-022 shall be met.

10-026 Two or More Buildings Served by a Single Service

(1) Where two or more buildings are served by one service, the grounded circuit conductor of the wiring system of any of the buildings shall be connected to a grounding electrode at any building which:

- (a) Uses two or more branch circuits supplied from the service; or
- (b) Houses livestock.

(2) Where a building uses one branch circuit supplied from the service, the grounded circuit conductor may be connected to a grounding electrode at the building.

10-028 Conductor to be Grounded

(1) For alternating-current interior wiring systems the conductor to be grounded shall be as follows:

- (a) Single-phase, 2-wire—the identified conductor;
- (b) Single-phase, 3-wire—the identified neutral conductor;
- (c) Multi-phase systems having one wire common to all phases—the identified neutral conductor;
- (d) Multi-phase systems having one phase grounded—the identified conductor;
- (e) Multi-phase systems in which one phase is used as in (b)—the identified conductor.

(2) In multi-phase systems in which one phase is used as a single-phase 3-wire system, only one phase shall be grounded.

10-030 Isolated Systems. For an interior wiring system or circuit which is required to be grounded, and which is not connected to an exterior distribution system, the grounding connection shall be made at the transformer, or other source of supply, or on the supply side of the first switch controlling the system, and:

- (a) The grounding conductor shall be not smaller than that specified in Table 17; and
- (b) If two or more systems are employed, a common system grounding conductor shall be installed unless separate grounding is supplied for each such system, in which case the grounding for the individual systems shall be interconnected.

Conductor Enclosures

10-032 Conductor Enclosures. Raceways, cable sheaths or armouring, if of metal, shall be grounded.

10-034 Other Conductor Enclosures. Where by reason of the elimination of sheath currents, the sheaths of single conductor metallic sheathed cables are grounded at the supply end only, and cannot be employed for bonding non-current carrying metal parts of a wiring system, a conductor selected in accordance with Table 16 shall be installed for the purpose of providing a continuous bond in the system.

Equipment

10-036 Fixed Equipment, General. Exposed, non-current-carrying metal parts of fixed equipment shall be grounded if the equipment is:

- (a) Supplied by means of metal-clad wiring;
- (b) Located in a wet location and is not isolated;
- (c) Located within reach of a person who can make contact with any grounded surface or object;
- (d) Located within reach of a person standing on the ground;
- (e) In a hazardous location;

- (f) In electrical contact with metal, metal foil or metal lath; or
- (g) To operate with any terminal at more than 150 volts to ground, except:
 - (i) Enclosures for switches or circuit breakers which are accessible to qualified persons only,
 - (ii) Metal frames of electrically-heated devices which have been exempted by special permission and are permanently and effectively insulated from ground, and
 - (iii) Transformers mounted on wooden poles at a height of more than 8 feet from the ground subject to the acceptance of the inspection department and the requirements of the supply authority.

10-038 Fixed Equipment, Specific. Exposed, non-current-carrying metal parts of the following kinds of fixed equipment shall be grounded:

- (a) Frames of motors operating at 50 volts or more;
- (b) Cases of controllers for motors, except lined covers of snap switches;
- (c) Electric equipment of elevators and cranes;
- (d) Electrical equipment in garages, theatres and motion picture studios, except pendent lamp-holders on circuits of not more than 150 volts to ground;
- (e) Motion-picture projection equipment;
- (f) Electric signs and associated equipment;
- (g) Generator frames in an electrically-operated organ, unless the generator is effectively insulated from the ground;
- (h) Switchboard frames and structures supporting switching equipment, except that frames of direct-current, single polarity switchboards need not be grounded if effectively insulated;
- (i) X-Ray equipment used in therapy;
- (j) Equipment supplied by Class 1 and 2 circuits falling within the scope of Section 16 where such circuits require grounding to meet the intent of Rules 10-004 to 10-018.

10-040 In Non-metallic Wiring Systems. Where a non-metallic wiring system is used:

- (a) A ground connection shall be provided at all outlets; and
- (b) Metallic boxes shall be grounded.

10-042 Non-Electrical Equipment

(1) The following metal parts of non-electrical equipment shall be grounded:

- (a) Frames and tracks of electrically-operated cranes;
- (b) The metal frame of a non-electrically-driven elevator car to which electric conductors are attached;

- (c) Hand-operated metal shifting ropes or cables of electric elevators;
- (d) Metal enclosures such as partitions or grillwork around equipment.

(2) Where a private metallic water-supply system is used in connection with premises supplied with electrical power or energy, the water-supply system shall be bonded to a neutral conductor of not less than No. 8 AWG copper wire by means of a bonding conductor of not less than No. 8 AWG copper wire attached to the water supply system:

- (a) At a point as close as is practicable to the consumer's service entrance; and
- (b) At the point where the sub-feeder enters a barn or other building.

10-044 Portable Equipment

(1) Exposed non-current-carrying metal parts of portable equipment shall be grounded under the following conditions:

- (a) When used in hazardous locations unless supplied through an isolating transformer having an ungrounded secondary of not over 50 volts;
- (b) When the inspection department requires the appliance or equipment to be provided with grounding means;
- (c) When the equipment is used in damp or wet locations, or by persons standing on the ground, on metal floors, inside metal tanks or boilers, except where such equipment is supplied through an isolating transformer having an ungrounded secondary of not more than 50 volts;
- (d) When the equipment operates with any terminal at more than 150 volts to ground except:
 - (i) Motors, where guarded; and
 - (ii) By special permission, the metal frames of electrically heated appliances which are impractical to ground but which are permanently and effectively insulated from ground.

(2) Exposed non-current-carrying metal parts of enclosures of portable X-ray equipment used in therapy shall be grounded except by special permission.

(3) Notwithstanding Subrules (1) and (2), tools and appliances approved with a protective system of double insulation, or its equivalent, and so marked, need not be grounded.

10-046 Spacing or Bonding of Electrical and Lightning Rod Systems.

Where practicable, a clearance of at least six feet shall be provided between lightning rod conductors and electrical conductors and equipment, but where this separation is not possible, the ground electrodes for the two systems shall be connected together, at or below ground level, with a copper conductor of a size not less than that of the grounding conductor for the electrical system and in no case shall the bonding conductor be smaller than No. 6 AWG copper.

Methods of Grounding

10-048 Effective Grounding. The path to ground from circuits, equipment, or conductor enclosures shall be permanent and continuous and shall have ample carrying capacity to conduct safely any currents liable to be imposed on it, and shall have impedance sufficiently low to limit the potential above ground, and to facilitate the operation of the over-current devices in the circuit.

10-050 Grounding Conductor to Circuit. The grounding conductor may be connected to the grounded circuit conductor at any convenient point on the premises on the supply side of the service disconnecting means, or in other suitable service equipment if provided.

10-052 Common Grounding Conductor. The grounding conductor for circuits may also be used as a common grounding conductor for grounding equipment, conduit, and other metal raceways or enclosures for conductors, including service conduit or cable sheath and service equipment.

10-054 Common Grounding Electrode. Where the alternating-current system is connected to a grounding electrode in or at a building as specified in Rules 10-024 and 10-026, the same electrode may be used to ground conductor enclosures and equipment in or on that building.

10-056 Underground Service

(1) Where an underground service cable is served from a continuous underground metal-sheathed cable system and the sheath or armour of the service cable is metallically connected to the underground system the sheath or armour of the service cable shall not be required to be grounded at the building if it is insulated from the interior conduit or piping.

(2) Where a metal-sheathed service cable is served from a continuous underground metal-sheathed cable system, is bonded to the underground system and is contained in an underground service conduit, the conduit shall not be required to be grounded at the building if it is insulated from the interior conduit or piping.

10-058 Short Section of Raceway. Isolated sections of metal raceway or cable armour, if required to be grounded shall preferably be grounded by connecting to other grounded raceway or armour, but may be grounded in accordance with Rule 10-060.

10-060 Fixed Equipment

(1) Fixed equipment as specified in Rules 10-036 and 10-038 shall, subject to the provisions of Rule 10-096, be grounded in one of the following ways:

- (a) An effective metallic connection to grounded metal raceways or cable armour, except:
 - (i) Armour as specified in Subrules (2) and (3);
 - (ii) Where the raceways or cables are run underground, in locations coming within the scope of Section 22, or otherwise subject to corrosion;
- (b) A grounding conductor which is run with circuit conductors as a part of a cable assembly and which may be uninsulated, but, if provided with an individual covering, the covering shall be finished to show a green colour;

(c) A separate grounding conductor installed in the same manner as a grounding conductor for conduit and the like; or

(d) Other acceptable means, subject to special permission.

(2) The armour of those constructions of armoured cables incorporating a grounding conductor shall not be considered as fulfilling the requirements of a grounding conductor for the purpose of this Rule, and the grounding conductor provided in these cables shall comply with paragraph (b) of Subrule (1).

(3) The armour of flexible metal conduit shall not be considered as fulfilling the requirements of a grounding conductor for the purpose of this Rule, and a separate grounding conductor shall be run within the conduit.

10-062 Equipment on Structural Metal

(1) Electrical equipment secured to and in contact with the grounded structural metal frame of a building, shall be deemed to be grounded.

(2) Metal car frames supported by metal hoisting cables attached to or running over sheaves or drums of elevator machines shall be deemed to be grounded if the machine is grounded in accordance with this Code.

10-064 Portable Equipment. Where the non-current-carrying metal parts of portable equipment are required to be grounded, such grounding shall be obtained by:

- (a) Connection of the equipment to a permanent outlet provided with a grounding medium as required by Rule 10-060 for fixed equipment;
- (b) The use of one of the following means to obtain continuity between the non-current-carrying metal parts of the equipment and the permanent grounding medium:
 - (i) The metal enclosure of the conductors feeding the equipment,
 - (ii) A bare conductor, or a green, or green yellow combination, coloured conductor run with the circuit conductors in flexible cords or power supply cables; and
- (c) The use of an approved multi-prong plug by which grounding is automatically established.

10-066 Pendant Equipment

(1) Where the non-current-carrying metal parts of pendant equipment are required to be grounded, such grounding shall be obtained by:

- (a) Connection of the equipment to a permanent outlet provided with a grounding medium as required by Rule 10-060 for fixed equipment; and
- (b) The use of one of the following means to obtain continuity between the non-current-carrying metal parts of the equipment and the permanent grounding medium:
 - (i) The metal enclosure of the conductors feeding the equipment,
 - (ii) A bare conductor, or a green, or green yellow combination, coloured conductor run with the circuit conductors in flexible cords or power supply cables.

(2) Chains which support electric lighting equipment shall not be used as a means of grounding the non-current-carrying metal parts of the equipment.

10-068 Grounding Equipment to Circuit Conductor

(1) The grounded circuit conductor on the load side of the connection to ground shall not be used for grounding equipment, cable armour, or metal raceways, except by special permission.

(2) The grounded service conductor on the supply side of the service disconnecting means may be used for grounding meter housing and service equipment.

10-070 Electrolytic Type Water Heaters. Electrolytic type water heaters connected to a grounded single-phase ac circuit may be used provided that:

- (a) A copper grounding conductor of a size given in the second column of Table 16 but in no case less than No. 12 AWG is run connecting the frame of the heater to the grounded conductor of the circuit at the service box; and
- (b) The grounded conductor of the circuit is grounded at the service box to a grounding system.

Bonding

10-072 Bonding at Service Equipment. The electrical continuity of the grounding circuit at the service equipment shall be assured by one of the means given in Rule 10-074 for the following equipment and enclosures if metallic:

- (a) Service raceways or service armour or sheaths;
- (b) All service equipment enclosures containing service entrance conductors including meter fittings, boxes, or the like, interposed in the service raceway or armour; and
- (c) Any conduit or armour which forms part of the grounding conductor to the service raceway.

10-074 Means of Assuring Continuity at Service Equipment

(1) Electrical continuity at service equipment shall be assured by:

- (a) The use of threaded couplings and threaded bosses on enclosures with joints made up tight where metallic rigid conduit is used;
- (b) The use of threadless couplings made up tight where electrical metallic tubing is used;
- (c) The use of bonding jumpers meeting the requirements of Rules 10-084 and 10-116; or
- (d) Other devices, except standard locknuts and bushings, such as grounding bushings specifically approved for the purpose, equipped with bonding jumpers meeting the requirements of Rule 10-084.

(2) Where a non-conductive protective coating such as paint or enamel is used on equipment, conduit, couplings or fittings, such coating shall be removed from threads and other contact surfaces in order to ensure a good electrical connection.

10-076 Metal Armour or Tape of Service Cable

Where service cable has an uninsulated grounded service conductor in continuous electrical contact with its metallic armour or tape, the metal covering shall be considered to be adequately grounded.

10-078 Bonding at Other than Service Equipment

The electrical continuity of metal raceway or metal-sheathed cable shall be assured by one of the methods specified in paragraphs (b), (c), (d), (e) and (f) of Rule 10-074 (1), or by the use of:

- (a) Threadless fittings, made up tight with conduit or armoured cable;
- (b) Two locknuts, one inside and one outside of boxes and cabinets; or
- (c) One locknut and a metal conduit bushing provided the bushing can be installed so that it is mechanically secure and makes positive contact with the inside surface of the box or cabinet.

10-080 Loosely Jointed Metal Raceways

(1) Expansion joints and telescoping sections of raceways shall be made electrically continuous by bonding jumpers or other approved means.

(2) Metal trough raceways used in connection with sound recording and reproducing equipment made up in sections, shall contain a grounding conductor to which each section shall be bonded.

10-082 Hazardous Locations. In hazardous locations, regardless of the voltage involved, the electrical continuity of metallic raceway, boxes and the like, shall be assured by one of the methods specified in paragraphs (a), (b), (c), (d) and (e) of Rule 10-074 (1).

10-084 Bonding Jumpers. Bonding jumpers shall be:

- (a) Of copper or other corrosion-resistant material;
- (b) Of sufficient size to have an ampacity not less than that required for the corresponding grounding conductor except that this ampacity may be determined on the basis of:
 - (i) Table 41, where the conducting path is supplemented by the use of two locknuts and a grounding bushing; or
 - (ii) The maximum size that the terminal on the grounding bushing will accommodate where single conductor metallic-sheathed cables are employed and the sheaths are attached to a grounded metallic plate by connectors, each fitted with a locknut and a grounding bushing;
- (c) Attached to cabinets and similar equipment in a manner specified in Rule 10-118; and
- (d) Attached in a manner specified in Rule 10-120 where used between grounding electrodes or around water meters and the like.

Grounding Electrodes

10-086 Grounding Electrodes

(1) Where a continuous electrically conductive underground public water main system, including conductive service piping run therefrom to premises, is available, it shall be used as the grounding electrode.

(2) Where a continuous electrically conductive underground public water main system is not available, a service water pipe from the public water main to premises, if available, shall be used as the grounding electrode provided:

- (a) It is continuously electrically conductive;
- (b) It is placed underground at least 10 inches below the normal permanent moisture level;
- (c) The underground portion extends at least 10 feet beyond the extremities of the premises served; and
- (d) It is supplemented by one or more grounding electrodes referred to in Rule 10-088 if the metallic water piping does not have a ground resistance of 25 ohms or less.

(3) Where a system of the types listed in Subrules (1) or (2) is not available, a multiple grounded neutral grid or an acceptable artificial ground electrode or electrodes shall be used as the grounding medium.

(4) In any case where two or more of the grounding mediums listed in this Rule appear at premises, the main grounding electrode for the system shall be selected in the order of preference outlined with bonding provided between the available electrodes in accordance with Rule 10-102.

10-088 Artificial Electrodes. An artificial ground electrode shall consist of driven rods, buried plates, or other devices acceptable for the purpose and which conform to the following requirements:

- (a) Rod electrodes shall be not less than:
 - (i) $\frac{5}{8}$ inch in diameter if of iron or steel, and
 - (ii) $\frac{1}{2}$ inch in diameter if of non-ferrous metal;
- (b) Plate electrodes shall:
 - (i) Present not less than 2 square feet of surface to exterior soil,
 - (ii) Be not less than $\frac{1}{4}$ inch in thickness if of iron or steel, and
 - (iii) Be not less than 0.06 inch thick if of non-ferrous metal;
- (c) Rods shall:
 - (i) Be preferably of one piece where of less than standard commercial length; and
 - (ii) Have a clean metal surface which is not covered with paint, enamel, or other poor conducting material;
- (d) Artificial ground electrodes shall, as far as practicable, be buried at least 10 inches below permanent moisture level;
- (e) Where rock bottom is encountered at a depth of less than 4 feet, the electrodes shall be buried in a horizontal trench;

(f) Rods shall be driven to a depth of at least 10 feet regardless of the size or number used, except that:

- (i) Where rock bottom is encountered at a depth of 4 feet or more, they shall be driven to rock bottom; or
- (ii) Where rock bottom is encountered at a depth of less than 4 feet, they shall be buried in a horizontal trench and shall be not less than 10 feet long;
- (g) Each electrode shall be separated at least 6 feet from any other electrode including an electrode used for signal circuits, radio, lightning rods, or any other purpose;
- (h) Where any or all of the separate ground electrodes are bonded together, the bonding conductor shall be:
 - (i) At least No. 6 AWG,
 - (ii) Installed so as not to be subject to mechanical damage, and
 - (iii) Attached to electrodes for power systems in accordance with Rule 10-120 and preferably be attached to other electrodes in the same manner.

10-090 Resistance of Electrodes

(1) Buried or driven electrodes shall, if practicable, have a combined resistance to ground not greater than 25 ohms.

(2) Where the resistance to ground of any electrode is higher than 25 ohms, two or more electrodes connected in parallel shall be used.

10-092 Railway Track as Electrodes. Rails or other grounded conductors of electric railway circuits shall not be used as a ground for other than railway lightning arresters and railway equipment, conduit, armoured cable, metal raceway, and the like; and in no case shall such rails or other grounded conductors of railway circuits be used for grounding interior wiring systems other than those supplied from the railway circuit itself.

10-094 Use of Lightning Rods. Lightning rod conductors and driven pipes, rods or other electrodes, excluding buried metallic water-piping systems, used for grounding lightning rods shall not be used for grounding wiring systems or other electrical equipment.

Grounding Conductors

10-096 Material for Grounding Conductors

(1) The grounding conductor of a wiring system, whether also used for grounding electrical equipment or not, may be insulated or bare, and shall be:

- (a) Of copper; and
- (b) Without joint or splice throughout its length, except in the case of bus bars or thermanit welded joints.

(2) The grounding conductor for equipment and for conduit and other metal raceways and enclosures for conductors shall be:

- (a) Of copper or other corrosion-resistant material, insulated or bare; or
- (b) A bus bar or steel pipe;
- (c) Rigid metal conduit or electrical metallic tubing, except where used underground or in any other locations where materials having a deteriorating effect may come in contact with the metal in which case a separate conductor as required by paragraph (a) shall be provided;
- (d) The sheath of mineral-insulated cable or any conductor of a mineral-insulated cable if it is permanently marked at the time of installation so that it can be readily distinguished from conductors which are not used as grounding conductors;
- (e) The sheath of aluminum-sheathed cable, but if used for underground runs or in locations where materials having a deteriorating effect may come in contact with the metal, corrosion resistant protection suitable for the corrosive conditions encountered shall be provided; or
- (f) Other metallic raceways or cable armour as provided for in Rule 10-060.

10-098 Installation of Grounding Conductors

(1) A grounding conductor No. 4 AWG or larger may be attached to the surface on which it is carried without the use of knobs, tubes, or insulators, and it need not be protected unless it is exposed to severe mechanical injury.

(2) A No. 6 AWG grounding conductor which is free from exposure to mechanical injury may be run along the surface of the building construction without metal covering or protection, if it is rigidly stapled to the construction; otherwise it shall be in conduit, electrical metallic tubing, or cable armour.

(3) Grounding conductors smaller than No. 6 AWG shall be installed and protected in the same manner as the circuit conductors for a given installation.

(4) Metallic enclosures for grounding conductors shall be continuous from the point of attachment to cabinets or equipment to the grounding electrode, and shall be securely fastened to the ground clamp or fitting.

(5) Where rigid metallic conduit or steel pipe is used as a grounding conductor, the installation shall comply with Section 12.

(6) The grounding conductor for equipment may be spliced or tapped as may be required, but such splices or taps shall only be made within boxes except in the case of open wiring where they may be made externally from boxes and covered with insulation.

(7) Where more than one grounding conductor enters a box, all such conductors shall be in good electrical contact with each other by means of securing all grounding conductors under grounding screws, or by connecting them together with an acceptable solderless connector and connecting one conductor only to the box by a grounding screw or an approved grounding device, and the arrangement shall be such that the disconnection or removal of a receptacle, fixture, or other device fed from the box will not interfere with or interrupt the ground continuity.

(8) Where a grounding conductor is run in the same raceway with other conductors of the system to which it is connected, it shall be insulated, except that where the length of the raceway does not exceed 50 feet and does not contain more than the equivalent of two quarter bends from end to end, an uninsulated grounding conductor may be used.

(9) Grounding continuity between a grounded outlet box and the grounding circuit of the receptacle shall be established by means of a bonding jumper between the outlet box and the receptacle grounding terminal.

10-100 Grounding Conductor Size for DC Circuits

(1) The ampacity of the grounding conductor for a direct-current supply system or generator shall be not less than that of the largest conductor supplied by the system, except that where the grounded circuit conductor is a neutral conductor derived from a balancer winding or a balancer set, the size of the grounding conductor shall be not less than that of the neutral conductor.

(2) The grounding conductor shall in no case be smaller than No. 8 AWG copper.

10-102 Grounding Conductor Size for AC Systems and Fixed Equipment. When connected to a grounding electrode of a type specified in Rule 10-086 (1), (2), or (3), the size of grounding conductor shall be:

- (a) Not less than that given in column 2 of Table 17 for an alternating-current system or for a common grounding conductor;
- (b) Not less than that given in column 2, 3, or 4 of Table 18, as applicable for a service raceway, for the metal sheath or armour of a service cable, and for service equipment, where the alternating-current system is not grounded at the premises; and
- (c) Not less than that given in column 2, 3, 4, or 5 of Table 16, as applicable, for conduit, cable sheath, or armour, other metal raceways or enclosures for conductors, outlets which supply portable or pendent equipment, and fixed equipment.

10-104 Grounding Conductor Size for Portable and Pendent Equipment

(1) For grounding portable or pendent equipment supplied by circuits having overcurrent protection not exceeding 15 amperes, the size of the grounding conductor between the device and the permanent wiring outlet shall be:

- (a) Not smaller than No. 16 AWG if uninsulated, or No. 18 AWG if insulated; and
- (b) At least the same size as the current-carrying conductors except that in cords of No. 12 AWG and larger it may be two AWG sizes smaller than the other conductors.

(2) For grounding portable or pendent equipment protected at more than 15 amperes, the size of the grounding conductor shall be not less than that specified in Table 16.

10-106 Grounding Conductor Size for Outline Lighting. Isolated non-current-carrying metal parts of outline lighting systems may be bonded together by a No. 14 AWG copper conductor protected from mechanical injury, if a conductor other than a common grounding conductor complying with Rule 10-102 is used to ground the group.

10-108 Common Raceway for Grounding and Other Conductors. A grounding conductor may be run in the same raceway with other conductors of the system to which it is connected and shall be insulated, except that where the length of the raceway does not exceed 50 feet and does not contain more than the equivalent of two quarter-bends from end to end, an uninsulated grounding conductor may be used.

10-110 Continuity of Grounding Conductor. No automatic cutout or switch shall be placed in the grounding conductor of an interior wiring system unless the opening of the cutout or switch disconnects all sources of energy.

Grounding Conductor Connections

10-112 Grounding Conductor Connection to Raceway. The point of connection of the grounding conductor to interior metal raceways, cable armour and the like shall be as near as practicable to the source of supply and shall be chosen so that no raceway or cable armour is grounded through a run of smaller size than s called for in Rule 10-102.

10-114 Grounding Conductor Connection to Water Pipe Electrodes

(1) Where the grounding electrode is a metallic water-piping system to which a common grounding conductor or the grounding conductor of a system is attached, the point of attachment shall be:

- (a) On the street side of the water meter; or
- (b) On a cold-water pipe of adequate ampacity and as near as practicable to the point of entrance of the water service in the building.

(2) Where practicable, the point of attachment shall be accessible.

(3) Where the point of attachment is not on the street side of the water meter, the metallic water-piping system shall be made electrically continuous by bonding together all parts thereof between the point of attachment and the street side of the water meter or the pipe entrance, if these parts contain insulating sections or are liable to become disconnected, as at meters, valves, and unions.

(4) Equipment may be grounded to a cold-water pipe which is near the equipment.

10-116 Grounding Conductor Connection to other than Water Pipe Electrodes

(1) Where a metallic water-piping system is not available, the grounding conductor shall be attached to other electrodes at a point which will assure a permanent ground.

(2) Where practicable, the point of attachment shall be accessible.

10-118 Grounding Conductor Connection to Circuits and Equipment

(1) The grounding conductor, bond, or bonding jumper shall be attached to circuits, conduits, cabinets, equipment, and the like, which are to be grounded by means of suitable lugs, pressure wire connectors, clamps, or other approved means.

(2) Connections which depend upon solder shall not be used.

(3) The grounding conductor shall be secured to every metallic box by means of a grounding screw, which shall be used for no other purpose.

(4) The grounding conductor shall be brought into every non-metallic outlet box in such a manner that it can be connected to any fitting or device which may require grounding.

(5) A grounding conductor shall be connected to the grounding terminal of receptacles in such a manner that disconnection or removal of the receptacle will not interfere with, or interrupt, grounding continuity.

10-120 Grounding Conductor Connection to Electrodes

(1) The grounding conductor shall be attached to the grounding electrode by means of:

- (a) An approved bolted clamp, of cast bronze or brass or of plain or malleable cast iron;
- (b) A pipe fitting plug or other approved device screwed into the pipe or into the fitting;
- (c) Copper welding by the thermit process; or
- (d) Other equally substantial approved means.

(2) The grounding conductor shall be attached to the grounding fitting as required by Rule 10-118 (1).

(3) Connections which depend on solder shall not be used.

(4) Not more than one conductor shall be connected to the grounding electrode by a single clamp or fitting, unless the clamp or fitting is of a type approved for multiple conductor connection.

Instrument Transformers, Relays, etc.

10-122 Instrument Transformer Circuits

(1) Where the primary windings of current and potential instrument transformer are connected to circuits of 300 volts or more to ground, the secondary circuits of the transformer shall be grounded.

(2) Where the transformers are on switchboards, the secondary circuits shall be grounded irrespective of the voltage of the circuits.

10-124 Instrument Transformer Cases. The cases and frames of instrument transformers shall be grounded but where the primary circuit of a current transformer is not over 150 volts to ground and the transformer is used solely to supply current to meters, the case or frame of the current transformer need not be grounded.

10-126 Cases of Instruments, Meters and Relays—Operating Voltage 750 Volts or Less

- (1) Where instruments, meters and relays:
 - (a) Are not located on switchboards;
 - (b) Operate with windings or working parts at between 300 and 750 volts to ground; and
 - (c) Are accessible to other than qualified persons,

the cases and other exposed metal parts of the instruments, meters and relays shall be grounded.

- (2) Where instruments, meters and relays:
 - (a) Operate with windings or working parts at 750 volts or less to ground;
 - (b) Are on switchboards having no live parts on the front of the panels; and
 - (c) Are operated from current and potential transformers or are connected directly in the circuit,

the cases of the instruments, meters and relays shall be grounded.

- (3) Where instruments, meters and relays:
 - (a) Operate with windings or working parts at 750 volts or less to ground;
 - (b) Are on switchboards having exposed live parts on the front of the panels; and
 - (c) Operate from current and potential transformers or are connected directly in the circuit,

the cases of the instruments, meters and relays shall not be grounded and, where the voltage to ground exceeds 150 volts, mats of insulating rubber or other suitable floor-insulation shall be provided for the operator.

10-128 Cases of Instruments, Meters and Relays—Operating Voltage over 750. Where instruments, meters and relays have current-carrying parts over 750 volts to ground, they shall be isolated by elevation or protected by acceptable barriers, grounded metal or insulating covers or guards and their cases shall not be grounded, except that in electrostatic ground detectors the internal ground segments of the instrument shall be connected to the instrument case and grounded, and the detector shall be isolated by elevation.

10-130 Instrument Grounding Conductor. The grounding conductor for secondary circuits of instrument transformers and for instrument cases shall be not smaller than No. 12 AWG if of copper, or of equal conductance if of other metal.

Lightning Arresters**10-132 Lightning Arresters on Secondary Services—750 Volts or Less**

(1) Where a lightning arrester is installed on a secondary service, the connections to the service conductors and to the grounding conductor shall be as short as possible.

- (2) The grounding conductor may be:
 - (a) The grounded service conductor;

- (b) The common grounding conductor;
- (c) The service equipment grounding conductor; or
- (d) A separate grounding conductor.

(3) The bonding or grounding conductor shall be of copper not smaller than No. 6 AWG or of equivalent corrosion-resisting material.

10-134 Lightning Arresters on Primary Circuits

The grounding conductor of a lightning arrester protecting a transformer which supplies a secondary distribution system may be interconnected as follows:

- (a) A metallic interconnection may be made to the secondary neutral conductor provided that, in addition to the direct grounding connection at the arrester, the grounded conductor of the secondary has elsewhere a grounding connection to a continuous metallic underground water-piping system;
- (b) In urban water pipe areas where there are at least four water pipe connections on the neutral conductor and not less than four such connections in each mile of neutral conductor, the metallic interconnection may be made to the secondary neutral conductor with omission of the direct grounding connection at the arrester;
- (c) Where the secondary is not grounded as in (a) above but is otherwise grounded as in Rule 10-088, such interconnection, if made, shall be through a spark gap having a 60 cycle breakdown voltage of at least twice the primary circuit voltage but not necessarily more than 15 kilovolts, and there shall be at least one other ground on the grounded conductor of the secondary at least 20 feet distant from the lightning arrester grounding electrode.

10-136 Installation Requirements and Guarding for Lightning Arrester Grounding Conductors. The grounding conductor for lightning arresters shall:

- (a) When enclosed in metallic material be connected to the guard at both ends; and
- (b) Be installed and protected to meet the requirements of Rule 10-098.

SECTION 12—WIRING METHODS—LOW POTENTIAL 750 VOLTS OR LESS**12-000 Scope**

(1) The provisions of Section 12 apply to all wiring installations operating at 750 volts or less, except for:

- (a) Class 2 circuits as provided for in Section 16;
- (b) Communication circuits as provided for in Section 60;
- (c) Conductors which form an integral part of factory built equipment.

Conductors

12-002 Types of Conductors. Conductors installed in any location shall be suitable for the condition of use as indicated in Table 19 for the particular location involved and with particular respect to:

- (a) Moisture, if any;
- (b) Corrosive action, if any;
- (c) Temperature;
- (d) Degree of enclosure; and
- (e) Mechanical protection.

12-004 Thermoplastic-Insulated Conductors

(1) Conductors having thermoplastic insulation shall not be installed during any time when the ambient temperature is sufficiently low as to be liable to cause damage to the insulation.

(2) Such conductors shall not be so installed as to permit flexing or movement of the conductors after installation if the ambient temperature is liable to become low enough to damage the insulation during flexing or movement.

12-006 Conductors Buried in Earth

(1) Single conductors and cable assemblies, which do not contain metal sheath or armour in their construction and which are indicated in Table 19 as suitable for direct burial or for use on service entrances below ground and which are so used, shall be installed:

- (a) In a trench which shall be:
 - (i) Not less than 3 feet deep with suitable mechanical protection for high voltage cables; and
 - (ii) Not less than 3 feet deep where cable passes under an area subject to public vehicular traffic with mechanical protection in the form of non-metallic duct, embedded in concrete or rigid conduit;
- (b) With a layer of sand at least 3 inches deep both above and below the conductors, if in rocky or stony ground;
- (c) So that they do not cross over each other in the trench;
- (d) With mechanical protection in the form of treated planking, a layer of concrete, or other acceptable material which shall be placed over the conductors after first back-filling with 3 inches of sand or earth containing no rocks or stones; and
- (e) With acceptable mechanical protection, as necessary, from the bottom of the trench to at least 12 inches above finished grade, and beyond that as may be required for mechanical protection by other Rules of this Code.

(2) Single conductors and cable assemblies, other than lead-sheathed single conductors and cable assemblies, which contain metal sheath or aluminum armour in their construction, and which are indicated in Table 19 as suitable for direct earth burial, or for use on services below ground and which are so used, shall be installed in accordance with Subrule (1), paragraphs (a), (b), (c), and (e).

(3) Single conductors and cable assemblies which contain steel armour in their construction and which are indicated in Table 19 as suitable for direct earth burial or for use on services below ground and which are so used shall be installed:

- (a) In a trench which shall be:
 - (i) Not less than 18 inches deep unless rock bottom is encountered at a lesser depth, in which case a minimum depth of not less than 6 inches deep and grouted with concrete to the level of the rock surface shall be permitted; and
 - (ii) Not less than 24 inches in any case under an area which is subject to vehicular traffic; and
- (b) In accordance with Subrule (1), paragraphs (b), (c), and (e).

(4) Lead-sheathed single conductors and cable assemblies which contain no armour in their construction, and which are indicated in Table 19 as suitable for direct earth burial and which are so used, shall be installed in accordance with Subrule (1), paragraphs (a), (b), (c), (d), and (e).

12-008 Conductors in Hoistways

(1) Where, by special permission, conductors other than those used to furnish energy to the elevator or dumbwaiter are installed in hoistways, they shall be mineral-insulated cable, aluminum-sheathed cable, or be run in rigid conduit or flexible conduit or electrical metallic tubing.

(2) The cable, conduit, or tubing referred to in Subrule (1) shall be:

- (a) Securely fastened to the hoistway construction; and
- (b) Arranged so that terminal, outlet, or junction boxes open outside the hoistway except that pull boxes may be installed in long runs for the purpose of supporting or pulling-in conductors.

12-010 Wiring in Ducts and Plenum Chambers

(1) No wiring system of any type shall be installed in or run through ducts used for the removal of dust, loose stock, or vapour.

(2) Where wiring is run through an air-conditioning duct or plenum chamber or in the duct or plenum chamber to connect to integral fan systems specifically approved for the purpose, the wiring method shall be in accordance with the requirements of Rule 12-002 and, except as noted in Subrule (3) below, shall be rigid metal conduit, flexible steel conduit, armoured cable, electrical metallic tubing, aluminum-sheathed cable, or mineral-insulated cable.

(3) Where a furnace cold-air return duct is formed by boxing in between joists, wiring methods approved for use in the particular location may be used.

12-012 Flame-Retardant Coverings

(1) Where the insulation on a conductor has a flame-retardant covering, the covering shall be removed sufficiently at terminals and splices to prevent creepage of current over it.

(2) Where insulated conductors are closely grouped behind switchboards and in like places, they shall have a flame-retardant covering.

12-014 Conductors Between Generators, Transformers, Switchboards, and Other Apparatus

Conductors between generators, transformers, switchboards, and other apparatus used in connection therewith shall be:

- (a) Exposed to view and supported on noncombustible absorption resisting insulators;
- (b) Run in raceways, tile, or other fireproof duct;
- (c) In the form of mineral-insulated cable, aluminum-sheathed cable; or
- (d) By special permission only, armoured cable.

12-016 Radii of Bends in Conductors. The radii of bends in conductors shall be sufficiently large to ensure that no injury is done to the conductors or their insulation, covering, or sheathing.

12-018 Lightning Rod Conductors. Where lightning rod conductors are installed, electrical wiring shall, where practicable, be kept at least 6 feet from such conductors except where bonding is provided in accordance with Rule 10-046.

12-020 Conductor Joints and Splices

(1) Unless made with approved solderless wire connectors, joints or splices in insulated conductors shall be soldered, but they shall first be made mechanically and electrically secure.

(2) Joints or splices shall be covered with an insulation approved for the purpose.

(3) Joints or splices in wires and cables shall be accessible.

12-022 Ends of Insulated Conductors. Where the ends of insulated conductors at switch and fixture outlets and in like places are not in use, they shall be insulated in the manner prescribed for joints and splices.

12-024 Terminating of Conductors

(1) The portion of stranded conductors to be held by wire-binding terminals or solderless wire connectors shall have the strands confined so that there will be no stray strands to cause either short-circuits or grounds.

(2) Stranded and solid conductors of greater current-carrying capacity than No. 10 AWG copper shall be soldered into lugs at terminals unless solderless wire connectors are used.

12-026 Supporting of Conductors

(1) Conductors shall be supported so that no injurious strain is imposed on the terminals of any electrical apparatus or devices or on any joints or taps.

(2) Conductors in vertical raceways shall be supported independently of the terminal connections and at intervals not exceeding those specified in Table 21, and such supports shall maintain the continuity of the raceway system without injury to the conductors or their covering.

(3) Conductors in raceways shall not hang over the edges of bushings, bends or fittings of any kind in such a manner that the insulation may be damaged.

12-028 Colour of Conductors

(1) No conductor finished to show a green colour shall be used for any purpose other than a grounding conductor.

(2) Where the mid-point of one phase of a 4-wire delta-connected secondary is grounded to supply lighting and similar loads, that phase conductor having the higher voltage to ground shall be indicated by painting or other effective means at any point where:

- (a) A connection is to be made; and
- (b) The grounded conductor is present.

12-030 Conductors in Multiple. Conductors of similar conductivity in sizes No. 1/0 AWG and upwards may be run in multiple, provided they are:

- (a) Free of splices;
- (b) The same circular mil area;
- (c) The same type of insulation;
- (d) The same length; and
- (e) Terminated at both ends in a wire connector specifically approved for use with conductors in parallel.

Open Wiring

12-032 Open Wiring Rules. Rules 12-034 to 12-056 apply only to single conductors run as open wiring.

12-034 Types of Conductors. Conductors shall be of types specified in Rules 12-002 and 12-004.

12-036 Spacing of Conductors

(1) Spacings between conductors and between conductors and adjacent surfaces shall, except as otherwise provided for in this Rule, comply with the following:

- (a) For normally dry locations the spacings shall be not less than those specified in Table 20;
- (b) Where circuits of different voltages are run parallel to each other, the separation between adjacent conductors of the different circuits shall be not less than that specified in Table 20 for conductors of the circuit having the higher voltage;
- (c) In damp locations, a separation of at least 1 inch shall be maintained between conductors and adjacent surfaces.

(2) In all locations, a separation of at least 1 inch shall be maintained between conductors and adjacent metallic piping or conducting materials.

(3) Where conductors are run across the open faces of joists, studs, or timber, the separation between conductors shall be as specified in Rule 12-044.

(4) At connections to fittings and devices or in other cases where it is not practical to maintain the spacings specified above, individual conductors shall be encased in porcelain tubes or continuous lengths of flexible tubing, but:

- (a) The porcelain tubes or flexible tubing shall extend the full length of the conductor between points of support; and
- (b) The flexible tubing shall not be used in damp locations, unless a spacing of not less than 1 inch can be maintained between the tubing and any wet or conducting surfaces.

12-038 Provision for Grounding

Where open wiring is used, provision for grounding shall be made in accordance with Section 10.

12-040 Conductor Supports

(1) Conductors shall be supported rigidly on incombustible, absorption-resisting insulators.

(2) Split knobs shall not be used to support conductors larger than No. 8 AWG.

(3) Conductors supported on solid knobs shall be securely tied thereto by tie wires having insulation of the same type as that on the conductors which they secure.

(4) Where used on metal surfaces, thermoplastic-insulated conductors shall not be mounted in split knobs or cleats.

12-042 Conductors on Flat Surfaces. Where conductors are run on flat surfaces, they shall be supported rigidly at intervals of not more than $4\frac{1}{2}$ feet.

12-044 Protection from Mechanical Injury

(1) Where conductors are supported on or run across the open faces of joists, wall-studs, or other timber, or on walls where exposed to mechanical injury, they shall be protected by running-boards, guard-strips, wooden boxing or sleeves of iron pipe.

(2) Where conductors are not exposed to mechanical injury, they may be run directly from timber to timber, but shall be:

- (a) Of not less than No. 8 AWG;
- (b) Separated from each other by not less than 6 inches; and
- (c) Supported at each timber.

(3) Open wiring shall not be run across the tops of ceiling joists in unfinished attics or like places.

12-046 Material for Running-Boards, Guard-Strips and Boxing

(1) Material for running-boards, guard-strips and boxing shall be at least $\frac{1}{8}$ inch thick and the edges of running-boards shall project at least $\frac{1}{2}$ inch beyond the insulators on both sides.

(2) Guard-strips shall be at least as high as the insulators and placed as close to the conductors as Table 20 permits.

(3) In wooden boxing, there shall be a clear space of at least 1 inch between conductors and adjacent surfaces, and the ends of boxing not abutting on the structure of the building shall be closed.

12-048 Ends of Conductors

(1) Conductors shall not be brought to a dead-end at any fitting distant more than 12 inches from the last supporting insulator.

(2) Where conductors of No. 8 AWG or larger are run as open wiring, solid knobs or strain insulators shall be used at the ends of the run.

12-050 Material for Attachment of Conductor Supports. Knobs and cleats shall be fastened securely with screws.

12-052 Maintaining Clearances. Sub-bases shall be installed under all surface-mounted snap switches and receptacles unless adequate clearances are otherwise maintained.

12-054 Where Open Wiring Connects to Other Systems of Wiring. Where open wiring is connected to conductors in raceways, armoured cable, or non-metallic sheathed cable, the junction shall be made in a box, or at, or in, a fitting having a separately bushed hole for each conductor.

12-056 Conductors Passing Through Walls or Floors

(1) Where a conductor passes through walls, floors, timbers, or partitions, it shall be bushed:

- (a) Where not exposed to mechanical injury, with a continuous porcelain tube; or
- (b) Where exposed to mechanical injury, with a single sleeve of iron pipe enclosing all conductors of the circuit and each conductor shall be separately encased in a continuous length of flexible tubing extending the full distance between the insulators next adjacent to the ends of the sleeve.

(2) The bushing shall be secured in place and shall project at least $\frac{1}{2}$ inch beyond the finished surface from which it issues.

Concealed Knob-and-Tube Wiring

12-058 Concealed Knob-and-Tube Wiring Rules

Rules 12-060 to 12-080 apply only to concealed knob-and-tube wiring.

12-060 Maximum Potential. Knob-and-tube wiring shall not be used for potentials exceeding 150 volts to ground or 300 volts between any two conductors.

12-062 Types of Conductors. Conductors shall be of types acceptable for concealed knob-and-tube wiring as indicated in Table 19.

12-064 Spacing of Conductors. Conductors shall be separated from each other by a distance of at least 4 inches and from adjacent surfaces by a distance of at least 1 inch, except that:

- (a) At distribution centres, meters, outlets, switches, and places where 4-inch separation cannot be maintained between conductors, each conductor shall be encased in a continuous length of flexible tubing extending from within the distribution box, meter, outlet box, or switch box to the nearest supporting knob; or

- (b) Where conductors approach at any point within 1 inch of other electrical conductors or of metallic piping or other conducting material, they shall be protected in the manner prescribed by Rule 12-036 (4).

12-066 Conductors Passing Through Walls or Floors. Where conductors pass through walls, floors, timbers, or partitions, they shall be protected in the manner prescribed by Rule 12-056.

12-063 Conductor Supports

(1) Conductors shall be supported separately on incombustible, absorption-resisting insulators.

(2) Split knobs shall not be used to support conductors larger than No. 8 AWG.

(3) Conductors supported on solid knobs shall be securely tied thereto by tie-wires having insulation of the same type as that on the conductors which they secure.

12-070 Conductors on Flat Surfaces

(1) Conductors shall be run singly on separate timbers or studding where practicable and shall be supported rigidly at intervals of not more than $4\frac{1}{2}$ feet.

(2) Where conductors of No. 8 AWG or larger are run as knob-and-tube wiring, solid knobs or strain insulators shall be used at the ends of the run.

12-072 Material for Attachment of Conductor Supports. Knobs shall be fastened securely with screws.

12-074 Conductors in Plastered Partitions. Where conductors pass through or near cross-timbers in spaces behind plastering, the parts of the conductors which are within a distance of 3 inches measured vertically above the upper surface of the cross-timbers shall be protected by porcelain tubes.

12-076 Where Conductor Supports Cannot Be Attached

(1) Where it is impracticable to use insulating supports in any portion of an installation and the conductors are in a dry location, they may be fished, and shall be run separately, in flexible tubing extending in continuous lengths between supports, from a support to an outlet or between outlets; or some other wiring method providing mechanical protection for the conductors shall be used.

(2) There shall be no joints or splices in the conductors within their protective coverings.

12-078 Where Knob-and-Tube Wiring Connects to Other Systems of Wiring. Where knob-and-tube wiring is connected to conductors in raceways, armoured cable, or non-metallic sheathed cable, the junction shall be made in a box having a separately bushed hole for each conductor.

12-080 Provision for Grounding

Where knob-and-tube wiring is used, provision for grounding shall be made in accordance with Section 10.

Non-metallic Sheathed Cable

12-082 Non-metallic Sheathed Cable Rules.

Rules 12-084 to 12-108 shall apply only to conductors run as non-metallic sheathed cable.

12-084 Maximum Potential. Non-metallic sheathed cable shall not be used where the potential exceeds 300 volts between any two conductors.

12-086 Use. Non-metallic sheathed cable may be installed in or on buildings of combustible (ordinary or wood frame) construction, and in or on buildings of other types of construction as the inspection department may permit.

12-088 Method of Installation

(1) The cable shall be run in continuous lengths between outlet boxes, junction boxes, and panel boxes as a loop system, and the joints, splices, and taps shall be made in the boxes.

(2) Where concealed wiring is connected to non-metallic sheathed cable, the junction shall be made in a box.

(3) Where open wiring is connected to non-metallic sheathed cable, the junction shall be made in a box or at or in a fitting having a separately bushed hole for each conductor.

12-090 Bending of Cable. The cable shall not be bent or handled so that the covering is damaged.

12-092 Cable Supports. Where the cable is run between outlets, it shall be secured by straps or other approved devices located within 12 inches of every box or fitting and at intervals of not more than $4\frac{1}{2}$ feet throughout the run.

12-094 Not to be Embedded. The cable shall not be buried in plaster, cement, or similar finish.

12-096 Protection on Joists and Rafters. Cables shall not be run on or across:

- (a) The upper faces of ceiling joists or the lower faces of rafters in attic or roof spaces, where the vertical distance between the joists and the rafters exceeds three feet; or
- (b) The lower faces of basement joists, unless suitably protected from mechanical injury.

12-098 Concealed Cable Installations

(1) Where the cable is run through studs, joists, or similar wooden members, the outer surfaces of the cable shall be kept distant at least $1\frac{1}{4}$ inches from the edges of the wooden members, or the cable shall be effectively protected from mechanical injury.

(2) Where the cable is installed immediately behind a baseboard, it shall be effectively protected from mechanical injury from driven nails.

12-100 Exposed Cable Installations. Cable used in exposed wiring shall be adequately protected against mechanical damage where it passes through a floor, is less than 5 feet above a floor, or where exposed to mechanical damage.

12-102 Fished Cable Installation. Where the cable is used in concealed wiring and it is impracticable to provide the supports required by Rule 12-092, the cable may be fished.

12-104 Where Outlet Boxes Are Not Required

(1) Where the cable is exposed, approved switch, outlet, and tap devices of insulating material may be used without boxes.

(2) The openings in the devices shall fit closely around the outer covering of the cable.

(3) The device shall fully enclose any part of the cable from which any part of the covering has been removed.

(4) Where the conductors are connected to the devices by binding-screw terminals, there shall be as many screws as there are conductors unless the cables are clamped within the device or the terminals are of a type approved for the purpose.

12-106 Types of Outlet Boxes

(1) Boxes and fittings shall be of a type approved for use with non-metallic sheathed cable.

(2) Where grounded metal boxes are not required by these rules, outlet and switch boxes may be of fire-resisting moulded composition insulating material, furnished with a cover of the same material.

12-108 Provision for Grounding. Where non-metallic sheathed cable is used, provision for grounding shall be made in accordance with Section 10.

Raceway and Armoured Cable Work

12-110 Raceway and Armoured-Cable Work Rules. Rules 12-112 to 12-148 apply only to conductors in raceways.

12-112 Formed Raceways

(1) By special permission and using special means, raceways may be formed in concrete during the pouring and setting operations.

(2) Non-metallic raceways shall be of a flame-retardant type.

12-114 Mechanical Continuity of Raceways

Raceways shall be mechanically continuous throughout and mechanically secured to all equipment to which they are attached.

12-116 Support of Raceways

(1) Raceways shall be supported independently of equipment forming part of the raceway system.

(2) Type I bituminized fibre and asbestos-cement conduits shall be laid with their entire lengths in a 2-inch minimum envelope of concrete.

12-118 Removal of Fins and Burrs of Raceways

Fins and burrs shall be removed from the ends of raceways.

12-120 Electrical Continuity of Raceways. Metal raceways shall be electrically continuous throughout and electrically secured to all equipment to which they are attached.

12-122 Protection of Conductors at End of Raceways

(1) Bushings or equivalent means shall be used to protect conductors from abrasion where they issue from raceways.

(2) Where conductors are No. 4 AWG or larger, such protection shall consist of:

(a) Insulated type bushings, unless the equipment is equipped with a hub having a smoothly rounded throat; or

(b) Insulating material fastened securely in place which will separate the conductors from the raceway fittings and afford adequate resistance to mechanical injury.

12-124 Accessibility. Joints in wires and cables shall be accessible.

12-126 Junction of Open Wiring and Raceways.

Where conductors connected to open wiring issue from ends of raceways, they shall be protected with approved boxes or with fittings having a separately bushed hole for each conductor.

12-128 Types of Conductors. Conductors shall be of types suitable for use in raceways as indicated in Table 19.

12-130 Stranding of Conductors. Except in the case of conductors used as busbars and mineral-insulated cables, single or multiple conductor cables No. 8 AWG or larger, when installed in raceways, shall be stranded.

12-132 Inserting Conductors in Raceways

(1) Cleaning agents or lubricants of an electrical conducting nature or that might have a deleterious effect on conductor coverings shall not be used when inserting conductors in raceways.

(2) Lubricants used when inserting conductors in raceways shall be either talc or soapstone or an approved compound.

12-134 Entry of Raceway into Buildings

(1) Holes in outer walls of buildings through which raceways pass shall be filled to prevent the infiltration of moisture.

(2) Where a conduit or duct enters a building from an underground distribution system, the end of the conduit or duct within the building shall be sealed with a suitable compound to prevent the entrance of moisture and gases.

12-136 Conductors in Raceways

(1) All conductors of a circuit shall be contained in the same raceway, or in the same channel of a multiple channel raceway, except that where it is necessary to run conductors in multiple due to the capacity of an alternating-current circuit, additional enclosures may be used, provided the conductors in any one enclosure:

(a) Are balanced in size, length, and type of insulation; and

(b) Include an equal number of conductors from each phase and the neutral conductor.

(2) The same raceway or channel shall not contain circuits of different systems except as permitted by Rule 12-302.

12-138 Joints or Splices Within Raceways. There shall be no joints or splices in conductors or cables within raceways, except in the case of busways, wireways, and cabletroughs.

12-140 Radii of Bends in Raceways and Armoured Cable

(1) Where raceways of the type into which conductors are drawn are bent during installation, the radius of the curve of the inner edge of the bends shall be at least 6 times the internal diameter of the raceway except that the radius shall be increased to 10 times where lead-sheathed cable or varnished-cambric-insulated conductors are used.

(2) Bends shall be made without undue distortion of the raceways and without injury to its inner or outer surfaces.

12-142 Concrete, Cinder Concrete, and Cinder Fill

(1) Raceways made wholly or in part of aluminum shall not be embedded in concrete containing reinforcing steel unless:

- (a) The concrete is known to contain no chloride additives; or
- (b) The raceway has been treated with an approved bituminous base paint or other approved means to prevent galvanic corrosion of the aluminum.

(2) Where metal raceways are laid in or under cinders or cinder concrete, they shall be protected from corrosive action by a grouting of non-cinder concrete at least one inch thick entirely surrounding them unless they are 18 inches or more under the cinders or cinder concrete.

12-144 Raceways Installed Underground or Where Moisture May Accumulate

(1) The requirements for Category 1 locations as specified in Section 22 shall be complied with where raceways are installed:

- (a) Underground;
- (b) In concrete slabs or other masonry in direct contact with moist earth; or
- (c) In other locations where the conductors are subject to moisture.

(2) Where lead-sheathed conductors are used in such locations, a pothead or equivalent device shall be used to protect them from moisture and mechanical injury at their point of issue from the lead sheathing.

(3) Where raceways are installed underground, they shall be buried to a depth of not less than 18 inches or, if in an area subject to vehicular traffic, to a depth of not less than 24 inches unless rock bottom is encountered at a lesser depth, in which case the raceway shall be entrenched into the rock in a trench not less than 6 inches deep and grouted with concrete to the level of the rock surface.

12-146 Metal Raceways in Plaster. In buildings of fire-proof construction where branch-circuits run in metal raceways other than metal moulding have

conductors not larger than No. 10 AWG, the branch circuits may be laid on the face of the masonry or other material of which the walls and ceiling are constructed and may be buried in the plaster finish.

12-148 Protection for Raceways in Lanes. If subject to mechanical injury and unless otherwise protected, acceptable steel guards of not less than No. 10 MSG, adequately secured, must be installed to protect conduits less than 6 feet above grade in lanes and driveways.

Rigid and Flexible Conduit

12-150 Rigid and Flexible Conduit Rules. Rules 12-152 to 12-166 apply only to conductors run in rigid and flexible conduit.

12-152 Use. Rigid and flexible conduit may be installed in or on buildings or portions of buildings of either combustible or other than combustible types of construction.

12-154 Minimum Size of Conduits. No conduits having an internal diameter of less than $\frac{1}{2}$ inch, electrical trade size, shall be used except that:

- (a) $\frac{7}{16}$ inch and $\frac{3}{8}$ inch flexible conduit may be used for runs of not more than 5 feet for the connection of equipment; and
- (b) $\frac{3}{8}$ inch liquid-tight flexible metal conduit may be used as permitted by this Code.

12-156 Field Cut Conduit Threads. Rigid conduit threads which are cut in the field shall comply with Table 40.

12-158 Conduit Completely Installed Before Conductors are Installed

(1) Conduits of the draw-in type shall be installed as a complete system before the conductors are drawn into them.

(2) Rigid metal conduit used in damp or wet locations shall be threaded and the joints and fittings shall be made watertight.

(3) Conductors shall not be drawn into conduits in a building under construction until the conduit fittings and conductors are reasonably safe from damage from construction operations.

12-160 Maximum Number of Bends in Conduit.

A run of conduit between outlets or between draw-in points shall not contain more than the equivalent of 4 quarter-bends.

12-162 Conductors in Conduit

(1) Conduits shall be of sufficient size to permit the conductors to be drawn in and withdrawn without injury to the conductors.

(2) Subrules (3), (4), and (5) refer only to complete systems and not to short sections of conduit used for the protection of portions of open wiring which would otherwise be exposed to mechanical injury.

(3) The minimum size of conduit for a given number of conductors or multi-conductor cables shall be such that the conductors or cables and their coverings will not result in a greater conduit fill than that specified in Table 8, and, in this determination:

- (a) The interior cross-sectional area for various sizes of conduit shall be those specified in Table 9;
 - (b) The cross-sectional areas to be used for all types of insulated conductors not exceeding 600 volts shall be the area for rubber-insulated conductors as specified in Column 3 of Table 10;
 - (c) The cross-sectional areas for insulated conductors rated over 600 volts, if larger than the corresponding outside diameter of rubber-insulated conductors as given in Column 3 of Table 10, shall be calculated from the nominal outside diameter of the conductor and its coverings, and if less than this shall be in accordance with paragraph (b);
 - (d) The cross-sectional area for bare conductors shall be the area for rubber-insulated conductors as specified in Column 3 of Table 10;
 - (e) The cross-sectional area for multi-conductor cables shall be the area of the cable based on its overall diameter, or the area of the equivalent round construction based on its maximum dimensions.
- (4) The maximum number of conductors in a conduit, whether single or cabled together, shall be 30 except as permitted in paragraph (c) of Subrule (5).
- (5) The maximum number of conductors of a given size in one conduit, based on the requirements of Subrule (3), shall not exceed that shown as follows:
- (a) In Table 5 for a given number of 600-volt rubber- or thermoplastic-insulated conductors, except those covered in paragraph (c) below;
 - (b) In Table 7 for lead-sheathed conductors or cables;
 - (c) In Table 6 for motor control conductors and conductors for stage pockets, border lights, sign flashers, elevator control and signal circuits.

12-164 Maximum Spacing of Conduit Supports

(1) All rigid conduit of one size shall be securely attached to hangers or to a solid surface with the maximum spacings of the points of support not greater than:

- (a) 5 feet for $\frac{1}{2}$ - and $\frac{3}{4}$ -inch conduit;
- (b) 6 feet for 1- and $1\frac{1}{4}$ -inch conduit;
- (c) 10 feet for $1\frac{1}{2}$ -inch conduit and larger.

(2) Where rigid metal conduits of mixed sizes are run in a group, the conduit supports shall be so arranged that the maximum support spacing will be that shown in Subrule (1) for the smallest conduit.

(3) When flexible metal conduit is installed, it shall be secured by approved means at intervals not exceeding $4\frac{1}{2}$ feet and within 12 inches on each side of every outlet box or fitting, except where flexible conduit is fished, and except for lengths of not over 36 inches at terminals where flexibility is necessary.

12-166 Expansion and Contraction of Conduits

(1) In locations subject to extreme temperature changes, provision shall be made for expansion and contraction in long runs of rigid conduit in the form of:

- (a) Approved expansion joints; or

- (b) In the case of surface-mounted rigid metal conduit only, two ninety-degree bends in the conduit run.

(2) If expansion joints are used with metallic raceways bonding jumpers shall be provided in accordance with Rule 10-084.

Electrical Metallic Tubing

12-168 Electrical Metallic Tubing Rules. Rules 12-170 to 12-186 apply only to electrical metallic tubing.

12-170 Use

(1) Electrical metallic tubing may be used for exposed and concealed work except that it shall not be used:

- (a) Where it will be subject to mechanical injury either during installation or afterwards;
- (b) In any hazardous location;
- (c) Where exposed to corrosive vapour except as permitted by Rule 12-174;
- (d) Underground.

(2) Electrical metallic tubing may be installed in or on buildings or portions of buildings of either combustible or other than combustible types of construction.

12-172 Supports. Electrical metallic tubing shall be installed as a complete system and shall be securely fastened in place within 3 feet of each outlet box, junction box, cabinet, coupling or fitting, and the spacing between supports shall be in accordance with those given in Rule 12-162.

12-174 Where Corrosive Fumes are Encountered

(1) Where electrical metallic tubing and fittings are exposed to corrosive fumes or vapours, they shall be of a corrosion-resistant material suitable for the conditions to which they are exposed.

(2) Where practicable, dissimilar metals shall not be used in an electrical metallic tubing system where there is a possibility of galvanic action.

12-176 Where Moisture is Encountered. In parts of dairies, laundries, canneries, and other places where a high degree of moisture is present, and in places where walls are washed frequently the entire tubing system including all boxes and fittings used therewith shall be made water-tight.

12-178 Minimum and Maximum Tubing Size

The tubing shall have an internal diameter of not less than $\frac{1}{2}$ inch and not more than 2 inches, electrical trade size.

12-180 Maximum Number of Conductors. A tube shall not contain more conductors of a given size than are specified in Rule 12-162.

12-182 Connections and Couplings. Where lengths of electrical metallic tubing are coupled together or connected to boxes, fittings or cabinets, fittings approved for the purpose shall be used and they shall be of the:

- (a) Dry type for ordinary locations and where buried in plaster or masonry block walls;
- (b) Raintight type for exposure to the weather or in wet locations; or
- (c) Concrete-type for installations in concrete or masonry.

12-184 Radii of Bends in Tubing

(1) Bends in the tubing shall be made so as not to injure the tubing or reduce its internal diameter.

(2) Where conductors which are not lead-sheathed are used, the radius of the curve of the inner edge of bends made during installation shall be at least 6 times the internal diameter of the tubing.

(3) Where lead-sheathed conductors are used, the radius of the curve of the inner edge of bends made during installation shall be at least 10 times the internal diameter of the tubing.

12-186 Number of Bends in Tubing. Where the tubing is run between outlets or fittings, or between outlets and fittings, the run shall not contain more than the equivalent of 4 quarter-bends including the bends located at an outlet or fitting.

Armoured-Cable Work

12-188 Armoured-Cable Work Rules. Rules 12-190 to 12-206 apply only to armoured-cable work.

12-190 Use

(1) Armoured-cable may be installed in or on buildings or portions of buildings of either combustible or other than combustible types of construction.

(2) Except as noted in Subrule (3), armoured-cable shall be of the type listed in Table 19 as suitable for direct burial if used:

- (a) For underground runs;
 - (b) For circuits embedded in masonry, concrete, or fill in buildings in course of construction; or
 - (c) In locations where it will be exposed to weather, continuous moisture, excessive humidity, or to oil or other substances having a deteriorating effect on rubber insulation.
- (3) Armoured-cable which has the armouring made wholly or in part of aluminum shall not be embedded in concrete containing reinforcing steel unless:

- (a) The concrete is known to contain no chloride additives; or
- (b) The armour has been treated with an approved bituminous base paint or other approved means to prevent galvanic corrosion of the aluminum.

(4) Where armoured-cables are laid in or under cinders or cinder concrete, they shall be protected from corrosive action by a grouting of non-cinder concrete at least one inch thick entirely surrounding them unless they are 18 inches or more under the cinders or cinder concrete.

(5) In buildings of fire-proof construction where branch circuits of armoured-cable have conductors not larger than No. 10 AWG, the branch circuits may be laid on the face of the masonry or other material of which the walls and ceiling are constructed and may be buried in the plaster finish.

12-192 Protection for Armoured-Cables in Lanes

If subject to mechanical injury and unless otherwise protected, acceptable steel guards of not less than No. 10 MSG, adequately secured, must be installed to protect armoured-cables less than 6 feet above grade in lanes and driveways.

12-194 Use of Thermoplastic Covered Armoured Cable.

Armoured cable of the type listed in Table 19 as suitable for direct earth burial and which has a thermoplastic outer covering, shall only be used where the outer covering will not be subjected to mechanical injury.

12-196 Continuity of Armoured Cable.

The armour of cables shall be mechanically and electrically continuous throughout and shall be mechanically and electrically secured to all equipment to which it is attached, except that the lead-sheath of lead-sheathed armoured cable need not be bonded.

12-198 Terminating Armoured Cable

(1) Where conductors issue from armour, they shall be protected from abrasion:

- (a) By acceptable bushings of insulating material or equivalent devices; or
- (b) By the sheath of lead-sheathed armoured cable.

(2) Where conductors are No. 4 AWG or larger, such protection shall consist of:

- (a) Insulated type bushings, unless the equipment is equipped with a hub having a smoothly rounded throat; or
- (b) Insulating material fastened securely in place which will separate the conductors from the armoured cable fittings and afford adequate resistance to mechanical injury.

(3) Where armoured cable is fastened to equipment, the connector or clamp shall be of such design as to leave the insulating bushing or its equivalent, or the end of the lead sheath, visible for inspection.

(4) Where conductors connected to open wiring issue from the ends of armouring, they shall be protected with approved boxes or with fittings having a separately bushed hole for each conductor.

(5) Where lead-sheathed armoured cables are used in locations where moisture may accumulate, a pothead or equivalent device shall be used to protect the conductors from moisture and mechanical injury at their point of issue from the lead-sheathing.

12-200 Proximity to Knob-and-Tube and Non-metallic-Sheathed Cable Systems.

Where armoured cable is used in a building in which concealed knob-and-tube wiring or concealed non-metallic sheathed-cable wiring is installed, the cable shall not be fished if there is a possibility of damage to the existing wiring.

12-202 Radii of Bends in Armoured Cables

(1) Where armoured cables are bent during installation, the radius of the curve of the inner edge of the bends shall be at least 6 times the internal diameter of the armoured cable.

(2) Where lead-sheathed armoured cable is used, the radius of the curve of the inner edge of the bends shall be at least 10 times the internal diameter of the armoured cable.

(3) Bends shall be made without undue distortion of the armour and without injury to its inner or outer surfaces.

12-204 Concealed Armoured-Cable Installation

(1) Where armoured cable is run through studs, joists, or other wooden members, it shall be:

- (a) Located so that its outer circumference is at least $1\frac{1}{4}$ inches from the nearest edge of the wooden members; or
- (b) Protected from mechanical injury where it passes through the holes in the wooden members.

(2) Where armoured cable is installed immediately behind baseboards, it shall be protected from mechanical injury from driven nails.

12-206 Supports for Armoured-Cable Installations. Armoured cables shall be supported independently of equipment to which they are fastened and shall be secured in place by approved fastenings located not more than 1 foot from the equipment and not more than $4\frac{1}{2}$ feet apart, except where the armoured cable is fished.

12-208 Conductors in Armoured Cables

(1) All conductors of a circuit shall be contained in the same armoured cable except that where it is necessary to run conductors in multiple due to the capacity of an alternating-current circuit, additional armoured cables may be used provided the conductors in any one such cable:

- (a) Are balanced in size, length, and the type of insulation; and
- (b) Include an equal number of conductors from each phase and the neutral conductor.

(2) An armoured cable shall not contain circuits of different systems except as permitted in Rule 12-302.

Surface Raceway Work

12-210 Surface Raceways in Damp Places. Surface raceways shall not be installed in damp places and shall not be concealed except as permitted in Rule 12-146.

12-212 Gauge of Surface Raceways

(1) Surface raceways, if of steel, shall be not less than 0.0309 inch (No. 20 MSG) thick.

(2) Approved metal moulding less than 0.0309 inch thick may be used for extensions to wiring systems where:

- (a) The voltage between conductors contained therein is not in excess of 300 volts; and
- (b) The voltage to ground is not in excess of 150 volts.

12-214 Supports of Surface Raceways. The backing of a surface raceway shall be secured in position by screws or bolts having heads flush with the metal.

12-216 Restrictions of Surface Raceways. Surface raceways shall not be used for:

- (a) Conductors larger than No. 6 AWG;
- (b) A greater number of conductors than that for which they are approved; or
- (c) More than 10 conductors.

12-218 Surface Raceways Through Walls and Floors

(1) Surface raceways may be extended through dry walls or partitions.

(2) Where the wall or partition is not constructed wholly of incombustible material, no joint in the raceway shall be concealed within the wall or partition.

(3) Where a raceway passes through a floor, wall or partitions, and protection from mechanical injury is necessary, a sleeve of iron pipe shall be placed over the raceway and shall extend beyond the outer surfaces of the floor, wall or partition.

12-220 Multiple-Channel Surface Raceways

(1) Where multiple-channel surface raceways are used to carry the conductors of different systems, each compartment shall contain only the conductors of one system and the compartments shall maintain the same position in relation to each other throughout the length of the raceway.

(2) One or more of the systems may be communication systems.

Underfloor Raceways

12-222 Where Underfloor Raceways Are Permitted

(1) Underfloor raceways may be installed under the surface of concrete or other flooring material.

(2) Underfloor raceways shall not be used:

- (a) Where they will be exposed to corrosive vapours;
- (b) In a hazardous location;
- (c) In commercial garages; or
- (d) In storage-battery rooms.

12-224 Method of Installing Underfloor Raceways

(1) Underfloor raceways shall be laid so that their centre line coincides with a straight line drawn between the centres of successive junction boxes.

(2) The raceways shall be mechanically secured to prevent disturbance of the alignment during construction.

(3) The joints along the edges of the raceways and between the raceways, couplings, and junction boxes, and between the junction box cover-plates and coverings shall be filled with an approved waterproof cement.

(4) The raceways shall be arranged so that there are no low points or traps at the fittings or in the raceway run and crossings shall be avoided where possible.

12-226 Fittings for Underfloor Raceways

(1) Where underfloor raceways are run at other than right angles, special fittings shall be provided if required by an inspector.

(2) The raceways shall be connected to distribution centre and wall outlets by conduit or approved fittings.

(3) Dead-ends of the raceways shall terminate in junction boxes or other approved fittings.

12-228 Taps and Splices in Underfloor Raceways.

Taps and splices in underfloor raceways shall be made only in header access units or in junction boxes.

12-230 Inserts and Junction Boxes for Underfloor Raceways

(1) Inserts and outlets in underfloor raceways shall be made electrically and mechanically secure.

(2) Inserts in fibre raceways shall be screwed into the fibre and, where they are not made mechanically secure by being grouted in separately, they shall not be set until the floor is laid.

(3) Inserts and junction boxes shall be levelled to the grade of the floor and sealed with water-tight plugs.

12-232 Setting of Inserts. When setting inserts or cutting through the walls of underfloor raceways, adequate precautions shall be taken to prevent chips and dirt from falling into the raceway, and special tools designed for the purpose and for preventing the tools from entering the raceway and injuring the conductors shall be used.

12-234 Protection Against Corrosion. Metal underfloor raceways and metal fittings used therewith shall be protected from corrosion.

12-236 Multiple Channel Underfloor Raceways.

Where interior wiring systems are not connected electrically to each other within a building, their respective conductors shall be contained in separate raceways or, subject to the provisions of Rule 12-220, in separate channels of multiple channel underfloor raceways.

12-238 Discontinued Outlets in Underfloor Raceways. Where an outlet in an underfloor raceway is discontinued, the conductors supplying the outlet shall be removed from the underfloor raceway.

12-240 Area of Conductors in Underfloor Raceways.

(1) The aggregate cross-sectional area of the conductors and their insulation in an underfloor raceway shall not exceed 40 per cent of the interior cross-sectional area of the raceway.

(2) Subrule (1) shall not apply where the raceway contains only mineral-insulated cable, aluminum-sheathed cable, armoured cable, or non-metallic sheathed cable.

12-242 Underfloor Raceways Completely Installed Before Installation of Conductors. Conductors shall not be drawn into underfloor raceways in a building under construction until the raceway, fittings and conductors are reasonably safe from damage from construction operations.

12-244 Underfloor Raceway Junction Boxes. Junction boxes shall not be used as outlet boxes in underfloor raceways.

12-246 Gauge of Metal Underfloor Raceways

(1) Steel underfloor raceways shall have a thickness not less than 0.0528 inches (No. 16 MSG), except that the upper element for an underfloor raceway unit may be less than 0.0528 inches, but not less than 0.0418 inches (No. 18 MSG), provided that the unit is covered with concrete to a depth of not less than 2½ inches and is marked as being approved for such application.

(2) Where wiring feeder-ducts are exposed to damage during installation, they shall have a thickness of not less than 0.0667 inches (No. 14 MSG).

Open Wiring on Exteriors of Buildings and Between Buildings on the Same Premises

12-248 Exterior Open Wiring Rules. Rules 12-250 to 12-266 apply only to open wiring run on the exterior surfaces of buildings or between buildings on the same premises.

12-250 Types of Conductors. Conductors shall be of types suitable for exposure to the weather as indicated in Table 19.

12-252 Location of Conductors

(1) Subject to the provisions of Rule 6-010, where the conductors are supported on or in close proximity to the exterior surfaces of buildings they shall be installed and protected so that they shall not be a hazard to persons or be exposed to mechanical injury, and they shall not, without special permission, be less than 15 feet from the ground.

(2) Where the conductors are exposed to mechanical injury from awnings, swinging signs, shutters, or other movable objects, they shall be run in rigid conduit made water-tight.

12-254 Conductor Supports

(1) Conductors on the exterior surfaces of buildings shall be supported by brackets, racks, insulators, or other acceptable means at intervals of not more than 9 feet and the individual conductors shall be distant at least 6 inches from one another and at least 2 inches from the adjacent surfaces.

(2) Where petticoat insulators are used, they shall be installed at intervals of not more than 15 feet under normal conditions and at smaller intervals where the conductors are subject to disturbance, and shall be located so as to hold the individual conductors at least 12 inches apart and at least 2 inches from adjacent surfaces.

(3) Where the conductors are not exposed to the weather, they may be supported on glass or porcelain knobs placed at intervals of not more than 4½ feet and holding the conductors at least 1 inch from adjacent surfaces.

(4) Where conductors having a voltage of 220 volts or less and conductors of more than 220 volts but not exceeding 750 volts are mounted on the same pole, the conductors of higher voltage shall be mounted above, and kept distant at least 12 inches from, the conductors of lower voltage.

12-256 Minimum Size of Overhead Conductors

Single conductors run aerially between buildings or otherwise on the same premises:

- (a) Where the span exceeds 15 feet, but does not exceed 50 feet, shall be at least No. 10 AWG copper;
- (b) Where the span exceeds 50 feet, but does not exceed 100 feet, shall be at least No. 8 AWG copper;
- (c) Where the span exceeds 100 feet, shall be at least No. 6 AWG copper;

and no span shall exceed 135 feet.

12-258 Clearance of Conductors. The conductors shall be located or guarded so that they cannot be reached by a person standing on a fire escape, flat roof, or other portion of a building, and they shall be at least 8 feet above the highest point of a flat roof or roof that can be readily walked upon and at least 3 feet above peaked roofs or the highest point of roofs that cannot be readily walked upon except that, by special permission, they may be less than 8 feet but not less than 6 feet above the highest point of a flat roof or roofs that can be readily walked upon.

12-260 Conductors over Buildings. Conductors shall not be carried over buildings without special permission, and work shall not be begun until the plans and specifications for the work are approved by the inspection department.

12-262 Conductors on Trestles. Where the conductors pass over buildings, they shall, where practicable, be supported on structures not connected to the building but, where not practicable, they shall be supported on and secured to trestles constructed of steel or other acceptable material.

12-264 Power Supply Conductors. The conductors of a power supply system attached to the exterior surfaces of buildings shall be at least 4 inches from the conductors of a communication system unless one system is in conduit or is permanently separated from other systems by a continuous fixed non-conductor other than the insulation on the conductors.

12-266 Use of Neutral Supported Cables. When neutral supported cables are used the following requirements shall apply:

- (a) They shall not be mounted directly on any surface;
- (b) They shall be secured so that they will be not less than:
 - (i) 3 feet from a building in the case of Type NS-1, and
 - (ii) 2 inches from a building in the case of Type NSF-2;
- (c) They shall be supported in spans of not more than 125 feet in length;
- (d) The conductors shall be secured to the messenger at all terminations; and
- (e) Where aluminum conductors are used, wire connectors approved for use with such conductors shall be used.

(f) The messenger cable, when used as a neutral conductor forming part of an electrical circuit, shall be:

- (i) Supplied from a grounded ac system;
- (ii) Attached to an insulator at points of support and at terminations; and
- (iii) Not connected to or in contact with any grounded surface except as permitted by other Rules of this Code

**Installation of Boxes, Cabinets, Outlets
and Terminal Fittings**

12-268 Maximum Number of Outlets per Circuit

(1) There shall be not more than 12 outlets on any 2-wire branch circuit except as permitted by other Rules of this Code.

(2) Such outlets shall be considered to be rated at not less than one ampere per outlet except as permitted by Subrule (3).

(3) Where the connected load is known, the number of outlets may exceed 12 provided the load current does not exceed 80 per cent of the rating of the over-current device protecting the circuit.

(4) Where fixed multi-outlet assemblies are used, each 5 feet or fraction thereof of each separate and continuous length shall be counted as one outlet, but in locations where a number of electrical appliances are likely to be used simultaneously, each 1 foot or fraction thereof shall be counted as one outlet.

12-270 Maximum Number of Mogul Outlets per Circuit. There shall not be more than 8 mogul lampholders connected to any two wires of a branch circuit.

12-272 Outlet Boxes

(1) An approved box or an equivalent device shall be installed at every point of outlet, switch or junction of conduit, raceways, armoured cable, or non-metallic sheathed cable, and at every point of outlet and switch of concealed knob-and-tube work.

(2) Non-metallic outlet boxes shall not be used in wiring methods using metallic raceways and armourings.

(3) The box shall be provided with a cover or a fixture canopy.

(4) Shallow boxes and plates shall not be used without special permission.

(5) At least 6 inches of free conductor shall be left at each outlet for making of joints or the connection of fixtures, unless the conductors are intended to loop through lampholders, receptacles, or similar devices without joints.

12-274 Terminal Fittings

(1) Where conductors are run from the ends of conduit, armoured cable, surface raceways, or non-metallic sheathed cable to appliances or open wiring, an outlet fitting or terminal fitting may be used instead of the box required by Rule 12-272, and the conductors shall be run without splice, tap, or joint within the fitting.

(2) The fittings shall have a separately bushed hole for each conductor.

(3) The fittings shall not be used at outlets for fixtures.

12-276 Terminal Fittings Behind Switchboards

(1) Where conductors issue from conduit behind a switchboard or more than 8 conductors issue from a conduit at control apparatus or a similar location an insulating bushing may be used instead of the box required by Rule 12-272.

12-278 Distribution Centre. At a distribution centre where conductors larger than No. 6 AWG are used, there shall be installed, in a readily accessible location, a busway or splitter box equipped with terminal blocks or bus bars having a separate screw or stud for each connection but where a splitter box exceeds 6 feet in length or the connected load exceeds 600 amperes a splitter box, if used, shall be provided with bus bars extending approximately the full length of the enclosure.

12-280 Boxes in Concrete Construction

(1) Where used in concrete slab construction, ceiling outlet boxes shall have knockouts spaced above the face or lower edge of the boxes a distance of at least twice the diameter of the steel reinforcing bars so that conduit entering the knockouts shall clear the bars without off setting.

(2) Sectional boxes shall not be embedded in concrete or masonry construction.

(3) Boxes made wholly or in part of aluminum shall not be embedded in concrete containing reinforcing steel unless:

- (a) The concrete is known to contain no chloride additives; or
- (b) The box has been treated with an approved bituminous base paint or other approved means to prevent galvanic corrosion of the aluminum.

12-282 Outlet Box Supports

(1) Boxes and fittings not secured to studs, joists, or similar fixed structural units other than wooden, metal, or composition lath, shall be supported on metal supports or on a wooden board at least $\frac{1}{8}$ inch thick rigidly secured to the structural unit.

(2) Subrule (1) shall not apply to boxes and fittings installed after the studs, joists, or structural units have been concealed.

12-284 Boxes, Cabinets, and Fitting Supports

(1) Boxes, cabinets, and fittings shall be fastened securely in place.

(2) Boxes and fittings having a volume of less than 100 cubic inches may be attached to a firmly secured exposed raceway by threading or other acceptable means of connection.

12-286 Accessibility of Junction Boxes

(1) Pull-in, junction, and outlet boxes, cabinets and gutters, and joints in wires and cables shall be accessible.

(2) A vertical space of 3 feet or more shall be required to provide ready access.

12-288 Flush Boxes, Cabinets, and Fittings

(1) The front edges of boxes, cabinets, and fittings installed in walls or ceiling shall not be set in more than $\frac{1}{4}$ inch from the finished surface, and where the walls or ceilings are of wood or other combustible material, shall be flush with the finished surface or shall project therefrom.

(2) Gaps or open spaces in plaster surfaces of walls or ceilings shall be filled in around the front edges of boxes, cabinets, and fittings.

12-290 Outlet Boxes Attached to Existing Plaster Work. Where outlet boxes installed as additions to existing work are mounted directly upon existing plaster surfaces, they shall be fastened securely in place.

12-292 Outlet Boxes, etc., in Damp Places. Where boxes, cabinets, and fittings are installed in damp places, they shall be so placed or constructed as to prevent moisture from entering and accumulating therein.

12-294 Entrance of Conductors into Boxes, Cabinets, and Fittings

(1) Where conductors pass through the walls of boxes, cabinets, or fittings, provision shall be made to:

- (a) Protect the insulation on the conductors from injury;
- (b) Protect terminal connections from external strain;
- (c) Provide electrical continuity between a metal box, cabinet, or fitting and conduit, armour, or metal sheathing of conductors, whether or not the armour or metal sheathing is to be used as a grounding conductor;
- (d) Prevent injury to a non-metallic sheath applied over armour or metal sheathing for protection against moisture or corrosion; and
- (e) Close the openings through which the conductors pass in such a manner that any remaining opening will not permit entrance of a test rod $\frac{1}{8}$ inch in diameter.

(2) Where conductors, run as open wiring, enter a metal box, cabinet, or fitting, they shall either pass through insulating bushings, firmly secured in the opening, with the last external point of support sufficiently close to the opening to avoid strain on the conductor termination, or the conductor shall be encased in a flexible tubing which shall enter the opening and be secured in place.

(3) Where non-metallic sheathed cable enters a box, cabinet, or fitting, a box connector, either as a separate device approved for use with such cable or as a part of the box, cabinet, or fitting, shall be used to secure the cable in place adequately and without injury to the conductors.

(4) Where rigid or flexible metal conduit, electrical metallic tubing, or armoured cable enter boxes, cabinets, or fittings, they shall be secured in place in accordance with the requirements of Section 10.

(5) Where metal-sheathed conductors enter boxes, cabinets, or fittings, the box connector shall be installed in a manner which will meet the requirements of Section 10 without injury to the conductors and shall be of a type approved specifically for the cable.

(6) Where liquid-tight flexible metal conduit or where flexible conduit, armoured cable, or metal-sheathed cable of a type having a non-metallic sheath over the armour or metal sheath enters a box, cabinet, or fitting, the box connector shall be of a type specifically approved for the purpose and shall ensure electrical continuity without injury to the non-metallic sheath unless the point of connection is in a dry location free from corrosive atmosphere, where the non-metallic sheath may be stripped back a sufficient distance.

(7) Where single conductor cables enter metal boxes through separate openings, precaution shall be taken to prevent overheating of the metal by induction if the current carried per conductor exceeds 200 amperes.

12-296 Unused Openings in Boxes, Cabinets, and Fittings. Unused openings in boxes, cabinets, and fittings shall be effectively closed by metal plugs or plates affording protection substantially equivalent to that of the wall of the box, cabinet, or fitting.

12-298 Extensions From Existing Outlets

(1) Where a surface extension is made from an existing outlet of concealed wiring, a box or an extension-ring shall be mounted over the original box and electrically and mechanically secured to it.

(2) The extension shall then be connected to the box or extension-ring in the manner prescribed by this Section for the method of wiring employed in making the extension.

12-300 Multi-Outlet Assemblies

(1) Multi-outlet assemblies shall only be used in normally dry locations as extensions to wiring systems.

(2) Multi-outlet assemblies shall not be used in any bathroom, kitchen, or any place where in the opinion of the inspection department the assembly would be subject to mechanical injury.

(3) Multi-outlet assemblies may be carried through but not run within dry partitions provided that:

- (a) No outlet falls within the partition;
- (b) The removal of any cap or cover necessary for proper installation is not prevented; and
- (c) The assembly is of metallic construction or, if of non-metallic construction, is surrounded by a metal duct or the equivalent.

(4) Multi-outlet assemblies shall not be concealed within the building finish but:

- (a) The back and sides of metal assemblies may be set in plaster applied after the assembly is in place; or
- (b) The back and sides of non-metallic assemblies may be set in a performed recess in the building finish; and
- (c) Either may be recessed in a baseboard or other wood trim member.

12-302 Conductors of Different Systems in Boxes, Cabinets, or Fittings

(1) Conductors of different systems shall not be installed in the same box, cabinet, or auxiliary gutter unless:

- (a) A barrier of sheet steel not less than 0.0528 inch (No. 16 MSG) thick or an equivalent device of acceptable insulating material is used to divide the space into separate compartments for the conductors of each system; or
- (b) The conductors are intended for the supply and control of remotely-controlled devices where the voltage does not exceed 4,500 volts between conductors, and they are insulated for at least the same voltage as that of the circuit having the highest potential and none of the conductors of the circuits of lower potentials are directly connected to a lighting branch circuit.

(2) Where a barrier is used, it shall be fastened rigidly to the box, cabinet, or gutter, or an approved device assuring positive separation of the conductors shall be used.

(3) By special permission, the provisions of Subrule (1) may be varied in the case of:

- (a) A double-throw switch used in an emergency lighting system;
- (b) The supply and control conductors of remotely-controlled devices where the conductors are not insulated for the maximum voltage; and
- (c) The supply and control conductors of remotely-controlled devices where the voltage exceeds 4,500 volts between conductors.

12-304 Wiring Space in Enclosures.

(1) Enclosures for overcurrent devices, controllers, and externally operated switches shall not be used as junction boxes, troughs, or raceways for conductors feeding through to other apparatus.

(2) Notwithstanding Subrule (1), where such an enclosure is approved with connectors or the equivalent, each providing an independent clamping means for each conductor and each clamping means being independently accessible for tightening or inspection, a single feeder supplying another enclosure may be tapped from it.

12-306 Maximum Number of Conductors in a Box

(1) Boxes shall be of sufficient size to provide usable space for all insulated conductors contained in the box, subject to the following:

- (a) A conductor running through a box with no connection therein shall be considered as one conductor;
- (b) Each conductor entering or leaving a box and connected to a terminal or connector within the box shall be considered as one conductor;
- (c) A conductor of which no part leaves the box shall not be counted; and
- (d) No. 18 and No. 16 AWG fixture wires supplying a lighting fixture mounted on the box containing the fixture wires shall not be counted.

(2) Subject to the details given in Subrule (1), boxes of the nominal dimensions given in Table 23 shall not contain more insulated conductors of a given size than permitted by the Table, and the number of conductors shall be reduced by one for each of the following conditions as applicable:

- (a) If the box contains one or more fixture studs, built-in cable clamps, or hickey;
- (b) If the box contains one or more flush devices mounted on a single strap, except that a flush device box of minimum dimensions of 2 $\frac{3}{4}$ inches in length, 1-13/16 inches in width and 2-7/16 inches in depth, in which is installed a flush device or cable clamps, may contain a maximum number of 6 No. 14 AWG copper conductors, or 5 No. 12 AWG aluminum conductors.
- (3) Subject to the details given in Subrule (1), boxes having nominal dimensions other than those shown in Table 23 shall have the amount of usable space per insulated conductor as specified in Table 22, but the number of conductors so calculated shall be reduced by one for each of the conditions of paragraphs (a) and (b) of Subrule (2) as applicable.

(4) Where a box contains a transformer, relay, or other device not considered as falling within the classifications shown in Subrule (2), the number of insulated conductors permitted shall be in accordance with Table 22, after the space occupied by the device has been deducted from the space within the box.

(5) The total usable space in a box considered under Table 22 shall be considered to be the internal volume of the box and shall disregard any space occupied by locknuts, bushings, cable connectors, or clamps.

(6) Where single flush boxes are ganged, each section shall be considered to be a separate box for the purpose of this Rule.

12-308 Motor Terminal Housings and Outlet Boxes with Hubs. Tables 22 and 23 shall not apply to terminal housings supplied with motors, nor to boxes or fittings without knockouts and having hubs or recessed parts for bushings and locknuts, but such boxes shall be of sufficient size to provide usable space for all conductors enclosed in the box.

12-310 Pull Box Sizes. Where pull boxes are used with raceways of 1 $\frac{1}{4}$ inches trade size or larger, the boxes shall, for straight pulls, have a length of at least 8 times the trade diameter of the largest raceway and, for angle- and U-pulls, have a distance between each terminal fitting of the raceway inside the box and the opposite side of the box of at least 6 times the trade diameter of the raceway and the distance shall be increased for each additional raceway entry by the amount of the sum of the diameters of the other raceway entries.

12-312 Panelboards Supplying Branch Circuits

(1) Panelboards having more than 42 overcurrent devices shall not be used to supply branch circuits having 30-amperes ampacity or less, except as permitted in Subrule (2).

(2) Notwithstanding Subrule (1), panelboards supplying motor-loads only may provide more than 42 overcurrent devices.

(3) The cabinets and cutout boxes which house the panelboards shall not contain more than one panelboard unless the cabinet is divided between panelboards by a barrier of non-combustible material pierced only for the passage of supply conductors.

(4) At the time of installation, the ampere rating of overcurrent devices shall be prominently marked adjacent to the respective branch circuit they protect.

(5) For the purpose of this Rule each fuse shall be considered an overcurrent device and in the case of multi-pole circuit breakers a two-pole breaker shall be considered two overcurrent devices; a three-pole breaker shall be considered three overcurrent devices.

Auxiliary Gutters

12-314 Where Auxiliary Gutters are Used to Supplement Wiring Spaces

(1) Where auxiliary gutters are used to supplement wiring spaces at meter centres, distribution centres, switchboards, and similar points in interior-wiring systems, the gutters may enclose conductors and cables but they shall not be used to enclose bus bars, switches, overcurrent devices, or other appliances or apparatus.

(2) The auxiliary gutters shall not extend more than 20 feet beyond the equipment which they supplement, and thereafter the conductors may be contained in approved wireways of busways.

12-316 Auxiliary Gutter Supports. Auxiliary gutters shall be securely supported throughout their entire length at intervals of not more than 5 feet unless the gutter is plainly marked to indicate a greater distance.

12-318 Auxiliary Gutter Cross-Sectional Area

(1) The aggregate cross-sectional area of the conductors and their insulation at a cross-section of an auxiliary gutter shall not exceed 20 per cent of the cross-sectional area of the gutter at that point.

(2) A single compartment of an auxiliary gutter shall not contain more than 30 conductors at a cross-section.

Busways and Splitter Boxes

12-320 Where Busways and Splitter Boxes May Be Used

(1) Busways and splitter boxes may be used only for exposed work, except as permitted by Subrules (5) and (6) of this Rule.

(2) Busways and splitter boxes shall not be installed outdoors or in wet or damp locations, unless specifically approved for use in such locations.

(3) Splitter boxes, busways, and fittings shall not be placed:

- (a) Where subject to mechanical injury;
- (b) Where subject to corrosive vapours;
- (c) In hoistways;
- (d) In hazardous locations; or
- (e) In storage battery rooms.

(4) Busways may be used as risers in buildings of fire-resisting construction when provided with acceptable fire stops.

(5) Busways may be installed in false ceiling spaces, provided that:

- (a) Ventilation is adequate to limit the busway temperature to 90C;

- (b) All joints of the busway are accessible;
- (c) The area through which the busway runs is not a part of the building ventilation system;
- (d) Any take-off devices are non-fusible if the busway is of the plug-in type;
- (e) Adequate working space exists between the busway and other services or structural parts; and
- (f) The busway is of the totally-enclosed type except that ventilated type may be used provided that, in addition:
 - (i) The bus bars are insulated for their full length, including joints between sections;
 - (ii) The false ceiling is not combustible; and
 - (iii) No combustible material is located within 6 inches of the busway.

(g) Splitter boxes may be installed flush in a wall, provided they are accessible by removable covers.

12-322 Extensions from Busways and Splitter Boxes. Rigid conduit, flexible conduit, surface raceways, cabletroughs, electrical metallic tubing, armoured cable, metal-sheathed conductors or cable, or, where necessary, acceptable cord assemblies approved for hard usage, shall be used in extensions from busways and splitter boxes and shall be connected to the busway or splitter box in a manner appropriate to the material used in accordance with Rule 12-294.

12-324 AC Circuits in Busways and Splitter Boxes. Where alternating current is used, all conductors of a circuit shall be placed within the same busway, splitter box, or section thereof, if the latter is made of magnetic material.

12-326 Busway and Splitter Box Supports. Busways and splitter boxes shall be securely supported at intervals of not more than 5 feet unless they are plainly marked to indicate a greater distance.

12-328 Method of Installation of Busways

(1) Where busways extend transversely through dry walls or partitions, they shall pass through the walls or partitions in unbroken lengths and shall be totally enclosed where passing through walls or partitions constructed of combustible materials or masonry walls containing voids at the point where the busway passes through.

(2) Busways may extend vertically through dry floors if they are:

- (a) Totally enclosed where passing through such floors and for the first 12 inches above any floor; and
- (b) Provided with acceptable fire stops.

(3) Busways shall be provided with adequate protection against mechanical injury and personal contact with live parts for a distance of 6 feet above any floor in an area accessible to other than qualified persons.

(4) Dead ends of busways shall be closed by approved fittings.

(5) Busways installed outdoors in areas accessible to other than authorized persons shall be totally enclosed.

12-330 Conductors of Different Systems in Busways. Conductors of different systems shall not be installed in the same busway unless the conductors are separated from each other by suitable barriers.

12-332 Plug-In Devices for Busways

Where busways supply machine tools, a switch need not be furnished on the machine tool if:

- (a) A plug-in device having a horsepower rating is used; and
- (b) The means of operating the plug-in device is readily within reach of the operator.

12-334 Reduction in Size of Busways. Overcurrent protection may be omitted at points where busways are reduced in size, provided that the smaller busway:

- (a) Does not extend more than 50 feet;
- (b) Has a current rating at least equal to one-third the rating or setting of the overcurrent devices next back on the line; and
- (c) Is free from contact with combustible material.

12-336 Length of Busways Used as Branch Circuits

(1) Busways which are used as branch circuits, and which are designed so that loads can be connected at any point, shall be limited to such lengths as will provide that in normal use the circuits will not be overloaded.

(2) In general, the length of such run in feet should not exceed 3 times the ampere rating of the branch circuit.

12-338 Manufacturer's Identification on Busways and Splitter Boxes. Busways and splitter boxes shall be marked so that the manufacturer's name, trade mark, or other recognized symbol of identification shall be readily legible when the installation is completed.

12-340 Taps in Splitter Boxes. Taps from bus bars or terminal blocks in splitter boxes shall issue from the box on the side thereof nearest to the terminal connections and the conductors shall not be brought into contact with uninsulated current-carrying parts of opposite polarity.

12-342 Circuit Restrictions in Splitter Boxes.

Splitter boxes shall be used only for the purpose of making connections to the bus bars or terminal blocks and shall not be used as a pull box for the conductors of other circuits not connected to the main or distribution terminals within the box.

Wireways

12-344 Where Wireways May Be Used

(1) Wireways may be used only for exposed work and shall not be installed outdoors, or in wet or damp locations, unless specifically approved for such locations.

(2) Wireways and fittings shall not be placed:

- (a) Where subject to mechanical injury;
- (b) Where subject to corrosive vapours;
- (c) In hoistways;

(d) In hazardous locations; or

(e) In storage battery rooms.

(3) Wireways may be used as risers in buildings of fire-resisting construction when provided with acceptable fire stops.

12-346 Method of Installation of Wireways

(1) Runs of wireways shall be continuous throughout their entire length and shall be installed as a complete system without conductors.

(2) Conductors shall not be laid in wireways in buildings under construction, until the wireways and conductors are reasonably safe from damage from construction operations.

(3) Where wireways extend transversely through dry walls or partitions, they shall pass through the walls or partitions in unbroken lengths.

(4) Wireways shall be securely supported at intervals of not more than 5 feet, unless they are plainly marked to indicate greater distances.

(5) Dead ends of wireways shall be closed by approved fittings.

(6) Wireways shall be provided with adequate protection against mechanical injury for a distance of 6 feet above any floor in an area accessible to other than qualified persons.

12-348 Conductors in Wireways

(1) Conductors used in wireways shall be the insulated types indicated in Table 19 as being suitable for use in raceways.

(2) Except as permitted in Subrule (4) of this Rule, wireways shall contain not more than 30 conductors unless the permission of an inspector designated by the inspection department for the purpose of this Subrule is obtained for the use of a greater number, and the aggregate cross-sectional area of the conductors and their insulation shall not exceed 20 per cent of the interior cross-sectional area of the wireway.

(3) No conductors larger than 500,000 circular mils shall be contained in a wireway.

(4) Wireways containing only signal and control conductors may contain more than 30 conductors but the aggregate cross-sectional area of the conductors and their insulation shall not exceed 40 per cent of the interior cross-sectional area of the wireway.

12-350 Taps and Splices in Wireways. Where splices and taps are made on feeders or branch circuits within wireways, they shall be made and insulated by acceptable methods and shall be made accessible through hinged covers or at pull boxes.

12-352 Extensions from Wireways. Rigid conduit, flexible conduit, surface raceways, cabletroughs, electrical metallic tubing, armoured cable, metal-sheathed conductors or cable, or, where necessary, acceptable cord assemblies approved for hard usage, shall be used in extensions from wireways and shall be connected to the wireway in a manner appropriate to the material used in accordance with Rule 12-294.

12-354 Conductors of Different Systems in Wireways. Conductors of different systems shall not be installed in the same wireway unless:

(a) The conductors are intended for the supply and control of remotely controlled devices and are insulated for at least the same voltage as that of the circuit having the highest potential, and none of the conductors of the circuits of lower potentials are directly connected to a lighting branch circuit; or

(b) The conductors are separated from each other by suitable barriers.

12-356 AC Circuits in Wireways. Where alternating current is used, all conductors of a circuit shall be placed within the same wireway, or section thereof, if the latter is made of magnetic material.

12-358 Manufacturer's Identification on Wireways. Wireways shall be marked so that the manufacturer's name, trade mark, or other recognized symbol of identification shall be readily legible when the installation is completed.

Cellular Metal-Floor Raceways

12-360 Circuits in Cellular Raceways. All conductors of a circuit shall be contained in the same enclosure of a cellular metal-floor raceway and except as permitted by Rule 12-302, the circuits of different systems shall not be contained therein.

12-362 Conductors in Cellular Raceways

(1) Conductors shall not be installed in a cellular metal-floor raceway:

(a) Where they will be exposed to corrosive vapours;

(b) In a hazardous location;

(c) In commercial garages; or

(d) In storage-battery rooms.

(2) Conductors shall not be installed in any cell or header which contains a pipe for steam, water, air, gas, drainage, or other non-electrical service.

(3) Where the cell or header contains such non-electrical services, the cell or header shall be sealed, where practicable, in a manner satisfactory to the inspection department.

12-364 Maximum Conductor Size in Cellular Raceways. No conductor larger than No. 0 AWG shall be installed in a cellular metal-floor raceway unless special permission is obtained.

12-366 Cross-Sectional Area of Cellular Raceways

Where a cellular metal-floor raceway contains other than mineral-insulated cable, aluminum-sheathed cable, armoured cable, or non-metallic sheathed cable, the aggregate cross-sectional area of the conductors in the raceway shall not exceed 40 per cent of the interior area of the header feeding the individual cells.

12-368 Taps and Splices in Cellular Raceways

Splices and taps in cellular raceways shall be made only in header access-units or in junction boxes.

12-370 Cellular Raceway Markers. Where cellular metal-floor raceways are used, a suitable number of markers shall be installed for the future location of cells and for system identification, and the markers shall extend through the floor.

12-372 Cellular Raceway Junction Boxes

(1) Junction boxes used in cellular metal-floor raceways shall be levelled to floor grade and sealed against the entrance of water.

(2) The junction boxes shall be constructed of metal and shall be electrically continuous with the raceway.

(3) Electrical conductivity of raceway sections shall be obtained by spot welding or other equivalent means.

12-374 Cellular Raceway Inserts

(1) Inserts in cellular metal-floor raceways shall be levelled to floor grade and sealed against entrance of water.

(2) Inserts shall be made of metal and shall be electrically continuous with the raceways.

(3) When setting inserts or cutting through cell walls adequate precautions shall be taken to prevent chips and dirt from falling into the raceway and for preventing tools from entering the cells and injuring the conductors therein.

12-376 Cellular Raceway Extensions. Connections from cellular metal-floor raceways to cabinets and extensions from cells to outlets shall be made by means of rigid conduit, flexible conduit or fittings approved for the purpose.

12-378 Cellular Raceway Discontinued Outlets

Where an outlet is discontinued the conductors supplying the outlet shall be removed from the cellular raceway.

12-380 Gauge of Cellular Raceway

(1) Steel cellular floor sections shall have a thickness not less than 0.0528 inch (No. 16 MSG), except that the upper element of a cellular floor unit may be less than 0.0528 inch, but not less than 0.0418 inch (No. 18 MSG), provided that the unit is covered with concrete to a depth of not less than $2\frac{1}{2}$ inches and is marked as being approved for such application.

(2) Where wiring feeder-ducts are exposed to damage during installation, they shall have a thickness of not less than 0.0667 inch (No. 14 MSG).

12-382 Protection Against Corrosion. Cellular floor sections, feeder-ducts, and access-units shall be adequately protected by a finish of lacquer, paint, enamel or material furnishing equivalent protection.

Bare Bus Bars and Risers

12-384 Where Bare Bus Bars May Be Used

(1) Bare conductors shall not be used as main risers or feeders in buildings unless special permission is obtained.

(2) Special permission shall not be granted unless:

- (a) The building is of fire-proof construction;
- (b) The conductors are placed in a chase, channel, or shaft located or guarded so that the conductors are inaccessible;
- (c) The premises do not constitute a hazardous location;

(d) Suitable cut-offs to protect against the vertical spread of fire are provided where floors are pierced; and

(e) The mechanical and electrical features of the installation and the conductor supports are, in the opinion of an inspector, appropriate to the operating and maintenance conditions likely to occur.

Auto-Transformers and Circuits Derived Therefrom

12-386 Definition of an Auto-Transformer. In Rule 12-388 "auto-transformers" means transformers in which part of the turns are common to primary and secondary alternating-current circuits.

12-388 Where Auto-Transformers Can be Used

(1) Auto-transformers shall not be connected to interior-wiring systems other than a wiring system or circuit used wholly for motor purposes unless:

- (a) The system supplied contains an identified grounded conductor solidly connected to a similar identified grounded conductor of the system supplying the auto-transformer;
- (b) The auto-transformer is used for starting or controlling an induction motor;
- (c) The auto-transformer supplies a circuit wholly within the apparatus which contains the auto-transformer; or
- (d) The auto-transformer is used for fixed voltage adjustment on an existing power circuit having no identified grounded conductor.

(2) Where an auto-transformer is used for starting or controlling an induction motor it may be included in a starter case or it may be installed as a separate unit.

Insulation Resistance

12-390 Wiring System to be Free of Short Circuits and Grounds

(1) All wiring shall be so installed that when completed the system shall be free from short circuits and grounds.

(2) Subject to the provisions of Rules 12-394 and 12-396, every installation shall have at least the insulation resistance specified in Table 24.

12-392 Method of Taking Insulation Resistance Tests. The value of the insulation resistance of an electrical installation shall be determined with all switchboards, panelboards, fuse holders, switches, and overcurrent devices forming part of or used with the installation in place and connected.

12-394 Allowance If Fixtures, Appliances, Etc. are Connected. Where lampholders, receptacles, fixtures or appliances are connected to the installation, the branch circuits shall have at least one-half of the insulation resistance specified in Table 24.

12-396 Allowance for Excessive Humidity. Where the wiring of equipment is exposed to excessive humidity through climatic conditions, an inspector may authorize an insulation resistance lower than that specified in Table 24.

Use of Mineral-Insulated and Aluminum-Sheathed Cable

12-398 Mineral-Insulated and Aluminum-Sheathed Cable Rules. Rules 12-400 to 12-416 cover the installation of mineral-insulated and aluminum-sheathed cable and are amendatory of the other rules of this Code where they apply.

12-400 Use

(1) Mineral-insulated cable and aluminum-sheathed cable may be installed in or on buildings or portions of buildings of either combustible or other than combustible types of construction.

(2) Light-weight mineral-insulated cable shall be used only in multi-conductor assemblies.

12-402 Corrosion Resistant Protection. Mineral-insulated and aluminum-sheathed cable, unless provided with suitable corrosion resistant protection, shall not be used where materials having a deteriorating effect on the metal sheath may come in direct contact with the cable.

12-404 Mechanical Protection

(1) Where subject to mechanical injury, mineral-insulated and aluminum-sheathed cable shall be suitably protected.

(2) Where mineral-insulated or aluminum-sheathed cable is installed on the face of a wall, partition, ceiling, or structural member within 5 feet of the door, and in all locations where subject to mechanical injury as for instance from industrial tractors, other vehicles, equipment, stock piling, or excessive vibration, a suitable safeguard against such injury shall be provided.

(3) Mineral-insulated or aluminum-sheathed cable shall be protected, located, or arranged so that a $2\frac{1}{2}$ inch common nail cannot be driven into it, where the cable is:

- (a) Run through bored or notched holes or grooves in wooden structural members;
- (b) Secured directly to the underside of wooden flooring;
- (c) Located behind baseboards or casings.

(4) In order to comply with Subrule (3), the hole, groove, or supporting strap containing the cable may be sufficiently oversized to permit the cable to move a distance equal to at least the radius of the cable.

(5) Where mineral-insulated or aluminum-sheathed cable passes from a point above grade to direct earth burial and is not otherwise protected against mechanical injury, a suitable pipe stubup shall be arranged to encase the cable to a point where practicable at least 12 inches above grade and, in locations where frost heaving may occur, the encasement shall slide freely on the cable, so as to avoid injury thereto.

12-406 Radii of Bends

(1) The radius of the curve on the inner edge of bends made on mineral-insulated cable shall not be less than six times the external diameter of the sheath and shall be made so as not to damage the outer sheath.

(2) The radius of the curve on the inner edge of bends made on aluminum-sheathed cable shall not be less than:

- (a) Ten times the external diameter of the sheath for cable not more than $\frac{3}{4}$ inch in external diameter;
- (b) Twelve times the external diameter of the sheath for cable more than $\frac{3}{4}$ inch but not more than $1\frac{1}{2}$ inches in external diameter; and
- (c) Fifteen times the external diameter of the sheath for cable more than $1\frac{1}{2}$ inches in external diameter.

12-408 Termination of Mineral-Insulated Cable

At all points where mineral-insulated cable terminates:

- (a) The end of the cable shall be sealed immediately after stripping to prevent entrance of moisture to the insulation;
- (b) Each conductor extended beyond the sheath shall be provided with the proper insulation; and
- (c) Box connectors used with mineral-insulated cable shall be of types approved specifically for use with this cable.

12-410 Connection to Other Forms of Wiring

Where mineral-insulated or aluminum-sheathed cable is connected to other forms of wiring, the junction shall be made in a box, or at, or in, a fitting having a separately bushed hole for each conductor.

12-412 Method of Supporting

(1) Mineral-insulated and aluminum-sheathed cable shall be securely supported by staples, straps, hangers, or similar fittings in such a manner as not to:

- (a) Injure the sheath of the cable; or
- (b) Subject the cable or its termination fittings to undue strain.

(2) Mineral-insulated and aluminum-sheathed cable shall be secured at intervals not exceeding 6 feet, except where the cable is fished and adequate supports are installed, if needed, adjacent to termination fittings.

(3) When settlement of a structure may occur due to weight of contents as in certain grain storage occupancies, provision shall be made so that mineral-insulated and aluminum-sheathed cable runs, including their termination fittings, will not be subjected to undue strain.

(4) Mineral-insulated and aluminum-sheathed cable may be run on the surface of walls, partitions, ceilings, or on or across structural members, subject to the applicable requirements of Rule 12-404.

12-414 In Ducts or Plenum Chambers. Mineral-insulated and aluminum-sheathed cable may be used in air-conditioning ducts and plenum chambers when provided with acceptable fittings.

12-416 Use When Imbedded

(1) Mineral-insulated cable and, except as noted in Subrule (3), round aluminum-sheathed cable may be used for under-plaster extensions or where embedded in plaster, masonry, or concrete.

(2) Except as noted in Subrule (3), flat two-conductor aluminum-sheathed cable may be used for under-plaster extensions or where embedded in plaster, masonry, or concrete, by special permission only.

(3) Aluminum-sheathed cable shall not be embedded in concrete containing reinforcing steel unless:

- (a) The concrete is known to contain no chloride additives; or
- (b) The sheath has been treated with an approved bituminous base paint or other approved means of preventing galvanic corrosion of the aluminum.

Liquid-Tight Flexible Metal Conduit

12-418 Use of Liquid-Tight Flexible Metal Conduit

(1) Liquid-tight flexible metal conduit may be used in short lengths, where a flexible connection is required in ordinary locations and where permitted by other Sections of this Code.

(2) Liquid-tight flexible metal conduit shall not be used:

- (a) Where subject to mechanical injury;
- (b) As a general-purpose raceway;
- (c) In lengths greater than that essential for the degree of flexibility required;
- (d) Where exposed to gasoline or similar light petroleum solvents, or corrosive liquids or vapours having an injurious effect on the thermoplastic jacket;
- (e) Under conditions such that the jacket temperature will exceed 60° C. (140° F.), or 75° C. (167° F.) if the jacket is approved for this higher temperature; or
- (f) Where flexing at low temperatures may cause injury to the jacket.

(3) $\frac{3}{8}$ inch liquid-tight flexible metal conduit may be used for runs of not more than five feet for the connection of equipment.

12-420 Size of and Conductors for Liquid-Tight Flexible Metal Conduit

(1) The maximum size of liquid-tight flexible metal conduit shall not exceed 3 inch electrical trade size.

(2) A separate grounding conductor shall be installed in accordance with the rules of Section 10 in liquid-tight flexible metal conduit.

(3) The maximum size of conductors which may be installed in sizes $1\frac{1}{4}$ inch and smaller shall not exceed:

- (a) No. 14 AWG in $\frac{3}{8}$ inch trade size;
- (b) No. 12 AWG in $\frac{1}{2}$ inch trade size;
- (c) No. 8 AWG in $\frac{3}{4}$ inch trade size;
- (d) No. 6 AWG in 1 inch trade size;
- (e) No. 2 AWG in $1\frac{1}{4}$ inch trade size.

(4) Conductors need not be lead sheathed but shall be of the moisture-resistant types when used in Category 1 locations as covered by Section 22.

(5) The maximum per cent fill shall be in accordance with Rule 12-162 and for this purpose the cross-sectional area of the $\frac{3}{8}$ inch trade size shall be considered as 0.184 square inches.

Cabletroughs

12-422 Restriction of Use. Cabletroughs shall not be used in any hazardous location except as permitted by Rule 18-030.

12-424 Method of Installation

(1) Cabletroughs shall be installed as a complete system before the conductors are laid in.

(2) The maximum loading of any cabletrough shall not exceed the loading as specified in Table 42.

(3) Cabletroughs shall not pass through walls except where the walls are constructed of incombustible material.

(4) Cabletroughs may extend vertically through dry floors if provided with acceptable fire stops and if totally enclosed where passing through and for a minimum distance of 6 feet above the floor to provide adequate protection from mechanical injury.

(5) Conductors or cables shall not be laid in cabletroughs until the conductors or cables will be reasonably safe from damage from construction operations.

(6) Cabletroughs shall be adequately supported by non-combustible supports.

(7) Dead ends of cabletroughs shall be closed by the use of proper fittings.

(8) Conductors in vertical runs of cabletroughs shall be supported independently of the terminal connections, and at intervals not exceeding those specified in Table 21.

12-426 Conductors for Use in Cabletroughs

(1) Conductors for use in ventilated, non-ventilated, and ladder type cabletroughs shall be enclosed in a continuous metal sheath or of the interlock metal-armour type as specified in Table 19, except that for ventilated and non-ventilated cabletroughs, conductors having moisture-resistant insulation and flame-retarding non-metallic coverings or sheaths may be used in electrical equipment vaults, fire-resisting switchrooms, and, by special permission, in other similar locations.

(2) Where a non-metallic outer covering is supplied with armoured or metal-sheathed conductors or cable, it shall be flame retardant.

(3) Where the conductors of different systems are installed in cabletroughs the requirements of Rule 12-354 shall apply.

12-428 Joints and Splices Within Cabletroughs

Where joints and splices are made on feeders or branch circuits within cabletroughs, they shall be made and insulated by acceptable methods and shall be in accessible locations.

12-430 Connection to Other Wiring Methods.

Where cabletroughs are connected to other wiring methods, the arrangement shall be such that the conductors will not be subject to mechanical damage or abrasion, and where connected to raceways, such that effective ground continuity will be maintained.

12-432 Manufacturer's Identification on Cable-trough. The manufacturer's identification marking on cable-trough shall be readily visible when the installation is completed.

12-434 Grounding. All metal sections of a cable-trough system shall be bonded together and connected to the electrical system ground by a conductor selected in accordance with Rule 10-102 (c) (Table 16) for the largest conductor installed in the cable-trough.

12-436 Ampacity of Conductors Used in Cable-troughs

(1) Where the air space between conductors, cables, or both, in ventilated and ladder type cabletroughs is not less than 25 per cent nor more than 100 per cent of the conductor or cable diameter, the ampacity of the conductor or cable shall be the value specified in paragraph (a) or (b) below, multiplied by the correction factor specified in Table 39 for the arrangement and number of conductors or cables involved, unless special permission is obtained for other spacings and correction factors:

- (a) Single conductors, single conductor aluminum-sheathed cable, and single conductor mineral-insulated cable, as specified in Tables 1 or 3;
- (b) Multi-conductor cables as specified in Subrule (1) (b) or (2) (b) of Rule 4-004 for three wires in conduit, multiplied by the factors in Table 38 for the number of conductors in each cable.

(2) Where the spacings of Subrule (1) are not maintained in ventilated and ladder-type cabletroughs, or for any spacing in a non-ventilated cable-trough, the ampacity of the conductor of cable shall be the value specified in Subrule (1) (b) or (2) (b) of Rule 4-004 multiplied by the correction factor specified in Table 38 for the total number of conductors in the cable-trough.

(3) Where cabletroughs are located in room temperatures above 30° C. (86° F.) the temperature correction factors of Tables 1, 2, 3 and 4 shall be applied to the ampacities determined from Subrules (1) and (2) as applicable.

Rigid PVC (Unplasticized) Conduit

12-438 Use

(1) Rigid PVC conduit may be used for exposed or concealed work above or below ground in accordance with the rules for threaded rigid metal conduit subject to the provisions of Rules 12-440 to 12-456.

(2) Rigid PVC conduit may be used in cinders or cinder concrete without the grouting referred to in Rule 12-142 being required.

12-440 Restrictions On Use. Rigid PVC conduit shall not be used:

- (a) In hazardous locations as covered by Section 18;
- (b) With wiring for exit and fire escape lights;
- (c) As risers in buildings of fire-resisting construction unless suitable fire stops are provided at each floor level or a fire-resisting enclosure is built around the vertical conduit risers; or
- (d) Where enclosed in thermal insulation.

12-442 Temperature Limitations. Rigid PVC conduit shall not be used where normal conditions are such that any part of the conduit is subjected to a temperature in excess of 75° C.

12-444 Mechanical Protection. Rigid PVC conduit shall be protected where exposed to mechanical injury either during installation or afterwards.

12-446 Field Bends Prohibited. Rigid PVC conduit shall not be bent in the field.

12-448 Fittings. Rigid PVC conduit including elbows and bends shall not be threaded but shall be used with approved adapters and couplings which shall be applied in an acceptable manner with approved solvent cement.

12-450 Maximum Spacing of Supports

(1) All rigid PVC conduit of one size shall be securely attached to hangers or to a solid surface with the maximum spacing of the points of supports not greater than:

- (a) 2½ feet for ½-, ¾-, and 1-inch conduit;
- (b) 4 feet for 1¼-, and 1½-inch conduit;
- (c) 5 feet for 2-inch conduit;
- (d) 6 feet for 2½- and 3-inch conduit;
- (e) 7 feet for 3½-, 4-, and 5-inch conduit; and
- (f) 8 feet for 6-inch conduit.

(2) Where conduits of mixed sizes are run in a group, the conduit supports shall be arranged so that the maximum support spacing will be that shown in Subrule (1) for the smallest conduit.

(3) Except where embedded in concrete, rigid PVC conduit shall not be clamped tightly but shall be supported in such a manner as to permit adequate lineal movement to allow for expansion and contraction of the conduit due to temperature change.

12-452 Grounding Continuity. A separate grounding conductor shall be installed in rigid PVC conduit in compliance with Rule 10-040.

12-454 Support of Equipment. Rigid PVC conduit shall not be used to support fixtures or other equipment except as permitted by Rule 12-284 (2).

12-456 Expansion Joints. Unless the conduit is grouted in concrete, at least one expansion joint shall be installed in any conduit run where the expansion of the conduit due to maximum probable temperature change during and after installation will exceed 1¾ inches.

Ventilated Flexible Cableway

12-458 Restriction of Use. Ventilated flexible cableway shall not be used in any hazardous location except as permitted by Rule 18-030.

12-460 Method of Installation

(1) Ventilated flexible cableway shall not pass through walls except where the walls are constructed of non-combustible material.

(2) Ventilated flexible cableway may extend vertically through dry floors, if totally enclosed where passing through and for a minimum distance of 6 feet above the floor to provide adequate protection from mechanical injury.

(3) Conductors or cables shall not be drawn into ventilated flexible cableway until conductors or cables will be reasonably safe from damage from construction operations.

(4) Ventiladed flexible cableway shall be supported by non-combustible supports.

(5) Conductors in vertical runs of ventilated flexible cableway shall be supported independently of the terminal connections, at intervals not exceeding those specified in Table 21, and the supports shall maintain the continuity of the ventilated flexible cableway system without injury to the conductors or their covering.

(6) All ventilated flexible cableway shall be securely attached to hangers or to a solid surface with the maximum spacings of the points of support:

- (a) 7 feet for 2-, 3-, and 4-inch trade sizes not under tension;
- (b) 10 feet for 2-inch trade size under a minimum tension of 100 pounds;
- (c) 12 feet for 3-inch trade size under a minimum tension of 200 pounds; and
- (d) 14 feet for 4-inch trade size under a minimum tension of 250 pounds.

(7) A run of ventilated flexible cableway between outlets or between draw-in points shall not contain more than the equivalent of 4 quarter-bends.

12-462 Conductors for Use in Ventiladed Flexible Cableway

(1) Conductors for use in ventilated flexible cableway shall be enclosed in a continuous metal sheath or of the interlocked metal-armour type as specified in Table 19, except that conductors having moisture-resistant insulation and flame-retardant non-metallic coverings or sheaths may be used in electrical equipment vaults, fire-resisting switch rooms and, by special permission, in other similar locations.

(2) Where a non-metallic outer covering is supplied with armoured or metal-sheathed conductors or cable, it shall be flame retardant.

(3) Where conductors of different systems are installed in the same ventilated flexible cableway, the requirements of Rule 12-354 shall apply.

12-464 Connection to Other Wiring Methods

Where ventilated flexible cableway is connected to other wiring methods, the connection shall be made:

- (a) By means of approved fittings;
- (b) Electrically continuous; and
- (c) In such a manner as to ensure that the conductors will not be subject to mechanical damage.

12-466 Manufacturer's Identification on Ventiladed Flexible Cableway. The manufacturer's identification marking on ventilated flexible cableway shall be readily visible when the installation is completed.

12-468 Grounding. All metal sections of a ventilated flexible cableway system shall be bonded together and connected to the electrical system ground by a conductor selected in accordance with Rule 10-102 (c) (Table 16) for the largest conductor in the ventilated flexible cableway.

12-470 Ampacity of Conductors and Cables Used in Ventiladed Flexible Cableway

(1) The ampacity of single or multi-conductor cables shall be the value specified in paragraph (a) or (b) below, multiplied by the correction factor specified in Table 38 for the total number of conductors involved unless special permission is obtained for other correction factors:

- (a) Single conductors, as specified in Tables 2 or 4;
- (b) Multi-conductor cables, as specified in Tables 2 or 4 multiplied by the factor of Table 38 for the number of conductors in each cable.

(2) Where ventilated flexible cableway is located in room temperatures above 30° C. (86° F.) the temperature correction factors of Tables 1, 2, 3, and 4 shall be applied to the current-carrying capacities determined from Subrule (1).

12-472 Maximum Number of Conductors. The maximum number of conductors in ventilated flexible cableway shall be determined as for conduit in accordance with Rule 12-162.

Rigid Types I and II Non-metallic Bituminized-Fibre and Asbestos-Cement Conduits

12-474 Scope. Rules 12-462 to 12-468 apply to the installation of rigid non-metallic conduits, Types I and II made of bituminized-fibre or asbestos-cement.

12-476 Use Permitted. Types I and II rigid non-metallic conduit and fittings approved for the purpose may be used:

- (a) For installation underground in accordance with Rule 12-140 for raceways, except that Type I conduit shall be laid with its entire length in a two-inch envelope of concrete; or
- (b) In concrete walls, floors, and ceilings where surrounded by at least two inches of concrete.

12-478 Use Prohibited. Types I and II rigid non-metallic conduit shall not be used:

- (a) Above ground except as permitted by paragraph (b) of Rule 12-462;
- (b) Where subject to physical damage; or
- (c) In hazardous locations as covered by Section 18.

12-480 Method of Installation

(1) All cut edges shall be trimmed inside and outside to remove rough edges.

(2) Types I and II rigid non-metallic conduit including elbows and bends shall not be threaded but shall be used with approved adapters and couplings

(3) All joints between the conduit and couplings, fittings and boxes shall be made by a method and with tools specified for the purpose.

(4) Types I and II rigid non-metallic conduit shall be secured mechanically to prevent disturbance of the alignment during construction.

12-482 Split Straight Conduit. In existing underground or concrete embedded installations only, raceways may be formed using split straight conduit, provided that:

- (a) Both halves of each conduit length are properly matched and clamped together to form a close-fitting concrete-tight joint;
- (b) Each length of conduit is tightly clamped at each end, with additional clamps spaced not more than three feet apart; and
- (c) Clamps made of stainless steel or other corrosion-resistant material acceptable to the inspection department are used when not embedded in concrete.

SECTION 14—PROTECTION AND CONTROL

General

14-000 General Requirements

(1) Electrical equipment and ungrounded conductors shall, except as otherwise provided for in this Section or in other Sections dealing with specific equipment, be provided with:

- (a) Approved devices for the purpose of automatically opening the electrical circuit thereto if the current therein reaches a value which will produce a dangerous temperature in the equipment or conductor;
- (b) Approved manually-operable devices which will safely disconnect all ungrounded conductors of the circuit at the point of supply simultaneously, except for multi-wire branch circuits which supply fixed lighting loads only, and have each lighting load connected to the neutral and one ungrounded conductor; and
- (c) Approved devices which, when necessary, will open the electrical circuit thereto in the event of failure of voltage in such circuit.

(2) Electrical equipment shall also be provided with a readily-accessible disconnecting means capable of opening all ungrounded conductors of the supply simultaneously, and which shall be installed within sight of the equipment unless otherwise permitted by an inspector.

14-002 Types and Ratings of Protective and Control Devices.

(1) Circuit breakers, fuses, and switches shall be of types and ratings acceptable to the inspection department.

(2) Interrupting ratings of overcurrent protection shall ensure safe operation and co-ordination.

14-004 Connection of Devices. Devices required by this Section shall not be connected in any grounded conductors except where:

- (a) The devices simultaneously or previously disconnect all ungrounded conductors;
- (b) An overcurrent device is in a 2-wire circuit having one wire grounded, and there is a possibility that the grounded conductor may assume a potential difference between itself and ground, due to unreliable grounding conditions, of sufficient magnitude to create a dangerous condition; or
- (c) Overcurrent devices are located in that part of a circuit which is connected by an unpolarized attachment plug.

Protective Devices

14-006 Location and Grouping. Overcurrent devices shall be located in readily accessible places, except as provided for elsewhere in this Code, and shall be grouped where practicable.

14-008 Enclosure of Overcurrent Devices

(1) Overcurrent devices shall be enclosed in cutout boxes or cabinets, unless they form a part of an approved assembly which affords equivalent protection, or unless mounted on switchboards, panelboards, or controllers located in rooms or enclosures free from easily ignitable material and dampness, and accessible only to authorized persons.

(2) Operating handles of circuit breakers shall be made accessible without opening any door or cover giving access to live parts.

14-010 Mounting of Enclosures. Enclosures for overcurrent devices shall be mounted in a vertical position unless, in individual instances, this is clearly impracticable.

14-012 Grouping of Protective Devices at Distribution Centres

(1) Where the number of lighting branch circuits exceeds four, overcurrent devices protecting such circuits shall consist of an approved assembly.

(2) Individual overcurrent devices, suitably enclosed, may be used at such centres if the number of lighting branch circuits does not exceed four.

(3) For the purpose of this Rule a 3-wire circuit shall be classed as 2 circuits.

14-014 Time-Delay Fuses

(1) Plug and cartridge fuses of the time-delay type shall be marked so as to be readily distinguishable.

(2) The marking referred to in Subrule (1) shall be the letter "D".

14-016 Use of Plug Fuses. Plug fuses and fuseholders shall not be used in circuits exceeding 125 volts between conductors except in circuits supplied from a system having a grounded neutral conductor and no conductor operating at more than 150 volts to ground.

14-018 Rating of Fuses

(1) Plug fuses shall be rated at not more than 30 amperes.

(2) Standard cartridge fuses shall not be used in capacities larger than 600 amperes or in circuits at more than 600 volts.

(3) HRC (High Rupturing Capacity) fuses used in circuits rated at 750 volts or less are not limited as to current rating.

(4) Fuses for use in circuits of more than 750 volts are not limited in current or voltage ratings.

14-020 Tamper-Resistant. Where plug fuses are used, the inspection department may require that they be of the tamper-resistant type.

14-022 Cutout Bases for Plug Fuses. Cutout bases for plug fuses shall be of the so-called "covered" type where readily accessible to unauthorized persons.

14-024 Open-Link Fuses. Open-link fuses shall not be used.

14-026 Short-Circuiting of Fuses. Short-circuiting or bridging of fuses, or the use of anything but an approved fuse and fuse holder of proper rating, is strictly prohibited.

14-028 Overcurrent Devices in Parallel. Overcurrent devices shall not be connected in parallel in circuits of 750 volts or less.

14-030 Use of HRC (High Rupturing Capacity) Fuses. HRC fuses, which have a rupturing capacity in excess of that required for standard fuses, may be used as follows:

- (a) HRC Form I fuses, in lieu of standard fuses;
- (b) HRC Form II fuses, for overcurrent protection only where circuit overload protection is provided by standard fuses, circuit-breakers, or overload devices;
- (c) HRC Form II fuses, in lieu of standard fuses in those applications where this Code permits the installation of fuses greater than the ampere rating of the load, provided that the rating of the HRC Form II fuses does not exceed 85 per cent of the maximum rating permitted for standard fuses.

14-032 Construction of Circuit Breakers. Where circuit breakers are provided for the protection of apparatus or ungrounded conductors, or both, they shall open the circuit in all ungrounded conductors by the manual operation of a single handle and by the action of overcurrent, except:

- (a) Where single-pole circuit breakers are permitted by paragraph (b) of Subrule (1) of Rule 14-000; or
- (b) In branch circuits derived from a 3-wire grounded neutral system two single-pole manually-operable circuit breakers may be used in lieu of a 2-pole breaker, provided that:
 - (i) Their handles are so interlocked that all ungrounded conductors will be opened by the manual operation of either handle; and
 - (ii) Each breaker has voltage ratings not less than that of the 3-wire grounded neutral system.

14-034 Non-tamperable Circuit Breakers. Branch-circuit breakers unless accessible only to authorized persons, shall be of such design that any alteration by the user of either tripping current or time will be difficult.

Control Devices

14-036 Location of Isolating Switches. Isolating switches shall be plainly marked so as to make it unlikely that they will be opened under load, unless:

- (a) They are located or guarded so as to render them inaccessible to unauthorized persons; or
- (b) They are interlocked so that they cannot normally be opened under load.

14-038 Maximum Rating of Switches

(1) Knife switches rated at more than 600 amperes at 750 volts or less shall be used only as isolating switches.

(2) Notwithstanding Subrule (1), switches of special design and approved for such purpose may be used to interrupt currents greater than 600 amperes at 750 volts or less.

14-040 Operation of Switches. Knife switches and other control devices, unless located or guarded so as to render them inaccessible to unauthorized persons, shall be constructed so that they may be switched to the "off" position without exposing live parts.

14-042 Mounting of Knife Switches

- (1) Single-throw knife switches shall be mounted with their bases in a vertical plane.
- (2) Single-throw knife switches shall be mounted so that gravity will not tend to close them.
- (3) Double-throw knife switches may be mounted so that the throw will be either vertical or horizontal but, if the throw is vertical, a positive locking device or stop shall be provided so as to ensure the blades remaining in the open position when so set, unless it is not intended that the switch be left in the open position.

14-044 Connection of Switches. Manual single-throw switches, circuit breakers, or magnetic switches, shall be so connected that the blades or moving contacts will be dead when the device is in the open position, except that the following need not comply:

- (a) Branch-circuit breakers which have all live parts other than terminals sealed, and which are constructed so that the line and load connections may be interchanged;
- (b) Switchgear which is provided for sectionalizing purposes and has a suitable caution notice attached to the assembly;
- (c) Switches which are immersed in a liquid and have a suitable caution notice attached to the outside of the enclosure;
- (d) Switches which are designed so that all live parts are inaccessible when the device is in the open position;
- (e) Magnetic switches, when preceded by a circuit breaker or manual switch which is located in the same enclosure or immediately adjacent and is marked to indicate that it controls the circuit to the magnetic switch, unless this is obvious.

14-046 Location of Control Devices

- (1) Control devices, with the exception of isolating switches, shall be readily accessible.
- (2) Remotely controlled devices shall be considered to be readily accessible if the means of controlling them are readily accessible.
- (3) Isolating switches may be located so as to require the use of a hook stick to operate them.

14-048 Enclosure of Control Devices. Control devices, unless they are located or guarded so as to render them inaccessible to unauthorized persons and to prevent fire hazards, shall have all current-carrying parts in enclosures of metal or other fire-resisting material.

14-050 Control Devices to be Indicating. Manually-operable control devices shall indicate the on and off position, unless the application of the devices is such as to make this requirement unnecessary.

14-052 Control Devices Ahead of Overcurrent Devices. Control devices used in combination with overcurrent devices or overload devices for the control of circuits or apparatus shall be connected so that the overcurrent or overload devices will be dead when the control device is in the open position, except where this is impracticable.

Protection and Control of Circuits

14-054 Overcurrent Devices Required. Each ungrounded conductor shall be protected by an overcurrent device at the point where it receives its supply of current, and at each point where the size of conductor is decreased, except that such protection may be omitted:

- (a) Where the overcurrent device in a larger conductor adequately protects the smaller; or
- (b) Where the smaller conductor:
 - (i) Has an ampacity not less than the sum of the allowable ampacities of the conductors of the one or more circuits or loads which it supplies, and not less than 1/10 that of the larger conductor from which it is supplied;
 - (ii) Is not over 5 feet long;
 - (iii) Does not extend beyond the switchboard, panelboard, or device which it supplies;
 - (iv) Is enclosed in conduit, or in metal gutters when not a part of the wiring of the switchboard, panelboard, or other device; and
 - (v) Terminates in a single set of overcurrent devices except where the tap conductors supply panelboards installed in accordance with Rule 14-090; or
- (c) Where the smaller conductor:
 - (i) Does not exceed No. 10 AWG;
 - (ii) Terminates in a single overcurrent device that will safely interrupt any fault current which may occur on the load-side of the device;
 - (iii) Has an ampacity equivalent to that of the device it supplies;
 - (iv) Does not exceed 5 feet in length; and
 - (v) Is enclosed in metal conduit or in metal gutters; or
- (d) In other than residential occupancies where each smaller conductor:
 - (i) Has an ampacity of at least 1/3 the ampacity of the larger conductor from which it is supplied; and
 - (ii) Is suitably protected from mechanical injury, is not more than 25 feet long and terminates in a single set of overcurrent devices which will limit the load on the tap to that allowed by Tables 1, 2, 3, or 4, but, beyond the single set of overcurrent devices, the conductors may supply any number of overcurrent devices.

14-056 Disconnecting Means Required for Fused Circuits. Circuits protected by fuses shall be equipped with disconnecting means integral with, or adjacent to, the fuseholders whereby all live parts for mounting fuses can be readily and safely made dead, except that such disconnecting means may be omitted in the case of:

- (a) Instrument and control circuits on switchboards where the potential does not exceed 250 volts;
- (b) Primary circuits of potential transformers having a primary potential of 750 volts or less, on switchboards; and
- (c) A circuit having only one ungrounded conductor where a plug fuse is used, as a plug fuse can be safely handled while alive in such a circuit.

14-058 Rating of Overcurrent Devices, General.

The rating or setting of overcurrent devices shall not exceed the allowable ampacity of the conductors which they protect except:

- (a) Where a fuse or circuit breaker having a rating or setting of the same value as the ampacity of the conductor is not available, in which case the ratings or settings given in Table 13 may be used within the maximum value of 600 amperes;
- (b) In the case of fixture wire, flexible cord in sizes Nos. 16, 18, and 20 AWG, and tinsel cord, which will be considered as protected by 15-ampere overcurrent devices; or
- (c) As provided for by other rules of this Code.

14-060 Tripping Elements for Circuit Breakers. Circuit breakers shall be equipped with tripping elements as specified in Table 25.

14-062 Rating of Control Devices. Control devices shall have ratings suitable for the connected load of the circuits which they control and, with the exception of isolating switches, shall be capable of safely establishing and interrupting such loads.

14-064 Grouping of Control Devices. Control devices controlling feeders and branch circuits shall be grouped where practicable.

14-066 Rating of Snap Switches. Snap switches shall be rated as follows:

- (a) For non-inductive loads other than tungsten-filament lamps, switches shall have an ampere rating not less than the ampere rating of the load;
- (b) For tungsten-filament lamp loads, and for combined tungsten filament and non-inductive loads, switches shall be "T" rated, except where:
 - (i) The switches are used in branch-circuit wiring systems in private homes; in rooms in multiple-occupancy dwellings used only as living quarters by tenants; in private hospital or hotel rooms; or in similar locations but not in public rooms or places of assembly;
 - (ii) The switch controls permanently connected fixtures or lighting outlets in one room only, or in one continuous hallway where the lighting fixtures may be located at different levels or in attics or basements not used for assembly purposes; and

- (iii) The switch is rated at not less than 10 amperes, 125 volts; 5 amperes, 250 volts; or for the 4-way types, 5 amperes, 125 volts; 2 amperes, 250 volts;
- (c) Canopy switches controlling a tungsten-filament lamp load shall be "T" rated or shall have an ampere rating at least three times the ampere rating of the load;
- (d) For inductive loads, switches shall have an ampere rating of twice the ampere rating of the load unless:
 - (i) They are of a type approved as part of an assembly or for the purpose employed; or
 - (ii) The inductive load is ac with a power factor between unity and 0.75 lag in which case a switch having an "F" rating at 10 amperes, 125 volts may be used.

14-068 Use and Rating of Manually-Operated General-Purpose Alternating-Current Switches

(1) Manually-operated, general-purpose switches intended for alternating-current systems and constructed so that they can be installed readily in wiring systems for making and breaking tungsten-filament lighting and power circuits shall be rated as follows:

- (a) For tungsten-filament lamp loads at 120 volts maximum, switches shall have an ampere rating not less than the current rating of the load;
 - (b) For non-inductive loads and for inductive loads at not less than 75 per cent power factor lag, switches shall have an ampere rating not less than the current rating of the load.
- (2) The current rating of the switches shall be not less than 15 amperes in conjunction with a voltage rating of 120 or 277 volts.

(3) Switches shall be adapted for mounting in flush-device boxes, surface-type boxes, special boxes, or have complete self enclosures.

14-070 Manually Operated Specific-Use AC Switches

(1) Manually operated specific-use ac switches shall be used only for the control of non-inductive loads other than tungsten-filament lamps, and for inductive loads where the power factor is not less than 75 per cent lagging.

(2) The current rating of the switches shall be not less than 15 amperes in conjunction with a voltage rating of 347 volts.

(3) The switches designed for mounting in boxes shall not be readily interchangeable with switches referred to in Rules 14-066 and 14-068.

(4) Switches controlling voltage exceeding 150 volts to ground shall not be ganged or grouped in the same enclosure unless they meet the requirements of Rule 14-094.

Protection and Control of Generators

14-072 Protection of Constant-Potential Generators

(1) Constant-potential generators, whether direct-current or alternating-current, shall be protected from excessive current by overcurrent devices, except that:

- (a) Where an inspector is of the opinion that the type of apparatus used and the nature of the system operated make protective devices inadvisable or unnecessary, the protective devices may be dispensed with;
- (b) Where an alternating-current generator and a transformer are located in the same building and are intended to operate as a unit for stepping up or stepping down voltage, the protective device may be connected to the primary or to the secondary of the transformer.

(2) Subrule (1) shall not apply to exciters for alternating-current machines.

14-074 Generator Not Driven by Electricity.

Where a generator not driven by electricity supplies a 2-wire grounded system, the protective device shall be capable of disconnecting the generator from both conductors of the circuit.

14-076 Balancer Sets. Where a 3-wire direct-current system is supplied by 2-wire generators operated in conjunction with a balancer set to obtain a neutral, the system shall be equipped with protective devices which disconnect the system in the event of an excessive unbalancing of voltages.

14-078 Three-Wire Direct-Current Generators

(1) Three-wire direct-current generators, whether shunt or compound wound, shall be equipped with:

- (a) A 2-pole circuit breaker with 2 tripping elements; or
- (b) A 4-pole circuit breaker connected in the main- and equalizer-leads and tripped by 2 tripping elements.

(2) The circuit breaker shall be connected so as to be actuated by the entire armature current.

(3) One tripping element shall be connected in each armature lead.

14-080 Disconnecting Means Required for Generators. Generators shall be equipped with an indicating switch or a circuit breaker by means of which the generator and all protective devices and control apparatus may be entirely disconnected from the circuits supplied by the generator, unless the driving means for the generator is such that it may be readily shut down.

Protection and Control of Apparatus on Lighting and Appliance Branch Circuits

14-082 Protection of Lampholders

(1) Medium-base lampholders and fluorescent light-fixture shall not be connected to a branch circuit protected by overcurrent devices rated or set at more than 15 amperes except that where the fixture wiring and ballasts, if any, are enclosed in metal, the rating of the overcurrent devices may exceed 15 amperes, but shall not exceed 20 amperes.

(2) Subrule (1) does not apply to medium-base lampholders which form an integral part of a single lighting unit having mogul-base lampholders.

(3) Mogul-base lampholders shall not be connected to a branch circuit protected by overcurrent devices rated or set at more than 40 amperes.

14-084 Protection of Circuits Supplying Receptacles. Receptacles shall not be connected to a lighting and appliance branch circuit having overcurrent protection rated or set at more than the rated ampere capacity of the receptacle.

14-086 Additional Control Devices Not Necessary.

Portable appliances need not be equipped with additional control devices where the appliances are:

- (a) Rated at not more than 1500 watts; and
- (b) Provided with approved cord connectors, attachment-plug caps or other approved means by which they can be disconnected readily from the circuits.

14-088 Outlet Control From More Than One Point. Where switches are used to control an outlet or outlets from more than one point, the switches shall be wired and connected so that the grounded conductor runs directly to the outlet or outlets controlled by the switches.

14-090 Panelboard Overcurrent Protection. Panelboards supplied by conductors having overcurrent protection greater than 200 amperes shall be protected on the supply side by overcurrent devices having a rating not greater than that of the panelboard.

Protection and Control of Miscellaneous Apparatus

14-092 Remote-Control Circuits. Remote-control circuits of remotely controlled apparatus shall be arranged so that they may be conveniently disconnected from their source of supply at the controller, but as an alternative it may be arranged that the disconnecting of the apparatus from the supply circuit also disconnects the remote-control circuit from the supply circuit.

14-094 Connection to Different Circuits.

(1) Where electrical equipment is supplied by more than one circuit:

- (a) A single disconnecting means, which will effectively open all ungrounded conductors supplying the equipment, shall be provided integral with, or installed adjacent to, the equipment; or

- (b) Each circuit shall be provided with an isolating means integral with or adjacent to the equipment.

(2) The isolating means referred to in Subrule (1) (b) shall consist of barriers, individual disconnecting means or multi-pole relays.

(3) Where individual disconnecting means are used, suitable warning signs shall be placed on, or adjacent to, each disconnecting means to the effect that any one disconnecting means will not completely de-energize the equipment.

(4) The barriers referred to in Subrule (2) shall consist of:

- (a) A minimum clearance of 6 inches between parts connected to different circuits;

- (b) Dead front construction;

- (c) Recessing; or

- (d) Other acceptable means.

(5) Barriers shall effectively isolate live parts from contact from any angle by a $\frac{3}{4}$ -inch diameter probing rod having a length of 3 inches and a spherical tip.

SECTION 16—REMOTE-CONTROL CIRCUITS, SIGNAL CIRCUITS, EXTRA-LOW-VOLTAGE POWER CIRCUITS AND LOW-ENERGY POWER CIRCUITS

16-000 Scope. This Section applies to remote-control circuits, signal circuits, extra-low-voltage power circuits, and low-energy power circuits, other than:

- (a) Circuits forming an integral part of a device; and

- (b) Remote-control circuits and signal circuits which use conductors in a cable assembly with other conductors forming parts of communication circuits.

16-002 Hazardous Locations. Where the circuits or apparatus within the scope of this Section are installed in hazardous locations, they shall also comply with the applicable rules of Section 18.

Classifications

16-004 Classifications. Circuits within the scope of this Section shall be classified as follows:

- (a) Class 1 circuits are circuits in which power is not limited in accordance with Rule 16-006;
- (b) Class 2 circuits are circuits in which power is limited in accordance with Rule 16-006.

16-006 Limitation of Class 2 Circuits

(1) Class 2 circuits, depending upon the voltage, shall have the current limited as follows:

- (a) 0 to 15 volts. Circuits in which the open-circuit is not greater than 15 volts shall have overcurrent protection of not more than 5-ampere rating, except that the overcurrent protection may be omitted if the current is supplied from:

- (i) Primary batteries;

- (ii) An approved Class 2 circuit transformer the secondary current of which under short-circuit does not exceed 10 amperes; or

- (iii) A device having characteristics which will limit the current under normal operating conditions or under fault conditions to a value not exceeding 10 amperes, and approved for the purpose;

- (b) Over 15 volts but not exceeding 30 volts. Circuits in which the open-circuit voltage exceeds 15 volts but is not greater than 30 volts shall have overcurrent protection of not more than 3.2-ampere rating, except that the overcurrent protection may be omitted if the current is supplied from:

(i) Primary batteries;

(ii) An approved Class 2 circuit transformer the secondary current of which under short-circuit does not exceed 5 amperes; or

(iii) A device having characteristics which will limit the current under normal operating conditions or under fault conditions to a value not exceeding 5 amperes, and approved for the purpose;

(c) Over 30 volts but not exceeding 60 volts. Circuits in which the open-circuit voltage exceeds 30 volts but is not greater than 60 volts shall have overcurrent protection of not more than 1.6-ampere rating, except that the overcurrent protection may be omitted if the current is supplied from:

(i) An approved Class 2 circuit transformer the secondary current of which under short-circuit does not exceed 2.5 amperes; or

(ii) A device having characteristics which will limit the current under normal operating conditions or under fault conditions to a value not exceeding 2.5 amperes, and approved for the purpose;

(d) Over 60 volts but not exceeding 150 volts. Circuits in which the open-circuit voltage exceeds 60 volts but is not greater than 150 volts shall have overcurrent protection of not more than 1-ampere rating, and in addition shall be equipped with approved current-limiting means other than overcurrent protection, which will limit the current, either under normal operating conditions or under fault conditions, to not more than 1 ampere.

(2) A device having energy-limiting characteristics may consist of a series resistor of suitable rating, or other similar device.

16-008 Low-Energy Power Circuits. For the purposes of this Section, circuits which are neither remote-control circuits nor signal circuits, but in which the current is limited in accordance with Rule 16-006, shall be classed as low-energy power circuits and shall be considered to be Class 2 circuits.

16-010 Extra-Low-Voltage Power Circuits. For the purposes of this Section, circuits such as valve operators, etc., which are neither remote-control circuits nor signal circuits, but which operate at not more than 30 volts where the current is not limited in accordance with Rule 16-006, and which are supplied from a transformer or other device restricted in its rated output to 1,000 volt-amperes and approved for the purpose, shall be classed as extra-low-voltage power circuits and shall be considered to be Class 1 circuits.

16-012 Safety Control Devices. Notwithstanding paragraph (b) of Rule 16-004, where the failure to operate of a remote control circuit to a safety control device will introduce a direct fire or life hazard, the remote control circuit shall be deemed to be a Class 1 circuit.

16-014 Circuits in Communication Cables. Remote-control circuits and signal circuits which use conductors in a cable assembly with other conductors forming parts of communication circuits are, for the purposes of this Code, deemed to be communication circuits and are covered by Section 60 of this Code

Class 1 Circuits

16-016 Methods of Installation for Class 1 Circuits. The conductors and equipment of Class 1 circuits shall be installed in accordance with the requirements of other appropriate Sections of this Code, except as provided in Rules 16-018 to 16-032.

16-018 Conductor Sizes. No. 18 and No. 16 AWG copper conductors may be used in Class 1 circuits:

(a) If installed in a raceway or a cable approved for the purpose; or

(b) If flexible cords in accordance with Rule 4-010.

16-020 Insulated Conductors for Class 1 Circuit Wiring

(1) Where conductors larger than No. 16 AWG are used in a Class 1 circuit, they shall be of any type shown in Table 19.

(2) Where fixture wires of No. 18 or No. 16 AWG are used in a Class 1 circuit, they shall be of types suitable for such use as indicated in Table 11.

16-022 Mechanical Protection of Remote-Control Circuits. Where mechanical damage to a remote-control circuit would result in a hazardous condition as outlined in Rule 16-012, all conductors of such remote-control circuits shall be installed in conduit, electrical metallic tubing, or be otherwise suitably protected from mechanical injury or other injurious condition such as moisture, excessive heat, or corrosive action.

16-024 Overcurrent Protection of Class 1 Circuit. Conductors of Class 1 circuits shall be protected against overcurrent in accordance with Section 14 of this Code, except:

(a) Where other rules of this Code specifically permit or require other overcurrent protection;

(b) Where the conductors are of No. 18 or No. 16 AWG, they shall be deemed to be protected when overcurrent devices rated or set at not more than 15 amperes are used;

(c) Where Class 1 circuits have main and "tap-off" circuits and the operating voltage does not exceed 30 volts, the "tap-off" circuits need not be individually protected against overcurrent, provided that the main circuit overcurrent device also affords protection for the "tap-off" circuits; or

(d) Where the current is limited in a Class 1 circuit by means of overcurrent protection, both the protection and its mounting shall be approved for that purpose.

16-026 Location of Overcurrent Devices in Class 1 Circuits

(1) In Class 1 circuits, the overcurrent devices shall be located at the point where the conductor to be protected receives its supply.

(2) Where the overcurrent device protecting a larger conductor also protects a smaller conductor, overcurrent devices may be dispensed with in the smaller conductor.

16-028 Class 1 Circuits Extending Aerially Beyond a Building. Class 1 circuits which extend aerially beyond a building shall comply with Rules 12-248 to 12-266, inclusive.

16-030 Grounding of Class 1 Circuits. Class 1 circuits shall be grounded in accordance with and when required by the provisions of Section 10.

16-032 Transformers Supplying Class 1 Circuits

(1) Transformer devices supplying Class 1 circuits shall be approved for the purpose.

(2) Where overcurrent protection is installed at the secondary terminals of the transformer and the transformer is suitably enclosed, no overcurrent protection is required on the primary side other than the normal overcurrent protection of the branch circuit supplying the transformer.

(3) Transformer devices supplying Class 1 extra-low-voltage power circuits, where the operating voltage is limited to not more than 30 volts, shall be restricted in their rated output to not more than 1,000 volt-amperes.

(4) For the purpose of Subrule (3) a transformer shall be considered to have a 1,000 volt-ampere rating if the approximate temperature limit is reached at a 1,000 volt-ampere load.

Class 2 Circuits

16-034 Methods of Installation on Supply Side of Overcurrent Protection or Energy-Limiting Transformers or Other Devices for Class 2 Circuits

(1) In Class 2 circuits, the conductors and equipment on the supply side of overcurrent protection, transformers, or current-limiting devices shall be installed in accordance with the requirements of other appropriate Sections of this Code.

(2) Where the transformers or other devices are supplied from electric lighting and power circuits, the transformers or devices shall be protected on the supply side by an overcurrent device rated or set in accordance with Section 26 of this Code, but in no case exceeding 15 amperes.

16-036 Methods of Installation on Load Side of Overcurrent Protection, etc. for Class 2 Circuits

(1) In Class 2 circuits, the conductors on the load side of overcurrent protection, transformers, or current-limiting devices shall be insulated and separated from the conductors of electric lighting and power circuits.

(2) Conductors of Class 2 circuits not contained in grounded metallic raceways, conduit, or metallic-sheathed cable, shall be separated by at least 2 inches from any conductors of an electric light or power system unless:

- (a) The electric light or power conductors are contained in a raceway; or
- (b) Either system is encased in approved, non-metallic, flexible tubing, or in porcelain tubes or an equivalent device, in addition to the insulation on the conductors.

(3) The conductors in a Class 2 circuit shall not be placed in any raceway, compartment, outlet, junction box, or similar fitting with the conductors of:

- (a) A Class 1 circuit; or
- (b) Lighting and power circuits,

unless the conductors of the two systems are separated by a suitable barrier.

(4) Subrule (3) shall not apply where the conductors of a power circuit are in the raceway, compartment, outlet, junction box, or similar fitting for the sole purpose of supplying power to the Class 2 circuit, except that no Class 2 conductor installed in a raceway compartment, outlet box, junction box, or similar fitting with such conductors of a power circuit shall show a green-coloured insulation, unless such Class 2 conductor is completely enclosed within a sheathed or jacketed cable assembly throughout the length that is present in such raceway or enclosure.

(5) The conductors of a Class 2 circuit may be run in the same shaft with conductors for lighting and power circuits where:

- (a) The two systems are separated by at least 2 inches; or
- (b) The conductors of either systems are encased in non-metallic flexible tubing.

(6) Where the conductors of a Class 2 circuit are installed in a hoistway, the conductors shall be installed in rigid conduit or electrical metallic tubing, or mineral-insulated or aluminum-sheathed cable shall be used; but, if the mineral-insulated or aluminum-sheathed cable has a non-metallic jacket over the metal sheath, the jacket shall be flame-retarding and moisture resistant.

(7) The kind of insulation for the conductors of Class 2 circuits on the load side of overcurrent protection, transformers or current-limiting devices shall be:

- (a) For Class 2 circuits operating at 30 volts or less, acceptable for the particular application, but is not specified in further detail as reliance is placed upon current limitation to prevent dangerous currents;
- (b) For Class 2 circuits operating at more than 30 volts, suitable for the voltage range and application, and approved for the purpose.

(8) Where 3 or more conductors are used, it is recommended that such conductors be grouped under a common covering except in the case of mineral-insulated cable.

(9) The equipment located on the load side of overcurrent protection, Class 2 transformers or current-limiting devices shall be:

- (a) For Class 2 circuits operating at 30 volts or less, acceptable for the particular application;
- (b) For Class 2 circuits operating at more than 30 volts, suitable for the voltage range and application, approved for the purpose, and arranged so that no energized metal parts are accessible to unauthorized persons.

(10) Where single conductors are used, they shall be of copper not smaller than No. 19 AWG.

16-038 Conductors in a Vertical Run. Where conductors of Class 2 circuits are in a vertical run in a shaft or partition, they shall:

- (a) Have a fire-resistant covering capable of preventing the carrying of fire from floor to floor; or
- (b) Be encased in tubing or other outer covering of non-combustible material; or

- (c) Be located in a fireproof shaft having fire stops at each floor.

16-040 Class 2 Circuits Extending Beyond a Building. Where Class 2 circuits extend beyond a building and are run in such manner as to be subject to accidental contact with lighting or power conductors operating at a potential exceeding 300 volts between conductors, the conductors of the Class 2 circuit shall also meet the requirements of Section 60.

16-042 Overcurrent Protection and Mounting for Class 2 Circuits

(1) Where overcurrent protection is applied to Class 2 circuits in accordance with Rule 16-006, such protection and its mounting shall be approved for the purpose.

(2) Overcurrent protection of different ratings shall not be of an interchangeable type.

(3) The overcurrent protection may be an integral part of a transformer or other power-supply device approved for the purpose.

16-044 Grounding of Class 2 Circuits. Class 2 circuits shall be grounded in accordance with and wehn required by the provisions of Section 10.

SECTION 18—HAZARDOUS LOCATIONS

Scope and Introduction

18-000 Scope

(1) This Section applies to locations in which electrical equipment and wiring are subject to the conditions indicated by the following classifications.

(2) This Section is supplementary to, or amendatory of, the general requirements of this Code.

18-002 Classification. Hazardous locations shall be classified according to the nature of the hazard, as follows:

- (a) Class I locations are those in which flammable gases or vapours are or may be present in the air in quantities sufficient to produce explosive or ignitable mixtures;
- (b) Class II locations are those which are hazardous because of the presence of combustible or electrically conductive dusts; or
- (c) Class III locations are those which are hazardous because of the presence of easily ignitable fibres or flyings, but in which such fibres or flyings are not likely to be in suspension in air in quantities sufficient to produce ignitable mixtures.

18-004 Division of Class I Locations. Class I locations shall be further divided into two divisions as follows:

- (a) Division 1, comprising Class I locations in which:
 - (i) Hazardous concentrations of flammable gases or vapours exist continuously, intermittently, or periodically under normal operating conditions;
 - (ii) Hazardous concentrations of flammable gases or vapours may exist frequently because of repair or maintenance operation or because of leakage; or

- (iii) Equipment is operated or processes carried on of such nature that breakdown or faulty operation thereof could result in the release of hazardous concentrations of flammable gases or vapours and simultaneous failure of electrical equipment; and

(b) Division 2, comprising Class I locations in which:

- (i) Flammable volatile liquids, flammable gases or vapours are handled, processed, or used, but in which the liquids, gases, or vapours are normally confined within closed containers or closed systems from which they can escape only as a result of accidental rupture or breakdown of the containers or systems or the abnormal operation of the equipment by which the liquids or gases are handled, processed or used;
- (ii) Hazardous concentration of gases or vapours are normally prevented by positive mechanical ventilation, but which may become hazardous as the result of failure or abnormal operation of the ventilating equipment; or
- (iii) The location is adjacent to a Class I Division 1, location, from which a hazardous concentration of gases or vapours could be communicated, unless such communication is prevented by adequate positive-pressure ventilation from a source of clean air, and effective safeguards against ventilation failure are provided.

18-006 Division of Class II Locations. Class II locations shall be further divided into two divisions as follows:

- (a) Division 1, comprising Class II locations in which:
 - (i) Combustible dust is or may be in suspension in air continuously, intermittently, or periodically under normal operating conditions in quantities sufficient to produce explosive or ignitable mixtures;
 - (ii) The normal or abnormal operation or the failure of equipment or apparatus might cause explosive or ignitable mixtures to be produced in, or in dangerous proximity to, electrical equipment or apparatus; or
 - (iii) Dusts having the property of conducting electricity may be present; and
- (b) Division 2, comprising Class II locations in which combustible dusts are not normally in suspension in air or likely to be thrown into suspension by the normal or abnormal operation or the failure of equipment or apparatus in quantities sufficient to produce explosive or ignitable mixtures, but in which:
 - (i) Deposits or accumulations of dust may be sufficient to interfere with the safe dissipation of heat from electrical equipment or apparatus; or
 - (ii) Deposits or accumulations of dust on, in, or near electrical equipment may be ignited by arcs, sparks, or burning material from the electrical equipment.

18-008 Division of Class III Locations. Class III locations shall be further divided into two divisions as follows:

- (a) Division 1, comprising Class III locations in which readily ignitable fibres or materials producing combustible flyings are handled, manufactured, or used; and
- (b) Division 2, comprising Class III locations in which readily ignitable fibres other than those in process of manufacture are stored or handled.

General

18-010 Electrical Equipment

(1) Where electrical equipment is required by this Section to be approved for the class of location, it shall also be approved for the specific gas, vapour, or dust that will be present.

(2) Such approval may be indicated by one or more of the following atmospheric group designations which have been established for the purposes of testing and approval:

- (a) Group A, comprising atmospheres containing Acetylene;
- (b) Group B, comprising atmospheres containing hydrogen, or gases or vapours of equivalent hazard such as manufactured gas;
- (c) Group C, comprising atmospheres containing ethyl-ether vapours, ethylene, cyclopropane, or other gases or vapours of equivalent hazard;
- (d) Group D, comprising atmospheres containing gasoline, hexane, naphtha, benzene, butane, propane, alcohol, acetone, benzol, lacquer-solvent vapours, natural gas, or other gases or vapours of equivalent hazard;
- (e) Group E, comprising atmospheres containing metal dust, including aluminum, magnesium, and their commercial alloys, and other metals of similarly hazardous characteristics;
- (f) Group F, comprising atmospheres containing carbon black, coal, or coke dust; or
- (g) Group G, comprising atmospheres containing flour, starch, or grain dust, and other dusts of similarly hazardous characteristics.

18-012 Marking. Electrical equipment approved for use in hazardous locations shall be so marked to indicate the class and group, or the specific gas, vapour, or dust, for which the equipment has been approved.

18-014 Non-essential Electrical Equipment

(1) No electrical equipment shall be used in a hazardous location, unless it is essential to the processes being carried on therein.

(2) Service equipment, panelboards, switchboards, and similar electrical equipment shall, where practicable, be located in rooms or sections of the building in which hazardous conditions do not exist.

18-016 Rooms, Sections, or Areas. Each room, section, or area, including motor- and generator-rooms and rooms for the enclosure of control equipment shall be considered as a separate location for the purpose of determining the classification of the hazard.

18-018 Equipment Rooms

(1) Where walls, partitions, floors or ceilings are used to form hazard-free rooms or sections, they shall be:

- (a) Of substantial construction;
- (b) Built of or lined with noncombustible material; and
- (c) Such as to ensure that the rooms or sections will remain free from hazards.

(2) Where a non-hazardous location communicates with a Class II or Class III location, the locations shall be separated by fire-resisting, substantially dust-tight, self-closing doors.

18-020 Surge Protection. A wiring system in a hazardous location shall be protected against surges by:

- (a) Approved lightning arresters;
- (b) The interconnection of both high- and low-voltage arrester grounding wires and dead metal of the wiring system; and
- (c) Approved surge-protective electrical capacitors.

18-022 Mineral-Insulated Cable

(1) Where mineral-insulated cable other than the light-weight type is used in hazardous locations, the cable terminations shall be made by experienced workmen strictly in accordance with the cable manufacturer's instructions, which shall include an insulation resistance test before the cable is energized to assure that moisture has not entered the mineral insulation prior to the application of the pot seal, and that the conductors have not been short-circuited or grounded while the seal was being prepared.

(2) Where single conductor aluminum-sheathed cable or mineral-insulated cable other than the light-weight type is used in hazardous locations, it shall be installed in such a manner as to prevent sparking between cable sheaths or between cable sheaths and ground, and:

- (a) Cables in the circuit shall be clipped or strapped together, in a manner which will ensure good electrical contact between sheaths, at intervals of not more than 6 feet, and the metal sheaths shall be grounded; or
- (b) Cables in the circuit shall have the metal sheaths continuously covered with insulating material and the metal sheaths shall be bonded and grounded at one end only.

(3) Where mineral-insulated heating cable is used in hazardous locations it shall be specifically approved for the purpose and the hazardous location.

18-024 Motor Overheating Protection. Where 3-phase 3-wire motors are used in hazardous locations and the motor circuit is supplied by:

- (a) Wye-delta connected transformers having the wye neutral point ungrounded or not connected to the circuit; or
- (b) Delta-wye connected transformers,

an overload protective device having three tripping elements, one in each lead, shall be provided, unless the motor is otherwise adequately protected against overheating.

18-026 Air Pressurized Electric Wiring Systems

By special permission, electrical equipment and associated wiring in Class I locations may be so constructed and arranged as to maintain a positive air pressure or inert gas pressure within the enclosures of the electrical equipment and associated wiring, in which case the provisions of Rules 18-032 to 18-094 of this Code need not apply, but such installations shall be made to the satisfaction of the inspection department.

18-028 Intrinsically Safe Electrical Equipment and Wiring

(1) Electrical equipment and associated wiring approved as intrinsically safe may be installed in any hazardous location for which it is approved, and the provisions of Rules 18-032 to 18-214 of this Code need not apply.

(2) Raceways for intrinsically safe wiring and equipment in Class I locations shall be properly sealed to prevent migration of gas or vapour into enclosures or raceways required to be explosion-proof, as well as to other locations.

(3) The conductors in an intrinsically safe circuit shall not be placed in any raceway, compartment, outlet, junction box, or similar fitting with the conductors of any other system, unless the conductors of the two systems are separated by a suitable barrier.

18-030 Cabletroughs and Ventilated Flexible Cableway. Cabletroughs and ventilated flexible cableway shall not be used to support cables in hazardous locations except where:

- (a) The type of cable is approved in rules of this Section for use in the particular hazardous location;
- (b) The type of cable is approved for use in cabletroughs and ventilated flexible cableway in accordance with Rules 12-426 and 12-462 respectively; and
- (c) There can be no hazardous accumulation of combustible process dust or fibre in or upon the cable, the cabletrough, the ventilated flexible cableway, or the supports.

Class I Locations

Installation in Class I, Division 1 Locations

18-032 Transformers and Capacitors, Class I, Division 1

(1) Transformers and electrical capacitors which contain a liquid that will burn shall be installed in electrical equipment vaults in accordance with Rules 26-150 to 26-170, and:

- (a) There shall be no door or other connecting opening between the vault and the hazardous area;
- (b) The vault shall be so ventilated as to ensure the continuous removal of hazardous gases or vapours;

(c) Vent-openings or vent-ducts shall lead to a safe location outside the building containing the vault;

(d) Vent-openings and vent-ducts shall be of sufficient area to relieve pressure caused by explosions within the vault; and

(e) Every portion of a vent-duct within the building shall be constructed of reinforced concrete.

(2) Transformers and electrical capacitors which do not contain a liquid that will burn shall be:

- (a) Installed in electrical equipment vaults conforming to Subrule (1); or
- (b) Of explosion-proof type approved for Class I locations.

18-034 Meters, Instruments, and Relays, Class I, Division 1

(1) Where practicable, meters, instruments, and relays, including kilowatt-hour meters, instrument transformers and resistors, rectifiers and thermionic tubes shall be located outside the hazardous location.

(2) Where it is not practicable to install meters, instruments, and relays outside Class I, Division 1 locations, they shall be provided with explosion-proof enclosures approved for Class I locations.

18-036 Wiring Methods, Class I, Division 1

(1) The wiring method shall be threaded rigid metal conduit or mineral-insulated cable other than the light-weight type with termination fittings approved for the location.

(2) All boxes, fittings, and joints shall be threaded for connection to conduit or cable terminations, and shall be explosion-proof with boxes and fittings approved for Class I locations.

(3) Threaded joints shall have at least 5 full threads fully engaged, and running threads shall not be used for coupling lengths of conduit.

(4) Mineral-insulated cable other than the light-weight type shall be installed and supported in a manner to avoid tensile stress at the termination fittings.

(5) Where it is necessary to use flexible connections at motor terminals and similar places, flexible fittings of the explosion-proof type approved for the location shall be used.

18-038 Sealing, Class I, Division 1

(1) Seals shall be provided in conduit systems to prevent the passage of gases, vapours or flames from one portion of the electrical installation to another through the conduit.

(2) Passage of gases, vapours or flames through mineral-insulated cable other than the light-weight type is inherently prevented by construction of the cable, but sealing compound shall be used in cable termination fittings to exclude moisture and other fluids from the cable insulation, and shall be of a type approved for the conditions of use.

(3) Seals shall be located:

- (a) In each run of conduit entering an enclosure for switches, circuit breakers, fuses, relays, resistors, or other apparatus which may produce arcs,

sparks, or high temperatures and shall be as close as practicable to and in any case not more than 18 inches from the enclosure;

- (b) In each run of conduit of 2-inch size or larger entering an enclosure, terminal box or junction-box within 18 inches of the enclosure or box; and
- (c) In each run of conduit leaving a Class I, Division 1 location with no box, coupling, or fitting in the conduit run between the seal and the point at which the conduit leaves the location.
- (4) Where seals are required, they shall conform to the following:
 - (a) Sealing compound shall be approved for the purpose, shall not be affected by the surrounding atmosphere or liquids, and shall not have a melting point of less than 93° C. (200° F.);
 - (b) In the completed seal, the minimum thickness of the sealing compound shall be not less than the trade size of the conduit, and in no case less than $\frac{5}{8}$ inch;
 - (c) Enclosures for connections or for equipment shall be provided with approved integral means for sealing, or sealing fittings approved for the location shall be used;
 - (d) Splices and taps shall not be made in fittings intended only for sealing with compound, nor shall other fittings in which splices or taps are made be filled with compound;
 - (e) Where there is a probability that liquid or other condensed vapour may be trapped within enclosures for control equipment or at any point in the raceway system, approved means shall be provided to prevent accumulation or to permit periodic draining of such liquid or condensed vapour; and
 - (f) Where the authority enforcing this Code judges that there is a probability that liquid or condensed vapour may accumulate within motors or generators, joints and conduit systems shall be arranged to minimize entrance of liquid, but if means to prevent accumulation or permit periodic draining are judged necessary, such means shall be provided at the time of manufacture, and shall be deemed an integral part of the machine.

18-040 Switches, Motor Controllers, Circuit-Breakers and Fuses, Class I, Division 1. Switches, motor controllers, circuit-breakers and fuses, including push buttons, relays, and similar devices shall be provided with enclosures, and the enclosure in each case together with the enclosed apparatus shall be approved as a complete assembly for use in Class I locations.

18-042 Control Transformers and Resistors, Class I, Division 1. Transformers, impedance coils and resistors used as or in conjunction with control equipment for motors, generators and appliances and the switching mechanism, if any, associated with them, shall be provided with explosion-proof enclosures approved for Class I locations.

18-044 Motors and Generators, Class I, Division 1. Motors, generators and other rotating electrical machines shall be of the explosion-proof type approved for Class I locations.

18-046 Lighting Fixtures, Class I, Division 1

(1) Fixtures for fixed and portable lighting shall be approved as complete assemblies for Class I locations and shall be clearly marked to indicate the maximum wattage of lamps for which they are approved.

(2) Fixtures intended for portable use shall be specifically approved as complete assemblies for that use.

(3) Each fixture shall be protected against physical damage by a suitable guard or by location.

(4) Pendent fixtures shall be:

- (a) Suspended by and supplied through threaded rigid conduit stems, and threaded joints shall be provided with set screws or other effective means to prevent loosening;
- (b) For stems longer than 12 inches, provided with permanent and effective bracing against lateral displacement at a level not more than 12 inches above the lower end of the stem, or provided with flexibility in the form of a fitting or flexible connector approved for the purpose and for the location not more than 12 inches from the point of attachment to the supporting box or fitting.

(5) Boxes, box assemblies or fittings used for the support of lighting fixtures shall be approved for the purpose and for Class I locations.

18-048 Utilization Equipment, Fixed and Portable, Class I, Division 1. Utilization equipment, fixed and portable, including electrically-heated and motor-driven equipment, shall be approved for Class I locations.

18-050 Flexible Cords, Class I, Division 1. Flexible cords may be used only for connection between a portable lamp or other portable utilization equipment and the fixed portion of its supply circuit and where used shall:

- (a) Be of a type approved for extra hard usage;
- (b) Contain, in addition to the conductors of the circuit, a grounding conductor;
- (c) Be connected to terminals or to supply conductors in an approved manner;
- (d) Be supported by clamps or by other suitable means in such a manner that there will be no tension on the terminal connections; and
- (e) Be provided with acceptable seals at the places where the flexible cord enters a box, fitting or enclosure of the explosion-proof type.

18-052 Receptacles and Attachment Plugs, Class I, Division 1. Receptacles and attachment plugs shall be of the type providing for connection to the grounding conductor of the flexible cord, and shall be approved for Class I locations.

18-054 Conductor Insulation, Class I, Division 1. Where condensed vapours or liquids may collect on or come in contact with the insulation on conductors, such insulation shall be of a type approved for use under such conditions or the insulation shall be protected by a sheath of lead or by other approved means.

18-056 Signalling, Alarm, Remote-Control, and Communication Systems, Class I, Division 1

(1) Where all or part of the apparatus and equipment of signalling, alarm, remote-control, and communication systems of any voltage is contained in Class I, Division 1 locations, the apparatus and equipment shall be approved for Class I locations.

(2) The wiring of the system shall comply with Rule 18-036.

18-058 Live Parts, Class I, Division 1. No live parts of electrical equipment or of an electrical installation shall be exposed.

18-060 Grounding and Bonding, Class I, Division 1

(1) Exposed non-current-carrying metal parts of electrical equipment, including the frames or metal exteriors of motors, fixed or portable lamps or other utilization equipment, lighting fixtures, cabinets, cases, and conduit shall be grounded in accordance with Section 10.

(2) Wherever bonding is necessary, including the bonding of conduit in a non-hazardous location used to ground non-current-carrying metal parts in hazardous locations, bonding jumpers with proper fittings or other approved means shall be used, and the locknut and bushing or double-locknut types of contact shall not constitute proper bonding.

Installation in Class I, Division 2 Locations

18-062 Transformers and Capacitors, Class I, Division 2. Transformers and capacitors shall conform to Section 26 of this Code.

18-064 Meters, Instruments, and Relays, Class I, Division 2

(1) Where practicable, meters, instruments, and relays, including kilowatt-hour meters, instrument transformers and resistors, rectifiers and thermionic tubes, shall be located outside the hazardous location.

(2) Where it is not practicable to install meters, instruments, and relays outside Class I, Division 2 locations, they shall conform to the following:

(a) Meters, instruments, and relays in which are incorporated contacts for making or breaking current shall be provided with explosion-proof enclosures approved for Class I locations, but general-purpose enclosures may be used where the contacts are:

(i) Immersed in oil; or

(ii) Enclosed within a chamber hermetically sealed against the entrance of gases or vapours; or

(iii) In acceptable non-incendive circuits;

(b) Resistors, resistance devices, thermionic tubes, and rectifiers, which are used in or in connection with meters, instruments, and relays, shall be provided with explosion-proof enclosures approved for Class I locations, except that enclosures may be of the general-purpose type when such equipment is without make and break or sliding contacts (other than contacts used in conjunction with thermo-couples or in

other non-incendive circuits) and when in the opinion of an inspector the maximum operating temperature of any exposed surface will not exceed 80 per cent of the ignition temperature in degrees Centigrade of the gas or vapour present;

(c) Transformer windings, impedance coils, solenoids, and other windings which do not incorporate sliding, or make and break contacts, shall be provided with enclosures which may be of the general-purpose type where vents adequate to permit prompt escape of any gases or vapours are provided; and

(d) Where an assembly is made up of components for which general-purpose enclosures are acceptable by this Rule:

(i) A single general-purpose enclosure may be provided for the assembly; and

(ii) Where such an assembly includes any of the equipment described in paragraph (b) the maximum obtainable surface temperature of any component of the assembly shall be clearly and permanently indicated on the outside of the enclosure, unless the complete assembly is approved for the location.

18-066 Wiring Methods, Class I, Division 2

(1) The wiring method shall be threaded rigid metal conduit, or mineral-insulated cable other than the light-weight type with termination fittings approved for Class I locations.

(2) Mineral-insulated cable other than the light-weight type shall be installed and supported in a manner to avoid tensile stress at the termination fittings.

(3) Where it is necessary to use flexible connections at motor terminals and similar places, flexible conduit may be used.

(4) Boxes, fittings and joints need not be explosion-proof except as required by Rule 18-068(4).

18-068 Sealing, Class I, Division 2

(1) Seals shall be provided in conduit systems to prevent the passage of gases, vapours, or flames from one portion of the electrical installation to another through the conduit.

(2) Passage of gases, vapours, or flames through mineral-insulated cable other than the light-weight type is inherently prevented by construction of the cable, but sealing compound shall be used in cable termination fittings to exclude moisture and other fluids from the cable insulation, and shall be of a type approved for the conditions of use.

(3) Seals shall be located:

(a) In each run of conduit entering an enclosure which is required to be explosion-proof, as close as practicable to, and in any case not more than 18 inches from, the enclosures; and

(b) In each run of conduit leaving the hazardous location with no box, coupling, or fitting in the conduit run between the seal and the point at which the conduit leaves the location.

(4) Where a run of conduit enters an enclosure which is required to be explosion-proof, every part of the conduit from the seal to the explosion-proof enclosure shall comply with Rule 18-036.

(5) Where seals are required, Rule 18-038 (4) shall apply.

18-070 Switches, Controllers, and Circuit Breakers Class I, Division 2. Where circuit breakers, controllers and switches are intended to interrupt electrical current in the normal performance of the function for which they are installed, they shall be provided with enclosures approved for Class I locations, unless general-purpose enclosures are provided and:

- (a) The interruption of current occurs within a chamber hermetically sealed against the entrance of gases and vapours; or
- (b) The current-interrupting contacts are immersed in oil, and the device is approved for locations of this class and division.

18-072 Isolating Switches, Class I, Division 2. Isolating switches shall conform to the following:

- (a) They shall be so interlocked with their associated current-interrupting devices that they cannot be opened under load; and
- (b) They may have enclosures of the general-purpose type, provided they are unfused.

18-074 Fuses for Motors, Appliances, and Portable Lamps, Class I, Division 2. Where fuses are used in Class I, Division 2 locations for the protection of motors, appliances, and portable lamps:

- (a) A standard plug fuse or cartridge fuse may be used if placed within an explosion-proof enclosure approved for the class of the location; or
- (b) A fuse of a type in which the operating element is immersed in oil or other approved liquid, or is enclosed within a chamber hermetically sealed against the entrance of gases and vapours, may be used if approved for the purpose and placed within a general-purpose enclosure.

18-076 Sets of Fuses or Circuit Breakers for Fixed Lighting, Class I, Division 2.

(1) In this Rule, "sets of fuses" means a group containing as many fuses as are required to perform a single protective function in a circuit, but excluding fuses conforming to Rule 18-074.

(2) Where:

- (a) Not more than 10 sets of approved enclosed fuses; or
- (b) Not more than 10 circuit breakers which are not used as switches for the normal operation of the lamps,

are installed in Class I, Division 2 locations for the protection of a branch circuit or a feeder circuit which supplies only lamps in a fixed position, the enclosures for the fuses or circuit breakers may be of the general-purpose type.

18-078 Control Transformers and Resistors, Class I, Division 2

(1) Where switching mechanisms are used in conjunction with transformers, impedance coils, or resistors, they shall comply with Rule 18-070.

(2) The enclosures for the windings of transformers or impedance coils may be of the general-purpose type but shall be provided with vents adequate to permit the prompt escape of gases or vapours which may enter the enclosure.

(3) Resistors shall be provided with explosion-proof enclosures approved as complete assemblies with the resistors for Class I locations unless the resistance is non-variable and in the opinion of an inspector the maximum operating temperature in degrees Centigrade will not exceed 80 per cent of the ignition temperature of the gas or vapour present.

18-080 Motors and Generators, Class I, Division 2

(1) Motors, generators, and other rotating electrical machines, in which are incorporated arcing or spark producing components or integral resistance devices shall be of the explosionproof type approved for Class I locations unless the arcing or spark producing components or integral resistance devices are provided with enclosures approved for Class I locations.

(2) Motors, generators, and other rotating electrical machines which do not incorporate arcing or spark producing components or integral resistance devices may be of the open or non-explosionproof type.

18-082 Lighting Fixtures, Class I, Division 2

(1) Lighting fixtures shall conform to the following:

- (a) Portable lamps shall conform to Rule 18-046 (1) and (2); and
- (b) Fixed lighting:
 - (i) Shall be protected from physical damage by acceptable guards or by location;
 - (ii) Shall be approved as complete assemblies for Class I, Division 2 locations and shall be clearly marked to indicate the maximum wattage, voltage, and specific type designations of the lamps for which they are approved.

(2) Pendant fixtures shall be:

- (a) Suspended by threaded rigid conduit stems or by other approved means;
- (b) For stems longer than 12 inches, provided with permanent and effective bracing against lateral displacement at a level not more than 12 inches above the lower end of the stem, or flexibility in the form of a fitting or flexible connector approved for the purpose shall be provided not more than 12 inches from the point of attachment to the supporting box or fitting.

(3) Boxes, box assemblies, or fittings used for the support of lighting fixtures shall be approved for the purpose.

(4) Switches which are part of an assembled fixture or of an individual lampholder shall conform to Rule 18-070.

(5) Starting and control equipment for mercury-vapour and fluorescent lamps shall conform to Rule 18-078.

18-084 Utilization Equipment, Fixed and Portable, Class I, Division 2

(1) Electrically heated utilization equipment, whether fixed or portable, shall be approved for Class I locations.

(2) Motors of motor-driven utilization equipment shall conform to Rule 18-080.

(3) Switches, circuit breakers, and fuses forming part of or used in connection with utilization equipment shall conform to Rules 18-074.

18-086 Flexible Cords, Class I, Division 2. Flexible cords shall conform to Rule 18-050.

18-088 Receptacles and Attachment Plugs, Class I, Division 2. Receptacles and attachment plugs shall conform to Rule 18-052.

18-090 Signalling, Alarm, Remote Control, and Communication Systems, Class I, Division 2

(1) Switches and circuit breakers, and make-and-break contacts of push buttons, relays, and alarm bells or horns shall have explosion-proof enclosures approved for Class I locations, unless general-purpose enclosures are provided and current-interrupting contacts are:

- (a) Immersed in oil; or
- (b) Enclosed within a chamber hermetically sealed against the entrance of gases or vapours; or
- (c) In acceptable non-incendive circuits.

(2) Resistors, resistance devices, thermionic tubes, and rectifiers used in a Class I, Division 2 location shall conform to Rule 18-064 (2) (b).

(3) Enclosures, which may be of the general-purpose type, shall be provided for lightning protective devices and for fuses.

18-092 Live Parts, Class I, Division 2. No live parts of electrical equipment or of an electrical installation shall be exposed.

18-094 Grounding and Bonding, Class I, Division 2

(1) Electrical equipment shall be grounded in the manner required by Rule 18-060.

(2) Where flexible conduit is used as permitted in Rule 18-066 (3), bonding jumpers with proper fittings shall be provided around such conduit.

Class II Locations

Installations in Class II, Division 1 Locations

18-096 Transformers and Capacitors, Class II, Division 1

(1) Transformers and electrical capacitors which contain a liquid that will burn shall be installed in electrical equipment vaults in accordance with Rules 26-156 to 26-170, and:

- (a) Doors or other openings communicating with the hazardous area shall have self-closing fire doors on both sides of the wall, and the doors shall be carefully fitted and provided with suitable seals (such as weather stripping) to minimize the entrance of dust into the vault;

(b) Vent openings and ducts shall communicate only with the air outside the building; and

(c) Suitable pressure-relief openings communicating only with the air outside the building shall be provided.

(2) Transformers and electrical capacitors which do not contain a liquid that will burn shall be:

- (a) Installed in electrical equipment vaults conforming to Subrule (1); or
- (b) Approved as a complete assembly including terminal connections for Class II locations.

(3) No transformer or capacitor shall be installed in a location where dust from magnesium, aluminum, aluminum bronze powders, or other metals of similarly hazardous characteristics may be present.

18-098 Wiring Methods, Class II, Division 1

(1) The wiring methods shall be threaded rigid metal conduit, mineral-insulated cable other than the light-weight type with termination fittings approved for the location, or aluminum-sheathed cable with termination fittings approved for the location.

(2) Boxes, fittings and joints shall be threaded for connection to conduit or cable terminations, and boxes and fittings shall be approved for Class II locations.

(3) Mineral-insulated cable other than the light-weight type and aluminum-sheathed cable shall be installed and supported in a manner to avoid tensile stress at the termination fittings.

(4) Where it is necessary to use flexible connections, flexible connection fittings approved for the location, or flexible cord approved for extra-hard usage and provided with bushed fittings on each end approved for the location shall be used.

(5) Where flexible connections are subject to oil or other corrosive conditions, the insulation of the conductors shall be of a type approved for the condition or shall be protected by means of a suitable sheath.

(6) Where flexible cords are used, they shall incorporate a grounding conductor.

18-100 Sealing, Class II, Division 1. Where a raceway provides communication between an enclosure which is required to be dust-tight and one which is not, the entrance of dust into the dust-tight enclosure through the raceway shall be prevented by:

- (a) A permanent and effective seal;
- (b) A horizontal section not less than 10 feet long in the raceway; or
- (c) A vertical section of raceway not less than 5 feet long and extending downward from the dust-tight enclosure.

18-102 Switches, Controllers, Circuit Breakers, and Fuses, Class II, Division 1. Switches, motor controllers, circuit breakers, and fuses, including push buttons, relays, and similar devices shall be provided with a dust-tight enclosure approved for Class II locations.

18-104 Control Transformers and Resistors, Class II, Division 1. Transformers, impedance coils, and resistors used as or in conjunction with control equipment for motors, generators or electric appliances and the overcurrent devices or switching mechanisms, if any, associated with them shall be provided with a dust-tight enclosure approved for Class II locations.

18-106 Motors and Generators, Class II, Division 1. Motors, generators, and other rotating electrical machines shall be approved for Class II locations.

18-108 Ventilating Pipes, Class II, Division 1

(1) Every vent pipe for a motor, generator, or other rotating electrical machine or for enclosures for electrical apparatus or equipment shall:

- (a) Be of metal or of an equally substantial non-combustible material;
- (b) If of metal, be not less than 0.0209 inch (No. 24 MSG) thick;
- (c) Lead directly to a source of clean air outside a building;
- (d) Be screened at the outer end to prevent the entrance of animals or birds; and
- (e) Be protected against mechanical damage and corrosion.

(2) Every vent pipe and its connection to a motor or to a dust-tight enclosure for other equipment or apparatus shall be dust-tight throughout its entire length.

(3) The seams and joints of every metal vent pipe shall be:

- (a) Riveted and soldered;
- (b) Bolted and soldered;
- (c) Welded; or
- (d) Rendered dust-tight by some other equally effective means.
- (4) No exhaust pipe shall discharge inside a building.

18-112 Lighting Fixtures, Class II, Division 1

(1) Fixtures for fixed and portable lighting shall be approved as complete assemblies for Class II locations and shall be clearly marked to indicate the maximum wattage of lamps for which they are approved.

(2) Fixtures intended for portable use shall be specifically approved as complete assemblies for that use.

(3) Each fixture shall be protected against physical damage by a suitable guard or by location.

(4) Pendent fixtures shall be:

- (a) Suspended by threaded rigid conduit stems or chains with approved fittings or by other approved means which shall not include a flexible cord as the supporting medium, and threaded joints shall be provided with set screws or other effective means to prevent loosening;

- (b) For rigid stems longer than 12 inches, provided with permanent and effective bracing against lateral displacement at a level not more than 12

inches above the lower end of the stem, or provided with flexibility in the form of a fitting or flexible connector approved for the purpose and for the location not more than 12 inches from the point of attachment to the supporting box or fitting; and

- (c) Where wiring between an outlet box or fitting and the fixture is not enclosed in conduit, provided with a flexible cord approved for extra hard usage and suitable seals where the cord enters the fixture and the outlet box or fitting.

(5) Boxes, box assemblies or fittings used for the support of lighting fixtures shall be approved for the purpose and Class II locations.

18-114 Flexible Cords, Class II, Division 1. Flexible cords used shall:

- (a) Be of a type approved for extra hard usage;
- (b) Contain a grounding conductor in addition to the conductors of the circuit;
- (c) Be supported by clamps or by other suitable means so there is no tension on the terminal connections; and
- (d) Be provided with suitable seals to prevent the entrance of dust at the point where the cord enters a box or fitting which is required by this Section to be dust-tight.

18-116 Receptacles and Attachment Plugs, Class II, Division 1. Receptacles and attachment plugs shall be approved for Class II locations.

18-118 Signalling, Alarm, Remote-Control, and Communication Systems, Class II, Division 1

(1) Where all or part of the apparatus and equipment of signalling, alarm, remote control, and communication systems is contained in Class II, Division 1 locations, the apparatus and equipment shall be provided with dust-tight enclosures approved for Class II locations, except that:

- (a) Devices which carry or interrupt only a voice current need not be provided with such enclosures; and
- (b) Current-breaking contacts which are immersed in oil or enclosed in a chamber sealed against the entrance of dust may be provided with a general-purpose enclosure if the prevailing dust is electrically non-conductive.

(2) The wiring of the system shall comply with Rule 18-098.

(3) Any number of conductors may be placed in a raceway but the cross-sectional area of all conductors in the raceway shall not exceed 40 per cent of the area of the raceway.

18-120 Live Parts, Class II, Division 1. No live parts of electrical equipment or of an electrical installation shall be exposed.

18-122 Grounding and Bonding, Class II, Division 1

Electrical equipment shall be grounded in the manner prescribed by Rule 18-060.

Installation in Class II, Division 2 Locations

18-124 Transformers and Capacitors, Class II, Division 2

(1) Transformers and electrical capacitors which contain a liquid that will burn shall be installed in electrical equipment vaults in accordance with Rules 26-156 to 26-170.

(2) Transformers and electrical capacitors which contain a liquid that will not burn shall be:

(a) Installed in electrical equipment vaults in accordance with Rules 26-156 to 26-170; or

(b) Approved for Class II locations.

(3) Dry core transformers installed in Class II, Division 2 locations shall:

(a) Be installed in electrical equipment vaults in accordance with Rules 26-156 to 26-170, or

(b) Have their windings and terminal connections enclosed in tight metal housings without ventilating or other openings and operate at not more than 750 volts.

18-126 Wiring Methods, Class II, Division 2

(1) The wiring method shall be rigid metal conduit, mineral-insulated cable other than the light-weight type with termination fittings approved for the location, or aluminum-sheathed cable with termination fittings approved for the location.

(2) Boxes and fittings in which taps, joints or terminal connections are made shall be designed to minimize the entrance of dust, and shall:

(a) Be provided with telescoping or close-fitting covers, or other effective means to prevent the escape of sparks or burning material; and

(b) Have no openings, such as holes for attachment screws, through which, after installation, sparks or burning material might escape, or through which exterior accumulations of dust or adjacent combustible material might be ignited.

(3) Mineral-insulated cable other than the light-weight type and aluminum-sheathed cable shall be installed and supported in a manner to avoid tensile stress at the termination fittings.

(4) Where it is necessary to use flexible connections the provisions of Rule 18-098 (4), (5), (6) shall apply.

18-128 Sealing, Class II Division 2. Sealing of raceways shall conform to Rule 18-100.

18-130 Switches, Controllers, Circuit Breakers, and Fuses, Class II, Division 2

(1) Except as provided by Subrule (2), switches, motor controllers, circuit breakers and fuses, including push buttons, relays and similar devices shall be provided with tight metal enclosures which shall be designed to minimize the entrance of dust, and which shall:

(a) Be equipped with telescoping or close-fitting covers, or with other effective means to prevent the escape of sparks or burning material; and

(b) Have no openings, such as holes for attachment screws, through which, after installation, sparks or burning material might escape, or through which exterior accumulations of dust or adjacent combustible material might be ignited.

(2) In locations where dust from magnesium, aluminum, aluminum bronze powders, or other metals of similarly hazardous characteristics may be present, switches, motor controllers, circuit breakers and fuses shall have dust-tight enclosures approved for such locations.

18-132 Control Transformers and Resistors, Class II, Division 2

(1) Switching mechanisms, including overcurrent devices, used in conjunction with control transformers, impedance coils, and resistors shall be provided with enclosures conforming to Rule 18-130.

(2) Where not located in the same enclosure with switching mechanisms, control transformers and impedance coils shall be provided with tight metal housings without ventilating openings.

(3) Resistors and resistance devices shall have dust-tight enclosures approved for Class II locations, except that where the maximum normal operating temperature of the resistor will not exceed 120°C. (248°F.), non-adjustable resistors and resistors which are part of an automatically timed starting sequence may have enclosures conforming to Subrule (2).

18-134 Motors and Generators, Class II, Division 2

(1) Except as provided in Subrule (2), motors, generators, and other rotating electrical machinery shall be:

(a) Totally enclosed non-ventilated;

(b) Totally enclosed pipe-ventilated; or

(c) Totally enclosed fan-cooled.

(2) Where, in the judgment of an inspector, only moderate quantities of non-conducting, non-abrasive dust are likely to accumulate in a location and the equipment in the location is readily accessible for routine maintenance, there may be installed in the location:

(a) Standard open-type machines without sliding contacts, centrifugal or other types of switching mechanism, including motor-overcurrent devices or integral resistance-devices; or

(b) Standard open-type machines which have the contacts, switching mechanisms, or resistance devices enclosed in accordance with Rule 18-130.

18-136 Ventilation Pipes, Class II, Division 2

(1) Vent pipes for motors, generators, or other rotating electrical machinery, or for enclosures for electrical apparatus or equipment, shall conform to Rule 18-108 (1).

(2) Vent pipes and their connections shall be sufficiently tight to prevent the entrance of appreciable quantities of dust into the ventilated equipment or enclosure, and to prevent the escape of sparks, flame or burning material which might ignite accumulations of dust or combustible material in the vicinity.

(3) Where metal vent pipes are used, lock seams and riveted or welded joints may be used and, where some flexibility is necessary, as at connections to motors, tight-fitting slip joints may be used.

18-138 Utilization Equipment, Fixed and Portable, Class II, Division 2

(1) Electrically heated utilization equipment, whether fixed or portable, shall be approved for Class II locations.

(2) Motors of motor-driven utilization equipment shall conform to Rule 18-134.

(3) The enclosure for switches, circuit breakers, and fuses shall conform to Rule 18-130.

(4) Transformers, impedance coils, and resistors forming part of or used in connection with utilization equipment shall conform to Rule 18-132 (2), (3).

(5) Where portable utilization equipment may be used in Class II, Division 1 locations and in Class II, Division 2 locations, it shall conform to Rule 18-110.

18-140 Lighting Fixtures, Class II, Division 2

(1) Lighting fixtures shall conform to the following:

(a) Portable lamps shall be approved as complete assemblies for Class II locations and shall be clearly marked to indicate the maximum wattage of lamps for which they are approved; and

(b) Fixed lighting, shall:

(i) Be protected from physical damage by acceptable guards or by location;

(ii) Provide enclosures for lamps and lamp-holders which shall be designed to minimize the deposit of dust on lamps and to prevent the escape of sparks, burning material or hot metal;

(iii) Be clearly marked to indicate the maximum wattage of lamps for which they may be used without exceeding a maximum exposed surface temperature of 165°C. (329°F.) under normal conditions of use.

(2) Pendent fixtures shall be:

(a) Suspended by threaded rigid conduit stems or chains with approved fittings, or by other approved means, which shall not include flexible cord as the supporting medium;

(b) For rigid stems longer than 12 inches, provided with permanent and effective bracing against lateral displacement at a level not more than 12 inches above the lower end of the stem, or provided with flexibility in the form of a fitting or flexible connector approved for the purpose not more than 12 inches from the point of attachment to the supporting box or fitting; and

(c) Where wiring between an outlet box or fitting and the fixture is not enclosed in conduit, provided with a flexible cord approved for extra hard usage.

(3) Boxes, box assemblies or fittings used for the support of lighting fixtures shall be approved for that purpose.

(4) Starting and control equipment for mercury vapour and fluorescent lamps shall conform to Rule 18-132.

18-142 Flexible Cords, Class II, Division 2. Flexible cords shall conform to Rule 18-114.

18-144 Receptacles and Attachment Plugs, Class II, Division 2. Receptacles and attachment plugs shall be:

(a) Of a polarized type which affords automatic connection to the grounding conductor of the flexible supply cord; and

(b) Designed so that the connection to the supply circuit cannot be made or broken while live parts are exposed.

18-146 Signalling, Alarm, Remote Control, and Communication Systems, Class II, Division 2. Where all or part of the apparatus and equipment of signalling, alarm, remote control, and communication systems is contained in Class II, Division 2 locations:

(a) Contacts which interrupt other than voice currents shall be enclosed in conformity with Rule 18-130;

(b) The windings and terminal connections of transformers and choke coils which may carry other than voice currents shall be provided with tight metal enclosures without ventilating openings; and

(c) Resistors, resistance devices, thermionic tubes, and rectifiers which may carry other than voice currents shall be provided with dust-tight enclosures approved for Class II locations, except that where the maximum normal operating temperature of thermionic tubes, non-adjustable resistors or rectifiers will not exceed 120°C. (248°F.), such devices may have tight metal enclosures without ventilating openings.

18-148 Live Parts, Class II, Division 2. No live parts of electrical equipment or of an electrical installation shall be exposed.

18-150 Grounding and Bonding, Class II, Division 2. All electrical equipment shall be grounded in the manner required by Rule 18-060.

Class III Locations

Installation in Class III, Division 1 Locations

18-152 Transformers and Capacitors, Class III, Division 1. Transformers and electrical capacitors shall conform to Rule 18-124.

18-154 Wiring Methods, Class III, Division 1

(1) The wiring method shall be rigid metal conduit, mineral-insulated cable other than the light-weight type with termination fittings approved for the location, or aluminum-sheathed cable with termination fittings approved for the location.

(2) Boxes and fittings in which taps, joints, or terminal connections are made shall:

(a) Be provided with telescoping or close fitting covers, or other effective means to prevent the escape of sparks or burning material; and

- (b) Have no openings, such as holes for attachment screws, through which, after installation, sparks or burning material might escape, or through which adjacent combustible material might be ignited.
- (3) Where it is necessary to use flexible connections, the provisions of Rule 18-098 (4), (5), and (6) shall apply.

18-156 Switches, Controllers, Circuit Breakers and Fuses, Class III, Division 1. Switches, motor controllers, circuit breakers, and fuses, including push buttons, relays and similar devices, shall be provided with tight metal enclosures designed to minimize entrance of fibres and flyings, and which shall:

- (a) Be equipped with telescoping or close fitting covers, or with other effective means to prevent escape of sparks or burning material; and
- (b) Have no openings, such as holes for attachment screws, through which, after installation, sparks or burning material might escape or through which exterior accumulations of fibres or flyings or adjacent combustible material might be ignited.

18-158 Control Transformers and Resistors, Class III, Division 1. Transformers, impedance coils, and resistors used as or in conjunction with control equipment for motors, generators, and appliances, shall conform to Rule 18-132, with the exception that, when these devices are in the same enclosure with switching devices of such control equipment, and are used only for starting or short-time duty, the enclosure shall conform to the requirements of Rule 18-156.

18-160 Motors and Generators, Class III, Division I

(1) Except as provided in Subrule (2), motors, generators, and other rotating electrical machinery shall be:

- (a) Totally enclosed non-ventilated;
- (b) Totally enclosed pipe-ventilated; or
- (c) Totally enclosed fan-cooled.

(2) Where, in the judgment of an inspector, only moderate accumulations of lint and flyings are likely to collect on, in, or in the vicinity of a rotating electrical machine and the machine is readily accessible for routine cleaning and maintenance, there may be installed in the location:

- (a) Standard open-type machines without sliding contacts, centrifugal, or other types of switching mechanism, including motor overload devices;
- (b) Standard open-type machines which have contacts, switching mechanisms, or resistance devices enclosed within tight metal housings without ventilating or other openings; or
- (c) Self-cleaning textile motors of the squirrel-cage type.

(3) Motors, generators, or other rotating electrical machinery of the partially enclosed or splash-proof type shall not be installed in Class III locations.

18-162 Ventilating Pipes, Class III, Division 1

(1) Vent pipes for motors, generators, or other rotating electrical machinery or for enclosures for electrical apparatus or equipment shall conform to Rule 18-108 (1).

(2) Vent pipes and their connections shall be sufficiently tight to prevent the entrance of appreciable quantities of fibres or flyings into the ventilated equipment or enclosure, and to prevent the escape of sparks, flame, or burning material which might ignite accumulations of fibres or flyings or combustible material in the vicinity.

(3) Where metal vent pipes are used, lock seams and riveted or welded joints may be used and, where some flexibility is necessary, tight-fitting slip joints may be used.

18-164 Utilization Equipment, Fixed and Portable, Class III, Division 1

(1) Electrically heated utilization equipment, whether fixed or portable, shall be approved for Class III locations.

(2) Motors of a motor-driven utilization equipment shall conform to Rule 18-192.

(3) The enclosures for switches, motor controllers, circuit breakers, and fuses shall conform to Rule 18-156.

18-166 Lighting Fixtures, Class III, Division 1

(1) Lighting fixtures shall conform to the following:

(a) Portable lamps shall:

- (i) Be equipped with handles;
- (ii) Be protected with substantial guards;
- (iii) Have lampholders of the unswitched type with no exposed metal parts and without provision for receiving attachment plugs; and
- (iv) In all other aspects comply with Rule 18-166 (1) (b).

(b) Fixed lighting shall:

- (i) Provide enclosures for lamps and lampholders which shall be designed to minimize entrance of fibres and flyings and to prevent the escape of sparks, burning material, or hot metal;
- (ii) Be clearly marked to indicate the maximum wattage lamp which may be used without exceeding a maximum exposed surface temperature of 165°C. (329°F.) under normal conditions of use.

(2) Lighting fixtures which may be exposed to physical damage shall be protected by a suitable guard.

(3) Pendant fixtures shall comply with Rule 18-140 (2).

(4) Boxes, box assemblies or fittings used for the support of lighting fixtures shall be approved for that purpose.

(5) Starting and control equipment for mercury vapour and fluorescent lamps shall comply with Rule 18-158.

18-168 Flexible Cords, Class III, Division 1. Flexible cords shall comply with Rule 18-114.

18-170 Receptacles and Attachment Plugs, Class III, Division 1. Receptacles and attachment plugs shall comply with Rule 18-144.

18-172 Signalling, Alarm, Remote-Control, and Communication Systems, Class III, Division 1. Signalling, alarm, remote-control, and communication systems shall comply with Rule 18-146.

18-174 Electric Cranes and Hoists, and Similar Equipment, Class III, Division 1. Where installed for operation over combustible fibres or accumulations of flyings, travelling cranes and hoists for material handling, travelling cleaners for textile machinery, and similar equipment shall conform to the following:

- (a) Power supply to contact conductors shall be isolated from all other systems and shall be ungrounded, and shall be equipped with an acceptable recording ground detector which will give an alarm and will automatically de-energize the contact conductors in case of a fault to ground, or with an acceptable ground fault indicator which will give a visual and audible alarm, and maintain the alarm as long as power is supplied to the system and the ground fault remains;
- (b) Contact conductors shall be so located or guarded as to be inaccessible to other than authorized persons, and shall be protected against accidental contact with foreign objects.
- (c) Current collectors shall conform to the following:
 - (i) They shall be arranged or guarded to confine normal sparking and to prevent escape of sparks or hot particles;
 - (ii) To reduce sparking, two or more separate surfaces of contact shall be provided for each contact conductor; and
 - (iii) Reliable means shall be provided to keep contact conductors and current collectors free of accumulations of lint or flyings.
- (d) Control equipment shall comply with Rules 18-156 and 18-158.

18-176 Electric Trucks, Class III, Division 1. Electric trucks shall be of an acceptable type.

18-178 Storage-Battery Charging Equipment, Class III, Division 1. Storage-battery charging equipment shall be located in separate rooms built or lined with substantial noncombustible materials so constructed as to adequately exclude flyings or lint, and shall be well ventilated.

18-180 Live Parts, Class III, Division 1. No live parts of electrical equipment or of an electrical installation shall be exposed, except as provided in Rule 18-174.

18-182 Grounding and Bonding, Class III, Division 1. Electrical equipment shall be grounded as prescribed by Rule 18-150.

Installation in Class III, Division 2 Locations

18-184 Transformers and Capacitors, Class III, Division 2. Transformers and capacitors shall conform to Rule 18-124.

18-186 Wiring Method, Class III, Division 2. The wiring method in Class III, Division 2 locations shall conform to Rule 18-154 except that in sections, compartments, or areas used solely for storage and containing no machinery, open wiring or insulators in accordance with Rules 12-034 to 12-056 may be used, provided that, where conductors are installed elsewhere

than in roof spaces and remote from physical damage, they shall be protected as required by Rules 12-044 and 12-046.

18-188 Switches, Controllers, Circuit Breakers, and Fuses, Class III, Division 2. Switches, motor controllers, circuit breakers, and fuses shall conform to Rule 18-156.

18-190 Control Transformers and Resistors, Class III, Division 2. Transformers, impedance coils, and resistors used as or in conjunction with control equipment for motors, generators and appliances shall conform to Rule 18-158.

18-192 Motors and Generators, Class III, Division 2.

(1) Motors, generators, and other rotating electrical machinery shall be:

- (a) Totally enclosed non-ventilated;
- (b) Totally enclosed pipe-ventilated; or
- (c) Totally enclosed fan-cooled.

(2) Motors, generators, or other rotating electrical machinery of the partially enclosed or splash-proof type shall not be installed in Class III locations.

18-194 Ventilating Pipes, Class III, Division 2. Ventilating pipes shall conform to Rule 18-108 (1).

18-196 Utilization Equipment, Fixed and Portable, Class III, Division 2. Fixed or portable utilization equipment shall conform to Rule 18-164.

18-198 Lighting Fixtures, Class III, Division 2. Lighting fixtures shall conform to Rule 18-166.

18-200 Flexible Cords, Class III, Division 2. Flexible cords shall conform to Rule 18-114.

18-202 Receptacles and Attachment Plugs, Class III, Division 2. Receptacles and attachment plugs shall conform to Rule 18-144.

18-204 Signalling, Alarm, Remote-Control, and Communication Systems, Class III, Division 2. Signalling, alarm, remote-control, and communication systems shall conform to Rule 18-146.

18-206 Electric Cranes and Hoists and Similar Equipment, Class III, Division 2. Electric cranes and hoists and similar equipment shall be installed as prescribed by Rule 18-174.

18-208 Electric Trucks, Class III, Division 2. Electric trucks shall conform to Rule 18-176.

18-210 Storage-Battery Charging Equipment, Class III, Division 2. Storage-battery charging equipment shall be located in rooms conforming to Rule 18-178.

18-212 Live Parts, Class III, Division 2. No live parts of electrical equipment or of an electrical installation shall be exposed, except as provided in Rule 18-206.

18-214 Grounding and Bonding, Class III, Division 2. Equipment shall be grounded in conformity with Rule 18-182.

SECTION 20—GASOLINE DISPENSING AND SERVICE STATIONS, GARAGES, BULK STORAGE PLANTS, FINISHING PROCESSES, AND AIRCRAFT HANGARS

20-000 Scope. This Section is supplementary to, or amendatory of, the general requirements of this Code and applies to the following installations:

- (a) Gasoline dispensing and service stations—Rules 20-002 to 20-014;
- (b) Commercial garages, repair and storage—Rules 20-100 to 20-114;
- (c) Residential storage garages—Rules 20-200 to 20-206;
- (d) Bulk storage plants—Rules 20-300 to 20-312;
- (e) Finishing processes—Rules 20-400 to 20-412; and
- (f) Aircraft hangars—Rules 20-500 to 20-522.

Gasoline Dispensing and Service Stations

20-002 General

(1) Rules 20-002 to 20-014 inclusive apply to electrical apparatus and wiring installed in gasoline dispensing and service stations, and other locations where gasoline or other similar volatile flammable liquids are dispensed or transferred to the fuel tanks of self-propelled vehicles.

(2) Other areas used as lubricatoriums, service rooms and repair rooms, and offices, salesrooms, compressor rooms and similar locations shall conform to Rules 20-100 to 20-114 with respect to electrical wiring and equipment.

20-004 Hazardous Areas

(1) The space within the dispenser up to 4 feet from its base and the space within 18 inches extending horizontally from the dispenser up to 4 feet from its base shall be considered a Class I, Division 1 location, and shall include the space below the dispenser which may contain electrical wiring or equipment.

(2) In an outside location, any area beyond the Class I, Division 1 area (and in buildings not suitably cut off) within 20 feet horizontally from the exterior enclosure of any dispensing pump, shall be considered a Class I, Division 2 location, which shall extend upward to a level 18 inches above driveway or ground level.

(3) In an outside location, any area beyond the Class I, Division 1 location (and in buildings not suitably cut off) within 10 feet horizontally from any tank fill-pipe shall be considered a Class I, Division 2 location which shall extend upward to a level 18 inches above driveway or ground level.

(4) Electrical wiring and equipment, any portion of which is below the surface of areas defined as Class I, Division 1 or Division 2 locations in Subrules (1), (2), or (3) shall be deemed to be within a Class I, Division 1 location which shall extend at least to the point of emergence above grade.

(5) Areas within the vicinity of tank vent-pipes shall be classified as follows:

- (a) The spherical volume within a 3 foot radius from the point of discharge of any tank vent-pipe shall be considered a Class I, Division 1 location

and the volume between the 3 foot to 5 foot radius from the point of discharge of a vent shall be considered a Class I, Division 2 location;

- (b) For any vent that does not discharge upward, the cylindrical volume below both the Division 1 and Division 2 locations extending to the ground shall be considered a Class I, Division 2 location; and
- (c) The hazardous area shall not be considered to extend beyond an unpierced wall.
- (6) Areas within lubrication rooms shall be classified as follows:

- (a) The area within any pit or space below grade or floor level in a lubrication room shall be considered a Class I, Division 1 location, unless the pit or space below grade is beyond the hazardous areas specified in Subrules (2), (3), and (5) in which case the pit or space below grade shall be considered a Class I, Division 2 location; and
- (b) The area within the entire lubrication room up to 2 inches above the floor or grade, whichever is the higher, and the area within 3 feet measured in any direction from the dispensing point of a hand-operated unit dispensing volatile flammable liquids shall be considered a Class I, Division 2 location.

20-006 Wiring and Equipment Within Hazardous Areas. All electrical wiring and equipment within the hazardous areas defined in Rule 20-004 shall conform to Section 18 requirements except that where dispensing pumps are supplied by underground wiring:

- (a) Steel-armoured lead-covered cable may be used in lieu of rigid metal conduit or mineral-insulated cable, provided that the cable armour terminates in a lead gland connector, the lead jacket terminates in the midpoint of an approved (conduit) seal and a union approved for the class and group connects the sealing fitting to the junction box of the dispensing pump; and
- (b) Light-weight mineral-insulated cable may be used in accordance with Section 18 requirements for mineral-insulated cable.

20-008 Wiring and Equipment Above Hazardous Areas. Wiring and equipment above hazardous areas shall conform to Rules 20-106 and 20-110.

20-010 Circuit Disconnects. Each circuit leading to or through a dispensing pump shall be provided with a switching means which will disconnect all ungrounded conductors of the circuit from the source of supply simultaneously.

20-012 Sealing

(1) An approved seal shall be provided in each conduit run entering or leaving a dispenser or any cavities or enclosures in direct communication therewith.

(2) Additional seals shall be provided in conformance with Rules 18-038 and 18-068, and the requirements of Rules 18-038 (3) (c) and 18-068 (3) (b) shall include horizontal and vertical boundaries.

20-014 Grounding. All non-current-carrying metal parts of dispensing pumps, metallic raceways and other electrical equipment shall be grounded in accordance with Section 10.

Commercial Garages, Repair and Storage

20-100 Scope. Rules 20-100 to 20-114 apply to locations used for service and repair operations in connection with self-propelled vehicles in which volatile flammable liquids or flammable gases are used for fuel or power, and locations in which more than three such vehicles are, or may be, stored at one time.

20-102 Hazardous Areas

(1) For each floor at or above grade, the entire area up to a level 2 inches above the floor shall be considered to be a Class I, Division 2 location.

(2) For each floor below grade, the entire area up to a level of 2 inches above the bottom of outside doors or other openings which are at, or above, grade level shall be considered to be a Class I, Division 2 location; except that where adequate mechanical ventilation is provided, the hazardous location shall extend up to a level of only 2 inches above each such floor.

(3) Any pit or depression below floor level shall be considered to be a Class I, Division 2 location which shall extend up to the floor level.

(4) Adjacent areas in which hazardous vapours are not likely to be released such as stockrooms, switchboard rooms, and other similar locations having floors elevated at least 2 inches above the adjacent garage floor, or separated therefrom by tight curbs or partitions at least 2 inches high shall not be classed as hazardous.

20-104 Wiring and Equipment in Hazardous Areas. Within hazardous areas as defined in Rule 20-102, wiring and equipment shall conform to the applicable requirements of Section 18.

20-106 Wiring Above Hazardous Areas

(1) All fixed wiring above hazardous areas shall be in accordance with Section 12 and suitable for the type of building and occupancy.

(2) For pendants, flexible cord suitable for the purpose and approved for hard usage shall be used.

(3) For connection of portable lamps, portable motors or other portable utilization equipment, flexible cord suitable for the purpose and approved for hard usage shall be used.

20-108 Sealing

(1) Approved seals shall be installed as required by Section 18, and the requirements of Rule 18-068 (3) (b) shall include horizontal and vertical boundaries.

(2) Raceways embedded in a masonry floor or buried beneath a floor shall be considered to be within the hazardous area above the floor if any connections or extensions lead into or through such area.

20-110 Equipment Above Hazardous Areas

(1) Fixed equipment which is less than 12 feet above the floor level and which may produce arcs, sparks, or particles of hot metal such as cutouts, switches, charging panels, generators, motors or other equipment (excluding receptacles, lamps and lampholders) having make and break or sliding contacts, shall be of the totally enclosed type or so constructed as to prevent escape of sparks or hot metal particles.

(2) Lamps and lampholders for fixed lighting which are located over lanes through which vehicles are commonly driven or which may otherwise be exposed to physical damage, shall be located not less than 12 feet above floor level unless of totally enclosed type or so constructed as to prevent escape of sparks or hot metal particles.

(3) Portable lamps shall comply with the following:

(a) They shall be of the totally enclosed gasketed type, equipped with handle, lampholder, hook and substantial guard attached to the lampholder or handle, and all exterior surfaces which may come in contact with battery terminals, wiring terminals or other objects shall be of non-conducting material or shall be effectively protected with an insulating jacket;

(b) The lampholders shall be of the unswitched type; and

(c) They shall not be provided with receptacles for attachment plug caps.

20-112 Battery Charging Equipment. Battery chargers and their control equipment, and batteries being charged shall not be located within the hazardous areas classified in Rule 20-102.

20-114 Electric Vehicle Charging

(1) Flexible cords used for charging shall be approved for the type of service, including extra hard usage.

(2) Connectors shall have a rating not less than the ampacity of the cord and in no case less than 50 amperes.

(3) Connectors shall be so designed and installed that they will break apart readily at any position of the charging cable, and live parts shall be guarded from accidental contact.

(4) No connector shall be located within the hazardous area defined in Rule 20-102.

(5) Where plugs are provided for direct connection to vehicles, the point of connection shall not be within a hazardous area as defined in Rule 20-102.

(6) Where a cord is suspended from overhead, it shall be so arranged that the lowest point of sag is at least 6 inches above the floor.

(7) Where the vehicle is equipped with a plug which will readily pull apart, and where an automatic arrangement is provided to pull both cord and plug beyond the range of mechanical damage, no additional connector is required in the cable or outlet.

Residential Storage Garages

20-200 Scope. Rules 20-200 to 20-206 apply to a building or part of a building in which not more than three vehicles of the types described in Rule 20-100 are, or may be, stored, but which will not normally be used for service or repair operations on stored vehicles.

20-202 Non-Hazardous Location. Where the lowest floor is at or above adjacent grade or driveway level, and where there is at least one outside door at or below floor level, the garage area shall not be classed as a hazardous location.

20-204 Hazardous Location. Where the lowest floor is below adjacent grade or driveway level, the following shall apply:

- (a) The entire area of the garage or of any enclosed space which includes the garage shall be classified as a Class I, Division 2 location up to a level 2 inches above the garage floor; and
- (b) Adjacent areas in which hazardous vapours or gases are not likely to be released, and having floors elevated at least 2 inches above the garage floor, or separated therefrom by tight curbs or partitions at least 2 inches high, shall not be classed as hazardous.

20-206 Wiring

- (1) Wiring above the hazardous locations shall conform to Section 12.
- (2) Wiring in the hazardous locations shall conform to Section 18.

Bulk Storage Plants

20-300 Scope. Rules 20-300 to 20-312 apply to locations where gasoline or other similar volatile flammable liquids are stored in tanks having an aggregate capacity of one carload or more, and from which such products are distributed.

20-302 Hazardous Areas

(1) Areas containing pumps, bleeders, withdrawal fittings, meters and similar devices which are located in pipe lines handling flammable liquids under pressure shall be classified and comply with the following:

- (a) Ventilated indoor areas shall be deemed to be Class I, Division 2 locations within a 5 foot distance extending in all directions from the exterior surface of such devices as well as 25 feet horizontally from any surface of these devices and extending upward to 3 feet above floor or grade level, provided that:
 - (i) Design of the ventilation systems takes into account the relatively high specific gravity of the vapours;
 - (ii) Where openings are used in outside walls they are of adequate size and located at floor level unobstructed except by louvres or coarse screens; and
 - (iii) Where natural ventilation is inadequate, mechanical ventilation is provided;
- (b) Indoor areas not ventilated in accordance with Subrule (1) (a) shall be deemed to be Class I, Division 1 locations within a 5 foot distance extending in all directions from the exterior surface of such devices as well as 25 feet horizontally from any surface of the device and extending 3 feet above floor or grade level;
- (c) Outdoor areas shall be deemed to be Class I, Division 2 locations within a 3 foot distance extending in all directions from the exterior surfaces of such devices as well as up to 18 inches above grade level within 10 feet horizontally from any surface of the devices.

(2) Areas where flammable liquids are transferred shall be classified as follows:

- (a) Outdoor areas and indoor areas for which positive and reliable mechanical ventilation is provided, shall, where flammable liquids are transferred to individual containers, be deemed to be Class I, Division 2 locations within 3 feet of the vent or fill opening extending in all directions and as Class I, Division 2 locations within the area extending between a 3-foot and 5-foot radius from the vent or fill opening extending in all directions, and including the area within a horizontal radius of 10 feet from the vent or fill opening and extending to a height of 18 inches above floor or grade levels;
- (b) Where positive and reliable mechanical ventilation is not provided for indoor areas in which flammable liquids are transferred to individual containers, such areas shall be deemed to be Class I, Division 1 locations.
- (3) Areas in outside locations where loading and unloading of tank vehicles and tank cars takes place shall be classified as follows:
 - (a) The area extending 3 feet in all directions from the dome when loading through an open dome or from the vent when loading through a closed dome with atmospheric venting shall be deemed to be a Class I, Division 1 location;
 - (b) The area extending between a 3-foot and 5-foot radius from the dome when loading through an open dome or from the vent when loading through a closed dome with atmospheric venting shall be deemed to be a Class I, Division 2 location; and
 - (c) The area extending within 3 feet in all directions from a fixed connection used in bottom loading or unloading, loading through a closed dome with atmospheric venting, or loading through a closed dome with a vapour recovery system, shall be deemed to be a Class I, Division 2 location, except that in the case of bottom loading or unloading this classification shall also be applied to the area within a 10-foot radius from point of connection and extending 18 inches above grade.
- (4) Areas within the vicinity of above ground tanks shall be classified as follows:
 - (a) The area above the roof and within the shell of a floating roof type tank shall be deemed to be a Class I, Division 1 location;
 - (b) For all types of above ground tanks:
 - (i) The area within 10 feet from the shell, ends and roof of other than a floating roof shall be deemed to be a Class I, Division 2 location; and
 - (ii) Where dikes are provided the area inside the dike and extending upward to the top of the dike shall be deemed to be a Class I, Division 2 location;
 - (c) The area within 5 feet of a vent opening and extending in all directions shall be deemed to be a Class I, Division 1 location; and
 - (d) The area between 5 and 10 feet of a vent opening and extending in all directions shall be deemed to be a Class I, Division 2 location.
- (5) Pits and depressions shall be classified as follows:

- (a) A pit or depression, any part of which lies within a Division 1 or Division 2 location shall, unless provided with positive and reliable mechanical ventilation, be deemed to be a Class I, Division 1 location;
- (b) A pit or depression, any part of which lies within a Division 1 or Division 2 location shall, when provided with positive and reliable mechanical ventilation, be deemed to be a Class I, Division 2 location;
- (c) Any pit or depression not within a Division 1 or Division 2 location, but which contains piping, valves, or fittings shall be deemed to be a Class I, Division 2 location.
- (6) Garages in which tank vehicles are stored or repaired shall be deemed to be Class I, Division 2 locations up to 18 inches above floor or grade level unless in the judgment of the inspector, conditions warrant more severe classification or treatment of the garage in question as a Class I, Division 2 location for more than 18 inches above floor or grade level.
- (7) Buildings such as office buildings, boiler rooms, and other similar premises, which are outside the limits of hazardous areas as defined herein, and are not used for the handling or storage of volatile flammable liquids or containers for such liquids, shall not be considered to be hazardous locations.

20-304 Wiring and Equipment in Hazardous Areas. All electrical wiring and equipment in the areas referred to in Subrules (1) to (6) inclusive of Rule 20-302 shall conform to the requirements of Section 18.

20-306 Wiring and Equipment Above Hazardous Areas

- (1) Wiring installed above a hazardous location shall conform to the requirements of Section 12 and be suitable for the type of building and the occupancy.
- (2) Fixed equipment which may produce arcs, sparks, or particles of hot metal, such as lamps and lampholders, cutouts, switches, receptacles, motors, or other equipment having make and break or sliding contacts, shall be of the totally enclosed type or so constructed as to prevent the escape of sparks or hot metal particles.
- (3) Portable lamps or utilization equipment and the flexible cords supplying them, shall conform to the requirements of Section 18 for the class of location above which they are connected or used.

20-308 Sealing

- (1) Approved seals shall be installed in accordance with Section 18 and shall be applied to horizontal as well as vertical boundaries of the defined hazardous locations.
- (2) Buried raceways under defined hazardous areas shall be considered to be within such areas.

20-310 Gasoline Dispensing. Where gasoline dispensing is carried on in conjunction with bulk station operations, the applicable provisions of Rules 20-002 to 20-014 inclusive shall apply.

20-312 Grounding. All non-current-carrying metal parts of equipment and raceways shall be grounded in accordance with Section 10.

Finishing Processes

20-400 Scope. Rules 20-400 to 20-412 apply where paints, lacquers or other flammable finishes are regularly or frequently applied by spraying, dipping, brushing or by other means, and where volatile flammable solvents or thinners are used or where readily ignitable deposits or residues from such paints, lacquers or finishes may occur.

20-402 Hazardous Areas

- (1) The interiors of spray booths and their exhaust ducts, all space within 20 feet horizontally in any direction from spraying operations more extensive than touch-up spraying and not conducted within spray booths, all space within 20 feet horizontally in any direction from dip tanks and their drain boards, and all other spaces where hazardous concentrations of flammable vapours are likely to occur, shall be deemed to be Class I, Division 1 locations.
- (2) All space within 20 feet horizontally in any direction from the open face of a spray booth, and all space within the room but beyond the limits for Class I, Division 1 as classified in Subrule (1) for extensive open spraying, for dip tanks and drain boards, and for other hazardous operations, shall be deemed to be Class I, Division 2 locations.
- (3) Adjacent areas which are cut off from the defined hazardous area by tight partitions without communicating openings, and within which hazardous vapours are not likely to be released, shall be classed as non-hazardous unless deemed otherwise by the inspection department.
- (4) Drying and baking areas provided with positive mechanical ventilation to prevent formation of flammable concentrations of vapours and provided with effective interlocks to de-energize all electrical equipment not approved for Class I locations, in case the ventilating equipment is inoperative, may be classed as non-hazardous.

20-404 Wiring and Equipment in Hazardous Areas

- (1) All electrical wiring and equipment within the areas referred to in Subrules (1) and (2) of Rule 20-402 or in those adjacent areas deemed hazardous by the inspection department under Subrule (3) of Rule 20-402, shall conform to the requirements of Section 18.
- (2) Unless approved for both readily ignitable deposits and the flammable vapour location, no electrical equipment shall be installed or used where it may be subject to a hazardous accumulation of readily ignitable deposits or residue.
- (3) Illumination of readily ignitable areas through panels of glass or other transparent or translucent material is permissible only where:

- (a) Fixed lighting units are used as the source of illumination;
- (b) The panel is noncombustible and effectively isolates the hazardous area from the area in which the lighting unit is located;
- (c) The lighting unit is approved for its specific location;
- (d) The panel is of a material or is so protected that breakage will be unlikely; and

- (e) The arrangement is such that normal accumulations of hazardous residue on the surface of the panel will not be raised to a dangerous temperature by radiation or conduction from the source of illumination.
- (4) Portable electric lamps or other utilization equipment shall:
 - (a) Not be used within a hazardous area during operation of the finishing process;
 - (b) Be of a type approved for Class I locations when used during cleaning or repairing operations.
- (5) Notwithstanding Subrule (4):
 - (a) Totally-enclosed and gasketed lighting may be used on the ceiling of a spray room where adequate and positive mechanical ventilation is provided; and
 - (b) Infrared paint drying units may be utilized in a spray room if the controls are interlocked with those of the spraying equipment so that both operations cannot be performed simultaneously, and if portable, the paint drying unit shall not be brought into the spray room until spraying operations have ceased.
- (6) Spray booths shall not contain any electrical equipment unless such spray booths are of the high velocity type.

20-406 Fixed Electrostatic Equipment. Electrostatic spraying and detearing equipment shall be of an approved type and conform to the following:

- (a) No transformers, power packs, control apparatus, or other electrical portion of the equipment except high voltage grids and their connections shall be installed in any of the areas referred to in Subrules (1) and (2) of Rule 20-402 or in those adjacent areas deemed hazardous by the inspection department under Subrule (3) of Rule 20-402,, unless of a type approved for the location;
- (b) High voltage grids or electrodes shall be located in suitable noncombustible booths or enclosures provided with adequate mechanical ventilation, shall be rigidly supported and of substantial construction, and shall be effectively insulated from ground by means of nonporous, noncombustible insulators;
- (c) High voltage leads shall be effectively and permanently supported on suitable insulators, shall be effectively guarded against accidental contact or grounding and shall be provided with automatic means for discharging any residual charge to ground when the supply voltage is interrupted;
- (d) Where goods are being processed:
 - (i) They shall be supported on conveyors in such a manner that minimum clearance between goods and high voltage grids or conductors cannot be less than twice the sparking distance; and
 - (ii) A conspicuous sign indicating the sparking distance shall be permanently posted near the equipment.

- (e) Approved automatic controls shall be provided which will operate without time delay to disconnect the power supply and to signal the operator in case of:
 - (i) Stoppage of ventilating fans;
 - (ii) Failure of ventilating equipment;
 - (iii) Stoppage of the conveyor carrying goods through the high voltage field;
 - (iv) Occurrence of a ground or of an imminent ground at any point on the high voltage system; or
 - (v) Reduction of clearance below that specified in paragraph (d); and
- (f) Adequate fencing, railings or guards which are electrically conducting and effectively grounded shall be provided for safe isolation of the process; and signs shall be permanently posted designating the process zone as dangerous because of high voltage.

20-408 Electrostatic Hand Spraying Equipment. Electrostatic hand spray apparatus and devices used therewith shall be of approved types and shall conform to the following:

- (a) The equipment shall be so designed that the maximum surface temperature of the equipment in the spraying area cannot exceed 150F under any condition;
- (b) The high voltage circuits shall be intrinsically safe and not produce a spark of sufficient intensity to ignite any vapour-air mixtures, nor result in appreciable shock hazard upon coming in contact with a grounded object;
- (c) The electrostatically-charged exposed elements of the hand gun shall be capable of being energized only by a switch which also controls the paint supply;
- (d) Transformers, power packs, control apparatus, and all other electrical portions of the equipment, with the exception of the hand gun itself and its connections to the power supply, shall be located outside the hazardous area;
- (e) The handle of the spray gun shall be electrically connected to ground by a metallic connection and be so constructed that the operator in normal operating position is in intimate electrical contact with the grounded handle in order to prevent build-up of a static charge on the operator's body;
- (f) All electrically conductive objects in the spraying area shall be adequately grounded and the equipment shall carry a prominent permanently-installed warning regarding the necessity for this grounding feature;
- (g) Precautions shall be taken to ensure that objects being painted are maintained in metallic contact with the conveyor or other grounded support, and shall include the following:
 - (i) Hooks shall be regularly cleaned;
 - (ii) Areas of contact shall be sharp points or knife edges; and

(iii) Points of support of the object shall be concealed from random spray where feasible and where the objects being sprayed are supported from a conveyor, the point of attachment to the conveyor shall be so located as not to collect spray material during normal operation; and

(h) The spraying operation shall take place within a spray area which is adequately ventilated to remove solvent vapours released from the operation and the electrical equipment shall be so interlocked with the ventilation of the spraying area that the equipment cannot be operated unless the ventilation system is in operation.

20-410 Wiring and Equipment Above Hazardous Areas

(1) All fixed wiring above hazardous areas shall conform to Section 12.

(2) Equipment which may produce arcs, sparks, or particles of hot metal, such as lamps and lampholders for fixed lighting, cutouts, switches, receptacles, motors or other equipment having make and break or sliding contacts, where installed above a hazardous area or above an area where freshly finished goods are handled, shall be of the totally enclosed type or so constructed as to prevent the escape of sparks or hot metal particles.

20-412 Grounding. All metallic raceways and all non-current-carrying metallic portions of fixed or portable equipment, regardless of voltage, shall be grounded in accordance with Section 10.

Aircraft Hangars

20-500 Scope. Rules 20-500 to 20-522 apply to locations used for storage or servicing of aircraft in which gasoline, jet fuels, or other volatile flammable liquids, or flammable gases, are used but shall not include those locations used exclusively for aircraft which have never contained such liquids or gases, or which have been drained and properly purged.

20-502 Hazardous Areas

(1) Any pit or depression below the level of the hangar floor shall be deemed to be a Class I, Division 1 location which shall extend up to the floor level.

(2) The entire area of the hangar including any adjacent and communicating areas not suitably cut off from the hangar shall be deemed to be a Class I, Division 2 location up to a level 18 inches above the floor.

(3) The area within 5 feet horizontally from aircraft power plants, aircraft fuel tanks or aircraft structures containing fuel shall be deemed to be a Class I, Division 2 location which shall extend upward from the floor to a level 5 feet above the upper surface of wings and of engine enclosures.

(4) Adjacent areas in which hazardous vapours are not likely to be released such as stock rooms, electrical control rooms, and other similar locations, may be classed as non-hazardous when adequately ventilated and when effectively cut off from the hangar itself by unpierced walls or partitions.

20-504 Wiring and Equipment in Hazardous Areas

(1) All fixed and portable wiring and equipment which is or may be installed or operated within any of the locations defined in Rule 20-502 shall conform to the requirements of Section 18.

(2) All wiring installed in or under the hangar floor shall conform to the requirements for Class I Division 1 locations.

(3) Wiring systems installed in vaults, pits, or ducts, shall be provided with adequate drainage and shall not be placed within the same compartment with any other service except piped compressed air.

(4) Attachment plug caps and receptacles in hazardous locations shall be explosionproof, or shall be so designed that they cannot be energized while the connections are being made or broken.

20-506 Wiring Not Within Hazardous Areas

(1) All fixed wiring in a hangar not within a location defined in Rule 20-502 shall be installed in metallic raceways or shall be Type MI except that wiring in a non-hazardous location as set out in Subrule (4) of Rule 20-502 may be of any type recognized in Section 12 as suitable for the type of building and the occupancy.

(2) For pendants, flexible cord approved for hard usage and containing a separate grounding conductor shall be used.

(3) For portable utilization equipment and lamps, flexible cord approved for hard usage and containing a separate grounding conductor shall be used.

(4) Suitable means shall be provided for maintaining continuity and adequacy of the grounding path between the fixed wiring system and the non-current-carrying metallic portions of pendent fixtures, portable lamps, and other portable utilization equipment.

20-508 Equipment Not Within Hazardous Areas

(1) In locations other than those described in Rule 20-502, equipment which is less than 10 feet above wings and engine enclosures of aircraft and which may produce arcs, sparks, or particles of hot metal, such as lamps and lampholders for fixed lighting, cutouts, switches, receptacles, charging panels, generators, motors or other equipment having make and break or sliding contacts, shall be of totally-enclosed type or so constructed as to prevent escape of sparks or hot metal particles, except that equipment in areas described in Subrule (4) of Rule 20-502 may be of general purpose type.

(2) Lampholders of metal shell, fibre lined types shall not be used for fixed lighting.

(3) Portable lamps which are, or may be, used within a hangar shall be approved for Class I locations.

(4) Portable utilization equipment which is, or may be, used within a hangar shall be of a type suitable for use in Class I, Division 2 locations.

20-510 Stanchions, Rostrums, and Docks

(1) Electric wiring, outlets and equipment including lamps, on or attached to, stanchions, rostrums, or docks which are located, or likely to be located, in an

area as defined in Subrule (3) of Rule 20-502 shall conform to the requirements for Class I, Division 2 locations.

(2) Where stanchions, rostrums, and docks are not located, or are not likely to be located, in an area as defined in Subrule (3) of Rule 20-502 wiring and equipment shall conform to Rules 20-506 and 20-508, except that:

- (a) Receptacles and attachment plugs shall be of the locking type which will not break apart readily; and
- (b) Wiring and equipment, not more than 1 inch above the floor in any position, shall conform to Subrule (1) hereof.

(3) Mobile stanchions with electrical equipment conforming to Subrule (2) hereof shall carry at least one permanently affixed warning sign reading as follows:

"WARNING—KEEP 5 FEET CLEAR OF AIRCRAFT ENGINES AND FUEL TANK AREAS."

20-512 Sealing

(1) Approved seals shall be installed in accordance with Section 18 and shall apply to horizontal as well as to vertical boundaries of hazardous areas.

(2) Raceways embedded in a masonry floor or buried beneath a floor shall be considered to be within the hazardous area above the floor when any connections or extensions lead into or through the hazardous area.

20-514 Aircraft Electrical Systems. Aircraft electrical systems shall be de-energized when the aircraft is stored in a hangar, and whenever possible, while the aircraft is undergoing maintenance.

20-516 Aircraft Battery-Charging and Equipment

(1) Aircraft batteries shall not be charged when installed in an aircraft located inside, or partially inside, a hangar.

(2) Battery chargers and their control equipment shall not be located or operated within any of the areas defined in Subrules (1), (2) and (3) of Rule 20-502 but may be located or operated in a separate building or in an area complying with Subrule (4) of Rule 20-502.

(3) Mobile chargers shall carry at least one permanently affixed warning sign reading as follows:

"WARNING—KEEP 5 FEET CLEAR OF AIRCRAFT ENGINES AND FUEL TANK AREAS."

(4) Tables, racks, trays, and wiring shall not be located within a hazardous area, and shall conform to the provisions of Section 26 pertaining to Storage Batteries.

20-518 External Power Sources for Energizing Aircraft

(1) Aircraft energizers shall be so designed and mounted that all electrical equipment and fixed wiring will be at least 18 inches above floor level and shall not be operated in an area as defined in Subrule (3) of Rule 20-502.

(2) Mobile energizers shall carry at least one permanently affixed sign reading as follows:

"WARNING—KEET 5 FEET CLEAR OF AIRCRAFT ENGINES AND FUEL TANK AREAS."

(3) Aircraft energizers shall be equipped with polarized external power plugs and with automatic controls to isolate the ground power unit electrically from the aircraft in case excessive voltage is generated by the ground power unit.

(4) Flexible cords for aircraft energizers and ground support equipment shall be approved for the extra hard usage and shall include a grounding conductor.

20-520 Mobile Servicing Equipment With Electrical Components

(1) Mobile servicing equipment such as vacuum cleaners, air compressors, air movers and other similar equipment having electrical wiring and equipment not suitable for Class I, Division 2 locations shall:

- (a) Be so designed and mounted that all such wiring and equipment will be at least 18 inches above the floor;
- (b) Not be operated within an area as defined in Subrule (3) of Rule 20-502; and
- (c) Carry at least one permanently affixed warning sign reading as follows:
"WARNING—KEEP 5 FEET CLEAR OF AIRCRAFT ENGINES AND FUEL TANK AREAS."

(2) Flexible cords for mobile equipment shall be approved for extra hard usage and shall include a grounding conductor.

(3) Attachment plugs and receptacles shall be approved for the location in which they are installed, and shall provide for connection of the grounding conductor to the raceway system.

(4) Equipment shall not be operated in areas where maintenance operations likely to release hazardous vapours are in progress, unless the equipment is at least suitable for use in a Class I, Division 2 location.

20-522 Grounding. All metallic raceways, and all non-current-carrying metallic portions of fixed or portable equipment, regardless of voltage, shall be grounded in accordance with Section 10.

SECTION 22—LOCATIONS IN WHICH CORROSIVE LIQUIDS OR VAPOURS OR EXCESSIVE MOISTURE ARE LIKELY TO BE PRESENT

General

22-000 Scope. This Section applies to electrical equipment and installations in locations in which corrosive liquids, or vapours or excessive moisture are likely to be present, and is supplementary to, or amendatory of, the general requirements of this Code.

22-002 Category Definitions. Locations covered in this Section shall be classified as follows:

- (a) "Category 1", meaning that the location is one in which moisture in the form of vapour or liquid is present in quantities which are liable to interfere with the normal operation of electrical equipment, whether the moisture is caused by condensation, or the dripping or splashing of liquid, or otherwise; and

- (b) "Category 2", meaning that the location is one in which corrosive liquids or vapours are likely to be present in quantities which are likely to interfere with the normal operation of electrical equipment.

22-004 Application of Category Definitions. Where the expressions "Category 1" or "Category 2" do not appear in any Rule in this Section, the Rule shall be applicable to both categories.

Wiring and Equipment

22-006 Essential Equipment Only

(1) Only such electrical equipment as is essential for the processes being carried on therein shall be installed in Category 1 and Category 2 locations.

(2) Service equipment, motors, panelboards, switchboards and other electrical equipment shall, where practicable, be installed in rooms or sections of the building which are not Category 1 or Category 2 locations.

22-008 Type of Construction

(1) Where the electrical equipment is, or is likely to be, partially or wholly submerged, it shall be of a submersible type of construction.

(2) Where the electrical equipment is, or is likely to be, subjected to direct streams of liquid under pressure, it shall be of a water-tight type of construction.

(3) Where the electrical equipment is, or is likely to be, exposed to corrosive vapours, it shall be of a corrosion-resistant type of construction.

(4) Where the electrical equipment is, or is likely to be, exposed to splashing of water, it shall be of a splash-proof type of construction.

(5) Where the electrical equipment is, or is likely to be, exposed only to the falling or condensing of moisture, it shall be of a drip-tight type of construction.

(6) Where a protective coating on electrical equipment is, or may be, exposed to corrosive liquids or vapour, the coating shall be suitable for the corrosive condition.

22-010 Wiring Method in Category 1 Locations

(1) Where conductors are exposed to moisture in a Category 1 location they shall:

(a) If used in open wiring, be of types specified in Table 19:

(i) For open wiring in wet locations, or

(ii) For open wiring where exposed to the weather, provided that they are located out-of-reach from floors, decks, balconies or stairs; and

(b) If used in conduit, be of types specified in Table 19 for use in raceways for wet locations.

(2) Non-metallic sheathed cable may be used in a Category 1 location as limited by Rules 22-030 and 22-036 in a dairy barn, chicken house or other farm building but, unless of the type designation NMW, shall not be used elsewhere in Category 1 locations.

(3) Armoured cable may be used in a Category 1 location if of the type listed in Table 19 as suitable for direct earth burial.

(4) Split knobs or cleats shall not be used in a Category 1 location.

(5) Mineral-insulated cable may be used in a Category 1 location but, if the cable is secured to walls, it shall be spaced at least $\frac{1}{4}$ inch from the wall at each point of support.

(6) Aluminum-sheathed cable may be used in a Category 1 location, provided it has suitable corrosion-resistant protection where necessary.

22-012 Wiring Method in Category 2 Locations

(1) Where conductors are exposed to corrosive vapours in a Category 2 location, they shall be:

(a) Of types specified in Table 19 as being acceptable for exposure to corrosive action and located out-of-reach from floors, decks, balconies or stairs, if used in open wiring; and

(b) Of types specified in Table 19 as being acceptable for exposure to corrosive action, if used in conduit.

(2) Excluding type designation NMW, non-metallic-sheathed cable shall not be used in a Category 2 location other than a dairy barn, chicken house or other farm building.

(3) Surface metal raceways, underfloor raceways, bare conductors, armoured cable except where permitted in Table 19 for exposure to corrosive action, wireways, busways, and split knobs shall not be used in Category 2 locations.

(4) Mineral-insulated cable may be used in a Category 2 location if the corrosive action is not of such a nature as to cause deterioration of the outer sheath.

(5) Aluminum-sheathed cable may be used in a Category 2 location provided it has suitable corrosion-resistant protection where necessary.

22-014 Drip Loops. Where open conductors or non-metallic sheathed cables enter or issue from a Category 1 or Category 2 location, the conductors shall pass through the wall of the location in an upward direction, and in the case of open conductors, shall be in non-combustible, non-absorptive insulating tubes.

22-016 Drainage and Sealing

(1) Where conduit is used, it shall be:

(a) Arranged so as to drain at frequent intervals to suitable locations;

(b) Equipped with approved fittings which permit the moisture to drain out of the system; and

(c) Installed so as to afford $\frac{1}{2}$ inch clearance from the supporting surface.

(2) Where a conduit or aluminum-sheathed cable enters a cooler atmosphere from a warmer atmosphere, it shall be sealed off so as to prevent breathing, and subsequent condensation, and in such a manner that condensate will not be trapped at the seal.

(3) All conduits, metal enclosures, and fittings shall be protected by or be of acceptable corrosion-resistant material.

(4) Every joint in a conduit in a Category 1 location shall be water-tight.

(5) Approved enamelled conduit may be used in a Category 1 or Category 2 location.

22-018 Category 1 Locations, Exclusion of Moisture or Water

(1) Every cabinet and fitting in a Category 1 location shall be:

- (a) Of splash-proof or drip-tight construction;
- (b) Placed so as to prevent moisture or water from entering and accumulating within the cabinet or fitting; and
- (c) Mounted so as to give at least $\frac{1}{2}$ inch clearance from the supporting surface.

(2) Every screw and bolt used to secure electrical equipment in place shall be of corrosion-resisting metal.

22-020 Circuit Control. Every circuit in a Category 1 or Category 2 location shall, where practicable, be arranged so that the current-carrying conductors may be entirely cut off from the supply of electrical power or energy at a convenient point outside the location.

22-022 Lampholders

(1) Pendent lampholders shall be:

- (a) Of the moulded composition weatherproof type; and
- (b) Hung from stranded rubber insulated conductors of not less than No. 14 AWG.

(2) Where the pendent conductors exceed 3 feet in length, they shall be twisted together.

22-024 Fixtures

(1) Every lighting fixture in a Category 1 location shall be constructed so that water cannot enter or accumulate within the fixture.

(2) Every lighting fixture in a Category 2 location shall be totally-enclosed, gasketed, and shall be of a corrosion-resistant type of construction.

22-026 Receptacles

(1) Every receptacle and attachment plug for portable equipment shall be:

- (a) Of the weatherproof type; and
- (b) Provided with approved grounding terminals and conductors properly connected to ground.

(2) The flexible cord for portable equipment shall be of a type approved for extra hard usage and shall contain an extra conductor for grounding purposes.

22-028 Exposed Metal Parts. Every exposed, non-current-carrying metal part of all fixed or portable electrical equipment, including appliances, fixtures, cabinets, and metal enclosures, shall be grounded by means of a grounding conductor, notwithstanding that the equipment is in metallic contact with water-pipes or other installations affording some measure of grounding.

22-030 In Barns or Stables. Where non-metallic sheathed cable other than Type NMW is used in barns or stables, it shall not be run:

- (a) Directly over windows, doors or other openings in outside walls; or
- (b) Where condensation is liable to form on the cable through marked differences in temperature, unless the cable is protected in the manner prescribed by Rule 22-036.

22-032 In Root Houses. Non-metallic sheathed cable other than Type NMW shall not be installed in root houses without special permission.

22-034 In Stair Wells or Ducts. Non-metallic sheathed cable other than Type NMW shall not be run:

- (a) In stair wells; or
- (b) Through ventilating ducts or similar openings between stables and lofts or other rooms above stables.

22-036 From Stable to Loft

(1) Where non-metallic sheathed cable other than Type NMW is run from a stable to a loft or room above the stable, it shall be run through a length of rigid conduit.

(2) The conduit shall be sealed at the upper end with an approved insulating compound.

(3) Wherever exposed to injury, as in a stair well, non-metallic sheathed cable shall be adequately protected.

SECTION 24—FLAMMABLE ANAESTHETICS

24-000 Scope

(1) This Section applies to the installation of electrical wiring and equipment in areas in hospitals where flammable anaesthetics are stored or administered.

(2) This Section is supplementary to, or amendatory of, the general requirements of this Code.

24-002 Special Terminology. In this Section:

- (a) “**flammable anaesthetics**” means gases or vapours such as cyclopropane, divinyl ether, ethyl chloride, ethyl ether, and ethylene, which may form flammable or explosive mixtures with air, oxygen, or nitrous oxide;
- (b) “**anaesthetizing locations**” means areas in hospitals in which flammable anaesthetics are or may be administered to patients, including operating rooms, delivery rooms and anaesthesia rooms, and any corridors, utility rooms, or other areas which are or may be used for administering flammable anaesthetics to patients.

24-004 Hazardous Areas

(1) Any room or space in which flammable anaesthetics or volatile flammable disinfecting agents are stored shall be considered to be a Class I, Division 1 location throughout.

(2) Anaesthetizing locations in their entireties shall be considered to be Class I, Division 1 locations extending upward to a level 5 feet above the floor.

24-006 Wiring and Equipment Within Hazardous Areas

(1) In the areas defined in Rule 24-001, all fixed electrical wiring and equipment, and all portable electrical equipment, including flexible cords, lamps and other utilization equipment, operating at more than 8 volts between conductors, shall conform to the requirements of Section 18 of this Code for Class I, Division 1 locations.

(2) Where a box, fitting or enclosure is partially but not entirely within a hazardous area, the hazardous area shall be considered to be extended to include the entire box, fitting or enclosure.

24-008 Wiring and Equipment Above Hazardous Area

(1) Wiring above an area as defined in Subrule (2) of Rule 24-004 shall be installed in metal raceways, or shall be metal-sheathed or armoured cable.

(2) Equipment which may produce arcs, sparks or particles of hot metal, such as lamps and lampholders for fixed lighting less than 8 feet above the floor, cutouts, switches, receptacles, generators, motors, or other equipment having make and break or sliding contacts, shall be:

(a) Of the totally-enclosed type; or

(b) Provided with suitable guards or screens to prevent the escape of sparks or hot metal particles.

(3) Surgical and other lighting fixtures which may be capable of being lowered into the hazardous area shall be approved for Class I, Division 1 hazardous locations.

24-010 Circuits in Anaesthetizing Locations

(1) Except as provided in Subrule (6) hereof, each circuit within or partially within an anaesthetizing location shall be:

(a) Controlled by a switch having a disconnecting pole in each circuit conductor; and

(b) Supplied from an ungrounded distribution system which shall be electrically isolated from any distribution system supplying areas other than anaesthetizing locations and which may be obtained by means of:

(i) One or more transformers having no electrical connection between primary and secondary windings;

(ii) Motor generator sets; or

(iii) Suitably isolated batteries.

(2) Circuits supplying primaries of isolating transformers shall:

(a) Operate at not more than 750 volts between conductors, providing that a grounded metallic shield is used between primary and secondary windings where the primary voltage exceeds 300 volts; and

(b) Be provided with proper overcurrent protection.

(3) Secondary circuits of isolating transformers and circuits supplied from batteries, generators, or motor-generator sets shall:

(a) Operate at not more than 300 volts between conductors, except that circuits for general purpose outlets shall not operate at more than 120 volts between conductors;

(b) Be ungrounded; and

(c) Have an approved overcurrent device of proper rating in each circuit conductor.

(4) Isolating transformers, generators, motor-generator sets, batteries and battery chargers and their overcurrent devices shall be installed in non-hazardous locations and shall conform to the requirements of this Code for such locations.

(5) In addition to the usual control and protective devices, an ungrounded supply system for anaesthetizing locations shall be provided with an approved ground hazard indicator located in a non-hazardous location and so arranged that:

(a) A green or white signal lamp conspicuously visible to persons in the anaesthetizing location remains lit while the system is isolated from ground; and

(b) A red signal lamp, located adjacent to the green or white signal lamp, and an audible warning signal are energized when either or both conductors of the system become grounded through a resistance or a capacitive reactance of any value up to 120,000 ohms, with the current through the ground indicator to the ground not exceeding one milliampere for 120-volt circuits and two milliamperes for higher-voltage circuits.

(6) Branch circuits supplying only fixed lighting fixtures above the hazardous location other than surgical lighting fixtures or supplying only approved permanently installed x-ray equipment may be supplied by a conventional grounded system provided:

(a) Wiring for grounded and ungrounded circuits does not occupy the same raceways;

(b) The lighting fixtures and the x-ray equipment, other than the enclosed x-ray tube and the metal-enclosed high-voltage leads to the tube, are located at least eight feet above the floor or outside the anaesthetizing location; and

(c) Switches for the grounded circuits are located outside of the anaesthetizing location, except that remote control stations for remotely controlled switches may be within the anaesthetizing location, when the remote control circuit is energized from the isolated and ungrounded distribution system.

24-012 Extra-Low-Voltage Equipment and Instruments

(1) Electrical apparatus and equipment used within a hazardous area, and which has exposed current-carrying elements or which is frequently in contact with the bodies of persons, shall:

(a) Be designed to operate at 8 volts or less unless it is completely surrounded by a grounded metallic casing or sheath; and

(b) Have a power supply which is ungrounded and electrically isolated from all circuits of higher voltage.

(2) Where an extra-low-voltage unit is supplied from an individual transformer located within a hazardous area, the following shall apply:

- (a) Flexible cords shall conform to Rule 18-050, except that a grounding conductor is not required in circuits operating at 8 volts or less;
- (b) The core and case of the transformer shall be effectively grounded; and
- (c) The transformer shall be approved for Class I hazardous locations.

(3) Where extra-low-voltage units within a hazardous area are supplied with energy from a common source, such as a transformer, motor-generator set, or storage battery, the following shall apply:

- (a) The common source shall be installed in a non-hazardous location;
- (b) Receptacles and attachment plugs, where located within a hazardous area, shall be approved for Class I hazardous locations;
- (c) Plugs shall be so designed that they cannot be inserted into receptacles intended for a higher voltage; and
- (d) Flexible cords shall conform to Rule 18-050, except that a grounding conductor is not required.

(4) Extra-low-voltage equipment and wiring, including flexible cords, shall be protected from dangerous overcurrent by:

- (a) Suitable overcurrent devices installed in a non-hazardous location; or
- (b) Inherent current limitation of the source of supply.
- (5) Resistance or impedance devices may be used to control extra-low-voltage units but shall not be used to limit the maximum input voltage.
- (6) Where an extra-low-voltage unit includes a switch or other make-and-break or sliding contact, or where it includes a resistor or resistance device which may under any operating condition reach a surface temperature exceeding 80 per cent of the autoignition temperature of the gas or vapour involved, the unit shall be approved for Class I locations.

24-014 Other Equipment

(1) Suction, pressure, or insufflation equipment involving electrical elements, and located or used within a hazardous area, shall be approved for Class I hazardous locations.

(2) X-ray equipment installed or operated in an anesthetizing location shall:

- (a) Be provided with approved means for preventing accumulation of electrostatic charges;
- (b) Have all control devices, switches, relays, meters, and transformers totally enclosed, and where installed or operated within a hazardous area, such devices shall be approved for Class I hazardous locations; and
- (c) Have high-voltage wiring effectively insulated from ground and adequately guarded against accidental contact.

24-016 Grounding. In any hazardous area, all metallic raceways, and all non-current-carrying metallic portions of fixed or portable equipment shall be grounded in accordance with Section 10, except as provided in Rule 24-012.

SECTION 26—INSTALLATION OF ELECTRICAL EQUIPMENT

General

26-000 Equipment Used with Single Conductors. Single conductors whose ampacities are based on the free-air ratings of Table 1 or Table 3 shall not be connected to equipment containing fuses other than approved high rupturing capacity fuses without the approval of the inspection department.

26-002 Connection to Identified Terminals or Leads. Wherever a device having an identified terminal or lead is connected in a circuit having an identified conductor, the identified conductor shall be connected to the identified terminal or lead.

26-004 Equipment on Combustible Floors. A floor of combustible material directly under stationary or fixed electrical equipment with open bottoms shall be covered with a plate of steel which shall extend at least six inches beyond the equipment on all sides.

26-006 Outdoor Installations

(1) Outdoor installations of apparatus, unless housed in suitable enclosures, shall be surrounded by suitable fencing in accordance with Rules 26-172 to 26-200 of this Code or as may be otherwise directed by the inspection department.

(2) Overhead high-potential conductors shall have a vertical clearance from buildings of 15 feet.

(3) Outdoor equipment shall be grounded in an acceptable manner.

(4) High-potential isolating switches not of the metal-enclosed type which are assembled in the field shall be spaced according to Table 35.

(5) Horn-gap switches shall be mounted in a horizontal position and be capable of being locked in the open position.

26-008 Flammable Oil-Insulated Equipment, Indoors

(1) Electrical equipment containing liquids that will burn in air, in quantities of more than 5 gallons in one tank, or more than 15 gallons in a group of tanks, shall be located in an electrical equipment vault, except that for motor starters these oil quantities shall be doubled.

(2) Electrical equipment containing liquids that will burn in air in quantities of 5 gallons or less in one tank and 15 gallons or less in a group of tanks shall be installed in an electrical equipment vault or installed in a building or room of fire-resisting construction, except that for motor starters these oil quantities shall be doubled.

(3) Electrical equipment as described in Subrule (2) and which is installed in a building or room of fire-resisting construction shall be:

- (a) Provided with a metal pan or concrete curbing capable of retaining all the liquid above it;

- (b) Isolated from other apparatus by segregation of adjacent cells by effective barriers, metal-enclosed equipment being considered as providing segregation; and
- (c) Separated from other flammable oil-insulated equipment by such a distance that, if the oil in each piece of equipment was spread at a density of one quart per square foot, the areas so covered would not overlap, these areas being deemed to be circular if the tank (or group of tanks) is in an open area, semi-circular if the tank is against a wall, and quarter-sectorial if the tank is in a corner.

Isolating Switches

26-010 Installation of High-Potential Isolating Switches

- (1) High-potential isolating switches shall be located so that they will be accessible to authorized persons only.
- (2) High-potential group-operated isolating switches shall be:
 - (a) Interlocked with their respective circuit breakers so that the switch cannot be operated under load; and
 - (b) Provided with positive position indicators.

Circuit Breakers

26-012 Circuit Breakers, General

- (1) Circuit breakers shall be of the trip-free type.
- (2) Indication shall be provided at the circuit breaker and at the point of operation to show whether the circuit breaker is open or closed.

26-014 Indoor Installation of Circuit Breakers

- (1) Circuit breakers installed indoors shall be located in compliance with the following:
 - (a) Circuit breakers rated at more than 15,000 volts shall be installed in a fire-resisting switch-room or motor room or in an electrical equipment vault in accordance with Rules 26-156 to 26-170;
 - (b) Flammable oil-insulated circuit breakers shall also be installed in accordance with Rule 26-008.
- (2) Circuit breakers installed in electrical equipment vaults shall be operable without opening the door of the vault.
- (3) The point of operating shall be so located with respect to the circuit breaker that the operator will be protected from injury due to faulty operation of the circuit breaker.

Fuses

26-016 Installation of Fuses

- (1) Fuses shall be located so that:
 - (a) Their operation will not result in injury to persons or damage to property or other equipment;
 - (b) They can be readily inserted or removed; and

- (c) They will be accessible to authorized persons only, when used on high-potential circuits.

(2) Where the potential exceeds 15,000 volts between conductors, fuses shall not be located indoors unless in a room of fire-resisting construction, whether or not they are in a metal enclosure.

Switchboards and Switchgear

26-018 Location of Switchgear. Switchgear, if not of the dead-front or enclosed type, and live parts on the rear of dead-front switchboards shall be inaccessible to unauthorized persons.

26-020 Guarding of Switchgear. Where live parts of switchgear are exposed to damage by falling objects, they shall be guarded.

26-022 Switchgear Clearance from Ceiling. Switchgear shall not be built up to a point within 3 feet of a ceiling of combustible material or a ceiling of plaster applied over a combustible base unless the combustible material or base is protected against damage from fire, by:

- (a) Metal lath and cement plaster;
- (b) $\frac{1}{4}$ inch rigid asbestos board; or
- (c) Other acceptable means.

26-024 Clearance Back of Switchboard

(1) There shall be a space of not less than 3 feet between equipment on the back of a fixed switchboard and the nearest adjacent wall when such equipment is less than 7 feet from the floor.

(2) Ready means for ingress and egress to the space shall be provided at each end of the switchboard.

(3) Doors or gates of suitable material may be provided at these points for guarding purposes but they shall be capable of being readily opened from the inside without the use of a key or tool.

(4) The space behind switchboards shall be kept clear of foreign material and shall not be used for storage purposes.

26-026 Protection from Shock Hazard at Switchboards and Switchgear. Where live-front switchboards or switchgear operate:

- (a) On ac, at potentials not exceeding 150 volts to ground or 750 volts between conductors; or
- (b) On dc, at potentials not exceeding 300 volts to ground or 750 volts between conductors,

insulating floors, mats, or platforms affording good footing, shall be provided and placed so that operators cannot readily touch live parts unless standing on such floors, mats or platforms.

26-028 Illumination at Switchboards. Adequate illumination for the reading of instruments, and necessary operation of controls shall be provided both in front of and behind switchboards as necessary.

26-030 Air Circuit Breakers on Switchboards. If air circuit breakers of an open type are mounted on the front of a switchboard, they shall be mounted in a single horizontal row with their tops not less than 5 feet above the floor or operating platform.

26-032 Conductor Covering at Switchgear

(1) Closely grouped conductors feeding to or from switchgear which do not have moisture-resisting, flame-retarding insulation on the individual conductors shall have an overall moisture-resisting, flame-retarding covering.

(2) Asbestos tape, if used for overall covering, shall be kept away from terminals and other live parts.

Rotating Electrical Machinery

26-034 Use of Wood for Insulating Rotating Machinery. If wood is used to insulate frames of rotating electrical machinery from ground, it shall be impregnated or thoroughly coated with a suitable moisture repellent.

26-036 Integral Protection of Rotating Machinery. A rotating electrical machine with an integral protective device shall be marked to indicate that it has such a protective device.

Transformers**26-038 Transformers, General**

(1) Transformers shall be constructed so that all live parts are enclosed unless they are installed so as to be inaccessible to unauthorized persons.

(2) Transformers shall be protected from mechanical damage.

(3) Liquid-filled transformers shall be mounted so that there will be an air space of 6 inches between transformers, and between transformers and adjacent surfaces of combustible material except the plane on which the transformer is mounted.

26-040 Outdoor Transformer Installations. Where transformers, including their conductors, control, and protective equipment are installed outdoors they shall:

- (a) Be inaccessible to unauthorized persons;
- (b) Not obstruct fire fighting operations;
- (c) If oil filled, be isolated with respect to combustibility of surroundings, and window and door exposure in accordance with Table 37;
- (d) If isolated by elevation, have the bottom of their platform not less than 12 feet above the ground;
- (e) If not isolated by elevation, have the entire installation surrounded by suitable fencing in accordance with Rules 26-172 to 26-200 of this Code, or as may be otherwise directed by the inspection department;
- (f) If installed at ground level, be located on a concrete pad or be in a curbed area filled with coarse crushed stone;
- (g) Not have open drains in the proximity of combustible construction or materials for the disposal of flammable liquid expelled from a transformer; and
- (h) Have, conspicuously posted, suitable warning signs indicating the highest potential employed except where there is no exposed live part.

26-042 Transformers Mounted on Roofs

(1) Transformers having their cores immersed in a liquid which will not burn in air, if installed on the roof of a building, shall be located in an electrical equipment vault in accordance with Rules 26-156 to 26-170, adequately supported by means of fire-resisting construction.

(2) Transformers having their cores immersed in a liquid which will not burn in air, if installed on the roof of a building, shall not be placed adjacent to doors or windows, nor within 15 feet of discharge vents for flammable fumes or dusts of a combustible or electrical conductive nature.

26-044 Liquid-Filled Transformers Indoors

(1) Flammable oil-insulated transformers located indoors shall be installed in accordance with Rule 26-008.

(2) Transformers located indoors and having their cores immersed in a liquid that will not burn in air shall be installed in a transformer vault unless:

- (a) The transformer is protected from mechanical damage either by location or guarding;
- (b) A pressure relief vent is provided where the rating exceeds 25 kva at 25 cycles or 37½ kva at 60 cycles;
- (c) A means of absorbing gases generated by arcing inside the case, or a pressure relief vent connected to outdoors, is provided where the transformer is installed in a poorly ventilated location; and
- (d) Where the voltage rating exceeds 15,000 volts, the transformer is installed in a room of fire-resisting construction accessible only to authorized persons.

26-046 Dry-Core, Open-Ventilated Type Transformers

(1) Transformers of the dry-core open-ventilated type shall be mounted so that there will be an air space between the transformer casing and adjacent surfaces, except floors, of:

- (a) 12 inches, if the adjacent surface be of combustible material; or
- (b) ¼ inch if the adjacent surfaces are of:
 - (i) Noncombustible material;
 - (ii) Combustible material adequately protected by noncombustible, heat-insulating material other than sheet metal; or
 - (iii) Combustible material shielded by grounded sheet metal with an air space of not less than 2 inches between the sheet metal and the combustible material.

(2) Dry-type transformers not of the sealed type shall not be installed below grade level unless adequate provision is made to prevent flooding.

(3) Dry-type transformers not of the sealed type shall be installed in such a manner that water or other liquids cannot fall on to the windings.

(4) Dry-type transformers, if mounted directly on a floor of combustible material, shall be provided with a floor plate of steel, with a sheet of asbestos or similar material on the underside, which shall extend at least 6 inches beyond the transformer on all sides.

26-048 Disconnecting Means for Transformers. A disconnecting means shall be installed in the primary circuit of each transformer or each bank of transformers operating as a unit.

26-050 Overcurrent Protection for Power and Distribution Transformers

(1) In this Rule, "transformer" means a single-phase transformer, a polyphase transformer, or a group of 2 or 3 single phase transformers used in lieu of a poly-phase unit.

(2) Except as permitted in Subrule (3), each transformer shall have overcurrent protection, either individually or in the circuit feeding the transformer, consisting of an overcurrent device rated or set at not more than 250 per cent of the rated primary current of the transformer.

(3) As an alternative to the overcurrent protection referred to in Subrule (2), the following overcurrent protection may be provided:

- (a) An overcurrent device connected in the circuit feeding the transformer with a rating:
 - (i) Not more than 600 per cent of the rated current of the transformer, for a transformer having an impedance voltage not more than 6 per cent; or
 - (ii) Not more than 400 per cent of the rated current of the transformer, for a transformer having an impedance voltage more than 6 per cent but not more than 10 per cent; and
- (b) Either an overcurrent device connected in the secondary circuit rated or set at not more than 250 per cent of the rated secondary current of the transformer or a transformer equipped with coordinated thermal overload protection by the manufacturer.

26-052 Overcurrent Protection of Instrument Potential (Voltage) Transformers

(1) Except under the conditions of Subrules (2), (3), and (4), instrument potential (voltage) transformers shall have primary fuses rated not more than:

- (a) 10 amperes for low-potential circuits; and
- (b) 3 amperes for high potential circuits.

(2) Primary fuses shall not be installed where they would be connected in the grounded primary neutral connection of "Y" or "Open Y" connected potential (voltage) transformers.

(3) Primary fuses may be omitted:

- (a) Where the transformers are protected by adequate power fuses or other adequate protective devices for clearing equipment failures; and convenient means are provided for disconnecting the transformers on the primary side;
- (b) Where potential (voltage) transformers and meters, operating at low potential and installed in suitable enclosures, are used in place of self-contained meters; or
- (c) Where both potential (voltage) and current transformers are supplied by the manufacturer in a single enclosure filled with an acceptable

insulating medium, which may be air for use on low potential circuits if the enclosure is non-combustible, and where:

- (i) The primary terminals outside the enclosure are common to both potential (voltage) and current transformers; and
- (ii) The enclosures are installed outdoors if filled with an insulating medium which will burn in air.

(4) The installation of primary fuses in the centre (common) phase primary connection of "Open-delta" connected potential (voltage) transformers shall be subject to agreement between the supply authority and the inspection department.

26-054 Marking of Transformers. Each transformer shall be provided with a nameplate bearing the following marking:

- (a) Maker's name;
- (b) Rating in kva;
- (c) Rated full-load temperature rise;
- (d) Primary and secondary voltage ratings;
- (e) Frequency in cycles per second;
- (f) Liquid capacity, if of the liquid-filled type, in Imperial gallons;
- (g) Type of liquid to be used, if it is to be filled with an approved liquid that will not burn in air; and
- (h) Impedance voltage, if of the power or distribution type.

Capacitors

26-056 Capacitors Excepted. The requirements of Rules 26-054 to 26-070 shall not apply to capacitors which form component parts of factory assembled electrical equipment nor to surge protective capacitors.

26-058 Capacitors Installed Indoors. Flammable oil-insulated capacitors located indoors shall be installed in accordance with Rule 26-008.

26-060 Guarding of Capacitors. All live parts of capacitors shall be inaccessible to unauthorized persons.

26-062 Grounding of Capacitors. Non-current-carrying metal parts of capacitors shall be grounded.

26-064 Conductor Size for Capacitors

(1) The continuous current rating of capacitor feeder circuits and branch circuits shall be not less than 135 per cent of the rated current of the capacitor.

(2) Where a branch circuit supplies two or more capacitors the overcurrent device protecting the conductors of the branch circuit may be considered as protecting taps made thereto to supply single capacitors provided that:

- (a) The tap is not more than 25 feet long; and
- (b) Its conductors comply with Subrule (1) and also have an ampacity not less than $\frac{1}{3}$ that of the branch circuit conductors from which they are supplied.

26-066 Overcurrent Protection. An overcurrent device, rated or set as low as practicable without causing unnecessary opening of the circuit, but not exceeding 250 per cent of the rated current of the capacitor except by special permission shall be provided in each ungrounded conductor of a capacitor feeder or branch circuit.

26-068 Disconnecting Means for Capacitor Feeders or Branch Circuits

(1) A disconnecting means having a continuous ampacity not less than 135 per cent of the rated current of the capacitor shall be provided in each ungrounded conductor of the capacitor feeder or branch circuit.

(2) The disconnecting means shall be within sight of and not more than a distance of 30 feet from the capacitors unless the disconnecting means can be locked in the open position.

26-070 Special Provisions for Motor Circuit Capacitors. A capacitor connected on the load side of a motor circuit disconnecting means shall be subject to the following special provisions:

- (a) Individual disconnecting means for the capacitor need not be provided;
- (b) If connected on the load side of the motor overcurrent device, individual overcurrent protection for the capacitor need not be provided;
- (c) The rating of the disconnecting means and the overcurrent device and the size of the motor circuit conductors need not be greater than would be required without the capacitor;
- (d) The continuous current ratings of the conductors connecting the capacitor to the motor circuit shall be in accordance with Rule 26-064 and shall be not less than one-third that of the motor-circuit conductors;
- (e) If connected on the load side of the motor overload device:
 - (i) The rating of the capacitor shall not exceed the value required to raise the no-load power factor of the motor to unity; and
 - (ii) The rating or setting of the overload device shall be reduced to a value corresponding with the current obtained with the improved power factor.

26-072 Transformers used with Capacitors. The kva rating of a transformer used with a capacitor shall be not less than 135 per cent of the capacitor kva rating.

26-074 Drainage of Stored Charge of Capacitors

(1) Capacitors shall be provided with a means of draining the stored charge.

(2) The draining means shall be such that the residual voltage will be reduced to 50 volts or less after the capacitor is disconnected from the source of supply:

- (a) Within one minute in the case of capacitors rated at 750 volts or less; and
 - (b) Within 5 minutes in the case of capacitors rated at more than 750 volts.
- (3) The discharge circuit shall be:
- (a) Permanently connected to the terminals of the capacitor or capacitor bank; or

(b) Provided with automatic means of connecting it on removal of voltage from the line.

(4) The discharge circuit shall not be switched or connected by manual means.

(5) Motors, transformers, or other electrical equipment capable of constituting a suitable discharge path, connected directly to capacitors without the interposition of a switch or overcurrent device, constitute a suitable discharge path.

Storage Batteries

26-076 Scope. Rules 26-078 to 26-086 apply to the installation of lead-acid, nickel-cadmium, and nickel-iron batteries of both the floating-service station type and the charge-discharge industrial type.

26-078 Location of Storage Batteries

(1) Storage batteries shall be kept in battery rooms or enclosures used for no other purpose when:

- (a) The aggregate capacity at the 8-hour discharge rate exceeds 5 kilowatt hours; and
- (b) The batteries are in open jars or tanks.

(2) Where there are exposed live parts of 45 volts or higher, batteries shall be kept in a room or enclosure accessible only to authorized personnel.

(3) Storage batteries shall not be subjected to ambient temperatures:

- (a) Exceeding 45° C. (113° F.); or
- (b) Below the freezing point of the electrolyte.

26-080 Ventilation of Battery Rooms

(1) Storage battery rooms or areas shall be thoroughly ventilated.

(2) Adequate means shall be adopted for sufficient diffusion and ventilation of the gases from the battery to prevent the accumulation of an explosive mixture.

26-082 Cell Mounting. Battery cells shall be mounted in wooden or steel trays or on racks as follows:

- (a) The tray or rack shall be level;
- (b) The tray or rack shall be protected against corrosion from the battery electrolyte;
- (c) The cell mounting surface of the tray or rack shall be covered with an insulating material having a dielectric strength of at least 1,500 volts;
- (d) Racks shall be of sufficient strength to carry the weight of the battery;
- (e) Battery cells having glass or plastic containers shall rest on a resilient surface; and
- (f) Battery cells shall be spaced a minimum of $\frac{3}{8}$ inch apart to allow for normal expansion of containers due to temperature change.

(1) The wiring method used in storage battery rooms shall be:

- (a) Bare conductors which shall not be taped;

- (b) Open wiring;
- (c) Rigid conduit or electrical metallic tubing subject to the following:
 - (i) The conduit or tubing shall be of corrosion-resisting materials or be suitably protected from corrosion;
 - (ii) The end of the raceway shall be tightly sealed with sealing compound, rubber tape or other acceptable material, to resist the entrance of electrolyte by spray or creeping;
 - (iii) The conductor shall issue from the raceway through a substantial glazed insulating bushing;
 - (iv) At least 12 inches of the conductor shall be free from the raceway where connected to a cell terminal;
 - (v) The raceway exit shall be located at least 12 inches above the highest cell terminal to reduce electrolyte creepage or spillage entering the raceway or conduit;
- (d) Mineral-insulated cable provided it is adequately protected against corrosion where it may be in direct contact with acid or acid spray; or
- (e) Aluminum-sheathed cable provided it has suitable corrosion-resistant protection where necessary.

(2) Varnished-cambric-insulated conductors shall not be used in storage battery rooms.

26-086 Lighting Fixtures and Switches. Lighting fixtures and switches in storage battery rooms shall be of the totally-enclosed, gasketed type if unsealed jars or tanks are used.

Lightning Arresters

26-088 Use and Location of Lightning Arresters

- (1) Lightning arresters shall be installed in every distributing substation in locations where lightning disturbances are of frequent occurrence and no other adequate protection is provided.
- (2) Lightning arresters installed for the protection of utilization equipment:
 - (a) May be installed either inside or outside the building or enclosure containing the equipment to be protected;
 - (b) Shall be isolated by elevation, enclosed or made otherwise inaccessible to unauthorized persons.

26-090 Indoor Installations of Lightning Arresters

- (1) Where lightning arresters are installed in a building, they shall be located well away from all equipment other than that which they protect and from passageways and combustible parts of buildings.
- (2) Where lightning arresters containing oil are installed in a building, they shall be separated from other equipment by walls conforming to electrical equipment vault construction requirements in accordance with Rules 26-156 to 26-170.

26-092 Outdoor Installations of Lightning Arresters. Where arresters containing oil are located outdoors, means of draining or absorbing oil shall be provided by:

- (a) Ditches or drains; or
- (b) Paving the yard in which the arrester is contained with cinders or other absorbent material to an adequate depth.

26-094 Choke Coils for Lightning Arresters. Where choke coils are used in connection with a lightning arrester, the coils shall be installed between the lightning arrester tap and the apparatus to be protected.

26-096 Connection of Lightning Arresters. The connection between arrester and line conductor shall be:

- (a) Of copper wire or cable or some approved equivalent;
- (b) Not smaller than No. 6 AWG;
- (c) As short and as straight as practicable with a minimum of bends; and
- (d) Free of sharp bends and turns.

26-098 Insulation of Lightning Arrester Accessories. The insulation from ground and from other conductors for accessories such as gap electrodes and choke coils shall be at least equal to the insulation required at other points of the circuit.

26-100 Grounding of Lightning Arresters. Lightning arresters shall be grounded in accordance with Section 10.

Resistance Devices

26-102 Location of Resistance Devices. Resistance devices, including wiring to the resistance elements, shall be installed so that danger of igniting adjacent combustible material will be reduced to a minimum.

26-104 Conductors for Resistance Devices. Insulated conductors used for connection between resistance elements and controllers, unless used for infrequent motor starting, shall conform to the following:

- (a) As indicated in Table 19 as being suitable for the temperature involved and in no case less than 90°C. (194° F.);
- (b) Conductors having an approved flame-retarding outer covering may be grouped where the potential between any two conductors in the group does not exceed a maximum of 75 volts.

26-106 Uses of Incandescent Lamps as Resistance Devices

- (1) Incandescent lamps may be used:
 - (a) As protective resistors for automatic controllers; or
 - (b) By special permission, as resistors in series with other devices.
- (2) Where incandescent lamps are used as resistors, they shall:
 - (a) Be mounted in porcelain receptacles on incombustible supports;

- (b) Be arranged so that they cannot be subjected to a voltage greater than that for which they are rated;
- (c) Be provided with a permanently attached nameplate showing the wattage and voltage of the lamp to be used in each receptacle;
- (d) Not carry or control the main current; and
- (e) Not constitute the regulating resistance of the device.

Electric Heating and Cooking Appliances

26-108 Location of Non-Portable Appliances. Non-portable electric heating and cooking appliances shall be installed so that the danger of igniting adjacent combustible material is reduced to a minimum.

26-110 Rating of Portable Appliances. The input to portable electric heating and cooking appliances for use on nominal 115-volt branch circuits protected by overcurrent devices rated or set at not more than 15 amperes shall not exceed 1,500 watts at 115 volts.

26-112 Separate Built-in Cooking Units

(1) Separate built-in cooking units without integral overcurrent protection shall be provided with the necessary overcurrent protection in a separate panel as required by the specifications to which they were originally approved.

(2) Tap circuit conductors feeding individual separate built-in cooking units from a single branch circuit shall have an ampacity of not less than the ampere rating of the unit or heating element which they supply as determined from Tables 1 to 4, whichever is applicable.

(3) Where tap circuit conductors feed individual separate built-in cooking units having integral overcurrent protection the ampacity of the tap circuit conductor shall, in addition to complying with the requirements of Subrule (2), be not less than that of the single branch circuit supplying them unless the tap circuit is not over 25 feet long in which case the ampacity may be $\frac{2}{3}$ that of the single branch circuit conductors.

26-114 Supply Connections for Appliances

(1) Electric heating and cooking appliances shall have only one point of connection for supply.

(2) The point of connection for a separate built-in cooking unit without integral overcurrent devices may be in a separate panel incorporating the necessary overcurrent devices for the individual heating elements.

(3) Appliances such as ranges and clothes dryers may be cord-connected using a separable connector or an attachment plug and receptacle.

(4) Notwithstanding Subrule (3) hereof, as of and from July 1st, 1971, where a clothes dryer is installed in a residential occupancy, the following provisions shall apply:

- (a) An approved general purpose receptacle having a rating not less than the demand load of the clothes dryer and at least 30 amperes, 230 volts, 4-wire rating shall be installed for the supply of electrical energy to such clothes dryer;

(b) The clothes dryer shall be cord-connected to the receptacle referred to in paragraph (a) by means of an approved general purpose cord and attachment plug cap having the same rating as such receptacle;

(c) Where a cable is installed to supply a clothes dryer, it shall terminate in a box containing a receptacle meeting the requirements of paragraph (a) of this Subrule.

(5) Notwithstanding Subrule (3) hereof, as of and from July 1st, 1971, the following provisions shall apply to free-standing electric ranges in residential occupancies:

(a) An approved general purpose receptacle having a rating not less than the demand load of the electric range to be supplied therefrom and at least 50 amperes, 230 volts, 4-wire rating shall be installed for the supply of electric energy to such electric ranges;

(b) The electric ranges shall be cord-connected to the receptacle referred to in paragraph (a) by means of an approved general purpose cord and attachment plug cap having the same rating as such receptacle;

(c) Where a cable is installed to supply electric ranges, it shall terminate in a box containing a receptacle meeting the requirements of paragraph (a) of this Subrule.

26-116 Appliances Exceeding 1,500 watts

(1) Every electric heating and cooking appliance rated at more than 1,500 watts shall be supplied from a branch circuit used solely for one appliance except that more than one appliance may be connected to a single-branch circuit provided that the following is used:

(a) A multiple-throw manually-operated device which will permit only one such appliance to be energized at one time; or

(b) An automatic device which will limit the total load to a value which will not cause operation of the overcurrent devices protecting the branch circuit.

(2) Every electric heating and cooking appliance rated at more than 1,500 watts shall be controlled by an indicating switch which may be in the circuit or on the appliance except that:

(a) If the rating of the appliance does not exceed 30 amperes, an attachment plug and receptacle may be used instead of a switch; and

(b) If the appliance has more than one individual heating element each controlled by a switch, no main switch need be provided.

(3) For the purpose of this Rule, two or more separate built-in cooking units together with their overcurrent devices shall be considered as one appliance.

26-118 Signals for Heated Appliances. Where glue pots, soldering irons, or appliances intended to be applied to combustible materials are used in other than private dwelling occupancies:

- (a) Each appliance or group of appliances shall be provided with an indicating switch and a red pilot light; or

- (b) Each appliance shall be equipped with an integral temperature limiting device, in which case, the pilot light may, by special permission, be omitted.

26-120 Installation of Storage-Tank Water Heaters

(1) Electric storage-tank water heaters, other than those having a tank open to the atmosphere, shall be controlled by means of a temperature-regulating device and shall also be provided with secondary protection which will open if the water attains a temperature of 96° C. (205° F.).

(2) The temperature regulating device referred to in Subrule (1) shall regulate the temperature of the water so that it does not exceed 90° C. (194° F.).

(3) Electric storage-tank water heaters shall be located so that the electric supply connections, service covers, and nameplate markings will be accessible after completion of the building structure.

(4) Every electric storage-tank water heater shall be supplied from a branch circuit used solely for the heater.

26-122 Infra Red Drying Lamps. The following requirements shall apply to the installation of infra red drying lamps:

- (a) Branch circuits shall be protected in accordance with Section 14;
- (b) Lampholders of the medium-base, unswitched, porcelain type or other types approved for the service, may be used with lamps rated at 300 watts or less;
- (c) Screw-shell lampholders shall not be used with lamps rated at more than 300 watts unless especially approved for the purpose;
- (d) In industrial occupancies, lampholders may be operated in series on circuits of more than 150 volts to ground where adequate spacings for the higher circuit voltage are provided.

26-124 Ventilated Drying and Baking Areas.

Drying and baking areas, provided with positive mechanical ventilation adequate to prevent the formation of inflammable concentrations of vapours, and provided with effective interlocks to de-energize all electrical equipment (other than equipment approved for Class I hazardous locations) in case the ventilating equipment is inoperative, may be classed as non-hazardous if the code-enforcing authority so judges.

Receptacles

26-126 Location of Receptacles

(1) There shall be installed in each room of residential premises not occupied seasonally only at least three receptacles constructed to accommodate parallel blade caps, provided that:

- (i) living rooms shall contain at least four receptacles constructed to accept parallel blade caps;
- (ii) dining rooms shall contain at least two receptacles constructed to accept parallel blade caps, except in multi-family dwellings of six units or more, where one such receptacle may be used in each dining room.

(2) There shall be installed in each room of residential premises occupied seasonally only, the following number of receptacles constructed to accommodate parallel blade caps:

- (i) 2 receptacles in each room having up to 100 square feet of floor area;
- (ii) 3 receptacles in each room having from 100 to 150 square feet of floor area;
- (iii) 4 receptacles in each room having over 150 square feet of floor area.

(3) The receptacles referred to in Subrules (1) and (2) shall, insofar as practicable, be placed equal distances apart.

(4) Receptacles shall not be placed in ironing cabinets, cupboards, wall cabinets, nor in like enclosures, except where they are intended for use with specific appliances, other than heating and cooking appliances which are located within the enclosure.

(5) Each single family residence and each residence of row housing used for year-round habitation shall have at least one receptacle constructed to accommodate parallel blade caps installed so as to be readily accessible for the use of appliances which, of necessity, are used outdoors.

(6) A receptacle shall be installed at counter height in each bathroom, in a location difficult of access from the bath.

26-128 Appliance Receptacles

(1) There shall be installed in each kitchen of a residential occupancy:

- (a) At least three split receptacles where the occupancy is a single-family dwelling as defined in Rule 6-042; and
- (b) At least two split receptacles where the occupancy is a suite of a multi-family dwelling.

(2) The split receptacles in Subrules (1) (a) and (1) (b) shall each be supplied by a three-wire circuit to which no other outlets are connected.

(3) At least two of the split receptacles required by Subrule (1) (a) and one of the split receptacles required by Subrule (1) (b) shall be installed in the working area of the kitchen above counter level.

(4) Where two split receptacles are installed above the working counter they shall be separated a distance of at least six feet, where practicable.

(5) Where a separation of six feet between receptacles is not practicable, they may be grouped.

(6) All of the receptacles required by Subrule (1) shall be located so as to be readily accessible.

(7) There shall be installed in each area of a residential occupancy used as a laundry room or utility room, a receptacle supplied by a circuit to which no other outlets are connected.

(8) In this Rule, residential occupancy includes residences used either on a permanent or seasonal basis.

26-130 Receptacles

(1) Receptacles shall be constructed so that no outlet section will accommodate both parallel and tandem blade caps.

(2) Where receptacles constructed to accommodate parallel blade caps or receptacles constructed to accommodate tandem blade caps are installed, they shall be of the 3-pole type which will also accommodate caps with a U-shaped or round grounding pin.

(3) Receptacles constructed so as to accommodate parallel blade caps shall be rated 125 volts, 15 amperes.

(4) Receptacles constructed so as to accommodate tandem blade caps shall be rated 250 volts, 15 amperes.

(5) Receptacles connected to circuits having different voltages, frequencies or types of current (ac or dc) on the same premises shall be of such design that attachment plugs used on such circuits are not interchangeable.

(6) Receptacles shall not be of the screw base type.

(7) Receptacles with exposed terminals shall be used only in fittings, metal troughs, and similar devices.

(8) Receptacles located in floors shall be enclosed in floor boxes approved for the purpose.

(9) Where a receptacle is installed in a location where there is more than normal risk of injury or loss of life through shock:

(a) The receptacle shall have an extra contact for grounding; and

(b) The receptacle and cap shall be polarized.

(10) Where grounding type receptacles as described in Subrule (2) are used in existing installations to replace the ungrounded type, the grounding terminal shall be effectively connected to ground and one of the following methods may be used:

(a) By bonding to grounded metallic raceway or cable sheath;

(b) By connection to the system ground by means of a separate grounding conductor; or

(c) By bonding to an adjacent grounded metallic cold water pipe.

26-132 Three-Wire Receptacle Branch Circuits

(1) Where receptacles are connected to three-wire branch circuits:

(a) The receptacles shall be of an approved type having separate terminals for the connection of the ungrounded conductors; and

(b) The branch circuit shall comply with Rule 14-000.

(2) Duplex receptacles having one section which will accommodate parallel blade caps and the other section which will accommodate tandem blade caps shall be connected only to 3-wire branch circuits that:

(a) Comply with Rule 14-000; and

(b) Are protected by overcurrent devices rated or set at not more than 15 amperes.

26-134 Receptacles for Appliances

(1) Receptacles connected to branch circuits for the supply of equipment shall be rated not less than the minimum ampacity of the branch circuit conductors as required by the rules in Section 8.

(2) Receptacles installed for the connection of appliances rated at 125/250 volts such as ranges and clothes dryers shall be of the 3-pole 4-wire grounding type.

Arc Lamps

26-136 Location of Arc Lamps

(1) Outdoor arc lamps, attached to a building and supplied from the interior installation, shall be suspended at least 8 feet above the ground level.

(2) Indoor arc lamps shall be hung out of reach or shall be protected in an acceptable manner.

26-138 Conductors to Arc Lamps

(1) Leads to arc lamps shall have an ampacity of approximately 150 per cent of the normal current of the lamp.

(2) The leads shall be stranded where:

(a) The size exceeds No. 14 AWG; and

(b) The lamp suspension provides for raising and lowering.

26-140 Overcurrent Protection for Arc Lamps. An overcurrent device shall be provided for each arc lamp or series of lamps.

26-142 Resistors or Regulators

(1) Resistors or regulators shall be enclosed in incombustible cases and located away from readily combustible material.

(2) Incandescent lamps shall not be used as resistors or regulators.

26-144 Globes and Spark Arresters

(1) Arc lamps other than those of the enclosed arc type shall be equipped with globes and spark arresters.

(2) Globes shall be guarded by wire netting having a mesh of not more than $1\frac{1}{4}$ inches.

Heating Equipment

26-146 Scope. Rules 26-148 and 26-150 apply to circuits supplying electric power for the operation of heating equipment whose individual input does not exceed 400,000 Btu per hour, and which uses solid, liquid or gaseous fuels, but do not apply to portable heating equipment.

26-148 Supply Connections for Heating Equipment

(1) All electric power for the heating unit and associated equipment operating in connection therewith shall be obtained from a single branch circuit which shall be used for no other purpose.

(2) For the purpose of this Rule, circulating pumps, and similar equipment need not be considered as associated equipment, provided that such equipment is not essential for the safe operation of the heating unit.

(3) The branch circuit may be tapped as necessary to supply the various pieces of associated equipment, but there shall be no overcurrent protection supplied in the tap to any piece of associated equipment the operation of which is essential to the proper operation of the heating unit, unless the control equipment is of such a nature that the heating unit will be shut down if the associated equipment fails to function due to the operation of the overcurrent device.

26-150 Disconnecting Means. Suitable disconnecting means shall be provided for the branch circuit.

26-152 Heating Equipment Rated At More than 400,000 Btu Per Hour

(1) Heating equipment whose individual input exceeds 400,000 Btu per hour, and which uses solid, liquid or gaseous fuels, shall be installed in accordance with Subrules (2) and (3).

(2) All electric power for the heating unit and associated equipment operating in connection therewith shall be obtained from a single feeder or branch circuit which shall be used for no other purpose.

(3) A suitable disconnecting means shall be provided for the feeder or branch circuit.

26-154 Mechanical Protection of Conductors. All branch circuit or tap conductors within 5 feet of the floor shall be adequately protected from mechanical injury.

Electrical Equipment Vaults

26-156 General

(1) For purposes of rules pertaining to the construction of electrical equipment vaults, the single word vault(s) shall be understood to have the same meaning as electrical equipment vault(s).

(2) Vaults shall not be used for storage purposes.

(3) Vaults, when required by the rules of this Code, shall be constructed in accordance with the following Rules 26-158 to 26-170.

26-158 Vault Size. Vaults shall be of such dimensions as to accommodate the installed equipment with at least the minimum clearances specified in the pertinent Sections of this Code.

26-160 Walls, Roofs and Floors

(1) Walls shall consist of:

- (a) Reinforced concrete not less than 6 inches thick;
- (b) Hard burned clay brick or solid concrete block not less than 8 inches thick; or
- (c) Hollow concrete block of the cinder, clay, Haydite or calcareous aggregate type, all not less than 12 inches thick.

(2) Roofs or ceilings shall consist of reinforced concrete of adequate strength for the conditions, but in no case shall they be less than 6 inches thick.

(3) Floors shall consist of reinforced concrete of adequate strength for the conditions, but in no case shall they be less than 6 inches thick, except that where they are at excavation level, they may be of reinforced concrete not less than 4 inches thick.

(4) Walls, roofs or ceilings, and floors shall be adequately anchored together in a manner designed to resist dislodgement by explosion.

(5) Walls, floors, roofs or ceilings which form part of the building proper, and which comply with the foregoing requirements, shall be acceptable, all or in part, for standard vault construction.

(6) Load bearing partitions shall not form walls of a vault.

(7) Other types of fire-resisting construction may be accepted by special permission provided they have adequate strength for the application and a fire resisting rating of not less than $2\frac{1}{2}$ hours.

26-162 Pipes and Ducts. Any pipes or ducts not necessary for fire protection or proper operation of the electrical installation shall not enter or pass through a vault.

26-164 Ventilation

(1) In a vault where self-cooled transformers or other equipment is installed, sufficient ventilation shall be provided so as to prevent the ambient air temperature exceeding 40° C. (104° F.).

(2) In a vault ventilated directly from an outdoor area by natural ventilation without the use of ducts, and where the transformers are the principal source of heat, the combined net area of inlet and outlet openings shall be not less than 3 square inches per kva of transformer capacity with a minimum of 1 square foot, except that:

- (a) Where transformers in the power class are installed, ventilation requirements may be based on the actual full-load losses; and
- (b) When one or more transformers are installed for emergency purposes only, and are not normally energized, they need not be considered in determining ventilation requirements.

(3) The inlet for fresh air shall lead from an outdoor area and shall terminate at a point not more than 3 feet above the floor level of the vault.

(4) Ventilation openings shall be covered by durable gratings, screens, louvers, or the equivalent, according to the treatment required to avoid unsafe conditions.

(5) Ventilating ducts shall be constructed of non-combustible materials, other than aluminum, and shall be constructed and installed to the satisfaction of an inspector.

(6) Where mechanical ventilation is installed, it shall be arranged so that:

- (a) The vault ventilation is separate from the main building system;
- (b) The vault temperature is thermostatically controlled;
- (c) The ventilating fan is located so that it may be serviced without danger to personnel;
- (d) A high temperature alarm is provided;
- (e) The fan is cut off automatically in the event of fire; and

(f) A filter is provided in the air inlet if there is a possibility of dirt being drawn in.

(7) Where a ventilation duct or opening may pierce a vault enclosure into the building proper, or into an adjoining cut-off fire section or other building:

(a) The duct or opening shall be provided with a $\frac{3}{8}$ -inch steel plate automatic fire damper at the point where it emerges from the vault;

(b) The damper shall be mounted in a No. 10 MSG steel damper box provided with a hand hole for damper servicing;

(c) The damper box shall be bolted or be otherwise firmly secured to the vault structure so that, in the event of duct collapse, the damper will continue to function as a fire cut-off;

(d) The damper shall be mounted on the vault side of the opening, if it be of the swing type, so that pressure due to fire in the vault will tend to keep the damper closed;

(e) The automatic damper releasing device or system, such as a fusible link or other automatic fire detector, shall be of an approved type, arranged to close automatically only on the occurrence of fire within the vault, and not on temperature rise due to overheated equipment;

(f) Automatic dampers shall be designed and constructed so as to minimize the possibility of accidental closing;

(g) Damper hinge pins shall be of suitable non-ferrous metal with ample clearance to prevent binding at hinge joints; and

Dampers shall be checked for operation at least annually.

26-166 Drainage

(1) A vault shall be provided with a drain or other means which will carry off an accumulation of oil or water in the vault.

(2) Where local by-laws prohibit the draining of oil into the public sewage system, the drain may empty into a covered sump or pit, provided the cover is non-combustible and a trap is provided between the drain and the sump or pit to prevent flame travel to the latter.

(3) The floor shall slope downwards towards the drain with a minimum pitch of $\frac{1}{4}$ inch per foot.

26-168 Doors

(1) A doorway giving access to a vault shall be provided with an approved fire door except, with the permission of an inspector, doorways giving direct access to the outdoors.

(2) The use of a fire door in openings giving access to a vault from an outdoor area may be waived at the discretion of the inspection department.

(3) Each fire door shall be provided with hardware approved for use with that particular door.

(4) All doorways communicating with the building proper, or which may communicate fire to other property, shall be provided with a concrete sill of sufficient height to confine within the vault all the oil from the

largest transformer or other piece of equipment installed therein, and in no case shall it be less than 4 inches in height.

(5) Doors shall open outward from the vault.

(6) Each door shall be provided with a substantial lock or padlock, and shall be kept locked so that unauthorized persons will not have access to the vault.

26-170 Illumination

(1) Each vault shall be provided with an adequate lighting system, controlled by one or more switches located near the entrance.

(2) Lighting fixtures shall be located so that they may be relamped without danger to personnel.

(3) Each vault shall have a grounding type receptacle, installed in accordance with Rule 26-130 (9) and located in a convenient location inside the vault and near the entrance.

Fences

26-172 General. Rules 26-174 to 26-200 apply to fences for guarding electrical equipment, especially transformers, when located outdoors.

26-174 Clearance to Equipment. The clearances between the fence and the frame or enclosure of any electrical equipment shall be not less than 8 feet, except that:

(a) Where live parts are exposed and the space is limited, a clearance of not less than $3\frac{1}{2}$ feet may be permitted provided that the height of the fence enclosure is increased in accordance with Rule 26-176;

(b) Where all live parts within the fence enclosure are totally enclosed, the clearances may be reduced to not less than $3\frac{1}{2}$ feet.

26-176 Height of Fence. The fence, excluding barbed wire, shall be not less than 6 feet high and, if the clearance is less than 8 feet as permitted by paragraph (a) of Rule 26-174, and if the equipment within the enclosure is not totally enclosed, the height of the fence shall be increased by one foot for each foot of reduced clearance.

26-178 Barbed Wire. The fence shall be topped with not fewer than 3 strands of barbed wire.

26-180 Setting of Posts

(1) Posts shall be set at a depth of $3\frac{1}{2}$ feet for end, gate, and corner posts and 3 feet for line posts wherever ground conditions will permit.

(2) Where ground conditions will not permit this depth, extra bracing or concrete footings shall be provided.

(3) Concrete footings may be required for metal posts in any case.

(4) The spacing between posts shall be 10 feet maximum.

(5) End, gate, and corner posts shall be adequately braced against strain.

26-182 Gates

(1) Gates shall preferably open outwardly but, if it is necessary that they open inwardly, the gates when open shall not come into contact with the frame or enclosure of any electrical equipment.

(2) Gates shall be adequately braced as necessary and double gates shall be used where the width of opening exceeds 5 feet.

(3) Centre stops shall be provided for double gates.

(4) Gates shall have provision for securing with padlocks.

26-184 Chain Link Fabric

(1) Chain link fabric shall be securely attached to all posts and gate frames.

(2) Chain link fabric shall be reinforced as necessary at top and bottom to prevent distortion.

(3) Chain link fabric shall extend to within 2 inches of the ground.

26-186 Use of Wood

(1) Wood is not permitted as a fence material in many localities and should not be considered unless it is known that the inspection department will permit its use.

(2) Where wood slats are permitted, they shall:

(a) Extend to within 2 inches of the ground;

(b) Be placed on the outside of the stringers; and

(c) Be spaced not more than $1\frac{1}{2}$ inches apart, except that, where the frame or enclosure of any electrical equipment is less than 6 feet from the fence, no spacing will be permitted.

26-188 Posts

(1) Metal posts shall be:

(a) Of galvanized steel;

(b) 3-inch nominal pipe size (7.59 pounds per foot) for corner, end, and gate posts; and

(c) 2-inch nominal pipe size (3.65 pounds per foot) for line posts.

(2) Wood posts shall be not less than 6 by 6 inches nominal size, and shall be suitably protected against decay.

26-190 Chain Link Fabric. Chain Link fabric shall be:

(a) Made of galvanized steel wire not less than 0.144 inch in diameter;

(b) Have a mesh not greater than two inches; and

(c) Be not less than 6 feet in width.

26-192 Top Rails. Top rails shall be:

(a) Of galvanized steel;

(b) Of $1\frac{1}{4}$ -inch nominal pipe size (2.25 pounds per foot); and

(c) Provided with suitable expansion joints where necessary.

26-194 Wood Stringers. Wood stringers shall be not less than 2 by 6 inches nominal size if two are used and not less than 2 by 4 inches nominal size if three are used.

26-196 Wood Slats. Wood slats shall be not less than 1 by 4 inches nominal size.

26-198 Use of Aluminum. Aluminum may be used for all metal parts.

26-200 Preservative Treatment

(1) Steel or iron parts shall be either hot dip galvanized or electro-plated with non-ferrous metal.

(2) Aluminum parts shall be suitably treated against corrosion where in contact with the earth or with concrete.

(3) Wood shall be impregnated, treated, or well painted before assembly and, where in contact with the earth or concrete, shall be impregnated or otherwise suitably treated against decay.

SECTION 28—MOTORS**General**

28-000 Scope. This Section applies to the installation of electric motors including installation, wiring methods conductors, protection, and control and is supplementary to, or amendatory of, the general requirements of this Code.

28-002 Location. Motors shall be installed only in locations where ordinary conditions exist unless they are of types specifically approved for the location.

28-004 Ventilation

(1) Adequate ventilation shall be provided so as to prevent the development around motors of ambient air temperatures exceeding 40° C. for integral horsepower motors and 30° C. for fractional horsepower motors, or the motor shall be specifically marked as suitable for use in the particular higher ambient temperatures in which they will operate.

(2) In locations where dust or flying material will collect in or on motors in such quantities as to interfere with the ventilating or cooling of motors, and thereby causing dangerous temperatures, suitable types of enclosed motors which will not heat under prevailing conditions, shall be used.

28-006 Guarding. Exposed live parts of motors and controllers operating at 50 volts or more between terminals shall be guarded against accidental contact by enclosure or by location, except that stationary motors having commutators, collectors and brush rigging located inside of motor end brackets and not conductively connected to supply circuits operating at more than 150 volts to ground, may have live parts exposed.

28-008 Methods of Guarding. The following are considered to be acceptable methods of guarding motors by:

(a) Installation in a room or enclosure which is accessible only to qualified persons;

- (b) Installation on a suitable balcony, gallery, or platform, elevated and arranged so as to exclude other than qualified persons;
- (c) Elevation 8 feet or more above the floor;
- (d) Guard rail if the motor operates at 750 volts, or less.

Wiring Methods

28-010 Stationary Motors

(1) The wiring method for stationary motors rated 1 horsepower or more at 110 volts or more shall be either rigid conduit, flexible conduit, electrical metallic tubing, armoured cable, mineral-insulated cable, or aluminum-sheathed cable, except:

- (a) In private residences; or
- (b) Where,
 - (i) Maintenance requires a speed of changeover that makes it impractical;
 - (ii) The overall size of conductors makes it impractical to enclose them in conduit;
 - (iii) The motor leads are adequately protected by other acceptable means; or
 - (iv) It is essential that noise or vibration of the motor is not transmitted.

(2) The wiring method for stationary motors rated less than 1 horsepower, or less than 110 volts, or which are installed in private residences, may be armoured cable, or, if not subject to mechanical injury, non-metallic-sheathed cable.

28-012 Portable Motors. Connections to portable motors may be made with flexible cord which shall have a serviceability not less than that of Type S cord unless the motor forms part of an approved motor-operated device.

Conductor Sizes

28-014 Conductors, Individual Motors

(1) The conductors of a branch circuit which supplies an individual motor (other than a motor used for short-time, intermittent, periodic, or varying duty) shall be of a size at least that specified in Table 26 for the full load current rating of the motor.

(2) For motors having full load current ratings larger than those included in Table 26, the size of the branch circuit conductors shall be selected from Tables 2 or 4, and the conductors shall have an ampacity at least equal to 125 per cent of the full load current rating of the motor.

(3) For motors used on short-time, intermittent, periodic, or varying duty, the size of the branch circuit conductors shall be selected from Tables 2 or 4, and the conductors shall have an ampacity at least equal to the full load current rating of the motor multiplied by the percentage given in Table 27 for the duty involved, except that a lower percentage may be used for varying duty by special permission.

(4) Sub-circuit conductors, supplying individual motors from a single set of branch circuit overcurrent devices protecting two or more motors, may be selected

in accordance with Subrule (1), provided that the sub-circuit conductors are not over 25 feet long and have an ampacity at least one-third that of the branch circuit conductors from which they are supplied.

(5) Sub-circuit conductors having a length of more than 25 feet, and supplying individual motors from a single set of branch circuit overcurrent devices protecting two or more motors, shall have an ampacity at least equal to that specified for the branch circuit conductors from which they are supplied.

28-016 Branch Circuit Conductors, Two or More Motors

(1) Branch circuit conductors supplying two or more motors shall be selected from Tables 2 or 4, and shall have an ampacity at least equal to the sum of the full load current ratings of all the motors in the group plus 25 per cent of the full load current rating of the largest motor in the group.

(2) Where only a part of the group of motors can operate at any one time, or where the motors are used on short-time, intermittent, periodic, or varying duty, special permission may be granted for the use of branch circuit conductors of an ampacity less than that specified above, provided that:

- (a) The conductors have sufficient ampacity for the maximum load, determined by the size and number of motors and the character of their loads and duties; and
- (b) The rating or setting of the branch circuit overcurrent devices is in accordance with the requirements of this Section for the size of the conductors used.

28-018 Feeder Conductors

(1) For a feeder supplying motor branch circuits only, the size of the feeder conductors shall be calculated in accordance with Rule 28-016 (1) or (2).

(2) Where a feeder supplies both motor loads and other loads, the ampacity of the conductors shall be calculated in accordance with Rules 28-014 and 28-016 plus the requirements of the other loads.

(3) The size of a tap from a feeder to a single set of overcurrent devices protecting a motor branch circuit shall be not less than the size of the feeder except that if the conductors of the tap are not over 25 feet long and have an ampacity at least one-third that of the feeder, the size of the tap may be calculated in accordance with Rules 28-014 and 28-016.

28-020 Secondary Conductors

(1) Conductors connecting the secondaries of wound rotor motors to their controllers shall be selected from Tables 2 or 4 and shall have an ampacity at least:

- (a) 125 per cent of the full load secondary current of the motor if for continuous duty; or
- (b) The percentage of the full load specified in Table 27 if for other than continuous duty.

(2) Ampacities of conductors connecting secondary resistors to their controller shall be at least that determined by applying the percentage in Table 28 to the maximum current which the devices are required to carry.

Protection, Overcurrent**28-022 Branch Circuit Overcurrent Protection**

Each ungrounded conductor of a motor branch circuit shall be protected by an overcurrent device conforming to the following:

- (a) For a branch circuit supplying a single motor except as provided in paragraph (b), the rating or setting of the overcurrent devices shall not exceed the maximum value specified in:
 - (i) Table 26 for the full load current rating of the motor; or
 - (ii) Table 29 for motors having full load current ratings larger than those included in Table 26 and for motor circuits protected by instantaneous circuit breakers;
- (b) If the overcurrent protection specified in Table 26 or 29 will not permit the motor to start, the rating or setting may be increased to either a value not exceeding 400 per cent of the full load current rating of the motor or as permitted by Rule 28-032;
- (c) For a branch circuit supplying two or more motors, the rating or setting of the overcurrent devices shall not exceed the maximum value permitted by Rule 28-026.

28-024 Feeder Overcurrent Protection.

(1) For a feeder supplying motor branch circuits only, the rating or setting of the feeder overcurrent devices shall not exceed a maximum value calculated by determining the size of the overcurrent devices permitted for the largest motor supplied by the feeder, and adding thereto the sum of the full load current ratings of all the other motors which may be in operation at the same time.

(2) Where a feeder supplies a group of motors, two or more of which are required to start simultaneously, and the feeder overcurrent devices as calculated in accordance with Subrule (1) are not sufficient to allow the motors to start, the rating or setting of the feeder overcurrent devices may be increased as necessary, to a maximum value not to exceed that which is permitted by Table 26 or 29 for a single motor having a full load current rating equal to the sum of the full load current ratings of the greatest number of motors which must start simultaneously, provided this value does not exceed 300 per cent of the ampacity of the feeder conductors.

(3) Where a feeder supplies one or more motor branch circuits together with other loads, the overcurrent protection required for the motor loads may be calculated in accordance with these Rules and added to the requirements for the other loads supplied by the feeder.

28-026 Grouping of Motors on a Single Branch Circuit. Two or more motors may be grouped under the protection of a single set of branch circuit overcurrent devices having a rating or setting calculated in accordance with Rule 28-024 (1), provided that the fire hazard is reduced by conforming to any one of the following:

- (a) The rating or setting of the overcurrent devices does not exceed 15 amperes;

- (b) All the controls of the motors to be grouped are specifically approved for group fusing, and the rating of the branch circuit fuses does not exceed the maximum value permitted for the lowest rated overload device involved;
- (c) The motors are used on a machine tool or a woodworking machine, and:
 - (i) The control equipment is arranged so that all contacts which open motor primary circuits are in enclosures, either forming part of the machine base or for separate mounting, having a wall thickness not less than 0.0667 inch (14 MSG) for steel, $\frac{3}{32}$ inch for malleable cast iron, or $\frac{1}{8}$ inch for other cast metal, having hinged doors with substantial catches, and having no openings to the floor or the foundation on which the machine rests; and
 - (ii) The rating or setting of the overcurrent devices does not exceed 200 amperes at 250 volts or less, or 100 amperes at voltages from 251 to 750;
- (d) All the motors are operated by a single controller approved for the purpose, as provided for in Rule 28-048 (1) (d); or
- (e) Special permission is granted for the grouping of motors which form part of the co-ordinated drive of a single machine or process, wherein the failure of one motor to operate creates a hazard unless all the other motors in the group are stopped.

28-028 Overcurrent Protection for Large Motors. Where motors have a full load current rating larger than those given in Table 26, the rating or setting of the overcurrent devices shall be calculated in accordance with Table 29.

28-030 Size of Fuse Holders. Where fuses are used for motor branch circuit or feeder protection, the fuse holder shall not be of a smaller size than required to accommodate the fuse specified by Table 26, except that where fuses having time delay appropriate for the starting characteristics of the motors are used, fuse holders of smaller size may be used.

28-032 Instantaneous Circuit Breakers. Where instantaneous circuit breakers which are strongly affected by the initial peak inrush to the motor are used, a setting higher than 700 per cent may be allowed if the circuit breaker forms part of an approved combination motor starter.

Protection, Overload

28-034 Overload Protection Required. Each motor shall have individual overload protection except in the case of:

- (a) A manually started motor rated at 1 horsepower or less, which is on a branch circuit having overcurrent protection rated or set at not more than 15 amperes or on an individual branch circuit having overcurrent protection as specified in Table 26, if it may be readily determined from the starting location that the motor is running;
- (b) A motor constructed so that it cannot be overloaded; or

- (c) A motor whose operating requirements are such that it is impracticable to obtain proper overload protection.

28-036 Types of Overload Protection. Overload devices shall be in accordance with one or more of the following requirements:

- (a) A separate overload device which is responsive to motor current, rated or set at values not greater than those specified in Table 26, and which may combine the functions of overload and overcurrent protection if it is capable of properly protecting the motor both under overload and short-circuit conditions;
- (b) A protective device, integral with the motor, responsive to motor current or to both motor current and temperature, and specifically approved for use with the motor which it protects;
- (c) A protective device responsive to motor temperature only and arranged to cut off power to the motor or to actuate a warning signal, which device may only be used in conjunction with paragraph (a) or in lieu thereof under the conditions of paragraph (c) of Rule 28-034.

28-038 Automatically Started Motors. An automatically started motor having a rating of 1 horsepower or less shall have overload protection conforming to one of the following conditions:

- (a) A current responsive device as required by paragraph (a) of Rule 28-036 which will interrupt the current to the motor under prolonged overload equal to 125 per cent of the full load current rating of the motor;
- (b) A protective device conforming to the requirements of paragraph (b) of Rule 28-036;
- (c) A combination of protective devices as specified in paragraphs (a) and (c) of Rule 28-036, with the temperature responsive device so arranged that the motor will be disconnected from the source of supply if the temperature exceeds a safe limit,

unless the conditions of paragraph (b) of Rule 28-034 obtain, or it is part of an approved assembly in which the motor is not normally subjected to overload and which is also equipped with other safety controls which protect the motor from damage due to stalled-rotor current and on which a nameplate, located so as to be visible after installation, indicates that such protective features are provided.

20-040 Number and Location of Overload Protective Devices

(1) The number and location of current responsive overload devices shall, unless otherwise required by the inspection department, be as follows:

- (a) If fuses are used, one in each ungrounded conductor;
- (b) If devices other than fuses are used, the number and location of tripping elements shall be as specified in Table 25.
- (2) Notwithstanding Subrule (1), where there is more than normal risk of damage to a three-phase motor when a single-phase condition occurs in the primary of the supply transformer, suitable protection shall be installed to prevent such damage.

28-042 Shunting of Overload Protection During Starting. Overload protection may be shunted or cut out of the circuit during the starting period provided that the device by which the protection is shunted or cut out cannot be left in the starting position and provided that the overcurrent device is in the motor circuit during the starting period.

Protection, Undervoltage

28-044 Undervoltage Protection Required. Motors shall be disconnected from the source of supply in case of low voltage by one of the following means unless it is evident that no hazard will be incurred through the lack of such disconnection:

- (a) When automatic re-starting is liable to create a hazard, the motor control device shall provide low-voltage protection;
- (b) When it is necessary or desirable that a motor stop on failure or reduction of voltage and automatically re-start on return of voltage, the motor control device shall provide low-voltage release.

Control

28-048 Control Required

(1) Motors shall be provided with equipment for starting and stopping them which shall conform to the following:

- (a) For a single-phase portable motor of $\frac{1}{3}$ horsepower or less, 125 volts or less, a plug and receptacle rated at not more than 15 amperes 125 volts and not rated in horsepower may be used;
- (b) For a motor controlled by a manually-operated general-purpose alternating-current switch complying with Rule 14-068, the switch need not be marked in horsepower but its ampere rating shall be at least 125 per cent of the rated load current of the motor;
- (c) For a 2-wire portable motor of not more than $\frac{1}{3}$ horsepower at not more than 125 volts, a single-pole motor-circuit switch rated in horsepower not less than the motor rating may be used;
- (d) For two or more motors which are required to operate together, a single controller approved for such service may be used;
- (e) For a motor where the controller is specifically approved for use with that motor, it need not be rated in horsepower;
- (f) For all other cases, a motor shall be provided with individual equipment rated in horsepower not less than the motor rating.

(2) Where additional or supplementary control equipment is provided, such equipment, if required to start or stop the motor, shall conform to the applicable paragraphs of Subrule (1).

(3) The motor controller need not open the circuit in all conductors to the motor unless it serves also as the disconnecting means.

28-050 Starters having Different Starting and Running Positions

(1) Manual motor starters having different starting and running positions shall be constructed so that they cannot remain in the starting position.

(2) Magnetic starters having different starting and running positions shall be constructed so that they cannot remain in the starting position under normal operating conditions.

28-052 Location of Control

(1) Every motor shall be controlled from a point within sight of and not more than 30 feet from the motor and the machinery driven by the motor.

(2) Where the controller is not within sight of the motor, a manually operable switch shall be installed within sight of, and not more than 30 feet from, the motor, such switch to be capable of disconnecting all ungrounded conductors supplying the motor either directly or by means of a remotely controlled device capable of preventing the motor from being started from any other location.

Disconnecting Means**28-054 Disconnecting Means Required**

(1) Every motor and its controller shall be provided with a disconnecting means which:

- (a) Will open all ungrounded conductors to the controller and motor; and
- (b) Is located within sight of the controller, except that in a commercial or industrial premises where a permanent trained electrical maintenance staff is available, a disconnecting means capable of being locked in the open position may be installed out of sight of the motor and its controller with the permission of an inspector.

(2) The disconnecting means referred to in Subrule (1) shall conform to one of the following:

- (a) An approved attachment plug and receptacle may serve as disconnecting means for a portable motor;
- (b) A manually-operated, across-the-line type of starter may serve as both starter and disconnecting means;
- (c) An isolating switch or a general use switch used as an isolating switch may be used as a disconnecting means for motors of more than 50 horsepower;
- (d) In all other cases the disconnecting means shall consist of a motor circuit switch, a circuit breaker, or equivalent approved device capable of safely establishing and interrupting the stalled rotor current of the motor.

28-056 Single Disconnecting Means for a Group of Motors. A single disconnecting means may serve two or more motors which are grouped on a single branch circuit.

28-058 Rating of Disconnecting Means. The disconnecting means shall have a rating not less than the following:

- (a) A motor circuit switch for a single motor shall have a horsepower rating not less than that of the motor it serves;

(b) A circuit breaker or isolating switch for a single motor shall have a current rating not less than 115 per cent of the full load current rating of the motor it serves;

(c) A fused motor circuit switch serving a group of motors under the protection of a single set of fuses need not have a rating greater than that required to accommodate the proper size of fuse;

(d) An unfused motor circuit switch serving a group of motors under the protection of a single set of fuses need not have a rating greater than that required if a fused switch were used;

(e) A disconnecting means serving a group of motors on a single circuit, shall have:

- (i) A horsepower rating not less than that of the largest motor in the group, if a motor circuit switch is used; and
- (ii) A current rating not less than 115 per cent of the full load current rating of the largest motor in the group plus the sum of the full load current ratings of all the other motors in the group which may be in operation at the same time.

28-060 Disconnecting Means on Portable Machinery. Motor driven machinery of a movable or portable type for industrial use shall have a motor circuit switch or circuit breaker mounted on the machine and accessible to the operator.

SECTION 30—INSTALLATION OF INTERIOR LIGHTING EQUIPMENT**General**

30-000 Scope. This Section is supplementary to, or amendatory of, the general requirements of this Code and applies to:

- (a) The installation of interior lighting fixtures, lampholders, pendants, rosettes, incandescent filament lamps, electric discharge lamps; and
- (b) The wiring and electrical equipment used in conjunction therewith.

30-002 Voltage

(1) Circuit voltages shall not exceed 150 volts to ground, except that in industrial and commercial establishments where a trained maintenance staff is available, the voltage may exceed 150 volts to ground but shall not exceed 600 volts to ground for lighting branch circuits supplying fixtures that are equipped with:

- (a) Mogul-base screw-shell lampholders only; or
- (b) Lampholders of other types approved for the application which are located at least 8 feet above floor level and which do not have switch control as an integral part of the fixture.

(2) The voltage between conductors used for incandescent lighting shall not exceed 150 volts in dwelling occupancies.

Location of Lighting Equipment

30-004 Near or Over Combustible Material

(1) Lighting fixtures installed where combustible material is liable to be stored shall be equipped with shades or guards so as to limit the temperature to which the combustible material may be subjected to a maximum of 90°C. (194° F.).

(2) Fixtures and lampholders installed under the conditions of Subrule (1) shall be of the unswitched type.

(3) Where lighting fixtures or lampholders are installed over readily combustible material, every fixture and lampholder shall be controlled by an individual wall switch, but a wall switch may control more than one fixture or lampholder if every fixture and lampholder is located at least 8 feet above floor level, or located or guarded so that the lamps cannot be readily removed or damaged.

30-006 Near Flammable Material. Switches and lampholders installed under the conditions of Rule 30-004 (1) shall have no exposed wiring.

30-008 In Show Windows

(1) No lighting fixture having exposed wiring other than a fixture of a chain suspension type shall be used in a show window.

(2) No lampholder having a paper or fibre lining shall be used in a show window.

(3) Exposed flexible cord or fixture wire shall not be used to supply permanently installed lighting fixtures in show cases or wall cases.

30-010 In Clothes Closets

(1) Every lighting fixture installed in a clothes closet shall be installed on the ceiling or on the front wall above the door of the clothes closet, unless mounted on the trim or sidewall of the doorway and approved for the application.

(2) Electric fixtures of the pendent type shall not be installed in clothes closets.

30-012 Near Grounded Metal or In Damp Locations. The exposed non-current-carrying metal parts of lighting fixtures and electrical equipment used in connection therewith in basements, bathrooms, kitchens, or other places in which they are in proximity to grounded metal objects, or where dampness may exist, shall be:

- (a) Installed out-of-reach; or
- (b) Grounded.

Installation of Lighting Equipment

30-014 Live Parts

(1) Lighting fixtures, lampholders, and rosettes shall be installed so that no live part is exposed to contact while they are in use.

(2) Where lampholders and switches have exposed accessible terminals, they shall not be installed in metal fixture-canopies or in open bases of portable lamps.

30-016 Supports

(1) Every lighting fixture, lampholder and rosette shall be securely supported.

(2) Where a lighting fixture weighs more than 6 pounds or exceeds 16 inches in any dimension, it shall not be supported by the screw shell of the lampholder.

(3) Where a lighting fixture weighs more than 25 pounds, it shall not be supported directly by an outlet box which is mounted on a bar hanger.

(4) Where a lighting fixture weighs more than 50 pounds, it shall be supported independently of the outlet box.

30-018 Conduit Attachments. Where a lighting fixture is attached to a conduit system or other grounded support it shall be connected thereto both mechanically and electrically.

30-020 Outlet Boxes to be Covered

(1) Every outlet box used with lighting equipment shall be provided with a cover or covered by a fixture-canopy, lampholder, rosette, or other device.

(2) Where any part of a combustible wall or ceiling is exposed between the edge of a fixture-canopy or pan and an outlet box, the part of the wall or ceiling shall be covered with non-combustible material.

30-022 Wiring Space

(1) Every fixture canopy and outlet box shall be installed so as to provide adequate space for conductors and connections.

(2) Every lighting fixture shall be so constructed and installed that conductors in the fixture and outlet box are not subjected to temperatures greater than those for which the conductors are approved.

30-024 Recessed Fixtures

(1) The recessed portion of every recessed lighting fixture enclosure shall be at least $\frac{1}{2}$ inch from combustible material at every point other than at a point of support.

(2) Every recessed lighting fixture shall be so installed that adjacent combustible material is not subjected to temperatures in excess of 90° C. (194° F.).

(3) Where a lighting fixture is recessed in fire-resisting material in a building of fire-resisting construction, the fire-resisting material may be subjected to temperatures of not more than 150° C. (302° F.), but the fixture shall be plainly marked as approved for the service.

30-026 Connections

(1) Every lighting fixture shall be installed so that the connections between the fixture conductors and the branch circuit conductors may be inspected without disconnecting any part of the wiring, unless the connection employs a plug and receptacle.

(2) Lighting fixtures weighing more than 10 pounds shall be installed so that the branch circuit wiring connections and the grounding connections will be accessible for inspection without removing the fixture supports.

(3) Branch circuit conductors within 3 inches of a ballast within the ballast compartment shall have a maximum allowable conductor temperature rating of not less than 90° C. (194° F.).

30-028 Fixture as a Wireway

(1) Lighting fixtures shall not be used as a raceway for circuit conductors unless the fixtures meet the requirements for approved raceways, except that the conductors of a 2-wire, a 3-wire, or a 4-wire branch circuit supplying the fixtures may be carried through:

- (a) An installation of fixtures approved for end-to-end assembly to form a continuous raceway; or
- (b) Fixtures which are connected together by approved wiring methods.

(2) Ballasts located within lighting fixtures referred to in Subrule (1) shall be deemed to be sources of heat and the conductors supplying the fixtures shall:

- (a) Have a voltage rating not less than 600 volts;
- (b) Have a temperature rating not less than 90° C. (194° F.);
- (c) Be not smaller than No. 14 AWG; and
- (d) Be of a type listed in:
 - (i) Table 19, as being suitable for use in raceways; or
 - (ii) Table 11, as being suitable for use in accordance with this Rule, provided the conductors do not extend beyond the fixtures through raceways more than 6 feet long.

30-030 Polarization of Fixtures. Every lighting fixture shall be wired so that all screw-shells of its lampholders are connected to the same fixture or circuit conductor or terminal which shall be identified.

30-032 Combustible Shades and Enclosures. Every lighting fixture having a combustible shade or enclosure shall be installed so as to provide an adequate air space between the lamps and the combustible shade or enclosure.

30-034 Minimum Height of Low Fixtures

(1) Where a rigid lighting fixture or lampholder is located at a height of less than 7 feet above the floor and is readily accessible, the fixture or lampholder shall be protected from mechanical injury by a guard.

(2) A short flexible drop light or fixture may be used in place of the rigid fixture in Subrule (1) as determined by location.

30-036 Lighting Fixtures Exposed to Flying Objects. Where lighting fixtures are installed in gymnasiums or similar locations where the lamps are normally exposed to damage from flying objects, the lamps shall be guarded by one of the following means:

- (a) Metal reflectors which effectively protect the lamps;
- (b) Metal screens; or
- (c) Enclosures of armoured glass or suitable plastic material.

30-038 Canopy Switches. Canopy switches shall only be attached to lighting fixtures and fixture canopies having knockouts suitably constructed and located for the accommodation of such switches, or they may be located in the chain.

30-040 Lighting Equipment in Damp Locations or Near Grounded Metal

(1) Where lampholders or fixtures are installed in damp locations or within 8 feet vertically or 5 feet horizontally of laundry tubs, plumbing fixtures, steam pipes or other grounded metal work or grounded surfaces, the lampholders or fixtures shall be controlled by a wall switch, except as permitted in Subrule (2).

(2) A lampholder having an outer shell of insulating material, or a lighting fixture, installed under the conditions of Subrule (1), may have an integral switch if the operating means for the switch is suitably insulated from live parts and, if of the pullchain type, conforms to Rule 30-082.

(3) Switches (including wall switches) for controlling lampholders or fixtures covered by Subrules (1) and (2) shall not be located within reach of a person in a shower or bathtub.

30-042 Basement Stair Lighting. Lamps which light basement stairs shall be controlled by a switch located at a convenient point above the stairs.

Wiring of Lighting Equipment

30-044 Wiring of Fixtures

(1) All electrical wiring on or within a lighting fixture shall be:

- (a) Neatly arranged without excess wiring;
- (b) Not exposed to mechanical injury; and
- (c) Arranged so that it is not subjected to temperature above those for which it is approved.

(2) No joint or tap shall be located within an arm or stem of a lighting fixture.

30-046 Conductor Size. No conductor for a lighting fixture shall be smaller than No. 18 AWG.

30-048 Conductor Insulation. Every lighting fixture shall be wired with conductors having insulation suitable for the voltage and temperatures to which the conductors may be subjected.

30-050 Conductors on Movable Parts

(1) Stranded conductors shall be used on chain fixtures and other movable parts of lighting equipment.

(2) Conductors shall be arranged so that the weight of the lighting fixture or the movable parts does not place undue tension on the connections.

(3) All conductors which supply movable parts of lighting equipment shall be protected against mechanical injury.

30-052 Pendent Conductors for Incandescent Filament Lamps

(1) Where pendent lampholders having permanently attached leads are used with other than festoon wiring, they shall be hung from separated stranded rubber- or thermoplastic-insulated pendent conductors which are connected directly to the circuit conductors but supported independently thereof.

(2) Where thermoplastic-insulated pendent conductors are used in locations where they may be subjected to temperatures lower than 14° F. (minus 10° C.) they shall be of a type approved for the purpose.

(3) Where the pendent conductors supply heavy-duty or medium-base screw-shell lampholders, they shall be not smaller than No. 14 AWG.

(4) Where the pendent conductors supply intermediate or candelabra-base lampholders other than approved Christmas-tree and decorative lighting-outfits, the conductors shall be not smaller than No. 18 AWG.

(5) Where the pendent conductors are longer than 3 feet, they shall be twisted together.

30-054 Wiring of Recessed Fixtures

(1) Conductors having insulation suitable for the temperature encountered shall be used for wiring recessed fixtures.

(2) Recessed fixtures having terminal connections which operate at temperatures higher than 60° C. (140° F.) shall have circuit conductors according to one of the following:

- (a) Branch-circuit conductors having insulation suitable for the temperature encountered may be run directly to the fixture;
- (b) Tap connection conductors having insulation suitable for the temperature encountered shall:
 - (i) Extend at least 4 feet but not more than 6 feet from the fixture; and
 - (ii) Be run in a suitable metal raceway from the fixture terminal connection to an outlet box placed not less than 1 foot from the fixture.

(3) Pre-wired recessed fixtures shall be accessible in accordance with Rule 12-286 and if access is through an opening from below, the following requirements shall be met:

- (a) The electrical components of the fixtures, including the socket, the leads to the socket, and the connections in the junction box must be capable of extraction through the opening for service; and
- (b) The cover of the junction box must be capable of removal by a hand tool held below the ceiling.

30-056 Wiring of Ceiling Outlet Boxes

(1) Branch circuit conductors having insulation suitable for 90° C. (194° F.) shall be used for the wiring of all ceiling outlet boxes intended for use with lighting fixtures.

(2) For purposes of compliance with this Rule, the ampacity of 90° C. wire shall be limited to the ampacity of 60° C. wire.

30-058 Wiring of Show Window Fixtures

(1) Where show window lighting fixtures are closely spaced, they may be connected to asbestos-insulated conductors within the show window.

(2) The connection of show window lighting fixtures to the circuit conductors shall be in a junction box.

(3) The junction box shall be maintained at a sufficient distance from the lighting fixture to ensure that the circuit conductors are not subjected to temperatures in excess of their rating.

Grounding of Lighting Equipment

30-060 General Grounding Requirements. Where required, every non-current-carrying metal part of lighting fixtures and lighting equipment shall be grounded in accordance with Section 10.

30-062 Grounding with Metallic Wiring Systems. Where a metal lighting fixture is installed on an outlet wired with grounded metal raceway or grounded armoured cable, the fixture shall be grounded.

30-064 Grounding with Non-Metallic Wiring Systems

(1) Where a metal lighting fixture or plate is installed on an outlet wired with knob-and-tube wiring or non-metallic sheathed cable on a circuit operating at not more than 150 volts to ground, the fixture or plate shall be grounded if:

- (a) Grounding is required by Rule 30-068;
- (b) It is mounted on a metal lath ceiling or wall; or
- (c) It is mounted on a metal ceiling or wall.

(2) Where grounding would be required in the case of metal fixtures and plates and where a wiring system does not afford a ready means for grounding the exposed non-current-carrying metal parts of fixtures or lampholders, lighting fixtures made of insulating material or lampholders having shells of insulating material shall be used.

30-066 Grounding of Equipment over 150 Volts to Ground

(1) Where a metal lighting fixture or a transformer enclosure is on a circuit operating at more than 150 volts to ground, the fixture or enclosure shall be grounded.

(2) Where exposed metal parts, other than those referred to in Subrule (1), of lighting equipment on circuits operating at more than 150 volts to ground are not insulated from ground and from other conducting surfaces and are accessible, they also shall be grounded.

(3) Where lamp-tie-wires, mounting screws, clips and decorative bands on glass lamps on circuits operating at more than 150 volts to ground are at least 1½ inches from the terminals of the lamp, they need not be grounded.

30-068 Grounding of Fixtures, Lampholders, and Face Plates Near Grounded Surfaces

(1) Metal face plates and the non-current-carrying metal parts of fixtures and lampholders shall, except as permitted in Subrule (2), be grounded:

- (a) If installed in damp locations; or
- (b) If installed in bathrooms, shower rooms, kitchens, or other locations within 8 feet vertically or 5 feet horizontally of laundry tubs, bathtubs, shower baths, plumbing fixtures, steam pipes or other grounded metal work or grounded surfaces.

(2) Lampholders installed under the conditions of Subrule (1) in other than a bathroom, shower room, or kitchen may have exposed ungrounded metal operating means if the means conforms to the requirements of Rule 30-082 and the lampholders have outer shells of insulating material.

Rosettes and Lampholders

30-070 Lampholders. Lampholders of the screw-shell type shall be installed for use as lampholders only.

30-072 Lampholder Rating with Incandescent Lamps

(1) Every medium-base lampholder shall have a rating of 660 watts, 250 volts.

(2) Where medium-base lampholders are not of special heat-resisting construction, they shall not be used with incandescent lamps rated in excess of 300 watts.

(3) Where medium-base lampholders are used with incandescent lamps rated at 300 watts, the lamps shall be provided with a heat-deflecting disc or equivalent device.

(4) Mogul-base lampholders shall not be used with incandescent lamps rated at more than 1,500 watts.

30-074 Connections to Lampholders. The identified grounded supply conductor shall be connected to permanently connected lampholders at the screw-shell binding post, which shall be identified.

30-076 Pin-Type Lampholders. Lampholders having pin-type terminals shall be used only for temporary wiring.

30-078 Conductor Mechanical Protection. Where a metal lampholder is attached to a flexible cord, the inlet for the flexible cord shall be equipped with an insulating bushing but if the lampholder is provided with a side outlet, a metal grommet may be used.

30-080 Switched Type Lampholders. Where lampholders of the switched type are used on unidentified 2-wire circuits tapped from the ungrounded conductors of multi-wire circuits, the switching devices of the lampholders shall disconnect both conductors of the circuit simultaneously.

30-082 Switched Type Lampholders. On switched type lampholders employing pull-type mechanisms, the operating means shall be:

- (a) Cords made of approved insulating materials;
- (b) Cords of approved insulating materials, or chains with links of approved insulating material, connected to metal chains as close as possible to where the chains emerge from the enclosure; or
- (c) Metal chains without insulating links provided that the lampholder is approved as not requiring insulating links.

30-084 Lampholders in Wet or Damp Locations

(1) Where lampholders are installed in wet or damp locations, they shall be of the weatherproof type.

(2) Where lampholders installed in wet or damp locations are of insulating material, they shall be capable of resisting mechanical shock.

30-086 Approved Rosettes

(1) Fusible rosettes shall not be used.

(2) Separate rosettes which make possible a change in polarity shall not be used.

30-088 Rosettes in Wet or Damp Locations. Where rosettes are installed in wet or damp locations, they shall be of the weatherproof type.

30-090 Portable Handlamps

(1) Where a lampholder of the portable handlamp type is supplied through a flexible cord, the lampholder shall be of moulded composition or other type approved for the purpose.

(2) Every portable handlamp shall be equipped with a handle of moulded composition or other approved material.

(3) Where portable handlamps are subject to mechanical damage or may come in contact with combustible material, they shall be equipped with a substantial guard attached to the lampholder or to the handle.

Electric-Discharge Lighting Systems Operating at 1,000 Volts or Less

30-092 Rules for Discharge Lighting Systems, 1,000 Volts or Less. Rules 30-094 to 30-106 apply to electrical equipment used with electric-discharge lighting systems operating at 1,000 volts or less.

30-094 Oil-Filled Transformers. Transformers of the oil-filled type shall not be used.

30-096 Direct-Current Equipment. Fixtures shall not be installed on a direct-current circuit unless they are equipped with auxiliary equipment and resistors designed for direct-current operation, and the fixtures are so marked.

30-098 Voltages, Dwelling Occupancies. Where equipment has an open-circuit voltage of more than 300 volts, it shall not be installed in dwelling occupancies unless the equipment is designed so that no live parts are exposed during the insertion or removal of lamps.

30-100 Fixture Mounting

(1) Where fixtures are to be installed on combustible low-density cellulose fibreboard, the fixtures shall have thermally protected ballasts.

(2) Combustible low-density cellulose fibreboard is considered to include sheets, panels, and tiles which have a density of 20 pounds per cubic foot or less, and which are formed of bonded plant fibre material, but does not include solid or laminated wood, nor fibreboard which has a density in excess of 20 pounds per cubic foot.

30-102 Auxiliary Equipment not Integral with Fixtures

(1) Where the reactors, electrical capacitors, resistors, and other auxiliary equipment are not installed as part of the lighting fixture assembly, they shall be enclosed in an accessible permanently installed metal cabinet.

(2) Adequate provision shall be made for the dissipation of heat from enclosed auxiliary equipment and the conductors supplying the auxiliary equipment.

(3) The metal cabinet shall be installed as close as possible to the lamps.

(4) Where display cases are not permanently installed, no part of a secondary circuit shall be included in more than one case.

30-104 Control

(1) The fixtures and lamp installations shall be controlled by a switch or circuit breaker.

(2) Where a switch is used, it shall:

(a) Have a current rating of not less than twice the current rating of the lamps or transformers;

(b) Be of a type approved with the assembly;

(c) Be a manually-operated general-purpose alternating-current switch complying with Rule 14-068; or

(d) Be a snap switch having an "F" rating complying with Rule 14-066; or

(e) Be a manually operated specific-use ac switch complying with Rule 14-070.

(3) Where a circuit breaker is used, it shall comply with the requirements of Rule 14-058.

30-106 Branch Circuit Capacity

(1) Where lighting branch circuits supply fixtures employing ballasts, transformers or auto-transformers, the load on the branch circuits shall be computed on the basis of the total amperes of the units and not on the watts of the lamps.

(2) The aggregate capacity of fixtures connected to a lighting branch circuit shall not exceed 80 per cent of the branch circuit overcurrent protection.

Electric-Discharge Lighting Systems Operating at More Than 1,000 Volts

30-108 Rules for Discharge Lighting Systems, More than 1,000 Volts. Rules 30-110 to 30-130 apply to electrical equipment used with electric-discharge lighting systems operating at more than 1,000 volts.

30-110 Voltages, Dwelling Occupancies. Where equipment has an open-circuit voltage of more than 1,000 volts, it shall not be installed in dwelling occupancies.

30-112 Control

(1) The fixtures and lamp installations shall be controlled singly or in groups by an externally operated switch or circuit breaker which opens all ungrounded primary conductors.

(2) The switch or circuit breaker shall be:

(a) Installed within sight of the fixtures or lamps; or

(b) Provided with a means for locking it in the open position.

(3) The switch shall:

(a) Have a current rating of not less than twice the current rating of the transformer or transformers controlled by it;

(b) Be of a type approved for the purpose;

(c) Be a manually-operated general-purpose alternating-current switch complying with Rule 14-068; or

(d) Be a snap switch having an "F" rating complying with Rule 14-066; or

(e) Be a manually operated specific-use ac switch complying with Rule 14-070.

(4) The circuit breaker shall comply with the requirements of Rule 14-058.

30-114 Transformer Rating

(1) Every transformer and ballast shall have a secondary open-circuit voltage of not more than 15,000 volts, except that every transformer and ballast of the open-core-and-coil type shall have a secondary open-circuit voltage of not more than 7,500 volts.

(2) The secondary current rating shall be not more than 240 milliamperes, except that, where the secondary open-circuit voltage exceeds 7,500 volts, the secondary current rating shall not be more than 120 milliamperes.

30-116 Liquid Filled Transformers. Transformers of the liquid filled type shall not be used unless they are filled with a liquid which will not burn in air.

30-118 Transformers, Secondary Connection

(1) The high-voltage windings of transformers operating at more than 1,000 volts shall not be connected in series or in parallel, but where each of two transformers has one end of its high-voltage winding grounded and connected to the enclosure, the high-voltage windings may be connected in series to form the equivalent of a mid-point grounded transformer.

(2) The grounded ends of the high-voltage winding shall be connected by an insulated conductor not smaller than No. 14 AWG.

30-120 Location of Transformers

(1) Transformers operating at more than 1,000 volts shall be accessible.

(2) The transformers shall be installed as near to the lamps as practicable.

(3) The transformers shall be located so that adjacent combustible materials are not subjected to temperatures in excess of 90° C. (194° F.).

30-122 Wiring Method

(1) The secondary conductors shall be luminous-tube-sign cable approved for the purpose and for the voltage of the circuit.

(2) Not more than 20 feet of cable shall be run in metal raceway from a single, or from either side of a mid-point grounded, transformer.

(3) The conductors shall be installed in conformity with Section 34.

30-124 Transformer Loading. Where the lamps are connected to a transformer, they shall be of such length and characteristics as not to cause a condition of continuous over-voltage on the transformer.

30-126 Lamp Supports

(1) Lamps operating at more than 1,000 volts shall be supported in the manner required by Section 34.

(2) The lamps shall not be installed where they are exposed to mechanical injury.

30-128 Lamp Terminals and Lampholders

(1) Parts which must be removed for lamp replacement shall be hinged or fastened by an approved means.

(2) Lamp terminals and lampholders shall be designed so that the tubing can be replaced with the minimum exposure of bare live parts during re-lamping.

(3) The designs referred to in Subrule (2) need not afford protection against "Space Discharge" shocks as tubes are replaced by trained maintenance staff.

30-130 Marking. Every fixture and every secondary circuit of tubing having an open-circuit voltage of more than 1,000 volts shall be clearly and legibly marked in letters and figures not less than one inch high with the words "CAUTION . . . VOLTS", the rated open-circuit voltage being inserted in figures, in the space between the words.

SECTION 32—OUTDOOR LIGHTING INSTALLATIONS

General

32-000 Scope

(1) This Section applies to temporary or permanent outdoor lighting equipment, for either decorative lighting or illumination of outdoor areas, where protection of the system and safety from shock hazard is the main concern and the fire hazard is of a secondary nature.

(2) This Section covers only that portion of the installation which is outside of buildings.

(3) The requirements of this Section are supplementary to or amendatory of the general requirements of this Code.

Permanent Outdoor Floodlighting Installations

32-002 General

(1) Rules 32-004 to 32-042 apply to permanent, outdoor installations of floodlights of 300 watts or larger, using mogul-base lampholders, where the floodlights are mounted on poles or towers.

(2) These Rules are based on the understanding that authorized persons may replace lamps but all other maintenance will be done by qualified persons.

32-004 Service Equipment

(1) Service equipment shall comply with Section 6 for low-potential installations, and with Section 36 for high-potential installations.

(2) Where indoor equipment is installed outdoors, it shall be installed in an acceptable weatherproof enclosure.

32-006 Wiring Methods, Underground

(1) Wiring underground shall be run:

- (a) Where acceptable, in rigid steel or rigid aluminum conduit;
- (b) In non-metallic underground conduit;
- (c) As lead-sheathed armoured cable, mineral-insulated cable, or aluminum-sheathed cable; or
- (d) As conductors or cable assemblies acceptable for direct earth burial as indicated in Table 19 or, by special permission, for service entrance below ground as indicated in Table 19.

(2) Conductors in conduit shall be of types indicated in Table 19 as being suitable for use in wet locations.

(3) Conductors buried directly in the earth shall be installed in accordance with Rule 12-006.

(4) Suitable corrosion-resistant protection shall be provided for aluminum-sheathed cable and aluminum conduit; and also for mineral-insulated cable, if used where materials coming in contact with the cable may have a deteriorating effect on the sheath.

32-008 Wiring Methods, on Poles

(1) All electrical equipment on the pole shall be controlled by a switch which can be locked in the "Off" position, and each pole shall be provided with a prominent sign warning against climbing the pole until the switch is "Off" unless all conductors and live parts other than those used for pole top wiring are guarded against accidental contact in one of the following ways:

- (a) The conductors are run in rigid or flexible metal conduit, as mineral-insulated cable, or up the centre of steel, aluminum or hollow concrete poles;
- (b) The conductors and live parts are kept at least three feet from the climbing ladder or climbing steps;
- (c) Barriers are provided between conductors or live parts, or both, and the climbing ladder so as to prevent likelihood of contact by the climber.

(2) Conductors run up the centre of poles shall be supported so as to prevent injury to the conductors inside the pole and as to prevent undue strain on the conductors where they leave the pole.

(3) Where vertical conductors, cables and grounding conductors are within 8 feet of locations accessible to unauthorized persons, they shall be provided with a covering which gives acceptable mechanical protection.

(4) On wood poles, for grounding conductors from lighting arresters, the protective covering specified in Subrule (3) shall be of wood moulding or other insulating material giving equivalent protection.

32-010 Pole Top Distribution Panelboards. Where there is more than one branch circuit on a pole top, the feeders shall be run to a distribution panelboard which shall be either weatherproof or installed in a weatherproof enclosure, except that the panelboard may be omitted where there are only two branch circuits on a 115/230-volt circuit with common neutral and where there are only three branch circuits on a 120/208 volt, 115/208-volt, 3-phase, 4-wire circuit.

32-012 Fusing of Pole Top Branch Circuits. Pole top branch circuits shall be fused at not more than 100 amperes.

32-014 Pole Top Branch Circuit Wiring. Pole top branch circuit wiring, exclusive of leads approved with the floodlights to which they are connected, shall be run:

- (a) As lead-sheathed cable or rubber- or thermoplastic-insulated moisture-resistant types of conductors installed in rigid conduit;
- (b) As mineral-insulated cable or aluminum-sheathed cable; or
- (c) By special permission, as insulated or uninsulated open wiring provided that:
 - (i) The wiring is supported on suitable insulators;
 - (ii) The wiring is controlled by a switch which can be locked in the "Off" position; and
 - (iii) The pole is provided with a prominent sign warning against climbing it until the switch is "Off".

32-016 Joints

(1) Open taps and joints may be made in pole top open wiring provided the joint or tap is given insulation equivalent to that on the conductors joined.

(2) There shall be no joints or splices concealed within conduit.

32-018 Location of Transformers. Transformers shall comply with the following:

- (a) If mounted on floodlight poles, all live parts shall be guarded as required by Rule 32-008;
- (b) If mounted on poles, the bottom of the transformer shall be at least 16 feet above locations accessible to unauthorized persons;
- (c) If located on platforms on the ground, they shall be completely enclosed so as to prevent access by unauthorized persons or they shall be surrounded by a protecting fence which shall comply with the requirements of Rules 26-172 to 26-200.

32-020 Primary Fusing of Transformers. Each transformer shall be protected against overcurrent in accordance with Section 26.

32-022 Secondary Overcurrent Protection of Transformers. Overcurrent protection on transformer secondary feeders is permissible but not mandatory.

32-024 Switching of Floodlights. Switches controlling floodlights shall comply with the following:

- (a) A switch on the primary side of a transformer shall be capable of making and interrupting the full load on the transformer;
- (b) Switches controlling floodlights from the secondary side of a transformer shall have a current rating not less than 125 per cent of the current requirements of the floodlights controlled;
- (c) Switches shall be capable of being operated without exposing the operator to danger of contact with live parts, either by remote operation or by proper guarding;
- (d) Switches shall be capable of being locked in the "Off" position.

32-026 Grounding of Systems at 300 Volts or Less. Systems operating at potentials of 300 volts or less between conductors shall be grounded.

32-028 Grounding of Systems Above 300 Volts. Systems operating at potentials above 300 volts may be grounded at the discretion of the supply authority and in accordance with the requirements of the inspection department.

32-030 Material for Grounding Conductors. Grounding conductors shall be of material as specified in Rule 10-096.

32-032 Grounding Methods

(1) A grounded secondary system shall be grounded in accordance with Section 10.

(2) The secondary grounded circuit conductor may be grounded by an interconnection to the primary grounded circuit conductor provided;

- (a) The primary is grounded at the transformers; and
- (b) Interconnection is made only at the transformer.

32-034 Grounding and Bonding of Non-Current-Carrying Metal Parts

(1) All non-current-carrying metal parts within 8 feet of locations accessible to unauthorized persons shall be grounded.

(2) Except for isolated metal parts such as crossarm braces, bolts, insulator pins and the like, non-current-carrying metal parts of electrical equipment at the pole top shall be bonded together and, if within reach of any grounded metal, shall be grounded.

(3) Non-current-carrying metal parts of electrical equipment bonded together may be grounded to the grounded circuit conductor provided there is not more than one point of interconnection on each pole.

(4) The size of grounding or bonding conductor shall be as specified in Rule 10-012.

32-036 Installation of Lightning Arresters. Where lightning arresters are installed, they shall be in accordance with Rules 10-132 and 10-134 with the addition that a common grounding conductor and common electrode system may be used for grounding primary and secondary neutrals and lightning arresters.

32-038 Types of Equipment Permitted. Floodlights, secondary wiring, conduit, conduit fittings, and distribution panelboards shall be approved, and other electrical pole top equipment shall be of acceptable types.

32-040 Climbing Steps. Where it is necessary to climb the pole to replace lamps, permanent climbing steps shall be provided and the lowest permanent step shall be not less than 12 feet above locations accessible to unauthorized persons.

32-042 Safety Platforms. Where floodlights are mounted more than 30 inches from the centre line of the pole, suitable safety platforms shall be provided and shall be equipped with a railing or equivalent device for the protection of persons replacing lamps.

Open Wiring for Permanent Outdoor Lighting

32-044 General. Rules 32-046 to 32-066 apply to open wiring for permanent outdoor lighting other than floodlighting where the circuits are run between buildings, between poles, or between buildings and poles.

32-046 Conductors. Conductors shall be stranded, not less than No. 12 AWG, and shall be:

- (a) Of a type suitable for open wiring where exposed to the weather as specified in Table 19;
- (b) Of the rubber-insulated type suitable for open wiring where exposed to the weather as specified in Table 19, when lampholders of a type which puncture the insulation and make contact with the conductors are used; or
- (c) Of the moisture-resistant rubber-insulated type suitable for open wiring where exposed to the weather as specified in Table 19, if cabled together and used with messenger cables.

32-048 Use of Insulators

(1) Conductors shall be securely attached to insulators at each end of the run if a messenger is not used and at intermediate points of support if there are any.

(2) Insulators at the ends of runs shall be of the strain type unless the conductors are supported by messenger cables.

(3) Split knobs shall not be used.

32-050 Height of Conductors. Conductors supplying lamps in parking lots, used-car lots, drive-in establishments, and similar commercial areas shall be maintained so that the conductors or the bottom of a lamp fed from the conductors, whichever is lower, shall have a clearance of not less than 12 feet above grade at any point in a run, except that where a driveway or thoroughfare exists this clearance shall be not less than 16 feet.

32-052 Spacing from Combustible Material. Conductors and lampholders shall be maintained at a distance not less than 3 feet from any combustible material except for branch circuit conductors at the point of connection to buildings or poles.

32-054 Spacing of Conductors. Conductors shall be separated at least 12 inches from each other by means of insulating spacers at intervals of not more than 15 feet unless the conductors are secured to and supported by messenger cables.

32-056 Lampholders

(1) Lampholders shall be of weatherproof types with moulded insulating bodies.

(2) Lampholders shall be of types having either:

- (a) Permanently attached leads; or
- (b) Terminals of a type which puncture the insulation and make contact with the conductors.

(3) Lampholders having permanently attached leads shall have the connections to the circuit wires staggered where a cabled assembly is used.

32-058 Protection of Lampholders. Lampholders may be connected to branch circuits protected by overcurrent devices rated or set at not more than 30 amperes provided that the lampholders are:

- (a) For incandescent lamps;
- (b) Of the unswitched type; and
- (c) Rated not less than 660 watts.

32-060 Use of Messenger Cables

(1) Messenger cables shall be used to support the conductors:

- (a) If lampholders having permanently attached leads are used, and the span exceeds 40 feet; and
- (b) In all cases where lampholders having terminals which puncture the insulation are used.

(2) Messenger cable shall be securely attached at each end of the run and shall be grounded in accordance with Section 10.

(3) Conductors shall be permanently attached to the messenger in a method acceptable to the inspection authority.

32-062 Construction of Messenger Cables

(1) Messenger cables shall be of galvanized steel, copper-coated steel or stainless steel and shall be of stranded construction with not less than seven strands.

(2) Galvanized steel shall have a coating of not less than 0.15 ounce per square foot.

(3) The effective ultimate strength of a messenger cable shall be not less than three times the calculated maximum working load, including loading due to ice loads and wind loads, and in no case shall the individual strands be less than:

- (a) 0.046 inch in diameter in the case of galvanized or copper-coated wire; or
- (b) 0.0438 inch in diameter in the case of stainless steel wire.

32-064 Maximum Size of Lamps. The size of lamps used shall be not in excess of that for which the particular lampholder is approved and in no case more than 150 watts.

32-066 Branch Circuit Loading and Protection

(1) Branch circuits shall be protected by overcurrent devices rated at not more than 30 amperes.

(2) The total load on a branch circuit shall not exceed 80 per cent of the rating or setting of the overcurrent devices.

Temporary, Outdoor, Decorative Lighting Installations

32-068 General. Rules 32-070 and 32-072 apply to temporary, outdoor, decorative lighting installations.

32-070 Lampholders. Lampholders for use with temporary, outdoor, decorative lighting equipment which may be sold to the general public shall:

- (a) Comply with Rule 32-056; and
- (b) If of the type having terminals which puncture the conductor insulation in order to make contact with the current-carrying conductors be designed so that they cannot be removed, once installed without rendering them incapable of being re-used.

32-072 Conductors. Conductors shall be stranded, not less than No. 18 AWG and shall be of the outdoor Christmas tree cord types as covered in Table 11 or of the rubber-insulated cable types suitable for open wiring where exposed to the weather as covered in Table 19.

SECTION 34—SIGNS AND OUTLINE LIGHTING

34-000 Scope

(1) This Section applies to signs and outline lighting wherein the sources of light are:

- (a) Incandescent lamps;
- (b) Fluorescent lamps;
- (c) High potential luminous discharge tubes.

(2) The requirements of this Section are supplementary to and amendatory of the general requirements of this Code.

General Requirements

34-002 Construction. Signs and incandescent outline lighting equipment constructed wholly or in part by electrical contractors in the field shall conform in construction to the requirements of the specifications to which they were originally approved.

34-004 Disconnecting Means. Each outline lighting installation, and each sign other than the portable type, shall be provided with an externally operable disconnecting means which shall:

- (a) Open all ungrounded conductors;
- (b) Be suitable for conditions of installation such as exposure to weather; and
- (c) Be within sight of the sign or outline lighting it disconnects, or elsewhere if capable of being locked in the open position.

34-006 Rating of Disconnecting Means and Control Devices. Switches, flashers and similar devices controlling transformers and ballasts shall be either of a type approved for the purpose, or have a current rating not less than twice the current rating of the transformer or ballasts.

34-008 Subdivision of Wiring

(1) Wiring shall be subdivided into branch circuits if the load exceeds 12 amperes.

(2) The maximum number of outlets per circuit on marquees shall not exceed 30.

34-010 Branch Circuit Protection

(1) The maximum permissible load for each branch circuit shall not exceed 12 amperes.

(2) The overcurrent device for each branch circuit shall not protect any other circuit.

34-012 Location. Signs and outline lighting shall be located so that:

- (a) Any person working thereon is not likely to come into contact with overhead conductors;
- (b) No part of the sign or its support will interfere with normal work operations performed on electrical and communication utility lines;
- (c) No part of the sign or its support is in such proximity to overhead conductors as to constitute a hazard; and
- (d) No part of the sign, other than its support, is less than 7 feet above grade except by special permission.

34-014 Supporting Means. Poles, masts, or other objects specifically designed for use as supports for signs shall be subject to approval by the inspection department.

34-016 Grounding. Signs, troughs, tube terminal boxes and other metal frames shall be grounded in accordance with Section 10.

34-018 Protection of Sign Leads

(1) Where sign leads pass through the walls or partitions of the sign structure, they shall be protected by incombustible absorption-resisting bushings.

(2) Where sign leads are run as open wiring, they may be cabled.

34-020 Conductors

(1) The conductors for signs shall be of types indicated in Table 19 as being suitable for open wiring or wiring in raceways, in damp or wet locations.

(2) The conductors for outline lighting shall be run:

- (a) In rigid conduit;
 - (b) In metal troughs;
 - (c) As armoured cable of the lead-sheathed type or the type having a thermoplastic outer covering;
 - (d) As mineral-insulated cable;
 - (e) As aluminum-sheathed cable; or
 - (f) In electrical metallic tubing.
- (3) Surface raceways shall not be used.

High-Potential Luminous-Discharge-Tube Signs and Outline Lighting

34-022 Enclosures for Transformers and Regulating Coils. Enclosures for transformers and regulating coils shall be well ventilated and designed so as to minimize the emission of flames or sparks in case of burning.

34-024 Protection of Uninsulated Parts. Doors or covers accessible to the general public, and which give access to uninsulated parts of indoor signs or outline lighting, shall be either provided with interlock switches which on the opening of the doors or covers disconnect the primary circuit, or shall be fastened so that the use of other than ordinary tools will be necessary to open them.

34-026 Transformer Voltage

(1) The rated secondary open circuit voltage of transformers shall not exceed 15,000 volts.

(2) In end-grounded transformers, rated secondary open circuit voltage shall not exceed 7,500 volts.

34-028 Open Core-and-Coil Type Transformers. Open core-and-coil type transformers shall only be used indoors.

34-030 Transformers Used Outdoors. Transformers used outdoors shall be of the weatherproof type or shall be enclosed in the sign body or in a separate weatherproof box.

34-032 Transformer Accessibility. Transformers shall be accessible.

34-034 Transformer Overcurrent Protection

(1) Each transformer shall be protected by an overcurrent device except that two or more transformers may be protected by one overcurrent device if their combined load does not exceed 12 amperes.

(2) Where additional overcurrent devices for the individual protection of transformers in signs are used, they shall be placed either inside or outside the sign structure.

(3) Where exposed to the weather, overcurrent devices protecting transformers shall be of the weatherproof type.

34-036 Transformer Secondary Connection

(1) The high-potential windings of transformers shall not be connected in parallel.

(2) The high-potential windings of transformers shall not be connected in series, except that two transformers may have one end of each of their high-potential windings grounded and connected in series to form the equivalent of a midpoint-grounded transformer, provided that the grounded ends of the high-potential windings are connected by an insulated conductor not smaller than No. 14 AWG.

34-038 High-Potential Wiring Methods

(1) High-potential conductors shall be installed on insulators, either open or concealed, or in rigid or flexible conduit, or in electrical metallic tubing.

(2) High-potential conductors may be run from the ends of gas tubes to the grounded midpoint of transformers which have terminals at the midpoint.

(3) The connections between the high-potential terminals of the transformer of the midpoint-grounded type and the line ends of gas tubes shall be as short as possible.

(4) There shall be no sharp bends in high-potential conductors.

(5) Bare high-potential conductors shall be installed only inside grounded metal enclosures.

(6) Where subject to mechanical injury or where within reach from ground, roof or window, high-potential conductors shall be enclosed in raceways or be suitably guarded.

34-040 High-Potential Conductor Insulation and Size

(1) Insulated conductors shall be not smaller than No. 14 AWG and shall be of luminous-tube-sign types, as indicated in Table 19, suitable for the voltage of the circuit.

(2) Uninsulated conductors shall be solid and not smaller than No. 10 AWG.

34-042 Open High-Potential Conductors, Indoors

(1) Open wiring shall be mounted on noncombustible, non-absorptive insulators.

(2) Insulators of porcelain shall be glazed on all exposed surfaces.

(3) A separation of at least $1\frac{1}{2}$ inches shall be maintained between conductors and between conductors and other objects.

34-044 Concealed High-Potential Conductors on Insulators, Indoors

(1) Concealed high-potential conductors on insulators shall be separated from each other and from all objects other than the insulators on which they are mounted by a spacing of not less than $1\frac{1}{2}$ inches.

(2) Concealed high-potential conductors shall be installed in channels lined with noncombustible material and used for no other purpose, except that the primary circuit conductors may be in the same channel.

(3) The insulators shall be of noncombustible, non-absorptive material.

34-046 High-Potential Conductors in Show Windows and Similar Locations. If high-potential conductors hang freely in the air, as in show windows and in similar locations away from combustible material, and if not subject to mechanical injury, as in some show window displays, they need not be protected.

34-048 High-Potential Conductors in Raceways

(1) High-potential conductors in contact with grounded metal of raceways shall be lead covered, unless the insulation is resistant to the effects of corona.

(2) If the conductors are covered with lead or other metallic sheathing, this covering shall extend beyond the end of the conduit or electrical metallic tubing and the surface of the cable shall not be injured where the covering terminates.

(3) The insulation on all conductors shall extend at least 4 inches beyond the end of the lead or raceway except for conductors at grounded midpoint terminals.

(4) Not more than 20 feet of cable from a single transformer shall be run in rigid or flexible metal conduit or electrical metallic tubing.

34-050 Installation of Open High-Potential Conductors, Outdoors

(1) Open high-potential conductors outdoors shall be mounted on noncombustible, non-absorptive insulators.

(2) Insulators of porcelain shall be glazed on all exposed surfaces.

(3) A separation of at least 2 inches shall be maintained between conductors and between conductors and other objects, except as permitted in Subrule (5).

(4) Conductors shall not be located where exposed to mechanical injury.

(5) If guarded, a space of not less than $1\frac{1}{2}$ inches shall be maintained between conductors and the enclosure, unless the enclosure is non-conducting and noncombustible.

SECTION 36—HIGH-POTENTIAL INSTALLATIONS

General

36-000 Scope

(1) This Section applies to installations operating at potentials in excess of 750 volts.

(2) The supply authority and the inspection department must be consulted before proceeding with any such installation.

(3) This Section is additional to the requirements of this Code for installations at potentials of 750 volts or less.

(4) This Section does not apply to any high-potential installation covered by any other Section of this Code.

(5) This Section does not affect construction details of factory fabricated assemblies approved under Part II of this Code.

36-002 Guarding. Live parts of electrical equipment shall be inaccessible to unauthorized persons.

36-004 Warning Notices

(1) A permanent legible warning notice shall be placed in a conspicuous position at electrical equipment vaults, equipment rooms, areas or enclosures, carrying the wording:

"DANGER—HIGH VOLTAGE"; or "DANGER—VOLTS".

(2) Permanent legible signs shall be installed at isolating equipment warning against operating it while carrying current, unless the equipment is interlocked so that it cannot be operated under load.

(3) Suitable warning signs shall be erected in a conspicuous place adjacent to fuses, warning operators not to replace fuses while the supply circuit is energized.

Wiring Methods

36-006 Service or Other Conductors

(1) Bare conductors may be used only:

- (a) Outdoors;
- (b) In central stations;
- (c) In sub-stations;
- (d) In motor and generator rooms; and
- (e) In transformer and electrical equipment vaults in accordance with Rules 26-156 to 26-170.

(2) Insulated conductors used underground shall be mechanically protected by:

- (a) Armouring;
- (b) Enclosing in conduit or the equivalent; or
- (c) Other acceptable protective covering.

(3) Insulated conductors used indoors in other than sub-stations or transformer and electrical equipment vaults in accordance with Rules 26-156 to 26-170, shall only be installed in conduit or otherwise protected in an acceptable manner.

(4) For the purpose of Subrule (3), insulated conductors shall not be considered as being indoors where they are in conduit enclosed within a wall or under a floor so that:

- (a) The conduit is surrounded by not less than 2 inches of concrete or masonry; and
- (b) The location of the conduit is indicated by acceptable permanent markers set in the walls, floor or ceiling.

(5) Insulated wires or cables shall be sheathed in metal or other acceptable moisture-resistant covering if in other than dry locations.

(6) Conductors enclosed in armour of magnetic material shall be installed in accordance with Rule 12-136.

(7) Where insulated conductors are not enclosed and are spaced at less than minimum clearances for bare conductors, and are subject to arcs or heat caused by short circuits in nearby conductors, the insulation shall be flame-retarding or have a flame-retarding outer covering.

(8) Where the coverings are of a conducting nature they shall be stripped back from the terminals sufficiently to prevent leakage of current.

(9) Service conductors shall have a mechanical strength not less than that of No. 6 AWG hard drawn copper.

36-008 Shielding of Rubber-Insulated Conductors

(1) Rubber-insulated conductors without metallic sheath for permanent installation, operating at circuit voltages above 2,000 volts phase-to-phase shall be of a type having metallic shielding over each insulated conductor.

(2) Shielding need not be provided for rubber-insulated polychloroprene-jacketed conductors directly buried in soil and operating at circuit voltages not exceeding 3,000 volts phase-to-phase.

(3) Where the circuit voltage does not exceed 5,000 volts phase-to-phase, and rubber-insulated conductors are installed on insulators or in metallic raceways and bound together, in switch rooms, transformer vaults, metal-enclosed switchgear assemblies, and similar permanently dry locations where the conductor run does not exceed 50 feet, shielding need not be provided.

(4) Subject to Rule 10-034, metallic covering, metallic shielding, metal armour, metal conduit and metal fittings shall be bonded together and grounded.

36-010 Supporting of Bare Conductors. Bare conductors shall be mounted on suitable insulating supports capable of withstanding the short circuit stresses liable to be imposed by the supply system.

36-012 Spacing of Bare Conductors

(1) Bare conductors, and insulated conductors unless enclosed in or in contact with grounded metal, other than those within or at the point of connection to apparatus or devices shall be spaced to provide a clearance under all operating conditions in accordance with Tables 31 and 32 between:

- (a) Live parts of opposite polarity; and
- (b) Live parts and all other structural parts other than the conductor supports.

(2) Where the conductors mentioned in Subrule (1) are connected to apparatus or devices having terminal spacings less than those shown in Tables 31 and 32, the conductors shall be spread out so as to attain the required spacings at the first point of support beyond such terminals.

36-014 Guarding of Live Parts

(1) Bare conductors, insulated conductors unless enclosed in or in contact with grounded metal, and other bare live parts shall be:

- (a) Accessible only to authorized persons; and
- (b) Isolated by elevation or by acceptable barriers.

(2) Where the conductors or live parts referred to in Subrule (1) are isolated by elevation, the elevations and clearances maintained shall be as specified in Tables 32, 33 and 34 except that the elevations and clearances for conductors crossing railway and communication lines and overhead systems crossing highways and other locations accessible to vehicles or vessels shall meet the requirements of an inspector designated by the inspection department for the purpose of this Subrule.

(3) For a given span, clearances specified in Tables 32 and 34 shall be increased by one per cent of the amount by which the span exceeds 175 feet.

36-016 Terminating Facilities. Suitable terminating facilities shall be provided to protect cables from harm due to moisture or mechanical damage.

36-018 Joints in Sheathed Conductors or Cables

(1) Splices or taps in sheathed conductors or cables shall have the conductor or cable covered with insulation and shall have shielding, when used, electrically and mechanically equivalent to that on the conductors or cables joined.

(2) For conductors or cables having a metallic or conducting sheath, provision shall be made for continuity of the sheath over the splice or tap unless the joint is made in a suitable splicing box which maintains the continuity of the grounding circuit.

36-020 Elevator Shafts

(1) High-potential conductors shall not be installed in elevator shafts.

(2) The conductors may be installed in conduit embedded in the masonry walls of the hoist-way but the conduit shall be surrounded throughout the entire length of its run by not less than 2 inches of masonry or concrete.

Control and Protective Equipment

36-022 Service Equipment Location. Service equipment shall be installed in a location satisfactory

to the supply authority and the inspection department and, in the case of a building, shall be at the point of service entrance.

36-024 Rating and Capacity. Circuit breakers, fuses and switches shall be of types and ratings acceptable to the inspection department and the supply authority.

36-026 Overcurrent Protection, Services. Each service shall be provided with overcurrent protection, complying with the following, in all ungrounded conductors:

- (a) If the protective equipment is installed outdoors, one of the following shall be used:
 - (i) Circuit breakers of adequate interrupting capacity and rating, with trip settings approved by the supply authority;
 - (ii) Fuses of adequate rating and interrupting capacity preceded by suitable group-operated visible break load-interrupting devices capable of making and interrupting their full load rating and which may be closed with safety to the operator with a fault on the system;
 - (iii) Fuses of adequate rating and interrupting capacity preceded by a group-operated visible break air-break switch capable of interrupting the magnetizing current of the transformer installation and which may be closed with safety to the operator with a fault on the system and so interlocked with the transformer secondary circuit breaker to prevent its operation under load;
- (b) If the protective equipment is installed indoors, one of the following shall be used:
 - (i) The protection outlined in paragraph (a) (i) of this Rule;
 - (ii) The protection outlined in paragraph (a) (ii) of this Rule by special permission and where satisfactory to the supply authority, provided that the load-interrupting devices and the fuses are separated and interlocked so that the operator cannot gain access to fuses with the load-interrupting devices closed;
 - (iii) The protection outlined in paragraph (a) (iii) of this Rule by special permission and where satisfactory to the supply authority, provided that the fuses are separated and interlocked so that the operator cannot gain access to them unless the switch is open and the switch is interlocked so that it cannot be operated under load.

36-028 Overcurrent Protection Other than Services

(1) Each operating unit of apparatus, other than transformers, the protection of which is specified in Section 26, each feeder and each branch circuit shall be protected by a circuit breaker of adequate rating and interrupting capacity except as otherwise provided for by this Rule.

(2) Fuses of adequate rating and interrupting capacity may be used for the protection of:

- (a) Individual feeders or branch circuits at the point where they receive their supply;
- (b) Motors as specified in Section 28; or
- (c) Apparatus of other types by special permission.

36-030 Overcurrent Protection of Instrument Transformers

(1) Instrument potential transformers shall have overcurrent protection as required by Rule 26-052.

(2) A suitable disconnecting means shall be provided on the supply side of fuses used for the protection of instrument potential transformers.

36-032 Disconnecting Means, Services

(1) At least one group-operated isolating switch shall be placed on the supply side of each service circuit breaker, except where equipment of the draw-out type or group-operated load-interrupting devices are installed, and shall:

(a) Visibly disconnect all ungrounded conductors of the service; and

(b) Be interlocked so that it cannot be operated under load.

(2) In cases where the possibility of feed-back exists, group-operated isolating switches shall be installed to meet this condition.

36-034 Disconnecting Means, Other than Services

(1) An isolating switch or equivalent equipment shall be placed on the supply side of each circuit breaker and shall be interlocked with the circuit breaker so that the switch cannot be operated under load.

(2) In cases where the possibility of feed-back exists, group-operated isolating switches shall be installed to meet this condition.

(3) Where conductors fed directly by an outdoor station enter a building, either:

(a) A load-breaking device shall be installed indoors at the entry of the conductors to the building; or

(b) A load-breaking device at the outdoor service shall be capable of being tripped or operated from within the building.

36-036 Emergency Exits

(1) Each room or space and each working space about equipment shall have suitable means of exit which shall be kept clear of all obstructions.

(2) If the plan of the room or space and the character and arrangement of equipment are such that an accident would be liable to close or make inaccessible a single exit, as in the case of long narrow rooms, platforms, passageways, spaces behind switchboards, or wire and pipe tunnels, a second exit shall be provided.

36-038 Station Ground Electrode

(1) Every station shall be grounded:

(a) By means of a driven-ground electrode consisting of at least 4 ground rods at least 10 feet long and $\frac{3}{4}$ inch in diameter, spaced at least 1 rod apart, and interconnected by means of a soft-drawn copper conductor of at least No. 2/0 AWG in the form of a loop around the equipment grounded to it, when the electrode is in close proximity to the equipment; or

(b) By means of a buried ground electrode, subject to the approval of the inspection department.

(2) Where a ground electrode is remotely located to the station equipment, two grounding conductors of soft drawn No. 2/0 AWG copper shall connect the ground electrodes to the station equipment to ensure continuity, and the grounding arrangement shall be subject to the approval of the inspection department.

(3) Where a substation receives its supply from a main station or switching centre on the same premises, and the main station or switching centre has a ground electrode as required in Subrule (1), all parts of the substation which are required to be connected to a ground electrode shall be connected to the main substation or switching centre by means of a soft-drawn copper conductor not less than No. 2/0 AWG.

(4) Where the copper conductor referred to in Subrule (3) may be subject to mechanical damage or to inadvertent disconnection, every station shall have a ground electrode as described in Subrule (1) as well as the copper conductor described in Subrule (3).

(5) Notwithstanding Subrule (4) hereof, all substations not enclosed in a building shall be provided with both a ground electrode as described in Subrule (1) hereof and a copper conductor as described in Subrule (3) hereof.

36-040 Connection of Lightning Arresters to the Station Ground Electrode

(1) A lightning arrester shall be connected to the station ground electrode by a conductor at least:

(a) No. 4 AWG where the arrester is rated at less than 10 kilowatts;

(b) No. 2 AWG where the arrester is rated at from 10 kilowatts to 30 kilowatts;

(c) No. 2/0 AWG where the arrester is rated at from 30 kilowatts to 69 kilowatts.

(2) Lightning arrester grounding conductors shall be as short as practicable.

(3) Where a lightning arrester is installed for the protection of high voltage cable, the lightning arrester grounding conductor shall be connected to all metallic potheads and the metallic sheaths or armour of the cables.

36-042 Other Connections to the Station Ground Electrode

(1) The following metallic items forming part of the station shall be grounded to the station ground electrode by grounding conductors of the type and size specified:

(a) A metallic watermain inside the station boundaries by a copper conductor not less than No. 2/0 AWG;

(b) A line sky-wire by the copper equivalent of the sky-wire;

(c) A neutral conductor by the copper equivalent of the neutral conductor;

(d) A supporting leg of a metal structure by a copper conductor of not less than No. 2/0 AWG;

(e) A gradient control mat by a copper conductor not less than No. 2/0 AWG;

(f) Non-current-carrying metal parts of:

- (i) Transformers, generators, motors, circuit breakers, reclosures, instrument transformers and switchgear by copper conductors not less than No. 2/0 AWG;
- (ii) Frames of gang-operated switches and fuse cutout boxes by copper or aluminum conductor not less than 2/0 AWG unless such items are mounted on metal structures on which all structural joints within 8 feet of grade are bonded;
- (iii) Cable sheaths, raceways, pipework, screen guards, switchboards and potential transformers by copper conductors not less than No. 4 AWG;
- (iv) Meter and relay cases by copper conductors not less than No. 10 AWG; and
- (v) Any exposed metal frame of the building or structure, and any other exposed metal work on buildings or structures within or forming part of the station enclosure, by copper conductors not less than No. 2/0 AWG.

(2) The grounding connections required by Subrules (1) (a), (1) (b) and (1) (c) shall be made by means of a removable link which will permit isolation of the grounding conductor from the station ground electrode for testing purposes.

36-044 Gradient Control Mats

(1) A permanent gradient control mat of substantial galvanized steel construction shall be installed at the handle of the operating mechanism of every gang-operated switch installed outdoors and not enclosed in metal.

(2) The gradient control mat shall:

- (a) Be positioned so that the operator will not be required to step from the mat during the operation of the switch;
- (b) Be placed upon the ground where it is visible at all times;
- (c) Have dimensions of not less than,
 - (i) 48 inches by 54 inches where the switch mechanism has a reciprocating action; or
 - (ii) 48 inches by 72 inches where the switch mechanism has a rotating action;
- (d) Be connected to the station ground electrode by two separate No. 2/0 AWG soft-drawn copper conductors.

(3) The operating rod of the switch mechanism shall be grounded to the gradient control mat by connecting the operating rod to a grounding conductor on the handle base or adjacent structure by a No. 3/0 AWG extra-flexible, 425-strand, copper conductor and by connecting the grounding conductor to the gradient control mat by a No. 2/0 AWG soft-drawn copper conductor.

36-046 Grounding of Wire Fence Enclosures of Outdoor Stations

(1) Fence enclosures of outdoor stations shall be grounded independently of the station ground electrode by means of a No. 2/0 AWG soft-drawn copper conductor buried to a depth of 6 inches to 8 inches around and outside the fence and, where practicable, 3 feet from the fence-line.

(2) The grounding conductor referred to in Subrule (1) shall be connected to the fence at intervals not exceeding 40 feet by tap conductors of No. 2/0 AWG soft-drawn copper conductor.

(3) The tap conductors referred to in Subrule (2) shall be interwoven through the fence fabric and connected to the top rail and each strand of barbed wire.

(4) A tap conductor shall be located at each hinge gatepost and bonded to the gate frames by No. 3/0 AWG extra-flexible conductor.

(5) The top rail of the fence shall be bonded at every joint by means of a No. 2/0 AWG copper conductor jumper.

(6) The fence or the fence grounding conductor referred to in Subrule (1) shall be connected to the station ground electrode on opposite sides of the station where the fence, or the gate when open, is within 5 feet of the station ground electrode, the gradient control device, or any other equipment or structures connected to the station ground electrode.

(7) Where a building or structure forms part of the station enclosure, or is within 5 feet of the fence, exposed metal work on the exterior of the building within 5 feet of either the station fence or the station equipment shall be bonded to the fence electrode in 2 places on opposite sides of the station by No. 2/0 AWG copper conductors.

SECTION 38—PASSENGER AND FREIGHT ELEVATORS INCLUDING DUMBWAITERS AND ESCALATORS

38-000 Scope. This Section applies to the installation of electrical equipment for passenger and freight elevators, including dumbwaiters and escalators, and is supplementary to or amendatory of the general requirements of this Code.

38-002 Voltage Limitations

(1) No part of any electric circuit having a circuit voltage in excess of 300 volts shall be used on any car or control circuit, except that higher voltages may be used for frequencies of 25 through 60 cycles alternating current or for direct current, provided that the current in the system cannot, under any conditions, exceed 8 milliamperes for alternating current or 30 milliamperes for direct current.

(2) Electric circuits in machine rooms or penthouses for the operation of motors and brakes shall have a potential not in excess of 750 volts, provided that if it exceeds 300 volts, all control and signal circuits shall be insulated from the power circuits.

(3) Electric circuits fed from motor generators, rectifiers or control transformers shall be grounded as required in Section 10.

38-004 Isolation of Live Parts. All live parts of electrical apparatus in hoistways, at the landings or in or on the cars of elevators and dumbwaiters, or in the wellways or at the landings of escalators shall be enclosed to protect against accidental contact.

38-006 Insulation of Conductors

(1) Conductors from the control panel to the main circuit resistors not located within the control panel shall be of a type suitable for use in raceways as indicated in Table 19 and shall be suitable for operation at a temperature of not less than 90° C., have a rating not less than 600 volts, and be flame-retardant.

(2) Except for conductors in travelling cables, all wiring in hoistways and in or on cars of elevators, and in the machine rooms of elevators, dumbwaiters and escalators, shall be flame-retardant, moisture-resistant, and suitable for use at 600 volts as indicated in Tables 11 and 19.

38-008 Travelling Cables. Travelling cables used as flexible connections between elevator or dumbwaiter cars and their hoistways shall be of Type E or EO elevator cable, or other equivalent approved type, except that Type EO or other equivalent approved type shall be used in damp locations.

38-010 Conductor Sizes

(1) In travelling cables the minimum size conductors shall be:

- (a) For lighting circuits, No. 14 AWG except that smaller conductors may be used in parallel provided that the ampacity is equivalent to at least that of No. 14 AWG; and
- (b) For operating, control and signal circuits, No. 18 AWG.

(2) In all operating, control and signal circuits the minimum size conductors shall be No. 18 AWG.

38-012 Branch Circuits for Lighting. In passenger elevators, a separate lighting branch circuit shall be provided for each car, and the overcurrent device protecting this branch circuit shall be located in the elevator machine room.

38-014 Wiring Methods in Hoistways, Machine Rooms and Escalator Wellways

(1) Conductors located in hoistways, machine rooms and escalator wellways, except travelling cables, shall be installed in rigid conduit, electrical metallic tubing or wire troughs, except that flexible conduit or armoured cable not exceeding 5 feet in length may be used between riser and limit switches, interlocks, push-buttons and similar devices.

(2) Except by special permission, only such electrical wiring, conduit and cables used directly in connection with the elevator or dumbwaiter may be installed inside the hoistway, including wiring for:

- (a) Signals;
- (b) Communication with the car;
- (c) Lighting and ventilating the car; and
- (d) Fire detecting systems for the hoistway.

(3) Mineral-insulated cable or aluminum-sheathed cable may be used if located so that there is no liability of damage to the sheath.

38-016 Wiring Methods on Cars

(1) Conductors and travelling cables on elevators and dumbwaiter cars shall be run in rigid conduit, electrical metallic tubing or wireways, except that:

- (a) Short runs of flexible conduit or armoured cable may be used where they are securely fastened in place and not exposed to oil or grease;
- (b) Short runs of Type S cord may be used as the flexible connection between fixed wiring on the car and the switch on the car door or gate, provided that the cord is securely fastened in position and so located as not to be subject to mechanical injury; and
- (c) Mineral-insulated cable or aluminum-sheathed cable may be used if located so that there is no liability of damage to the sheath.

(2) Where conductors may be in contact with oil or grease, they shall have oil-resistant insulation.

38-018 Wiring Methods Between Motors, Machine Brakes, Generators and Control Panels

(1) Conductors of circuits between motors, machine brakes, generators and control panels may be run without additional protection, provided that:

- (a) The conductors are not over 6 feet long;
- (b) The conductors are supported at intervals of not more than 3 feet;
- (c) The conductors are not located so as to be subject to mechanical injury or to temperatures in excess of 60° C. (140° F.);
- (d) The group is taped or corded; and
- (e) The tapes or cords are coated with insulating paint.

(2) Where motor generators are used with elevator motors and both are located adjacent to or underneath the control equipment and are provided with extra-length terminal leads, the leads may be connected directly to the controller or motor generator terminal studs, and the provisions of Rule 4-004 in respect of ampacity shall not apply, but no lead shall be longer than 6 feet.

38-020 Wiring Methods on Sidewalk Elevators. Where the top-terminal-landing opening is in the sidewalk or other area exterior to the building, the following special requirements apply:

- (a) All electrical wiring shall be installed in rigid conduit or electrical metallic tubing except that:
 - (i) Lead-sheathed armoured cable, not exceeding 5 feet in length, may be used as permitted in Rule 38-014 (1); and
 - (ii) Mineral-insulated cable or aluminum-sheathed cable may be used if located so that there is no liability of damage to the sheath;
- (b) All boxes and fittings in the hoistway shall be weatherproof;
- (c) All electrical equipment in or on the car shall be weatherproof;

- (d) Travelling cables, where used between the car and the hoistway wiring, shall be Type EO;
- (e) Slack rope, switches where required, lower normal-terminal and lower final-terminal hoistway limit switches, and pit stop switches shall be located as far above the bottom of the pit as practicable.

38-022 Grouping of Conductors. Conductors of elevator operating, control, signal, telephone and lighting circuits may be run in the same raceway or travelling cable provided that all conductors are insulated for the maximum voltage found in the cable or raceway system.

38-024 Number of Conductors in Raceways

(1) Where conductors are installed in conduit or electrical metallic tubing, the conduit or tubing shall not contain a greater number of conductors than specified in Rule 12-162.

(2) In other types of wireways, conductors shall not occupy more than 20 per cent of the cross-sectional area of the raceway.

38-026 Raceway Supports. Supports for raceways in hoistways or escalator wellways shall be securely fastened to the guide-rail, hoistway or wellway construction.

38-028 Fittings

(1) Where conduit or electrical metallic tubing is installed in the open, split fittings or clamp fittings may be used provided the conduit or tubing does not contain feeders.

(2) Where conductors leave raceways, the provisions of Rules 12-272, 12-274 and 12-276 shall apply.

(3) No terminal fitting shall be installed less than 6 inches from the floor in machine rooms.

38-030 Suspension of Travelling Cables

(1) Where travelling cables exceed 100 feet in length, such cables shall be so supported that the weight is carried directly by the reinforcement strands of the cable assembly.

(2) Where travelling cables do not exceed 100 feet in length and are so constructed that the weight of the cable is not carried by the individual conductors, the cables may be suspended by suitable spools.

38-032 Hazardous Locations. In hazardous locations, travelling cables shall terminate in cabinets approved for the class and group of the location and shall enter such enclosures through heavy-duty rubber-bushed threaded connector bushings which have been designed for this use.

38-034 Mechanical Protection. Wherever the travelling cables in swinging may come in contact with projections or corners of the building construction in the hoistway, such as 'I' beams, ledges and the like, such irregular surfaces shall be made smooth by covering with heavy gauge sheet metal or by other acceptable means.

38-036 Disconnecting Means

(1) Disconnecting means shall be provided for the opening of all ungrounded conductors of:

- (a) The drive motor and its control circuits in each elevator, dumbwaiter, and escalator operating individually or as one of a group;
- (b) The signal dispatch and scheduling circuitry, common to a group of elevators, dumbwaiters, or escalators; and
- (c) Lighting branch circuits supplying elevator cars and hoistways and such circuits shall be controlled by disconnecting means, other than those required by paragraphs (a) and (b) hereof.

(2) Each disconnecting means shall be an externally operated switch or circuit breaker, equipped with means for locking it in the open position.

(3) Means shall be provided on the switch or circuit breaker to indicate the disconnected position.

(4) The disconnecting means shall be located in a group in the machine room at the lock-jamb side of the entrance door unless available wall space or other construction features make it impractical to do so.

(5) Where the location of a disconnecting means required by Subrule (1) (a) is such that it is out of sight from either the machine or motor generator, a supplementary switch or circuit breaker, as outlined in Rule 28-052, shall be installed.

(6) Each disconnecting means shall be plainly marked to indicate the machine or circuit that it controls.

38-038 Overload Protection of Motors. Each elevator, dumbwaiter and escalator drive motor, or the drive motor of the motor-generator set which supplies current to the drive motor, shall be protected so that, in the event of excessive current due to single phase operation or due to mechanical cause, the current to the motor will be cut off before damage can occur to the winding.

38-040 Phase Protection of Motors. Each drum type electric elevator having electrically-operated brakes and on which the lifting cables are positively anchored to the hoisting drums and driven by a poly-phase motor shall be provided with devices which will prevent starting the motor if:

- (a) The phase rotation is in the wrong direction; or
- (b) There is a failure in any phase.

38-042 Overcurrent Protection of Operating, Control and Signal Circuits

(1) Overcurrent protection for operating and control circuits shall be provided in accordance with Section 14.

(2) Overcurrent protection for signal circuits shall be provided in accordance with Section 16.

38-044 Installation of Machines. Elevator, dumbwaiter or escalator machines, controllers, and auxiliary equipment shall be installed in a space which is secured against unauthorized access.

38-046 Installation of Control Panels

(1) At controllers there shall be a working space of not less than 24 inches clear of live parts behind each controller and not less than 30 inches of working space clear of live parts in front of each controller.

(2) There shall be a clear access of 18 inches in width from the front to the rear of the controller and if there are any exposed current-carrying parts in this area, they shall be protected by barriers.

(3) If the controllers are enclosed in cabinets with swinging doors or removable sections, the prescribed working space dimension shall apply when the doors are opened or a section removed, and this will not prohibit the installation of totally enclosed wall-mounted controllers.

(4) Controllers may be mounted on, over, or against the machine provided that there is reasonable access to the controller.

(5) Auxiliary equipment may be placed in front or rear of the controller, provided that the installation of such equipment will not reduce the space requirements of Subrule (1).

(6) Enclosed escalator controllers may be installed with less working space than required in Subrule (1), provided the controller can be readily removed for maintenance purposes.

38-048 Bonding of Raceways. Raceways attached to cars shall be bonded to grounded metal parts of the car with which they come in contact.

38-050 Grounding of Equipment

(1) For electric elevators, dumbwaiters and escalators, the frames of all motors, machines, controllers and the metal enclosures for all electrical devices in or on the car or in the hoistway or wellway shall be grounded.

(2) For elevators or dumbwaiters other than electric, if any electrical conductors are attached to the car, the metal frame of the car shall be grounded if normally accessible to persons.

(3) All hand-operated metallic shifting ropes or cables shall be grounded.

38-052 Methods of Grounding

(1) Equipment mounted on members of a grounded structural metal frame of a building shall be deemed to be grounded.

(2) Metal car frames supported by metal hoisting cables attached to or running over sheaves or drums of elevator machines shall be deemed to be grounded when the machine is grounded in accordance with Section 10.

38-054 Power Rectifiers for Direct Current Elevators. Where dry plate rectifiers or other types of rectifiers which are incapable of absorbing electrical energy are used to transform alternating current to direct current for the operation of a direct current elevator motor or motors, means shall be provided to absorb a sufficient amount of the energy regenerated by the elevator motor or motors to prevent an elevator from attaining at any time under overhauling load conditions a speed of more than 125 per cent of its speed in the up direction with its rated load in the car.

38-056 Lighting of Machine Rooms

(1) Permanent provision of adequate artificial light shall be made in machine rooms of power elevators.

(2) Illumination shall be not less than 10 foot-candles at floor level.

(3) The machine room lighting switch shall be within easy reach of the entrance to the machine room.

(4) Where practical, the elevator service switch and the lighting switch shall be located on the lock-jamb side of the machine room entrance door, and both these switches shall be of the enclosed type.

38-058 Hoistway Pit Lighting

(1) A permanent lighting fixture shall be provided in all pits which shall provide an illumination of not less than 5 foot-candles at the pit floor.

(2) A light switch shall be provided and shall be located so as to be accessible from the pit access door.

SECTION 40—ELECTRIC CRANES AND HOISTS

40-000 Scope

(1) This Section covers such features of the installation of electrical equipment providing circuits for electric cranes, hoists, and monorails which are additional to or amendatory of the general requirements of this Code.

(2) This Section does not cover equipment and wiring of cranes, hoists and monorails which are assembled and erected in the field and which shall comply with the specifications to which the equipment was originally approved.

40-002 Supply Conductors. The size of conductors supplying main contact conductors, or supplying the equipment directly where there are no main contact conductors, shall be not less than that required by Rule 28-014 or 28-016, as applicable, together with additional capacity for other than motor loads where such provision is necessary.

40-004 Conductor Protection

(1) Conductors supplying main contact conductors shall be in rigid conduit, electrical metallic tubing, armoured cable, mineral-insulated cable or aluminum-sheathed cable except as otherwise provided for in Rule 40-018.

(2) Conductors supplying the equipment directly shall comply with Subrule (1) unless a flexible connection is required in which case an acceptable armoured or unarmoured cable or flexible cord, with take-up devices where necessary to prevent damage to the cable or cord and to keep it clear of the operating floor, may be used.

40-006 Overcurrent Protection. Conductors supplying main contact conductors or supplying the equipment directly where there are no main contact conductors shall be provided with overcurrent protection in accordance with the requirements of Rule 28-022 for the motor load plus an allowance in accordance with Rule 14-058 for any other loads if the size of conductors has been increased to provide capacity for the other loads.

40-008 Disconnecting Means. Suitable means which will disconnect all ungrounded conductors of the circuit simultaneously shall be:

- (a) Provided within sight of the main contact conductors or within sight of the equipment if there are no main contact conductors; and
- (b) Accessible and operable from the ground or from the floor over which the equipment operates.

40-010 Main Contact Conductors

(1) Bare main contact conductors shall have an ampacity not less than that of the conductors supplying them and, if wire is used in no case shall they be smaller than:

- (a) No. 4 AWG if the length of contact conductor is 60 feet or less;
- (b) No. 2 AWG if the length of contact conductor is greater than 60 feet, unless the intermediate insulating supports are of a clamp type which is capable of providing some strain relief.

(2) Bare main contact conductors may be of hard drawn copper or aluminum wire or may be of steel or other suitable metal in the form of tees, angles, T-rails, or other rigid shapes.

(3) Approved enclosed contact systems may be used.

40-012 Spacing of Main Contact Conductors

(1) Bare main contact conductor wires shall be supported so that:

- (a) They will be separated, centre-to-centre:
 - (i) Not less than 6 inches, for other than monorail hoists, if installed in a horizontal plane;
 - (ii) Not less than 3 inches, for monorail hoists, if installed in a horizontal plane; or
 - (iii) Not less than 8 inches, if installed in other than a horizontal plane; and
- (b) The extreme limit of displacement will not bring them within less than 1½ inches of the surface wired over.

(2) Rigid main contact conductors shall be supported so that there will be an air space of not less than 1 inch between conductors, between conductors and adjacent collectors, and between conductors and the surface wired over.

40-014 Supporting of Main Contact Conductors

(1) Bare main contact conductor wires shall be secured at each end to strain insulators, and shall be supported on insulating supports placed at intervals not exceeding 20 feet except that, where building conditions make the above impossible, the interval between insulating supports may be increased to a maximum of 40 feet if the separation between contact conductors is increased proportionately.

(2) Rigid main contact conductors shall be secured to insulating supports spaced at intervals of not more than 80 times the vertical dimension of the conductor, but in no case greater than 15 feet.

40-016 Joints in Rigid Contact Conductors. Joints in rigid main contact conductors shall be made so as to ensure proper ampacity without overheating.

40-018 Use of Track as a Conductor. Monorail, tramrail or crane runway tracks may be used as a main contact conductor or as a supply circuit conductor for one phase of a three-phase alternating-current system if:

- (a) The power for all phases is obtained from an isolating transformer;

(b) The voltage does not exceed 300 volts;

(c) The rail serving as a conductor is effectively grounded, preferably, at the transformer, with permissive additional grounding by the fittings used for the suspension or attachment at the rail to the building structure; and

(d) Any joints in the rail meet the requirements of Rule 40-016.

40-020 Elevation or Guarding of Contact Conductors. Bare ungrounded contact conductors shall either be elevated to not less than 15 feet above ground or other working surface which is available to other than qualified persons, or be guarded so that persons on the ground or other working surface cannot inadvertently make contact with bare current-carrying parts.

40-022 Contact Conductors Not to Supply Other Equipment. Contact conductors shall not be used as feeders for any equipment other than that essential for the operation of the cranes, hoists or monorails which they supply.

40-024 Grounding

(1) All exposed non-current-carrying metal parts shall be grounded.

(2) Metal-to-metal contact between wheels and tracks shall be sufficient for grounding purposes.

(3) Tracks shall be grounded as required by Rule 10-042 or 40-018.

(4) Flexible supply cords permitted in Rule 40-004 (2) do not require a grounding conductor provided the track is properly grounded.

SECTION 42—ELECTRIC WELDERS**General**

42-000 General. The requirements of this Section apply to electric welder installations and are additional to or amendatory of the requirements of other Sections of this Code insofar as these installations are concerned.

42-002 Special Permission. Where, in the opinion of the inspection department, the additional requirements of this Section are not required, they may be waived by special permission.

42-004 Severe Duty Cycle. Where, in the opinion of an inspector designated by the inspection department for the purpose of this Rule, the duty cycle is such as to require it, welders shall be treated on an individual basis.

Transformer Arc Welders**42-006 Supply Conductors**

(1) The supply conductor for an individual transformer arc welder shall have an ampacity of not less than:

- (a) 100 per cent of the rated primary current for an automatically operated welder; or
- (b) 80 per cent of the rated primary current for a manually operated welder.

(2) The supply conductors for a group of automatically operated transformer arc welders shall have an ampacity equal to the sum of:

- (a) 100 per cent of the rated primary current of the two largest welders in the group;
 - (b) 85 per cent of the rated primary current of the third largest welder in the group;
 - (c) 70 per cent of the rated primary current of the fourth largest welder in the group; and
 - (d) 60 per cent of the aggregate rated primary current of all remaining welders in the group.
- (3) The supply conductors for a group of manually operated transformer arc welders shall have an ampacity equal to the sum of:

- (a) 80 per cent of the rated primary current of the two largest welders in the group;
- (b) 68 per cent of the rated primary current of the third largest welder in the group;
- (c) 56 per cent of the rated primary current of the fourth largest welder in the group; and
- (d) 48 per cent of the aggregate rated primary current of all remaining welders in the group.

(4) At the discretion of the inspection department, percentage values lower than those given in Subrules (2) and (3) are permissible in cases where the work is such that a high operating duty cycle for individual welders is impossible.

42-008 Overcurrent Protection for Transformer Arc Welders

(1) Each transformer arc welder shall have overcurrent protection rated or set at not more than 200 per cent of the rated primary current of the welder, unless the overcurrent device protecting the supply conductors meets this requirement.

(2) Each ungrounded conductor shall have overcurrent protection rated or set at not more than 200 per cent of the allowable ampacity of the conductor as specified in Tables 1, 2, 3 or 4, except that the next higher rating or setting may be used where:

- (a) The nearest standard rating of the overcurrent device is less than the rating or setting otherwise required by this Rule; or
- (b) The rating or setting otherwise required by this Rule results in too frequent opening of the overcurrent device.

42-010 Disconnect Means

(1) A disconnect means shall be provided in the supply connection of each welder which is not equipped with a disconnect mounted as an integral part of the welder.

(2) The disconnect means shall be a switch or circuit breaker and its rating shall be not less than necessary to accommodate overcurrent protection as specified under Rule 42-008.

Motor-Generator Arc Welders

42-012 Conductors, Protection and Control of M-G Arc Welders. The rules of Section 4, Conductors, and 28, Motors, shall apply to motor-generator arc welders except that:

- (a) The motors may be marked in amperes only; and
- (b) Where the controller is built-in as an integral part of the motor-generator set, the controller need not be separately marked provided the necessary data is on the motor nameplate.

Resistance Welders

42-014 Definitions. In Rules 42-016 and 42-018:

- (a) **"rated primary current"** means the kilovolt-ampere rating of the welder as shown on the nameplate thereof multiplied by 1,000 and divided by the rated primary voltage shown on the nameplate of the welder;
- (b) **"actual primary current"** means the current drawn from the supply circuit during each welder operation at the particular heat tap and control setting used; and
- (c) **"duty cycle"** means the ratio of the time during which the welder is loaded to the total time required for one complete operation.

42-016 Supply Conductors for Resistance Welders. The ampacity of supply conductors shall be as follows:

- (a) Where an individual seam resistance welder or an individual automatically-fed resistance welder is operated at different times at different values of primary current or duty cycle, the supply conductors shall have an ampacity of not less than 70 per cent of the rated primary current of the welder;
- (b) Where an individual manually-operated non-automatic resistance welder is operated at different times at different values of primary current or duty cycle, the ampacity of the supply conductors shall be not less than 50 per cent of the rated primary current of the welder;
- (c) Where an individual resistance welder operates at known and constant values of actual primary current and duty cycle, the supply conductors shall have an ampacity of not less than the value obtained by multiplying the actual primary current by a factor of 0.71, 0.63, 0.55, 0.50, 0.45, 0.39, 0.32, 0.27 or 0.22 for duty cycles of 50, 40, 30, 25, 20, 15, 10, 7.5 and 5 per cent or less respectively;
- (d) Where there is a group of resistance welders, the supply conductors shall have an ampacity of not less than:
 - (i) The sum of the values obtained from paragraph (a), (b) or (c) for the largest welder in the group; and
 - (ii) 60 per cent of the values so obtained for all of the other welders in the group.

42-018 Overcurrent Protection for Resistance Welders

(1) Every resistance welder shall have overcurrent protection rated or set at not more than 300 per cent of the rated primary current of the welder unless the overcurrent device protecting the supply conductors gives equivalent protection.

(2) Every ungrounded conductor of a resistance welder shall have overcurrent protection rated or set at not more than 300 per cent of the allowable ampacity of the conductor as specified in Tables 1, 2, 3 and 4, except that the next higher rating or setting may be used where:

- (a) The nearest standard rating of the overcurrent device is less than the rating or setting required by this Rule; or
- (b) The rating or setting required by this Rule results in too frequent opening of the overcurrent device.

42-020 Control of Resistance Welders. Every resistance welder shall have installed in its supply circuit a switch or circuit breaker, rated at not less than the rating of the conductors as determined by Rule 42-016, whereby the welder and its control equipment can be isolated from the supply circuit.

42-022 Nameplate Data for Resistance Welders. Every resistance welder shall be provided with a nameplate giving the maker's name, primary voltage, frequency, rated kilovolt-amperes at 50 per cent duty cycle, maximum and minimum open-circuit secondary voltage, short-circuit secondary current at maximum secondary voltage, and the specified throat and gap setting.

SECTION 44—THEATRE INSTALLATIONS

General

44-000 Scope. This Section applies to electrical equipment and installations in buildings or parts of a building designed, intended, or used for dramatic, operatic, motion picture, or other shows, and it is supplementary to or amendatory of the general requirements of this Code.

44-002 Travelling Shows. Electrical equipment used by a travelling theatrical company, circus or other travelling show, whether or not the performance is held within a theatre, shall not be used for the initial performance of any series of performances until a permit has been obtained from the inspection department.

44-004 Motion Picture Studios and Projectors. Motion picture studios and projectors shall comply with the requirements of Section 48.

44-006 Sound Reproduction. Sound reproducing equipment shall comply with the requirements of Section 66.

Installation

44-008 Wiring Method

(1) Wiring shall be in rigid conduit, or steel electrical metallic tubing, or as mineral-insulated cable except that:

- (a) Other wiring methods may be permitted for temporary work;
- (b) Flexible cord or cable may be used where permitted by this Section; and
- (c) Flexible conduit, lead-sheathed armoured cable or aluminum-sheathed cable may be used by special permission.

(2) Surface raceways shall not be used on the stage side of the proscenium wall.

44-010 Number of Conductors in Raceways. For border or stage pocket circuits or for remote-control circuits:

- (a) The number of conductors run in rigid conduit or electrical metallic tubing shall not exceed that shown in Rule 12-162; and
- (b) Conductors run in auxiliary gutters or metal wireways shall have a total cross-sectional area not exceeding 20 per cent of the cross-sectional area of the gutter or wireway.

44-012 Conductor Insulation for Field Assembled Fixtures. Foot, border, proscenium and portable strip light fixtures assembled in the field shall be wired with conductors having insulation suitable for the temperature at which the conductors will be operated and in no case less than 125° C. (257° F.).

Stage Switchboards

44-014 Stage Switchboards to be Dead Front. Stage switchboards shall be:

- (a) Of the dead-front type; and
- (b) Protected above with a suitable metal guard or hood extending the full length of the board and completely covering the space between the wall and the board to protect the latter from falling objects.

44-016 Guarding Stage Switchboards

(1) Where a stage switchboard has exposed live parts on the back of the board, it shall be enclosed by the walls of the building, by wire mesh grills, or by other acceptable methods.

(2) The entrance to the enclosure shall have a self-closing door.

44-018 Supply Service

(1) Every theatre other than a moving picture theatre which is not regularly used by theatrical companies shall have two extra service boxes installed in it for the proper and convenient supply of current to extra equipment.

(2) The boxes shall be suitably located with one box at each end of the stage.

(3) The boxes shall be connected in a permanent manner to the main service or to a separate source of supply.

(4) The boxes shall have a capacity of not less than 400 amperes when connected to a 110-volt, 2-wire supply circuit and 200 amperes when connected to a 110/220-volt, 3-wire supply circuit.

(5) The boxes shall be equipped with fuses and quick-break switches or approved equivalent devices.

44-020 Switches. Switches shall be of the enclosed type and externally operated.

44-022 Pilot Lamp on Switchboards

(1) A pilot lamp shall be installed within every switchboard enclosure.

(2) The pilot lamp shall be connected to the circuit supplying the switchboard so that the opening of the master switch does not cut off the supply to the lamp.

(3) The lamp shall be on an independent circuit protected by an overcurrent device rated or set at not more than 15 amperes.

44-024 Fuses. Fuses on switchboards shall be:

- (a) Of either the plug or cartridge type; and
- (b) Provided with enclosures in addition to the switchboard enclosure.

44-026 Overcurrent Protection. All circuits leaving the switchboard shall have an overcurrent device connected in each ungrounded conductor.

44-028 Dimmers

(1) Dimmers shall be connected so as to be dead when their respective circuit switches are open.

(2) Dimmers which do not open the circuit may be connected in a grounded neutral conductor.

(3) The terminals of dimmers shall be provided with approved enclosures.

(4) Dimmer faceplates shall be arranged so that accidental contact cannot readily be made with the faceplate contacts.

44-030 Control of Stage and Gallery Pockets. Stage and gallery pockets shall be controlled from the switchboard.

44-032 Conductors

(1) Conductors within the switchboard enclosure shall be of the stranded asbestos-covered type enclosed in metal troughs or otherwise properly supported and securely fastened in position.

(2) The conductors shall have an ampacity of not less than that of the switch or overcurrent device to which they are connected.

(3) Holes in the metal enclosure through which conductors pass shall be bushed.

(4) The strands of the conductor shall be soldered together before they are fastened under a clamp or binding screw.

(5) Where a conductor of No. 8 AWG or of a larger size is connected to a terminal:

- (a) It shall be soldered into a lug; or
- (b) An approved solderless connector shall be used.

Portable Switchboards on Stage

44-034 Construction of Portable Switchboards

(1) Portable switchboards shall be placed within enclosures of substantial construction but may be arranged so that the enclosure is open during operation.

(2) Enclosures of wood shall be completely lined with sheet metal not less than 0.0209 inch (No. 24 MSG) thick, suitably protected against corrosion.

(3) There shall be no live parts exposed within the enclosure except those on dimmer faceplates.

44-036 Supply for Portable Switchboards

(1) Portable switchboards shall be supplied by means of flexible cord or cable, Type K, S, SO or ST, terminating within the switchboard enclosure in an externally-operated, enclosed, fused master switch.

(2) The master switch shall be arranged so as to cut off current from all apparatus within the enclosure except the pilot light.

(3) The flexible cord or cable shall have a sufficient ampacity to carry the total load current of the switchboard.

(4) The ampere-rating of the fuses of the master switch shall not be greater than the total load current of the switchboard.

Stage Equipment—Fixed

44-038 Circuit Loads. Footlights, border lights and proscenium side lights shall be arranged so that no branch circuit supplying such equipment will carry a load exceeding 15 amperes except that, where heavy-duty lampholders only are used, such circuits may conform to the provisions of Rule 14-082.

44-040 Footlights

(1) Where footlights are wired in rigid conduit or steel electrical metallic tubing, every lampholder shall be installed in an individual outlet box.

(2) Where footlights are not wired in rigid conduit or steel electrical metallic tubing, the wiring shall be installed in a steel trough.

44-042 Wiring to Arc Pockets. Where the wiring to arc pockets is in rigid conduit or steel electrical metallic tubing, the end of the conduit or tubing shall be exposed at a point approximately 12 inches away from the pocket, and the wiring shall be continued in flexible conduit in the form of a loop at least 2 feet long, with sufficient slack to permit the raising or lowering of the box.

44-044 Cable for Border Lights

(1) Flexible cord or cable for border lights shall be of Type K, S, SO or ST.

(2) The flexible cord or cable shall be fed from points on the gridiron or from other acceptable overhead points but shall not be fed from side walls.

(3) The flexible cord or cable shall be arranged so that strain is taken from clamps and binding screws.

(4) Where the flexible cord or cable passes through a metal or wooden enclosure, a metal bushing shall be provided to protect the cord.

(5) Terminals or binding posts to which flexible cords or cables are connected inside the switchboard enclosure shall be located so as to permit convenient access to them.

44-046 Receptacles in Gallery Pockets. At least one receptacle having a rated capacity of not less than 30 amperes shall be installed in the gallery of theatres where dramatic or operatic performances are staged.

44-048 Receptacles and Plugs

(1) Receptacles intended for the connection of arc lamps shall:

- (a) Have a rated capacity not less than 35 amperes; and
- (b) Be supplied by conductors not smaller than No. 6 AWG.

(2) Receptacles intended for the connection of incandescent lamps shall:

- (a) Have a rated capacity not less than 15 amperes; and
- (b) Be supplied by conductors not smaller than No. 12 AWG.

(3) Plugs for arc and incandescent receptacles shall not be interchangeable.

44-050 Curtain Motors. Curtain motors shall be of the enclosed type.

44-052 Flue-Damper Control

(1) Where stage flue dampers are released by an electrical device, the circuit operating the device shall, in normal operation, be closed.

(2) The circuit shall be controlled by at least 2 single-pole switches enclosed in metal boxes with self-closing doors without locks or latches.

(3) One switch shall be placed at the electrician's station and the other at a place designated by the inspection department.

(4) The device shall be:

- (a) Designed for the full voltage of the circuit to which it is connected, no resistance being inserted;
- (b) Located in the loft above the scenery; and
- (c) Enclosed in a suitable metal box with a tight self-closing door.

Stage Equipment—Portable**44-054 Fixtures on Scenery**

(1) Fixtures attached to stage scenery shall be:

- (a) Of the internally-wired types; or
 - (b) Wired with flexible cord or cable approved for hard usage.
- (2) The fixtures shall be secured firmly in place.

(3) The stems of the fixtures shall be carried through to the back of the scenery and shall have a suitable bushing on the end thereof.

44-056 String or Festooned Lights

(1) Joints in the wiring of string or festooned lights shall be staggered where practicable.

(2) Where the lamps of string or festooned lights are enclosed in paper lanterns, or shades or other devices of combustible material, they shall be equipped with lamp guards.

44-058 Flexible Conductors for Portable Equipment. Flexible conductors for arc lamps, bunches or other portable equipment shall be Type K, S, SO or ST cord or cable, but for separate miscellaneous portable devices operated under conditions where the conductors are not exposed to severe mechanical injury, reinforced cords Type SV, SVO, PWP, SJ, SJO or SJT may be used provided that they are protected by an overcurrent device rated or set at not more than 15 amperes.

44-060 Portable Equipment for Stage Effects. Portable equipment for stage effects shall be of a type especially approved for the purpose and shall be so located that flames, sparks or hot particles cannot come in contact with combustible material.

Dressing Rooms

44-062 Pendants in Dressing Rooms. Pendant lights in dressing rooms shall be wired with armoured cable or with flexible cord approved for hard usage as listed in Table 11.

44-064 Receptacles in Dressing Rooms

(1) Every dressing room shall contain at least one receptacle constructed to accommodate parallel blade caps.

(2) All receptacles constructed to accommodate parallel blade caps in dressing rooms shall be controlled from the switchboard.

44-066 Lamp Guards in Dressing Rooms. All lights in dressing rooms shall be equipped with locked, open-end, wire guards.

Aisle Lights—Moving-Picture Theatres

44-068 Aisle Lights in Moving-Picture Theatres. Circuits for aisle lights located under seats may supply 30 outlets provided that the size of lamp bulb which can be used with each outlet is limited by barriers or the equivalent to 25 watts or less.

Grounding**44-070 Grounding**

(1) All metal raceways shall be grounded.

(2) All metal frames and enclosures of equipment including border lights other than the frames and enclosures of portable equipment operating on grounded circuits at not more than 150 volts to ground shall be grounded.

Construction**44-072 Metal Work**

(1) The metal work for footlights, borders, proscenium sidelights and strips shall be not less than 0.0309 inch (No. 20 MSG) thick.

(2) The metal work for bunches and portable strips shall be not less than 0.0209 inch (No. 24 MSG) thick.

44-074 Ventilation for Mogul Lampholders. Where the lighting devices are equipped with mogul lampholders, the lighting devices shall be constructed with double walls and with adequate ventilation between the walls.

44-076 Mechanical Protection of Lamps in Borders, etc. Borders, proscenium sidelights and strips shall be constructed so that the flanges of the reflectors or other suitable guards protect the lamps from mechanical injury and from accidental contact with scenery or other combustible material.

44-078 Clearances at Terminals. The terminals of lampholders shall be separated from the metal of the trough by at least $\frac{1}{2}$ inch.

44-080 Connections at Lampholders. Conductors shall be soldered to the terminals of lampholders unless other suitable means are provided to obtain positive and reliable connection under severe vibration.

44-082 Suspended Fixtures. Borders and strips shall be so suspended as to be electrically and mechanically safe.

44-084 Pendent Lights Rated More than 100 Watts. Where a pendent lighting-device contains a lamp or group of lamps of more than 100 watts capacity, it shall be provided with a guard of not more than $\frac{1}{2}$ inch mesh so arranged as to prevent danger from falling glass.

SECTION 46—EMERGENCY SYSTEMS

General

46-000 Scope

(1) This Section applies to the installation, operation and maintenance of emergency systems and unit equipment intended to supply illumination and to emergency systems intended to supply power in the event of failure of the normal supply where such systems are required by any governmental or other agency having jurisdiction.

(2) References to exit lighting systems refer to exit lights from emergency sources only.

(3) The requirements of this Section are supplementary to or amendatory of the general requirements of this Code.

46-002 System Voltage, 50 Volts or Less. Where an emergency system operates at 50 volts or less, it shall also conform to Section 56.

46-004 Method of Wiring. The method of wiring for emergency systems shall be rigid conduit, steel electrical metallic tubing or mineral-insulated cable, unless special permission is obtained for the use of flexible conduit or armoured cable.

46-006 Testing and Maintenance

(1) Every emergency system shall be tested at least once every month to ensure security of operation.

(2) Where batteries are used as a source of supply for emergency systems, the batteries shall be kept:

- (a) In proper condition;
- (b) Fully charged at all times; and
- (c) In an adequately-ventilated battery room.

46-008 Location of Equipment

(1) No component of an emergency system shall be installed in a room which contains machinery using or used in connection with a combustible refrigerant.

(2) Storage batteries and generators for emergency systems shall be located within the building as to reduce as far as is possible the hazards of interference or damage to the equipment by fire, explosion or flooding within the building.

(3) Where the nature of the occupancy, construction and internal protection of a building warrants it, an inspector may require that the batteries or generators, or both, be located in a fire-resisting room segregated from other parts of the building by unpierced walls, floors and ceiling having a fire resistance rating of at least one hour with entrance to the room from:

- (a) Outdoors; or
- (b) Inside the building providing the opening is protected by an approved automatic fire door.

46-010 Instructions

(1) Complete instructions for the operation and care of the emergency system shall be posted on the premises in a frame under glass.

(2) The form of the instructions and their location shall be subject to the approval of the inspector.

46-012 Audible and Visible Trouble-Signal Devices

(1) Every emergency system shall be equipped with audible and visible trouble-signal devices which give warning of derangement of the current source or sources and which indicate when the emergency load is supplied from batteries or generators.

(2) Audible trouble signals may be wired so that:

- (a) They can be silenced, but a red warning or trouble light shall continue to provide the protective function; and
- (b) When the system is restored to normal, the audible signal will:
 - (i) Sound, thus indicating the necessity of restoring the silencing switch to its normal position; or
 - (ii) Reset automatically so as to sound for any subsequent operation of the emergency system.

Current Supply

46-014 Capacity. Emergency systems shall have adequate capacity and rating to ensure the satisfactory operation of all equipment connected to the system when the principal source of power fails.

46-016 Current Supply

(1) The current supply shall consist of:

- (a) A service supply; and
- (b) Where a stand-by supply is required:
 - (i) A storage battery having sufficient capacity to supply and maintain, at not less than 91 per cent of full voltage, the total load of the emergency circuits for at least $\frac{1}{2}$ hour;
 - (ii) A generator driven by a dependable prime mover; or
 - (iii) By special permission, a separate service widely separated electrically and physically to minimize the possibility of simultaneous interruption of the supply.

(2) Automobile batteries and lead batteries not of the sealed glass-jar-type are not considered suitable under Subrule (1) and shall only be used by special permission.

(3) Where a generator is used, it shall be:

- (a) Of capacity sufficient to carry the load; and
- (b) Arranged to start automatically without failure and without undue delay upon the failure of the current supply of the principal equipment of the building.

Circuits

46-018 Wiring for Emergency Circuits. The wiring of emergency systems shall be kept entirely independent of all other wiring and equipment and shall not enter a fixture, raceway, box or cabinet occupied by other wiring except where necessary:

- (a) In transfer switches; and
- (b) In exit or emergency lighting fixtures supplied from two sources.

46-020 Appliances and Lamps. No appliance or lamp, other than those required for the emergency system, shall be supplied by the emergency circuits.

Control

46-022 Control

(1) The current supply for an emergency system shall be controlled by an automatic changeover switch accessible only to authorized persons.

(2) An additional switch may be installed:

- (a) At the main source of supply or on the control panel of a special current-source; or
- (b) Adjacent to the automatic changeover switch to control separately the lights which are not required during daylight hours.

(3) An automatic light-actuated device approved for the purpose may be used to control separately the lights on the exterior of the building which are not required during daylight hours.

(4) The emergency circuits shall not be connected to or controlled by any other devices.

(5) Where self-contained battery-operated emergency lighting units are used, the receptacle circuit supplying the device shall be interconnected to the general lighting circuit so that failure of this circuit will actuate the emergency lighting unit.

Overcurrent Protection

46-024 Overcurrent Protection

(1) No device other than the overcurrent device for current supply for emergency systems shall be placed ahead of the branch circuit overcurrent devices.

(2) The branch circuit overcurrent devices shall be accessible only to authorize persons.

46-026 Unit Equipment

(1) Rules 46-026 to 46-036 apply to individual unit equipment only.

(2) In these rules, "unit equipment" means individual self-contained equipment for emergency illumination consisting of a battery; battery charging equipment; one or more lamps; and a relaying device arranged to energize the lamps automatically upon failure of the normal supply to the lighting circuit which the emergency unit equipment is intended to protect, such relaying device being adapted automatically to de-energize the emergency lights and/or equipment on restoration of normal service.

46-028 Batteries

(1) Storage batteries whether of the acid or alkali type shall be of the type specifically designed for such service and be of the rechargeable type.

(2) Batteries shall be of suitable rating and capacity to supply and maintain at not less than 91 per cent of rated lamp voltage the total lamp load associated with the unit for a period of at least $\frac{1}{2}$ hour.

46-030 Supply Connections. Unit equipment shall be connected by flexible cords or shall be permanently connected.

46-032 Remote Lamps. The wiring method between unit equipment and emergency illumination fixtures which are not a part of the unit shall be in accordance with Rule 46-018 and Section 12.

46-034 Testing and Maintenance. Unit equipment shall be tested and maintained in accordance with Subrules (1), (2)(a) and (2)(b) of Rule 46-006.

46-036 Instructions. Instructions for the operation and care of unit equipment shall be in accordance with Rule 46-010.

SECTION 48—MOTION PICTURE STUDIOS, PROJECTION ROOMS, FILM EXCHANGES INCLUDING FILM-VAULTS AND STORE HOUSES FOR PYROXYLIN PLASTIC AND NITROCELLULOSE X-RAY AND PHOTOGRAPHIC FILM

48-000 Scope

(1) This Section applies to:

- (a) Motion picture studios, projection rooms, exchanges, factories and laboratories; and
- (b) Any building or portion of a building in which motion picture films, pyroxylin plastic and nitrocellulose X-ray and photographic films are manufactured, projected, developed, printed, rewound, repaired or stored;

and is supplementary to or amendatory of the general requirements of this Code.

(2) This Section does not apply where only slow-burning (cellulose-acetate or equivalent) film is used.

48-002 Wiring Method. The wiring method, unless specified otherwise in this Section, shall be rigid conduit, steel electrical metallic tubing, or mineral-insulated cable, except that portable cables or flexible cord may be used on studio stages and other locations where fixed wiring methods are impracticable.

48-004 Lamp Outlets. Lamp outlets on walls shall consist of lampholders mounted in outlet boxes and equipped with open-ends guards securely fastened to the cover of the box.

48-006 Pendent Lamps. Pendent lamps shall be suspended by means of reinforced cord, armoured cord or armoured cable, and shall be protected by guards or metal shades.

48-008 Portable Lamps. For portable lamps other than those used as properties in a motion picture set on a studio stage or similar location, the lampholders shall be:

- (a) Unswitched;
- (b) Of composition or metal-sheathed porcelain; and
- (c) Provided with a guard hook and handle.

48-010 Flexible Cords. Type S, SO or ST cord shall be used on portable lamps and equipment.

48-012 Patching Table Fixtures. At film-patching tables all lighting fixtures, except lamps forming part of approved patching table equipment, shall be of the totally-enclosed gasketed type.

48-014 Motors and Generators. Motors and generators having brushes or sliding contacts, other than those used on studio stages or installed in accordance with Rule 48-032, shall be of approved dust-tight or enclosed types.

48-016 Storage Batteries. Storage batteries shall comply with the requirements of Rules 26-078 to 26-084.

48-018 Pyroxylin Plastic Storage Rooms. In rooms used for the storage of pyroxylin plastic no receptacle or attachment plugs shall be installed.

Film-Vaults

48-020 Equipment in Film-Vaults. No electrical equipment other than that necessary for fixed lighting shall be installed in film-vaults.

48-022 Film-Vaults Wiring Method

(1) The wiring method in film-vaults shall be rigid conduit or mineral-insulated cable only, with threaded joints at couplings, boxes and fittings.

(2) Conduit or cable shall not run directly from vault to vault, but only from the switch to the lighting fixture within the vault.

(3) Conduit shall be sealed off near the switch enclosure with a fitting and compound approved for the purpose.

48-024 Film-Vault Lighting Fixtures

(1) Lighting fixtures in film-vaults shall be of the explosion-proof type approved for use in Class 1, Group C hazardous locations and shall have metal cages or guards protecting the globes.

(2) The fixtures shall be located as close as practicable to the ceiling so as not to be liable to damage through handling of film containers.

48-026 Film-Vault Circuits

(1) Fixtures shall be controlled by a double-pole switch located outside the film-vault.

(2) A red pilot light shall be provided to indicate when the switch is closed and shall be located outside the film-vault.

(3) Wiring shall be arranged so that when the switch is off, all conductors within the film-vault will be dead.

Motion Picture Projection Rooms

48-028 Flexible Cords in Projection Rooms. Type S, SJ, SO, ST or K flexible cords shall be used on portable equipment in motion picture projection rooms.

48-030 Lamps in Projection Rooms. Incandescent lamps in projection rooms or booths shall be provided with an approved lamp guard unless otherwise protected by noncombustible shades or other enclosures.

48-032 Ventilation. All projection rooms shall be provided with exhaust ventilation fans sufficient to give a complete change of air every three minutes, and the fan shall be arranged so that it may be controlled from inside the projection room and from a nearby point outside the room.

SECTION 50—ELECTRICALLY-OPERATED PIPE ORGANS

50-000 Scope. This Section applies to:

- (a) The electrical circuits and parts of electrically-operated pipe organs which are used to control sounding apparatus and keyboards of pipe organs;
- (b) The blower motors for pipe organs;
- (c) The lighting of pipe organ lofts;

and is supplementary to or amendatory of the general requirements of this Code.

50-002 Control Circuit Source of Energy. The source of electrical energy for the control circuit shall be:

- (a) A self-excited generator;
- (b) A primary battery; or
- (c) A two-coil transformer type rectifier.

50-004 Control Circuit Voltage. The operating voltage of the control circuit shall be not more than 30 volts.

50-006 Control Circuit Conductors

- (1) Control circuit conductors shall be cabled except:
 - (a) Conductors inside the organ proper, the organ sections and the organ console; and
 - (b) Common return conductor which may be run in contact with the cable or be placed under additional covering enclosing both cable and return conductor.

(2) Control circuit cable shall be of a type approved for the purpose.

(3) For the purpose of this Rule, cable means an assembly of insulated conductors.

50-008 Control Circuit Cables, Installation

(1) Control circuit cables shall be neatly and securely held in place.

(2) The cables may be attached directly to the organ structure without insulating supports.

(3) The cable shall not be placed in contact with other conductors.

50-010 Control Circuit Cables, Overcurrent Protection

(1) The control circuit shall be divided and protected at or near the source of current by enclosed overcurrent devices so that every conductor is protected by one or other of the overcurrent devices.

(2) The rating of overcurrent devices referred to in Subrule (1) shall not exceed:

(a) 15 amperes for control circuits not exceeding 15 volts;

(b) 10 amperes for control circuits exceeding 15 volts.

50-012 Blower Motor Signal Light. A remotely controlled organ blower motor shall be provided with a pilot lamp of the neon type located at the organ console.

50-014 Blower Motor Installation

(1) Every organ blower motor, unless of the totally-enclosed type, shall be installed in a room or compartment having walls and ceiling constructed so as to retard the spread of fire for at least 45 minutes.

(2) Sub-rule (1) shall be deemed to be complied with where:

(a) The construction of the walls is of 2- by 4-inch (trade size) wood studs with expanded metal lath on each side and $\frac{3}{4}$ -inch thickness of gypsum and sand plaster;

(b) The ceiling is of the double metal lath and plaster type; and

(c) The door to the room or compartment is self-closing, and consists of at least two 1-inch layers of lumber with a membrane of asbestos paper weighing at least 30 pounds per 100 square feet placed between the layers.

50-018 Organ Loft Lighting

(1) The wiring method in organ lofts shall be rigid conduit, electrical metallic tubing, or run as mineral-insulated cable or as aluminum-sheathed cable.

(2) Organ lofts shall be illuminated by a fixture constructed so that particles from a broken lamp bulb will be contained within the fixture.

(3) Conductors used for illumination of organ lofts shall be completely enclosed within the conduit or fitting.

(4) A receptacle shall be provided in the organ loft for the supply of current to an approved portable lamp.

(5) Electric equipment installed in organ lofts shall be suitably enclosed in an approved box or cabinet or fitting.

SECTION 52—X-RAY INSTALLATIONS

52-000 Scope

(1) This Section applies to the installation of X-ray equipment operating at any frequency, and is supplementary to or amendatory of the general requirements of this Code.

(2) Nothing in this Section shall be construed as specifying safeguards against direct, stray or secondary X-ray radiation.

52-002 High-Voltage Guarding

(1) High-voltage parts shall be mounted within enclosures of grounded metal except when installed in separate rooms or enclosures where a suitable switch shall be:

(a) Provided to control the circuit supplying the X-ray equipment; and

(b) Arranged so that it will necessarily be open except while the door of the room or enclosure is locked from the outside.

(2) High-voltage parts of X-ray equipment may be mounted within enclosures of insulating material.

(3) Conductors in the high-voltage circuits shall be of the shock-proof type.

(4) Leads on fluoroscope tables shall be adequately insulated or be provided with barriers which will guard against inadvertent contact.

52-004 Milliammeter. If a milliammeter is provided it shall be:

(a) Connected, if practicable in the grounded lead; or

(b) Guarded if connected in the high-voltage lead.

52-006 Connections to Supply Circuit

(1) Permanently installed X-ray apparatus shall be connected to the power supply by means of a wiring method meeting the general requirements of this Code, except that apparatus properly supplied by branch circuits not larger than a 30-ampere branch circuit may be supplied through a suitable plug and heavy duty cable or cord.

(2) Transportable X-ray apparatus of any capacity may be connected to its power supply by suitable temporary connections and heavy duty cable or cord.

52-008 Disconnecting Means

(1) A disconnecting means of adequate capacity shall be provided in a location readily accessible from the X-ray control.

(2) For apparatus requiring a 115-volt branch circuit fused at 30 amperes or less, a plug and receptacle of proper size may serve as a disconnecting means.

52-010 Transformers and Capacitors

(1) Transformers and capacitors forming a part of an X-ray equipment shall not be required to conform to the requirements of Section 26 of this Code.

(2) Capacitors shall be provided with an automatic means for discharging and grounding the plates whenever the transformer primary is disconnected from the source of supply, unless all current-carrying parts of the capacitors and of the conductors connected therewith are:

- (a) At least 8 feet from the floor, and are inaccessible to unauthorized persons; or
- (b) Within enclosures of grounded metal or insulating material if within 8 feet from the floor.

52-012 Control

(1) For stationary equipment, the low-voltage circuit of the step-up transformer shall contain a circuit breaker which:

- (a) Has no exposed live parts;
- (b) Protects the radiographic circuit against fault conditions under all operating conditions;
- (c) Is installed as a part of the equipment or directly adjacent thereto; and
- (d) Is manually operable or else at least one other manually operable switch is provided in the low-voltage circuit of the step-up transformer, either as part of the equipment or directly adjacent thereto.

(2) Where in Subrule (1) the design of the step-up transformer is such that branch fuses having a current rating lower than the current rating of the circuit breaker are required for adequate protection for fluoroscopic and therapeutic circuits, they shall be added for protection of these circuits.

(3) For portable equipment, the requirements of Subrules (1) and (2) shall apply but the circuit breaker shall be located in or on the equipment except that no circuit breaker is required when the high voltage parts including the X-ray tube are within a single metal enclosure which is provided with a means for grounding.

(4) Medical X-ray equipment shall, in addition to complying with the requirements of Subrules (1), (2) and (3) as applicable, be provided with controlling means as follows:

- (a) For the radiographic type, a timer shall be provided and controlled by a switch which shall be designed to open automatically except when held closed by the operator;
- (b) For the fluoroscopic type, a switch shall be provided which shall be designed to open automatically except when held closed by the operator;
- (c) For the therapeutic type, a timer shall be provided which is not of the repeating type.

(5) Industrial X-ray equipment of the radiographic and fluoroscopic types shall in addition to complying with the requirements of Subrules (1), (2) and (3) as applicable, be provided with a timer or a manual switch to open and close the circuit at the option of the operator.

(6) Where switches operated by foot pressure are used with industrial X-ray equipment, the contact button shall be provided with a shield to avoid accidental closing unless the equipment is of the fully enclosed shockproof type.

(7) Where switches operated by foot pressure are used with equipment for radiographic work, the foot switch shall return automatically to the X-ray off position when foot pressure is removed.

(8) Where more than one piece of equipment is operated from the same high-voltage circuit, each piece or each group of equipment as a unit, shall be provided with a high-voltage switch or equivalent disconnecting means.

52-014 Grounding. Non-current-carrying parts of tube stands, fluoroscopes and other apparatus shall be grounded in conformity with the requirements of Section 10.

SECTION 54—RADIO INSTALLATIONS

54-000 Scope

(1) This Section is supplementary to or amendatory of the general requirements of this Code and applies to:

- (a) Equipment for the reception of radio and television broadcast transmission;
- (b) Equipment employed in the normal operation of a radio station licensed by the Government of Canada as an experimental amateur radio station; and
- (c) Wire television distribution systems.

(2) This Section does not apply to equipment and antennas used for broadcast transmission and for coupling carrier current to power line conductors.

(3) In Subrule (2) "broadcast" means one-way communication in other than wire television distribution systems.

54-002 Receiving Equipment and Amateur Transmitting Equipment Rules. Rules 54-004 to 54-034 apply to:

- (a) Radio and television receiving equipment; and
- (b) Amateur radio transmitting equipment.

Protectors

54-004 Lightning Arresters, Receiving Stations

(1) Lightning arresters shall be provided for each lead-in conductor to receiving stations from an outdoor antenna, except where the lead-in conductors are protected from the antenna to the point of entrance to the building by a continuous metal shield that is:

- (a) Grounded; or
- (b) Provided with a lightning arrester.

(2) Lightning arresters for receiving stations shall be located outside the building, or inside the building between the point of entrance of the lead-in and the radio set or transformer, and as near as practicable to the entrance of the conductors to the building.

(3) Lightning arresters for receiving stations shall not be located near combustible material nor in a hazardous location.

54-006 Lightning Arresters, Transmitting Stations. Each conductor of a lead-in to a transmitting station from an outdoor antenna shall be provided with a lightning arrester or other suitable means which will drain static charges from the antenna system except:

- (a) Where protected by a continuous metallic shield which is grounded; or
- (b) Where the antenna is grounded.

Grounding Conductors

54-008 Material for Grounding Conductor. The grounding conductor shall be of copper, aluminum alloy, copper-clad steel, bronze or other corrosion-resistant material unless otherwise specified.

54-010 Insulation of Grounding Conductor. The grounding conductors may be uninsulated.

54-012 Support for Grounding Conductor. The grounding conductors shall be securely fastened in place and may be directly attached to the surface wired over without the use of insulating supports.

54-014 Mechanical Protection of Grounding Conductor. The grounding conductor shall be protected where exposed to mechanical injury.

54-016 Grounding Conductor to be Run in a Straight Line. The grounding conductor shall be run in as straight a line as is practicable from the lightning arresters or antenna mast, or both, to the grounding electrode.

54-018 Ground Electrode. The grounding conductor shall be connected to a grounding electrode as specified in Section 10.

54-020 Grounding Conductors, Inside or Outside Building. The grounding conductors may be run either inside or outside the building.

54-022 Size of Protective Ground. The size of the protective grounding conductor for receiving and transmitting stations providing ground connection for mast and lightning arrester shall be in accordance with Section 10.

54-024 Common Ground. A single grounding conductor may be used for both protective and operating purposes, but must be installed so that disconnection of the operating ground will not affect the protective ground circuit.

54-026 Radio Noise Suppressors. Radio interference eliminators, interference capacitors or radio noise suppressors connected to power supply leads shall be of a type approved for the purpose and shall not be exposed to mechanical injury.

Transmitting Stations

54-028 Enclosure of Transmitters. Transmitters shall be enclosed in a metal frame or grille, or thoroughly shielded or separated from the operating space by a barrier or other equivalent means.

54-030 Grounding of Transmitters. All exposed metallic parts of transmitters including external metallic handles and controls accessible to the operating personnel and accessories such as microphone stands, shall be grounded.

54-032 Interlocks on Doors of Transmitters. All access doors of transmitters shall be provided with interlocks which will disconnect all voltages in excess of 250 volts when any access door is opened.

54-034 Amplifiers. Audio-amplifiers which are located outside the transmitter housing shall be suitably housed and shall be located so as to be readily accessible and adequately ventilated.

Wire Television Distribution Systems

54-036 Wire Television Distribution System Rules. Rules 54-038 to 54-086 apply to wire television distribution systems.

54-038 Material. The coaxial cable or other types of cable or wire used in wire television distribution systems shall be acceptable for the purpose.

54-040 Supports. Where coaxial cable or other types of cable or wire are attached to, or supported on, buildings, the attachment or supporting fixtures shall be acceptable for the purpose.

54-042 Hazardous Locations. Where the circuits or apparatus within the scope of this Section are installed in hazardous locations, they shall also comply with the applicable rules of Section 18.

54-044 Provision of Protectors

(1) A protector acceptable for the purpose shall be provided on each wire television distribution circuit unless:

- (a) The television distribution cable has an effectively grounded metallic sheath or effectively grounded outer conductor of a coaxial cable; and

- (b) The metallic sheath of the television distribution cable or outer conductor of a coaxial cable is connected to ground at entrances to buildings in accordance with Rules 54-076, 54-078, 54-080 and 54-082.

(2) The protector shall be located in, or on, the building served, as near as practicable to the point at which the cable or wire enters, but, in the case of an underground entrance fed from aerial cable or wires, the protector may be placed at the junction of the underground and the aerial conductors.

(3) The protector shall not be located in any hazardous location as defined in Section 18, nor in the immediate vicinity of flammable or explosive materials.

(4) If the entire street circuit is run underground, no protector need be provided unless that portion of the circuit between the street and the building is liable to accidental contact with electric lighting or power conductors operating at a voltage exceeding 300 volts between conductors.

54-046 Protection Requirements

(1) The protector shall be mounted on an incombustible, absorption-resistant, insulating base except that, where a number of conductors are grouped to serve a building, the protectors may be mounted on a grounded metallic frame.

(2) The protector shall consist of an arrester between each line conductor and the ground, and a fuse connected in each line conductor so as to protect the arrester, except that the fuses may be omitted under the conditions outlined in Subrule (4).

(3) The protector terminals shall be plainly marked to indicate "line", "equipment" and "ground".

(4) Fuses protecting the arrester may be omitted:

- (a) On circuits entering a building through metal-sheathed cable, provided the metal sheath of the cable is grounded and the conductors in the cable are No. 24 AWG or smaller; or

- (b) On circuits served directly by cables with grounded metal sheath or by insulated conductors, in accordance with Rules 54-062 and 54-064, extending from such cable to the building served, provided that the protector is acceptable for this purpose.

54-048 Arrangement of Inside Cables or Conductors

(1) Cables or conductors inside buildings shall be neatly arranged and secured in place in a convenient and workmanlike manner.

(2) The installation of such cables or conductors shall be in conformity with the provisions of Rules 54-050 to 54-052.

54-050 Insulation of Inside Cables or Conductors.

The kind of insulation for the cables or conductors of the wire television distribution system, located as in Rule 54-048, shall be acceptable for the particular application, but is not specified in further detail as reliance is placed upon the grounding arrangements or protectors to prevent dangerous voltages and currents where the conductors are liable to contact with power conductors.

54-052 Separation of Inside Cables or Conductors from Other Conductors

(1) The cables or conductors of a wire television distribution system in a building shall be separated at least 2 inches from any conductor of an electric light or power system unless:

- (a) One system is in grounded metallic raceways or metal-sheathed cable; or
- (b) Both systems are permanently separated by a continuous, firmly fixed non-conductor, other than the insulation on the conductors, such as porcelain tubes or flexible tubing.

(2) The cables or conductors of a wire television distribution system shall not be placed in any outlet box, junction box, raceway or similar fitting or compartment which contains conductors of electric light or power systems or of Class 1 circuits (as defined in Rule 16-004) unless:

- (a) The wire television cables or conductors are separated from the other conductors by an acceptable partition; or
- (b) The power or Class 1 conductors are placed solely for the purpose of supplying power to the wire television distribution system or for connection to remote-control equipment.

(3) The cables or conductors of a wire television distribution system in a building shall not be placed in a shaft with the conductors of an electric light or power system unless:

- (a) The conductors of the two systems are separated by at least 2 inches; or
- (b) The conductors of either system are encased in non-combustible tubing.

(4) Clearances satisfactory to an inspector shall be maintained between wire television distribution cables or conductors and communication cables or conductors other than the clearance necessary to prevent conflict or abrasion, provided the wire television distribution

cables or conductors and the communication cables or conductors adhere to standard clearances from power circuits as defined in this section and to the satisfaction of an inspector.

54-054 Inside Cables or Conductors in a Vertical Run. Where cables or conductors of a wire television distribution system in a building are in a vertical run in a shaft or partition, they shall:

- (a) Have a flame-retarding covering capable of preventing the carrying of fire from floor to floor;
- (b) Be encased in tubing or other outer covering of non-combustible material; or
- (c) Be located in a fireproof shaft having fire stops at each floor.

54-056 Outside Overhead Cables or Conductors on Poles. Clearances acceptable to an inspector shall be maintained between overhead wire distribution cables or conductors mounted on the same poles as power or communication cables.

54-058 Outside Overhead Cables or Conductors on Roofs

(1) Wire television cables or conductors passing over buildings shall be kept at least 8 feet above any roof which may be readily walked upon, except that such clearance may be reduced or eliminated by special permission.

(2) Such special permission shall not be necessary where the building is a garage, or other auxiliary building of one storey.

54-060 Outside Cables or Conductors Requiring Protectors. Wire television distribution circuits which require protectors in accordance with Rule 54-044 of this Code, shall comply with Rules 54-062 to 54-068.

54-062 Insulation on Outside Single or Paired Conductors

(1) In a wire television distribution circuit requiring a protector, each conductor from the last outside support to the protector shall be covered, either individually or over the pair, with a substantial fibrous covering or equivalent protection and shall:

- (a) Have 1/32-inch rubber insulation;
- (b) Have rubber insulation which need not exceed 1/40 inch in thickness when such conductors are entirely within a block; or
- (c) Be acceptable for the purpose, having rubber insulation of a thickness less than specified above, or having other kinds of insulation.

(2) The word "block" as used in this Section of the Code shall be construed to mean a square or portion of a city, town or village, enclosed by streets and including the alleys so enclosed, but not any street.

54-064 Insulation of Outside Cables

(1) Conductors of wire television distribution circuits requiring protectors may have paper or other suitable insulation within a cable having:

- (a) A metal sheath; or
- (b) A rubber sheath of at least 1/32-inch thickness and covered with a substantial fibrous covering.

(2) Conductors of wire television distribution circuits requiring protectors, within a cable having a sheath other than specified in Subrule (1), shall be insulated as required by Rule 54-062, and the bunched conductors shall be covered with a substantial fibrous covering or equivalent covering.

54-066 Outside Cables or Conductors on Buildings

(1) Wire television distribution cables or conductors on buildings shall be separated from light or power conductors not in cable or conduit by at least 4 inches, unless permanently separated by a continuous and firmly fixed non-conductor in addition to the insulation on the conductors, such as porcelain tubes or flexible conduit.

(2) Wire television distribution cables or conductors exposed to accidental contact with light or power conductors operating at voltages exceeding 300 volts, and attached to buildings, shall be separated from woodwork by being supported on glass, porcelain, or other insulating material acceptable for the purpose, except that such separation is not required where cables or conductors acceptable for the purpose are used to extend circuits to a building from a cable having a grounded metal sheath or grounded outer coaxial cable conductor.

(3) Wire television distribution cables or conductors attached to buildings shall not conflict with the circuits of other communication systems attached to the same building, and sufficient clearances shall be provided that there will be no unnecessary interference to maintenance operations, and in no case should the conductors, cables, strand or equipment of one system cause abrasion to the conductors, cables, strand or equipment of the other system.

(4) Lead-in cables or conductors of a wire television distribution system, attached to buildings, shall be installed so that they cannot swing closer than:

- (a) 24 inches to the conductors of circuits of 300 volts or less;
- (b) 40 inches to the conductors of circuits of more than 300 volts.

54-068 Outside Cables or Conductors Entering Buildings. Where a protector is installed inside the building, the wire television distribution cables or conductors shall enter the building either through a non-combustible, non-absorptive insulating bushing, or through a metal raceway, except that the insulating bushing or metal raceway may be omitted where the entering conductors:

- (a) Are in metal-sheathed cable;
- (b) Pass through masonry; or
- (c) Are acceptable for the purpose and are used to extend circuits to a building from a cable having a grounded metal sheath.

54-070 Lightning Conductors. A separation of at least 6 feet shall, where practicable, be maintained between cables or conductors of wire television distribution systems on buildings and lightning conductors.

54-072 Underground Ducts

(1) Underground wire television distribution cables or conductors shall not be placed in any duct which contains electric lighting or power conductors.

(2) Duct systems, including laterals, to be occupied by wire television distribution cables or conductors for public use should be separated, where practicable, from duct systems, including laterals, for supply conductors by not less than 3 inches of concrete, 4 inches of brick masonry, or 12 inches of well-tamped earth.

(3) Where wire television distribution conductors or cables occupy ducts terminating in the same manhole or handhole, the two classes of ducts should be separated as widely as practicable and, where practicable, shall enter the manhole from opposite sides.

(4) Wire television distribution cables and supply cables for public use occupying the same manhole should, where practicable, be maintained at opposite sides of the manhole.

54-074 Underground Block Distribution. Where the entire street circuit is run underground and the part of the circuit within the block is placed so that it is not liable to contact with electric lighting or power circuits of more than 300 volts:

- (a) No protector as specified in Rule 54-044 is required, and Rule 54-064 shall not apply;
- (b) The insulation requirements of Rules 54-062 and 54-064 shall not apply;
- (c) Conductors or cables need not be placed on insulating supports as specified in Rule 54-066 (2); and
- (d) Where the conductors or cables enter the building, no bushings as specified in Rule 54-084 are required.

54-076 Ground of Cable Sheath or Outer Conductor of a Coaxial Cable. Where cables, either aerial or underground, enter buildings, the metal sheath of the cable or outer conductor of a coaxial cable shall be grounded on the building premises as close to the point of entrance as practicable.

54-078 Grounding Conductor

(1) The grounding conductor for a cable sheath, outer conductor of a coaxial cable or protector, shall have rubber insulation not less than 1/32-inch in thickness, and shall be covered by a substantial fibrous covering except that conductors acceptable for the purpose, having less than 1/32-inch rubber insulation, or having other kinds of insulation, may be used.

(2) The grounding conductor shall be of copper.

(3) Protector grounding conductors shall be not smaller than No. 18 AWG.

(4) Sheath or outer conductor of coaxial cable grounding conductors shall have a conductivity at least equal to that of the metallic sheath, or the outer conductor of the coaxial cable, and shall be connected to the metallic sheath, or outer conductor of the coaxial cable, by means of pressure connectors or other acceptable means.

(5) The grounding conductor shall be run from the cable sheath, outer conductor of a coaxial cable, or protector to the grounding electrode in as straight a line as possible.

(6) Where necessary, the grounding conductor shall be guarded from mechanical injury.

54-080 Grounding Electrode

(1) The grounding conductor shall be connected to a metallic water pipe electrode, as close to the point of entrance as possible.

(2) Where a metallic water pipe is not available and the grounded conductor of the power service is connected to the water pipe at the building, the cable sheath, outer conductor of a coaxial cable or protector, grounding conductors may be connected to the power service conduit, service equipment enclosures, or to the grounding conductor of the power service.

(3) In the absence of a metallic water pipe, the wire television distribution cable sheath, the outer conductor of a coaxial cable, or the protector may be connected to an effectively grounded metallic structure, or to a ground rod or pipe driven into permanently damp earth, but steam or hot-water pipes, gas pipes or lightning rod conductors shall not be used as grounding electrodes.

(4) In areas where there is no underground metallic water systems, wire television distribution, telephone, and power ground rods shall be interconnected:

- (a) With a bond wire or wires having greater conductivity than that of the power grounding conductor;
- (b) To the power service equipment enclosure, if this conduit or equipment enclosure is connected to the power service multi-grounded neutral conductor; and
- (c) To the grounding conductor of the power service, if the power service is of the multi-grounded neutral type.

54-082 Grounding Electrode Connection

(1) The grounding conductor shall be attached to a grounding electrode by means of an approved bolt clamp, except, in the case of a ground rod, a wire lead may be permanently connected to the rod in an approved manner and this wire lead shall be connected to the grounding conductor by means of pressure connectors or other acceptable means.

(2) Where a bolt clamp is used, the grounding conductor shall be acceptably connected to the clamp in an effective manner.

54-084 Cables or Conductors Extending from Building to Building

(1) This type of construction should only be used within the confines of private property.

(2) Cables or conductors extending between buildings shall always be run below any power conductors which may exist in this space.

(3) Cables or conductors extending between buildings shall be installed so they cannot swing closer than:

- (a) 24 inches to the conductors of power or lighting circuits of 300 volts or less;
- (b) 40 inches to the conductors of power or lighting circuits of more than 300 volts;
- (c) 24 inches to the conductors of any other communication circuits.

(4) Cables or conductors extending between buildings shall have acceptable clearance above ground.

(5) Cables or conductors extending between buildings, and their supports or attachment fixtures, shall be acceptable for the purpose and shall have sufficient strength to withstand the loads to which they may be subjected, except that, when conductors or cables do not have sufficient strength to be self-supporting, they shall be lashed to a supporting strand which, together with its attachment fixtures or supports, shall be acceptable for the purpose, and shall have sufficient strength to withstand the loads to which it may be subjected.

(6) Part III of the Canadian Electrical Code shall serve as a standard from which the adequacy of the strength of construction may be determined.

54-086 Wire Television Distribution Amplifiers

(1) Wire television distribution amplifier cabinets and chassis, cable sheath or outer conductor of coaxial cable and the metallic conduit or metallic cable sheath enclosing the power service wire connection to the amplifier, must all be connected to the supply multi-grounded neutral conductor using No. 6 AWG copper wire.

(2) The conduit or metallic cable sheath, enclosing the power service wire connection to the amplifier, may be used as part of this connection to the supply multi-grounded neutral conductor if it has an ampacity equivalent to No. 6 AWG copper wire.

(3) Wire television distribution amplifier cabinets shall be provided with locks if they are so mounted as to be accessible to the public.

SECTION 56—SMALL ISOLATED PLANTS

56-000 Scope. This Section applies to

(a) Electric power plants in which:

- (i) A prime mover is connected to an electric generator operating at a potential difference of less than 50 volts; or
- (ii) A storage battery is the source of supply; and

(b) The control devices used in the plants;

and is supplementary to or amendatory of the general requirements of this Code.

56-002 Lampholders. Lampholders shall be rated 660 watt, 250 volt, and shall be considered to have a maximum rating of $3\frac{1}{2}$ amperes.

56-004 Conductors

(1) No conductors shall have a current-carrying capacity less than that of No. 12 AWG copper wire but a flexible cord which supplies a single lampholder may be of No. 14 AWG.

(2) The sizes of conductors used shall be those specified in Tables 1, 2, 3 or 4.

56-006 Number of Outlets on Branch Circuits. There shall be not more than 8 outlets on a branch circuit.

56-008 Branch Circuit Capacity. In determining the size of conductors required, each lampholder shall be considered as loaded to not less than 2 amperes.

56-010 Branch Circuit Overcurrent Protection. The overcurrent devices which protect branch circuits shall be rated or set at not more than 20 amperes.

56-012 Devices over 5 Amperes

(1) No device rated at more than 5 amperes shall be connected to a branch circuit which supplies incandescent lamps.

(2) A device rated at more than 5 amperes shall be supplied from a branch circuit used for no other purpose and equipped with receptacles rated at not less than 20 amperes.

56-014 Batteries. Batteries shall be kept in rooms or spaces having natural means of ventilation.

SECTION 58—FUR STORAGE VAULTS

58-000 Scope. This Section applies to electrical equipment and installations in fur storage vaults and is supplementary to or amendatory of the general requirements of this Code.

58-002 Electrical Equipment in Storage Vaults. Electrical equipment in storage vaults shall be limited to:

- (a) Supply conduits or cable;
- (b) Lighting fixtures;
- (c) Burglary, fire-detection and fire-extinguishing systems;
- (d) Ventilation motors, refrigeration and air conditioning and air circulating or blower motors, all of which shall comply with Rule 58-012; and
- (e) Such other equipment as may be necessary to the proper utilization of the storage vault.

58-004 Wiring Method

(1) The wiring method in storage vaults shall be rigid conduit, mineral-insulated cable or aluminum-sheathed cable except that, where a flexible connection is required, a short length of flexible conduit may be used.

(2) Conduits shall be joined with threaded fittings.

(3) Outlet or junction boxes or other wiring enclosures shall have threaded hubs which provide at least three full threads for the attachment of conduit or cable fittings.

58-006 Portable Lamps. Portable lamps, portable heaters, extension cords, or pendent cords shall not be used in storage vaults.

58-008 Lighting Fixtures

(1) Where incandescent lighting fixtures are installed in a storage vault they shall be of the totally-enclosed gasketed type to safeguard against possible discharge of sparks or hot particles.

(2) Lighting fixtures shall be located so that their lamps shall be at least 12 inches from the stored garments and fumigant evaporating trays and shall not be located directly above such trays.

(3) Where fluorescent fixtures are installed, each ballast including its power factor correcting capacitor, shall be inherently protected by suitable temperature limiting devices.

58-010 Lighting Branch Circuits

(1) Lighting branch circuits in a storage vault shall be controlled by a switch located outside the vault, but near the entrance thereto.

(2) A switch controlling a lighting circuit in a storage vault shall be provided with a red-coloured pilot light located outside the vault so as to be visible to an attendant.

(3) Where a master switch is arranged to control all lighting circuits in one or more storage vaults, then only one pilot light shall be required for the master switch.

(4) Where a lighting circuit is protected by a fuse, a Type S tamper-resistant fuse shall be used.

58-012 Motors

(1) Only motors essential to operation shall be located in a storage vault and such motors shall be of the totally-enclosed type, protected integrally against overheating by a manual re-set device approved for use with the particular motor involved.

(2) Refrigeration and air-conditioning units, including compressors, and motors shall not be located in a storage vault unless the refrigerant is non-flammable and the unit is approved as a self-contained assembly designed for permanent installation.

(3) Where a motor is used to exhaust fumes or smoke from a vault its controller shall be located outside the vault and its function shall be conspicuously identified for the benefit of the Fire Department.

(4) All refrigeration systems, air conditioning systems, blowers and fans serving a storage vault shall be cut off automatically on actuation of an automatic fire detection or protection system installed within the vault.

SECTION 60—ELECTRICAL COMMUNICATION SYSTEMS**60-000 Scope**

(1) This Section applies to electrical communication systems, that is to telephone, telegraph, district messenger, fire and burglar alarm, watchman or sprinkler supervisory systems, and other central station systems of a similar nature, which commonly receive the power supply necessary for their operation from central office or local power sources; and to telephone systems not connected to a central station system but using similar types of equipment, methods of installation and maintenance, and is supplementary to or amendatory of the general requirements of the Code.

(2) This Section outlines those protective measures which are essential to safeguard electrical communications systems under the various conditions to which they are subjected.

(3) This Section does not apply to radio communication equipment.

60-002 Circuits in Communication Cables. Remote-control circuits and signal circuits which use conductors in a cable assembly with other conductors forming parts of communication circuits are, for the purposes of this Code, deemed to be communication circuits.

60-004 Hazardous Locations. Where the circuits or apparatus within the scope of this Section are installed in hazardous locations, they shall also comply with the applicable rules of Section 18.

60-006 Approval of Inspector

(1) Communication circuits employed by an electrical or communication utility in the exercise of its function as a utility shall not be subject to the approval of an inspector.

(2) Where the communication circuit derives power for operation from a supply circuit, the transformer or other current-limiting device used at the junction of the communication and the supply circuit shall be subject to the approval of an inspector.

60-008 Approved Transformers. Where transformers or other devices supply current to a communication circuit from an electric supply circuit, the transformers or other devices shall be of a type approved for the service.

Protection

60-010 Provision of Protectors

(1) A protector, acceptable for the purpose, shall be provided on each communication circuit, except as provided in Subrule (4).

(2) The protector shall be located in or on the building served as near as practicable to the point at which the conductors enter.

(3) The protector shall not be located in any hazardous location as defined in Section 18, nor in the immediate vicinity of flammable or explosive materials.

(4) If the entire street circuit is run underground, no protector need be provided unless that portion of the circuit between the street and the building is liable to accidental contact with electric lighting or power conductors operating at a potential exceeding 300 volts between conductors.

60-012 Protector Requirements

(1) The protector shall be mounted on an incombustible, absorption-resisting, insulating base except that, where a number of conductors are grouped to serve a building, the protectors may be mounted on a grounded metallic frame.

(2) The protector shall consist of an arrester between each line conductor and the ground, and a fuse connected in each line conductor so as to protect the arrester, except that the fuses may be omitted under the conditions outlined in Subrule (4).

(3) The protector terminals shall be plainly marked to indicate "line", "instrument" and "ground".

(4) Protectors without fuses may be used:

- (a) On circuits which enter a building through metal-sheathed cable, or through a non-metallic sheathed cable having a metal grounding shield between the sheath and the conductor assembly, provided the metal sheath or shield of the cable is grounded and the conductors in the cable shall safely fuse at currents less than the ampacity of the protector and the protector grounding conductor;

(b) On circuits served by insulated conductors, in accordance with Rules 60-028 and 60-030, extending to a building from a metal-sheathed cable or from a non-metallic sheathed cable having a metal grounding shield between the sheath and the conductor assembly, provided the metal sheath or shield is grounded and the conductors in the cable shall safely fuse at currents less than the ampacity of the protector, the associated insulated conductors, and the protector grounding conductor;

(c) On circuits served by insulated conductors, in accordance with Rules 60-028 and 60-030, extending to a building from other than grounded metal-sheathed cable, or non-metallic sheathed cable having a grounded metal grounding shield between the sheath and the conductor assembly provided:

- (i) The protector is acceptable for this purpose;
- (ii) The protector grounding conductor is grounded to a water pipe electrode or to the grounding conductor or grounding electrode of a multi-grounded neutral power system; and
- (iii) The connections of the insulated conductors extending from the building to the exposed plant, or the conductors of the exposed plant, shall safely fuse at currents less than the ampacity of the protector, the associated insulated conductors and the protector grounding conductor.

Inside Conductors

60-014 Arrangements of Conductors

(1) Conductors on the consumer's or subscriber's side of the protector and conductors inside buildings in which no protector is provided shall be neatly arranged and secured in place in a convenient and workmanlike manner.

(2) The installation of such conductors shall be in conformity with the provisions of Rules 60-016 to 60-020.

(3) In all buildings where the number of communication conductors warrants such a procedure or where raceways are required for lighting and power, consideration shall be given to the provision of suitable raceways or conduit for the service to and distribution of communication circuits for the building.

60-016 Insulation. The kind of insulation for the conductors of communication systems, located as in Rule 60-014, shall be acceptable for the particular application, but is not specified in further detail as reliance is placed upon the protectors to prevent dangerous voltages and currents where the conductors are liable to contact with power conductors.

60-018 Separation from Other Conductors

(1) The conductors of an electrical communication system in a building shall be separated at least 2 inches from any insulated conductor of an electric light or power system operating at 300 volts or less, and shall be separated at least 2 feet from any insulated conductor of an electric light or power system operating at more than 300 volts unless:

- (a) One system is in grounded metallic raceways or metal-sheathed cable; or

- (b) Both systems are permanently separated by a continuous, firmly fixed non-conductor, other than the insulation on the conductors, such as porcelain tubes or flexible tubing.

(2) The clearances given in Subrule (1) shall, for any voltage, be increased to provide adequate working space if the power conductors are bare.

(3) The conductors of an electrical communication system shall not be placed in any outlet box, junction box, raceway, or similar fitting or compartment which contains conductors of electric light or power systems or of Class 1 circuits (as defined in Rule 16-004) unless:

- (a) The communication conductors are separated from the other conductors by an acceptable partition; or
- (b) The power or Class 1 conductors are placed solely for the purpose of supplying power to the communication system, or for connection to remote control equipment, except that no communication conductors installed in an outlet box, junction box, raceway, or similar fitting or compartment which contains such conductors of power or Class 1 circuits shall show a green-coloured insulation, unless such communication conductor is completely contained within a sheathed- or jacketed-cable assembly throughout the length that is present in such raceways or enclosures.

(4) The conductors of an electrical communication system in a building shall not be placed in a shaft with the conductors of an electric light or power system unless:

- (a) The conductors of the two systems are separated by at least 2 inches; or
- (b) The conductors of either system are encased in noncombustible tubing.

60-020 Conductors in a Vertical Run. Where conductors of communication circuits in a building are in a vertical run in a shaft or partition, they shall:

- (a) Have a flame-retarding covering capable of preventing the spreading of fire from floor to floor; or
- (b) Be encased in tubing or other outer covering of non-combustible material; or
- (c) Be located in a fireproof shaft having fire stops at each floor.

Outside Conductors

60-022 Overhead Conductors on Poles. The installation of overhead communication conductors on poles in proximity with power conductors shall be established to the satisfaction of an inspector.

60-024 Overhead Conductors on Roofs

(1) Communication conductors passing over buildings shall be kept at least 8 feet above any roof which may be readily walked upon.

(2) Communication conductors shall not be attached to the upper surfaces of roofs or be run within 6 feet, measured vertically, of a roof without special permission.

(3) Special permission shall not be necessary where the building is a garage or other auxiliary building of one storey.

60-026 Circuits Requiring Protectors. Communication circuits which require protectors in accordance with Rule 60-010 of this Code shall comply with Rules 60-028 to 60-034.

60-028 Insulation, Single or Paired Conductors

(1) In a communication circuit requiring a protector, each conductor from the last outdoor support to the protector shall be covered, either individually or over the pair, with a substantial fibrous covering or equivalent protection and shall:

- (a) Have 1/32-inch rubber insulation; or
- (b) Have rubber insulation which need not exceed 1/40-inch in thickness when such conductors are entirely within a block; or
- (c) Shall be conductors acceptable for the purpose, having rubber insulation of a thickness less than specified above, or having other kinds of insulation.

(2) The word "block" as used in this Section of the Code shall be construed to mean a square or portion of a city, town or village enclosed by streets and including the alleys so enclosed but not any street.

60-030 Cable Insulation

(1) Conductors of communication circuits requiring protectors may have paper or other suitable insulation within a cable having:

- (a) A metal sheath; or
- (b) A non-metallic sheath having a metal grounding shield between the sheath and the conductor assembly; or
- (c) A rubber sheath at least 1/32-inch thick and covered with a substantial fibrous covering.

(2) Conductors, of communication circuits requiring protectors, within a cable having a sheath other than specified in Subrule (1), shall be insulated as required by Rule 60-028, and the bunched conductors shall be covered with a substantial fibrous covering or equivalent covering.

60-032 On Buildings

(1) Communication conductors on buildings shall be separated from light or power conductors not in cable or conduit by at least 4 inches unless permanently separated by a continuous and firmly fixed non-conductor in addition to the insulation on the conductors, such as porcelain tubes or flexible tubing.

(2) The clearances given in Subrule (1) shall, for any voltage, be increased to provide adequate working clearance if the power conductors are bare.

(3) Communication conductors exposed to accidental contact with light or power conductors operating at voltages exceeding 300 volts, and attached to buildings, shall be separated from woodwork by being supported on glass, porcelain or other insulating material acceptable for the purpose, except that such separation is not required where fuses are omitted as provided for in Rule 60-012 (4), or where conductors acceptable for the purpose are used to extend circuits to a building from a cable having a grounded metal sheath.

60-034 Entering Buildings. Where a protector is installed inside the building, the communication conductors shall enter the building either through a non-combustible, non-absorptive insulating bushing or through a metal raceway, except that the insulating bushing may be omitted where the entering conductors:

- (a) Are in metal-sheathed cable;
- (b) Pass through masonry;
- (c) Are acceptable for the purpose and fuses are omitted as provided for in Rule 60-012 (4); or
- (d) Are acceptable for the purpose and are used to extend circuits to a building from a cable having a grounded metal sheath.

60-036 Lightning Conductors. A separation of at least 6 feet shall, where practicable, be maintained between conductors of communication circuits on buildings and lightning conductors.

Underground Circuits

60-038 Separate Ducts

(1) Underground communication conductors shall not be placed in any duct which contains electric lighting or power conductors.

(2) Duct systems, including laterals, to be occupied by communication conductors for public use should be separated, where practicable, from duct systems, including laterals, for supply conductors by not less than 3 inches of concrete, 4 inches of brick masonry or 12 inches of well-tamped earth.

(3) Where communication and supply conductors or cables occupy ducts terminating in the same manhole or handhole, the two classes of ducts should be separated as widely as practicable and where practicable shall enter the manhole from opposite sides.

(4) Communication cables and supply cables for public use occupying the same manhole should, where practicable, be maintained at opposite sides of the manhole.

60-040 Underground Block Distribution. Where the entire street circuit is run underground and the part of the circuit within the block is so placed that it is not liable to contact with electric lighting or power circuits of more than 300 volts:

- (a) No protector is required as specified in Rule 60-010;
- (b) The insulation requirements of Rule 60-028 and 60-030 shall not apply;
- (c) Conductors need not be placed on insulating supports as specified in Rule 60-032 (3); and
- (d) Where the conductors enter the building no bushings are required as specified in Rule 60-034.

Grounding

60-042 Grounding of Cable Sheath. Where cables, either aerial or underground, enter buildings, the metal sheath of the cable shall be grounded on the building premises as close to the point of entrance as practicable, or shall be interrupted close to the entrance to the building by an insulating joint or equivalent device.

60-044 Protector Grounding Conductor

(1) The protector grounding conductor shall have rubber insulation not less than 1/32-inch thick and shall be covered by a substantial fibrous covering, except that conductors acceptable for the purpose, having less than 1/32-inch rubber insulation, or having other kinds of insulation, may be used.

(2) The grounding conductor shall be of copper, not smaller than No. 18 AWG.

(3) The grounding conductor shall be run from the protector to the grounding electrode in as straight a line as possible.

(4) Where necessary, the grounding conductor shall be guarded from mechanical injury.

60-046 Grounding Electrode

(1) The grounding conductor shall preferably be connected to a water pipe electrode, as close to the point of entrance as possible.

(2) Where a water pipe is not readily available and the grounded conductor of the power service is connected to the water pipe at the building, the protector grounding conductor may be connected to the power service conduit, service equipment enclosures or to the grounding conductor of the power service.

(3) In the absence of a water pipe, the communication protector grounding conductor may be connected to an effectively grounded metallic structure, or to a ground rod or pipe driven into permanently damp earth, but:

- (a) Steam or hot water pipes, or lightning rod conductors shall not be used as grounding electrodes; and
- (b) A driven rod or pipe used for grounding power circuits shall not be used as a communication protector grounding electrode unless it is connected to the grounded conductor of a multi-grounded power neutral conductor.

(4) Where a driven ground rod or pipe is used as a grounding electrode for an electrical communication system, it shall be separated by at least 6 feet from any other electrode, including those used for power circuits, radio, lightning rods, or any other purpose, with the understanding, however, that nothing in this Rule shall be taken to forbid the bonding together, in accordance with the requirements of Rule 10-088, of the several grounding electrodes that are mentioned in this Subrule.

(5) The normal length of a driven ground rod used as the grounding electrode for a communication station protector is 5 feet, but, where the normal rod would not reach moist soil when installed, a rod of suitable additional length shall be used.

60-048 Grounding Electrode Connection

(1) The grounding conductor shall be attached to a grounding electrode by means of an approved bolt clamp except that, in the case of a ground rod, a wire lead may be permanently connected to the rod in an approved manner.

(2) Where a bolt clamp is used, the grounding conductor shall be soldered or otherwise acceptably connected to the clamp in an effective manner.

SECTION 62—FIXED ELECTRIC SPACE AND SURFACE HEATING SYSTEMS

62-000 Scope.—(1) This Section applies to:

- (a) Fixed electric space heating systems for heating rooms and similar areas; and
- (b) Fixed surface heating systems for pipe heating, melting of snow or ice on roofs or concrete or asphalt surfaces, soil heating and similar applications other than space heating.

(2) The requirements of this Section are additional to or amendatory of the general requirements of this Code.

62-002 General Rules. Rules 62-004 to 62-030 apply to both fixed space and surface heating installations.

62-004 Special Terminology. In this Section:

- (a) “**cable set**” means a heating conductor and includes the non-heating portion connected to the heating portion;
- (b) “**central unit**” means any heating unit (or group of units assembled so as to form a complete unit) permanently installed in such a way that it can convey heat to rooms or areas using air, liquid, or vapour flowing through pipes or ducts, and includes duct heaters;
- (c) “**fixture**” means any heating unit (or group of units assembled so as to form a complete unit) permanently installed in such a manner that it can be removed or replaced without removing or damaging any part of the building structure.

62-006 Special Locations. Heating equipment installed in hazardous locations or where subject to wet or corrosive conditions shall be of a type approved for the particular location.

62-008 Terminal Connections

(1) Connections to heating equipment shall be made in terminal fittings or boxes, and equipment shall be installed so that the connections between circuit conductors and equipment conductors are accessible without disturbing any part of the wiring.

(2) Where the temperature at the point of connection between branch circuit conductors and heating equipment exceeds 60° C. (140° F.), the branch circuit conductors shall be installed in accordance with Rule 30-054.

62-010 Branch Circuits

(1) Branch circuits used for the supply of energy to heating equipment shall be used solely for such equipment.

(2) For the purpose of this Rule, an approved unit which combines heating with ventilating or lighting equipment or both, shall be considered to be heating equipment.

62-012 Overcurrent Protection and Grouping

(1) Every fixture or cable set having an input of more than 30 amperes shall be supplied by a branch circuit which supplies no other equipment.

(2) Two or more fixtures or cable sets may be grouped on a branch circuit used for space heating in a residential occupancy provided that the branch circuit overcurrent devices are rated or set at not more than 30 amperes.

(3) In other than residential occupancies, two or more fixtures or cable sets may be grouped on a branch circuit used for space heating and, except by special permission, the branch circuit overcurrent devices shall not be rated or set in excess of 60 amperes.

(4) Where two or more fixtures or cable sets are grouped on a single branch circuit, the non-heating leads of cable sets and taps to cable sets and fixtures shall:

- (a) Have an ampacity not less than 1/3 the rating of the branch circuit overcurrent devices; and
- (b) Be not more than 25 feet in length.

(5) Where the heating portion of a cable set is not totally embedded in noncombustible material, the rating or setting of the branch circuit overcurrent devices shall not exceed 15 amperes.

(6) Where a service, feeder, or branch circuit is used solely for the supply of energy to heating equipment, the total connected load of heating equipment shall not exceed 80 per cent of the rating of the service, feeder or branch circuit overcurrent devices.

62-014 Circuit Voltage, Dwelling Occupancies. Branch circuits supplying energy to heating equipment in dwelling occupancies shall comply with the requirements of Rule 2-534.

62-016 Thermal Insulation. Where heating equipment is installed on or within any surface such as walls or ceilings, only thermal insulation of the non-corrosive, noncombustible type shall be used.

62-018 Installation of Fixtures

(1) Fixtures shall be installed so that:

- (a) The proper radiation of heat shall not be obstructed by any portion of the building structure;
- (b) Adjacent combustible material shall not be subjected to temperatures in excess of 90° C. (194° F.).

(2) Where a fixture is recessed in noncombustible material in a building of concrete, masonry or equal fire-resisting construction, the noncombustible material may be subjected to temperatures not exceeding 150° C. (302° F.), but the fixture shall be plainly marked as approved for the service.

(3) Fixtures weighing more than 10 pounds shall be installed so that the wiring connections in the outlet box or its equivalent will be accessible for inspection without removing the fixture supports.

(4) Fixtures weighing more than 25 pounds shall not be supported directly by an outlet box which is mounted on a bar hanger.

(5) Fixtures weighing more than 50 pounds shall be supported independently of the outlet box.

(6) Where fixtures are installed less than 18 feet above the floor in an arena, gymnasium, or similar location, where they may be exposed to damage from flying objects, the heating elements shall be of the metal-sheathed type or the fixtures shall be specifically approved for the application.

62-020 Fixtures as Raceways. No fixture shall be used as a raceway for circuit conductors unless the fixture meets the requirements of an approved raceway.

62-022 Construction of Cable Sets. Cable sets shall be complete approved assemblies including the non-heating end leads, and shall have permanent markings as required not more than 3 inches from the supply terminal end of a non-heating lead.

62-024 Installation of Cable Sets

(1) The heating portion of a cable set shall not be shortened and any cable set which does not bear its original markings shall be considered to have been shortened and will be rejected unless the installer can prove to the satisfaction of the inspection department, by instrument measurements, that the characteristics of the approved cable set have not been altered.

(2) The entire length of the heating portion, including connections to non-heating leads, shall be installed within the heating area.

(3) Cable sets shall be installed so that the temperature on any part will not exceed 90° C. (190° F.) except as permitted in Rule 62-052 (2).

(4) The heating portions of cable sets shall not be run closer than 8 inches to any outlet to which a lighting fixture or other heat-producing equipment is liable to be connected.

(5) Where cable sets without metallic shields or sheaths are installed, metallic structures or materials used for the support of such cable sets shall be grounded.

(6) Where a cable set is liable to accidental contact with conductive material which is not effectively grounded, the heating portion of the cable set shall have a metallic shield or sheath.

(7) Metallic shields and sheaths of cable sets shall be grounded.

62-026 Non-Heating End Leads of Cable Sets

(1) The non-heating end leads of cable sets shall be installed in accordance with the requirements of Section 12 for the type of conductors employed.

(2) Where the heating element of a cable set is embedded in a concrete or similar floor, the non-heating end leads, if not of the metal-sheathed type, shall be run from within the concrete to the junction box in rigid conduit, electrical metallic tubing or other approved raceway, which shall terminate in a horizontal run within the concrete and have a bushing or equivalent fitting to prevent abrasion of the conductors where they emerge.

62-028 Demand Factors for Service Conductors and Feeders

(1) Where service conductors or feeders are used solely for the supply of energy to heating equipment, they shall have an ampacity of not less than the sum of the current ratings of all the equipment they supply

(2) Notwithstanding Subrule (1), where a heating installation in a residential occupancy is provided with automatic thermostatic-control devices in each room or heated area the ampacity of service conductors or feeders supplying heating equipment only shall be based on the following:

(a) The first 10 kilowatts of connected heating load at 100 per cent demand factor; plus

(b) The balance of the connected heating load at 75 per cent demand factor.

(3) Where service conductors or feeders supply a combined load of heating and other equipment, they shall have an ampacity consisting of:

(a) In the case of residential dwelling units, the sum of the heating load as computed by Subrule (2) plus the combined loads of other equipment with demand factors as applicable in Section 8; or

(b) In the case of other occupancies, 75 per cent of the total connected heating load plus the combined loads of the other equipment with demand factors as applicable in Section 8 for the type of occupancy.

(4) Notwithstanding Subrule (3)(b), where the combined loads together with applicable demand factors of other than heating equipment is less than 25 per cent of the connected heating load on a service conductor or feeder, no demand factor shall be applicable to the heating portion of the load.

62-030 Temperature Control Devices

(1) Temperature control devices rated to operate at line voltage shall have a current rating at least equal to the sum of the current ratings of the equipment they control.

(2) Temperature control devices which can be turned automatically or manually to an indicated or otherwise marked "OFF" position and which either interrupt line current directly or control a contractor or similar device which interrupts line current shall open all ungrounded conductors of the controlled heating circuit when in the "OFF" position.

Electric Space Heating Systems

62-032 Electric Space Heating. Rules 62-034 to apply to fixed electric space heating systems for heating end leads for connection to circuit conductors.

62-034 Temperature Control. Each enclosed area within which a heater is located shall have a temperature control device.

62-036 Connections to Circuit Conductors. Cable sets used for interior space heating shall have non-heating end leads for connection to circuit conductors.

62-038 Location of Cable Sets. The heating portions of cable sets shall not be:

(a) Installed in or behind any wall surface, nor in any other location where they may be subject to mechanical injury either during or after construction;

(b) Installed in, nor concealed behind any surface having wood lath, wood panelling, or similar combustible material;

- (c) Run through walls, partitions, floors or similar structures; or
- (d) Run in or through any thermal insulation.

62-040 Proximity of Other Wiring. Wiring of other circuits located above heated ceilings shall be spaced not less than 2 inches above the ceiling and shall be considered as operating at an ambient temperature of 50° C. (112° F.) unless thermal insulation having a minimum thickness of 2 inches is interposed between the wiring and the ceiling.

62-042 Wattage Rating and Spacing of Cable Sets

(1) Cable sets having a rating in excess of 2.75 watts per foot of the heating portion shall not be used for space heating applications.

(2) Adjacent runs of the heating portions of cable sets shall be spaced:

- (a) Not less than 1½ inches on centres when in contact with gypsum board or plaster lath, or when embedded in plaster or sand which is in contact with gypsum board or plaster lath; or
- (b) Not less than 1 inch on centres when embedded in concrete.

62-044 Cable Sets in Cement or Plaster

(1) Cable sets installed in cement or plaster shall be secured in place on the undercoat, gypsum board or plaster lath at not over 2-foot intervals by acceptable fastening devices suitable for the temperature involved, and of such nature as not to damage the cable.

(2) The entire length of the heating portion including the connections to the non-heating leads, shall be completely embedded in noncombustible material.

(3) Where space heating cable sets are installed in plastered ceilings, the plaster shall be a thermally non-insulating sand plaster, or equivalent, having a nominal thickness of not less than ½ inch.

62-046 Cable Sets in "Dry-Board" Installations

(1) For "dry-board" installations the cable shall be installed parallel to the joists or nailing strips, leaving a clear space of not less than 1-inch wider than the width of the lower face of the joist, header or nailing strip, between centres of adjacent cable runs.

(2) Crossing of joists by cable shall be done only at the ends of the joists except by special permission.

(3) After the heating cable is installed:

- (a) The entire ceiling below the cable shall be covered with gypsum board not exceeding ½ inch in thickness;
- (b) The voids between the upper layer of gypsum board and the surface layer of gypsum board shall be filled with thermally conducting plaster or other suitable material; and
- (c) The surface layer of gypsum board shall be mounted so that the nails or other fastenings do not pierce the heating cable.

62-048 Installation of Central Units

(1) Central units shall be installed so that there is reasonable accessibility for repair and maintenance.

(2) Central units shall be installed:

- (a) In an area which is large compared with the physical size of the unit unless specifically approved for installation in an alcove or closet; and
- (b) So as to comply with the clearances from combustible materials as specified on the nameplate.

Electric Surface Heating Systems

62-050 Electric Surface Heating. Rule 62-052 to 62-060 apply to fixed surface heating systems for pipe heating, melting of snow or ice on roofs or concrete or asphalt surfaces, soil heating and similar applications other than space heating.

62-052 Installation of Fixtures

(1) If located so as to be exposed to rainfall, fixtures shall be provided with a weatherproof enclosure.

(2) All exposed metallic surfaces of fixtures shall be grounded.

62-054 Installation of Cable Sets, General

(1) Except by special permission, no cable set shall be connected to any circuit operating at a voltage in excess of 300 volts.

(2) Cable sets shall be installed so that adjacent materials will not be subjected to temperatures in excess of 90°C. (194° F.) unless special permission is obtained for the use of higher temperatures and the cable is approved for such higher temperature.

(3) No cable set shall be installed closer than ½ inch to any exposed combustible surface unless the cable has a metallic shield or sheath and is provided with a positive temperature control which will limit the surface temperature of the cable to a value not exceeding 72° C. (160° F.).

62-056 Cable Sets Installed Below the Heated Surface

(1) Cable sets installed outdoors under driveways, sidewalks, and similar locations shall:

- (a) Have a metallic shield or sheath over the heating portion;
- (b) Be embedded to a depth of at least 2 inches in concrete, reinforced except in sidewalks, having a minimum depth of 6 inches where subject to vehicular traffic or 4 inches where subject to pedestrian traffic;
- (c) Be surrounded by noncombustible material throughout their length including the point of connection to the non-heating leads.

(2) Non-metallic cable sets installed indoors shall be not less than 1 inch from any uninsulated metallic bodies located below the surface to be heated.

(3) All uninsulated metallic bodies located at or below the surface to be heated shall be grounded.

62-058 Cable Sets Installed On or Wrapped Around Surfaces

(1) Cable sets installed on or wrapped around surfaces shall be secured in place by suitable fastening devices which will not damage the cable.

(2) Cable sets wrapped over valves or expansion joints in pipes shall be installed in such a manner as to avoid damage when movement occurs at these areas.

62-060 Cable Sets Installed in Pipes, Tanks, etc.

(1) Cable sets installed in pipes, tanks, and similar locations shall be of a type suitable for immersion in the liquid to be heated.

(2) Where practicable, cable sets installed in pipes, tanks, and similar locations shall be secured in place by suitable fastening devices which will not damage the cable.

(3) Where the cable set passes through the pipe or tank wall, it shall pass through a suitable liquid-tight gland.

(4) Where a metal raceway is required for the non-heating leads of a cable set installed in a pipe, tank, or similar location, it shall be installed so that it will not become flooded in the event of failure of the liquid-tight gland required by Subrule (3).

SECTION 64—INDUCTION AND DIELECTRIC HEATING EQUIPMENT

General

64-000 Scope. This Section applies to the construction and installation of induction and dielectric heating equipment and accessories and is supplementary to or amendatory of the general requirements of this Code.

64-002 Special Terminology. In this Section:

- (a) "generating equipment" means any equipment used to change the voltage or frequency or both of the power supplied to equipment of the type covered by this Section; and
- (b) "therapeutic equipment" means equipment whose output frequency is not less than 2 megacycles per second.

Wiring

64-004 Wiring Method

(1) Wiring from the source of power to generating equipment shall comply with the requirements of Sections 2, 4, 12, 14 and 28.

(2) Circuits and equipment operating on a supply circuit of more than 750 volts shall comply with the requirements of Section 36.

64-006 Capacity of Supply Conductors for Motor-Generator Equipment. The size of supply conductors for motor-generator equipment shall conform with the requirements of Section 28.

64-008 Capacity of Supply Conductors for Other than Motor-Generator Equipment. The size of supply conductors for other than motor-generator equipment shall be determined as follows:

- (a) The ampacity of the circuit conductors shall be at least 100 per cent of the nameplate current rating of the equipment;
- (b) The ampacity of conductors supplying two or more equipments shall be equal to at least 100 per cent of the sum of the nameplate current ratings on all equipment involved except that when two

or more equipments are supplied from the same feeder and simultaneous operation of the equipments is not possible, the capacity of the feeder shall be at least 100 per cent of the sum of the nameplate currents for the largest group of machines capable of simultaneous operation, plus 100 per cent of the standby currents of the remaining machines supplied.

64-010 Overcurrent Protection for Motor-Generator Equipment. Overcurrent protection shall be provided for motor-generator equipment as specified in Section 14.

64-012 Overcurrent Protection for Other than Motor-Generator Equipment

(1) Overcurrent protection for other than motor-generator equipment shall be provided, if not supplied as part of the equipment, to protect the equipment as a whole.

(2) The overcurrent device shall have a rating or setting of not more than 200 per cent of the nameplate current rating.

64-014 Disconnecting Means

(1) A readily accessible disconnecting means shall be provided by which each piece of generating equipment can be isolated from the supply circuit.

(2) The ampacity of such disconnecting means shall be at least 100 per cent of the nameplate current rating of the equipment.

(3) The supply circuit switch may be used as the generating equipment disconnecting means if the circuit supplies only one piece of equipment.

64-016 Output Circuits

(1) Output circuits shall be considered to include all high frequency components external to the generators, including interconnecting radio frequency transmission lines, load tuning networks, and work applicators.

(2) With respect to guarding, all parts of the output circuit shall be considered with the generating equipment as a complete assembly.

(3) Output circuits shall conform to the following:

- (a) The work applicator shall be so guarded that safe operation of the equipment will be assured;
- (b) When the connections between the generator and work applicator exceed 2 feet in length, the connections shall be enclosed or guarded with noncombustible material;
- (c) The generator output shall be at direct-current ground potential (coupled outputs alone, without other precautions, will not suffice because of the danger existing during possible flashovers).

64-018 Protective Cages and Shielding. Protective cages, adequate shielding or the equivalent, shall be used to guard work applicators, where practicable.

64-020 Grounding and Bonding

(1) Grounds or inter-unit bonding shall be used wherever required for circuit operation and for limiting to a safe value radio frequency potentials between all exposed non-current-carrying parts of the equipment and earth ground, also between all equipment parts and surrounding objects and between such objects and earth ground.

(2) Such grounding and bonding shall be installed in accordance with Section 10.

64-022 Low Frequency AC in Generating Equipment Output. Commercial frequencies of 25 to 60 cycles per second output may be coupled for control purposes, but shall be limited to a value of 150 volts available only during periods of circuit operation.

64-024 Hazardous Locations. Induction and dielectric heat generating equipment shall not be installed in hazardous locations as defined in Section 18, unless the equipment is designed and approved for use in hazardous locations.

64-026 Enclosure of Generating Apparatus

(1) The generating apparatus including the dc, low- and high-frequency electrical circuits, but excluding the output circuits, shall be completely contained in an enclosure of noncombustible material.

(2) The metal housings of motors, generators and the like may serve as a part of this enclosure.

64-028 Transformers. Transformers which are part of high-frequency apparatus, even though they contain oil, shall be considered and treated as part of the device, and need not conform to the requirements of Rule 26-044.

64-030 Panel Controls. All panel controls shall be of "dead front" construction.

64-032 Access to Internal Equipment. Enclosures shall be constructed so that:

- (a) Parts operating at potentials above 30 volts shall not be accessible directly;
- (b) Parts operating at 31 to 750 volts shall not be accessible through doors, panels or covers unless:
 - (i) A key or tool is required to open such doors and a caution which reads "DISCONNECT SUPPLY CIRCUIT BEFORE OPENING" is attached to such doors; or
 - (ii) Shields or barriers are provided so that all operating adjustments and controls may be accomplished without access to live parts; and
- (c) Parts operating at potentials above 750 volts shall not be accessible through doors, panels or covers unless such doors are provided with interlocks which remove all potentials above 30 volts when the doors are open.

64-034 Warning Labels. Warning labels, definitely indicating danger, shall be attached to doors, access panels or at other vantage points on equipment, so that the labels will be plainly visible when doors are opened or panels are removed from compartments containing voltages above 250 volts ac or dc.

64-036 Foot Switches. Switches operated by foot pressure shall be provided with a shield over the contact button to avoid accidental closing.

64-038 Remote Control. When remote controls are used for applying power, a "Local-Remote" switch shall be provided and interlocked so as to prevent the possibility of applying power from other than one selected control point.

64-040 Capacitors

(1) When capacitors in excess of 0.1 microfarad are used as rectifier filter components, arc suppressors, etc., in dc circuits having circuit voltages exceeding 230 volts to ground, bleeder resistors or grounding switches shall be used as grounding devices.

(2) Where auxiliary rectifiers are used with filter capacitors in the output for bias supplies, tube keyers, etc., bleeder resistors shall be used even though the dc voltage may not exceed 230 volts.

64-042 Keying. Where high speed keying circuits dependent on the effect of "oscillator blocking" are employed, the peak radio frequency output voltage during the blocked portion of the cycle shall not exceed 100 volts.

64-044 Power Supply for Therapeutic Equipment

(1) Where portability is not essential, equipment shall be permanently installed.

(2) Where portability is essential, the power supply cord shall be 3-conductor at least Type SJ cord, having an ampacity not less than the marked rating of the equipment, and it shall be provided with an approved, 3-prong attachment plug cap, except that a 2-conductor cord and a 2-prong, parallel-blade cap may be used on a device rated at 115 volts, 15 amperes or less and intended for use in offices, homes, or similar locations.

64-046 Applicators for Therapeutic Equipment. Current-carrying parts of applicators shall be insulated or enclosed so that reliable isolation of the patient shall be assured.

SECTION 66—SOUND-RECORDING, REPRODUCTION AND SIMILAR EQUIPMENT

66-000 Scope. This Section applies to installations of equipment and wiring used for sound recording and reproduction, centralized distribution of sound, public address, speech-input systems and electronic organs, and is supplementary to or amendatory of the general requirements of this Code.

66-002 Wiring Methods

(1) Except as modified by this Section, wiring and equipment from the source of power to and between devices connected to an interior wiring system shall comply with the requirements of this Code covering the particular locations involved.

(2) Conductors of different systems grouped in the same conduit or other metallic enclosure, or in portable cords or cables, shall comply with the following requirements:

- (a) Power-supply conductors shall be properly identified and shall be used solely for supplying power to the equipment to which the other conductors are connected;
- (b) Input leads to a motor-generator or rotary-converter shall be run separately from the output leads;
- (c) The conductors shall be insulated either individually, or collectively in groups, by insulation at least equivalent to that on the power-supply and other conductors, except where the power-supply and other conductors are separated by a lead sheath or other continuous metallic covering;

- (d) Flexible cords and cables shall be Type S, SJ, K, P or other type specifically approved for the purpose for which they are to be used;
- (e) The conductors of flexible cords, other than power-supply conductors, may be of a size not smaller than No. 26 AWG provided that such conductors are not in direct electrical connection with the power-supply conductors and are equipped with current limiting means so that the maximum power under any conditions will not exceed 150 watts;
- (f) Terminals shall be marked to show their proper connections;
- (g) Terminals for conductors other than power-supply conductors shall be separated from the terminals of the power-supply conductors by a spacing at least as great as that between power-supply terminals of opposite polarity.

66-004 Storage Batteries. Storage batteries shall comply with the requirements of Rules 26-078 to 26-086.

SECTION 68—SWIMMING POOLS

68-000 Scope

(1) This Section applies to the construction of swimming pools and to the installation of electric wiring for equipment in or adjacent to swimming pools, to non-electric metallic accessories in the pool or within 5 feet of the inside walls of the pool, and to auxiliary equipment such as pumps, filters and similar equipment.

(2) Therapeutic pools, wading pools, and decorative pools capable of use as wading pools shall be deemed to be swimming pools.

(3) The electrical equipment or wiring shall not be installed in the water nor in the enclosing walls of a pool, except as provided for in this Section.

(4) The requirements of this Section are supplementary to or amendatory of the general requirements of this Code.

68-002 Lighting

(1) Wet-niche fixtures shall comply with the following:

- (a) The voltage of a fixture or of a transformer or ballast directly supplying a fixture shall not exceed 150 volts, during either starting or operating conditions;
- (b) A non-metallic fixture shall not be used with a grounded power supply;
- (c) Except for decorative pools, approved metal forming shells shall be installed for the mounting of all fixtures and shall be equipped with provision for a threaded connection to rigid metallic conduit.

(2) The voltage of a dry-niche fixture which is installed so as to be accessible from a walk-way or a service tunnel outside the walls of the pool, or of a transformer or ballast directly supplying such a fixture, shall not exceed 300 volts during either starting or operating conditions.

(3) Dry-niche fixtures may be installed in closed, drained recesses in the walls of the pool providing:

- (i) The installation complies with paragraphs (a) and (b) of Subrule (1);
- (ii) An approved metal forming shell or the equivalent is provided; and
- (iii) The fixtures are accessible for maintenance through a hand hole in the deck of the pool.

(4) Metal parts of fixtures or forming shells in contact with the pool water shall be of brass or other suitable corrosion-resistant metal.

(5) Unless specifically approved for installation at a greater depth, fixtures shall not be installed at a depth of more than 2 feet, such distance being measured from the centre of the face lens of the fixture to the normal water level.

(6) Lighting fixtures installed below, or within 10 feet of, the pool surface shall be electrically protected by a ground fault circuit interrupter.

(7) Except by special permission, standards or supports for lighting fixtures shall not be installed within 10 feet of the inside walls of a swimming pool unless the circuits supplying such fixtures are electrically protected by ground fault circuit interrupters.

68-004 Submerged Electrical Equipment. Circuits supplying electrical equipment that is placed in the pool water shall be electrically protected by ground fault circuit interrupters.

68-006 Junction Boxes

(1) Junction boxes installed on the supply side of conduits extending to forming shells shall be provided with threaded openings for conduit entrances and shall be constructed of brass or other suitable corrosion-resistant metal.

(2) Boxes shall be provided with means inside the box for independently terminating at least two grounding conductors.

(3) The boxes shall not contain the conductors of any circuits other than those used exclusively to supply the underwater lights.

(4) Junction boxes shall be installed so as to be above the maximum water level unless provided with suitable means such as a gland to seal the cord entry and prevent the entrance of water from the pool.

68-008 Transformers and Transformer Enclosures

(1) Transformers, if exposed to the weather, shall have weatherproof enclosures.

(2) Transformers, if located within 10 feet of the pool, so as to be exposed to splashing from the pool, shall have enclosures of splash-proof construction.

(3) Transformers directly supplying fixtures below the pool surface, together with the transformer enclosure, shall be approved for the purpose and the transformers shall be of the two-winding type having a grounded metal barrier between the primary and secondary windings.

68-010 Wiring Method

(1) The wiring method between a wet-niche fixture and a junction box referred to in Rule 68-004 shall be flexible cord suitable for use in wet locations supplied as part of the fixture.

(2) The flexible cord required by Subrule (1) shall be enclosed in rigid conduit of copper or other suitable corrosion-resistant metal.

(3) The wiring system shall be run in a metallically enclosed system.

(4) For lighting of the dry-niche type, the wiring system shall be exposed where practicable.

68-012 Receptacles

(1) Receptacles shall not be installed within 10 feet of the inside walls of a swimming pool except that specific-use receptacles may be provided by special permission within ten feet but not closer than five feet of the inside walls of the pool for the use of special equipment such as portable filter pumps and similar equipment.

(2) Where specific-use receptacles are provided within ten feet of the inside walls of the pool, as referred to in Subrule (1), they shall be of a type which will not accept a plug cap of the type normally used on cords for portable devices.

(3) In maintaining the 10-foot dimension referred to in Subrule (1) the distance to be measured is the shortest path which the supply cord of an appliance connected to the receptacle would follow without piercing a building floor, wall, or ceiling.

(4) The branch circuits supplying specific-use receptacles shall be protected in the same manner as the branch circuits supplying the lighting fixtures.

(5) The branch circuits supplying specific-use receptacles shall be protected either by the same ground current leakage detecting device used to protect the branch circuits supplying the lighting fixtures or by a separate ground current leakage detecting device.

68-014 Ground Fault Circuit Interrupters

(1) A ground fault circuit interrupter shall be applied to either the feeder circuit or the sub-feeder circuit.

(2) Each ground fault circuit interrupter shall be provided with a means of testing to ensure that the interrupter is in operating condition, and there shall be a marking on the device to outline the complete test procedure.

(3) A warning sign shall be conspicuously located beside the switches controlling circuits electrically protected by ground fault circuit interrupters advising that the circuits are so protected and that the equipment shall be tested regularly.

68-016 Grounding and Bonding

(1) Non-current-carrying metal parts of the electrical system including forming shells and forming ports, shall be bonded together and grounded by a continuous conductor which supplements the bonding and grounding inherent in the wiring system, and which is:

- (a) Not less than No. 8 AWG copper conductor where the conductor is installed otherwise than in a raceway;
- (b) Not less than No. 12 AWG copper conductor where the conductor is installed in a raceway; and
- (c) Finished to show a green colour if insulated.

(2) The conductor required by Subrule (1) for a wet-niche fixture shall be at least No. 14 AWG.

(3) Metallic sheaths and raceways shall not be relied upon as the grounding medium and a separate grounding conductor shall be used, except that a conduit between a forming shell and its associated junction box may be used as the grounding medium providing the forming shell and junction box are installed in the same structural section.

(4) The grounding conductor from the junction box referred to in Rule 68-006, shall be run to the main distribution panel board and if smaller than No. 6 AWG shall be installed and protected in the same manner as the circuit conductors.

(5) The size of the grounding conductor, if within the conduit or cable assembly, shall be in accordance with Rules 10-098 and 10-102, except that:

- (a) The grounding conductor in the flexible cord for wet-niche fixtures shall be not smaller than No. 14 AWG; and
- (b) The grounding conductor from the junction box referred to in Rule 68-006, to the main distribution panel board shall be not smaller than No. 12 AWG.

(6) Structural reinforcing steel shall be connected to a common ground with a minimum of four connections equally divided around the perimeter.

68-018 Overhead Wiring. Open overhead wiring shall not be installed above a swimming pool, diving structure, observation stands, towers or platforms, or above the area extending 10 feet horizontally from the pool edge.

SECTION 70—MOBILE HOME COURTS, MOBILE HOMES, AND SIMILAR MOBILE UNITS

70-000 Scope

(1) Rules 70-002 to 70-008 apply to services, service equipment, and metering equipment for installation in mobile home courts open to the public for rental purposes.

(2) Rules 70-010 to 70-030 apply to the electrical wiring and equipment used in mobile homes or similar mobile units which are intended to be connected to a source of electrical supply.

(3) This Section is supplementary to, or amendatory of, the general requirements of this Code.

Mobile Home Courts

70-002 Feeders. Feeders between the court service equipment and the court distribution centres shall be considered as sub-services and shall be installed in accordance with the applicable requirements of Section 6 of this Code.

70-004 Receptacles at Court Distribution Centres

(1) Each mobile home space shall be provided with a polarized grounding type receptacle which shall be:

- (a) Of weatherproof construction or suitably protected from the weather; and
- (b) Made of such material and constructed so that it will withstand the mechanical abuses to which it may be subjected.

(2) Strain relief shall be provided at each receptacle, to prevent strain on the mobile home supply cord from being transmitted to the connections between the plug of the supply cord and the receptacle.

70-006 Overcurrent Devices and Disconnecting Means

(1) Each receptacle shall be preceded by an individual overcurrent protective device not exceeding the rating of the receptacle and by a suitable disconnecting means.

(2) Overcurrent devices protecting receptacles shall be accessible only to the mobile home court operator.

(3) The disconnecting means shall be accessible.

70-008 Demand Factor for Service Conductors

(1) For the purpose of determining conductor sizes for services and for feeders to distribution centres, the nominal demand per unit shall equal the total capacity in volt-amperes of all receptacles installed in the circuit in the court divided by the number of units.

(2) The capacity of each receptacle shall be the ampere rating of the receptacle multiplied by the nominal supply voltage connected to it, which for purposes of computation shall be 115 or 230 volts, as applicable.

(3) The following demand factors shall be applied to the nominal demand:

- (a) 65 per cent of the nominal demand of the first two units;
- (b) 25 per cent of the nominal demand of the next 18 units; and
- (c) 10 per cent of the nominal demand of the remaining units.

Mobile Homes and Similar Mobile Units

70-010 General

(1) The applicable rules of other sections of this Code shall apply to equipment covered by Rules 70-012 to 70-030, except as may be otherwise noted.

(2) Electrical equipment shall be of types which will not be adversely affected by the vibration that is liable to be encountered in normal service.

(3) Electrical equipment shall be mounted and secured so that it is not liable to come loose or be displaced during normal operation.

(4) Material used to protect wiring or other electrical equipment shall be protected against rusting or other injurious effects caused by exposure to the weather.

70-012 Service Conductors

(1) Except where a type of service specified in Section 6 is provided, the service conductors from the point of attachment to the mobile unit, to the point of attachment to the power supply shall:

- (a) Consist of rubber-insulated flexible cord, power-supply cable, or the equivalent which is suitable for extra hard usage in outdoor locations;
- (b) Have an identified conductor;

(c) Have a bare or insulated grounding conductor; and

(d) Be not less than 25 feet long.

(2) The cord or cable shall either be permanently secured within the unit to a distribution panel or shall end at a receptacle attached to the unit.

(3) Where a receptacle is used, the wiring from the receptacle to the distribution panel may be cable as required by Subrule (1).

(4) The service conductor size for 115-volt mobile units shall be not less than the following for a given number of circuits:

- (a) 1 circuit — No. 14 AWG;
- (b) 2 circuits — No. 12 AWG;
- (c) 3 or 4 circuits — No. 10 AWG; or
- (d) 5 or more circuits — No. 8 AWG.

(5) The service conductor size for 230-volt mobile units shall be not less than:

- (a) No. 10 AWG if there are no fixed 230-volt loads in excess of 30 amperes; or
- (b) No. 8 AWG if there are fixed 230-volt loads in excess of 30 amperes.

70-014 Service Connectors

(1) At the point of connection to the power supply, the cord shall terminate in a male member of a weatherproof plug.

(2) Where the cord or cable is detachable from the trailer, it shall be provided with a weatherproof cord connector having a contact arrangement which will mate with the receptacle on the trailer.

(3) Where a receptacle is provided on the trailer, it shall be:

- (a) Of the polarized male type with grounding contact; and
- (b) Weatherproof or else adequately protected or enclosed.

(4) The rating of the plug, connector and receptacle shall be the same and shall be not less than the ampacity of the cord.

70-016 Service Conductor Storage. The unit shall have a suitable space wherein the service cord may be stored when not in use, which will protect the cord from mechanical injury.

70-018 Distribution Panel

(1) Each unit shall have a dead front distribution panel providing overcurrent protection for each branch circuit.

(2) The distribution panel shall be located in accordance with subparagraphs (a), (b) and (e) of Rule 6-028, but may be installed in a cupboard, provided there is ready access to the equipment and there are no obstructions in front of it.

70-020 Branch Circuits

(1) The total number of branch circuits provided shall be in accordance with the general requirements of this Code.

(2) Where a kitchen is provided as a part of the trailer, a separate branch circuit used for no other purpose shall be provided in the kitchen for the supply of receptacles constructed to accommodate parallel blade caps.

(3) Additional outlets provided on a circuit supplying a 115-volt permanently connected appliance shall be:

- (a) For stationary lighting fixtures only;
- (b) Considered to have a demand of 1 ampere each, except where the load is known to be greater; and
- (c) Such that the total load does not exceed that permitted by other Sections of this Code.

(4) Branch circuits supplying lighting or receptacles constructed to accommodate parallel blade caps shall be protected by overcurrent devices rated or set at not more than 15 amperes.

(5) Branch circuits protected by overcurrent devices rated or set at more than 15 amperes shall supply only one outlet for each branch circuit.

(6) Every appliance rated at more than 1,500 watts shall be supplied from a branch circuit used solely for one appliance except that more than one appliance may be connected to a single branch circuit, provided that the following is used:

- (a) A multiple-throw manually-operated device which will permit only one such appliance to be energized at one time; or
- (b) An automatic device which will limit the total load to a value which will not cause operation of the overcurrent devices protecting the branch circuit.

70-022 Receptacles. Receptacles of the grounding type only shall be used.

70-024 Wiring Methods

(1) The wiring method shall be:

- (a) Non-metallic sheathed cable;
- (b) Rigid or flexible conduit; or
- (c) Armoured cable.

(2) Where non-metallic sheathed cable is used, the cable shall be adequately protected from mechanical injury.

(3) Where rigid conduit, flexible conduit or armoured cable is used, all mechanical joints and connections in the conduit or cable shall be accessible for inspection to ensure that the grounding continuity is not interrupted.

70-026 Conductor Joints and Splices

(1) Soldered joints shall be made so that there will be no likelihood of sharp points or edges working through the insulation due to vibration or other causes.

(2) Where solderless connectors are used which may be adversely affected by vibration, additional means for securing the connector cap in place shall be provided.

70-028 Grounding

(1) All exposed metal parts, including the chassis, on the exterior of the unit shall be in good electrical contact with one another and with the termination of the service grounding conductor at the distribution panel for the purpose of grounding.

(2) Where bonding jumpers are used, they shall be made of extra-flexible copper cable having an ampacity not less than that of the service grounding conductor and shall be located or protected so that they will not be subject to mechanical injury.

70-030 Marking. The marking shall be in accordance with Rule 2-028.

SECTION 75—PRIMARY AND SECONDARY LINES ON PRIVATE PROPERTY AND WIRING OF NON-URBAN BUILDINGS

75-000 Scope

(1) This Section applies to installations of primary and secondary lines on private property and the wiring of farm buildings, and buildings in other than urban municipalities.

(2) This Section is supplementary to and not exclusive of the general requirements of this Code.

75-001 Definitions. In this Section:

- (a) "power conductor" means a conductor which conveys electrical power or energy and is not part of a communication circuit;
- (b) "primary line" means a set of conductors operating at a potential of more than 750 volts;
- (c) "secondary line" means a set of conductors operating at a potential of 750 volts or less.

75-002 General Requirements

(1) Every installation under this Section shall be submitted by the contractor for inspection in accordance with Section 2 of this Code.

(2) Where the work consists of the erection of a service line, the contractor shall consult with the local supply authority as to the layout of the service line and the location of the transformer and meter.

(3) Where the work consists of the erection of conductors over or across a railway, the contractor shall submit to the inspector a plan of the crossing endorsed by the railway Company with an approval of the work.

(4) Where power conductors are to be laid underground or under water, the contractor shall submit to an inspector and obtain his written approval of the plans of the circuits of which the power conductors form part and of the specifications for the material and equipment for the circuits.

75-004 Clearances between Power Conductors and Communication Circuits

(1) Electrical equipment, power conductors, communication circuits and equipment shall be so constructed and maintained as to create no undue hazard to previously installed power or communication facilities.

(2) Where power conductors and communication circuits are carried on separate parallel pole-lines, such lines shall:

- (a) Be spaced apart a distance of not less than 10 feet; and
- (b) Where practicable, be spaced apart a distance such that one line cannot fall upon the other line in the event of the breaking of a pole.

(3) Where pole lines are placed such that the conductors of one circuit may fall upon the conductors of another circuit, in the event of the breaking of a pole, the power conductors shall be erected at least:

- (a) 5 feet in vertical distance above the conductors of the communication circuit where the voltage does not exceed 5000 volts to ground; and
- (b) 7 feet above the conductors of the communication circuit where the voltage exceeds 5000 volts to ground.

(4) Paragraph (a) of Subrule (3) shall not apply to a service span from a pole to a building.

(5) Where power conductors and communication circuits are carried on the same poles, the power conductors shall be erected at least:

- (a) 4 feet in vertical distance above the conductors of the communication circuits both at the pole and in the span, where the voltage does not exceed 5000 volts to ground; and
- (b) 6 feet in vertical distance above the conductors of the communication circuits both at the pole and in the span, where the voltage exceeds 5000 volts to ground but does not exceed 8000 volts to ground.

(6) Paragraph (a) of Subrule (5) shall not apply to a service span from a pole to a building.

75-006 Joint Use of Poles for Communication Circuits and Power Conductors

(1) Power conductors and communication circuits shall not be carried on common poles unless the consent in writing is obtained from the supply authority and the operators of the communication circuits to the joint use of the poles.

(2) The conductors of a communication circuit shall not be carried on poles carrying power conductors having a voltage of more than 8000 volts to ground.

75-008 Location of Conductors Vertically. Where power conductors which operate at a potential of more than 750 volts cross communication wires or other wires of lesser voltage, the conductors of the circuit having the highest voltage shall be erected above such communication wires and other wires and the distances prescribed by Rule 75-004 shall apply.

75-010 Clearances in Service Span. Where the voltage of power conductors does not exceed 750 volts, the distance between the power conductors and a communication drop-wire in the service span from a pole to a building shall be not less than:

- (a) 1 foot where the conductors and the drop-wire are parallel; or
- (b) 2 feet where the conductors and the drop-wire cross.

Erection and Installation of Overhead Power Conductors

75-012 Overhead Power Conductors. The equipment and materials used for the erection or installation of overhead power conductors shall be in accordance with the requirements of Rules 75-014 to 75-104, both inclusive.

75-014 Poles

(1) Poles shall be constructed of:

- (a) Cedar;
- (b) Pressure-treated pine; or
- (c) Other approved material.

(2) Poles shall be of sound material and structure.

(3) Every pole of western cedar or pressure-treated pine having a length shown in column 1 of Table 43 shall have at least the circumference specified in column 2 of the table measured at a point distant 5 feet 6 inches from the butt end of the pole.

(4) Every pole of eastern cedar or wood other than western cedar or pressure-treated pine having a length shown in column 1 of Table 43 shall have at least the circumference specified in column 3 of the table measured at a point distant 5 feet 6 inches from the butt end of the pole.

(5) Every pole shall have at the top a minimum circumference of 15 inches for line poles, and 21 inches for transformer poles.

75-016 Length of Poles

(1) Every pole in a primary service line shall be at least 30 feet long.

(2) Every pole in a secondary service line shall be at least 25 feet long.

(3) Every pole on which a transformer is mounted shall be at least 35 feet long.

75-018 Framing of Poles. Every pole-top shall be framed in the manner shown in item 1, 2 or 3 of Specification 1.

75-020 Setting of Pole

(1) Where a pole having a length shown in column 1 of Table 44 is set in earth, the butt end of the pole shall be buried to a depth of at least that prescribed in column 2 of the table.

(2) Where a pole having a length shown in column 1 of Table 44 is set in solid rock, the butt end of the pole shall be buried to a depth of at least that shown in column 2 of the table less 1 foot.

(3) Where poles are erected on slopes or hillsides, the depth of the hole shall be measured from the lower side of the opening.

75-022 Pole Spans

(1) Poles used in secondary service lines shall be placed not more than:

- (a) 135 feet apart for No. 6 AWG Copper M.H.D. with weatherproof insulation; and

(b) 150 feet apart for Type NS-1 or NSF-2 neutral supported cable.

(2) Subject to subrule (3) poles used in a primary service line to support conductors of a size specified in column 1 of Table 45 and of components specified in column 2 of Table 45 shall be placed not farther apart than the distances specified in column 3 of Table 45.

(3) Where power conductors and communication circuits are carried on the same poles, the poles shall be placed not farther apart than 175 feet.

75-024 Pole Spans Crossing Public Road. Where a span of electrical conductors crosses a public road:

- (a) The span shall not be longer than 135 feet; and
- (b) The poles which support the span shall be of sufficient height to provide and maintain, at a temperature of 60° F., a distance between the conductors and the surface of the road of:
 - (i) 19 feet, where the voltage between conductors is not more than 750 volts to ground; or
 - (ii) 20 feet, where the voltage between conductors is more than 750 volts to ground but not more than 8000 volts to ground.

75-026 Span with Secondary Attached to Building

(1) The span from the point where the secondary service line is attached to a building to the nearest pole shall be not more than:

- (a) 100 feet for weatherproof insulated copper;
- (b) 125 feet for size No. 3/0 AWG and smaller of Types NS-1 and NSF-2 cables; and
- (c) 100 feet for size No. 4/0 AWG of Types NS-1 and NSF-2 cables.

(2) The ampacity of all weatherproof insulated cable shall be in accordance with Table 50.

75-028 Clearances on Private Property

(1) The poles which support the conductors of a primary service line of not more than 15,000 volts passing over private property accessible to vehicles shall be so located and of such height as to afford a clearance of at least 20 feet measured vertically between the conductors and the ground at a temperature of 60° F.

(2) The poles which support the conductors of a secondary service line passing over private property accessible to vehicles shall be so located and of such height as to afford a clearance of at least 19 feet measured vertically between the conductors and the ground at a temperature of 60° F.

(3) The poles which support the conductors of a primary or secondary service line of not more than 15,000 volts passing over private property accessible only to pedestrians shall be so located and of such height as to afford a clearance of at least 15 feet measured vertically between the conductors and the ground at a temperature of 60° F.

(4) Where an overhead secondary line other than a service line enters a building and the height of the building is insufficient to permit the clearance required by Subrules (2) and 3, the service fitting shall be installed at the highest practicable level, which in no case shall be less than 12 feet above ground level.

(5) Where the span exceeds 175 feet, the clearances required by Subrules (1), (2) and (3) hereof shall be increased by 1/10 foot for each 10 feet by which the span exceeds 175 feet.

75-030 Clearances of Service Conductors from Buildings

(1) Where an overhead service line has a voltage of not more than 750 volts, the conductors shall be kept at least 3 feet measured horizontally or 6 feet measured vertically from all buildings except where necessary to effect a service entrance.

(2) Where an overhead service line has a voltage of more than 750 volts but not more than 15,000 volts, the conductors shall be kept distant:

- (a) From a building:
 - (i) At least 10 feet measured horizontally; or
 - (ii) At least 15 feet above the highest point of the roof of the building; and
- (b) From the top level of a barn-door, barn-window or the entrance to a hay-mow:
 - (i) At least 10 feet measured vertically upwards, or
 - (ii) At least 20 feet measured horizontally.

75-032 Clearances for Other Structures

(1) Power conductors operating at a potential of more than 150 volts to ground shall not be erected within:

- (a) 20 feet measured horizontally from windmills, flagpoles and other like structures; and
- (b) 40 feet measured horizontally from silos or wells which increase the possibility of accidental contact by persons or things with such conductors.

(2) The poles which carry the conductors of a primary line shall be so located as to avoid, so far as is practicable, the possibility of damage from contact with vehicles.

75-034 Anchors and Guys

(1) Poles at dead-ends or angles in a service line shall be guyed to:

- (a) A plate anchor in the manner shown in Specification 2;
- (b) A log anchor in the manner shown in Specification 3; or
- (c) An expansion anchor in the manner shown in Specification 4.

(2) Where the anchor is installed in solid rock with no overburden of earth a rock-anchor shall be installed in the manner shown in item 1 of Specification 5.

(3) Where the anchor is installed in solid rock having an overburden of earth, it shall be installed in the manner shown in item 2 of Specification 5.

(4) Where local conditions do not permit the use of a guy, a push brace shall be used in the manner shown in Specification 6.

75-036 Tree as Anchor. Where power conductors have a voltage of not more than 300 volts and the guyed pole is not at the end of the line and it is not practicable to use an anchor, the guy wire may be attached to the trunk of a sound tree, which shall be at least 12 inches in diameter at the point of attachment, by means of a 5/8-inch eye-bolt or screw-eye at least 6 inches in length.

75-038 Guy Wires. Guy wires shall:

- (a) Be of 7-strand steel;
- (b) Have a diameter of at least 5/16 inch; and
- (c) Be galvanized.

75-040 Strain Insulator on Guy

(1) Every guy shall have a strain insulator installed in the manner shown in Specification 7.

(2) Where:

- (a) The guyed pole carries a transformer or a fused switch; and
- (b) The breaking of the guy wire could cause a part of the guy wire below the strain insulator to fall against a conductor carried by the pole,

a second strain insulator shall be installed in the guy wire at a point below the point of possible contact of the conductor and guy wire.

(3) Where persons or animals are likely to come into contact with the guy wire, it shall be protected by a suitable guard.

75-042 Anchoring for Change of Line Direction

(1) Where a change in direction of a line does not exceed 45 degrees, a single anchor shall be used bisecting the larger angle formed by the lines.

(2) Where a change in direction of a line is greater than 45 degrees but does not exceed 60 degrees, two anchors shall be installed, one at right angles to each line.

(3) Where a change of direction in a line exceeds 60 degrees, each line shall be dead-ended with a head anchor.

75-044 Guy Construction

(1) Where a guy wire passes over a roadway or other obstruction to a guy, it shall be constructed in the manner shown in item, 1 or item 2 of Specification 8.

(2) Where the span between the guyed pole and the stub pole crosses over or under power conductors operating at a potential of more than 150 volts to ground, a second strain insulator shall be installed in the span at a point between the power conductors and the guyed pole and not less than 8 feet from the stub pole.

75-046 Guy on Transformer Pole

(1) The guy wire on a transformer pole shall be attached to the pole with an approved fitting shown in item 1 of Specification 37 in the manner shown in Specification 7 and in such manner that there is no contact with the ground-wire on the pole.

(2) Where there is no transformer on a pole the guys may be attached in the manner prescribed by Subrule 1, or by wrapping two turns of the guy wire around the pole and using two guy hooks as shown in item 3 of Specification 37.

75-048 Anchor Distance from Pole. The distance of an anchor from its pole shall be at least one-third the height of the pole above ground.

75-050 Cross-arms and Hardware. All hardware shall be hot-dipped galvanized.

75-052 Cross-arms

(1) Cross-arms shall be:

- (a) Of Douglas fir;
- (b) At least 4½ inches wide and 3½ inches thick; and
- (c) Attached to the pole so that the longer dimension is vertical.

(2) Where Douglas fir is not available, cedar cross-arms of at least 4¾ inches in width and 3¾ inches in thickness and free of knots of more than ½ inch diameter may be used.

75-054 Types of Cross-arms

(1) On a 2-pin arm the pins shall be at least 30 inches apart.

(2) On a 4-pin arm,

- (a) The 2 pins nearest the pole shall be at least 30 inches apart; and
- (b) Each of the 2 pins farthest from the pole shall be at least 18 inches distant from the pin nearer the pole, but where the pole span is 200 feet or more, the distance shall be increased to at least 30 inches.

(3) The end pins shall be at least 4 inches from the end of the cross-arms.

75-056 Cross-arm Pins

(1) The pins shall be:

- (a) Wood cross-arm pins as shown in item 3 of Specification 9; or
- (b) Steel cross-arm pins as shown in item 2 of Specification 9.

(2) Where steel cross-arm pins are used, a lock washer as shown in item 1 of Specification 9 shall be used on each pin.

75-058 Bracing of Cross-arms. Two-pin cross-arms shall have two 20-inch braces and all other cross-arms shall have two 30-inch braces.

75-060 Cross-arm Construction

(1) Cross-arms shall be erected in the manner shown in Specification 10 but where there is a change in direction of the line of more than 30 degrees, and at dead-ends, the cross-arms shall be erected in the manner shown in Specification 11.

(2) Where there is a change in direction of less than 3 degrees in a service line, the cross-arms shall be erected in the manner shown in Specification 10.

(3) Where the change in direction is greater than 3 degrees but not more than 30 degrees, single arms shall be used, in the manner shown in Specification 10, but the pins shall be angle-pins as shown in item 1 of Specification 38.

(4) Where the change in direction is greater than 30 degrees but not more than 60 degrees, double arms shall be used in the manner shown in Specification 11 but the pins shall be angle-pins as shown in item 1 of Specification 38.

(5) Where the change in direction is greater than 60 degrees buck-arms shall be used in the manner shown in Specification 12.

75-062 Dead-end Construction

(1) At dead-ends in primary service lines double arms shall be erected in the manner shown in Specification 11.

(2) On a four-pin cross-arm, the two spacing bolts nearest the center of the cross-arm shown in Specification 11 shall be installed only when required for dead-end equipment.

(3) Spacing blocks may be used in lieu of spacing bolts.

(4) Where power conductors supported on cross-arms cross an overhead open-wire communication line having more than two circuits, the power conductors shall be supported on double cross-arms on the two poles nearest the crossing.

(5) Where the voltage of power conductors is more than 750 volts the conductors shall be dead-ended in the manner shown in item 1 or item 2 of Specification 13 but:

(a) Where one of the conductors is a grounded neutral, the insulator may be dispensed with on that conductor; and

(b) Where the voltage exceeds 3000 volts to ground, two 6-inch insulators shall be used in series.

75-064 Pole-top Pin Construction

(1) Pole-top pin construction may be used for single-phase grounded circuits.

(2) Where pole-top pin construction is used, it shall be as shown in item 1 of Specification 14.

(3) Where there is a change of direction of less than 3 degrees in the line, the pole-top pin construction shall be as shown in item 1 of Specification 14.

(4) Where the change of direction is greater than 3 degrees but not more than 15 degrees, a pole-top pin and saddle-clamp shall be used in the manner shown in item 1 of Specification 15.

(5) Where the change of direction is greater than 15 degrees but not more than 60 degrees, saddle-clamps shall be used for both conductors in the manner shown in item 2 of Specification 15.

(6) Where the change of direction is greater than 60 degrees, the construction shall be as shown in Specification 16.

(7) Where a power line on pole-top pins crosses an overhead open-wire communication line having more than two circuits, the power conductors shall be supported on double pins on the two poles nearest the crossing.

(8) At a dead-end, double arms shall be installed as shown in Specification 11, or if the dead-end is not on a transformer pole, it may be installed in the manner shown in item 2 of Specification 14.

75-066 Secondary Racks. Racks shall be used on secondary service lines as follows:

(1) Where neutral supported cables are used, the type of rack employed shall be that shown as item 1 of Specification 30.

(2) Where several conductors are used, the type of rack employed shall be as shown in item 2, 3 or 4 of Specification 30 depending upon the number of conductors.

(3) Where there is no change of direction in a secondary service line, the rack shall be erected in the manner shown in item 1 of Specification 17.

(4) Where there is a change of direction in a secondary service line, the rack shall be erected in the manner shown in item 2 of Specification 17.

(5) Neutral supported cable shall be installed in the manner shown in Specification 45.

(6) At a dead-end in a secondary service line, the rack shall be erected in the manner shown in item 3 of Specification 17.

(7) The secondary conductors shall be dead-ended in the manner shown in Specification 18 or, if neutral supported cables are used, in the manner shown in item 1 of Specification 30.

75-068 Rack Clearance

(1) Where primary and secondary service conductors are carried on the same poles and the primary conductors are carried on cross-arms, the top of the rack for the secondary conductors shall be at least 2 feet below the centre of the cross-arms for primary conductors.

(2) Where the primary conductor is carried on a pole-top pin, the secondary rack shall be at least 4 feet below the primary conductor.

(3) Where the conductors of primary and secondary lines are carried on the same poles on private property, the secondary line shall have a neutral conductor separate on the pole from the neutral conductor of the primary line.

75-070 Insulators

(1) The insulator used on the phase wires of a primary circuit having a voltage of more than 750 volts but not more than 5000 volts to ground shall be of the brown glaze, top-tie, wet-process porcelain type as shown in item 1 of Specification 19.

(2) A similar pin-type insulator of slate-coloured glaze shall be used for the grounded neutral wire of a primary circuit.

(3) For:

- (a) Grounded primary circuits having a voltage of more than 5000 volts but less than 8000 volts to ground; or
- (b) Ungrounded circuits of more than 5000 volts but not more than 15,000 volts between conductors,

the phase insulators shall be of the brown glaze, top-tie, wet-process porcelain type as shown in item 2 of Specification 19.

(4) The insulator used on a secondary spool-type rack shall be of porcelain as shown in Specification 20.

75-072 Conductor Splices

(1) Where a splice is required in steel reinforced conductors, the splice shall be made in the manner shown in Specification 21 or a compression joint may be used.

(2) Where a splice is required in hard-drawn copper conductors, the splice shall be made with a sleeve in the manner shown in item 1 of Specification 22 or a compression joint may be used.

(3) Where the conductor to be spliced is of medium-hard-drawn copper, the method shown in item 2 of Specification 22 may be used in lieu of a sleeve but the splice shall be soldered.

(4) Where the conductor to be spliced is of medium-hard-drawn stranded copper:

- (a) The method shown in item 3 of Specification 22 shall be used; and
- (b) The splice shall be soldered.

(5) The method of splicing shown in items 2 and 3 of Specification 22 shall not be used where the conductors are of hard-drawn copper.

(6) Where a span of a power conductor crosses an overhead communication circuit, the use of splices in the span and in the two spans adjoining it shall be avoided where practicable.

75-074 Conductors. Conductors used on primary service lines of more than 750 volts shall be of at least a size shown in column 1 of Table 45.

75-076 Longer Span. Where, by reason of special circumstances, the use of a span longer than that permitted by Table 45 is necessary, an inspector may permit the use of a longer span subject to such conditions as to materials and methods of construction and support as he may consider necessary.

75-078 Conductors of Secondary Service

(1) The conductors of a secondary service line shall have at least the conductivity and strength of No. 6 AWG gauge medium-hard-drawn copper wire.

(2) The conductors of a secondary line, other than the neutral conductor, shall have a weatherproof covering.

(3) The neutral conductor shall be:

- (a) Bare; and
- (b) Placed in the same position in the circuit in relation to the other conductors, as the neutral conductor of the supply authority is in relation to its other conductors.

75-080 Type of Service Line Conductors and Sag Between Poles

(1) Where the conductors of a service line are of neutral supported cable they shall be erected so that the sag between poles is that shown in Table 48 at the specified temperatures, for the size of cable.

(2) Where the conductors of a service line are of copper with a weatherproof covering they shall be erected so that the sag between poles is that shown in Table 46 at the specified temperatures for the size of cable.

(3) Where the conductors of a service line are of steel-reinforced aluminum conductors, they shall be erected so that the sag between poles is that shown in Table 47 for the specified temperatures.

75-082 Conductor Ties

(1) Where insulators are required in a primary service line having aluminum conductors, the conductors shall be tied to pin-type insulators:

- (a) In the manner shown in Specification 23 where there is no change in direction of the line at the insulator; and
- (b) In the manner shown in Specification 24 where there is a change in direction of the line at the insulator.

(2) Where insulators are required in a primary service line having conductors of copper with weatherproof covering, the conductors shall be tied to pin-type insulators:

- (a) In the manner shown in Specification 25 where there is no change in direction of the line at the insulator; and
- (b) In the manner shown in Specification 26 where there is a change in direction of the line at the insulator.

(3) Where insulators are required on a primary service line having a copper conductor with weatherproof covering and the voltage exceeds 3000 volts to ground the covering shall be removed from the conductor for a distance of 12 inches and that portion of the conductor which is bare shall be centrally located on the insulator and tied in the manner shown in Specification 28.

(4) Where insulators are required in a secondary service line having copper conductors with weatherproof covering, the conductors shall be tied to secondary-rack spool-type insulators in the manner shown in Specification 27.

75-084 Conductor Taps. Taps to conductors shall be made with clamps in the manner shown in Specification 35.

75-086 Insulating Bare Conductor. Where insulation has been removed from a conductor in the making of a splice, tap or dead-end, the bare part of the conductor and the clamp, if any, shall be taped and painted with insulating compound.

75-088 Removal of Insulation. Where a dead-end is made on an insulated conductor, the insulation shall be removed from the conductor only at the place where the clamp is attached.

75-090 Attachment of Service Wires

(1) Supply service wires shall terminate on a dead-end rack of a type shown in Specification 29 or 30 mounted:

- (a) On a secondary service pole; or
- (b) Attached to the timber framing of a building by two machine bolts of at least one-half inch diameter backed by washers.

(2) Where it is necessary to install an approved service mast to meet the requirements of Rule 6-010, the mast shall be attached to the building in the manner shown in Specification 46.

75-092 Conductor Sag Between Pole and Building

(1) Where the conductors of the service line are of weatherproof covered copper, they shall be erected so that the sag in the span between a pole and building is in accordance with Table 49 for the specified temperature and span length.

(2) Where the conductors of the service line are of neutral supported cable, they shall be erected so that the sag in the span between a pole and building is in accordance with Table 48 for the specified temperature and span length.

75-094 Service Box Installation

(1) Where a service box is installed on a pole which supports the conductors of a secondary service only, the service box shall be erected in the manner shown in Specification 32.

(2) Where a service box is installed on a transformer pole, no equipment other than that shown in Specification 33 shall be placed on the pole.

(3) Where the service consists of a completely self-protected transformer, no equipment other than that shown in Specification 34 shall be placed on the pole except by special permission.

(4) Service boxes shall not be installed on poles located on a public road.

75-096 Service Attachment to Poles

(1) No electrical equipment of a consumer's service shall be attached to the poles of a supply authority without express permission of the supply authority.

(2) The permission of the supply authority shall not be granted where the attachment cannot be made below the attachments of the supply authority.

75-098 Service Box Installation on a Transformer Pole

(1) Where a service box is installed on a transformer pole:

- (a) Two ground electrodes shall be installed by the supply authority;
- (b) The consumer shall provide a grounding conductor for the non-current-carrying metal parts of the service box; and
- (c) The supply authority shall connect the grounding conductor to the ground wire on the pole.

(2) All non-current-carrying metal parts of the service box shall be grounded.

75-100 Conductors to the Service Switch. Conductors connected to the load side of a service switch shall not be installed in a conduit with conductors connected to the line side of the service switch.

75-102 Disconnection of Live Supply. No person other than an authorized person shall do any work on a pole carrying conductors having a voltage of more than 300 volts until the local superintendent of the supply authority has been notified and the power has been shut off.

75-104 Tree Trimming. At the time of the installation of a primary line on private property, all trees adjacent to the line shall be trimmed so as to afford a clearance of:

- (a) At least 8 feet between light limbs and branches and the conductors of a primary line exceeding 750 volts;
- (b) At least 4 feet between light limbs and branches and the conductors of a secondary line not exceeding 750 volts; and
- (c) At least 6 feet between heavy main tree trunks or limbs, which do not sway appreciably, and the conductors.

75-106 Grounding Conductors

(1) The grounding conductor shall be in accordance with Section 10, except that a 2-conductor non-metallic-sheathed cable with conductors of not less than No. 12 AWG connected in parallel may be used for services not exceeding 100 amperes.

(2) Armoured-cable shall not be used as a grounding conductor, when in an areas that may be frequented by livestock.

(3) (a) Where a rubber-insulated or thermoplastic insulated wire is used for the grounding-conductor, those parts located above ground shall be protected against mechanical injury by means of wood ground-wire moulding or similar means approved by the inspector; and

(b) Metal guards or conduit shall not be used as protection for the grounding conductor in locations accessible to livestock.

75-108 Ground Electrodes

(1) Each ground electrode shall consist of one or more standard ground-rods.

(2) There shall be not less than two ground-rods installed for each consumer's installation.

(3) Ground-rods, if of iron or steel, shall have a minimum diameter of 5/8 inch.

(4) Ground-rods shall be provided with solderless clamps of an approved type.

(5) Where a ground-electrode consists of two or more ground-rods, the ground-rods shall be installed not less than 10 feet apart.

(6) Where ground-rods are installed outside a building, they shall:

- (a) Be at least 10 feet long; and
 - (b) Be driven to a depth such that the ground-clamps are 12 inches below ground-level.
- (7) Where ground-rods are installed in a basement:
- (a) They shall extend not less than 5 feet into the ground; and

- (b) Ground-clamps which are protected against mechanical injury may be located above the surface of the floor through which the rods are driven.

75-110 Location of Underground Grounding Conductor

(1) Where the grounding conductor is run underground to the ground electrode, it shall:

- (a) Be buried in the earth to a depth not less than 12 inches below the ground-level;
- (b) Not be located within 10 feet of a doorway; and
- (c) Not be located in an area normally frequented by livestock.

(2) Where it is impracticable to obtain adequate resistance to ground, an inspector may require that ground connections be dispensed with at individual services.

75-112 Grounding of Service Equipment on Transformer Poles

(1) Where the service equipment is installed on a transformer pole:

- (a) The neutral conductor of the consumer's service shall not be grounded by any one person other than an employee of the supply authority;
- (b) The neutral conductor shall be brought into the service box;
- (c) Notwithstanding the provisions of Rule 10-024, the neutral conductor in the line and load conduits on a service pole may be bare; and
- (d) The contractor shall bond the non-current-carrying metal parts of the service equipment to a grounding conductor sized in accordance with Rule 10-084, and at least 2 feet of the grounding-conductor shall extend outside the weather-proof enclosure.

(2) The supply authority shall,

- (a) Attach the grounding-conductor to the supply authority's ground wire by means of a solderless connector; and
- (b) Supply, install, and test at least two ground-electrodes.

75-114 Overhead Secondary Circuits and Feeders

(1) Conductors shall be installed in accordance with Rules 12-248 to 12-266, both inclusive.

(2) The span between buildings shall not exceed 100 feet.

(3) Where overhead feeders are more than one pole span in length they shall be terminated in accordance with Subrule (1) of Rule 75-090.

(4) Where an overhead feeder is dead-ended and guyed on the last pole, or the length of the feeder drop between the pole line and the attachment or the building does not exceed 50 feet, the conductors may be attached to the building in the manner shown in Specification 31 with an approved type of service knob.

75-116 Attachment of Feeder Conductors

(1) Where a service knob is attached to a solid-masonry wall it shall:

- (a) Have a No. 22 wood screw at least 2 inches long; and
- (b) Be anchored in the solid part of the masonry in the manner shown in item 4 of Specification 31.

(2) Where a service knob is attached to solid wood at least 2 inches thick, it shall have a No. 22 wood screw at least 2 inches long.

(3) Where a service knob is attached to a sheathed frame building, the screw of the service knob shall be at least $3\frac{1}{2}$ inches long and shall be screwed into:

- (a) A stud or other solid member at least 3 inches thick; or
- (b) Face boards or other wooden members which are sufficiently reinforced to prevent breaking of the face board or member,

in the manner shown in item 2 of Specification 31.

(4) A 1/8-inch hole shall be drilled into the wood before the screw is inserted.

(5) Screws shall not be inserted in the end grain of wooden members.

(6) Where a service knob is attached to a brick veneer building, it shall be attached in the manner shown in item 1 of Specification 31, and the screw of the service knob shall:

- (a) Be at least $6\frac{1}{2}$ inches long; and
- (b) Pass through the mortar course into the sheathing.

(7) Where a service knob is attached to a stucco or hollow-tile wall, the service knob shall have a $\frac{3}{4}$ -inch toggle bolt and shall be attached in the manner shown in item 3 of Specification 31.

75-118 Secondary Conductors Across a Public Road.

Where a consumer desires to run the conductors of a secondary feeder across a public road between a house and a barn, the crossing shall not be made unless:

- (a) Written permission has been obtained from the supply authority and from the authority having control over the road; and
- (b) The conductors are erected at least 19 feet above the road level.

75-120 Yard-lights

(1) Yard-lights shall not be installed on a transformer pole, unless installed and maintained by the supply authority.

(2) Where yard-lights are installed on poles carrying the conductors of a primary line, the lighting fixtures shall be at least 6 feet below the conductors.

(3) Where yard-lights are controlled from more than one point by switches, each switch shall be so wired and connected that the neutral conductor runs direct to the light or lights controlled by it.

(4) The neutral conductor of the circuit supplying the yard-light may be connected to the neutral conductor of a feeder or sub-feeder.

75-122 Wiring in Buildings

(1) Where a feeder or sub-feeder enters a building in which livestock is or may be kept or stabled, a 3-wire service box of the solid-neutral type shall be installed at the point of entrance.

(2) Where a service box supplies more than two branch-circuits, over-current devices shall be installed on the load side of the main switch or circuit-breaker.

(3) The over-current devices shall be mounted in an approved enclosure separate from that of the main switch or circuit-breaker except that an approved panelboard may be used in which the main switch or circuit-breaker is in the same enclosure with the branch-circuit over-current devices.

(4) All feeders shall enter barns and out-buildings in rigid metal conduit or in non-metallic sheathed cable.

(5) Notwithstanding Subrule (4), where feeders are protected by a device installed in the transformer, the use of non-metallic sheathed cable shall not be permitted.

(6) Where non-metallic sheathed cable is used, it shall:

- (a) Be located inside the building; and
- (b) Not be exposed to moisture.

(7) The conduit or non-metallic sheathed cable shall be fitted with an approved weatherproof service fitting.

75-124 Wiring Methods

(1) The wiring in barns, stables and out-buildings shall be:

- (a) Knob-and-tube wiring;
 - (b) Non-metallic sheathed cable; or
 - (c) Any other method by special permission.
- (2) The wiring in a residence may be:
- (a) Knob-and-tube wiring;
 - (b) Non-metallic sheathed cable; or
 - (c) Any other approved method.

75-126 Wiring Devices

(1) Except by special permission, keyless weather-proof pigtail lamp-holders shall be installed at lamp outlets in barns, stables and out-buildings.

(2) All lamp outlets shall be controlled by means of wall switches.

(3) Subject to Subrule 4, an outlet, switch, receptacle or other wiring device shall be:

- (a) Contained in a box made of insulating material having a cover of insulating material; or
- (b) An approved self-contained outlet, switch, receptacle or other wiring device, made of insulating material.

(4) Where an inspector permits the installation of metal conduit or armoured-cable, a metal box and fittings shall be used.

75-128 Fixed Lighting. Where combustible dust or chaff is likely to collect on lamps installed in fixed positions, the lamps shall be:

- (a) Installed so that they hang vertically; and
- (b) Enclosed in semi-dust-tight globes.

75-130 Receptacles. Receptacles installed in stables, barns and outbuildings shall be of the 3-pole grounded type.

TABLE 1

*See correction factors after Table 4 to be applied to the values in columns 2 to 7 for ambient temperatures over 30° C. (86° F.).

**The ampacity of single conductor aluminum-sheathed cable is based on the type of insulation used on the copper conductor.

†These are maximum allowable conductor temperatures for single conductors run in free air and may be used in determining the ampacity of other conductor types in Table 19, which are so run, as follows: From Table 19 determine the maximum allowable conductor temperature for that particular type; then from the above Table determine the ampacity under the column of corresponding temperature rating.

‡These ratings are based on the use of 85° C. insulation on the emerging conductors and for sealing. By special permission, mineral-insulated cable may be used at higher temperatures without decrease in allowable ampacity, provided that insulation and sealing material approved for such higher temperature is used.

Notes: 1. The ratings of Table 1 may be applied to a conductor mounted on a plane surface of masonry, plaster, wood, or any material having a conductivity not less than 5 BTU per hour, per square foot, per degree centigrade, per inch.

2. Where 2 to 4 conductors are present and in contact, see correction factors after Table 4.

3. These capacities are only applicable under special circumstances where the use of insulated conductors having this temperature rating are acceptable to the inspection department.

4. Type R90 silicone wire may be used in ambient temperatures up to 65° C. (194° F.) without applying the correction factors for ambient temperatures above 30° C. provided the temperature of the conductor at the termination does not exceed 90° C. (194° F.).

TABLE 2

*See correction factors after Table 4 to be applied to the values in columns 2 to 7 for room temperatures over 30° C. (86° F.).

**The ampacity of aluminum-sheathed cable is based on the type of insulation used on the copper conductors.

†These are maximum allowable conductor temperatures for 1, 2 or 3 conductors run in a raceway or 2 or 3 conductors, run in cable and may be used in determining the ampacity of other conductor types in Table 19, which are so run, as follows: From Table 19 determine the maximum allowable conductor temperature for that particular type; then from the above table determine the ampacity under the column of corresponding temperature rating.

‡These ratings are based on the use of 85° C. insulation on the emerging conductors and for sealing. By special permission, mineral-insulated cable may be used at higher temperatures without decrease in allowable ampacity, provided that insulation and sealing material approved for such higher temperature is used.

***The allowable ampacity for NMD-7 is: No. 14 AWG, 15 amperes; No. 12 AWG, 20 amperes.

NOTES: 1. These capacities are only applicable under special circumstances where the use of insulated conductors having this temperature rating are acceptable to the inspection department.

2. Type R90 silicone wire may be used in ambient temperatures up to 65° C. (149° F.) without applying the correction factors for ambient temperatures above 30° C. provided the temperature of the conductor at the terminations does not exceed 90° C. (194° F.).

*See the correction factors after Table 4 to be applied to the values in columns 2 to 7 for room temperatures over 30° C. (86° F.)

**The ampacity of aluminum-sheathed cable is based on the type of insulation used on the aluminum conductors.

†These are maximum allowable conductor temperatures for 1, 2 or 3 conductors run in a raceway or 2 or 3 conductors, run in a cable and may be used in determining the ampacity of other conductor types in Table 19, which are so run, as follows: From Table 19 determine the maximum allowable conductor temperature for that particular type; then from the above table determine the ampacity under the column of corresponding temperature rating.

‡The allowable ampacity for NMD-7 is: No. 12 AWG, 15 amperes; No. 10 AWG, 20 amperes.

NOTE: 1. These capacities are only applicable under special circumstances where the use of insulated conductors having this temperature rating are acceptable to the inspection department.

CORRECTION FACTORS

CORRECTION FACTORS APPLYING TO TABLES 1, 2, 3 AND 4

AMPACITY CORRECTION FACTORS FOR ROOM TEMPERATURES ABOVE 30° C. (86° F.)

(These correction factors apply, column for column, to Tables 1, 2, 3 and 4)

Room Temperature		Correction Factor					
° C.	° F.						
40	104	0.82	0.88	0.90	0.94	0.95
45	113	0.71	0.82	0.85	0.90	0.92
50	122	0.58	0.75	0.80	0.87	0.89
55	131	0.41	0.65	0.74	0.83	0.86
60	140	0.58	0.67	0.79	0.83	0.91
70	158	0.35	0.52	0.71	0.76	0.87
75	167	0.43	0.66	0.72	0.86
80	176	0.30	0.61	0.69	0.84
90	194	0.50	0.61	0.80
100	212	0.51	0.77
120	248	0.69
140	284	0.59
Col. 1		Col. 2	Col. 3	Col. 4	Col. 5	Col. 6	Col. 7

NOTE: The ampacity of a given conductor type at these higher ambient temperatures is obtained by multiplying the appropriate value from Tables 1, 2, 3 or 4 by the correction factor for that higher temperature.

CORRECTION FACTORS FOR TABLES 1 AND 3

WHERE FROM 2 TO 4 SINGLE CONDUCTORS ARE PRESENT AND IN CONTACT

Number of Conductors	Correction Factors
2	0.90
3	0.85
4	0.80

- NOTES: 1. Where four conductors form a three-phase-with-neutral system, the values for three conductors may be used. Where three conductors form a single phase, three-wire system, the values for two conductors may be used.
2. Where more than four conductors are in contact, the ratings for conductors in raceways shall be used.

TABLE 5
(See Rule 12-162)

MAXIMUM NUMBER OF CONDUCTORS IN TRADE SIZES OF CONDUIT OR TUBING
(0-600 Volts)

Rubber (Thermosetting)-Insulated Types FF-32, RF-32, R60, R75, RW60, RW75, RW90 and R90
Thermoplastic-Insulated Types TF, TFF, T, TW, and TWH

NOTE: For derating factors for more than three conductors in raceways, see Rule 4-004.

Size AWG or MCM	Maximum Number of Conductors in Conduit or Tubing

TABLE 11 (Continued)

NOTES

1. In certain cases the thickness of rubber or thermoplastic insulation is indicated by the type designation, e.g. PO-64 indicates the insulation to be 1/64 inch. In other cases the thickness in inches is shown in brackets following the type designation, e.g. C. (1/32).
2. Suitable for damp locations only, in construction having a moisture-resistant braid.
3. In No. 20 AWG size, Types POSJ-64 and POT-64 are rated 125 volts.
4. These types may be provided with heat-resistant rubber insulation rated at 75° C. (167° F.) and this is indicated by a green thread under the insulation or by surface marking. The temperature rating of a non-fibrous jacket is 60°C. (140°F.).
5. The jackets on Types HSJ, AFS, AFSO, AFSJ, and AFSJO are limited to 60°C. (140°F.); the 90°C. (194°F.) limit applying only to the conductor insulation.
6. The cotton or rayon braid on Types AFC and GTFC and the cotton or rayon outer covering on Types AFPO, AFPD, GTFPO, and GTFPD are limited to 90°C. (194°F.); the 125°C. (257°F.) rating applying only to the conductor insulation.
7. The cotton or rayon outer covering on Type PDT is limited to 90°C. (194°F.); the 105°C. (221°F.) rating applying only to the conductor insulation on which it is surface marked.
8. When Types POT-64, POT-32, SPT-3, SVT, SJT and ST, are provided with thermoplastic conductor insulation and thermoplastic jacket material, both rated at 105°C. (221°F.) this overall temperature rating is surface marked on the jacket in addition to the type designation. Type SPT-3 may also be provided with either 75°C. (167°F.) or 90°C. (194°F.) conductor insulation and jacket material and this overall rating is similarly surface-marked on the jacket.
9. The conductor insulation and jacket of Type HSJO have a temperature rating of 90°C. (194°F.) except that when the jacket is exposed to oil, the temperature rating of the jacket is limited to 60°C. (140°F.).
10. These types may be used in raceways, other than cabletroughs, as permitted in Section 16.
11. When Types SVO, SJO, SO, SWO, and SGO are provided with conductor insulation and jacket material, both rated at 90°C. (194°F.), this overall temperature rating is surface-marked on the jacket in addition to the type designation. When ethylene propylene is used as the insulation, "EP" is also surface marked on the jacket.
12. Suitable for use under Rule 38-006 (2).
13. Suitable for use under Rule 38-006 (2) when provided with flame-retardant and moisture-resistant braid.
14. Dryer and range cables are for use only in approved domestic dryer and range power supply cords not exceeding 6 feet in length. These cables are not for sale to the public for general use.
15. When exposed to oil, the temperature rating of the jacket of Types SVO, SVT, SJO, SJT, AFSJO, HSJO, SO, ST, SGO, SWO, AFSO, SOW, DRO, and EO is limited to 60°C. (140°F.) regardless of the temperature rating of the conductor insulation.
16. Types SJOW, SJTW, SOW and STW are surface printed to show the type designation and the word "outdoor".
17. When Types SVT or SJT are provided with thermoplastic conductor insulation and thermoplastic jacket material, both rated at 90°C. (194°F.), this overall temperature rating is surface-marked on the jacket in addition to the type designation.
18. Types GTF, TEW, SEWF-2, and SEW-2 may be used in lighting fixture raceways in accordance with Subrule 30-028 (2)(d)(ii).

TABLE 12
(See Rules 4-014 and 4-018)

ALLOWABLE AMPACITY OF FLEXIBLE CORD, FIXTURE WIRE, AND CHRISTMAS-TREE WIRE
(Based on Room Temperature of 30° C. (86° F.))

8	35	35	40†
6	45	45	50†
4	60	60	60†
2	80	80

*These types are used almost exclusively in fixtures where they are exposed to high temperatures, and ampere ratings are assigned accordingly.

**Types S, SO, SOW; ST, SJ, SJO, SJOW, SJT and SJTIV 3-conductor cords in which one conductor serves as the grounding medium may have increased ampacities as follows: 10, 13, and 18 amperes for Nos. 18, 16, and 14 AWG respectively. This applies also to Types SV, SVO, and SVT 3-conductor cords which are available in No. 18 AWG only.

†These current ratings are for Types DR, DRO, and DRT domestic dryer and range cables only.

		TWH	75	167

TABLE 19 (Continued)

- NOTES: ¹A maximum copper sheath temperature of 250C is permissible for mineral-insulated cable, provided the temperature at the terminations does not exceed that specified in Tables 1 and 2. Any protective covering provided shall be suitable for the applicable sheath temperature.
- ²Type TECK cable may be used where the armour and/or outer covering is suitable for exposure to the weather. Thermoplastic outer coverings having improved low temperature properties suitable for installation at temperatures down to minus 40F are printed "TECK-minus 40F".
- ³May be used where exposed to heat, grease, or corrosive fumes, if suitable for the corrosive condition.
- ⁴For bare or tinned copper conductors having individual strands smaller in diameter than 0.015 inch, the maximum allowable conductor temperature is 150C (320F).
- ⁵When any of these types have a thermoplastic insulation or covering suitable for installation and use at temperatures down to minus 40F, they are surface printed with the type designation followed by "minus 40F".
- ⁶Conductors or cable assemblies acceptable for direct earth burial may be used, by special permission, for underground services in accordance with Rule 6-006.
- ⁷Types TW and TWU when provided with a nylon jacket are also approved for use where adverse conditions may exist, such as in oil refineries and around gasoline storage or pump areas (e.g. where subjected to alkaline conditions in the presence of petroleum solvents).
- ⁸Types suitable for use in wet locations may also be used in dry or damp locations.
Single conductor Types RW75 and RWU75, shielded or unshielded, may have a thermoplastic (pvc) covering.
- ⁹Type NMW-10 cable is not suitable for use in aerial spans.
- ¹⁰Types having silicone rubber insulation are surface marked with the type designation followed by "silicone" e.g. R90 (silicone).
- ¹¹Types having cross-linked polyethylene insulation are surface marked with the type designation followed by "X-Link", e.g. R90(X-Link).
- ¹²Type R90 silicone may be used to connect equipment which is marked as requiring supply conductors having insulation suitable for a temperature up to 125C (257F).

MINIMUM INSULATION RESISTANCES FOR INSTALLATIONS

Installation	Insulation Resistance Ohms
For Circuits of No. 14 or No. 12 AWG	1,000,000
For Circuits of No. 10 AWG or larger	
25 to 50 amperes	250,000
51 to 100 amperes	100,000
101 to 200 amperes	50,000
201 to 400 amperes	25,000
401 to 800 amperes	12,000
Over 800 amperes	5,000

TABLE 25
(See Rules 14-060 and 28-040)

OVERCURRENT TRIP COILS FOR CIRCUIT BREAKERS AND OVERLOAD DEVICES FOR PROTECTING MOTORS

For Circuit Protection**	System	For Motor Overload Protection	Kind of Motor
Number and Location of Overcurrent Devices (Trip Coils)		Number and Location of Overload Devices such as Trip Coils, Relays or Thermal Cutouts	
3-trip coils, one in each conductor	3-wire, 3-phase ac ungrounded or with grounded neutral	2—in any two conductors except a neutral or grounded conductor	3-phase ac
3-trip coils, one in each phase	4-wire, 3-phase ac		
2-trip coils, one in each phase*	4-wire, 2-phase ac ungrounded	2—one in each phase, not to be connected in any neutral or grounded conductor	2-phase ac
2-trip coils, one in each outside conductor	3-wire, 2-phase ac		
4-trip coils, one in each ungrounded conductor	4-wire, 2-phase ac with grounded neutral		
4-trip, coils one in each ungrounded conductor	5-wire, 2-phase ac	1—in any conductor except a neutral or grounded conduc- tor	1-phase ac or dc
2-trip coils, one in each outside conductor	3-wire, 1-phase ac or dc		
1-trip coil, in each ungrounded conductor	2-wire ac or dc, ungrounded or with one conductor grounded†		
2-trip coils, one in each ungrounded conductor	3-wire, 1-phase ac or dc with grounded neutral		

*For Services see Section 6.

**This will not preclude the use of other arrangements which will provide equivalent protection.

†This will not prevent the use of one single-pole circuit breaker in each conductor for the protection of an ungrounded 2-wire circuit.

TABLE 26

(See Rules 28-014, 28-022, 28-024, 28-028, 28-030, 28-034 and 28-036)

Heavy Intermittent Duty	15 Sec. on 15 Sec. off	90
Continuous Duty	Continuous Duty	110

TABLE 29
(See Rules 28-022, 28-024 and 28-028)

RATING OR SETTING OF OVERCURRENT DEVICES FOR THE
PROTECTION OF MOTOR BRANCH CIRCUITS

(Except as permitted in Table 26 where 15-ampere overcurrent protection for No. 14 AWG motor branch-circuit conductors exceeds the values specified in the following Table)

Type of Motor	Per Cent of Full Load Current		
	Fuse Rating	Maximum Circuit-Breaker Setting	
		Instantaneous Type	Time-limit Type
ALTERNATING CURRENT			
Single-phase all types.....	300	...	250
Squirrel-cage and Synchronous:			
Full-voltage Starting.....	300	700	250
Resistor and Reactor Starting...	300	...	250
Autotransformer Starting:			
Not more than 30 amperes...	250	...	200
More than 30 amperes.....	200	...	200
Wound Rotor.....	150	...	150
DIRECT CURRENT			
Not more than 50 hp.....	150	250	150
More than 50 hp.....	150	175	150

- NOTES: 1. The ratings of fuses for the protection of motor branch circuits as given in Table 26, are based upon fuse ratings appearing in the Table above, which also specifies the maximum settings of circuit breakers for the protection of motor branch circuits.
2. Synchronous motors of the low-torque low-speed type (usually 450 rpm or lower) such as are used to drive reciprocating compressors, pumps, etc., and which start up unloaded, do not require a fuse rating or circuit-breaker setting in excess of 200 per cent of full-load current.

REGULATION 684

under The Power Commission Act

FEES

1. In this Regulation,

(a) "addition or alteration" means the replacement of, or the addition or alteration to, an existing wiring system that has been previously permanently connected, or the minor portion of a new installation;

(b) "contractor" means a person who, as principal, servant or agent, by himself or by his associates, employees, servants or agents, performs or engages to perform, either for his own use and benefit or for that of another and for or without remuneration or gain, any work in respect of an electrical installation or any other work to which this Regulation applies;

(c) "fee-circuit" means the installation, relocation or alteration of a set of conductors running to or from a set of overcurrent devices, or the installation, relocation or alteration of equipment on the load side of a set of conductors that remains unchanged;

(d) "general inspection" means the inspection of an electrical installation to which electrical power or energy has previously been permanently connected;

(e) "inspection call" means every half-hour or fraction thereof spent by the inspector in making the inspection;

"new installation" means the installation of a complete wiring system or the major portion thereof, where the installation is not within a building the wiring system of which has been previously permanently connected;

"residential A" means a single-family dwelling consisting of a house or housing unit, including those of the row type, that has not been previously permanently supplied with power, that is not occupied seasonally only and that,

(i) provides facilities ordinarily required for the accommodation of one family,

(ii) has a separate basement or a separate heating system, and

(iii) has at least five rooms or 800 square feet of floor space exclusive of basement floor space;

(h) "residential A1" means any other single-family dwelling;

(i) "residential B" means a building or any part of a building providing facilities ordinarily required for the accommodation of more than one family except buildings or parts that are residential A. O. Reg. 287/67, s. 1.

2.—(1) A contractor shall pay to the Commission the fees ascertained in accordance with schedules 1, 2 and 3 when the application for inspection is made or, where no application is made, upon the request of the Commission.

(2) Where, during the inspection, it appears that the fees paid are insufficient, the balance of the fees shall be paid to the Commission before the inspection is complete. O. Reg. 287/67, s. 2.

3. Where,

(a) by inadvertence, more than one application has been filed in respect of an installation and fees paid thereon; or

(b) inspection fees have been overpaid,

the amount of the overpayment, except for the minimum charge payable for each application for inspection under schedules 1 and 2, shall be refunded to the contractor upon presentation to the office of the Commission where the payments were made by him of the receipts for the payments. O. Reg. 287/67, s. 3.

Schedule 1

RESIDENTIAL

NEW INSTALLATIONS

1. For the inspection of a new installation carried out on,

Fee

(a) a residential A premises, to a maximum of three calls, plus one additional call for a temporary connection to a new installation.. \$26.00

(b) a residential A1 premises, to a maximum of two calls, plus one additional call for a temporary connection to a new installation..	21.00
(c) a residential B premises,	
(i) for one or two suites.....	50.00
(ii) for each additional suite...	6.00

ADDITIONS OR ALTERATIONS

2.—(1) Subject to subsection 2, for an inspection of an addition or alteration carried out on,

(a) a residential A premises or a residential A1 premises,	Fee
(i) for the first fee-circuit.....	\$ 3.00
(ii) for each additional fee-circuit.....	1.25
(b) a residential B premises,	
(i) for one fee-circuit in a suite.	3.00
(ii) for each additional fee-circuit in a suite.....	1.25
(2) The maximum charge for inspections of additions or alterations carried out on residential A premises is \$26 and on residential A1 premises is \$21.	
(3) For fee circuits in other than suites in residential B premises, the fees payable under Schedule 2.	

GENERAL INSPECTION

	Fee
3. For a general inspection carried out on,	
(a) a residential A and a residential A1 premises.....	\$ 8.00
(b) a residential B premises, per inspection call of one-half hour or fraction thereof.....	8.00

TEMPORARY CONSTRUCTION TYPE SERVICE

4. For the inspection of a temporary pole or shack-type service, including receptacles, for use at the construction site of residential A or residential A1 premises, a fee of \$4.

5. For the inspection of a temporary pole or shack-type service for use at the construction site of residential B premises, the fees payable under Schedule 2.

	Fee
6. The minimum charge for each application for an inspection to which this Schedule applies.....	\$ 3.00
O. Reg. 60/70, s. 1.	

Schedule 2

Subject to subparagraph 3 of paragraph 2 of Schedule 1, this Schedule applies to inspections carried out in buildings or on premises other than those defined as residential A, residential A1 or residential B.

BILLBOARDS AND SIMILAR INSTALLATIONS

1. For the inspection of each installation of a billboard or similar installation, a fee calculated on the basis of the fees payable for the inspection of fixtures and outlets forming part of the billboard or similar installation in accordance with paragraphs 3 and 13 and the fee payable for the inspection of a consumer's service.

CARNIVALS AND TRAVELLING SHOWS

	Fee
2.—(1) Subject to subparagraphs 3 and 4, for inspection of the installation of electrical equipment of a carnival or a travelling show set up for a period not exceeding six days, including a connection authorization valid for not more than six days.....	\$32.00
(2) For each extension of a connection authorization for a period of not more than six days and reinspection of the installation referred to in subparagraph 1.....	12.00
(3) For inspection of the installation of electrical equipment of a carnival or travelling show consisting of one ride or booth.....	10.00
(4) For inspection of carnivals or travelling shows located at shopping centres where the power is supplied from the existing service,	
(a) per ride.....	5.00
(b) per booth.....	3.00
(5) The maximum fee payable for an application for an inspection of electrical work under subparagraph 4 shall be \$32.	

FIXTURES		
Fluorescent, Incandescent, Mercury Vapour		Fee
3. For the inspection of the installation of,		
(a) a lighting fixture installed individually, or end to end, or connected to an individual outlet on a wiring system.....	\$ 3.00	
Additional Units		
(b) each additional lighting fixture installed individually, or connected to an individual outlet on a wiring system, a fee of 10 cents for each such additional fixture.		
Additional End to End Fluorescents		
(c) each additional lighting fixture installed end to end, a fee of 20 cents for each such additional fixture.		
GASOLINE-DISPENSING DEVICES		
4. For the inspection of the installation, or of the addition or alteration, of motorless, or self-contained motor-driven gasoline-dispensing devices,	Fee	
(a) for the first fee-circuit.....	\$ 3.00	
(b) for each additional fee-circuit.....	1.25	
GENERAL INSPECTION		
5. For a general inspection, per inspection call of one-half hour or fraction thereof....	8.00	
GENERATORS		
6. For the inspection of the installation of an electric generator, the fee prescribed by paragraph 10 for a motor of like capacity.		
HEATING AND COOKING APPARATUS		
Commercial and Industrial		
7.—(1) For the inspection of the installation of each non-portable electric furnace, enamelling oven, commercial cooking oven, range, electric steam generator and other non-portable industrial or commercial heating apparatus, a fee of \$3, together with an additional fee of 5 cents per kilowatt of the installed capacity, to a maximum fee of \$30 for any one unit.		
(2) For the inspection of,		Fee
(a) electric space-heating units rated at 5 kilowatts or less, for the first unit.....	\$ 3.00	
(b) each additional space-heating unit if all units may be inspected at the same time.....	1.25	
UNIT-HEATERS		
8.—(1) For the inspection of the installation of one unit-heater.....	3.00	
(2) For the inspection of the installation of each additional unit-heater installed by the same contractor, where inspected at the same time as the first unit-heater.....	1.25	
LOW-VOLTAGE CONTROLS		
9. For the inspection of each installation of low-voltage control, the fees prescribed by paragraph 13 for the inspection of electrical outlets.		
MOTORS		
Voltage up to 750		
10.—(1) For the inspection of the installation of each motor of less than 750 volts, a fee based on horsepower as follows:		
i. For fractional horsepower motors,		Fee
(a) where one motor only is inspected.....	\$ 3.00	
(b) where more than one fractional horsepower motor is installed by one contractor on the same premises and can be inspected at the same time, for each additional fractional horsepower motor	1.25	
ii. For each motor of one horsepower or more, a fee of \$3 together with an additional fee of 15 cents for each horsepower of installed capacity to a maximum fee of \$12 for any one motor.		
Voltage Over 750		
(2) For the inspection of the installation of each electric motor of more than 750 volts, a fee of \$12, together with an additional fee of 15 cents for each horsepower of installed capacity to a maximum fee of \$60 for any one motor.		

(3) Where the wiring for a motor of any voltage has been installed by one contractor and the motor has been installed by another contractor, the inspection fee is one-half of the indicated inspection fee, payable by each contractor, with a minimum fee to each contractor of \$3.

OIL BURNERS, GAS BURNERS AND
MECHANICAL DRAUGHT COAL BURNERS, ETC.
OF THE INDUSTRIAL OR COMMERCIAL TYPE

Fee

11. For the inspection of each installation of an industrial or commercial type oil burner, etc..... \$ 8.00

OUTDOOR FLOODLIGHTING

12.—(1) For the inspection of the installation of one outlet in an installation of floodlights..... 3.00

(2) For each additional floodlight outlet installed by the same contractor where all outlets may be inspected at the same time... 1.25

OUTLETS

13.—(1) For the inspection of the wiring of electrical outlets,

(a) a fee of \$3 together with an additional fee of 20 cents for each outlet up to and including 200 outlets; and

(b) where the number of outlets installed exceeds 200, a fee of \$43 together with an additional fee of 15 cents for each outlet in excess of 200 outlets.

(2) In the case of the inspection of the installation of the controls for remotely-controlled lighting, each control shall be deemed to be one outlet and the fee prescribed in subparagraph 1 applies.

(3) For the inspection of the installation of multi-outlet assemblies, the fees prescribed by subparagraph 1 apply, with each connection to the wiring system and each junction counting as one outlet.

Power Outlets

(4) For the inspection of the installation of a power outlet rated at more than 15 amperes, a fee of \$3 and for each additional such outlet inspected at the same time, a fee of \$1.25.

OUTLINE-LIGHTING

Window-Strip Lighting, Cove Lighting, Etc.

14. For the inspection of an installation of window-strip lighting, cove lighting, or outline lighting where the outlets are spaced at not more than

24-inch centres, a fee calculated on the basis of one-half of the fees payable for outlets in accordance with paragraph 13.

PANELBOARDS AND DISTRIBUTION PANELS

15. For the inspection of each installation of a lighting or power panelboard or distribution panel of 750 volts or less a fee of \$3.50 plus \$1.15 for each 100 amperes of capacity or part thereof to a maximum fee of \$23 for any one unit.

PERMANENTLY CONNECTED EQUIPMENT

Air Conditioners, Exhaust Fans, Projection Heaters, Domestic Type Oil and Gas Furnaces, and Similar Equipment

16. For the inspection of the installation of permanently connected equipment such as air conditioners, exhaust fans, battery chargers, beverage coolers, bulk-milk coolers, domestic type oil and gas furnaces, refrigeration units, welders, projection heaters, x-ray units, and other similar equipment, and sections thereof, and not otherwise described in this Schedule, fees shall be charged on the basis of the main electrical component of the equipment or section using the fees relevant thereto prescribed in paragraph 10 for motors, in paragraph 25 for transformers, in paragraph 7 for heating, or in paragraph 3 for fixtures.

PLUG-IN PORTABLE EQUIPMENT

Air Conditioners, Battery Chargers, Beverage Coolers, X-ray Units, Refrigeration Units, and Similar Equipment

17. For the inspection of the installation of each outlet for plug-in portable equipment such as air conditioners, beverage coolers, coal loaders, x-ray equipment, battery chargers, bulk-milk coolers, refrigeration units, welders, and other similar equipment, the fees prescribed by paragraph 13 for outlets of like amperage.

PRIMARY AND SECONDARY SERVICE LINES

Under 750 Volts

Fee

18.—(1) For the inspection of a line operating at not more than 750 volts where there is more than one customer-owned pole \$ 4.00

Over 750 Volts

(2) For the inspection of a line operating at a potential of more than 750 volts, a fee of \$8 per inspection call of one half-hour or fraction thereof.

Primary Cable Installations

(3) For the inspection of high-voltage underground cable installations operating at a potential of more than 750 volts, a fee of \$8 per inspection call.

SERVICES

19.—(1) For the inspection of a temporary or permanent consumer's service operating at low-potential, a fee of \$3 together with an additional fee of \$1.25 for each 100 amperes of rating or fraction thereof

Fee

(2) For the inspection of each sub-service switch, where installed at the same time as the main service equipment and by the same contractor..... \$ 1.25

(3) Where a consumer's service is installed in a duplex building or other multiple-occupancy building and 2, 3, 4, 5 or 6 meters are required and no master switch is installed, a fee for inspection of the service calculated on the basis of one service of the combined capacity of the individual service switches and \$1.25 for each service switch.

Fee

20.—(1) For the inspection of a temporary or permanent consumer's service operating at a potential of more than 750 volts..... \$35.00

(2) For the inspection of service-entrances, isolating switches and circuit-breakers concurrently with the inspection of the service of which they form part, no fee is payable.

(3) Where the service equipment is of the metal clad type or is mounted on a switchboard, no fee is payable hereunder and the fees payable for high-potential switchboards under subparagraph 2 of paragraph 22 shall apply.

SIGNS AND MARQUEE LIGHTING

21. For the inspection of the installation, addition or alteration of the service, feeders, and other wiring for signs and marquee lighting,

Fee

- (a) for the first fee-circuit..... \$ 3.00
- (b) for each additional fee-circuit..... 1.25

SWITCHBOARDS

22.—(1) For the inspection of each installation of a switchboard operating at a low-potential, a fee of \$3 together with an additional fee of \$1.25 for each 100 amperes of rating or fraction thereof

(2) For the inspection of each installation of a switchboard operating at a potential in excess of 750 volts, a fee of \$10 together with an additional fee of \$6 for each cubicle, excluding any power transformer cubicle.

TELEPHONE BOOTHS

Fee

23. For the inspection of the installation of the wiring of a telephone booth and associated equipment..... \$ 3.00

THEATRES

24.—(1) For the inspection of the installation of the electrical equipment to be used on the stage of a theatre by a road-show, per inspection call..... 8.00

(2) For each weekly inspection of an installation of electrical equipment to be used on the stage of a theatre by a stock company..... 8.00

TRANSFORMERS AND CAPACITORS

Voltage up to 750

25.—(1) For the inspection of the installation of each transformer or capacitor operating at a primary voltage of not more than 750 volts, a fee of \$3 together with an additional fee of 15 cents for each kilovolt-ampere of rating.

Voltage over 750

(2) For the inspection of the installation of each three-phase transformer or capacitor, a bank of three single-phase transformers or capacitors, or an unbanked single-phase transformer or capacitor, operating at a primary voltage of more than 750 volts, a fee based on the total rated kilovolt-amperes as follows:

- i. rated at not more than 1,000 kilovolt-amperes a fee of \$25 together with an additional fee of \$3.50 for each 100 kilovolt-amperes of rating or fraction thereof.
- ii. rated in excess of 1,000 kilovolt-amperes a fee of \$60 together with an additional fee of \$2 for each 100 kilovolt-amperes of rating or fraction thereof in excess of 1,000 kilovolt-amperes up to a maximum of 10,000 kilovolt-amperes.

TROLLEY AND BUS DUCTS

Fee

26. For the inspection of the installation of trolley duct or bus duct, for each ten feet or fraction thereof..... \$.30

MINIMUM CHARGE

27. Minimum charge for each application for an inspection to which this Schedule applies..... \$ 3.00

O. Reg. 62/70, s. 1.

Schedule 3

ANNUAL INSPECTION

1. For inspections carried out pursuant to an annual application for inspection where, in the opinion of the Commission, electrical installation work of a routine nature in connection with the maintenance or operation of a manufacturing, mercantile or other building, or the plant therein is required to be performed at frequent intervals and where the owner or occupant employs his own electricians for the purpose, an annual fee based on the number of persons employed, as follows:
- i. A basic annual fee of \$40 for up to five inspection calls of one half-hour or fraction thereof per year for plants employing up to 100 persons.
 - ii. For plants with over 100 employees, the fee shall be the basic annual fee of \$40 together with an additional fee of \$8 for every 50 employees or fraction thereof in excess of 100 and each \$8 unit of the fee represents one half-hour or fraction thereof of inspection services performed in the plant.
 - iii. Where the total fee paid in accordance with subparagraph ii exceeds an amount ascertained by multiplying the number of inspection calls by \$8 a rebate shall be made of the difference between the total fee payable and such amount but in no case shall the annual charge be less than the basic annual fee of \$40.
2. The annual inspection application and payment of fee do not include the inspection of electrical work performed by outside contractors who arrange

and pay for the inspection of their work in accordance with Schedule 2 or this Schedule.

ADDITIONAL FEE

Fee

3. For each inspection of a defective installation of which the contractor has been notified and which has not been corrected... \$ 8.00

MISCELLANEOUS

4. For the inspection of any electrical installation that is not provided for in Schedule 1, Schedule 2 or this Schedule, per inspection call of one half-hour or fraction thereof..... 8.00

PLANS AND SPECIFICATIONS

5. For the examination of plans and specifications, \$7 per half-hour or fraction thereof.

SPECIAL INSPECTION

6. For the inspection of electrical equipment that is submitted to the Commission for examination, testing and approval in accordance with the regulations, \$18 per hour or fraction thereof, plus any necessary travelling expenses incurred by the inspector.

TEMPORARY CONNECTION AUTHORIZATION

Fee

7. For each application for a temporary connection authorization in addition to the fees otherwise payable under Schedule 1 or Schedule 2..... \$ 5.00

TRAVELLING EXPENSES

8. The travelling expenses incurred by an inspector in carrying out an inspection of an electrical installation located in an area not accessible from travelled roads shall be paid in addition to the fees otherwise payable under Schedule 1, Schedule 2 and this Schedule.

O. Reg. 62/70, s. 1.

REGULATION 685

under The Power Commission Act

PENSION AND INSURANCE PLAN

PART I

GENERAL PROVISIONS

INTERPRETATION

1. In this Regulation,

- (a) "base annual earnings" means,
 - (i) in respect of a monthly-paid employee, his base earnings multiplied by twelve, and
 - (ii) in respect of a weekly-paid employee, his base earnings multiplied by 52.1786;
- (b) "base earnings" means,
 - (i) in the case of a weekly-paid employee other than an hourly-rated employee, the applicable standard base rate as established by the Commission for pension purposes, and in the case of an hourly-rated employee the scheduled hourly rate at which he is being paid multiplied by his normal scheduled hours of work not exceeding a maximum of forty hours per week,
 - (ii) in the case of a monthly-paid employee other than an annually-rated employee, the weekly earnings established in accordance with subclause i multiplied by 4.34821, and in the case of an annually-rated employee the scheduled annual rate at which he is being paid divided by 12, or
 - (iii) in respect of a member who is in receipt of compensation under *The Workmen's Compensation Act*, an amount equivalent to the earnings referred to in the applicable provisions of subclauses i or ii;
- (c) "beneficiary" means the person or persons designated in writing from time to time by an employee to receive the benefits payable upon the death of the employee;
- (d) "*Canada Pension Plan*" means the *Canada Pension Plan*, Statutes of Canada, 1964-65, Chapter 51, and may also include a similar pension plan administered by any province of Canada;
- (e) "C.L.A. plan" means the plan under which contracts have been entered into by or on behalf of certain employees of the Commission with Confederation Life Association for pension and insurance benefits towards which the Commission has made contributions;
- (f) "continuing construction employee" means a temporary employee of the Commission who on or before the 1st day of January, 1966 became a member of the plan;
- (g) "continuous employment" means,
 - (i) subject to subclause ii, the period of employment in which there has been no period of over one year between a date of termination of employment and the date of re-employment, and
 - (ii) in respect of the former employees of Northern Ontario Power Company, Limited, whose employment on the 1st day of April, 1946 was continued with the Commission, 70 per cent of the period in subclause i of employment before that date;
- (h) "credited interest" means the interest on an employee's contributions to the fund and the superseded funds from the 1st day of January following the date the contribution was made to the first day of the month in which the contributions are returned;
- (i) "early-retirement date" means the commencement date of retirement on pension of a member who is retired before and within ten years of his normal retirement date;
- (j) "effective date" means the 1st day of November, 1948;
- (k) "established service" means the number of years and completed months thereof before the 1st day of January, 1966,
 - (i) credited to the employee in the fund and in the superseded pension fund, but excluding any service credited under subclause vi,
 - (ii) from the date the employee was last placed on the superseded retirement fund and for which no service is credited under subclause i,

- (iii) during which the employee made contributions under the C.L.A. plan,
- (iv) in respect of employment prior to the effective date for which no service is credited under subclauses i, ii, iii, and vi and, subject to subclause v, equal to 50 per cent of the period of employment over six months after the 1st day of January, 1930, the date of last being employed or the date of attaining age forty-five, whichever is the latest,
- (v) in respect of the former employees of Northern Ontario Power Company, Limited whose employment on the 1st day of April, 1946 was continued with the Commission, 70 per cent of the period in subclause iv of employment before that date and after the applicable date referred to in subclause iv, and
- (vi) in respect of a continuing construction employee, equal to 100 per cent of the period of employment during which the employee contributed 5 per cent of his earnings to the S and I Plan and 50 per cent of the period of employment during which the employee contributed 2½ per cent of his earnings thereto;
- (l) "fund" means The Pension and Insurance Fund of The Hydro-Electric Power Commission of Ontario, established under subsection 1 of section 21 of the Act;
- (m) "insurance" means the amount for which an employee or pensioner is insured pursuant to Part III from time to time and that is payable upon his death;
- (n) "insurer" means an insurer or insurers under subsection 5 of section 21 of the Act;
- (o) "leave of absence" means absence from employment with the consent of the Commission;
- (p) "member" means an employee who becomes a member of the plan;
- (q) "normal retirement date" means,
 - (i) for a male, the first day of the month coincident with or next following his sixty-fifth birthday, and
 - (ii) for a female, the first day of the month coincident with or next following her sixtieth birthday, or the first day of any subsequent month when she in fact retires and that is not later than the first day of the month coincident with or next following her sixty-fifth birthday;
- (r) "plan" means The Pension and Insurance Plan of The Hydro-Electric Power Commission of Ontario;
- (s) "postponed retirement date" means the commencement date of retirement on pension of a member who is retired after his normal retirement date;
- (t) "regular employee" means an employee who is approved by the Commission as a regular employee;
- (u) "S and I Plan" means the Plan under which prior to the 1st day of January, 1966 temporary employees of the Commission could contribute towards retirement benefit;
- (v) "superseded funds" means the superseded pension fund or superseded retirement fund referred to in subsection 2 of section 17 of *The Power Commission Act*, being Chapter 62 of the Revised Statutes of Ontario, 1937 as re-enacted by subsection 1 of section 4 of *The Power Commission Amendment Act, 1949*;
- (w) "total disability retirement date" means the commencement date of retirement on pension of a member who has completed ten years of continuous employment and who is determined by the Commission to be totally disabled for further service;
- (x) "Year's Maximum Pensionable Earnings" means the Year's Maximum Pensionable Earnings established from time to time by the *Canada Pension Plan*. O. Reg. 309/67, s. 1.

ESTABLISHMENT OF PLAN

2. The plan known as The Pension and Insurance Plan of The Hydro-Electric Power Commission of Ontario is continued. O. Reg. 309/67, s. 2.

PROVISION FOR PENSIONS

3. Pensions shall be paid in accordance with this Regulation. O. Reg. 309/67, s. 3.

MEMBERSHIP

4.—(1) A person who was a regular employee on the 31st day of October, 1948 was a member as of the effective date unless his written election not to become a member was received by the Commission within three months after the effective date.

(2) An employee under sixty-five years of age who becomes a regular employee after the effective date is a member on the first day of the month coincident with or next following the date of becoming a regular employee.

(3) A continuing construction employee was a member as of the date he was admitted to the plan.

(4) A temporary employee, other than a continuing construction employee, for whom the Office and Professional Employees International Union is the bargaining agent is a member on the 1st day of July, 1967 or on the first day of the month coincident with or next following the date upon which the employee has accumulated one years service with the Commission, whichever is later, provided he has been employed substantially without interruption. O. Reg. 309/67, s. 4.

5. A regular employee who elected not to become a member under subsection 1 of section 4 and later became a member shall not be credited with any established service prior to the date on which he became a member of the plan. O. Reg. 309/67, s. 5.

6. A member shall not be entitled to withdraw from the plan while continuing as an employee. O. Reg. 309/67, s. 6.

EARLY RETIREMENT

7.—(1) Where a member has completed fifteen years of continuous employment and, in the case of a male, is within ten years of his normal retirement date, and, in the case of a female, has reached the first day of the month coincident with or next following her fiftieth birthday, the Commission may retire the member on a pension, or the member, with the consent of the Commission, may retire on a pension computed in accordance with section 15 and discounted,

(a) in the case of a male member, at the rate of,

(i) 2 per cent for each year of the five-year period immediately preceding his normal retirement date by which his early retirement date occurs prior thereto, and,

(ii) 3 per cent for each year by which his early retirement date precedes the first day of the month coincident with or next following his sixtieth birthday; and

(b) in the case of a female member, at the rate of,

(i) 2 per cent for each year of the five-year period immediately preceding the first day of the month coincident with or next following her sixtieth

birthday by which her early retirement date occurs prior thereto, and

(ii) 3 per cent for each year by which her early retirement date precedes the first day of the month coincident with or next following her fifty-fifth birthday,

and, where applicable, the foregoing percentages shall be apportioned for any part of a year.

(2) Where the retirement of a female member occurs after she has attained the age of sixty years, she is entitled to 100 per cent of her earned pension computed in accordance with section 15. O. Reg. 309/67, s. 7.

TOTAL DISABILITY RETIREMENT

8. The Commission may,

(a) retire a member on a total disability retirement date at a pension that is 100 per cent of his earned pension computed in accordance with section 15; and

(b) at any time before the normal retirement date of a member who has been retired on a total disability retirement date, require the pensioner to undergo a medical examination and, if he is found to be fit for service and the Commission desires to re-employ him, determine a date for commencement of re-employment, on which date payment of his pension shall terminate and he shall again become a member and the time during which he was in receipt of a pension under clause a shall be excluded in calculating his total service. O. Reg. 309/67, s. 8.

POSTPONED RETIREMENT

9. The Commission with the member's consent may delay his retirement on pension to a postponed retirement date but no contributions shall be made by him on and after his normal retirement date and his pension shall commence on the postponed retirement date. O. Reg. 309/67, s. 9.

RIGHTS TO EMPLOYMENT

10. Membership in the plan shall not give a member the right to be retained in the employment of the Commission. O. Reg. 309/67, s. 10.

LEAVE OF ABSENCE

11.—(1) Leave of absence shall not be deemed termination of employment.

(2) Where the Commission grants leave of absence with pay, the member shall continue to contribute to the fund in accordance with section 16 and

he shall be deemed to have remained in the employment of the Commission during the period of his leave of absence.

(3) Where the Commission grants leave of absence without pay for other than medical reasons, no contributions shall be made by the member and upon termination of the leave of absence the member may contribute to the fund the amount he would have contributed at his base earnings immediately prior to the commencement of the leave of absence for such period of time as the Commission may authorize and, if such contribution is made, the period of time so authorized shall be included in calculating his continuous employment or established service, as the case may be.

(4) Where the Commission grants leave of absence without pay for medical reasons, no contributions shall be made by the member and upon termination of the leave of absence the member may contribute to the fund the amount he would have contributed at his base earnings immediately prior to the commencement of the leave of absence and, if such contribution is made, the period of his leave of absence shall be included in calculating his continuous employment or established service, as the case may be.

(5) Any period of leave of absence for which no contribution is made pursuant to subsection 3 or subsection 4 shall be excluded in computing a member's continuous employment or established service. O. Reg. 309/67, s. 11.

RATE OF CREDITED INTEREST

12. Credited interest on the amount of a member's contributions in the fund, upon payment to him, his beneficiary, or his estate, shall be calculated at 3 per cent a year, compounded annually but, in respect of contributions to the superseded funds, credited interest thereon to the effective date shall be calculated at,

- (a) 4 per cent a year, compounded semi-annually, on contributions to the superseded pension fund; and
- (b) 3 per cent a year, compounded semi-annually, on contributions to the superseded retirement fund. O. Reg. 309/67, s. 12.

PAYMENT OF BENEFITS

13. Where a person for any reason is incapable of acknowledging receipt of a pension, the Commission may pay the pension to another person for the benefit of and in trust for that person. O. Reg. 309/67, s. 13.

EXAMINATION OF FUND BY ACTUARY

14. The Commission shall cause an actuarial valuation of the fund to be made at least every three years and a report in writing thereon to be submitted to the Commission. O. Reg. 309/67, s. 14.

PART II

PENSIONS

AMOUNT OF PENSION

15.—(1) In this section, "high five-year average" means the average base annual earnings of a member during the sixty consecutive months when his base earnings were highest.

(2) Subject to subsections 5 and 7, the annual pension as at his normal retirement date of a member who has not been retired on pension prior to the 1st day of January, 1966 shall be the sum of,

- (a) 1.5 per cent of the member's high five-year average multiplied by his established service to and including the 31st day of October, 1948; and
- (b) 2 per cent of his premium earnings from the 1st day of November, 1948 to the 31st day of December, 1957, both inclusive, being the excess of earnings over his base earnings for the months of November and December, 1948, and the excess of earnings over his base annual earnings at the 1st day of July in each year for the years 1949 to 1956, both inclusive, and the excess of earnings over his base earnings for 1957; and
- (c) 2 per cent of his high five-year average multiplied by the sum of,
 - (i) his established service from the 1st day of November, 1948 to the 31st day of December, 1965, both inclusive, and
 - (ii) the number of years, including any portion of a year, thereafter during which he was contributing to the fund,

but the pension computed in accordance with clauses a and c shall not be greater than 70 per cent of a member's high five-year average.

(3) The annual pension of a member at an early-retirement date shall be computed in accordance with this section, subject to the discount factors provided by section 7.

(4) The annual pension of a member at a total disability retirement date shall be the pension computed in accordance with this section accrued to the total disability retirement date.

(5) The annual pension of a member computed in accordance with this section shall be reduced by .625 per cent of the lesser of,

- (a) the member's high five-year average; or
- (b) the average of the Year's Maximum Pensionable Earnings,
 - (i) in effect during the sixty consecutive months when the member's base earnings were highest, or
 - (ii) during the years of a member's employment after the 31st day of December, 1965 where subclause i does not apply,

multiplied by the number of years during which he was contributing to the fund subsequent to the 31st day of December, 1965 up to but not exceeding thirty-five years, but such reduction shall not apply until a pension attributable to the member's employment by the Commission becomes payable, or would have become payable in the absence of post-retirement earnings of the member, in accordance with the *Canada Pension Plan* to the member, or to the widower, widower or child of the member where the member dies prior to the commencement of pension payments in accordance therewith, and a pension is also payable to the member, widow, widower or child in accordance with this Regulation.

(6) Where, upon the calculation of the annual pension to which a member is entitled pursuant to subsection 2, it appears that prior to his retirement date his pension entitlement had reached an amount equivalent to 70 per cent of the member's high five-year average, the reduction provided for by subsection 5 shall apply only to that period of the member's employment subsequent to the 31st day of December, 1965 and prior to the date on which his pension entitlement reached that amount.

(7) Subsection 5 shall not apply so as to reduce that portion of a member's pension attributable to service prior to the 1st day of January, 1966.

(8) Where, by reason of the reduction made in accordance with subsection 5, the amount of pension payable to or on behalf of any person in accordance with this Regulation and the *Canada Pension Plan*, if applicable, is less than the amount of pension that would otherwise have been payable pursuant to this Regulation, the pension shall be increased to the latter amount. O. Reg. 309/67, s. 15 (1-8).

(9) Commencing on the 1st day of October, 1967 the pension being paid to a member who retired on pension prior to the 1st day of January, 1962 shall be increased in the amount of \$12 per annum for each year of the member's established service up to but not exceeding twenty-five years and the increase shall be made proportionately for portions of a year where applicable. O. Reg. 347/67, s. 1.

CONTRIBUTIONS OF MEMBERS

16.—(1) Commencing on the 1st day of January, 1966 and continuing until,

- (a) his normal retirement date;
- (b) his early retirement date;
- (c) his total disability retirement date; or
- (d) the termination of his employment,

a member shall contribute by way of deductions from his base earnings 3.4375 per cent of the lesser of,

- (e) his base earnings during each calendar year; and
- (f) that portion of his base earnings during each calendar year equivalent in amount to the Year's Maximum Pensionable Earnings for the year,

and where clause f applies, he shall contribute by way of deductions from his base earnings 5 per cent of that portion of his base annual earnings in each calendar year in excess of the Year's Maximum Pensionable Earnings for the year.

(2) The contributions of a member may be deducted by the Commission from his base earnings and paid into the fund. O. Reg. 309/67, s. 16, amended.

PAYMENT OF PENSION

17. The annual pension shall be paid at a monthly rate, the first payment to be made on the retirement date, the second and subsequent payments on the first day of each month thereafter and the final payment of a full month's pension on the first day of the month in which the pensioner dies. O. Reg. 309/67, s. 17.

INCREASED PENSION OPTION

18.—(1) A member to whom subsection 2 of section 22 does not apply may elect in writing before his retirement date that subsection 6 of section 22 shall not apply, in which case he is entitled to an increased pension that shall be the actuarial equivalent of the pension under section 15.

(2) Where the member's retirement has been delayed beyond his normal retirement date and he dies before a postponed-retirement date, the election is not effective. O. Reg. 309/67, s. 18.

CONTINGENT ANNUITANT OPTION

19.—(1) A member, upon whose death no beneficiary pension is payable in accordance with subsection 2 of section 22 and who does not make the election referred to in subsection 1 of section 18, may elect in writing before his retirement date to take

a reduced pension, a specified percentage whereof upon his death on or after his normal retirement date, total disability retirement date or early retirement date, as the case may be, shall be paid to and during the life of a surviving contingent annuitant named in the election, and the reduced pension shall be the actuarial equivalent of the member's pension and subsection 6 of section 22 does not apply.

(2) A member who is retired on a total disability retirement date before he has reached the age of fifty-five years may not make the election referred to in subsection 1.

(3) A member may, before his normal retirement date, revoke an election made under subsection 1.

(4) Where the contingent annuitant dies before the member attains his retirement date, the election shall not be effective. O. Reg. 309/67, s. 19.

PREPAYMENT OF GOVERNMENT PENSIONS

20.—(1) A member may elect in writing before his retirement date to receive a pension, the amount of which is varied in such manner as the Commission may approve in accordance with the actuarial equivalent of the pension that will become payable to the member under the *Old Age Security Act* (Canada) and the *Canada Pension Plan*, or either of them, in lieu of the pension otherwise payable to the member, computed in accordance with section 15.

(2) The election provided for in subsection 1 does not apply to members who are retired on a total disability retirement date until they reach normal retirement date. O. Reg. 309/67, s. 20.

PAYMENT OF SMALL PENSION

21. If the monthly instalment of a pension is under \$10 the Commission may pay the pension in a single sum or in any form of modified annuity in full discharge of the member's rights hereunder but upon the death of the pensioner before the expiration of the period during which the modified annuity is to be paid the remainder thereof shall constitute a death benefit payable monthly until the expiration of the period, or in a single sum that is the actuarial equivalent thereof, to the beneficiary or, if there is no beneficiary or the beneficiary has predeceased the member, to the estate of the pensioner. O. Reg. 309/67, s. 21.

DEATH BENEFITS

22.—(1) Where a member having less than ten years continuous employment dies during his employment by the Commission there shall be paid to the beneficiary or, if there is no beneficiary or the beneficiary has predeceased the member, to the estate of the member, a death benefit equal to the sum of the member's contributions in the fund, with credited interest. O. Reg. 309/67, s. 22 (1).

(2) Upon the death of,

(a) a member, who, having at least ten years continuous employment, dies during his employment by the Commission; or

(b) a member who commences to receive a pension pursuant to this Regulation after the 31st day of December, 1965,

a pension is payable in accordance with one of the following alternatives:

1. Subject to subsection 3, to a deceased male member's widow until her death or remarriage, 50 per cent of the annual pension to which the member was entitled at his death, computed in accordance with section 15, if, in the case of a member who has retired on pension, she married the member prior to this retirement.
2. To a deceased female member's widower until his death or remarriage if at the date of her death he is disabled, and for whom in the taxation year in which her death occurred the deduction permitted by subclause i of clause a of subsection 1 of section 26 of the *Income Tax Act* (Canada) is allowed, a pension at the rate prescribed in paragraph 1.
3. To the person or agency having the custody and control of a deceased member's dependent child or children who are under eighteen years of age at the time of the member's death, a pension at the rate prescribed in paragraph 1 until such child or the youngest of them reaches eighteen years of age, if a pension is not paid pursuant to paragraph 1 or 2.
4. To a deceased member's dependent child or children who are eighteen or more years of age but less than twenty-five years of age and are in full-time attendance at a school or university, having been in such attendance substantially without interruption since such child or such children reached eighteen years of age or the member dies, whichever occurred later, a pension at the rate prescribed in paragraph 1 until such child or all of such children reach twenty-five years of age or cease such full-time attendance at a school or university, if a pension is not paid pursuant to paragraph 1, 2, 3 or 5.
5. To the person or agency having the custody and control of a deceased member's dependent child or children who are eighteen or more years of age and disabled, having been disabled without interruption since reaching eighteen years of age or the member's death, whichever occurred later, a pension at the

rate prescribed in paragraph 1 until the disability ceases or the child reaches twenty-five years of age, if a pension is not paid pursuant to paragraph 1, 2, 3 or 4. O. Reg. 309/67, s. 22 (2); O. Reg. 347/67, s. 2 (1), *amended*.

(3) A pension payable under subsection 2 to a widow of a member who has retired on pension shall be reduced by 2½ per cent for each year by which the widow was more than ten years younger than her husband.

(4) Where the amounts paid in accordance with subsection 2 on behalf of a member are less than the member's contributions to the fund together with credited interest the difference shall be paid to the member's beneficiary, or, if there is no beneficiary or the beneficiary has predeceased the member, to the member's estate.

(5) Where no beneficiary pension is payable in accordance with subsection 2 by reason of the designation of another beneficiary, because no eligible beneficiary survived the member or otherwise, and a member having at least ten years continuous employment dies during his employment by the Commission, there shall be paid to the beneficiary, or, if there is no beneficiary, to the estate of the member,

- (a) a death benefit equal to the sum of the member's contributions in the fund with credited interest; and
- (b) where the member's continuous employment prior to the 1st day of January, 1962 exceeded eighteen years a monthly pension of 50 per cent of the monthly pension accrued to the date of death for each completed month by which the member's period of employment prior to that date exceeds eighteen years, up to a maximum of sixty months,

and where clause *b* applies and the beneficiary is a dependent of the member and is the member's child, parent, grandparent, brother or sister dependent on the member by reason of mental or physical infirmity, the death benefit referred to in clause *a* may be paid in instalments of not less than \$50 a month, as the member or beneficiary may elect, over a period of time not exceeding ten years and the unpaid balance from time to time shall bear interest at 3 per cent a year compounded annually.

(6) Where no beneficiary pension is payable in accordance with subsection 2 by reason of designation of another beneficiary, because no eligible beneficiary survived the member or otherwise, and no election has been made in accordance with subsection 1 of section 18 or subsection 1 of section 19, and a male member who has attained his normal

retirement date, a female member who has reached the first day of the month coincident with or next following her sixtieth birthday, or a pensioner, dies before having received an aggregate amount equivalent to his pension for five years, the balance, excluding any increase granted in accordance with subsection 1 of section 20, shall be paid in monthly instalments or in a single sum that is the actuarial equivalent thereof, as a death benefit, to the beneficiary, or if there is no beneficiary, or the beneficiary has predeceased the member, to the estate of the member or pensioner.

(7) For the purposes of this section,

- (a) "child" includes a natural child, stepchild, adopted child or any other child to whom the member or the member's spouse stood *in loco parentis* at the time of the member's death;
- (b) "dependent child" means a child of a male member who has died, or of a female member who has died, if immediately before the member's death the child was allowed as a dependent of the deceased member under the *Income Tax Act* (Canada). O. Reg. 309/67, s. 22 (3-7).

(8) Where a member who retired on pension prior to the 1st day of January, 1966 has died or dies, a pension is payable, commencing on the 1st day of October, 1967 or on the first day of the month following the member's death, whichever is later, in accordance with one of the following alternatives:

1. Subject to subsections 3, 10 and 11, to a deceased male member's widow until her death or remarriage, 25 per cent of the annual pension to which the member was entitled or, in the absence of the exercise of an election pursuant to subsection 1 of section 19, would have been entitled, at his death, if she was married to the member prior to his retirement and has not remarried, provided that where a member who retired on pension prior to the 1st day of January, 1962 has died prior to the 1st day of October, 1967 subsection 9 of section 15 shall be deemed to apply as if his death had occurred on the 1st day of October, 1967.
2. To a deceased female member's widower until his death or remarriage if at the date of her death he is disabled, and for whom in the taxation year in which she died there was allowed the deduction permitted by the *Income Tax Act* (Canada) for a married person who supported his spouse, a pension at the rate prescribed in paragraph 1.

3. To the person or agency having the custody of a deceased member's dependent child or children or to such dependent child or children, as determined under paragraphs 3, 4 and 5 of subsection 2, as the case may be, a pension at the rate prescribed in paragraph 1 on the same terms and conditions set out in paragraphs 3, 4 and 5 of subsection 2. O. Reg. 245/68, s. 1

(9) Where the five-year guarantee applies upon the death of a member, a pension payable pursuant to subsection 8 shall not be payable before the first day of the month following the month in which the balance has been fully paid. O. Reg. 245/68, s. 1, *amended*.

(10) Where a member who retired on pension prior to the 1st day of January, 1966 has made the election provided for by subsection 1 of section 19 by naming his or her spouse as surviving contingent annuitant, the member, within three months from the date appearing on a notice from the Commission requesting the member so to do, may elect that a portion of the amount that would otherwise have become payable pursuant to subsection 8 be actuarially apportioned in such manner as the Commission may approve, so that a designated portion thereof is payable to the member for life, with the balance payable in accordance with subsection 8, provided that the balance so payable together with the specified percentage payable to the surviving contingent annuitant pursuant to subsection 1 of section 19 shall be at least equivalent to 25 per cent of the pension that will be paid to the member and shall not exceed 100 per cent of that pension. O. Reg. 245/68, s. 1.

(11) Where a member has made the 100 per cent election in accordance with subsection 1 of section 19 and does not make the election permitted by subsection 10, the Commission may on his behalf make that election which will assure to the member's spouse or dependent child or children the maximum pension permitted by subsection 10 and such election shall have the same force and effect as if made by the member. O. Reg. 245/68, s. 1.

(12) If, upon the death of a member, it is the opinion of the Commission that the widow of the member had, prior to his death, been living apart from him under circumstances that would have disentitled her to an order for alimony or separate maintenance, the Commission may direct that she shall be deemed for the purposes of this section to have predeceased the member.

(13) The Commission shall make payments in accordance with this section to beneficiaries of whom it has knowledge or notice and whom, on reasonable grounds, the Commission believes to be entitled thereto and such payment, including any payment that may be made to a minor, shall fully discharge the Commission's obligations hereunder. O. Reg. 309/67, s. 22 (8-9).

TERMINATION OF EMPLOYMENT

23.—(1) Upon termination of employment other than by death or retirement on pension, a member,

(a) having been a member of the plan for less than one year shall be paid the sum of his contributions to the fund with credited interest;

(b) having been a member of the plan for more than one year, may elect,

(i) subject to clause *d*, to be paid the sum of his contributions to the fund with credited interest, or

(ii) to leave his contributions in the fund and to be paid at his normal retirement date his earned pension ascertained in accordance with the regulations in effect upon termination of employment;

(c) having been a member of the plan for more than ten years may elect to receive in partial discharge of his rights under subclause ii of clause *b* an amount equivalent to 25 per cent of the commuted value of the pension referred to in that subclause and to be paid at his normal retirement date 75 per cent of his earned pension ascertained in accordance with the regulations in effect upon termination of employment; or

(d) having attained the age of forty-five years and having completed ten years of continuous employment may not make the election prescribed in subclause i of clause *b* but may in lieu thereof elect to be paid a lump sum payment consisting of,

(i) the sum of his contributions to the fund prior to the 1st day of January, 1965 together with credited interest, and

(ii) 25 per cent of the commuted value of that portion of his pension earned after the 31st day of December, 1964,

and he shall at his normal retirement date be entitled to be paid 75 per cent of the portion of his pension earned after the 31st day of December, 1964.

(2) Where a member is entitled to all or part of his pension in accordance with subclause ii of clause *b*, clause *c* or clause *d* of subsection 1, his rights and privileges under this Regulation shall thenceforth be ascertained in accordance with the regulations in force at the time of termination of employment.

(3) Subject to section 21, a pension payable in accordance with subclause ii of clause *d* of subsection 1 is not capable of surrender or commutation and does not confer upon any employee, personal representative or dependant or any other person, any right or interest capable of being surrendered or commuted.

(4) Where a member to whom subclause ii of clause *b*, clause *c* or clause *d* of subsection 1 applies dies before his normal retirement date there shall be paid to his beneficiary or, if there is no beneficiary or the beneficiary has predeceased the member, to the estate of the member a death benefit equal to the sum of the member's contributions to the fund with credited interest calculated to date of payment minus any amounts paid to the member pursuant to this section, and section 22 does not apply. O. Reg. 309/67, s. 23.

TRANSFERS TO OR FROM MUNICIPAL AUTHORITIES

24.—(1) In this section, "municipal authority" means a municipal corporation or commission distributing electrical power or energy in a municipality.

(2) Where a member has, prior to the 1st day of January, 1966, made the election provided for by subsection 2 of section 24a of Regulation 491 of Revised Regulations of Ontario, 1960, as made by section 1 of Ontario Regulation 213/61, he shall be entitled on his normal retirement date to the pension earned to date of transfer calculated in accordance with the regulations in force on that date and in a like manner his rights and benefits under the plan shall thenceforth be ascertained in accordance with the provisions of the regulations in force on the date of transfer and his service with the municipal authority shall be included in calculating his continuous employment for the purpose of establishing his eligibility therefor.

(3) Notwithstanding subsection 2, a member who has made the election referred to in subsection 2 is not entitled to the benefits provided by clauses *a*, *b* and *c* of subsection 2 of section 23 of Regulation 491 of Revised Regulations of Ontario, 1960, as remade by section 6 of Ontario Regulation 16/62.

(4) Where a member, having contributed to the plan for at least one year, terminates his employment with the Commission for the purpose of assuming employment with a municipal authority subsequent to the 31st day of December, 1965 and elects to leave his total contributions in the fund, he shall be entitled on his normal retirement date to the pension earned to date of transfer calculated in accordance with the regulations in force on that date and in a like manner his rights and benefits under the plan shall thenceforth be ascertained in accordance with the provisions of such regulations and his service with the municipal authority shall be included in calculating his continuous employment for the purpose of establishing his eligibility therefor.

(5) Where a member who has exercised the election provided for in subsection 2 or subsection 4 subsequently and without intervening employment transfers his services to one or more municipal authorities or returns to the employment of the Commission and provided he has not elected any withdrawal option under this Regulation or any pension plan to which he contributed while in the service of a municipal authority, his combined continuous service shall be included in calculating his continuous employment for the purpose of establishing his eligibility for rights and benefits pursuant to this Regulation.

(6) Where an employee of a municipal authority has, prior to the 1st day of January, 1966, made the election provided for by subsection 4 of section 24a of Regulation 491 of Revised Regulations of Ontario, 1960, as made by section 1 of Ontario Regulation 213/61, the continuous service with which he was credited by the municipal authority shall be included in calculating his continuous employment with the Commission for the purpose of establishing eligibility for rights and benefits pursuant to this Regulation.

(7) Where an employee of a municipal authority who is credited by the municipal authority with at least one year of continuous service terminates his service subsequent to the 31st day of December, 1965 for the purpose of assuming employment with the Commission and does not elect any withdrawal option contained in any pension plan to which he contributed while in the employment of a municipal authority, his continuous service for which he received credit with the municipal authority shall be included in calculating his continuous employment with the Commission and he is entitled to immediate membership in the plan.

(8) Where an employee of a municipal authority to whom subsection 6 or subsection 7 applies subsequently and without intervening employment transfers his services to one or more municipal authorities and has not elected any withdrawal option provided by this plan or any pension plan to which he contributed while in the service of a municipal authority, his combined continuous service shall be included in calculating his continuous employment for the purpose of establishing eligibility for rights and benefits pursuant to this Regulation.

(9) Notwithstanding subsection 4, 5 or 8, the benefits provided by paragraphs 1, 2, 3, 4 and 5 of subsection 2 of section 22 are not applicable to a member to whom clause *a* of subsection 2 of the said section 22 applies who subsequently dies while in the service of a municipal authority. O. Reg. 309/67, s. 24.

RE-EMPLOYMENT

25. Where the employment of a member terminates otherwise than by retirement on pension and he again becomes an employee, his eligibility for

membership in the plan shall be determined in the same manner as any other employee commencing service with the Commission, except where he again becomes an employee within one year after the date of termination,

- (a) having elected to leave his contributions in the fund in accordance with subclause ii of clause b of section 23; or
- (b) having withdrawn his contributions in whole or in part and electing to repay to the fund the amount so withdrawn in a single sum on the date of again becoming a member or by deductions from base earnings during one year after the date of again becoming a member with interest thereon at the rate of 3 per cent a year to the date of repayment,

in which case he shall be deemed to be on leave of absence during the period between the date of termination and the date of again becoming a member. O. Reg. 309/67, s. 25, *amended*.

TERMINATION OF PLAN

26.—(1) If the plan is terminated or the full current costs thereof have not been met on any date prior to the 22nd day of January, 1972 or prior to ten years after any amendment to the plan that increases pensions thereunder, the contributions made by the Commission to the fund that may be used to provide benefits for any member who was among the twenty-five highest paid employees on the 22nd day of January, 1962 or on the date of such amendment shall not exceed the greater of,

- (a) the contributions, or funds attributable thereto, that would have been applied to provide pension benefits if the plan, as it existed immediately before the date of such amendment, had been continued without change;
- (b) the sum of,
 - (i) the contributions, or funds attributable thereto, that would have been applied to provide pension benefits for the member if the plan had been terminated on the day before the date of such amendment, and
 - (ii) an amount equal to 20 per cent of the member's average base annual earnings for the last five years of service, or \$10,000, whichever is the lesser, multiplied by the number of full years after the 22nd day of January, 1962 or the date of such amendment, whichever is applicable, for which the current costs of the plan are met;

(c) \$20,000; or

(d) the amount that would be required to provide an annual pension of \$1,500 for such member.

(2) Subsection 1 shall not restrict the payment of a pension to any member so long as the plan remains in force and the current costs are met.

(3) Subject to subsection 1, in the event the plan is terminated at any time a member is entitled to 100 per cent of his pension ascertained and payable in accordance with the regulations in effect on his retirement date or the date of termination of the plan, whichever is earlier. O. Reg. 309/67, s. 26, *revised*.

EXPLANATORY MATERIAL

27. The Commission shall issue to each contributing member a written explanation of the terms and conditions of the plan and any amendments thereto applicable to the member together with an explanation of the rights and duties of the member with reference to the benefits available to him under the terms of the plan. O. Reg. 309/67, s. 27.

RESTRAINT ON ALIENATION

28. Pensions provided pursuant to this Regulation are not capable of assignment or alienation and do not confer upon any employee, personal representative or dependant or any other person any right or interest therein capable of being assigned or otherwise alienated. O. Reg. 309/67, s. 28.

PART III

LIFE INSURANCE

AMOUNT OF INSURANCE

29.—(1) A member shall be insured,

- (a) before his normal retirement date or an early retirement date for the amount shown in column 3 applicable to his base annual earnings shown in column 2 of the Schedule, as of the date of eligibility and each 1st day of January thereafter;
- (b) after his total disability retirement date for the amount of insurance for which he was insured at the time of his retirement until he reaches his normal retirement date; and
- (c) subject to subsection 2, on and after his normal retirement date or an early retirement date for 25 per cent of the amount for which he was insured immediately prior thereto or the amount of the paid-up insurance provided by his contributions, whichever is greater.

(2) Where a person becomes an employee after the effective date at or after age fifty-five if a male, or age fifty if a female, the insurance under clause c of subsection 1 shall be the amount of the paid-up insurance provided by the member's contributions but, in the event of his paid-up insurance being less than \$250, the member shall receive the cash value of his paid-up insurance or an amount equal to the sum of his contributions applied to purchase paid-up insurance, whichever is greater.

(3) A member who has reached his normal retirement date or who has retired at an early retirement date may elect to be paid the cash value of his paid-up insurance or an amount equal to the sum of his contributions applied to purchase paid-up insurance, whichever is greater.

(4) Where at the time of an election under subsection 3 a member is entitled to term insurance of \$500 or more, he shall remain so entitled but otherwise such election shall constitute full discharge of the member's rights to the insurance that would otherwise be provided in accordance with clause c of subsection 1. O. Reg. 309/67, s. 29.

CONTRIBUTIONS OF MEMBER

30.—(1) From the date of becoming a member and until,

- (a) normal retirement date;
- (b) total disability retirement date;
- (c) early retirement date; or
- (d) termination of employment,

except when on leave of absence without pay for medical reasons, the member shall contribute from his earnings monthly to the fund the amount in column 4 applicable to his base annual earnings in column 2 of the Schedule, as of the date of eligibility and each 1st day of January thereafter.

(2) The contributions of the member may be deducted by the Commission from his base earnings and paid into the fund. O. Reg. 309/67, s. 30.

PAYMENT OF COST OF INSURANCE

31. The cost of insuring employees and pensioners shall be paid out of the fund to the insurer. O. Reg. 309/67, s. 31.

PAYMENT OF INSURANCE

32. Upon the death of an insured person, the insurance shall be paid to the beneficiary or, if there is no beneficiary or the beneficiary has predeceased the insured person, to the estate of the insured person. O. Reg. 309/67, s. 32.

33. A member or beneficiary may elect in writing to have the insurance paid in a single sum or, with the consent of the insurer, in any other form or manner. O. Reg. 309/67, s. 33.

TERMINATION OF EMPLOYMENT

34. Upon termination of employment other than by death or retirement on pension, a member, in respect of his contributions to the fund toward the cost of insurance, shall elect,

- (a) to be paid the cash value of the insurance, which shall not be less than the sum of his contributions; or
- (b) if the paid-up insurance is not less than \$250, to receive a paid-up insurance policy based on the total of his contributions,

and in addition he may purchase from the insurer within thirty-one days following the month in which termination of employment occurs, without medical examination, an individual policy for the total amount of his insurance in force on the date of termination, less the amount of his paid-up insurance, in any form, except term insurance, then customarily issued by the insurer, for which the premium rate is the same as the rate that would apply to a similar policy issued at the then-attained age to any individual belonging to the same insurance risk. O. Reg. 309/67, s. 34.

RE-EMPLOYMENT

35. Where the employment of a member terminates otherwise than by retirement on pension and he again becomes a member this Part shall apply in the same manner as it applies to any other new member. 309/67, s. 35.

ABSENCE FROM EMPLOYMENT

36.—(1) Subject to subsections 2 and 3, a member on leave of absence shall remain insured to the date when his base earnings cease.

- (2) A member on leave of absence without pay,
 - (a) for medical reasons;
 - (b) while on loan to another employer; or
 - (c) for three months or less,

shall remain insured to the date of termination of the leave of absence.

(3) A member on leave of absence because of full-time service in the armed forces of any country shall discontinue his contributions on the date of commencement of the leave of absence and shall remain insured thereafter only for the amount of his paid-up insurance.

(4) On the date, as it may be, referred to in subsection 1, 2 or 3, the employment of the member, for the purposes of this Part, shall be deemed to be terminated. O. Reg. 309/67, s. 36.

Schedule

COLUMN 1	COLUMN 2	COLUMN 3	COLUMN 4
Insurance Class	Base annual earnings	Amount of insurance	Member's monthly contribution before normal or early retirement date
1	under \$ 1,500.00	\$ 3,000.00	\$ 1.80
2	\$ 1,500.00 to 1,999.99	4,000.00	2.40
3	2,000.00 to 2,499.99	5,000.00	3.00
4	2,500.00 to 2,999.99	6,000.00	3.60
5	3,000.00 to 3,499.99	7,000.00	4.20
6	3,500.00 to 3,999.99	8,000.00	4.80
7	4,000.00 to 4,499.99	9,000.00	5.40
8	4,500.00 to 4,999.99	10,000.00	6.00
9	5,000.00 to 5,499.99	11,000.00	6.60
10	5,500.00 to 5,999.99	12,000.00	7.20
11	6,000.00 to 6,499.99	13,000.00	7.80
12	6,500.00 to 6,999.99	14,000.00	8.40
13	7,000.00 to 7,499.99	15,000.00	9.00
14	7,500.00 to 7,999.99	16,000.00	9.60
15	8,000.00 to 8,499.99	17,000.00	10.20
16	8,500.00 to 8,999.99	18,000.00	10.80
17	9,000.00 to 9,499.99	19,000.00	11.40
18	9,500.00 to 9,999.99	20,000.00	12.00
19	10,000.00 to 10,499.99	21,000.00	12.60
20	10,500.00 to 10,999.99	22,000.00	13.20
21	11,000.00 to 11,499.99	23,000.00	13.80
22	11,500.00 to 11,999.99	24,000.00	14.40
23	12,000.00 to 12,499.99	25,000.00	15.00
24	12,500.00 to 12,999.99	26,000.00	15.60
25	13,000.00 to 13,499.99	27,000.00	16.20
26	13,500.00 to 13,999.99	28,000.00	16.80
27	14,000.00 to 14,499.99	29,000.00	17.40
28	14,500.00 to 14,999.99	30,000.00	18.00
29	15,000.00 to 15,499.99	31,000.00	18.60
30	15,500.00 to 15,999.99	32,000.00	19.20
31	16,000.00 to 16,499.99	33,000.00	19.80
32	16,500.00 to 16,999.99	34,000.00	20.40
33	17,000.00 to 17,499.99	35,000.00	21.00
34	17,500.00 to 17,999.99	36,000.00	21.60
35	18,000.00 to 18,499.99	37,000.00	22.20
36	18,500.00 to 18,999.99	38,000.00	22.80
37	19,000.00 to 19,499.99	39,000.00	23.40
38	19,500.00 and over	40,000.00	24.00

REGULATION 686**under The Power Commission Act****WATER HEATERS**

1.—(1) Unless water heaters operated by electrical power are,

(a) equipped with thermostatic control; and

(b) installed in or on tanks that are thermally insulated with a minimum of one inch in thickness of glass-wool or rock-wool insulation or other material having at least the same heat-insulating capacity,

no municipality or municipal commission receiving electrical power from the Commission shall supply or use or permit to be supplied or used by any person the electrical power or any part thereof for the operation of water heaters installed or replaced after the 8th day of October, 1949.

(2) No person shall take from any municipality or municipal commission any electrical power received from the Commission and use it in a manner contrary to subsection 1.

(3) No person shall take any electrical power procured from the Commission and use it for the operation of water heaters in a manner contrary to subsection 1. R.R.O. 1960, Reg. 493, s. 1.

REGULATION 687

under The Prearranged Funeral Services Act

TRUST ACCOUNTS

1. Every funeral director who receives money under an agreement referred to in section 2 of the Act shall maintain a register in which he shall enter,

- (a) the date of the agreement;
- (b) the name and address of the person with whom the agreement was made;
- (c) the date on which the agreement is fully performed; and
- (d) an account showing the full details of the trust moneys received, deposited, disbursed or paid under a contract referred to in subsection 2 of section 2. O. Reg. 146/62, s. 1; O. Reg. 270/62, s. 1.

2.—(1) Subject to subsection 2, every funeral director shall maintain an account designated as a trust account in a chartered bank, credit union that is subject to *The Credit Unions Act*, loan or trust company or Province of Ontario Savings Office in which shall be deposited all moneys received by him under an agreement referred to in section 2 of the Act and he shall at all times keep such moneys separate and apart from any other moneys. O. Reg. 146/62, s. 2; O. Reg. 270/62, s. 2 (1); O. Reg. 150/67, s. 1, *revised*.

(2) A funeral director may pay out of the trust account all or any part of the trust money to an insurer licensed under *The Insurance Act* under a contract whereby, upon the death of the person for whom the money is held in trust, the insurer will pay to the funeral director the full amount of the money received in trust for or on behalf of the person. O. Reg. 270/62, s. 2 (2), *revised*.

3.—(1) Where a person, including a funeral director, partnership, firm or corporation, is the owner of more than one funeral business, there shall be maintained a separate trust account for each such funeral business.

(2) The funeral director who is responsible for the supervision and management of the business, whether as owner, employee or manager, shall be one of the signatories of the trust account and no money shall be paid out of the trust account unless the funeral director has signed the authority for the payment. O. Reg. 450/69, s. 1.

4. The Board or any member thereof or any person authorized by the Board may at any time inspect the register and the books, documents and records relating to the trust accounts of any funeral director. O. Reg. 146/62, s. 3, *revised*.

REGULATION 688

under The Pregnant Mare Urine Farms Act

GENERAL

1. In this Regulation,

- (a) "box stall" means a stall that is large enough to accommodate more than one horse and that is enclosed on all sides;
- (b) "horse stable" means a building, the whole or any part of which is used for the accommodation of horses on a P.M.U. farm;
- (c) "on production" means fitted or equipped with a harness or other equipment for the collection of urine on a P.M.U. farm;
- (d) "pony" means a horse of a breed that, when mature, does not normally attain a height in excess of fifty-eight inches measured at the withers;
- (e) "urine production season" means a period of time commencing at the time any pregnant mare on a P.M.U. farm is first placed on production and ending at the time that all pregnant mares that have been on production have been taken off production;
- (f) "weatherproof" means capable of excluding sun, wind, hail, rain and snow. O. Reg. 217/70, s. 1.

2.—(1) A licence as an operator of a P.M.U. farm shall be in Form 2.

(2) An application for a licence as an operator of a P.M.U. farm shall be made to the Director in Form 1.

(3) A licence as an operator of a P.M.U. farm shall be issued annually for the period from the 1st day of June in the year of issue to the 31st day of May in the following year.

(4) The fee for a licence as an operator of a P.M.U. farm is,

- (a) where the operator does not contract respecting the sale of pregnant mare urine produced on a farm operated by a person other than himself, \$10; or
- (b) where the operator contracts respecting the sale of pregnant mare urine produced on a farm operated by a person other than himself, \$50. O. Reg. 217/70, s. 2.

3.—(1) A licence as a P.M.U. contractor shall be in Form 4.

(2) An application for a licence as a P.M.U. contractor shall be made to the Director in Form 3.

(3) A licence as a P.M.U. contractor shall be issued annually for the period from the 1st day of June in the year of issue to the 31st day of May in the following year.

(4) The fee for a licence as a P.M.U. contractor is \$50. O. Reg. 217/70, s. 3.

4.—(1) The notice required to be given by the Director under subsection 5 of section 4 of the Act shall be in Form 5.

(2) The notice required to be served by the chairman of the Board under subsection 6 of section 4 of the Act shall be in Form 6.

(3) The notice of decision and the notice stating the right to an appeal required to be served by the Board under subsection 3 of section 11 of the Act shall be in Form 7. O. Reg. 217/70, s. 4.

5.—(1) The Director may issue a permit for the transfer of possession of foals that are less than ninety days old in Form 8.

(2) Every permit issued in Form 8 shall have written thereon the purpose for which possession of any foal, to which the permit applies, is being transferred and the name of the person to whom possession is to be transferred.

(3) The Director may revoke a permit in Form 8 where,

- (a) the permit holder transferred possession of a foal for a purpose or to a person not referred to in the permit;
- (b) in the opinion of the Director, any foals, possession of which is transferred, have, as a result of such transfer, been transported or accommodated in a manner that does not conform with the conditions referred to in section 6; or
- (c) the permit holder or any other person who subsequently has possession of the foals has been convicted of an offence against the Act, the regulations or any other Act relating to cruelty, maltreatment or neglect of animals.

(4) A permit in Form 8 expires with the 31st day of December in the year of issue. O. Reg. 217/70, s. 5.

6. Where a permit for the transfer of possession of foals is issued under section 5 and where, pursuant to such permit, foals are transported by any means within Ontario, the following requirements shall apply as a condition of such permit:

1. Every vehicle used for the transportation of foals shall be of sound construction and shall be properly maintained.
2. The floor of any stall or compartment of any vehicle in which foals are transported or of any ramp used in connection therewith shall be so constructed and maintained as to provide a surface free from any holes or cracks that are capable of causing injury to a foal.
3. Every stall or compartment of any vehicle used for the transportation of foals and every ramp used in connection therewith shall be free from any projections, holes or objects capable of causing injury to a foal.
4. Every stall or compartment of any vehicle used for the transportation of foals shall be supplied with amounts of clean bedding material adequate to provide for the comfort and safety of any foal or foals therein.
5. Where animals, other than foals that are less than ninety days old, are transported in the same vehicle as such foals, the vehicle shall be equipped with a well constructed internal barrier adequate to prevent such other animals from interfering with the foals.
6. Every stall or compartment of any vehicle used for the transportation of foals shall, during the time that it is so used, have an overhead covering adequate to prevent the direct entry of sun, rain, hail or snow into the stall or compartment.
7. Every person transporting a foal in any vehicle shall transport the foal to the person referred to in the permit without undue delay and shall supply the foal with adequate amounts of suitable feed and water at such intervals as may be necessary for the comfort and welfare of the foal. O. Reg. 217/70, s. 6.

7.—(1) Every P.M.U. farm operator shall provide horse stables that are of sound construction and that are so constructed and maintained as to provide weatherproof accommodation.

(2) Every P.M.U. farm operator shall provide, in connection with every horse stable on his farm, a yard that is properly fenced, adequately drained and of sufficient size for the exercising of horses and shall maintain the yard and fences in a good condition, free from equipment, machinery, debris and refuse of all kinds and in a condition suitable for the exercising of horses.

(3) All floors in every horse stable shall be properly maintained and shall be so constructed and maintained as to,

- (a) provide a surface free from any holes or cracks that are capable of causing injury to a horse; and
- (b) provide for adequate drainage.

(4) All ceilings and overhead supporting beams shall be solid and of a sufficient height to,

- (a) prevent injury to horses; and
- (b) permit horses, while standing, to stand in a normal posture at all times.

(5) All horse stables shall be so lighted as to permit effective observation of all horses at all times.

(6) All horse stables used for the accommodation of horses on a P.M.U. farm shall be so ventilated as to prevent excessive heat and humidity.

(7) Every horse stable shall have therein at least one box stall with a minimum floor area of 100 square feet, no wall of which shall be less than nine feet in length.

(8) No box stall shall be used for the accommodation of a pregnant mare while the mare is on production. O. Reg. 217/70, s. 7.

8.—(1) Every P.M.U. farm operator shall provide an individual stall for every pregnant mare that is on production.

(2) Every individual stall shall be of sufficient size to comfortably accommodate the horse and an attendant at any time.

(3) The partitions of every individual stall and of every box stall shall be soundly constructed and shall extend from the floor to a height sufficient to prevent interference between horses.

(4) Every individual stall and every box stall shall be maintained in a proper state of repair and free from any projections, holes or objects capable of causing injury to a horse.

(5) Every individual stall shall be equipped with a manger at a height suitable for the size of the horse in the stall. O. Reg. 217/70, s. 8.

9. All alleyways within a horse stable shall be of such width and shall be so maintained as to provide for,

- (a) the safe movement of horses and attendants; and
- (b) the proper transportation of feed and of waste materials. O. Reg. 217/70, s. 9.

10. Where horses on a P.M.U. farm are stabled in the same building as animals that are not horses, the building shall be so constructed as to prevent such other animals from entering the part of the building where the horses are stabled and to prevent the horses from entering the part of the building where the other animals are stabled. O. Reg. 217/70, s. 10.

11. Where horses are stabled in a box stall, no horse of any one of the following classes shall be stabled in the same box stall as a horse of any other of the following classes:

- 1. Weaned foals.
- 2. Yearlings.
- 3. Two-year old horses.
- 4. Horses older than two-year old horses.
- 5. Ponies.
- 6. Stallions. O. Reg. 217/70, s. 11.

12.—(1) No person shall use any equipment or harness on a pregnant mare in connection with the collection of urine therefrom unless the equipment or harness is of a design and construction that has been approved by the Director.

(2) Any equipment and harness used in connection with the collection of urine from a pregnant mare shall be so placed and maintained as to prevent chafing or the development of sores on any pregnant mare as a result of the use of such equipment or harness.

(3) Where any equipment or harness used in connection with the collection of urine from a pregnant mare interferes with the proper treatment or healing of any wound, disease or abnormal condition of the mare, the operator of the P.M.U. farm shall forthwith remove such equipment or harness and shall not allow or cause or permit the placing of any equipment or harness on the horse so long as such equipment or harness would interfere with the proper treatment or healing of the wound, disease or abnormal condition. O. Reg. 217/70, s. 12.

13. Every operator of a P.M.U. farm shall provide,

- (a) such amounts of suitable feed and water to every horse on the farm as are necessary to maintain every such horse in a state of good health; and
- (b) amounts of suitable bedding material in every horse stable adequate to provide for the comfort of the horses therein. O. Reg. 217/70, s. 13.

14.—(1) Every P.M.U. farm operator shall provide all utensils necessary for the proper handling of all food, water and waste materials in connection with the horses on his farm.

(2) Every P.M.U. farm operator shall provide all instruments, appliances and medicines necessary for the proper grooming, feeding, care and emergency treatment of horses on his farm. O. Reg. 217/70, s. 14.

15.—(1) The operator of a P.M.U. farm shall at all times take all necessary steps to provide adequate treatment for any wound, disease or abnormal condition of any horse on his farm.

(2) Where an inspector is of the opinion that any horse on a P.M.U. farm is suffering from any wound, disease or abnormal condition that requires treatment by a veterinarian, he may, by an order in Form 9, order the operator of the P.M.U. farm to have the animal examined by a veterinarian and upon being served with such an order the operator shall arrange forthwith to have the horse examined by a veterinarian as soon as may be practicable.

(3) Where a veterinarian has examined a horse on a P.M.U. farm and has advised the operator thereof that the horse is ill or injured and, in his opinion, is incapable of being so cured or healed as to live thereafter without suffering, the operator shall forthwith destroy the horse. O. Reg. 217/70, s. 15.

16.—(1) All horses on a P.M.U. farm shall be provided with as much exercise and grooming as is necessary for their welfare.

(2) The operator of a P.M.U. farm shall trim or cause to be trimmed the hooves of every horse on his farm as often as is necessary to prevent the hooves attaining a length that interferes with the well-being of the horse. O. Reg. 217/70, s. 16.

17.—(1) Every operator of a P.M.U. farm shall maintain all mangers and utensils used for feed and water in a clean and sanitary condition.

(2) Every operator of a P.M.U. farm shall maintain all floors, walls and ceilings in any horse stable free from accumulations of dirt or refuse.

(3) Every operator of a P.M.U. farm shall remove all manure from every horse stable on his farm

daily and, where such manure is stored or accumulated it shall not be stored or accumulated in the exercise yard referred to in subsection 2 of section 7.

(4) Where manure is stored or accumulated, the operator of the P.M.U. farm shall remove the manure and dispose of it as soon as practicable after the end of the urine production season and in any event prior to the commencement of the next urine production season.

(5) Every operator of a P.M.U. farm shall thoroughly clean and disinfect all horse stables after the end of every urine production season and in any event at least thirty days prior to the commencement of the next urine production season. O. Reg. 217/70, s. 17.

18. Where horses that are used or intended to be used in connection with a P.M.U. farm are transported in any vehicle,

- (a) the vehicle shall be of sound construction and shall be properly maintained;
- (b) the floor of any stall or compartment of the vehicle or of any ramp used in connection therewith shall be so constructed and maintained as to provide a surface free from any holes or cracks that are capable of causing injury to a horse;
- (c) every stall or compartment of the vehicle and any ramp used in connection therewith shall be free from any projections, holes or objects capable of causing injury to a horse;
- (d) every stall or compartment of the vehicle shall be supplied with amounts of clean bedding materials adequate to provide for the comfort and safety of any horse therein;
- (e) where animals other than horses are transported in the same vehicle, the vehicle shall be equipped with a well constructed internal barrier adequate to prevent such animals from interfering with the horses;
- (f) every stall or compartment of the vehicle shall, during the time that it is so used, have an overhead covering adequate to prevent the direct entry of sun, rain, hail or snow into the stall or compartment; and
- (g) the person transporting the horses shall transport them to their destination without undue delay and shall supply them with adequate amounts of suitable feed and water at such intervals as may be necessary for their comfort and welfare. O. Reg. 217/70, s. 18.

19. Every person who is the operator of a P.M.U. farm shall maintain a record of every mare that is on production on his farm and the record shall contain, in as accurate a form as may be practicable,

- (a) the colour and markings of the mare;
- (b) the height of the mare measured at the withers;
- (c) the approximate weight of the mare at the time the mare is placed on production;
- (d) the breed or type of the mare;
- (e) the age of the mare;
- (f) the name and address of the owner of the mare where the mare is not owned by the P.M.U. farm operator;
- (g) any treatment given or applied to the mare in respect of any wound, disease or abnormal condition and the date on which such treatment was given or applied;
- (h) any treatment given or applied to the mare in respect of parasites and the date on which such treatment was given or applied;
- (i) the date on which the mare was bred; and
- (j) the number of any tattoo on the mare. O. Reg. 217/70, s. 19.

20. Every person who is the operator of a P.M.U. farm shall maintain a record of every foal under ninety days of age that was foaled on the farm and the record shall contain, in as accurate a form as may be practicable,

- (a) the date of birth of the foal;
- (b) the sex of the foal;
- (c) the colour and markings of the foal;
- (d) where the foal is sold or otherwise disposed of, the manner of sale or disposition, the person, if any, to whom the foal was sold or disposed of and the date on which the foal was sold or disposed of; and
- (e) where the foal is sold, the bill of sale for the foal. O. Reg. 217/70, s. 20.

21. Every person who is the operator of a P.M.U. farm shall maintain a record of every horse, other than a mare that is on production, or a foal that is less than ninety days of age, that is on the farm and the record shall contain, in as accurate a form as may be practicable,

- (a) the colour and markings of the horse;
- (b) the breed or type of the horse;
- (c) the age of the horse;
- (d) the sex of the horse;
- (e) any treatment given or applied to the horse in respect of any wound, disease or abnormal condition and the date on which such treatment was given or applied; and
- (f) any treatments given or applied to the horse in respect of parasites and the date on which such treatment was given or applied. O. Reg. 217/70, s. 21.

22. Every person who is a P.M.U. contractor shall maintain a record of all pregnant mare urine in respect of which he has entered into any contract and such record shall contain the name of the operator of any P.M.U. farm on which such urine was produced and the date on which the urine was shipped from such P.M.U. farm. O. Reg. 217/70, s. 22.

23. Every person who is the operator of a P.M.U. farm and who has entered into a contract respecting the sale of pregnant mare urine produced on a farm operated by a person other than himself, shall, in addition to maintaining the records required by sections 19, 20 and 21, maintain the records required of a P.M.U. contractor by section 22. O. Reg. 217/70, s. 23.

Form 1

The Pregnant Mare Urine Farms Act

APPLICATION FOR LICENCE AS AN OPERATOR OF A P.M.U. FARM

To: The Director, Veterinary Services Branch,
Department of Agriculture and Food,
Parliament Buildings,
TORONTO, Ontario.

.....
(name of applicant)

REGULATION 689

under The Private Hospitals Act

GENERAL

MANAGEMENT

1. No private hospital shall conduct a training school for nurses or issue any diploma for nursing or practical nursing. R.R.O. 1960, Reg. 494, s. 1.

2. No private hospital shall engage in, or permit its name to be used in or in connection with, any undertaking, occupation, scheme or business other than that for which it is licensed. R.R.O. 1960, Reg. 494, s. 2.

3. Unless under the active care of a legally qualified medical practitioner, no patient shall be admitted to or treated in any private hospital. R.R.O. 1960, Reg. 494, s. 3.

4. Every private hospital shall submit to the Commission for its approval any publication, writing, advertising or other material, including any letter-heads or cards, that is intended or likely to attract the attention of the public, and the Commission may refuse to approve any material that, in its opinion, is not in the interest of the public. R.R.O. 1960, Reg. 494, s. 4.

5. No private hospital shall admit any person as a patient who may constitute a danger to other patients. R.R.O. 1960, Reg. 494, s. 5.

6. The superintendent of a private hospital shall not physically restrain any patient or cause or permit any patient to be physically restrained. R.R.O. 1960, Reg. 494, s. 6.

7. Every order for treatment shall be in writing, either on the treatment sheet or in the order book provided for the purpose and shall be signed by a legally qualified medical practitioner. R.R.O. 1960, Reg. 494, s. 7.

8. Within thirty-six hours of every patient's admission to hospital, a complete history, including a report of physical examination and provisional diagnosis, of the patient shall be written. R.R.O. 1960, Reg. 494, s. 8.

9. The attending physician is responsible for the preparation of a complete medical record, including identification, complaint, present history, family history, physical examination, special reports including reports of consultations, laboratory examinations, X-ray, provisional diagnosis, medical or surgical treatment, pathological findings, progress notes, reports of operations and anaesthesia, final

diagnosis, condition on discharge and follow-up record. R.R.O. 1960, Reg. 494, s. 9.

10. The superintendent of every private hospital shall retain and preserve in a place of safe keeping all records relating to every patient of the hospital. R.R.O. 1960, Reg. 494, s. 10.

OPERATIONS

11.—(1) Any tissues or sections of tissues removed during an operation or curettage shall be immediately set aside by the surgeon operating and, together with a short history of the case and a statement of the findings during the operation, shall be forwarded by the superintendent to a laboratory approved by the Commission for examination, but any tonsil, appendix, tooth, frenum, hemorrhoid, finger, toe, hand, foot, arm or leg removed or amputated shall not be so forwarded unless the surgeon desires a special examination.

(2) The pathological report received from the laboratory shall become part of the patient's case record. R.R.O. 1960, Reg. 494, s. 11.

12. No surgical operation shall be performed on any patient in a private hospital unless a consent in writing has been signed by the patient or his legally qualified representative but, where the patient is unable to give consent and where, in the opinion of the surgeon, delay would endanger the patient's life, the consent is not required. R.R.O. 1960, Reg. 494, s. 12.

13.—(1) Before any anaesthetic is administered to a patient and before any surgical operation is performed on a patient, a complete history, physical examination and a written preoperative diagnosis shall be furnished by the operating surgeon or any legally qualified medical practitioner authorized by him.

(2) Where the surgeon is of the opinion that the delay that would be caused in obtaining the information required by subsection 1 would be detrimental to the patient, he shall so state in writing but, in such event, the preoperative diagnosis shall be furnished in writing signed by the operating surgeon. R.R.O. 1960, Reg. 494, s. 13.

14. Every operation performed in a private hospital shall be fully described in writing by the surgeon and the written description shall form part of the patient's record. R.R.O. 1960, Reg. 494, s. 14.

15. The anaesthetist shall be a legally qualified medical practitioner and shall furnish a record showing the type of anesthetic given, amount used, length of anaesthesia and the condition of the patient after the operation. R.R.O. 1960, Reg. 494, s. 15.

16. Where a patient is admitted in a condition,

- (a) of abortion;
- (b) of threatened abortion;
- (c) where therapeutic abortion is indicated; or
- (d) where, for any reason, emptying of the uterus is indicated,

two legally qualified medical practitioners shall examine the patient and shall make and sign records of their findings and recommendations before any operation is begun. R.R.O. 1960, Reg. 494, s. 16.

17. Where the death of a patient in a private hospital results either directly or indirectly from pregnancy, the superintendent shall, within twenty-four hours, report the death upon the prescribed form to the Commission. R.R.O. 1960, Reg. 494, s. 17.

18. Within twenty-four hours of any curettage or emptying of the uterus of a patient, the superintendent shall report the curettage or emptying of the uterus in writing to the Commission, giving the reason therefor and the names of the operating surgeon and consultants. R.R.O. 1960, Reg. 494, s. 18.

19. No major surgical procedure shall be performed in any private hospital that does not provide sterilization, operating and other equipment to the satisfaction of the inspector. R.R.O. 1960, Reg. 494, s. 19.

20. No surgical procedure shall be attempted within a private hospital without sufficient qualified assistants. R.R.O. 1960, Reg. 494, s. 20.

CLASSIFICATION OF PRIVATE HOSPITALS

21.—(1) A private hospital shall be classified under one of the following classes:

- (a) a medical hospital;
- (b) a surgical hospital;
- (c) a maternity hospital;
- (d) a medical and surgical hospital;
- (e) a medical and maternity hospital;
- (f) a general hospital;

(g) a hospital for nervous ailments; or

(h) a hospital for alcoholic patients.

(2) A medical private hospital classification may be qualified by the Commission as,

- (a) an active treatment medical hospital;
- (b) a medical hospital for convalescent patients; or
- (c) a medical hospital for chronically ill patients.

(3) A surgical private hospital classification may be qualified by the Commission as,

- (a) a general surgical hospital,
 - (i) restricted to minor surgery, or
 - (ii) restricted to minor and intermediate surgery, or
 - (iii) not restricted; or
- (b) a specialty surgical hospital with the type of surgical specialty indicated to which surgery performed in the hospital shall be restricted.

(4) When a licence is issued or renewed, the licence shall state the class of hospital for which the licence is issued or renewed.

(5) A private hospital shall not admit, except in the case of an emergency, any patient who is not in medical need of the type of treatment that is usually provided by a hospital of the class stated in the licence for the hospital. O. Reg. 159/62, s. 1.

HOSPITALS FOR ALCOHOLIC PATIENTS

22.—(1) Any hospital licensed as a hospital for alcoholic patients shall admit only patients who require treatment for alcoholism.

(2) No person shall be admitted as a patient in the hospital unless a legally qualified medical practitioner certifies that the person requires treatment for alcoholism and is a suitable subject for treatment in the hospital and that the treatment is advisable.

(3) The register kept by the hospital shall show the name and address of a legally qualified medical practitioner who has charge of the treatment of every patient.

(4) The medical practitioner in charge of any patient shall see the patient at least twice in each week during the time that the patient is in the hospital, and the medical practitioner shall make in

the records of the hospital an entry showing the condition of the patient at the time of each visit. R.R.O. 1960, Reg. 494, s. 22.

HOSPITALS FOR NERVOUS AILMENTS

23.—(1) In this section, "private hospital for nervous ailments" means a private hospital,

(a) used for the purpose of diagnosing and treating persons suffering from,

(i) neuroses, or

(ii) psychosomatic disorders and alcoholism; and

(b) provided with,

(i) equipment and facilities, and

(ii) the services of a legally qualified medical practitioner who holds a specialist's certificate in psychiatry issued by the Royal College of Physicians and Surgeons of Canada,

to render the services referred to in clause a.

(2) The Commission may issue a licence for a private hospital for nervous ailments.

(3) The licence shall be in Form 1.

(4) A private hospital for nervous ailments may be used for the purpose of diagnosing the ailments of and treating the persons referred to in clause a of subsection 1. R.R.O. 1960, Reg. 494, s. 23.

LICENCES

24. Every licence issued or renewed under the Act shall, unless sooner suspended or revoked, expire on the 31st day of December in the year for which such licence was issued or renewed. R.R.O. 1960, Reg. 494, s. 24.

HOSPITAL EMPLOYEES

25. The hospital staff shall consist of such graduate nurses, servants and employees as are necessary to give adequate nursing care to the number and type of patients for which the licence is granted. R.R.O. 1960, Reg. 494, s. 25.

26.—(1) For the purpose of this Regulation, hospital employees are divided into Group 1 and Group 2.

(2) Group 1 is composed of,

(a) graduate nurses;

(b) interns;

(c) graduate physiotherapists;

(d) graduate occupational therapists;

(e) nursing assistants, nurses' assistants, ward maids and ward orderlies;

(f) laboratory technicians; and

(g) X-ray technicians.

(3) Group 2 is composed of all hospital employees not listed in subsection 2. R.R.O. 1960, Reg. 494, s. 26.

27.—(1) Every Group 1 employee shall receive a tuberculin test and an X-ray film of the lungs within thirty days of employment.

(2) Every Group 1 employee who has a negative tuberculin reaction shall receive an additional tuberculin test within six months of the date of the first test and shall receive an additional test within six months of the date of each test, where the result of the test is negative.

(3) Employees referred to in subsection 2 shall receive an X-ray film of the lungs annually.

(4) Every Group 1 employee who is found to have a positive tuberculin reaction shall not be required to take another tuberculin test but shall receive an X-ray film of the lungs forthwith and every six months thereafter.

(5) Every Group 1 employee whose X-ray film shows evidence of abnormal shadowing shall forthwith receive further examination to determine the nature of the disease.

(6) No tests other than the intradermal (Mantoux) test, using one-twentieth of a milligram of Old Tuberculin, or the patch test shall be used in the test given under this section.

(7) Where an employee has received a tuberculin test and an X-ray film of the lungs within four months before the date of employment, the record of the result of the test and film may be accepted in lieu of the test and film required by subsection 1. R.R.O. 1960, Reg. 494, s. 27.

28.—(1) Every Group 2 employee shall receive an X-ray film of the lungs within thirty days of employment and annually thereafter.

(2) Where an employee has received a tuberculin test and an X-ray film of the lungs within four months before the date of employment, the record of the result of the test and film may be accepted in lieu of the X-ray film required by subsection 1.

(3) Every Group 2 employee whose X-ray film shows evidence of abnormal shadowing shall receive

forthwith further examination to determine the nature of the disease. R.R.O. 1960, Reg. 494, s. 28.

29. No employee found to be suffering from active tuberculosis shall be permitted to work in the hospital, and the superintendent shall report the case within twenty-four hours to the medical officer of health of the municipality in which the employee resides. R.R.O. 1960, Reg. 494, s. 29.

30. Where any legally qualified medical practitioner believes or suspects that any person admitted to the hospital is suffering from tuberculosis, he shall notify the superintendent forthwith. R.R.O. 1960, Reg. 494, s. 30.

31. No employee shall be detailed to care for a patient believed or suspected to be suffering from tuberculosis until the employee has received instruction as to the necessary technique to protect himself and others against infection and, where possible, the employee so detailed shall be a reactor to tuberculin. R.R.O. 1960, Reg. 494, s. 31.

32. Upon ceasing to be employed, every employee who has been employed for four months or more shall receive an X-ray film of the lungs. R.R.O. 1960, Reg. 494, s. 32.

33.—(1) The superintendent shall keep a permanent record of all examinations and tests of every employee of the hospital and if requested shall send a copy of every record, including the X-ray films, to the Workmen's Compensation Board or to the Commission.

(2) Any officer authorized by the Commission or by the Chairman of the Workmen's Compensation Board may inspect the medical records of employees at any time. R.R.O. 1960, Reg. 494, s. 33.

34. The hospital is responsible for the examination of the employees and any expenses thereby incurred. R.R.O. 1960, Reg. 494, s. 34.

35. Where an employee shows evidence of tuberculosis, the superintendent shall give written notice thereof and a complete report of the medical findings within seven days of the time of diagnosis to the Workmen's Compensation Board. R.R.O. 1960, Reg. 494, s. 35.

36. Nothing contained in sections 26 and 35 prevents an employee from being employed in a hospital when his disease is inactive. R.R.O. 1960, Reg. 494, s. 36.

REGULATION 690

under The Private Investigators and Security Guards Act

GENERAL

LICENCES

1.—(1) A licence to engage in the business of providing private investigators shall be in Form 1.

(2) A licence to engage in the business of providing security guards shall be in Form 2.

(3) A licence to engage in the business of providing private investigators and security guards shall be in Form 3.

(4) A licence to act as a private investigator or security guard, as the case may be, shall be in Form 4.

(5) A licence to act as a private investigator and security guard shall be in Form 5.

(6) An application for a licence in Form 1, Form 2 or Form 3 or a renewal thereof, shall be in Form 6.

(7) An application for a licence in Form 4 or Form 5 or a renewal thereof, shall be in Form 7.

(8) An application in Form 6 or Form 7, other than an application for renewal, shall be accompanied by,

(a) a full set of fingerprints; and

(b) two copies of a photograph 1½ inches by 1⅝ inches,

of each person for whom application for a licence is made and, where the applicant is a partnership or a corporation, of each partner or each director of the corporation. O. Reg. 331/65, s. 1.

2.—(1) A temporary licence issued under subsection 1 of section 9 of the Act shall be in Form 8 and shall terminate on the date stated in the licence.

(2) A temporary licence issued under subsection 1 of section 9 of the Act shall be in Form 9 and shall terminate on the date stated in the licence. O. Reg. 331/65, s. 2.

3.—(1) Fees payable to the Registrar are as follows:

1. Upon application for a licence in Form 1 or a renewal thereof..... \$300

2. Upon application for a licence in Form 2 or a renewal thereof..... \$300

3. Upon application for a licence in Form 3 or a renewal thereof..... \$600

4. Where the applicant for a licence in Form 1 or Form 2 has one or more branch offices, for each branch office.. \$50

5. Where the applicant for a licence in Form 3 has one or more branch offices, for each branch office..... \$75

6. Upon application for a licence in Form 4 to act as a private investigator or a renewal thereof..... \$10

7. Upon initial application in any licence year for a licence in Form 4 to act as a security guard or a renewal thereof.. \$5

8. Upon subsequent application in the same licence year for a licence in Form 4 to act as a security guard.... \$2

9. Upon application for a licence in Form 5 or a renewal thereof, for each licence..... \$15

(2) Where a licence is issued after the 30th day of September in any year, the fee payable is one-half of the fee prescribed for the licence in subsection 1. O. Reg. 331/65, s. 3; O. Reg. 195/66, s. 1.

4.—(1) The bond required by section 5 of the Act shall be in Form 10, 11 or 12, as the case may be.

(2) The classes of negotiable securities that may be accepted as collateral security for a bond are,

(a) bonds issued or guaranteed by Canada; or

(b) bonds issued or guaranteed by Ontario.

(3) The amount of the bond shall be \$3000. O. Reg. 331/65, s. 4.

5.—(1) Where a person who gives a bond, or any of his employees, is convicted of,

(a) an offence under the Act or the regulations; or

(b) an offence under the *Criminal Code* (Canada) committed while acting as a private investigator or security guard,

the Commissioner may direct that the bond be forfeited.

(2) Upon a direction being made under subsection 1, the bond is forfeited and the amount of the bond becomes due and owing as a debt due to the Crown in right of Ontario.

(3) A bond is forfeited and the amount thereof becomes due and owing as a debt due to the Crown in right of Ontario where a judgment for the recovery of money paid for services not performed or based on a finding of fraud, conversion, assault, libel or trespass committed while acting as a private investigator or security guard has been entered against the person giving the bond, or any of his employees, and the judgment has become final. O. Reg. 331/65, s. 5.

6.—(1) Where a bond secured by the deposit of collateral security is forfeited, the Treasurer of Ontario and Minister of Economics may sell the security at the current market price.

(2) The Treasurer of Ontario and Minister of Economics may,

- (a) assign any bond forfeited under section 5 and transfer the collateral security, if any;
- (b) pay over any money realized from the sale of the collateral security,

to any judgment creditor of the person bonded in respect of claims arising out of the circumstances under which the bond was forfeited, or to the Accountant of the Supreme Court in trust for any person who becomes such judgment creditor. O. Reg. 331/65, s. 6.

7.—(1) A bond may be cancelled by any person bound thereunder by giving to the Registrar and to the person bonded at least two months notice in writing of intention to cancel and the bond shall be deemed to be cancelled on the date stated in the notice, which date shall be not less than two months after the receipt of the notice by the Registrar.

(2) For the purpose of every act and omission occurring during the period that the person bonded is licensed under the Act or the period prior to cancellation under subsection 1, every bond shall continue in force and the collateral security, if any, shall remain on deposit for a period of two years after the lapse or cancellation of the licence to which the bond relates, or the cancellation of the bond, whichever occurs first.

(3) Where a bond has been forfeited or cancelled and the Treasurer of Ontario and Minister of Economics has not received notice in writing of any claim against the proceeds of the bond or such part as remains in his hands within two years of the forfeiture or cancellation, he may pay the proceeds or part remaining to any person who made a payment under the bond. O. Reg. 331/65, s. 7.

8.—(1) The Registrar shall issue an identification card in Form 13 to each person to whom he issues a licence in Form 4.

(2) The Registrar shall issue an identification card in Form 14 to each person to whom he issues a licence in Form 5. O. Reg. 331/65, s. 8.

9. A security guard shall at all times while on duty display on his chest a fabric patch bearing the words "Security Guard" in clearly legible letters not less than three-eighths of an inch in height and white in colour. O. Reg. 331/65, s. 9.

REGULATION 691

under The Professional Engineers Act

GENERAL

EXAMINATIONS

1. Examinations mentioned in section 11 of the Act shall be held during the month of April in each year and in such other months, if any, as the council may from time to time determine, at such examination centres as the council shall from time to time determine and the time and place for each such examination shall be determined by the registrar. O. Reg. 449/69, s. 1.

2. The registrar shall be responsible for arranging for the holding of examinations. O. Reg. 449/69, s. 2.

3.—(1) For the purposes of this section, “academic year” means the period from the 1st day of September in any year to the completion of the examination sessions in April of the next following year.

(2) An applicant for membership shall submit himself for the first examination which he is required to pass within the first two academic years following notification to him by the registrar of the examinations which he is required to pass.

(3) An applicant for membership must satisfy all examination requirements within a further five academic years.

(4) If an applicant for membership does not appear for examination or does not satisfy all examination requirements within the terms provided for in subsections 2 and 3, the application of such applicant shall be withdrawn by the registrar and shall then be subject to the provisions of section 7. O. Reg. 449/69, s. 3.

4.—(1) Examination papers shall be marked on a percentage basis by examiners appointed by the board of examiners and in accordance with policies to be determined by the board of examiners.

(2) A passing mark on an examination shall be 50 per cent. O. Reg. 449/69, s. 4.

5. The results of examinations held in April shall be mailed on or before the 30th day of June next following to the candidates who submitted themselves for such examinations. O. Reg. 449/69, s. 5.

6. If a candidate,

(a) has used notes or other aids during an examination where notes or aids are not permitted; or

(b) employs another person to write an examination on his behalf,

the council may direct that the application of such candidate be refused or make such other direction as in the circumstances and in the opinion of the council is just. O. Reg. 449/69, s. 6.

RE-APPLICATION

7.—(1) A person whose application for membership has been withdrawn under the provisions of section 3 may re-apply for admission as a member.

(2) Any such applicant shall pay all such fees payable on application and all such examination fees as would be payable if he had made no previous application and shall be entitled to no credit with respect to fees by reason of any fees paid on his previous application.

(3) All provisions of this Regulation with respect to applications for membership shall apply to a re-application in the same manner and to the same extent as upon an initial application. O. Reg. 449/69, s. 7.

PROFESSIONAL MISCONDUCT

8. For the purposes of the Act and the regulations, “professional misconduct” means,

(a) gross negligence;

(b) infamous, disgraceful or improper conduct in a professional respect, including any violation of the code of ethics prepared and published by the council pursuant to section 9 of the Act;

(c) incompetence;

(d) conviction of a serious criminal offence by a court of competent jurisdiction;

(e) continued breach of the regulations or by-laws of the Association. O. Reg. 449/69, s. 8.

9. For the purposes of section 8,

(a) “gross negligence” means any act or omission in the carrying out of work of a professional engineer that shows a reckless or deliberate disregard of or indifference to the rights or safety of others;

(b) "incompetence" means lack of adequate knowledge of, or continued neglect or failure to exercise, the ordinary skills of a professional engineer;

(c) "serious criminal offence" means,

(i) any act committed in Canada that is punishable on indictment under the *Criminal Code* (Canada), and

(ii) any act that if committed in Canada would be punishable on indictment under the *Criminal Code* (Canada),

but does not include any political offence committed outside Canada or any offence that does not affect the fitness of a professional engineer to practice his profession. O. Reg. 449/69, s. 9.

FORMS

10. A summons under subsection 10 of section 25 of the Act shall be in Form 1 with such variations as the circumstances may require. O. Reg. 449/69, s. 10.

Form 1

The Professional Engineers Act

SUMMONS

Re:

To:

You are summonsed and commanded to attend before the Council of the Association of Professional Engineers of the Province of Ontario or a com-

mittee thereof at a hearing to be held at
in the of on
..... day, the day of

19.... at the hour of o'clock in the
noon, and so on from day to day until the hearing
is concluded, to give evidence on oath touching the
matters in question in the proceedings and to bring
with you and produce at the time and place.....

.....
.....

Failure to obey this summons will render you
liable to imprisonment on an application to the
Supreme Court of Ontario.

Dated, this day of
19....

Issued by:

(signature)

(office)*

Association of Professional En-
gineers of the Province of Ontario.

*The foregoing summons may be issued by the
President, a Vice-President, the Immediate Past
President or the Registrar of the Association of
Professional Engineers of the Province of Ontario.

O. Reg. 449/69, Form 1.

REGULATION 692

under The Provincial Courts Act

GENERAL

INTERPRETATION

1. In this Regulation,

- (a) "Court clerk" means the administrator or supervising clerk of a Provincial Court;
- (b) "Inspector" means the Inspector of Legal Offices appointed under *The Judicature Act*;
- (c) "page" means a page containing at least 500 words in forty-seven single-spaced typewritten lines. O. Reg. 519/70, s. 1.

INSPECTION

2. The Inspector shall inspect the offices, record books and other matters relating to the work of judges at such times as he deems proper and expedient. O. Reg. 519/70, s. 2.

RECORDS

3. Every judge shall keep a record in the form prescribed by the Inspector and shall record therein every case disposed of by the judge. O. Reg. 519/70, s. 3.

4. Every judge shall cause all papers, documents and exhibits filed in or relating to any case entered in the record book to be kept filed in his office or in a vault or other place of safekeeping except such papers, documents and exhibits as in his opinion it is not necessary to retain and preserve. O. Reg. 519/70, s. 4.

RETURNS

5. Every court clerk shall transmit to the Inspector such particulars with reference to the business of his court as the Inspector may require, and the information shall be transmitted in the form and at the times prescribed by the Inspector. O. Reg. 519/70, s. 5.

6. All money to which the Province is entitled shall, by cheque payable to the Treasurer of Ontario, be transmitted to the Inspector monthly, or at more frequent intervals as required by the Inspector. O. Reg. 519/70, s. 6.

STENOGRAPHIC REPORTERS

7. Shorthand notes of evidence shall be transcribed on good quality paper, being paper approximately 11 inches long, 8½ inches wide and 16M weight, with a margin on the left side and every tenth line numbered consecutively from top to bottom. O. Reg. 519/70, s. 7.

8. In all transcripts of *viva voce* evidence, a question shall be preceded by the letter "Q", and the answer, which shall continue on the line on which the question concludes, by the letter "A", with no double spacing between an answer and the following question to the same witness by the same person. O. Reg. 519/70, s. 8.

9. The transcript of evidence shall contain an index showing the name of each witness with a page reference to where his examination in chief commences and his cross-examination commences, and shall contain a list of the exhibits and their numbers and, where it is ordered in connection with an appeal, it shall contain a transcript of the reading of the charge, the plea, the putting of the accused to his election, the election, the remarks of the judge on passing sentence, and the sentence. O. Reg. 519/70, s. 9.

10. Where the transcript of evidence consists of twenty or more pages, it shall be bound on the left side in book form with covers approximately 20M weight and, where it consists of fewer than twenty pages, it shall be similarly bound with or without covers. O. Reg. 519/70, s. 10.

11. Stenographic reporters are entitled to the following fees for copies of shorthand evidence;

- 1. For a copy of the evidence to be filed in an appeal to the Court of Appeal or the Divisional Court for the purpose of mechanical reproduction, \$1.25 per page.
- 2. For copies other than a copy referred to in paragraph 1, including evidence to be filed in the county court, preliminary inquiries and oral judgements, other than for use in appeal books, \$1.25 per page for the first copy and 40 cents a page for each additional copy. O. Reg. 519/70, s. 11.

REGULATION 693

under The Provincial Courts Act

REMUNERATION OF JUDGES

1. The salary range for a judge in a position referred to in column 1 of the Schedule shall be the salary range set opposite thereto in column 2. O. Reg. 432/69, s. 1, *amended*.

2. The Minister shall by order fix the annual salary of each judge in a position referred to in column 1 of the Schedule in accordance with the salary range set opposite thereto in column 2. O. Reg. 432/69, s. 2.

3. The remuneration of a part-time judge shall be fixed by the Minister. O. Reg. 432/69, s. 3.

Schedule

ITEM	COLUMN 1	COLUMN 2		
	Position	Salary Range		
		1	2	3
1	Chief Judge of Provincial Courts	\$24,000	\$25,500	\$27,000
2	Senior Provincial Judge	\$22,500	\$24,000	\$25,500
3	Provincial Judge, being a member of the bar of Ontario	\$21,000	\$22,500	\$24,000
4	Provincial Judge, not being a member of the bar of Ontario, who possesses at least 5 years experience on the Bench of the Provincial Courts	\$21,000	\$22,500	\$24,000
5	Provincial Judge, not being a member of the bar of Ontario, who possesses less than 5 years experience on the Bench of the Provincial Courts	\$18,000	\$19,500	\$21,000

O. Reg. 94/70, s. 1.

REGULATION 694

under The Provincial Land Tax Act

GENERAL

RATE OF TAX

1. The rate of tax applicable to land liable to taxation is $1\frac{1}{2}$ per cent per annum. O. Reg. 343/62, s. 1.

COSTS

2. The costs to be paid under subsection 1 of section 33 of the Act are \$20. O. Reg. 343/62, s. 2.

EXEMPTIONS

3. Land,

(a) on which the owner thereof resides and from which he derives his chief source of income by farming; or

(b) in the geographic townships of Campbell, Dawson, Mills and Robinson in the Territorial District of Manitoulin,

is exempt from taxation under the Act. O. Reg. 343/62, s. 3.

4. A caution filed under subsection 1 of section 33 of the Act shall be in,

(a) Form 1 where the caution is filed in a land titles office; and

(b) Form 2 where the caution is filed in a registry office. O. Reg. 233/63, s. 1.

5. A form of return under subsection 3 of section 9 of the Act shall be in Form 3. O. Reg. 339/64, s. 1.

6. A complaint under subsection 1 of section 15 of the Act shall be in Form 4. O. Reg. 190/67, s. 1.

APPENDIX A

Schedule 1

ALGONQUIN PROVINCIAL PARK

1. In the Provisional County of Haliburton and the Territorial District of Nipissing and described as follows:

Beginning at the northeasterly angle of the geographic Township of FitzGerald in the Territorial District of Nipissing; thence southerly along the easterly boundary of that geographic township to the northwesterly angle of the geographic Township of Edgar; thence easterly along the northerly boundary of that geographic township to the northeasterly angle thereof; thence southerly along the easterly boundary of that geographic township to the northwesterly angle of the geographic Township of Bronson; thence easterly along the northerly boundary of that geographic township to the northeasterly angle thereof; thence southerly along the easterly boundaries of the geographic townships of Bronson, Stratton and Master to the southeasterly angle of the last-mentioned geographic township; thence westerly along the southerly boundaries of the geographic townships of Master, Guthrie and Clancy to the intersection of the southerly production of the westerly limit of Lot 23 in Concession I in the geographic Township of Clancy; thence northerly along that production and the westerly limit of that lot to the northwesterly angle thereof; thence easterly along the northerly limit of that lot to the southwesterly angle of Lot 22 in Concession II in that geographic township; thence northerly along the westerly limit of that lot and Lot 22 in Concession III in that geographic township to the northwesterly angle of the last-mentioned lot; thence westerly along the northerly limits of lots 23 to 34, both inclusive, in Concession III in that geographic township to the northwesterly angle of the last-mentioned lot; thence southerly along the westerly limit of that lot and its southerly production to the centre line of the allowance for road between concessions II and III in that geographic township; thence westerly along that centre line to its intersection with the northerly pro-

duction of the westerly limit of Lot 35 in Concession II in that geographic township; thence southerly along that production and along the westerly limit of that lot 40 chains and 50 links; thence westerly parallel to the centre line of the allowance for road between concessions II and III in front of lots 36 and 37 in that geographic township to the westerly limit of that geographic township; thence northerly along that limit to the southeasterly angle of the geographic Township of Preston; thence westerly along the southerly boundary of that geographic township to a point 10 chains and 95 links measured easterly and along that southerly boundary from its intersection with the northerly production of the centre line of the allowance for road between lots 15 and 16 in Concession XIV in the geographic Township of Airy; thence south 14° 35' west 531 chains and 16 links, more or less, to the westerly boundary of that geographic township; thence southerly along that boundary to the southwesterly angle of that geographic township; thence south 69° 8' west 1041 chains and 85 links through the Provisional County of Haliburton; thence south 68° 26' west 302 chains and 95 links to the southwesterly angle of that part of the townships of Sherborne, McClintock, Livingstone, Lawrence and Nightingale in that provisional county which was formerly the Township of Lawrence; thence north 20° 52' west 707 chains, more or less, to the southerly boundary of the geographic Township of Peck in the Territorial District of Nipissing; thence westerly along the southerly boundaries of the geographic townships of Peck and Finlayson to the intersection with the southerly production of the centre line of the allowance for road between lots 20 and 21 in the last-mentioned geographic township; thence northerly along that centre line to the northerly boundary of the geographic Township of Finlayson; thence westerly along that boundary to its intersection with the southerly production of the centre line of the allowance for road between lots 15 and 16 in the geographic Township of McCraney; thence northerly along the centre line of the allowance for road between lots 15 and 16 in the geographic townships of McCraney, Butt and Paxton to the northerly boundary of the last-mentioned geographic township; thence easterly along the northerly boundary of that geographic township to its intersection with the southerly production of the centre line of the allowance for road between lots 20 and 21 in the geographic Township of Ballantyne; thence northerly along that centre line to the northerly boundary of that geographic township; thence easterly along the northerly boundaries of the geographic townships of Ballantyne and Wilkes to the north-easterly angle of the last-mentioned geographic township; thence easterly along the production of the northerly boundary of that geographic township to the westerly boundary of the geographic Township of

Pentland; thence northerly along that boundary of that geographic township to the northwesterly angle thereof; thence easterly along the northerly boundary of that geographic township to the northeasterly angle thereof; thence southerly along the easterly boundary of that geographic township to its intersection with the westerly production of the centre line of the allowance for road between concessions X and XI in the geographic Township of Boyd; thence easterly along that centre line to the easterly boundary of that geographic township; thence southerly along that boundary to the northwesterly angle of the geographic Township of Deacon; thence easterly along the northerly boundary of that geographic township to the northeasterly angle thereof; thence southerly along the easterly boundary of that geographic township to the northwesterly angle of the geographic Township of FitzGerald; thence easterly along the northerly boundary of that geographic township to the place of beginning;

Excepting therefrom in the Territorial District of Nipissing:

(a) Lot 21 in Concession V in the geographic Township of Ballantyne; and

(b) in the geographic Township of Pentland,

(i) Broken Lot 8 in Concession XIV,

(ii) Broken Lot 8 in Concession XV, and

(iii) the right of way and station grounds of the Canadian National Railways.

2. The public lands in that part of the Township of Eyre in the Provisional County of Haliburton described as follows:

Beginning at the northeasterly corner of the Township of Eyre; thence southerly along the easterly boundary thereof 3 miles and 0.22 chains, more or less, to the intersection with the production easterly of the northerly limit of the allowance for road between concessions X and XI in the said township; thence westerly along that production and the northerly limit of the allowance for road between concessions X and XI a distance of 4 miles and 64.62 chains, more or less, to the southwesterly corner of Lot 16 in Concession XI; thence northerly along the easterly limit of the allowance for road between lots 15 and 16 in concessions XI, XII, XIII and XIV and its production northerly a distance of 3 miles and 1.77 chains, more or less, to the northerly boundary of the Township of Eyre; thence easterly along the northerly boundary of the Township of Eyre a distance of 4 miles and 64.68 chains, more or less, to the place of beginning. R.R.O. 1960, Reg. 498, App. A. Sched. 1; O. Reg. 73/63, s. 1.

Schedule 2

IPPERWASH PROVINCIAL PARK

Part of Lot 8, in Concession A, according to Registered Plan No. 23 and land lying under the waters of Lake Huron in front thereof in the Township of Bosanquet in the County of Lambton and described as follows:

Beginning at a point in said Lot 8, at a distance of 66 feet measured north $28^{\circ} 19'$ west from a point in the southerly limit of said Lot 8, distant 66 feet measured westerly along the said southerly limit from the southeasterly corner of said Lot 8; thence south $61^{\circ} 17'$ west 2551.77 feet; thence north $28^{\circ} 21'$ west 1211.53 feet; thence north $51^{\circ} 55'$ east 66.96 feet; thence north $28^{\circ} 21'$ west along a fence 482.6 feet, more or less, to the high-water mark along the southerly shore of Lake Huron; thence continuing north $28^{\circ} 21'$ west 600 feet; thence in a general easterly direction parallel to the said high-water mark and distant 600 feet in perpendicular width therefrom to the intersection with a line drawn north $28^{\circ} 19'$ west from the point of beginning; thence south $28^{\circ} 19'$ east to the intersection with the high-water mark along the northerly shore of Lake Huron; thence continuing south $28^{\circ} 19'$ east 1620.0 feet, more or less, to the place of beginning. O. Reg. 110/64, s. 1.

Schedule 3

LAKE SUPERIOR PROVINCIAL PARK

In the Territorial District of Algoma and described as follows:

Beginning at a point in the high-water mark of Agawa Bay of Lake Superior where it is intersected by the southerly boundary of the geographic Township of Tp. 28, Range 16; thence easterly along the southerly boundary of that geographic township to the intersection with a line drawn parallel to and distant 500 feet in perpendicular distance measured westerly from the westerly limit of that part of the King's Highway known as No. 17; thence southerly along that parallel line to the intersection with a line drawn west astronomically from the intersection of the high-water mark on the northerly shore of the Montreal River with the westerly boundary of the geographic Township of Home; thence northerly along that boundary to the northwesterly angle of that geographic township; thence westerly along the southerly boundary of the geographic Township of Tp. 27, Range 16 to the southwesterly angle thereof; thence northerly along the westerly boundary of that geographic township to its intersection with the southerly limit of the right of way of the Algoma Central and Hudson Bay Railway Company; thence in a general westerly, northwesterly and easterly direction along the southerly, westerly and northerly limits of that right of way to the intersection of the northerly limit of that right of way with the easterly boundary of the geographic Township of

Tp. 28, Range 16; thence northerly along that boundary to the northeasterly angle of that geographic township; thence westerly along the northerly boundary of that geographic township to the southeasterly angle of the geographic Township of Tp. 29, Range 17; thence northerly along the easterly boundaries of the geographic townships of Tp. 29, Range 17 and Tp. 29, Range 18 to the southwesterly angle of the geographic Township of Tp. 28, Range 19; thence easterly along the southerly boundary of that geographic township to its intersection with the westerly limit of the right of way of the Algoma Central and Hudson Bay Railway Company; thence in a general northerly direction along the westerly limit of that right of way to its intersection with the southerly boundary of the geographic Township of Tp. 28, Range 21; thence westerly along the southerly boundaries of the geographic townships of Tp. 28, Range 21 and Tp. 29, Range 21 to the southwesterly angle of the last-mentioned geographic township; thence northerly along the westerly boundary of that geographic township to the northwesterly angle thereof; thence westerly along the southerly boundary of the geographic Township of Tp. 29, Range 22 to the southwesterly angle thereof; thence northerly along the westerly boundary of that geographic township 3 miles and 40 chains; thence west astronomically to the high-water mark on the easterly shore of Lake Superior; thence in a general southerly direction along that high-water mark to the place of beginning;

Excepting thereout and therefrom,

- (a) lands patented before the 15th day of November, 1949; and
- (b) that part of Township 28, Range 16, in the Territorial District of Algoma, being composed of a strip of land 66.0 feet in perpendicular width, separating parts of patented Mining Claim S.S.M. 3964, containing an area of 1.049 acres, be the same more or less, and which parcel or tract of land may be more particularly described as follows:

Premising that the bearings hereinafter mentioned are astronomical, and are derived from the bearing north $61^{\circ} 43' 30''$ west as shown on Department of Highways plan P-3221-3 for the centre line of the King's Highway known as No. 17 immediately west of the eastern limit of Mining Claim S.S.M. 3964.

Beginning at a point in the eastern limit of Mining Claim S.S.M. 3964 (now on file in the office of Land Titles for the District of Algoma as parcel number 1658 A.W.S.), distant 794.67 feet measured south $0^{\circ} 48' 30''$ east along said eastern limit of Mining Claim S.S.M. 3964 from the northeastern corner thereof; thence continuing south $0^{\circ} 48' 30''$ east along said eastern limit of Mining Claim

S.S.M. 3964 a further distance of 91.98 feet; thence north $46^{\circ} 39' 30''$ west a distance of 516.91 feet; thence north $43^{\circ} 19' 30''$ west 308.5 feet to the southerly limit of the King's Highway known as No. 17; thence south $61^{\circ} 43' 30''$ east thereon, a distance of 209.09 feet; thence south $43^{\circ} 19' 30''$ east a distance of 108.18 feet; thence south $46^{\circ} 39' 30''$ east 450.91 feet to the place of beginning. R.R.O. 1960, Reg. 498, App. A, Sched. 3; O. Reg. 64/64, s. 1.

Schedule 4

LONG POINT PROVINCIAL PARK

In the Township of South Walsingham in the County of Norfolk and being composed of Block B as shown outlined in red on a plan of subdivision of part of the peninsula known as Long Point, signed by Speight and Van Nostrand, Ontario Land Surveyors, dated February 14, 1923, and filed in the office of the Registrar of Regulations at Toronto as No. 211. R.R.O. 1960, Reg. 498, App. A, Sched. 4.

Schedule 5

PRESQU'ILE PROVINCIAL PARK

In the Township of Brighton in the County of Northumberland and being composed of High Bluff Island and part of Presqu'ile Peninsula, together with the small islands, marshlands and land under water, as shown outlined in red on a plan filed in the office of the Registrar of Regulations at Toronto as No. 219; excepting therefrom all those parcels or tracts of land in the Township of Brighton, in the County of Northumberland, in the Province of Ontario, containing by admeasurement 11.10 acres, be the same more or less, being composed of part of Presqu'ile Peninsula in the said Township, designated as parts 1, 2 and 3 on a plan dated the 23rd day of October, 1968 prepared by the Department of Lands and Forests, Ontario, Lands and Surveys Branch, and filed in the office of the Registrar of Regulations at Toronto as No. 917, subject to the reservation of an easement along and over the lands designated as Part 2 on the said plan. R.R.O. 1960, Reg. 498, App. A, Sched. 5; O. Reg. 86/69, s. 1.

Schedule 6

QUETICO PROVINCIAL PARK

1. In the Territorial District of Rainy River and described as follows:

Beginning where the boundary line between the territorial districts of Rainy River and Thunder Bay is intersected by the southerly limit of the highway known as the King's Highway No. 120; thence in a general westerly direction along that limit to the centre line of the portage situated between Eva Lake and the most northerly extremity of French Lake;

thence in a general southerly direction along that centre line to the high-water mark on the northerly shore of the last-mentioned lake; thence in a general southwesterly direction along that high-water mark to the northerly bank of the river connecting French Lake and Pickerel Lake; thence in a general westerly direction along the northerly or right bank downstream of that river to the high-water mark on the northerly shore of the last-mentioned lake; thence in a general westerly direction along the high-water mark on the northerly or right shore of Pickerel Lake and Pickerel Narrows to the high-water mark on the easterly shore of the body of water comprising the most southerly part of Batchewaung Lake; thence in a general northerly, northeasterly and northwesterly direction along that high-water mark on the easterly or right shore of that lake to the westerly extremity of a peninsula forming a narrows, distant 80 chains, more or less, north astronomically from the most southerly shore of that lake; thence west astronomically across the narrows 20 chains, more or less, to the high-water mark on the westerly shore of that lake; thence in a general southwesterly, northwesterly and westerly direction along the high-water mark on the northerly or right shore of that lake to a point in that high-water mark at the most westerly extremity thereof; thence west astronomically 20 chains, more or less, to the high-water mark on the easterly shore of a small lake; thence in a general northerly, westerly and southerly direction along that high-water mark to a point in that high-water mark at the most westerly extremity of the shore of that small lake; thence west astronomically 40 chains, more or less, to the northwesterly bank of a stream flowing southwesterly into a small lake lying easterly of Smudge Lake; thence in a general southwesterly direction along that bank to the high-water mark on the easterly shore of that small lake; thence in a general northerly, westerly and southerly direction along that high-water mark to the northerly bank of a stream flowing into Smudge Lake; thence westerly along that bank to the high-water mark on the southeasterly shore of that lake; thence in a general northeasterly, northwesterly and southerly direction along that high-water mark to the northerly bank of a stream flowing into Sohoe Lake; thence westerly along that bank to the high-water mark on the easterly shore of that lake; thence in a general westerly direction along the high-water mark on the northerly or right shore of that lake to the northerly bank of a strait connecting Sohoe Lake and Cirrus Lake; thence westerly along that bank to the high-water mark on the easterly shore of Cirrus Lake; thence in a general westerly and southwesterly direction along the high-water mark on the northwesterly or right shore of that lake to the northwesterly bank of a small stream flowing into Beaverhouse Lake; thence southwesterly along that bank to the high-water mark on the northeasterly shore of that lake; thence in a general southwesterly direction along the high-water mark on the northwesterly or right shore of that lake to the northwesterly bank of Quetico River; thence in a general southwesterly direction along the northwesterly or right bank downstream of that river to its junction with the Namakan

River; thence in a general southeasterly direction along the northeasterly or left bank upstream of that river to the high-water mark on the northerly shore of Lac la Croix; thence south astronomically to the boundary between Canada and the United States of America; thence in a general southeasterly, easterly and northeasterly direction along that boundary to its intersection with the boundary between the territorial districts of Rainy River and Thunder Bay; thence north astronomically along that boundary 33.3 miles, more or less, to the place of beginning;

Excepting therefrom,

- (a) the Neguagon Lake Indian Reserve No. 25D on Lac la Croix;
- (b) lands lying northerly and westerly of French Lake, French Portage and Windigoostigwan Lake, patented before November 24, 1941, and lands held under a lease before November 24, 1941, from the Crown, but only during the term of lease; and
- (c) lands lying within the limits of the rest of the area patented before April 1, 1909, and lands held under a lease from the Crown before April 1, 1909, but only during the term of lease.

2. Beginning at a point in the northerly limit of the right of way of that part of the King's Highway known as No. 11 distant 300.0 feet measured north $17^{\circ} 31' 30''$ east from Department of Highways monument number 86 as shown on Department of Highways Plan P-3076-9; thence southeasterly along that highway limit on a curve to the right having a radius of 3014.79 feet, an arc distance of 100.0 feet, the chord equivalent being 100.0 feet measured south $71^{\circ} 31' 29''$ east; thence north $17^{\circ} 31' 30''$ east 1001.66 feet; thence north $72^{\circ} 28' 30''$ west 3900.0 feet; thence south $17^{\circ} 31' 30''$ west 1000.0 feet to the intersection with the northerly limit of the right of way of that part of the King's Highway known as No. 11 and shown on Department of Highways Plan P-3076-4; thence south $72^{\circ} 28' 30''$ east along that highway limit 3800 feet, more or less, to the place of beginning. R.R.O. 1960, Reg. 498, App. A, Sched. 6; O. Reg. 320/68, s. 1.

Schedule 7

RONDEAU PROVINCIAL PARK

In the Township of Harwick in the County of Kent and described as follows:

Premising that the bearing hereinafter mentioned are astronomical.

Beginning at the northwesterly corner of Lot 2 according to a plan of survey of the tract of land known as the Rondeau Peninsula or Point aux Pins

dated September 8th, 1864, prepared by Henry Lowe, Provincial Land Surveyor, of record in the Department of Lands and Forests, Ontario; thence westerly along the production westerly of the northerly limit of that lot to the water's edge of Rondeau Harbour; thence in a general northerly, westerly, southwesterly, southerly and easterly direction following the water's edge on the easterly, northerly, westerly and southerly shores of that harbour to the intersection with the production northerly of the westerly limit of Lot 104 according to a plan registered in the Registry Office for the Registry Division of Kent as No. 314; thence northerly along that production to a point distant 290 feet measured northerly thereon from the southwesterly corner of that lot; thence easterly parallel to the northerly limit of Bayview Alley according to that plan 150 feet, more or less, to the intersection with the production northerly of the easterly limit of Lot 100 according to that plan; thence southerly along that production to the water's edge of Rondeau Harbour; thence in a general easterly direction following that water's edge to the most easterly extremity of Shirley Point; thence south-easterly in a straight line to the most northerly extremity of the east face of the west pier of the channel connecting Rondeau Harbour and Lake Erie; thence southerly along that easterly face to a point distant 421.18 feet measured northerly thereon from the production easterly of the easterly limit of Mariner's Road; thence south 77° 14' 25" east 100 feet; thence north 12° 45' 35" east 800 feet; thence south 77° 14' 25" east 700 feet; thence south 12° 45' 35" west 850 feet, more or less, to the water's edge of Lake Erie; thence in a general easterly and northerly direction following that water's edge to the intersection with the production easterly of the northerly limit of Lot 2 aforementioned; thence westerly along that production and the northerly limit of that lot to the place beginning. O. Reg. 151/63, s. 1.

Schedule 8

SIBLEY PROVINCIAL PARK

In the geographic Township of Sibley in the Territorial District of Thunder Bay, containing an area of 60,380 acres, more or less, and described as follows:

Premising that the bearings hereinafter mentioned are astronomical:

1. Beginning at the southwesterly corner of Lot 8 in Concession V; thence easterly along the southerly limit of that lot 1252.97 feet to the northwesterly corner of Location DT 27; thence south 0° 04' west along the westerly limit of that location 200.0 feet to the southwesterly corner thereof; thence south 89° 56' east along the southerly limit of that location 518.19 feet to the westerly limit of the right of way of Secondary Highway Number 587; thence in a southerly, southeasterly and southwesterly direction following that highway limit to the easterly limit of the Northeast Quarter Section 3 of the Woods Location; thence northerly along the easterly limit of that quarter

section to the northeasterly corner thereof; thence westerly along the northerly limit of that quarter section 2640.29 feet to the northwesterly corner of that quarter section; thence southerly along the westerly limit of that quarter section to the southwesterly corner of that quarter section; thence easterly along the southerly limit of that quarter section to the westerly limit of the right of way of that highway; thence southerly along that westerly limit to the northerly limit of Registered Plan Number 431; thence westerly along that northerly limit to the high-water mark of Perry Bay of Lake Superior; thence in a southwesterly direction along that high-water mark to the southwesterly corner of the Woods Location; thence south 13° 30' east 2900 feet, more or less, to a point distant 1320 feet measured southeasterly from and perpendicularly to the high-water mark of Lake Superior; thence in a southwesterly, northeasterly, northwesterly and southwesterly direction parallel to that high-water mark and 1320 feet in perpendicular distance therefrom to the intersection with a line drawn east astronomically from a point distant 12400.74 feet measured south 66° 21' 26" west from the southwesterly corner of the Woods Location; thence west astronomically to the high-water mark of Lake Superior; thence north astronomically 1194.48 feet more or less, to a survey post planted; thence west astronomically 1356.0 feet; thence continuing west astronomically to a point distant 1320 feet measured northwesterly from and perpendicularly to that high-water mark; thence in a general northeasterly direction parallel to that high-water mark and 1320 feet in perpendicular distance therefrom to the westerly production of the southerly limit of Mining Location V-13; thence easterly along that production and that southerly limit to the southeasterly corner of that location; thence northerly along the easterly limit of that location 2640 feet to the northeasterly corner of that location; thence easterly along the northerly boundary of the geographic Township of Sibley 1114 feet, more or less, to the southerly limit of Secondary Highway Number 587 as shown on Department of Highways Plan P-3277-10; thence in a southeasterly and northeasterly direction along that highway limit to the high-water mark along the westerly shore of Pass Lake; thence in a southwesterly, southerly, southeasterly and northeasterly direction along that high-water mark to the westerly limit of Concession V; thence southerly along that westerly limit to the place of beginning.

2. Beginning at a point in the southerly limit of Lot 10 in Concession IV distant 2524.50 feet measured easterly along that southerly limit from the southwesterly corner thereof; thence easterly along that southerly limit and its easterly production to a point distant 1320 feet measured southeasterly from and perpendicularly to the high-water mark of Squaw Bay of Lake Superior; thence in a general southwesterly direction parallel to that high-water mark and distant 1320 feet in perpendicular distance therefrom to the intersection with the easterly limit of Mining Location TB 1558; thence in a northerly direction along that easterly limit to the northeasterly corner thereof;

thence westerly along the northerly limit of that location to the northwesterly corner thereof; thence southerly along the westerly limit of that location to the southwesterly corner thereof; thence westerly in a straight line to the most southerly corner of Mining Location 'T'; thence in a northwesterly direction along the northeasterly limit of that location to the intersection with the high-water mark along the northwesterly shore of Middlebrun Bay of Lake Superior; thence in a southeasterly, southwesterly, northeasterly, southwesterly, northeasterly, northwesterly and westerly direction along the high-water mark of Lake Superior to the intersection with the northerly limit of Registered Plan Number 431; thence westerly along that northerly limit to the intersection with the easterly limit of the right of way of Secondary Highway Number 587 as shown on Department of Highways Plan P-3277-8; thence in a northerly, westerly and northerly direction along that highway limit to the intersection with the southerly limit of Lot 8 in Concession V; thence easterly along that southerly limit and the southerly limit of Lot 8 in Concession IV, to the intersection with a line drawn north astronomically from the place of beginning; thence south astronomically to the place of beginning.

3. Beginning at the intersection of the northerly limit of Registered Plan Number 431 with the westerly limit of the right of way of that part of Secondary Highway Number 587 as shown on Department of Highways Plan P-3277-8; thence in a northeasterly, westerly and southwesterly direction along that highway limit as shown on Department of Highways Plans P-3277-8 and P-3277-11 to the intersection with the easterly limit of the Northeast Quarter Section 3 of the Woods Location; thence southerly along that easterly limit to the southeasterly corner thereof; thence westerly along the southerly limit of that section to the intersection with the easterly limit of the right of way of Secondary Highway Number 587 as shown on Department of Highways Plan P-3277-11; thence southerly along that highway limit to the intersection with the northerly limit of Registered Plan Number 431; thence easterly along that northerly limit to the place of beginning. O. Reg. 165/70, s. 1.

APPENDIX B

Schedule 1

ARROW LAKE PROVINCIAL PARK

In the unsurveyed part of the Territorial District of Thunder Bay westerly of the geographic Township of Hardwick and described as follows:

Beginning at the most northerly point of the shore of the bay of Arrow Lake lying immediately east of The Narrows of Arrow Lake, that point being also distant approximately 3 miles and 55 chains measured on an astronomic bearing of north 72° 52' west from the southwesterly angle of the geographic Township of Hardwick; thence north astronomically 32

chains; thence west astronomically 28 chains; thence south astronomically 7 chains, more or less, to the shore of that lake; thence in a general southerly, northeasterly, southwesterly and northeasterly direction along that shore to the place of beginning, together with the islands in the bay of Arrow Lake lying north of the peninsula on the northerly shore of The Narrows of Arrow Lake. R.R.O. 1960, Reg. 498, App. B, Sched. 1.

Schedule 2

BASS LAKE PROVINCIAL PARK

In the Township of Orillia (Southern Division) in the County of Simcoe and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and are derived from the road allowance between the townships of Oro and Orillia, having a bearing of north 30° 00' west.

Beginning at the most easterly corner of Lot 5 in Concession 1; thence north 29° 49' 30" west along the northeasterly limit of that lot a distance of 2055.0 feet; thence south 60° 19' west 374.5 feet, more or less, to the high water mark of Bass Lake; thence west astronomically to a point distant 300 feet measured westerly from and perpendicularly to the high water mark of Bass Lake; thence in a southerly and southwesterly direction parallel to the said high water mark and 300 feet perpendicular distance therefrom, to the intersection with the northwesterly production of the line between the east half and west half of Lot 5; thence south 31° 08' 40" east along that northwesterly production and the line between the east half and the west half of that lot to the southeasterly limit thereof; thence east astronomically along that southeasterly limit 250.3 feet; thence north 61° 32' east continuing along that southeasterly limit 2067.0 feet, more or less, to the place of beginning. O. Reg. 358/67, s. 1 (1).

Schedule 3

EMILY PROVINCIAL PARK

That part of the north half of Lot 12 in Concession VI in the Township of Emily in the County of Victoria lying southerly of the highway known as the Victoria County Highway No. 16. R.R.O. 1960, Reg. 498, App. B, Sched. 3.

Schedule 4

ESKER LAKES PROVINCIAL PARK

In the geographic townships of Bisley and Clifford in the Territorial District of Timiskaming and described as follows:

Beginning at the northwesterly angle of the geographic Township of Clifford; thence east astronomically along the northerly boundary of that geographic township 1.50 miles; thence south astronomically 6 miles, more or less, to the southerly boundary of that geographic township; thence west astronomically along that boundary and along the southerly boundary of the geographic Township of Bisley 2 miles; thence north astronomically 6 miles, more or less, to the northerly boundary of that geographic township; thence east astronomically along that boundary 0.50 mile, more or less, to the place of beginning. R.R.O. 1960, Reg. 498, App. B, Sched. 4.

Schedule 5

FAIRBANK PROVINCIAL PARK

In the geographic townships of Fairbank and Trill in the Territorial District of Sudbury and described as follows:

1. In the geographic Township of Fairbank being,

- (a) that part of Lot 12 lying westerly of Fairbank Lake in Concession I; and
- (b) that part of Lot 12 lying westerly of Fairbank Lake in Concession II.

2. Part of Lot 1 in Concession II in the geographic Township of Trill and described as follows:

Beginning at the intersection of the easterly boundary of the lot with the high-water mark on the southerly shore of the northerly part of Fairbank Lake; thence in a general northwesterly direction along that high-water mark 30 chains, more or less, to its intersection with the southerly boundary of Summer Resort Location AE 626; thence westerly along that boundary and its production westerly to a point therein distant 400 feet in perpendicular width from that high-water mark; thence in a general southeasterly and easterly direction parallel to that high-water mark and distant 400 feet in perpendicular width therefrom 40 chains, more or less, to a point in the easterly boundary of the lot; thence northerly along that boundary 400 feet, more or less, to the place of beginning. R.R.O. 1960, Reg. 498, App. B, Sched. 5.

Schedule 6

GREENWATER PROVINCIAL PARK

In the geographic townships of Colquhoun, Leitch, Calder and Clute in the Territorial District of Cochrane and described as follows:

Beginning at the northwesterly corner of Lot 8 in Concession XII, in the geographic Township of Calder; thence north astronomically 359 chains, more or less,

to the intersection with a line drawn west astronomically from the northwesterly corner of Lot 28 in Concession VI, in the geographic Township of Leitch; thence east astronomically 202 chains, more or less, to the northwesterly corner of Lot 28 in Concession VI, in the geographic Township of Leitch; thence continuing easterly along the northerly limit of lots 28 and 27 in Concession VI in that geographic township to the northeasterly corner of said Lot 27; thence southerly along the easterly limit of Lot 27, in concessions VI and V to the southeasterly corner of Lot 27 in Concession V; thence southerly in a straight line one chain, more or less, to the northeasterly corner of Lot 27 in Concession IV; thence southerly along the easterly limit of Lot 27 in concessions IV and III to the south-easterly corner of Lot 27 in Concession III; thence southerly in a straight line one chain, more or less, to the northeasterly corner of Lot 27 in Concession II; thence southerly along the easterly limit of Lot 27 in concessions II and I to the southeasterly corner of Lot 27 in Concession I, in the geographic Township of Leitch; thence southerly in a straight line one chain, more or less, to the northeasterly corner of Lot 27 in Concession XII, in the geographic Township of Clute; thence southerly along the easterly limit of that lot to the southeasterly corner thereof; thence westerly along the southerly limit of lots 27 and 28 in Concession XII in the geographic Township of Clute to the southwesterly corner of the last-mentioned lot; thence westerly along the production westerly of the southerly limit of Lot 28 in Concession XII in the geographic Township of Clute, one chain, more or less, to the easterly limit of Lot 1, in Concession XI, in the geographic Township of Calder; thence northerly along the easterly limit of that lot to the north-easterly corner thereof; thence westerly along the southerly limit of lots 1, 2, 3, 4, 5 and 6 in Concession XII, in the geographic Township of Calder to the southwesterly corner of the last-mentioned lot; thence westerly in a straight line one chain, more or less, to the southeasterly corner of Lot 7 in Concession XII; thence westerly along the southerly limit of lots 7 and 8 in Concession XII to the southwesterly corner of the last-mentioned lot; thence northerly along the westerly limit of Lot 8 in Concession XII, in the geographic Township of Calder to the place of beginning. O. Reg. 117.63, s. 2.

Schedule 7

IVANHOE LAKE PROVINCIAL PARK

In the geographic Township of Ivanhoe in the Territorial District of Sudbury and described as follows:

Beginning at the confluence of the water's edge along the north-easterly bank of Gullystone Creek with the water's edge along the southeasterly shore of Ivanhoe Lake; thence in a general northerly direction following the windings of the water's edge along the southeasterly shore of Ivanhoe Lake, to the intersection with a line drawn north 11° 00' east astro-nomic and distant 10,700 feet, more or less, from

the place of beginning; thence north 11° 00' east to a point in the waters of Ivanhoe Lake distant 900 feet measured northeasterly from and perpendicularly to the water's edge along the said southeasterly shore of Ivanhoe Lake; thence in a general easterly, northeasterly and northerly direction parallel to the said water's edge and distant 900 feet in perpendicular width therefrom to a point distant 5,300 feet measured southerly from and perpendicularly to the north boundary of the geographic Township of Ivanhoe; thence in an easterly direction parallel to the said north boundary and distant 5,300 feet in perpendicular distance therefrom to the intersection with the water's edge along the said southeasterly shore of Ivanhoe Lake; thence in a general northeasterly and northwesterly direction following the said water's edge to the intersection with the southwesterly limit of the Pineland Timber Company Road; thence in a general southerly and southwesterly direction following the westerly limit of the said road to the intersection with the line drawn east astronomically from the place of beginning; thence west astronomically to the place of beginning.

Save and excepting any lands granted before the 20th day of December, 1964. O. Reg. 346/65, s. 1.

Schedule 8

JOHN E. PEARCE PROVINCIAL PARK

1. In the Township of Dunwich in the County of Elgin and described as follows:

Premising that the existing limit between lots 11 and 12 in Concession X in the Township of Dunwich has an astronomical course of north 43° 19' 30" west and relating all bearings herein thereto:

Beginning at a survey post planted within Lot 11 in Concession X distant 212.54 feet measured south 5° 37' east from a point in the existing limit between lots 11 and 12, distant 3,552.78 feet measured southeasterly along that limit from the most northerly corner of said Lot 11; thence north 89° 47' 30" west 44.9 feet; thence north 27° 42' 20" west 149.35 feet; thence north 9° 20' 30" east 120.42 feet; thence north 44° 34' west 176.78 feet; thence north 83° 37' west 195.50 feet; thence north 84° 31' west 100.0 feet; thence north 84° 08' 30" west 200.0 feet; thence north 87° 42' west 87.81 feet; thence north 82° 18' west 312.76 feet; thence north 85° 05' west 124.12 feet; thence south 85° 04' west 137.13 feet; thence south 76° 41' west 124.70 feet; thence south 71° 00' 30" west 411.06 feet; thence south 67° 20' 30" west 58.30 feet; thence south 54° 32' west 239.99 feet; thence south 41° 00' 30" east 266.13 feet; thence south 54° 07' 30" west 103.95 feet; thence north 39° 00' west 266.21 feet; thence south 54° 32' west 325.28 feet, more or less, to the southwesterly limit of said Lot 11; thence southeasterly along the southwesterly limit of said Lot 11 and its production southeasterly to the water's edge on the northerly shore of Lake Erie;

thence in a general northeasterly direction following that water's edge to its intersection with a line drawn south 5° 37' east from the point of beginning; thence north 5° 37' west 585.0 feet, more or less, to the place of beginning.

2. In the Township of Dunwich in the County of Elgin and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and are referred to the meridian through the intersection of the limit between lots 11 and 12 in Concession X of that township with the northerly limit of Lake Road as widened by By-law No. 142 registered July 7th, 1866:

Beginning at the most northerly corner of Lot 11 in Concession X; thence south 46° 37' 30" west along the northwesterly limit of that lot a distance of 731.16 feet; thence south 43° 24' 00" east 2447.98 feet to the intersection with the northerly limit of that part of Lake Road as widened by By-law No. 142; thence north 85° 04' east along that northerly limit 101.52 feet; thence south 85° 05' east along that northerly limit 129.59 feet; thence south 82° 15' 30" east continuing along that northerly limit 209.82 feet; thence north 43° 27' west 379.98 feet; thence north 46° 36' east 441.54 feet to the intersection with the northeasterly limit of Lot 11; thence northwesterly along that northeasterly limit to the place of beginning, the hereinbefore described land containing 41.84 acres, more or less.

3. In the Township of Dunwich in the County of Elgin and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and are referred to the meridian through the intersection of the limit between lots 11 and 12 in Concession X of that township with the northerly limit of Lake Road as widened by By-law No. 142 registered July 7th, 1866:

Beginning at the intersection of the water's edge of Lake Erie with the southwesterly limit of Lot 11 in Concession X; thence north 43° 24' 00" west along that southwesterly limit 50 feet, more or less, to a survey post planted; thence north 43° 24' 00" west continuing along that southwesterly limit 1447.51 feet to the intersection with the southeasterly limit of that part of Lake Road as widened by By-law No. 142; thence north 54° 32' east along that southeasterly limit 325.28 feet; thence south 39° 00' east 266.21 feet; thence north 54° 07' 30" east 103.95 feet; thence north 41° 00' 30" west 266.13 feet to the intersection with the southeasterly limit of that Lake Road; thence northeasterly along that southeasterly limit on the following bearings and distances; north 54° 32' east 239.99 feet; north 67° 20' 30" east 58.30 feet; north 71° 00' 30" east 411.06 feet; north 76° 41' east 124.70 feet; north 85° 04' east 137.13 feet; south 85° 05' east 124.12 feet; south 82° 18' east 312.76 feet; south 87° 42' east 87.81 feet; south 84° 08' 30" east 200.00 feet; south 84° 31' east

100.00 feet; south 83° 37' east 195.50 feet; thence south 44° 34' east 176.78 feet; thence south 9° 20' 30" west 120.42 feet; thence south 27° 42' 20" east 149.35 feet; thence south 89° 47' 30" east 44.9 feet; thence south 5° 37' east 524.93 feet to a survey post; thence continuing south 5° 37' east 60 feet, more or less, to the intersection with the water's edge of Lake Erie; thence southwesterly along that water's edge to the place of beginning, the hereinbefore described lands containing 62.45 acres. O. Reg. 117/63, s. 2; O. Reg. 245/67, s. 1 (1).

Schedule 9

KAP-KIG-IWAN PROVINCIAL PARK

In the geographic townships of Dack and Evanturel in the Territorial District of Timiskaming and described as follows:

Beginning at a point in the easterly limit of Lot 11 in Concession III, in the geographic Township of Evanturel, distant 36.89 chains measured northerly along that limit from the southeasterly corner thereof; thence west astronomically to the intersection with the westerly limit of that lot; thence northerly along the westerly limit of that lot to the intersection with a line drawn east astronomically from a point in the westerly limit of Lot 12 in Concession III, in that geographic township distant 37.26 chains measured northerly along that limit from the southwesterly corner of that lot; thence west astronomically to the westerly limit of that lot; thence northerly along the westerly limit of that lot and being along the easterly limit of Lot 1 in Concession III, in the geographic Township of Dack to a point therein distant 38.88 chains measured northerly along the easterly limit of Lot 1 in Concession III from the southeasterly corner thereof; thence westerly parallel to the southerly limit of that lot to the intersection with the westerly limit of that lot; thence northerly along the westerly limit of that lot to a point distant 20 chains measured southerly thereon from the northwesterly corner thereof; thence west astronomically 20 chains, more or less, to the intersection with a line drawn south astronomically from a point in the northerly limit of Lot 2 in Concession III in the geographic Township of Dack distant 20 chains measured easterly thereon from the northwesterly corner of that lot; thence north astronomically 20 chains, more or less, to the northerly limit of that lot; thence northerly along the line between the southwest and southeast quarters of the south half of Lot 2 in Concession IV to the line between the north and south halves of that lot; thence easterly along the line between the north and south halves of lots 2 and 1 in Concession IV, in the geographic Township of Dack and continuing easterly along the line between the north and south halves of Lot 12 in Concession IV, in the geographic Township of Evanturel to the easterly limit of Lot 12 in Concession IV, in the geographic Township of Evanturel; thence southerly along the easterly limit of that lot to the southeasterly corner thereof; thence easterly along the line between concessions III and IV in that geographic township

to the northeasterly corner of Lot 11 in Concession III in that geographic township; thence southerly along the easterly limit of that lot to the place of beginning. O. Reg. 117/63, s. 2.

Schedule 10

KETTLE LAKES PROVINCIAL PARK

In the geographic Township of German in the Territorial District of Cochrane and described as follows:

Beginning at the southeasterly corner of Lot 4 in Concession II; thence westerly along the southerly limit of lots 4, 5 and 6 in Concession II, to the southwesterly corner of said Lot 6; thence northerly along the westerly limit of Lot 6 a distance of 40.00 chains; thence west astronomically 40.102 chains, more or less, to the westerly limit of Lot 7 in Concession II; thence northerly along the westerly limit of said Lot 7 a distance of 41.54 chains, more or less, to the northwesterly corner of said Lot 7; thence westerly along the line between concessions II and III to the easterly limit of the right of way of that part of the King's Highway known as No. 67; thence northerly along the easterly limit of the said right of way to the intersection with the northerly limit of Lot 8 in Concession III; thence easterly along the northerly limit of lots 8 and 7 in Concession III to the southwesterly limit of a travelled road; thence in a general southeasterly direction following the southwesterly limit of the said travelled road to the intersection with the easterly limit of Lot 7 in Concession III; thence northerly along the easterly limit of said Lot 7 to the northeasterly corner thereof; thence easterly along the northerly limit of lots 6, 5 and 4 in Concession III to the northeasterly corner of said Lot 4; thence southerly along the easterly limit of said Lot 4 to the southeasterly corner thereof; thence westerly along the southerly limit of said Lot 4 to the northeasterly corner of Lot 4 in Concession II; thence southerly along the easterly limit of said Lot 4 to the place of beginning. O. Reg. 117/63, s. 2.

Schedule 11

LAKE ON THE MOUNTAIN PROVINCIAL PICNIC GROUNDS

In the Township of North Marysburgh in the County of Prince Edward and described as follows:

Premising that the most westerly limit of the herein-described lands has an astronomical bearing of north 15° 44' 30" east, according to survey plan P-2089-3 of the Department of Highways filed as No. 36 Highway Plans in the Registry Office for the Registry Division of Prince Edward and relating all bearings herein thereto:

Beginning at the intersection of the high-water mark on the southerly shore of the Bay of Quinte and the easterly limit of the lands shown on the above mentioned plan; thence south 15° 44' 30" west 184.2

feet, more or less, to a stone revetment wall constructed on the northerly limit of the road known as the Old Mountain Road; thence in a general southeasterly direction along that wall 666.2 feet, more or less, to the northeasterly angle of Lot 9 as shown on Plan No. 4 registered in the aforementioned registry office; thence 12° 33' west along the easterly limit of lots 9 and 11 according to that plan 289.5 feet, more or less, to the southeasterly angle of the last-mentioned lot, the said angle being distant 10 feet measured northwesterly and perpendicularly from the concrete retaining wall constructed around the northerly shore of Lake on the Mountain; thence in a general southwesterly direction parallel to and distant 10 feet measured westerly and perpendicularly from that wall to the southerly extremity thereof; thence in a general southerly, easterly and northerly direction following a line parallel to and distant 10 feet measured perpendicularly from that high-water mark on the westerly, southerly and easterly shores of that lake and the easterly bank of the creek connecting that lake with the Bay of Quinte to the intersection of that line with the brow of a hill approximately 100 feet high; thence in a general northwesterly direction along the brow of that hill 635 feet, more or less, to a point therein distant 10 feet measured northeasterly and perpendicularly from a water pipe 3 feet in diameter extending in a northerly direction down that hill; thence north 13° 44' west parallel to and distant 10 feet measured easterly and perpendicularly from that pipe 213.5 feet; thence north 77° 11' 30" west 78.8 feet; thence north 14° 48' 30" east 85 feet, more or less, to the high-water mark on the southerly shore of that bay; thence in a general westerly direction along that high-water mark 413 feet, more or less, to the place of beginning;

Excepting therefrom and public roads or highways crossing the above-described lands. R.R.O. 1960, Reg. 498, App. B, Sched. 11.

Schedule 12

MARK S. BURNHAM PROVINCIAL PARK

In the Township of Otonabee in the County of Peterborough and described as follows:

1. That part of the east half of Lot 27, Concession IX, described as follows:

Beginning at a point in the line between the east and west halves of that lot distant 121.07 feet measured northerly thereon from the southerly limit of that lot; thence north 75° 29' 20" east along the northerly limit of that part of the King's Highway known as No. 7 according to a Department of Highways, Ontario, plan of survey P-1789-44 a distance of 14.81 feet; thence north 76° 24' 30" east along that limit 876.13 feet; thence north 70° 41' 30" east along the northerly limit of that highway according to a Department of Highways, Ontario, plan of survey P-1789-70 a distance of 100.55 feet; thence north 76° 26' 30" east along that limit 21.69

feet; thence easterly along that limit on a curve to the left of radius 2804.93 feet an arc distance of 285.57 feet, the chord equivalent being 285.45 feet measured north 73° 31' 30" east; thence north 70° 36' 30" east 79.20 feet; thence north 72° 34' east along that limit 316.72 feet; thence north 19° 23' 30" west along that limit 10.0 feet; thence north 66° 14' 40" east along that limit 130.14 feet; thence north 70° 36' 30" east along that limit 314.84 feet; thence north 25° 19' east 70.34 feet, more or less, to a point in the easterly limit of said Lot 27 distant 119.07 feet measured northerly thereon from the southeasterly corner of that lot; thence northerly along the easterly limit of that lot to the northeasterly angle of that lot; thence westerly along the northerly limit of that lot to the line between the east and west halves of that lot; thence southerly along the line between the east and west halves of that lot to the place of beginning.

2. That part of Lot 28, Concession XI, described as follows:

Beginning at the southeasterly angle of that lot; thence westerly along the southerly limit of that lot 223.7 feet; thence northeasterly in a straight line 404.2 feet, more or less, to a point in the easterly limit of that lot distant 342.8 feet measured northerly along that limit from the southeasterly angle of that lot; thence southerly along the easterly limit of that lot 342.8 feet to the place of beginning. R.R.O. 1960, Reg. 498, App. B, Sched. 12.

Schedule 13

NAGAGAMISIS PROVINCIAL PARK

In the geographic townships of Frost and McEwing in the Territorial District of Algoma, containing an area of 14,446 acres, more or less, and described as follows:

Beginning at a point distant 6 miles and 3960 feet measured east astronomically from the northwesterly corner of the geographic Township of Elgie; thence east astronomically 10 miles; thence north astronomically 3 miles; thence west astronomically 4 miles and 528 feet, more or less, to the water's edge on the northerly shore of Nagagamisis Lake; thence south astronomically to a point distant 1320 feet measured southwesterly from and perpendicularly to the said water's edge; thence in a general southeasterly, southwesterly and northwesterly direction parallel to that water's edge and 1320 feet in perpendicular distance therefrom to the intersection with the southerly production of the westerly limit of Block A, Plan M 190; thence northerly along that production to a survey post planted in the westerly limit of that block distant 316.0 feet measured southerly thereon from the northwesterly corner of that block; thence west astronomically 2970 feet, more or less, to the intersection with a line drawn north astronomically from the place of beginning; thence south astronomically 2 miles, more or less, to the place of beginning.

Excepting therefrom that part of Secondary Highway Number 631 crossing the said lands. O. Reg. 165/70, s. 2 (1).

Schedule 14

REMI LAKE PROVINCIAL PARK

In the geographic townships of Fauquier and Gurney in the Territorial District of Cochrane, containing an area of 7040 acres, more or less, and described as follows:

Premising that the bearings hereinafter mentioned are astronomical:

Beginning at the northeasterly corner of Lot 7 in Concession XII in the geographic Township of Fauquier; thence north astronomically 33 feet to the intersection with the southerly boundary of the geographic Township of Gurney; thence easterly along that southerly boundary 4708.44 feet, more or less, to a point distant 1 mile measured westerly along that southerly boundary from the southeasterly corner thereof; thence north astronomically 2 miles; thence west astronomically 5 miles; thence south astronomically 1 mile and 4170 feet, more or less, to the water's edge of Remi Lake; thence south astronomically to a point distant 500 feet measured southeasterly from and perpendicularly to that edge of Remi Lake; thence in a general northeasterly, easterly and southerly direction parallel to that water's edge and 500 feet in perpendicular distance therefrom to the intersection with the westerly production of the limit between concessions IX and X in the geographic Township of Fauquier; thence easterly along that production and the limit between concessions IX and X to the southeasterly corner of Lot 7 in Concession X; thence northerly along the easterly limit of that lot to the northeasterly corner thereof; thence northerly in a straight line to the southeasterly corner of Lot 7 in Concession XI; thence northerly along the easterly limit of that lot and Lot 7 in Concession XII to the place of beginning. O. Reg. 245/69, s. 1.

Schedule 15

ROCK POINT PROVINCIAL PARK

In the Township of Sherbrooke in the County of Haldimand, containing an area of 241 acres, more or less, and described as follows:

Beginning at the northwesterly corner of Lot 4 in Concession I; thence easterly along the northerly limit of that lot to the northeasterly corner thereof; thence southerly along the easterly limit of that lot to the southeasterly corner thereof; thence southerly in a straight line to the northeasterly corner of Lot 4 in the Broken Front Concession; thence southerly along the easterly limit of that lot to the northerly boundary of Barbet Point Naval Reserve; thence south $0^{\circ} 06'$ west 71.78 feet; thence north $66^{\circ} 57'$ east

945.69 feet; thence north $23^{\circ} 03'$ west 66.00 feet to the northerly boundary of Barbet Point Naval Reserve; thence easterly along that northerly boundary and its easterly production to a point distant 300 feet measured northeasterly from and perpendicularly to the water's edge of Lake Erie; thence in a southerly southwesterly, westerly, northwesterly, northeasterly and northwesterly direction parallel to that water's edge and 300 feet in perpendicular distance therefrom to the intersection with the southerly production of the westerly limit of Lot 4 in the Broken Front Concession; thence northerly along that southerly production and the westerly limit of that lot to the northwesterly corner thereof; thence northerly in a straight line to the southwesterly corner of Lot 4 in Concession I; thence northerly along the westerly limit of that lot to the place of beginning. O. Reg. 165/70, s. 2 (2).

Schedule 16

SERPENT MOUNDS PROVINCIAL PARK

In the Township of Otonabee in the County of Peterborough, containing an area of 138 acres, more or less, and described as follows:

Premising that the bearings herein are astronomical:

Beginning at the northeasterly corner of Lot 7 in Concession VII; thence easterly along the easterly production of the northerly limit of that lot to a point distant 500 feet measured southeasterly from and perpendicularly to the water's edge of Rice Lake; thence in a southwesterly and northwesterly direction parallel to that water's edge and 500 feet in perpendicular distance therefrom to the westerly production of the northerly limit of that lot; thence easterly along that westerly production and that northerly limit to the place of beginning. O. Reg. 165/70, s. 2 (3).

Schedule 17

SIOUX NARROWS PROVINCIAL CAMP AND PICNIC GROUNDS

In the geographic Township of Willingdon in the Territorial District of Kenora and described as follows:

Beginning at the northeasterly angle of the Mission Site, according to a plan dated October 27, 1938, prepared by Campbell Griffin O.L.S., and of record in the Office of the Surveyor General at Toronto; thence southerly along the easterly boundary of that site 50 feet, more or less, to its intersection with the southerly boundary of the highway known as the King's Highway No. 70, according to Plan No. P-2535-4 dated March 15, 1941, prepared by John E. Jackson, O.L.S., and of record in the above-mentioned office of the Surveyor General, the said point of intersection being the place of beginning of the

herein-described lands; thence in a general easterly direction along the southerly boundary of that highway 3171.38 feet, more or less, to its intersection with the southerly boundary of Mining Claim K-8599; thence easterly along that boundary 299.94 feet, more or less, to the southeasterly angle of that mining claim, being also the southwesterly angle of Mining Claim K-8561; thence easterly along the southerly boundary of that mining claim 12.70 chains, more or less, to the southeasterly angle of that mining claim; thence in a general southerly direction to the northerly angle of Mining Location E.B. 40; thence southwesterly along the northwesterly boundary of that mining location to the northwesterly angle of that mining location; thence southerly along the westerly boundary of that mining location to the high-water mark of Regina Bay of Lake of the Woods; thence westerly along that high-water mark to its intersection with the easterly boundary of Mining Claim K-9316; thence northerly along that boundary to a point therein distant 9.03 chains, more or less, from the southeasterly angle of that mining claim, the said point being also the northeasterly angle of Parcel No. 13058 registered in the Office of Land Titles for the Land Titles Division of Kenora; thence westerly along the northerly boundary of that parcel 6.12 chains to the high-water mark of Regina Bay of Lake of the Woods; thence in a general northwesterly direction along that high-water mark to its intersection with the northeasterly boundary of Summer Resort Location E.B. 1494; thence northwesterly along that boundary to its intersection with the high-water mark of Regina Bay of Lake of the Woods; thence in a general northeasterly direction along that high-water mark to its intersection with the easterly boundary of the Mission Site hereinbefore mentioned; thence northerly along that boundary 10 feet, more or less, to the place of beginning. R.R.O. 1960, Reg. 498, App. B, Sched. 17.

Schedule 18

THE PINERY PROVINCIAL PARK

In the Township of Bosanquet in the County of Lambton and described as follows:

1. Beginning at the most northerly corner of Lot 11, Lake Road East Concession; thence southwesterly along the northeasterly limit of that lot to the northwesterly limit of that part of the King's Highway known as No. 21; thence southwesterly along that limit to the southwesterly limit of the said Lot 11; thence northwesterly along that limit and the production thereof to the northwesterly limit of the allowance for road between the Lake Road East and Lake Road West concessions; thence southwesterly along that limit to the southwesterly limit of the allowance for road between lots 20 and 21 in the Lake Road East and Lake Road West concessions; thence southeasterly along that limit to the northwesterly limit of that part of the King's Highway known as No. 21; thence southwesterly

along that limit to the southwesterly limit of Lot 31, Lake Road East Concession; thence northwesterly along that limit, the production thereof across the allowance for road between the Lake Road East and Lake Road West concessions, the southwesterly limit of Lot 31, Lake Road West Concession and the production thereof across the Ausable River, to the high-water mark on the northwesterly shore of that river; thence northeasterly along that high-water mark to the southwesterly limit of Lot 30, Lake Road West Concession; thence northwesterly along that limit and the production thereof to the water's edge of Lake Huron; thence continuing northwesterly along the production of the southwesterly limit of said Lot 30 a distance of 600 feet; thence northeasterly parallel to the water's edge of Lake Huron and distant 600 feet in perpendicular width therefrom to the intersection with the northwesterly production of the northeasterly limit of Lot 11, Lake Road West Concession; thence southeasterly along that production to the water's edge of Lake Huron; thence continuing southeasterly along the said production and the northeasterly limit of Lot 11 and its southeasterly productions across the Ausable River and the allowance for road between the Lake Road East and Lake Road West concessions to the place of beginning.

2. Those parts of lots 21 and 22, Lake Road East Concession, lying southeasterly of the southeasterly limit of that part of the King's Highway known as No. 21. O. Reg. 110/64, s. 2.

Schedule 19

AARON PROVINCIAL PARK

In the geographic Township of Zealand in the Territorial District of Kenora containing an area of 173 acres, more or less, described as follows:

Premising that the bearings hereinafter mentioned are astronomical and are referred to the meridian passing through the southeasterly corner of Lot 10, Concession IV, geographic Township of Zealand;

1. Part of Lot 10, Concession IV, part of the bed of Thunder Lake and part of Mining Location FM 29, described as follows:

Beginning at the southeasterly corner of Lot 10, Concession IV; thence north $88^{\circ} 31' 10''$ west along the line between concessions III and IV a distance of 396.15 feet, to the easterly limit of Mining Location FM 29; thence south $0^{\circ} 43' 25''$ west along that easterly limit 1042.48 feet, to the southeasterly corner thereof; thence north $89^{\circ} 09' 35''$ west along the southerly limit of that mining location 294.13 feet to the northeasterly limit of that part of the King's Highway known as No. 17; thence northwesterly along that northeasterly limit on a curve to the right having a radius of 2764.79 feet, an arc distance of 454.67 feet, the chord equivalent being 454.16 feet measured north

43° 54' 45" west; thence north 39° 12' 05" west along that northeasterly limit 1111.63 feet, more or less, to the westerly limit of Mining Location FM 29; thence south 0° 12' 35" east along that westerly limit 39.73 feet; thence north 39° 12' 05" west along the northeasterly limit of that part of the King's Highway known as No. 17 a distance of 170.14 feet; thence northwesterly along that northeasterly limit on a curve to the left having a radius of 2939.79 feet, an arc distance of 578.97 feet, chord equivalent being 578.03 feet measured north 44° 51' 26" west; thence north 41° 22' 05" west continuing along that highway limit 365.24 feet; thence northwesterly continuing along that highway limit on a curve to the left having a radius of 673.68 feet, an arc distance of 173.60 feet, the chord equivalent being 173.12 feet, measured north 48° 45' west to the intersection with the line between lots 10 and 11, Concession IV; thence north 0° 10' 25" east along that line 1210 feet, more or less, to the water's edge of Thunder Lake; thence north 0° 10' 25" east to a point distant 300 feet measured northerly from and perpendicularly to the water's edge of Thunder Lake; thence in an easterly, northerly, northwesterly, northerly, northeasterly, southeasterly, southwesterly, southerly, easterly, northerly and northeasterly direction parallel to the said water's edge and 300 feet in perpendicular distance therefrom, to the intersection with the northerly production of the line between lots 9 and 10, Concession IV; thence southerly along that northerly production and that limit between lots 9 and 10 to the place of beginning.

2. Part of Mining Location FM 29, described as follows:

Beginning at the intersection of the southerly limit of Mining Location FM 29 and the southwesterly limit of that part of the King's Highway known as No. 17; thence north 27° 03' 05" west along that highway limit 304.96 feet; thence northwesterly continuing limit 304.96 feet; thence northwesterly continuing along that highway limit on a curve to the left having a radius of 1332.69 feet, an arc distance of 333.00 feet, the chord equivalent being 332.14 feet measured north 34° 12' 35" west; thence north 41° 22' 05" west along that highway limit 331.27 feet to the intersection with the westerly limit of Mining Location FM 29; thence south 0° 12' 35" east along that westerly limit 306.76 feet to the intersection with the northeasterly limit of the Canadian Pacific Railway; thence in a southeasterly direction along that railway limit to the intersection with the southerly limit of Mining Location FM 29; thence south 89° 09' 35" east along that southerly limit 178.10 feet, more or less, to the place of beginning. Subject to Crown Easement Number 24 granted to the Northern Ontario Pipe Line Crown Corporation.

3. Part of Lot 10, Concession IV, described as follows:

Beginning at the southwesterly corner of Lot 10; thence easterly along the southerly limit of that lot 676.85 feet to the intersection with the southwesterly

limit of that part of the King's Highway known as No. 17; thence north 41° 22' 05" west along that highway limit 256.51 feet; thence northwesterly continuing along that highway limit on a curve to the left having a radius of 2764.79 feet, an arc distance of 677.27 feet, the chord equivalent being 675.56 feet measured north 48° 23' 08" west to the intersection with the westerly limit of Lot 10, Concession IV; thence southwesterly along that westerly limit 642.34 feet, more or less, to the place of beginning. Subject to Crown Easement Number 24 granted to the Northern Ontario Pipe Line Crown Corporation. O. Reg. 320/68, s. 2 (2).

Schedule 20

BLACK LAKE PROVINCIAL CAMP AND PICNIC GROUNDS

In the Township of Olden in the County of Frontenac and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and referred to the meridian through the southwesterly corner of Lot 20 in Concession I in the Township of Olden:

Beginning at a point in the northerly limit of Lot 15 in Concession X, distant 1657.39 feet measured easterly thereon from the northwesterly corner of that lot; thence south 67° 15' west 124.82 feet, more or less, to the southeasterly limit of that part of the King's Highway known as No. 7; thence south 8° 07' west along the southeasterly limit of that highway 325.88 feet; thence southwesterly along that limit on a curve to the right of radius 2939.79 feet, an arc distance of 560.09 feet, the chord equivalent being 559.84 feet measured south 13° 34' 50" west; thence north 69° 53' west along that limit 25.04 feet; thence southwesterly along that limit on a curve to the right of radius 2914.79 feet, an arc distance of 333.17 feet, the chord equivalent being 332.99 feet measured south 22° 18' 32" west; thence south 25° 35' west along that limit 332.48 feet; thence southwesterly along that limit on a curve to the right of radius 1687.02 feet, an arc distance of 90.63 feet, the chord equivalent being 90.62 feet measured south 27° 07' 20" west; thence south 24° 07' west along that limit 95.08 feet; thence southwesterly along that limit on a curve to the right of radius 1196.30 feet, an arc distance of 511.99 feet, the chord equivalent being 507.31 feet measured south 38° 57' 41" west to the intersection of the southwesterly limit of that highway with the westerly limit of Lot 15 in Concession X; thence south 18° 01' 30" east along the westerly limit of lots 15 and 14, a distance of 1591 feet, more or less, to the water's edge on the northerly shore of Sharbot Lake; thence in a general easterly direction following the water's edge on the northerly shore of that lake to the easterly limit of Lot 14 in Concession X; thence north 21° 10' west along the easterly limit of that lot 1064.74 feet, more or less, to the northeasterly corner of that lot; thence westerly along the northerly limit of that lot to its intersection with the water's edge on the southerly

shore of Black Lake; thence in a general westerly and northerly direction following the water's edge on the southerly and easterly shores of that lake to the intersection with a line drawn south $81^{\circ} 53'$ east from the point of beginning; thence north $81^{\circ} 53'$ west 190.76 feet, more or less, to the place of beginning. O. Reg. 117/63, s. 2.

Schedule 21

FIVE MILE LAKE PROVINCIAL PARK

In geographic townships 11D and 11E in the Territorial District of Sudbury containing an area of 1128.0 acres, more or less, and described as follows:

Beginning at the northwesterly corner of geographic Township 11D; thence southerly along the westerly boundary of that geographic township to a point distant 1386 feet measured north astronomically from the water's edge of Five Mile Lake; thence west astronomically 396 feet; thence southerly parallel to the westerly limit of that geographic township and the southerly production of that parallel line a distance of 2000 feet; thence south $41^{\circ} 35'$ east 4356 feet, more or less, to a point distant 660 feet measured southerly from and perpendicularly to the water's edge of Five Mile Lake; thence in a southeasterly direction parallel to the water's edge of Five Mile Lake and 660 feet in perpendicular distance therefrom to a line drawn south $45^{\circ} 30'$ west from the confluence of the water's edge of Five Mile Lake with the water's edge along the northwesterly shore of Pemache River; thence in a general northeasterly direction following that water's edge to a point in the westerly limit of the right of way of that part of the King's Highway known as Number 129; thence in a northerly and westerly direction along that highway limit to a point in a line drawn south astronomically from a point in the northerly boundary of geographic Township 11D distant 5676 feet measured east astronomically thereon from the northwesterly corner of that geographic Township 11D; thence north astronomically to a point in the water's edge on the southerly shore of Unegam Lake; thence in a general westerly, northwesterly and northerly direction following that water's edge to a point in the northerly boundary of geographic Township 11D, thence westerly along that northerly boundary to the place of beginning.

Excepting therefrom the right of way of that part of the King's Highway known as No. 129. O. Reg. 165/70, s. 2 (4).

Schedule 22

INWOOD PROVINCIAL CAMP AND PICNIC GROUNDS

In the geographic Township of Inwood in the Territorial District of Thunder Bay and described as follows:

Premising that all bearings herein are astronomic and are referred to the meridian through the intersection of the centre line of that part of the King's Highway known as No. 17 with the south limit of Lot 12, Concession II, in the geographic Township of Goldie, in longitude $89^{\circ} 53' 30''$ west:

Beginning at the southwest corner of Lot 2, being also the southeast corner of Lot 3, Concession I of the geographic Township of Upsala, marked by an iron bar; thence north $89^{\circ} 38' 45''$ west along the division line between the geographic township of Inwood and Upsala 464.76 feet to a monument; thence southeasterly 1278.34 feet on a curve right of 5629.65 feet radius, the chord equivalent being 1275.59 feet measured south $49^{\circ} 24' 38''$ east to a monument; thence south $45^{\circ} 33' 15''$ west 670.74 feet to an iron bar; thence south $0^{\circ} 27' 15''$ west 1008.35 feet to an iron bar; thence north $89^{\circ} 38' 45''$ west 1490.10 feet to an iron bar; thence north $0^{\circ} 24' 15''$ east 2305.04 feet to an iron bar in the division line between the geographic townships of Inwood and Upsala; thence south $89^{\circ} 38' 45''$ east along the said division line 526.40 feet to the place of beginning. R.R.O. 1960, Reg. 498, App. B, Sched. 23.

Schedule 23

RUSHING RIVER PROVINCIAL PARK

In the geographic townships of Kirkup and le May in the Territorial District of Kenora, containing an area of 469 acres, more or less, described as follows:

Premising that the bearings hereinafter mentioned are astronomical and are referred to the meridian through the centre of the geographic Township of Kirkup.

Beginning at a point in the geographic Township of Kirkup on the northeasterly limit of the right of way of that part of the King's Highway known as No. 71, distant 1997.50 feet measured south $42^{\circ} 34' 00''$ west from a point in the easterly boundary of that geographic township, distant 59.0 feet measured southerly along that easterly boundary from the 4 mile post planted therein; thence northwesterly along that highway limit on a curve to the left having a radius of 1054.93 feet, an arc distance of 352.19 feet, the chord equivalent being 350.56 feet measured north $37^{\circ} 52' 12''$ west; thence north $47^{\circ} 26' 00''$ west along that highway limit 1979.00 feet; thence northwesterly along that highway limit on a curve to the right having a radius of 1198.24 feet, an arc distance of 516.55 feet, the chord equivalent being 512.55 feet measured north $23^{\circ} 21' 33''$ west; thence north $1^{\circ} 54' 30''$ east along that highway limit 490.62 feet; thence south $77^{\circ} 17' 53''$ east along that highway limit 15.85 feet; thence northeasterly along that highway limit on a curve to the right having a radius of 1173.24 feet, an arc distance of 80.50 feet, the chord equivalent being 80.49 feet measured north $14^{\circ} 40' 04''$ east; thence north $16^{\circ} 38' 00''$ east along that highway limit 1151.41 feet; thence northeasterly on a curve

to the left having a radius of 816.20 feet, an arc distance of 448.54 feet, the chord equivalent being 442.92 feet measured north 13° 23' 51" east; thence north 16° 38' 00" east along that highway limit 110.18 feet; thence north 87° 10' east 217.66 feet; thence north 82° 03' east 335.80 feet; thence north 88° 40' east 164.70 feet; thence south 78° 30' 30" east 260.90 feet; thence north 89° 48' east 150.00 feet; thence south 83° 28' 00" east 328.50 feet; thence south 72° 04' 30" east 253.50 feet; thence south 83° 48' 30" east 1010.90 feet, more or less, to the westerly boundary of the geographic Township of le May; thence southerly along that westerly boundary to a point distant 200 feet measured northeasterly from and perpendicularly to the high-water mark of Dog-tooth Lake; thence in an easterly, southerly, and southwesterly direction parallel to that high water mark and 200 feet in perpendicular distance therefrom, to the intersection with a line drawn north 42° 34' 00" east from a point distant 2388.59 feet measured north 74° 42' 50" east from the place of beginning; thence south 42° 34' 00" west 1869.20 feet; thence south 74° 42' 50" west 2388.59 feet, more or less, to the place of beginning. O. Reg. 358/67, s. 1 (1).

Schedule 24

SIBBALD POINT PROVINCIAL PARK

In the Township of Georgina in the County of York, as it existed on the 31st day of December, 1970, containing an area of 556 acres, more or less, and described as follows:

Premising that all bearings mentioned herein are astronomical and are referred to the meridian through the northwesterly corner of Lot 7 Concession VIII in the Township of Georgina:

Beginning at a point in Lot 7 Concession IX in that township which may be located as follows:

Starting at the northwesterly corner of Lot 7 in Concession VIII; thence north 16° 47' west 66 feet; thence north 73° 58' east 38.75 feet; thence north 17° 49' west 9.0 feet; thence north 59° 51' east 167.0 feet to the place of beginning; thence south 59° 51' west 167.0 feet; thence south 17° 49' east 9.0 feet, more or less, to the northerly limit of the allowance for road between concessions VIII and IX; thence south 73° 58' west along that limit 38.75 feet; thence south 16° 47' east 66 feet, more or less, to the northwesterly corner of Lot 7 in Concession VIII; thence south 16° 47' east along the westerly limit of that lot a distance of 228.24 feet; thence north 73° 13' east 435.6 feet; thence south 16° 47' east 100.0 feet; thence south 73° 13' west 435.6 feet, more or less, to the westerly limit of that lot; thence south 16° 47' east along the westerly limit of that lot 435.88 feet, more or less, to the southwesterly corner of that lot; thence north 72° 19' 20" east along the southerly limit of lots 7, 8 and 9 in Concession VIII, 4425.31 feet; thence north 17° 35' 20" west 2372.77 feet; thence north 17° 44' 10" west 1285.0 feet, more or less, to the water's edge on

the southerly shore of Lake Simcoe; thence continuing north 17° 44' 10" west to a point distant 500 feet measured northerly from and perpendicularly to that water's edge; thence in a westerly, northwesterly and westerly direction parallel to that water's edge and 500 feet in perpendicular distance therefrom to a line drawn north 30° 09' west from the place of beginning; thence south 30° 09' east to the place of beginning. O. Reg. 165/70, s. 2 (5), *revised*.

Schedule 25

SILVER LAKE PROVINCIAL CAMP AND PICNIC GROUNDS

In the Township of South Sherbrooke in the County of Lanark and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and derived from the bearing north 79° 30' 15" east of the northerly limit of that part of the King's Highway known as No. 7; according to a Department of Highways plan of survey P-1879-8:

Beginning at the point of intersection of the water's edge on the southerly shore of Silver Lake with the northerly limit of that part of the King's Highway known as No. 7; thence north 71° 00' 45" east along the northerly limit of that highway 1050 feet, more or less, to a point in the easterly limit of the lands shown on deposited Plan No. 48 filed in the Registry Office for the Registry Division of Lanark South which said point is distant 42 feet measured north 18° 59' 15" west along the easterly limit of said deposited Plan No. 48 from a concrete monument on the northerly limit of that part of the King's Highway known as No. 7 shown on deposited Plan No. 46 as filed in the said Registry Office; thence north 18° 59' 15" west 100 feet; thence north 71° 00' 45" east 100 feet; thence south 18° 59' 15" east 125.63 feet, more or less, to a point in the northerly limit of the said highway; thence southeasterly along a curve to the right of radius 2, 914.79 feet along the northerly limit of the said highway an arc distance of 371.16 feet, the chord equivalent being 370.92 feet measured north 75° 51' 22" east; thence north 79° 30' 15" east along the northerly limit of the said highway 366.20 feet; thence north 10° 29' 45" west 210 feet; thence north 79° 30' 15" east 210 feet; thence north 10° 29' 45" west 814 feet, more or less, to a point in the high-water mark on the southerly shore of Silver Lake Creek; thence in a general easterly direction following that high-water mark to the intersection with the easterly limit of Lot 10 in Concession IX; thence north 40° 16' 30" west along the easterly limit of the said lot 1770 feet, more or less, to the northeasterly corner thereof; thence south 50° 28' west along the northerly limit of the said lot 1004.31 feet, more or less, to the water's edge on the easterly shore of Silver Lake; thence in a general southerly, easterly and southerly direction following the water's edge on the easterly and southerly shores of that lake to the place of beginning. O. Reg. 117/63, s. 2.

Schedule 26

SIX MILE LAKE PROVINCIAL PARK

In the geographic Township of Baxter in the Territorial District of Muskoka, as it existed on the 31st day of December, 1970, and described as follows:

1. Lots 12, 13, 15, 16, 17 and 18, according to Plan M-253, filed in the Office of Land Titles for the Land Titles Division of Muskoka, together with those parts of the original allowance for road along the shore of Baxter Lake opposite those lots.

2. That part of Reginald Drive lying northwesterly of a line joining the most easterly angle of Lot 9 and the most northerly angle of Block C, all according to Plan M-253.

3. The unsubdivided parts of lots 24 and 25 in Concession XI of the township lying west of the westerly boundary of that part of the King's Highway known as the Trans-Canada Highway and north of Reginald Drive and Block C according to the said Plan M-253, and lying north of a line drawn northerly 66° 08' east astronomically from the northeasterly angle of Block C and extending 179 feet, more or less, to the westerly boundary of that highway.

4. That part of Lot 24 in Concession XI of the township lying east of the easterly boundary of that part of the King's Highway known as the Trans-Canada Highway.

5. That part of Lot 24 in Concession XII of the township lying east of the easterly boundary of that part of the King's Highway known as the Trans-Canada Highway, together with the original allowance for road along the shore of Six Mile Lake opposite that part of that lot.

6. Those parts of Lot 23 in Concession XII of the township lying west of and north of Lot 10 according to Plan M-184 filed in the Office of Land Titles for the Land Titles Division of Muskoka, and lying north of the production easterly of the northerly boundary of Lot 10, together with the original allowance for road along the shore of Six Mile Lake opposite those parts of that lot. R.R.O. 1960, Reg. 498, App. B, Sched. 27, revised.

Schedule 27

SPRINGWATER PROVINCIAL
PICNIC GROUNDS

In the Township of Vespra in the County of Simcoe and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and referred to the meridian through the northeast angle of Lot 11, Concession VII in that township:

1. Those parts of lots 11 and 12 in Concession VI, starting at the southeasterly angle of the first-mentioned lot; thence north 31° 28' 30" west 442.52 feet to a survey post planted; thence south 85° 46' west 81.68 feet to a survey post which is the place of beginning for this description; thence south 85° 46' west 2506.74 feet to a survey post planted on the division line between the east and west halves of Lot 11; thence south 32° 34' east along that division line a distance of 1230.89 feet to a survey post planted; thence south 57° 26' west 709.0 feet to a survey post planted; thence south 32° 34' east 928.67 feet to a survey post planted; thence north 85° 46' east 2107.10 feet, more or less, to a survey post planted in a line drawn on a course of south 4° 14' east from the place of beginning; thence north 4° 14' west 2237.97 feet to the place of beginning.

2. That part of Lot 11 in Concession VI, starting at the southeasterly angle of that lot; thence north 31° 28' 30" west along the northeasterly limit of that lot a distance of 442.52 feet to a survey post planted; thence south 85° 46' west 411.68 feet to a survey post planted which is the place of beginning for this description; thence continuing south 85° 46' west 60.0 feet to a survey post planted; thence north 3° 23' 30" west 690.02 feet to a survey post planted in the southerly limit of that part of the King's Highway known as No. 26; thence north 85° 57' east along the southerly limit of that highway 60.0 feet to a point; thence south 3° 23' 30" east 688.66 feet, more or less, to the place of beginning. R.R.O. 1960, Reg. 498, App. B, Sched. 28.

Schedule 28

HOLIDAY BEACH PROVINCIAL PARK

In the Township of Malden in the County of Essex and described as follows:

1. That part of the Caldwell Grant described as follows:

Beginning at a point the northerly production of the westerly limit of a plan of subdivision registered in the Registry Office for the Registry Division of Essex as No. 1038, distant 450 feet measured northerly along that westerly limit and that production from the water's edge on the northerly shore of Lake Erie; thence north 76° 20' west 661.20 feet; thence south 11° 25' 30" west 255.20 feet; thence north 76° 20' west 1093.30 feet, more or less, to a point in a line drawn parallel to and distant 1764.5 feet measured westerly and perpendicularly to the westerly limit of Registered Plan No. 1038; thence south 13° 40' west along that parallel line to the water's edge on the northerly shore of Lake Erie; thence easterly along that water's edge 1764.5 feet, more or less, to the westerly limit of Registered Plan No. 1038; thence north 13° 40' east along the westerly limit of that registered plan and its production northerly 450 feet, more or less, to the place of beginning.

2. That part of the Caldwell Grant; that part of farm Lot 56, Concession V; that part of farm Lot 57, Concession VI; that part of the allowance for road between concessions V and VI; that part of the allowance for road between farm lots 55 and 56, Concession V, and that part of the allowance for road between farm lots 57 and 63, Concession VI, described as follows:

Beginning at a point in the centre line of the allowance for road between farm lots 55 and 56, Concession V, distant 480 feet measured westerly thereon from the production southerly of the easterly limit of farm Lot 55; thence south $13^{\circ} 40'$ west 1377 feet; thence south $46^{\circ} 06'$ west 2541 feet to the northeasterly edge of Marsh Creek; thence south 28° east along the northeasterly edge of that creek 600 feet; thence south $6^{\circ} 40'$ west along the northeasterly edge of that creek 160 feet; thence south $58^{\circ} 57'$ west along the northeasterly edge of that creek 66 feet, more or less, to the intersection with a line drawn parallel to and distant 1764.5 feet measured westerly and perpendicularly to the westerly limit of Registered Plan No. 1038; thence southerly along that parallel line to the intersection with a line drawn westerly and perpendicularly to the westerly limit of Registered Plan No. 1038 from a point distant 51.58 feet measured southerly along the westerly limit of Registered Plan No. 1038 from the northwesterly angle of Lot 1 according to that registered plan; thence south $76^{\circ} 20'$ east 1072.5 feet; thence north $11^{\circ} 25' 30''$ east 255.20 feet; thence south $76^{\circ} 20'$ east 682 feet, more or less, to a point distance 20 feet measured westerly from and perpendicularly to the northerly production of the westerly limit of Registered Plan No. 1038; thence north $13^{\circ} 40'$ east 1433.28 feet; thence north $44^{\circ} 02'$ east 631.02 feet; thence north $72^{\circ} 34'$ east 209.29 feet; thence north $85^{\circ} 10'$ east 388.30 feet; thence north $53^{\circ} 06'$ east 1379.25 feet, more or less, to a point in the southwesterly limit of that part of the King's Highway known as No. 18A; thence northwesterly along the southerly limit of that highway 1664 feet, more or less, to an old wire fence in the centre line of the allowance for road between farm lots 57 and 63, Concession VI; thence westerly following that wire fence and the wire fence in the centre line of the allowance for road between farm lots 55 and 56, Concession V, a distance of 1214 feet, more or less, to the place of beginning. R.R.O. 1960, Reg. 498, App. B, Sched. 29.

Schedule 29

GRUNDY LAKE PROVINCIAL PARK

In the geographic Township of Mowat in the Territorial District of Parry Sound and described as follows:

Beginning at the northeasterly angle of Lot 16, Concession XVIII; thence westerly along the northerly limits of lots 16, 17, 18, 19 and 20, Concession XVIII, to the northwesterly angle of Lot 20; thence southerly along the westerly limit of that lot to the southwesterly angle of that lot; thence westerly in a straight line to the northeasterly angle of Lot 21, Concession XVII; thence westerly along the northerly limits of lots 21 and 22, Concession XVII, to the easterly limit of the French River Indian Reserve No. 13; thence southerly along that limit to the southeasterly angle of that Indian reserve; thence westerly along the southerly limit of that Indian reserve to the southwesterly angle of that Indian reserve; thence northerly along the westerly limit of that Indian reserve to the most northeasterly angle of Lot 30, Concession XVIII; thence westerly along the northerly limit of that lot to the northwesterly angle of that lot; thence westerly in a straight line to the northeasterly angle of Lot 31, Concession XVIII; thence westerly along the northerly limits of lots 31, 32 and 33 to the intersection with the easterly limit of that part of the King's Highway known as No. 69; thence southerly along the easterly limit of that highway to the intersection with the northerly limit of a road known as the Pakesley Road; thence easterly along the northerly limit of that road to the intersection with the southerly limit of Lot 30, Concession XIV; thence easterly along the southerly limits of lots 30, 29, 28, 27 and 26, Concession XIV, to the southeasterly angle of Lot 26; thence easterly along the production easterly of the southerly limit of that lot to the intersection with the westerly limit of the right of way of the Canadian Pacific Railway; thence northerly along the westerly limit of that right of way to the intersection with the easterly limit of Lot 25, Concession XV; thence northerly along the easterly limit of that lot to the northeasterly angle of that lot; thence easterly along the line between concessions XV and XVI to the intersection with the westerly limit of the right of way of the Canadian Pacific Railway; thence northerly along the westerly limit of that right of way to the intersection with the easterly limit of Lot 23, Concession XVI; thence northerly along the easterly limit of that lot to the northwesterly angle of that lot; thence northerly in a straight line to the southeasterly angle of Lot 23, Concession XVII; thence easterly along the southerly limits of lots 22 and 21, Concession XVII, to the southeasterly angle of Lot 21; thence easterly in a straight line to the southwesterly angle of Lot 20, Concession XVII; thence easterly along the southerly limits of lots 20, 19, 18, 17 and 16, Concession XVII, to the southeasterly angle of Lot 16; thence northerly along the easterly limit of that lot and Lot 16, Concession XVIII, to the place of beginning;

Excepting thereout and therefrom the right of way of the Canadian Pacific Railway through Lot 20, Concession XVIII, and lots 20 and 21, Concession XVII. R.R.O. 1960, Reg. 498, App. B, Sched. 30.

Schedule 30

TURKEY POINT PROVINCIAL PARK

In the Township of Charlotteville in the County of Norfolk and described as follows:

1. All those parts of lots 13 and 14 in Concession A described as follows:

Beginning at the most northerly angle of Lot 14 in Concession A; thence southeasterly along the northeasterly limit of that lot 2715.83 feet, more or less, to a point in the northerly limit of a road known as the Normandale Road; thence westerly along the northerly limit of that road to its intersection with the northwesterly limit of Lot 13 in Concession A; thence northeasterly along the northwesterly limits of lots 13 and 14 a distance of 3773.67 feet, more or less, to the place of beginning.

2. Those parts of lots 13 and 14 in Concession A described as follows:

Beginning at the most westerly angle of Lot 13 in Concession A; thence southeasterly along the southwesterly limit of that lot 4565.19 feet, more or less, to the northwesterly limit of a road known as the Lake Shore Road; thence easterly along the northerly limit of that road to its intersection with the westerly limit of a road known as the Turkey Point Road; thence northerly along the westerly limit of that road to its intersection with the southerly limit of a road known as the Normandale Road; thence westerly along the southerly limit of that road to its intersection with the northwesterly limit of Lot 13 in Concession A; thence southwesterly along that limit 109.3 feet, more or less, to the place of beginning.

3. That part of Lot 14 in Concession A described as follows:

Beginning at a point where the northeasterly limit of Lot 14 in Concession A is intersected by the southerly limit of a road known as the Normandale Road, distant 2788.64 feet measured southeasterly along the northeasterly limit of that lot from the most northerly angle of that lot; thence westerly along the southerly limit of that road to its intersection with the easterly limit of a road known as the Turkey Point Road; thence southerly along the easterly limit of that road to its intersection with the northerly limit of a road known as the Lake Shore Road; thence easterly along the northerly limit of that road to its intersection with the northeasterly limit of Lot 14; thence northwesterly along the northeasterly limit of that lot 1406.06 feet, more or less, to the place of beginning.

4. Those parts of lots 13 and 14 in Concession A described as follows:

Beginning at a point in the southwesterly limit of Lot 13 in Concession A, distant 4634.13 feet measured southeasterly along that limit from the most westerly angle of that lot; thence southeasterly along the southwesterly limit of that lot 2782.41 feet, more or less, to the northerly limit of a plan registered in the Registry Office for the Registry Division of Norfolk as No. 346; thence easterly along the northerly limit of that registered plan to the northeasterly angle of that registered plan; thence easterly in a straight line to the most westerly angle of a plan registered in the Registry Office for the Registry Division of Norfolk as No. 304; thence easterly along the northerly limits of that registered plan and of those plans registered in the Registry Office for the Registry Division of Norfolk as No. 270 and No. 226 to the northeasterly angle of Registered Plan No. 226; thence in a general northerly direction along the westerly limit of a road known as the Turkey Point Road to its intersection with the southerly limit of a road known as the Lake Shore Road; thence westerly along the southerly limit of that road to the place of beginning.

5. Those parts of lots 13, 14 and 15 in Concession A described as follows:

Beginning at the point of intersection of the southerly limit of a road known as the Lake Shore Road with the northeasterly limit of Lot 14 in Concession A, distant 4260.92 feet measured southeasterly along that limit from the most northerly angle of that lot; thence southeasterly along the northeasterly limit of Lot 14, a distance of 2923.03 feet; thence north 60° 10' east 418.44 feet; thence south 29° 50' east 418.44 feet; thence south 60° 10' west 418.44 feet, more or less, to the northeasterly limit of Lot 14; thence southeasterly along the northeasterly limit of that lot to the foot of a high bank along the northerly shore of Lake Erie; thence in a general southwesterly direction following the foot of that high bank to its intersection with the northeasterly limit of a plan registered in the Registry Office for the Registry Division of Norfolk as No. 135; thence northwesterly along that northeasterly limit to the northeasterly angle of that registered plan; thence westerly along the northerly limit of that registered plan to the northwesterly angle of that registered plan; thence south 76° 28' 30" west to the easterly limit of a road known as the Turkey Point Road; thence in a general northerly direction following the easterly limit of that road to its intersection with the southerly limit of a road known as the Lake Shore Road; thence easterly along the southerly limit of that road to the place of beginning.

6. Those parts of lots 11 and 12 in Concession A described as follows:

Beginning at a point in the interior of Lot 12 in Concession A distant 66 feet measured south 60° 10' west from a point distant 7409.74 feet measured southeasterly along the northeasterly limit of that

lot from the most northerly angle of that lot; thence south $29^{\circ} 50'$ east 1332.5 feet; thence south $60^{\circ} 10'$ west 2915.98 feet; thence north $29^{\circ} 50'$ west 1367.35 feet; thence north $60^{\circ} 01'$ east 995.0 feet; thence easterly along the foot of a high bank 1936.78 feet, more or less, to the place of beginning.

7. The Fishery Reserve along the northerly shore of Lake Erie in front of lots 12 and 13 in Concession A;

Excepting from this Schedule,

- (a) a travelled road having a uniform width of 66 feet crossing part of the Fishery Reserve in front of Lot 13 and part of Lot 12 in Concession A;
- (b) those lands contained in Licence of Occupation No. 6249; and
- (c) those lands vested in Her Majesty the Queen in right of Canada as represented by the Minister of Public Works and contained in an Order in Council numbered OC-1062/51 and dated the 30th day of May, 1951. R.R.O. 1960, Reg. 498, App. B, Sched. 31.

Schedule 31

WINDY LAKE PROVINCIAL PARK

In the geographic townships of Cascaden and Dowling in the Territorial District of Sudbury and described as follows:

Premising that the bearings herein are astronomic and referred to the meridian through the northeasterly angle of Lot 12, Concession VI, in the geographic Township of Dowling:

1. In the geographic Township of Cascaden,

- (a) those parts of lots 1 and 2, Concession VI, described as follows:

Beginning at a point in the southeasterly limit of the Cartier Road where the same is intersected by the easterly limit of Lot 2, distant 1646.51 feet, more or less, measured south $0^{\circ} 22' 30''$ east along the easterly limit of that lot from the northeasterly angle of that lot; thence south $29^{\circ} 08' 30''$ west along the southeasterly limit of the Cartier Road 70.92 feet; thence southwesterly along that limit on a curve to the right of radius 1482.69 feet an arc distance of 499.01 feet, the chord equivalent being 496.66 feet measured south $38^{\circ} 47'$ west; thence south $48^{\circ} 25' 30''$ west along that limit 531.38 feet; thence southwesterly along that limit on a curve to the right of radius 1482.69 feet an arc distance

of 349.35 feet, the chord equivalent being 348.54 feet measured south $55^{\circ} 10' 30''$ west; thence south $9^{\circ} 58' 40''$ east 780.93 feet; thence south $15^{\circ} 05'$ east 761.0 feet; thence east astronomically 180 feet, more or less, to the water's edge on the northerly shore of Windy Lake; thence in a general easterly direction following that water's edge to the production southerly of the easterly limit of Lot 1; thence north $0^{\circ} 23'$ west along that production and the easterly limit of that lot 1413.53 feet, more or less, to the southwesterly limit of the right of way of the Canadian Pacific Railway; thence north $57^{\circ} 58'$ west along that limit 831.42 feet; thence northwesterly along that limit on a curve to the right of radius 3064.93 feet an arc distance of 1143.86 feet, the chord equivalent being 1137.23 feet measured north $47^{\circ} 16' 30''$ west; thence north $36^{\circ} 35'$ west along that limit 577.38 feet, more or less, to the southeasterly limit of the Cartier Road; thence south $73^{\circ} 09'$ west along that limit 218.02 feet; thence southwesterly along that limit on a curve to the left of radius 333.06 feet an arc distance of 255.82 feet, the chord equivalent being 249.58 feet measured south $51^{\circ} 08' 45''$ west; thence south $29^{\circ} 08' 30''$ west along that limit 750.47 feet, more or less, to the place of beginning; and

- (b) that part of Lot 1, Concession VI, described as follows:

Beginning at a point in the southwesterly limit of the Cartier Road where the same is intersected by the easterly limit of that lot distant 1474.7 feet, more or less, measured south $0^{\circ} 23'$ east along the easterly limit of that lot from the northeasterly angle thereof; thence south $0^{\circ} 23'$ east along the easterly limit of that lot 550.91 feet to the northeasterly limit of the right of way of the Canadian Pacific Railway; thence north $57^{\circ} 58'$ west along that limit 577.40 feet; thence northwesterly along that limit on a curve to the right of radius 2664.93 feet an arc distance of 994.58 feet, the chord equivalent being 988.82 feet measured north $47^{\circ} 16' 30''$ west; thence north $36^{\circ} 35'$ west along that limit 159.13 feet, more or less, to the southwesterly limit of the Cartier Road; thence south $62^{\circ} 25'$ east along that limit 707.66 feet; thence southeasterly along that limit on a curve to the left of radius 1482.19 feet an arc distance of 303.96 feet, the chord equivalent being 303.43 feet measured south $68^{\circ} 17' 30''$ east; thence south $74^{\circ} 10'$ east along that limit 359.45 feet; thence southeasterly along that limit on a curve to the right of radius 1224.07 feet an arc distance of 54.51 feet, the chord equivalent being 54.50 feet measured south $72^{\circ} 53' 30''$ east to the place of beginning.

2. In the geographic Township of Dowling, being,

- (a) that part of Lot 12, Concession VI, described as follows:

Beginning at a point in the southwesterly limit of the Cartier Road where the same is intersected by the westerly limit of that lot distant 1474.7 feet measured south $0^{\circ} 23'$ east along that limit from the northwesterly angle thereof; thence southeasterly along the southwesterly limit of the Cartier Road on a curve to the right of radius 1224.07 feet an arc distance of 1152.56 feet, the chord equivalent being 1110.46 feet measured south $44^{\circ} 38' 30''$ east; thence south $17^{\circ} 40'$ east along that limit 258.0 feet; thence southeasterly along that limit on a curve to the left of radius 1256.07 feet an arc distance of 250.80 feet, the chord equivalent being 250.38 feet measured south $23^{\circ} 23' 15''$ east to the northeasterly limit of the right of way of the Canadian Pacific Railway; thence north $57^{\circ} 58'$ west along that limit 675.99 feet; thence north $32^{\circ} 02'$ east along that limit 100 feet; thence north $57^{\circ} 58'$ west along that limit 512.0 feet, more or less, to the westerly limit of that lot; thence north $0^{\circ} 23'$ west along the westerly limit of that lot 550.91 feet, more or less, to the place of beginning;

- (b) those parts of Lot 12, concessions V and VI, described as follows:

Beginning at a point in the southwesterly limit of the right of way of the Canadian Pacific Railway where the same is intersected by the westerly limit of Lot 12, Concession VI, distant 2499.44 feet measured southerly along the westerly limit of that lot from the northwesterly angle thereof; thence south $57^{\circ} 58'$ east along the southwesterly limit of that right of way 257.98 feet; thence north $32^{\circ} 02'$ east along that limit 50 feet; thence south $57^{\circ} 58'$ east along that limit 500 feet; thence north $32^{\circ} 02'$ east along that limit 50 feet; thence south $57^{\circ} 58'$ east along that limit 3592.88 feet; thence southeasterly along that limit on a curve to the right of radius 1332.69 feet an arc distance of 60.62 feet, the chord equivalent being 60.62 feet measured south $56^{\circ} 39' 50''$ east; thence southeasterly along the southwesterly limit of the right of way of the Canadian Pacific Railway on a curve to the right of radius 1383.19 feet an arc distance of 102.01 feet, the chord equivalent being 101.99 feet measured south $41^{\circ} 08' 40''$ east; thence south $28^{\circ} 12'$ west 401.69 feet; thence west astronomically 318 feet, more or less, to the water's edge on the northerly shore of Windy Lake; thence in a general northwesterly direction following

that water's edge to the production southerly of the westerly limit of Lot 12, Concession VI; thence north $0^{\circ} 23'$ west along the westerly limit of that lot 1413.53 feet, more or less, to the place of beginning; and

- (c) those parts of Lot 12, concessions V and VI, described as follows:

Beginning at a point in the line between concessions V and VI distant 829.24 feet measured north $87^{\circ} 25'$ west thereon from the southeasterly angle of Lot 12, Concession VI; thence south $28^{\circ} 12'$ west 330.82 feet to a point in the northeasterly limit of the right of way of the Canadian Pacific Railway; thence northwesterly along that limit on a curve to the left of radius 1532.69 feet an arc distance of 143.46 feet, the chord equivalent being 143.41 feet measured north $55^{\circ} 17' 05''$ west; thence north $57^{\circ} 58'$ west along that limit 2686.58 feet, more or less, to the southeasterly limit of the Cartier Road; thence north $88^{\circ} 13' 30''$ east along that limit 2114.20 feet; thence south $2^{\circ} 21'$ west 861.49 feet; thence south $58^{\circ} 47'$ east 616.89 feet; thence south $28^{\circ} 12'$ west 113.60 feet, more or less, to the place of beginning. R.R.O. 1960, Reg. 498, App. B, Sched. 32.

Schedule 32

WASAGA BEACH PROVINCIAL PARK

In the Corporation of the Village of Wasaga Beach and in the townships of Sunnidale and Nottawasaga in the County of Simcoe and described as follows:

1. In the Corporation of the Village of Wasaga Beach and described as follows:

Beginning at a point distant 1.117 chains measured north $31^{\circ} 57'$ west from a point distant 0.53 chains measured south $58^{\circ} 03'$ west from the most westerly angle of a plan registered in the Registry Office for the Registry Division of Simcoe as Number 648; thence south $34^{\circ} 08'$ west 15.396 chains; thence south $36^{\circ} 22'$ west 57.243 chains; thence south $38^{\circ} 27'$ west 62.855 chains; thence south $40^{\circ} 24'$ west 13.552 chains; thence south $41^{\circ} 23'$ west 9.207 chains, more or less, to the intersection with the production northwesterly of the southwesterly limit of Lot 2 according to a plan registered in the Registry Office for the Registry Division of Simcoe as Number 674; thence northwesterly along that production to a point in the bed of Nottawasaga Bay of Georgian Bay, distant 1320 feet measured northwesterly from and perpendicularly to the water's edge of said Nottawasaga Bay; thence northeasterly parallel to the said water's edge and distant 1320 feet in perpendicular width therefrom to the intersection with a line drawn north 45° west from the most northerly extremity of the point of land at the confluence of the water's edge

along Nottawasaga Bay of Georgian Bay with the water's edge along the northwesterly shore of Nottawasaga River; thence south 45° east to a point distant 100 feet measured northeasterly from and perpendicularly to the said water's edge of Nottawasaga Bay; thence in an easterly, southeasterly, southerly and southwesterly direction parallel to the said water's edge of Nottawasaga Bay and the water's edge along the northwesterly shore of the Nottawasaga River and distant 100 feet in perpendicular width therefrom to the intersection with the southeasterly production of the southwesterly limit of Lot N according to a plan registered in the Registry Office for the Registry Division of Simcoe as Plan Number 648; thence northwesterly along the said production and the southwesterly limit of said Lot N to the most westerly corner thereof; thence northeasterly along the northwesterly limit of said Lot N to the intersection with a line drawn southeasterly parallel to the line between lots 34 and 35 according to said registered Plan Number 648 and distant 50 feet in perpendicular width therefrom; thence northwesterly along the said parallel line to the intersection with a line drawn north $34^{\circ} 08'$ east from the place of beginning; thence southerly $34^{\circ} 08'$ west, 11.30 chains, more or less, to the place of beginning.

Saving and excepting therefrom that part of Jenetta Street lying in front of lots 35 to 40, inclusive, and part of Lot 34 according to said registered Plan Number 648.

2. In the Township of Sunnidale and described as follows:

Beginning at the most westerly corner of Lot 2 according to registered Plan Number 674; thence northwesterly in a straight line 1.2 chains, more or less, to the most northerly corner of Lot 53 according to a plan registered in the Registry Office for the Registry Division of Simcoe as Number 837; thence southwesterly along the northwesterly limit of lots 53, 52 and 25 to 13, both inclusive, according to said Plan Number 837 to the most westerly corner of said Lot 13; thence southwesterly in a straight line to the most northerly corner of Lot 12 according to said Plan Number 837; thence southwesterly along the northwesterly limit of lots 12 to 3, both inclusive, according to said Plan Number 837 to the most westerly corner of said Lot 3; thence southwesterly in a straight line 38 chains, more or less, to the most northerly corner of Lot 1 according to a plan registered in the Registry Office for the Registry Division of Simcoe as Number 679; thence southwesterly along the northwesterly limit of lots 1 to 8, both inclusive, according to said Plan Number 679 to the most westerly corner of said Lot 8; thence southwesterly in a straight line to the most northerly corner of Lot 9 according to said Plan Number 679; thence southwesterly along the northwesterly limit of lots 9 to 14, both inclusive, according to said Plan Number 679 to the most westerly corner of said Lot 14; thence southwesterly in a straight

line to the most northerly corner of Lot 15 according to said Plan Number 679; thence southwesterly along the northwesterly limit of lots 15 to 20, both inclusive, according to said Plan Number 679 to the most westerly corner of said Lot 20; thence southwesterly in a straight line to the most northerly corner of Lot 21 according to said Plan Number 679; thence southwesterly along the northwesterly limit of lots 21 to 26, both inclusive, according to said Plan Number 679 to the most westerly corner of said Lot 26; thence southwesterly along the production southwesterly of the northwesterly limit of said Lot 26 to the southwesterly limit of Fourth Avenue according to said Plan Number 679; thence northwesterly along that limit and its production northwesterly 1.1 chains; thence southwesterly in a straight line 10.9 chains, more or less, to a point distant 0.2 chains measured northwesterly along the production northwesterly of the northeasterly limit of Lot A according to a plan registered in the Registry Office for the Registry Division of Simcoe as Plan Number 705; thence southeasterly along the production northwesterly of the southeasterly limit of said Lot A, 0.2 chains to the most northerly corner of Lot A; thence southwesterly along the northwesterly limit of lots A, B, C and 1 to 4, both inclusive, according to said Plan Number 705 to the most westerly corner of said Lot 4; thence southwesterly in a straight line to the most northerly corner of Lot 5 according to said Plan Number 705; thence southwesterly along the northwesterly limits of lots 5 to 11, both inclusive, according to said Plan Number 705 to the most westerly corner of said Lot 11; thence southwesterly in a straight line to the most northerly corner of Lot 12 according to said Plan Number 705; thence southwesterly along the northwesterly limit of lots 12 to 18, both inclusive, according to said Plan Number 705 to the most westerly corner of said Lot 18; thence southwesterly in a straight line to the most northerly corner of Lot 19 according to said Plan Number 705; thence southwesterly along the northwesterly limit of lots 19 to 25, both inclusive, according to said Plan Number 705 to the most westerly corner of said Lot 25; thence southwesterly in a straight line to the most northerly corner of Lot 26 according to said Plan Number 705; thence southwesterly along the northwesterly limit of lots 26 to 32, both inclusive, according to said Plan Number 705 to the most westerly corner of said Lot 32; thence southwesterly in a straight line to the most northerly corner of Lot 33, according to said Plan Number 705; thence southwesterly along the northwesterly limit of lots 33 to 39, both inclusive, according to said Plan Number 705 to the most westerly corner of said Lot 39; thence southwesterly in a straight line to the most northerly corner of Lot 40 according to said Plan Number 705; thence southwesterly along the northwesterly limit of lots 40 to 46, both inclusive, according to said Plan Number 705 to the most westerly corner of said Lot 46; thence southwesterly in a straight line to the most northerly corner of Lot 47 according to said Plan Number 705; thence southwesterly along the northwesterly limit of lots 47 to 53,

both inclusive, according to said Plan Number 705 to the most westerly corner of said Lot 53; thence southwesterly in a straight line to the most northerly corner of Lot 54 according to a plan registered in the Registry Office for the Registry Division of Simcoe as Number 805; thence southwesterly along the northwesterly limit of lots 54 to 60, both inclusive, according to said Plan Number 805 to the most westerly corner of said Lot 60; thence southwesterly in a straight line to the most northerly corner of Lot 61 according to said Plan Number 805; thence southwesterly along the northwesterly limit of lots 61 to 67, both inclusive, according to said Plan Number 805 to the most westerly corner of said Lot 67; thence southwesterly in a straight line to the most northerly corner of Lot 68 according to said Plan Number 805; thence southwesterly along the northwesterly limit of lots 68 to 74, both inclusive, according to said Plan Number 805 to the most westerly corner of said Lot 74; thence southwesterly in a straight line to the most northerly corner of Lot 75 according to said Plan Number 805; thence southwesterly along the northwesterly limit of lots 75 to 81, both inclusive, according to said Plan Number 805 to the most westerly corner of said Lot 81; thence southwesterly in a straight line to the most northerly corner of Lot 82 according to said Plan Number 805; thence southwesterly along the northwesterly limit of lots 82 to 101, both inclusive, according to said Plan Number 805 to the most westerly corner of said Lot 101; thence southwesterly in a straight line to the most northerly corner of Lot 24 according to a plan registered in the Registry Office for the Registry Division of Simcoe as Number 700; thence southwesterly along the northwesterly limit of lots 24 to 12, both inclusive, according to said Plan Number 700 to the most westerly corner of said Lot 12; thence southwesterly in a straight line to the most northerly corner of Lot 11 according to said Plan Number 700; thence southwesterly along the northwesterly limit of lots 11 to 2, both inclusive, according to said Plan Number 700 to the most northwesterly corner of Lot 1 according to said Plan Number 700; thence northwesterly along the production northwesterly of the southwesterly limit of Lot 1 according to said Plan Number 700 to a point in the bed of Nottawasaga Bay of Georgian Bay and which point is distant 1320 feet measured northwesterly from and perpendicularly to the water's edge of said Nottawasaga Bay; thence in a northwesterly direction parallel to the said water's edge and distant 1320 feet in perpendicular width therefrom to the intersection with the northwesterly production of the southwesterly limit of Lot 2 according to a plan registered in the Registry Office for the Registry Division of Simcoe as Number 674; thence southeasterly along the said production to the place of beginning.

3. In the townships of Nottawasaga and Sunnidale and described as follows:

Beginning at the most northwesterly corner of Lot 1 according to a plan registered in the Registry Office for the Registry Division of Simcoe as Number

700; thence southwesterly in a straight line to the most northerly corner of Lot 1 according to a plan registered in the Registry Office for the Registry Division of Simcoe as Number 824; thence southwesterly along the northwesterly limit of lots 1 to 12, both inclusive, according to said Plan Number 824 to the most westerly corner of said Lot 12; thence southwesterly in a straight line to the most northerly corner of Lot 13 according to said Plan Number 824; thence southwesterly along the northwesterly limit of lots 13 to 29, both inclusive, according to said Plan Number 824 to the most westerly corner of said Lot 29; thence southwesterly in a straight line to the most northerly corner of Lot 30 according to said Plan Number 824; thence southwesterly along the northwesterly limit of Lot 30 according to said Plan Number 824 to the most westerly corner thereof, being also the northwesterly corner of Lot 31 according to said Plan Number 824; thence southwesterly in a straight line to the most northerly corner of Lot 40 according to a plan registered in the Registry Office for the Registry Division of Simcoe as Number 787; thence southwesterly along the northwesterly limit of lots 40 and 46 according to said Plan Number 787 to the most westerly corner of said Lot 36; thence southwesterly in a straight line to the most northerly corner of Lot 35 according to said Plan Number 787; thence southwesterly along the northwesterly limit of lots 35 to 24, both inclusive, according to said Plan Number 787 to the most westerly corner of said Lot Number 24; thence southwesterly in a straight line to the most northerly corner of Lot 23 according to said Plan Number 787; thence southwesterly along the northwesterly limit of lots 23 to 12, both inclusive, according to said Plan Number 787 to the most westerly corner of said Lot 12; thence southwesterly in a straight line to the most northerly corner of Lot 11 according to said Plan Number 787; thence southwesterly along the northwesterly limit of lots 11 to 1, both inclusive, according to said Plan Number 787 to the most westerly corner of said Lot 1; thence southwesterly in a straight line to the most northerly corner of Lot 17 according to a plan registered in the Registry Office for the Registry Division of Simcoe as Number 789; thence southwesterly along the northwesterly limit of lots 17 to 10, both inclusive, to the most westerly corner of Lot 10 according to said Plan Number 789; thence southwesterly in a straight line to the most northerly corner of Lot 9 according to said Plan Number 789; thence southwesterly along the northwesterly limit of lots 9 to 1, both inclusive, according to said Plan Number 789 to the most westerly corner of said Lot 1; thence southwesterly in a straight line to the most northerly corner of Lot 1 according to a plan registered in the Registry Office for the Registry Division of Simcoe as Number 810; thence southwesterly along the northwesterly limit of lots 1 to 6, both inclusive, according to said Plan Number 810 to the most westerly corner of said Lot 6; thence southwesterly in a straight line to the most northerly corner of Lot 7 according to said Plan Number 810; thence southwesterly along the northwesterly limit of lots

7 to 16, both inclusive, according to said Plan Number 810 to the most westerly corner of said Lot 16; thence southwesterly in a straight line to the most northerly corner of Lot 17 according to said Plan Number 810; thence southwesterly along the northwesterly limit of lots 17 to 26, both inclusive, according to said Plan Number 810 to the most westerly corner of said Lot 26; thence southwesterly in a straight line to the most northerly corner of Lot 27 according to said Plan Number 810; thence southwesterly along the northwesterly limit of lots 27 to 36, both inclusive, according to said Plan Number 810 to the most westerly corner of said Lot 36, being also the most northerly corner of Lot 30 according to a plan registered in the Registry Office for the Registry Division of Simcoe as Number 878; thence southwesterly along the northwesterly limit of Lot 30 according to said Plan Number 878 to the most westerly corner of said Lot 30; thence southwesterly in a straight line to the most northerly corner of Lot 1 according to said Plan Number 878; thence southwesterly along the northwesterly limit of lots 1 to 6, both inclusive, according to said Plan Number 878 to the intersection with the northeasterly limit of Lot 24 according to a plan registered in the Registry Office for the Registry Division of Simcoe as Number 687; thence northwesterly along the northeasterly limit of said Lot 24 to the most northerly corner thereof; thence southwesterly along the northwesterly limit of lots 24 to 21, both inclusive, according to said Plan Number 687 to the most westerly corner of said Lot 21; thence southwesterly along the northwesterly limit of Cedar Avenue according to said Plan Number 687 to the most northerly corner of Lot 20 according to said Plan Number 687; thence southwesterly along the northwesterly limit of lots 20 to 13, both inclusive, according to said Plan Number 687 to the most westerly corner of said Lot 13; thence southwesterly along the northwesterly limit of Spruce Avenue according to said Plan Number 687 to the most northerly corner of Lot 12 according to said Plan Number 687; thence southwesterly along the northwesterly limit of lots 12 to 5, both inclusive, according to said Plan Number 687 to the most westerly corner of said Lot 5; thence southwesterly along the northwesterly limit of McAllister Avenue according to said Plan Number 687 to the most northerly corner of Lot 4 according to said Plan Number 687; thence southwesterly along the northwesterly limit of lots 4 to 1, both inclusive, according to said Plan Number 687 to the most westerly corner of said Lot 1, being also the most northerly corner of Lot 1 according to Plan Number 859; thence southwesterly along the northwesterly limit of lots 1 to 8, both inclusive, according to a plan registered in the Registry Office for the Registry Division of Simcoe as Number 859 to the most westerly corner of said Lot 8; thence northwesterly along the northwesterly production of the southwesterly limit of Lot 8 according to said Plan Number 859 to a point in the bed of Nottawasaga Bay of Georgian Bay of Lake Huron and which point is distant 1320 feet measured northwesterly from and perpendicularly to

the water's edge of said Nottawasaga Bay; thence in a general northeasterly direction parallel to the said water's edge and distant 1320 feet in perpendicular width therefrom to the intersection with the northwesterly production of the southwesterly limit of Lot 1 according to a plan registered in the Registry Office for the Registry Division of Simcoe as Number 700; thence southeasterly along the said production to the place of beginning. O. Reg. 179/65, s. 1; O. Reg. 388/66, s. 1, *revised*.

Schedule 33

DARLINGTON PROVINCIAL PARK

In the Township of Darlington in the County of Durham and described as follows:

1. The parts of lots 32, 33 and 34 and the west half of Lot 31 in the Broken Front Concession lying south of the southerly limit, as defined by the fence existing in February, 1956, of the right of way of the Canadian National Railways.

2. Lot 35 in the Broken Front Concession.

3. The part of Lot 35 in Concession I lying south of the southerly limit, as defined by the fence existing in February, 1956, of the right of way of the Canadian National Railways.

4. Beginning at a point in the water's edge of Lake Ontario, in Lot 31, Broken Front Concession, Township of Darlington, and which point is located as follows:

Beginning at the northwesterly corner of said Lot 31; thence north $73^{\circ} 14'$ east along the northerly limit of said Lot 31, a distance of 663.8 feet; thence south $17^{\circ} 10' 40''$ east 920.34 feet; thence south $17^{\circ} 28' 30''$ east 2566.5 feet to a survey post planted; thence continuing south $17^{\circ} 28' 30''$ east 280.0 feet to the place of beginning; thence south $17^{\circ} 28' 30''$ east 600.0 feet; thence westerly in a straight line to a point in the southerly production of the westerly limit of Lot 35, Broken Front Concession, distant 3455.0 feet measured south $16^{\circ} 58' 30''$ east along the said westerly limit of Lot 35 and its southerly production from the northwesterly corner thereof; thence north $16^{\circ} 58' 30''$ west along the said southerly production 3405.0 feet, more or less, to a point in the water's edge of Lake Ontario; thence in a general southeasterly, westerly, southerly and south-easterly direction following the said water's edge to the place of beginning. O. Reg. 205/64, s. 2.

Schedule 34

BLUE LAKE PROVINCIAL PARK

In the geographic townships of Smellie and Wabigoon, in the Territorial District of Kenora, containing an area of 874 acres, more or less, described as follows:

1. Lots 1 and 2 in Concession I, and part of Lot 1 in Concession II in the geographic Township of Smellie, and part of Lot 12 in concessions I and II, in the geographic Township of Wabigoon, and described as follows:

Beginning at the southeasterly corner of Lot 5, Plan M-406; thence westerly along the southerly limit of that lot to the southwesterly corner thereof; thence westerly along the westerly production of that southerly limit to a point distant 300 feet measured southwesterly from and perpendicularly to the water's edge of Flavus Lake; thence in a southerly, southwesterly, northwesterly and southwesterly direction parallel to the water's edge and 300 feet in perpendicular distance therefrom to the intersection with the northerly production of the line between lots 2 and 3 in Concession I; thence southerly along that northerly production and the line between the said lots 2 and 3 to the southwesterly corner of Lot 2 in Concession I; thence easterly along the southerly limit of that lot to the intersection with the water's edge of Langton Lake; thence easterly along the easterly production of that southerly limit to a point distant 300 feet measured southeasterly from and perpendicularly to that water's edge; thence in a northerly, southeasterly, northeasterly and easterly direction parallel to that water's edge and 300 feet in perpendicular distance therefrom to the intersection with the southerly production of the westerly limit of Lot 12 in Concession I in the geographic Township of Wabigoon; thence northerly along that southerly production and the westerly limit of that lot to a point distant 2640 feet measured southerly along that westerly limit from the northwesterly corner of that lot; thence easterly parallel to the northerly limit of that lot to the intersection with the easterly limit thereof; thence northerly along that easterly limit to the intersection with the southwesterly limit of the right of way of that part of the King's Highway known as No. 647; thence northwesterly along that southwesterly limit to the intersection with the easterly limit of Lot 5, Plan M-406; thence southerly along that easterly limit to the place of beginning.

2. Part of Lot 12 in concessions I and II in the geographic Township of Wabigoon and described as follows:

Beginning at the northeasterly corner of Lot 6, Plan M-406; thence southerly along the easterly limit of that lot to the intersection with the northeasterly limit of the right of way of that part of the King's Highway known as No. 647; thence in a southeasterly direction along that northeasterly limit to the intersection with the easterly limit of Lot 12 in Concession I; thence northerly along the easterly limit of Lot 12 in concessions I and II, to the intersection with the line between the north half and the south half of Lot 12 in Concession II; thence westerly along that line to the intersection with the westerly limit of Lot 12 in Concession II; thence southerly along that westerly limit 804.19 feet; thence westerly in a straight line to the place of beginning.

Excepting and reserving therefrom the travelled road in Lot 12 in concessions I and II in the geographic Township of Wabigoon, having a perpendicular width of 66 feet. O. Reg. 245/69, s. 1 (2).

Schedule 35

CALIPER LAKE PROVINCIAL PARK

In the geographic Township of Claxton in the Territorial District of Rainy River containing an area of 330.50 acres, more or less, and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and are referred to the meridian passing through the centre of the geographic Township of Potts:

Beginning at the northwesterly corner of Lot 33 according to Plan SM 134; thence easterly along the northerly limit of that lot to the northeasterly corner thereof; thence north 5° 38' 10" east 2647.10 feet; thence north 53° 30' east 3382.16 feet, more or less, to the southwesterly limit of that part of the King's Highway known as Number 70; thence south 14° 27' 30" east along that highway limit 129.62 feet; thence southeasterly along that highway limit on a curve to the left of radius 2010.08 feet, an arc distance of 604.0 feet, the chord equivalent being 601.73 feet measured south 23° 04' east; thence south 31° 40' 30" east along that highway limit 1053.5 feet, more or less, to the water's edge of Caliper Lake; thence south 20° 30' west to a point distant 500 feet measured southerly from and perpendicularly to that water's edge; thence in a southwesterly, southerly and southeasterly direction parallel to that water's edge and 500 feet in perpendicular distance therefrom to the intersection with a line drawn north 23° 30' east from a point distant 66 feet measured north 06° 13' 30" west from the northeasterly corner of Lot 45 Plan SM 134; thence south 23° 30' west to the water's edge of Caliper Lake; thence south 06° 13' 30" east 66 feet, more or less, to the northeasterly corner of that lot; thence north 83° 46' 30" west along the northerly limit of that lot to the northwesterly corner thereof; thence south 06° 13' 30" east 419.1 feet, more or less, to that water's edge; thence continuing south 06° 13' 30" east to a point distant 500 feet measured southeasterly from and perpendicularly to that water's edge; thence in a southwesterly and northwesterly direction parallel to that water's edge and 500 feet in perpendicular distance therefrom to the southerly production of the westerly limit of Lot 33 Plan SM 134; thence northerly along that production and the westerly limit of that lot to the place of beginning. O. Reg. 165/70, s. 2 (6).

Schedule 36

KLOTZ LAKE PROVINCIAL PARK

Parts of the territory in the Territorial District of Thunder Bay and described as follows:

Premising that the bearings herein are astronomical and referred to the meridian through the intersection of the easterly boundary of the Territorial District of Thunder Bay with the centre line of that part of the King's Highway known as No. 11:

1. Beginning where a survey post has been planted in the northerly limit of that part of the King's Highway known as Number 11 as shown on Department of Highways plan of survey P-2544-59 of record in the Department of Lands and Forests, Ontario, and which survey post is distant 100.06 feet measured north $2^{\circ} 23'$ west from a point in the centre line of that highway having a chainage of $2652 + 19.83$; thence north $2^{\circ} 23'$ west 1302.94 feet; thence north $87^{\circ} 37'$ east 772 feet; thence continuing north $87^{\circ} 37'$ east 11 feet, more or less, to a point hereinafter referred to as Point A in the water's edge on the westerly shore of Klotz Lake; thence in a general southerly direction following that water's edge to the intersection with a line drawn on a course north $0^{\circ} 22'$ west from a point in the northerly limit of that highway distant 800 feet measured north $89^{\circ} 38'$ east from the place of beginning; thence south $0^{\circ} 22'$ east 100 feet, more or less, to the northerly limit of that highway; thence south $89^{\circ} 38'$ west 800 feet, more or less, to the place of beginning.

2. Beginning at the southwesterly corner of Location D.R. 4 of record in the Department of Lands and Forests, Ontario; thence south $66^{\circ} 03' 30''$ west along the northerly limit of that part of the King's Highway known as Number 11, 2107.93 feet; thence westerly on a curve to the right of radius 5629.58 feet an arc distance of 2316.35 feet, the chord equivalent being 2300.04 feet measured south $77^{\circ} 50' 45''$ west; thence south $89^{\circ} 38'$ west 48 feet, more or less, to the water's edge on the southerly shore of Klotz Lake; thence in a general northeasterly, easterly and southeasterly direction following that water's edge to the intersection with the northerly production of the westerly boundary of that location; thence south $23^{\circ} 56' 30''$ east along that production 66 feet, more or less, to a survey post planted; thence continuing south $23^{\circ} 56' 30''$ east 747 feet, more or less, to the place of beginning.

3. Beginning where a survey post has been planted in the southerly limit of that part of the King's Highway known as Number 11 and which said survey post is distant 100 feet measured south $0^{\circ} 22'$ east from a point in the centre line of the said highway, having a chainage of $2652 + 19.83$; thence continuing south $0^{\circ} 22'$ east 500 feet; thence north $89^{\circ} 38'$ east 1668.53 feet; thence northeasterly on a curve to the left having a radius of 6329.58 feet, an arc distance of 2604.38 feet, the chord equivalent being 2586.04 feet measured north $77^{\circ} 50' 45''$ east; thence north $66^{\circ} 03' 30''$ east 2107.93 feet; thence north $23^{\circ} 56' 30''$ west 500 feet, more or less, to the southerly limit of that highway; thence south $66^{\circ} 03' 30''$ west 2107.93 feet; thence southwesterly on a curve to the right of radius 5829.58 feet, an arc distance of 2398.65 feet, the chord equivalent

being 2381.76 feet measured south $77^{\circ} 50' 45''$ west; thence south $89^{\circ} 38'$ west 1668.53 feet, more or less, to the place of beginning.

4. Beginning at the intersection of the water's edge of Klotz Lake with the northerly production of the westerly limit of Location D.R. 4; thence in a general northwesterly, southwesterly and northerly direction following that water's edge to Point A referred to in paragraph 1; thence north $87^{\circ} 37'$ east to a point distant 500 feet measured northeasterly from and perpendicularly to that water's edge; thence in a southerly, northeasterly and southeasterly direction parallel to that water's edge and 500 feet in perpendicular distance therefrom to the intersection with a line drawn north $23^{\circ} 56' 30''$ west from the place of beginning; thence south $23^{\circ} 56' 30''$ east to the place of beginning.

Excepting from the above described lands that part of the King's Highway known as No. 11 crossing those lands as shown on Department of Highways Plan P-2544-59. O. Reg. 165/70, s. 2 (7).

Schedule 37

BLACKSAND PROVINCIAL PARK

In the geographic Township of Kilkenny in the Territorial District of Thunder Bay and described as follows:

Beginning at the point of intersection of the northerly boundary of the geographic Township of Kilkenny with the westerly limit of the right of way of the Canadian National Railways; thence westerly along the northerly boundary of that geographic township to the intersection with the water's edge on the easterly shore of Lake Nipigon; thence in a general southerly, southeasterly and southerly direction following that water's edge and the water's edge of Pijitawabik Bay of that lake to a point therein distant 200 chains measured south astronomically from the northerly boundary of the last-mentioned geographic township; thence east astronomically to the westerly limit of the right of way of the Canadian National Railways; thence in a general northeasterly direction following that limit of that right of way to the place of beginning. R.R.O. 1960, Reg. 498, App. B, Sched. 38.

Schedule 38

MARTEN RIVER PROVINCIAL PARK

In the geographic Township of Sisk in the Territorial District of Nipissing and described as follows:

Beginning at a point in Marten Lake distant 1000 feet measured westerly along the production westerly of the southerly boundary of the geographic Township of Sisk from its intersection with the high-water mark on the easterly shore of Marten Lake; thence north 34° east 4400 feet; thence north 78° east 500 feet;

thence south 66° east 725 feet, more or less, to a point in the westerly limit of that part of the King's Highway known as No. 11; thence northeasterly in a straight line to a point in the easterly limit of that highway where the same is intersected by the water's edge on the northerly shore of an arm of Marten Lake; thence in a general northeasterly direction following that water's edge to the intersection with the westerly limit of the right of way of Trans-Canada Pipe Lines Limited; thence northerly along the westerly limit of that right of way to the intersection with the easterly limit of Summer Resort Location J.C. 235 of record in the Department of Lands and Forests, Ontario; thence southerly along that easterly limit to the southeasterly corner of that location; thence westerly along the southerly limit of that location to the south-westerly corner thereof; thence northerly along the westerly limit of that location to the northwesterly corner thereof; thence easterly along the northerly limit of Summer Resort Location J.C. 235 to the intersection with the westerly limit of the right of way of Trans-Canada Pipe Lines Limited; thence northerly along the westerly limit of that right of way to the intersection with the water's edge on the southerly shore of an arm of Marten Lake; thence in a general southwesterly direction following that water's edge to the intersection with the easterly limit that part of the King's Highway known as No. 11; thence northerly along the easterly limit of that highway to the intersection with the water's edge on the northerly shore of that arm of Marten Lake; thence in a general northeasterly direction following that water's edge to the intersection with the westerly limit of the right of way of Trans-Canada Pipe Lines Limited; thence northerly following the westerly limit of that right of way to the intersection with the southeasterly limit of Summer Resort Location J.C. 231 of record in the Department of Lands and Forests, Ontario; thence southwesterly along the southeasterly limit of that location to the most southerly corner thereof; thence northwesterly along the southwesterly limit of that location and its production northwesterly to the intersection with the water's edge on the southerly shore of Ross Lake; thence in a general southwesterly, northwesterly, northeasterly and easterly direction following the water's edge on the southerly, westerly and northerly shores of Ross Lake to the intersection with the westerly limit of the right of way of Trans-Canada Pipe Lines Limited; thence northerly following the westerly limit of that right of way to the intersection with the production northeasterly of the southeasterly limit of Summer Resort Location E.M. 8 of record in the Department of Lands and Forests, Ontario; thence southwesterly along that production, the southeasterly limit of that location and continuing southwesterly along the production southwesterly of that limit to a point in a line defining the centre of the northerly arm of Marten Lake; thence in a general westerly direction following the centre of Marten Lake to its confluence with Marten River; thence continuing in a general northwesterly direction following the middle thread of the Marten River to the intersection with the easterly limit of that part of the King's Highway known as No. 64; thence in a general southerly

direction following that easterly limit to the intersection with the easterly limit of the Old Ferguson Highway; thence southerly along the easterly limit of the Old Ferguson Highway 1400 feet, more or less, to the middle thread of an unnamed creek flowing into Marten Lake; thence in a general southeasterly direction following that middle thread to its confluence with Marten Lake; thence southeasterly in a straight line 2370 feet, more or less, to the point of beginning.

Excepting thereout and therefrom that part of the King's Highway No. 11 situate within the aforementioned boundaries. O. Reg. 117/63, s. 2.

Schedule 39

MIDDLE FALLS PROVINCIAL CAMP AND PICNIC GROUNDS

In the geographic Township of Pardee in the Territorial District of Thunder Bay, being composed of part of the Stuart Location and described as follows:

Premising that the bearings hereinafter mentioned are referred to the assumed bearing north 60° 07' west of the northeasterly limit of Parcel B as shown on a plan attached to Registered Instrument No. 108 in the Registry Office for the District of Thunder Bay:

Beginning at a point in the northeasterly limit of Parcel B as described in Registered Instrument No. 108 distant 288.85 feet measured south 60° 07' east along the said northeasterly limit from the northwesterly corner of said Parcel B; thence northeasterly on a curve to the right of radius 880.40 feet an arc distance of 441.22 feet, the chord equivalent being 141.07 feet measured north 19° 17' 17" east; thence north 23° 53' east 176.40 feet; thence northeasterly on a curve to the right of radius 880.40 feet, an arc distance of 355.21 feet, the chord equivalent being 352.80 feet measured north 35° 26' 30" east; thence north 47° 00' east 564.4 feet; thence northeasterly on a curve to the right of radius 1357.70 feet an arc distance of 213.27 feet, the chord equivalent being 213.05 feet measured north 51° 30' east; thence north 56° 08' east 202.6 feet; thence northeasterly on a curve to the right of radius 1835.10 feet an arc distance of 422.24 feet, the chord equivalent being 421.31 feet measured north 62° 43' 30" east; thence south 20° 41' east 348.0 feet; thence south 69° 19' west 115 feet, more or less, to the water's edge on the northerly shore of Pigeon River; thence in a general westerly and southwesterly direction following that water's edge to the intersection with a line drawn on a course south 60° 07' east from the place of beginning; thence north 60° 07' west 161.5 feet, more or less, to the place of beginning. R.R.O. 1960, Reg. 498, App. B, Sched. 40.

Schedule 40**SOUTH NATION PROVINCIAL CAMP AND
PICNIC GROUNDS**

In the Township of North Plantagenet in the County of Prescott and described as follows:

Premising that all bearings herein are astronomic and are referred to the meridian through the southeast corner of Lot 1 in Concession II in the Township of North Plantagenet:

Beginning at the intersection of the easterly limit of Lot 20 with a line drawn parallel to and distant 75 feet measured southerly and perpendicularly from the centre line of construction of that part of the King's Highway known as No. 17 as shown on the plan deposited in the Registry Office for the Registry Division of Prescott as No. 154 and in which the point of intersection is distant 1439.11 feet measured southeasterly along the easterly limit of Lot 20 from the northeast corner thereof; thence south $87^{\circ} 52'$ west along that parallel line 747.78 feet to a survey post planted; thence continuing south $87^{\circ} 52'$ west along that parallel line 810.50 feet, more or less, to the water's edge on the northeasterly shore of South Nation River; thence southeasterly following that water's edge 1940 feet, more or less, to the easterly limit of Lot 20; thence north $21^{\circ} 11'$ west along the easterly limit of that lot, a distance of 737.55 feet, more or less, to the place of beginning. R.R.O. 1960, Reg. 498, App. B, Sched. 41.

Schedule 41**STURGEON BAY PROVINCIAL PARK**

In the geographic Township of Harrison in the Territorial District of Parry Sound, containing an area of 35.15 acres, more or less, and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and are referred to the meridian through the southeasterly corner of the geographic Township of Harrison.

Beginning at a point in the centre of the road allowance between lots 30 and 31 in Concession VIII, distant 1260.62 feet measured south $21^{\circ} 24'$ east from the intersection of the easterly production of the centre line of the road allowance between concessions VIII and IX across Lot 31, and the northerly production of the centre line of the road allowance between lots 30 and 31; thence north $64^{\circ} 09' 30''$ east 836.31 feet to the point of intersection with the westerly limit of Secondary Highway known as No. 529; thence northwesterly along that limit of that highway to its intersection with the inner limit of the original road allowance along the easterly shore of Sturgeon Bay of Georgian Bay; thence west astronomically to a point distant 300 feet measured northwesterly from and perpendicularly to the high

water mark of Sturgeon Bay; thence along a boundary line in Sturgeon Bay in a southwesterly, southerly and southeasterly direction parallel to that high water mark and 300 feet in perpendicular distance therefrom to its intersection with the high water mark along the southerly shore of Sturgeon Bay; thence in an easterly direction following that high water mark to its intersection with a line drawn south $64^{\circ} 09' 30''$ west from the place of beginning; thence north $64^{\circ} 09' 30''$ east 55 feet, more or less, to the place of beginning. O. Reg. 358/67, s. 1 (1).

Schedule 42**DRIFTWOOD PROVINCIAL PARK**

In the Township of Head in the County of Renfrew and described as follows:

Beginning at the southeasterly corner of Lot 19 in Concession B; thence northerly along the easterly limit of that lot to the northeasterly corner thereof; thence northerly in a straight line across the allowance for road between concessions A and B to the southeasterly corner of Lot 19 in Concession A; thence continuing northerly along the easterly limit of that lot to the water's edge of the Ottawa River; thence in a general southwesterly and westerly direction following that water's edge to the intersection with the westerly limit of Lot 24 in Concession B; thence southerly along the westerly limit of that lot to the southwesterly corner thereof; thence southerly in a straight line across the allowance for road between concessions B and XIII to the northwesterly corner of Lot 24 in Concession XIII; thence southerly along the westerly limit of that lot to the northerly limit of that part of the King's Highway known as No. 17; thence easterly along the northerly limit of that highway to the easterly limit of Lot 22 in Concession XII; thence northerly along the easterly limit of that lot to the northeasterly corner thereof; thence northerly in a straight line across the allowance for road between concessions XII and B to the southwesterly corner of Lot 21 in Concession B; thence easterly along the southerly limit of that lot to the southeasterly corner thereof; thence easterly in a straight line across the allowance for road between lots 20 and 21 to the southwesterly corner of Lot 20 in Concession B; thence easterly along the southerly limit of lots 20 and 19 in Concession B, to the place of beginning. O. Reg. 117/63, s. 3.

Schedule 43**FINLAYSON POINT PROVINCIAL CAMP
AND PICNIC GROUNDS**

In the geographic Township of Strathcona in the Territorial District of Nipissing and described as follows:

Premising that the bearings hereinafter mentioned are astronomical:

Beginning at the northwesterly corner of Lot 42 according to a plan of Boat House Sites dated June 24th 1942, signed by E. L. Moore, Ontario Land Surveyor, of record in the Department of Lands and Forests, Ontario; thence south 0° 45' west along the westerly limit of said Lot 42 to the water's edge on the northerly shore of Inlet Bay of the Northeast Arm of Lake Timagami; thence in a general southwesterly, westerly and northerly direction following that water's edge to the intersection with a line drawn south 34° east from an iron bar planted in the production southeasterly of a fence line distant 1774.36 feet measured north 89° 39' west from the northwesterly corner of Lot 42 aforementioned; thence north 34° west along that production and that fence 59.03 feet, more or less, to a fence post; thence north 31° 34' west along the line of a fence 247.7 feet, to a fence post; thence north 28° 21' west along the line of a fence 222.28 feet to a fence post; thence north 57° 49' east along the line of a fence 20.26 feet to a fence post; thence north 38° 31' west along the line of a fence 49.75 feet to a fence post; thence north 57° 23' west along the line of a fence and its production northwesterly 77.59 feet, more or less, to the water's edge on the southerly shore of Portage Bay of the Northeast Arm of Lake Timagami; thence north astronomically 70 feet; thence north 70° 00' east 340 feet, more or less, to the water's edge on the said southerly shore of Portage Bay; thence in a general easterly direction following that water's edge to the intersection with the production northerly of the easterly limit of Mining Location J.S. 13; thence southerly along that production and that limit 253.68 feet to an iron bar planted; thence east astronomically 636.45 feet to an iron bar planted; thence south 34° 35' 10" east 283.90 feet, more or less, to a concrete monument planted in the westerly limit of that part of the King's Highway known as No. 11; thence south 17° 10' east along that westerly limit 76.73 feet; thence south 72° 50' west 157 feet; thence south 62° 35' west 382.15 feet; thence south 76° 40' 30" west 166.75 feet; thence north 50° 16' west 187.87 feet; thence north 87° 19' west 266.89 feet; thence south 76° 50' west 282.98 feet; thence south 49° 06' west 91.59 feet; thence south 0° 45' west 88.33 feet, more or less, to the point of beginning. O. Reg. 117/63, s. 3.

Schedule 44

FITZROY PROVINCIAL PARK

In the Township of Fitzroy in the Regional Municipality of Ottawa-Carleton, containing a total area of 457 acres, more or less, and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and are referred to the meridian through the most northerly corner of Lot 27, Concession X:

Beginning at a point in the northwesterly limit of Lot 27, in Concession X, distant 265.12 feet measured south 48° 38.5' west along that northwesterly limit from the most northerly corner thereof; thence south 48° 38.5' west along that northwesterly limit 1033.44 feet; thence south 7° 24' west 171.0 feet; thence south 20° 44' west 208.19 feet; thence south 35° 40' west 242.12 feet; thence south 4° 28' west 356.41 feet; thence south 62° 47.5' west 489.17 feet to the water's edge of the Ottawa River; thence continuing south 62° 47.5' west to a point distant 500.0 feet measured northwesterly from and perpendicularly to that water's edge of the Ottawa River; thence in a southerly and southeasterly direction parallel to that water's edge and 500 feet in perpendicular distance therefrom to the intersection with the westerly limit of the right of way of the Hydro-Electric Power Commission of Ontario having a perpendicular width of 300 feet; thence northeasterly following that right of way limit to the water's edge of the Ottawa River; thence southeasterly along that water's edge to the easterly limit of that right of way of the Hydro-Electric Power Commission of Ontario; thence southwesterly along that limit to the intersection with a line drawn west astronomically from the most southerly corner of Lot 26, in Concession X; thence east astronomically to the water's edge of the Ottawa River; thence in a southeasterly direction following that water's edge to the southwesterly production of the southeasterly limit of Lot 25, in Concession X; thence northeasterly along that production and the southeasterly limit of that Lot 25, to the most easterly corner of that lot; thence northwesterly along the northeasterly limit of that lot to the most northerly corner thereof; thence northwesterly along the northeasterly limit of Lot 26 to a point distant 330 feet measured southeasterly along the northeasterly limit of that lot from the most northerly corner thereof; thence south 49° 54' west 264.0 feet; thence north 40° 06' west 323 feet; thence south 48° 22' west along the northwesterly limit of that Lot 26, a distance of 1.0 feet; thence north 43° 03' west 994.79 feet, more or less, to the place of beginning.

Excepting thereout and therefrom a right of way of the Hydro-Electric Power Commission of Ontario in Lot 25, Concession X, having a perpendicular width of 150 feet, lying 75 feet on either side of a line drawn south 0° 36' west from a point in the northeasterly limit of that Lot 25 at a distance of 602.44 feet measured north 39° 32' west along that limit from the most easterly corner thereof. O. Reg. 320/68, s. 2 (3).

Schedule 45

MACLEOD PROVINCIAL PARK

In the geographic Township of Ashmore in the Territorial District of Thunder Bay and described as follows:

1. Beginning at a point in the southerly limit of that part of the King's Highway known as No. 11 where the same is intersected by the high-water mark on the easterly shore of the West Narrows of Kenogamisis Lake; thence easterly along the southerly limit of that highway to the intersection with the high-water mark of Kenogamisis Lake; thence in a general southerly, northeasterly, easterly, southwesterly and westerly direction following the high-water mark of Kenogamisis Lake to the place of beginning.

2. Beginning at a point in the southerly limit of that part of the King's Highway known as No. 11 where the same is intersected by the southerly limit of Mining Claim T.B. 10721; thence easterly along the southerly limit of that mining claim to the southeasterly corner thereof; thence easterly along the southerly limit of Mining Claim T.B. 10720 to the intersection with the high-water mark of Kenogamisis Lake; thence in a general southwesterly, westerly and northwesterly direction following that high-water mark to the intersection with the southerly limit of that part of the King's Highway known as No. 11; thence easterly along that southerly limit to the place of beginning.

3. Beginning at a point in the southerly limit of that part of the King's Highway known as No. 11 where the same is intersected by the southerly limit of Mining Claim T.B. 10720; thence easterly along the southerly limit of that highway to the intersection with the high-water mark on the westerly shore of Main Narrows of Kenogamisis Lake; thence in a general southerly and westerly direction following that high-water mark and the high-water mark of Kenogamisis Lake to the intersection with the southerly limit of Mining Claim T.B. 10720; thence easterly along the southerly limit of that mining claim to the place of beginning. O. Reg. 117/63, s. 3.

Schedule 46

MASHKINONJE PROVINCIAL PARK

In the geographic Township of Haddo in the Territorial District of Sudbury, containing a total area of 3070 acres, more or less, described as follows:

Premising that the bearings herein are astronomical:

1. Beginning at the southeasterly corner of Lot 2 in Concession VI; thence northerly along the easterly limit of that lot 2477.64 feet, more or less, to a line drawn easterly parallel to the southerly limit thereof from a point in the westerly limit of that lot distant 2477.64 feet measured northerly thereon from the southwesterly corner thereof; thence westerly parallel to the southerly limit of that lot 2681.58 feet,

more or less, to the westerly limit thereof; thence southerly along the westerly limit of that lot 11.22 feet; thence west astronomically 330 feet; thence north astronomically 504 feet, more or less, to the water's edge of the West Arm of Lake Nipissing; thence continuing north astronomically to a point distant 300 feet measured northeasterly from and perpendicularly to that water's edge; thence in a westerly direction parallel to that water's edge and 300 feet in perpendicular distance therefrom to the intersection with a line drawn north 27° 47' west from a point distant 2706 feet measured north 21° 05' west from the southeasterly corner of Lot 3 in Concession VI; thence south 27° 47' east to that water's edge; thence continuing south 27° 47' east 305 feet, more or less, to a point distant 2706 feet measured north 21° 05' west from the southeasterly corner of Lot 3 in Concession VI; thence south 62° 13' west 250.0 feet; thence north 27° 47' west 99.0 feet; thence south 59° 29' west 489.0 feet; thence south 57° 33' west 198.18 feet; thence north 30° 31' west 235.64 feet, more or less, to that water's edge; thence continuing north 30° 31' west to a point distant 300 feet measured northerly from and perpendicularly to that water's edge; thence in a westerly, southwesterly, southeasterly, southwesterly and southeasterly direction parallel to that water's edge and 300 feet in perpendicular distance therefrom to a point in a line drawn north 87° west from a point distant 2570 feet measured south 8° 24' west from the northeasterly corner of Lot 2 in Concession III; thence south 87° 00' east to the water's edge of Deer Bay of Lake Nipissing; thence continuing south 87° east 402 feet, more or less, to a point distant 2570 feet measured south 8° 24' west from the northeasterly corner of that lot; thence north 0° 15' west 342.3 feet; thence south 81° 03' east 713.5 feet; thence south 68° 13' east 88.26 feet; thence north 9° 00' 30" east 226.41 feet; thence south 80° 59' 30" east 319.78 feet to the westerly limit of that part of the King's Highway known as No. 64; thence in a northerly, northeasterly and northwesterly direction along that highway limit to the northerly limit of Lot 1 in Concession IV; thence westerly along that northerly limit to the line between the east half and west half of Lot 1 in Concession V; thence northerly along that line to the northerly limit of that lot; thence westerly along that northerly limit 1320 feet, more or less, to the place of beginning.

2. Beginning at the northeasterly corner of Lot 1 in Concession IV; thence southerly along the easterly limit of that lot to the southeasterly corner thereof; thence south 89° 41' west 1323.1 feet; thence south astronomically 2418.67 feet; thence south 81° 26' west 72.92 feet; thence south 8° 34' east 120.01 feet; thence south 78° 34' west 346.37 feet to the easterly limit of that part of the King's Highway known as No. 64; thence in a northeasterly, northwesterly and northeasterly direction along that highway limit to the northerly limit of Lot 1 in Concession IV; thence easterly along that northerly limit to the place of beginning. O. Reg. 165/70, s. 2 (8).

Schedule 47

OJIBWAY PROVINCIAL PARK

In the geographic townships of Jordan, Vermilion and Pickerel in the Territorial District of Kenora and described as follows:

Beginning at the southwesterly corner of the geographic Township of Jordan; thence easterly along the south boundary of the said township to the intersection with the northwesterly limit of the right of way of that part of the King's Highway known as No. 72; thence northerly and northeasterly along the said northwesterly limit to the most southerly corner of Location R.F.D. 99; thence northwesterly along the southwesterly limit of the said location to the most westerly corner thereof; thence northeasterly along the northwesterly limit of the said location to the most northerly corner thereof; thence southeasterly along the northeasterly limit of the said location to the most easterly corner thereof; thence northeasterly along the northwesterly limit of the right of way of that part of the King's Highway known as No. 72 to the intersection with a line drawn west astronomically from a point in the east boundary of the geographic Township of Jordan, distant 54 chains measured northerly from the 2 Mile Post in the said east boundary; thence west astronomically, 2 miles and 25 chains, more or less, to the intersection with the water's edge along the southeasterly shore of Little Vermilion Lake; thence in a general southwesterly and southerly direction following the said water's edge to the intersection with a line drawn north 48° 00' east astronomically from the intersection of the west boundary of the geographic Township of Jordan with the water's edge along the southeasterly shore of the said Little Vermilion Lake; thence south 48° 00' west astronomically 45 chains, more or less, to the aforesaid intersection; thence in a general southwesterly, northeasterly and southwesterly direction following the said water's edge along the southeasterly shore of Little Vermilion Lake in the geographic townships of Vermilion and Pickerel to the intersection with the northerly production of the line between lots 7 and 8, in Concession VI, in the geographic Township of Pickerel; thence southerly along the said northerly production and the line between lots 7 and 8 to the intersection with the line drawn west astronomically from a point in the line between lots 6 and 7, in the said Concession VI, distant 40 chains measured northerly along the said lot line from the southeasterly corner of Lot 7, in Concession VI; thence east astronomically to the intersection with the line between lots 5 and 6, in the said Concession VI; thence northerly along the easterly limit of said Lot 6 to the northeasterly corner thereof; thence easterly along the south boundary of the geographic Township of Vermilion to the line between the east half and west half of the south half of Lot 3, in Concession I; thence northerly along the said line between the east half and west half of said Lot 3 to the line between

the north and south halves of Lot 3, in Concession I; thence easterly along the said line between the north half and south half of lots 3 and 2, in Concession I, to the intersection with the line between lots 1 and 2, in the said Concession I; thence southerly along the line between lots 1 and 2 to the southwesterly corner of Lot 1, in Concession I; thence easterly along the south boundary of the geographic Township of Vermilion to the place of beginning. O. Reg. 346/65, s. 2.

Schedule 48

OUTLET BEACH PROVINCIAL PARK

In the Township of Athol in the County of Prince Edward, containing a total area of 675 acres, more or less, and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and are referred to the easterly limit of the former County Road No. 18 across Block A having an astronomical bearing of north 39° 52' west;

1. Part of Lot 21, Concession I, South Side of East Lake, Block A, Block B, and part of the bed of Lake Ontario, described as follows:

Beginning at the intersection of the southeasterly limit of Block B with the line between lots 20 and 21, Concession I, South Side of East Lake; thence north 56° 18' east 570.0 feet; thence north 33° 39' west 672.8 feet; thence north 24° 44' west 96.77 feet; thence north 18° 11' west 93.5 feet; thence north 54° 05' east 273.4 feet; thence north 25° 21' west 249.75 feet; thence north 41° 10' east 239.5 feet to the southwesterly limit of County Road No. 18; thence northwesterly along that limit on a curve to the left having a radius of 603.60 feet, an arc distance of 206.61 feet, the chord equivalent being 205.64 feet measured north 73° 34' 28" west; thence north 31° 02' west along that limit 1641.49 feet; thence north 40° 09' west along that limit 1029.75 feet; thence northwesterly along that limit on a curve to the left having a radius of 922.37 feet, an arc distance of 596.45 feet, the chord equivalent being 586.11 feet measured north 58° 40' 30" west; thence north 77° 12' west along that limit 348.9 feet; thence northwesterly along that limit on a curve to the right having a radius of 1670.28 feet, an arc distance of 787.1 feet, the chord equivalent being 779.84 feet measured north 63° 42' west; thence north 50° 12' west along that limit 646.54 feet; thence northwesterly along that limit on a curve to the right having a radius of 1465.69 feet, an arc distance of 710.73 feet, the chord equivalent being 703.78 feet measured north 36° 18' 30" west; thence north 22° 25' west along that limit 214.50 feet; thence northwesterly along that limit on a curve to the left having a radius of 1399.69 feet, an arc distance of 1368.44 feet, the chord equivalent being 1314.59 feet measured north 50° 25' 30" west; thence north 78° 26' west along that limit 690.46 feet; thence

south $12^{\circ} 22'$ west 1070 feet, more or less, to the water's edge of Lake Ontario; thence continuing south $12^{\circ} 22'$ west to a point distant 1320 feet measured southwesterly from and perpendicularly to the water's edge of Lake Ontario; thence in a southeasterly direction parallel to the said water's edge and 1320 feet in perpendicular distance therefrom to the intersection with a line drawn south $73^{\circ} 48' 10''$ west from a point distant 39.36 feet measured north $61^{\circ} 16' 50''$ west from a point distant 1233.01 feet measured south $3^{\circ} 46' 20''$ west from the place of beginning; thence north $73^{\circ} 48' 10''$ east to the water's edge of Lake Ontario; thence continuing north $73^{\circ} 48' 10''$ east 190 feet, more or less, to a survey post planted; thence south $61^{\circ} 16' 50''$ east 39.36 feet to the center line of a small creek; thence northeasterly along that center line to the intersection with the line between lots 20 and 21, Concession I, South Side of East Lake; thence northwesterly along that limit to the place of beginning.

2. Part of Block A described as follows:

Beginning at a point in the northerly limit of County Road No. 18 distant 8832.51 feet measured north $39^{\circ} 28' 07''$ west from the intersection of the southeasterly limit of Block B with the line between lots 20 and 21, Concession I, South Side of East Lake; thence south $78^{\circ} 26'$ east along that northerly limit of County Road No. 18 a distance of 865.34 feet; thence southeasterly along that limit on a curve to the right having a radius of 1943.08 feet, an arc distance of 406.96 feet, the chord equivalent being 406.21 feet measured south $72^{\circ} 26'$ east; thence southeasterly along that limit on a curve to the right having a radius of 1068.90 feet, an arc distance of 487.85 feet, the chord equivalent being 483.63 feet measured south $53^{\circ} 21' 30''$ east; thence south $40^{\circ} 17'$ east 1.40 feet; thence north $33^{\circ} 25'$ east 64.0 feet, more or less, to the water's edge of East Lake; thence in a northwesterly direction following that water's edge to the intersection with a line drawn north $12^{\circ} 22'$ east from the place of beginning; thence south $12^{\circ} 22'$ west 114 feet, more or less, to the place of beginning.

3. Part of Block A described as follows:

Beginning at a point distant 7373.01 feet measured north $33^{\circ} 07' 04''$ west from the intersection of the southeasterly limit of Block B with the line between lots 20 and 21, Concession I, South Side of East Lake; thence north $40^{\circ} 17'$ west 20.70 feet; thence northwesterly on a curve to the left having a radius of 1002.90 feet, an arc distance of 457.73 feet, the chord equivalent being 453.76 feet measured north $53^{\circ} 21' 30''$ west; thence northwesterly along a curve to the left having a radius of 1877.08 feet, an arc distance of 34.01 feet, the chord equivalent being 34.0 feet measured north $66^{\circ} 57' 08''$ west; thence southeasterly along the northerly limit of County Road No. 18 on a curve to the right having a radius of 1465.69 feet, an arc distance of 516.10 feet, the

chord equivalent being 513.44 feet measured south $47^{\circ} 00' 53''$ east to the intersection with a line drawn south $33^{\circ} 25'$ west from the place of beginning; thence north $33^{\circ} 25'$ east 59.76 feet, more or less, to the place of beginning.

4. Being composed of part of Block B, Jinks Island and part of the bed of East Lake described as follows:

Beginning at a survey post planted distant 4910.18 feet measured north $23^{\circ} 18' 02''$ west from the intersection of the southeasterly limit of Block B with the line between lots 20 and 21, Concession I, South Side of East Lake; thence north $51^{\circ} 37'$ east 33.02 feet; thence south $40^{\circ} 09'$ east 8.84 feet; thence north $53^{\circ} 27'$ east 33.07 feet; thence continuing north $53^{\circ} 27'$ east 170 feet, more or less, to the water's edge of East Lake; thence continuing north $53^{\circ} 27'$ east to a point distant 1320 feet measured northeasterly from and perpendicularly to that water's edge of East Lake; thence in a southeasterly, northeasterly, and southeasterly direction parallel to the said water's edge and 1320 feet in perpendicular distance therefrom to the intersection with a line drawn east astronomically from the most southerly extremity of Jinks Island; thence west astronomically 1320 feet, more or less, to that most southerly extremity of Jinks Island; thence southwesterly in a straight line to the intersection of the water's edge of East Lake and a line drawn north $58^{\circ} 58'$ east from a point distant 2263.25 feet measured north $4^{\circ} 11' 00''$ west from the intersection of the southeasterly limit of Block B with the line between lots 20 and 21, Concession I, South Side of East Lake; thence south $58^{\circ} 58'$ west 239 feet, more or less, to the northeasterly limit of County Road No. 18; thence north $31^{\circ} 02'$ west along that limit 1010.0 feet; thence north $40^{\circ} 09'$ west along that limit 1035.0 feet; thence southwesterly along that limit on a curve to the left having a radius of 988.37 feet, an arc distance of 639.12 feet, the chord equivalent being 628.05 feet measured north $58^{\circ} 40' 30''$ west; thence north $77^{\circ} 12'$ west 90 feet, more or less, to the water's edge of the outlet joining East Lake and Lake Ontario; thence in a northwesterly direction along that limit to the intersection with a line drawn south $51^{\circ} 37'$ west from the place of beginning; thence north $51^{\circ} 37'$ east 168 feet, more or less, to the place of beginning. O. Reg. 320/68, s. 2 (4).

Schedule 49

RAINBOW FALLS PROVINCIAL PARK

1. In the geographic Township of Tp. 85 and Tp. 86, in the Territorial District of Thunder Bay, and described as follows:

Beginning at the northwesterly corner of Agricultural Location R.756; thence north astronomically 110 chains, more or less, to the intersection with a line drawn west astronomically from the northwesterly corner of Lot 98 according to a plan

filed in the office of Land Titles for the Land Titles Division of Thunder Bay as M-94a; thence east astronomically 53 chains, more or less, to the northwesterly corner of said Lot 98; thence easterly along the northerly limit of that lot to the north-easterly corner thereof; thence easterly along the production easterly of the northerly limit of that lot 5 chains; thence southerly 19.5 chains, more or less, to a point distant 4 chains measured easterly along the production easterly of the southerly limit of Lot 102 according to said Plan M-94a from the southeasterly corner thereof; thence southeasterly 20 chains, more or less, to a point distant 10 chains measured easterly along the production easterly of the southerly limit of Lot 107 according to said Plan M-94a from the southeasterly angle thereof; thence north 69° 30' east astronomically, 23 chains; thence south 49° east astronomically, 44 chains; thence south 8° 30' east astronomically, 41 chains; thence southwesterly in a straight line 35 chains, more or less, to a point distant 8 chains measured southeasterly along the production southeasterly of the northeasterly limit of Lot 40, according to said Plan M-94a from the northeasterly corner thereof; thence northwesterly along that production and the northeasterly limit of that lot to the most northerly corner thereof; thence south 70° 45' west astronomically, 43 chains, more or less, to the northeasterly limit of an old travelled road within the limits of that part of the King's Highway known as No. 17; thence in a general westerly direction following the northeasterly and northerly limits of that travelled road to its intersection with the north-easterly limit of the right of way of the Canadian Pacific Railway; thence northwesterly along the northeasterly limit of that right of way to the intersection with the westerly limit of Agricultural Location R. 756; thence northerly along the westerly limit of that location to the place of beginning.

Excepting thereout and therefrom,

- (a) that part of the King's Highway known as No. 17 lying within the limits of the hereinbefore described parcel; and
- (b) Lot 23, according to said Plan M-94a.

2. In the geographic Township of Tp. 86 in the Territorial District of Thunder Bay and described as follows:

Beginning at a point in the southerly limit of that part of the King's Highway known as No. 17 where the same is intersected by the water's edge on the westerly shore of Sox Creek; thence in a general southerly direction following that water's edge to the confluence with the water's edge on the northerly shore of Lake Superior; thence in a general northerly and northwesterly direction following that water's edge to its intersection with the southerly limit of that part of the King's Highway known as No. 17; thence easterly along that southerly limit to the place of beginning. O. Reg. 117/63, s. 3; O. Reg. 206/63, s. 1.

Schedule 50

RESTOULE PROVINCIAL PARK

In the geographic Township of Patterson in the District of Parry Sound, containing an area of 1635 acres, more or less, and described as follows:

Premising that the bearings herein are astronomical:

Beginning at the southeasterly corner of Lot 24 in Concession VIII; thence northerly along the easterly limit of that lot to the northeasterly corner thereof; thence northerly in a straight line to the southeasterly corner of Lot 24 in Concession IX; thence northerly along the easterly limit of that lot to the water's edge of Patterson Lake; thence northerly along the northerly production of that lot to a point distant 300 feet measured northeasterly from and perpendicularly to that water's edge; thence in a westerly, southwesterly, southerly, south-easterly, westerly and northwesterly direction parallel to that water's edge and 300 feet in perpendicular distance therefrom to a line drawn north 22° 20' east from the northwesterly corner of Lot 18 in Concession IX; thence south 22° 20' west to the northwesterly corner of that lot; thence southerly along the westerly limit of that lot to the southwesterly corner thereof; thence southerly in a straight line to the northwesterly corner of Lot 18 in Concession VIII; thence southerly along the westerly limit of that lot and its southerly production to the centre line of the Restoule River; thence south 49° 06' west to a point distant 300 feet measured westerly from and perpendicularly to the water's edge of Restoule Lake; thence in a south-easterly, easterly and northeasterly direction parallel to that water's edge and 300 feet in perpendicular distance therefrom to the southerly production of the easterly limit of Lot 22 in Concession VII; thence northerly along that production and the easterly limit of that lot to the line between concessions VII and VIII; thence easterly along that line to the place of beginning. O. Reg. 165/70, s. 2 (9).

Schedule 51

RIDEAU RIVER PROVINCIAL PARK

In the Township of Marlborough in the Regional Municipality of Ottawa-Carleton and described as follows:

Beginning at the intersection of the easterly limit of Lot 1, in the Broken Front Concession of the said township with the southerly limit of the right of way of the King's Highway known as No. 16 as shown on Department of Highways Plan P-1589; thence southerly along the easterly limit of said Lot 1 and its southerly production to the intersection with the water's edge along the northerly shore of the Rideau River and Rideau Canal; thence in a westerly direction following the said water's edge to

the intersection with the southerly production of the westerly limit of Lot 3, in the Broken Front Concession of the said township; thence northerly along that production and the westerly limit of said Lot 3 to the intersection with the southerly limit of the right of way of that part of the King's Highway known as No. 16 as shown on Department of Highways Plan P-1589-1; thence in a northeasterly direction following the said highway limit on the following bearings and distances according to Department of Highways plans P-1589-1, P-1589 and P-1589-5; northeasterly along a curve to the right having a radius of 1382.7 feet, an arc distance of 504.1 feet, the chord equivalent being 501.3 feet measured north 39° 03' east; north 45° 28' 30" east 100.2 feet; north 49° 29' east 603.57 feet; north 49° 29' east 1271.63 feet; north 49° 29' east 628.35 feet; south 40° 31' east 17.0 feet; north 49° 29' east 326.16 feet; north 49° 29' east 87.01 feet; south 85° 26' east 70.81 feet; north 40° 41' west 67.0 feet; north 49° 29' east 66.0 feet; south 40° 41' east 67.0 feet; north 4° 24' east 70.61 feet; north 49° 29' east 746.63 feet; north 49° 29' east 44.0 feet; north 40° 31' west 17.0 feet; north 49° 29' east 313.66 feet; north 60° 33' east 589.94 feet, more or less, to the place of beginning. O. Reg. 161/64, s. 2, *revised*.

Schedule 52

WHITE LAKE PROVINCIAL PARK

In the geographic Township of Tp. 71 and unsurveyed territory north thereof in the Territorial District of Thunder Bay and described as follows:

Beginning at the point of intersection of the northerly limit of the right of way of the Canadian Pacific Railway with the water's edge on the westerly shore of White Lake; thence in a general northeasterly and northerly direction following the water's edge on the westerly shore of White Lake to the intersection with the southerly limit of that part of the King's Highway known as No. 17; thence in a general westerly direction following the southerly limit of that highway to the intersection with the water's edge on the easterly shore of Dunc Lake; thence in a general southerly direction following the water's edge on the easterly shore of Dunc Lake to the confluence with the water's edge on the easterly shore of an unnamed creek flowing into Dunc Lake; thence in a general southerly direction following the water's edge on the easterly shore of that unnamed creek and the water's edge on the easterly shore of an unnamed lake to the most southerly extremity thereof; thence southeasterly in a straight line 102 chains, more or less, to the most easterly corner of a widening in the right of way of the Canadian Pacific Railway, otherwise known as Fords Ballast Pit; thence southwesterly and southeasterly along the southeasterly limit of that ballast pit and the northerly limit of that right of way to the place of beginning. O. Reg. 117/63, s. 3.

Schedule 53

EARL ROWE PROVINCIAL PARK

In the Township of Tosorontio in the County of Simcoe and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and are referred to the northerly limit of that part of the King's Highway known as No. 89 across Lot 1, in Concession VII, in the said township, having a bearing of north 71° 07' 30" east as shown on Department of Highways Plan P-1837-3.

1. Part of lots 2 and 5 and lots 3 and 4, in Concession VI, described as follows:

Beginning at the northeasterly corner of Lot 5; thence south 73° 06' west along the northerly limit of said Lot 5, a distance of 2217.50 feet to the intersection with the line between the east half and the west half of said Lot 5; thence south 11° 00' 40" east along the said line between the east half and the west half as fenced 1966.0 feet to the northeasterly corner of the west half of Lot 4; thence south 72° 59' 20" west along the northerly limit of the west half of said Lot 4, a distance of 2201.64 feet to the northwesterly corner of the west half of said Lot 4; thence south 10° 38' 20" east along the westerly limit of the west half of said Lot 4, a distance of 2026.46 feet to the southwesterly corner thereof; thence south 10° 49' 30" east along the westerly limit of the west half of Lot 3, a distance of 1970.08 feet to the northwesterly corner of the west half of Lot 2; thence north 72° 50' east along the northerly limit of the west half of Lot 2, a distance of 115.5 feet; thence south 10° 32' east 189.75 feet; thence south 72° 50' west 115.5 feet to the intersection with the westerly limit of the west half of Lot 2; thence south 10° 32' east along the said westerly limit 197.40 feet to the southerly limit of the right of way of a road having a perpendicular width of 33 feet; thence north 88° 28' 20" east along the said southerly limit 1195.10 feet; thence north 83° 46' 40" east along the said southerly limit 184.98 feet; thence north 69° 39' 40" east along the said southerly limit 540.05 feet; thence south 85° 01' 30" east continuing along the said southerly limit 302.86 feet to the intersection with the line between the east half and the west half of said Lot 2; thence south 10° 38' east along the said line between the east half and the west half, 1133.50 feet to the southwesterly corner of the east half of said Lot 2; thence north 73° 31' east along the southerly limit of the east half of said Lot 2 being along a post and wire fence, 1105.80 feet; thence north 73° 26' east continuing along the said southerly limit 1081.90 feet to the southeasterly corner of the east half of said Lot 2; thence northerly along the easterly limit of lots 2, 3, 4 and 5, to the place of beginning.

2. Part of the east half and the west half of Lot 2, in Concession VII, described as follows:

Beginning at the northwesterly corner of the west half of said Lot 2; thence north $71^{\circ} 36'$ east along the northerly limit of the west half of said Lot 2 being along a post and wire fence 2376.14 feet to the northeasterly limit of an abandoned right of way of the Canadian National Railways; thence south $56^{\circ} 24' 30''$ east 1390.52 feet along the said limit of the right of way; thence north $33^{\circ} 35' 30''$ east 7.0 feet; thence south $56^{\circ} 24' 30''$ east along the said northeasterly limit of the abandoned right of way 870 feet to the intersection with the top of the bank on the northerly shore of the Boyne River; thence westerly along the said top of the bank of the Boyne River to the intersection with the line between the east half and west half of Lot 2, Concession VII; thence southerly along that line to the intersection with the southerly limit of the west half of said Lot 2 marked by a post and wire fence; thence south $71^{\circ} 09' 30''$ west along the said southerly limit 2303.0 feet to the southwesterly corner of said Lot 2; thence north $10^{\circ} 41' 30''$ west along the westerly limit of said Lot 2, a distance of 1983.0 feet to the place of beginning. O. Reg. 161/64, s. 3.

Schedule 54

MIKISEW PROVINCIAL PARK

In the geographic Township of Machar in the Territorial District of Parry Sound, containing 133 acres, more or less, and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and are referred to the meridian passing through the northwesterly corner of Lot 30, Concession IV, in the geographic Township of Machar;

Beginning at the northwesterly corner of Lot 30, in Concession IV; thence north $21^{\circ} 31'$ west 66 feet, more or less, to the southwesterly corner of Lot 30, Concession V; thence northerly along the westerly limit of that lot a distance of 160.0 feet; thence north $69^{\circ} 08'$ east 1160.0 feet; thence south $21^{\circ} 31'$ east 160.0 feet to the intersection with the southerly limit of that lot; thence easterly along that southerly limit 160.75 feet, more or less, to the southeasterly corner thereof; thence south $20^{\circ} 51' 40''$ east 66 feet, more or less, to the northwesterly corner of Lot 29, in Concession IV; thence easterly along the northerly limit of that lot a distance of 588.04 feet, more or less, to the intersection with the westerly limit of Merripark Drive as shown on plan M-88; thence south $14^{\circ} 29'$ west along that westerly limit and its southerly production 471.75 feet; thence south $75^{\circ} 09'$ east 406.9 feet, more or less, to the water's edge of Machar Lake; thence continuing south $75^{\circ} 09'$ east to a point in the bed of Machar Lake distant 300 feet measured southeasterly from, and perpendicularly to the water's edge of Machar Lake; thence in a southwesterly, southeasterly, southerly, and southwesterly direction parallel to that water's edge and 300 feet in perpendicular distance therefrom, to the intersection with the southerly pro-

duction of the westerly limit of Lot 30, in Concession IV; thence northerly along that production and the westerly limit of that lot to the place of beginning. O. Reg. 320/68, s. 2 (5).

Schedule 55

KILLARNEY PROVINCIAL PARK

In the geographic townships of Goschen, Roosevelt and Stalin, in the Territorial District of Sudbury, and in the geographic townships of Carlyle and Killarney, in the Territorial District of Manitoulin, and described as follows:

Beginning at the northwesterly corner of the geographic Township of Rutherford, in the Territorial District of Manitoulin; thence easterly along the northerly boundary of the said geographic Township of Rutherford to the northeasterly corner thereof; thence southerly along the easterly boundary of the said geographic Township of Rutherford to the confluence with the water's edge on the northerly shore of Collins Inlet of Georgian Bay; thence in a general easterly direction following the water's edge on the northerly shore of Collins Inlet to its intersection with the easterly boundary of the geographic Township of Killarney; thence northerly along the easterly boundary of the said geographic Township of Killarney to the intersection with a line drawn west astronomically from the water's edge on the most southwesterly extremity of Carlyle Lake; thence east astronomically to the water's edge on the most southwesterly extremity of Carlyle Lake; thence in a general northeasterly and northerly direction following the water's edge on the northerly shores of Carlyle Lake and the westerly shores of Johnnie Lake to the intersection with a line drawn south astronomically from a point in the northerly boundary of the geographic Township of Carlyle distant 3 miles and 10 chains measured easterly thereon from the northwesterly corner of the said geographic Township of Carlyle; thence north astronomically 12 chains, more or less, to the northerly boundary of the said geographic Township of Carlyle; thence continuing north astronomically 2 miles and 40 chains to a point in the geographic Township of Goschen, in the Territorial District of Sudbury; thence westerly in a straight line to a point in the westerly boundary of the geographic Township of Roosevelt distant 2 miles and 40 chains measured northerly thereon from the southwesterly corner of the said geographic Township of Roosevelt; thence southerly along the westerly boundary of the said geographic Township of Roosevelt to the southwesterly corner thereof; thence continuing southerly along the meridian line surveyed by T. N. Molesworth, Provincial Land Surveyor, in 1857, a distance of 76 chains, more or less to a point in the water's edge on the northerly shore of the North Channel of McGregor Bay of Georgian Bay; thence in a general easterly, southerly, southwesterly and southerly direction following the water's edge on the northerly and easterly shores of the North Channel and the

East Channel of McGregor Bay to the confluence with the water's edge on the easterly shore of McGregor Bay, east of East Sampson Island; thence in a general easterly direction following the water's edge on the northerly shore of McGregor Bay to the confluence with the water's edge on the northerly shore of Kirk Creek; thence in a general easterly direction following the water's edge on the northerly shore of Kirk Creek to the intersection with a line drawn north astronomically from a point distant 66 chains measured west astronomically from the point of beginning; thence south astronomically 1 mile and 56 chains, more or less, to the water's edge on the northerly shore of Narrow Bay of Georgian Bay; thence in a general northeasterly direction following the water's edge on the northerly shore of Narrow Bay to the intersection with a line drawn north astronomically from the point of beginning; thence south astronomically 1 mile and 75 chains, more or less, to the place of beginning.

Excepting therefrom the right of way of that part of the King's Highway known as No. 637 and the lands granted before the 1st day of July, 1964. O. Reg. 183/64, s. 1.

Schedule 56

NEYS PROVINCIAL PARK

In geographic Township 78 in the Territorial District of Thunder Bay and described as follows:

Beginning at the intersection of the water's edge along the northerly shore of Ashburton Bay of Lake Superior with the southerly production of the west boundary of geographic Township 78; thence southerly along the southerly production of the west boundary of geographic Township 78 to a point distant 600 feet measured southwesterly from and perpendicularly to the water's edge of Ashburton Bay of Lake Superior; thence in a general southerly, southeasterly, southwesterly, easterly, northerly and northeasterly direction parallel to the water's edge of Ashburton Bay, Thompson Channel and Peninsula Bay of Lake Superior and distant 600 feet in perpendicular width therefrom to the intersection with the water's edge along the easterly shore of Peninsula Bay of Lake Superior; thence in a northerly, and northwesterly direction following the said water's edge along the easterly shore of Peninsula Bay to the confluence with the water's edge along the easterly shore of Neys Creek; thence in a northwesterly direction following the said water's edge of Neys Creek to the intersection with the southerly limit of the right of way of the Canadian Pacific Railway; thence in a westerly and northwesterly direction following the said right of way limit to the intersection with the water's edge along the westerly shore of the Little Pic River; thence in a southwesterly direction following the said water's edge of the Little Pic River to the confluence with the water's edge of Ashburton Bay of Lake Superior; thence in a general northwesterly

direction following the said water's edge of Ashburton Bay to the place of beginning.

Excepting therefrom the lands granted before the 15th day of December, 1964. O. Reg. 346/65, s. 3.

Schedule 57

DEVILS GLEN PROVINCIAL PARK

In the Township of Nottawasaga in the County of Simcoe and described as follows:

Beginning at a point in the northerly limit of Lot 18, in Concession X, in the said township distant 593.38 feet measured south 73° 17' west along the said northerly limit from the northeast corner of said Lot 18; thence north 19° 14' 20" west 66.06 feet to a point in the southerly limit of Lot 19, in Concession X; thence south 73° 17' west 112.41 feet; thence in a general northwesterly direction along a curve to the right having a radius of 444.46 feet, an arc distance of 452.40 feet, the chord equivalent being 433.12 feet having a bearing of north 76° 41' 55" west; thence north 48° 58' 45" west 56.52 feet; thence north 69° 29' 45" west 188.42 feet; thence southeasterly on a curve to the right having a radius of 570.11 feet, an arc distance of 6.58 feet, the chord equivalent being 6.58 feet measured south 49° 08' 36" east; thence south 48° 58' 45" east 36.38 feet; thence north 69° 29' 45" west 103.78 feet; thence south 20° 30' 15" west 475.0 feet; thence south 19° 14' 20" east 26.40 feet to the intersection with the southerly limit of Lot 19, in Concession X; thence continuing south 19° 14' 20" east 66.06 feet to the intersection with the northerly limit of Lot 18, in Concession X; thence continuing south 19° 14' 20" east 69.27 feet; thence south 54° 59' east 719.50 feet; thence north 77° 19' east 79.90 feet; thence north 20° 30' 15" east 803.37 feet to the place of beginning. O. Reg. 346/65, s. 3.

Schedule 58

CARILLON PROVINCIAL PARK

In the Township of East Hawkesbury in the County of Prescott and described as follows:

Beginning at the intersection of the easterly limit of Lot 16 in Concession I with the northerly limit of that part of the King's Highway known as No. 17; thence easterly along that northerly limit to a point distant 530.43 feet measured westerly along that northerly limit from its intersection with the easterly limit of Lot 13, Concession I; thence north 26° 46' 30" west 72.24 feet; thence north 17° 02' east 125.00 feet; thence south 70° 31' east 125.05 feet; thence south 17° 02' west 175 feet, more or less, to the intersection with the northerly limit of that part of the King's Highway known as No. 17; thence easterly along that northerly limit to the intersection with the line between the east half and the west half of Lot 10 in Concession I; thence northerly along

that line 2691.19 feet; thence south 61° 02' 30" east 27.31 feet; thence north 8° 10' east 218.76 feet; thence south 75° 56' 30" east 128.49 feet; thence north 48° 57' east 202.86 feet; thence north 55° 05' east 405.47 feet; thence south 62° 06' 30" east 144.52 feet; thence south 49° 11' 30" east 61.39 feet, more or less, to the intersection with the easterly limit of the said Lot 10; thence southerly along that easterly limit to the intersection with the northerly limit of that part of King's Highway known as No. 17; thence easterly along that limit to the intersection with the westerly limit of Lot 7 in Concession I; thence northerly along that limit 2711.53 feet; thence south 76° 49' east 4.53 feet; thence south 37° 32' 30" east 390.95 feet; thence south 44° 47' 30" east 475.93 feet; thence south 71° 12' 15" east 495.28 feet; thence north 18° 43' 30" east 250.97 feet to the intersection with contour elevation 135 feet above mean sea level; thence northwesterly, northeasterly and easterly following the said contour to the intersection with the easterly limit of Lot 7 in Concession I; thence southerly along that limit to the intersection with the northerly limit of that part of the King's Highway known as No. 17; thence easterly along that limit to the intersection with the westerly limit of Lot 5 in Concession I; thence northerly along that limit 3830.10 feet; thence south 71° 48' 30" east 655.71 feet; thence south 72° 02' 30" east 644.90 feet; thence south 72° 11' east 1248.24 feet, more or less, to the intersection with the westerly limit of Lot 3 in Concession I; thence southerly along that limit 3915.22 feet, more or less, to the intersection with the northerly limit of that part of the King's Highway known as No. 17; thence easterly along that limit to the intersection with the line between the east half and the west half of Lot 3 in Concession I; thence northerly along that line 1045.63 feet; thence north 18° 04' east 36.33 feet; thence south 74° 14' east 635.12 feet to the easterly limit of Lot 3 in Concession I; thence northerly along that limit 3887.03 feet; thence north 72° 04' west 630.81 feet to the intersection with the line between the east half and the west half of said Lot 3; thence northerly along that line 1357.74 feet; thence north 68° 55' east 73.66 feet; thence north 73° 30' east 710.18 feet; thence south 67° 55' 30" east 474.22 feet; thence south 75° 50' 30" east 588.09 feet; thence north 18° 01' east 39.60 feet; thence north 68° 53' 30" west to the intersection with contour elevation 135 feet above mean sea level; thence in a westerly, southeasterly, southerly, westerly, southwesterly, southeasterly and northwesterly direction along that elevation to the intersection with the line between the east half and the west half of Lot 16 in the Broken Front Concession; thence southerly along that line to its intersection with the southerly limit of said Lot 16; thence southerly in a straight line to the intersection with the line between the east half and the west half of Lot 16 in Concession I; thence southerly along that line to the intersection with the northerly limit of that part of the King's Highway known as No. 17; thence easterly along that limit to the place of beginning.

Together with all those parts of the Broken Front Concession and Concession I opposite the herein-before described area, lying above contour elevation 135 feet, which due to raising of the waters of the Ottawa River are now islands. O. Reg. 343/66, s. 1.

Schedule 59

CRAIGLEITH PROVINCIAL PARK

In the Township of Collingwood in the County of Grey and described as follows:

Premising that the bearings herein are astronomical and are referred to the meridian through the southeasterly corner of Lot 20 in Concession I in the Township of Collingwood.

Beginning where a survey post has been planted in the northerly limit of that part of the King's Highway known as No. 26, being a point in the westerly limit of Lot 1, according to a plan registered in the Registry Office for the Registry Division of Grey North as No. 320, distant 30.3 feet measured on a course of north 9° 10' west along that westerly limit from the southwesterly corner thereof; thence north 72° 10' west along that northerly limit, 665.11 feet; thence north 72° 04' west along that northerly limit 1574.99 feet; thence north 5° 01' 30" west 230 feet, more or less, to the high water mark of Nottawasaga Bay of Georgian Bay; thence continuing north 5° 01' 30" west to a point in the bed of Nottawasaga Bay of Georgian Bay, distant 300 feet measured northerly from and perpendicularly to the water's edge of Nottawasaga Bay; thence in a northeasterly and southeasterly direction parallel to the water's edge and distant 300 feet in perpendicular width therefrom to its intersection with the northeasterly production of the line between lots 42 and 43 according to Registered Plan No. 320; thence southwesterly along that northeasterly production and the southeasterly limit of Lot 42 to a point distant 27 feet measured north 41° 28' east from the most southerly corner of that lot; thence north 48° 32' west 240.0 feet to a point in the southeasterly limit of Block A according to Registered Plan No. 320; thence southwesterly along the southeasterly limit of that block a distance of 27 feet to the most southerly corner thereof; thence northwesterly along the southwesterly limit of that block to the most westerly corner thereof; thence northeasterly along the northwesterly limit of that block to the most northerly corner thereof; thence northwesterly along the northeasterly limit of lots 38 to 12, both inclusive, according to Registered Plan No. 320, to the most northerly corner of said Lot 12; thence south 28° 23' west along the northwesterly limit of that lot to a point distant 27 feet measured north 28° 23' east from the most westerly corner of that lot; thence north 61° 37' west 161.54 feet; thence north 72° 10' west 527.30 feet, more or less, to the place of beginning. O. Reg. 245/67, s. 1 (2), *revised*.

Schedule 60**INVERHURON PROVINCIAL PARK**

Part of the Townplot of Inverhuron, in the Township of Bruce in the County of Bruce and described as follows:

Beginning at the intersection of the south limit of McNabb Street with the westerly limit of Victoria Street; thence southerly along that westerly limit 5057.98 feet to its intersection with the northerly limit of Caley Street; thence westerly along that northerly limit 660 feet to the intersection with the easterly limit of Wellington Street; thence northerly along that easterly limit 660 feet to its intersection with the southerly limit of Princess Street; thence westerly along that southerly limit 460 feet, more or less, to the water's edge along the westerly bank of the Little Sauble River; thence in a southeasterly and southwesterly direction following that water's edge to its intersection with the water's edge along the shore of Inverhuron Bay of Lake Huron; thence west astronomically to a point distant 300 feet measured southwesterly from and perpendicularly to that water's edge; thence in a northwesterly, southwesterly, northerly, northeasterly, westerly and northerly direction parallel to the water's edge of Inverhuron Bay and Holmes Bay of Lake Huron, and distant 300 feet in perpendicular width therefrom to its intersection with the westerly production of the southerly limit of McNabb Street; thence easterly along that westerly production and the southerly limit of McNabb Street to the place of beginning. O. Reg. 245/67, s. 1 (2).

Schedule 61**KAKABEKA FALLS PROVINCIAL PARK**

In the geographic townships of Oliver and Paipoonge in the Territorial District of Thunder Bay and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and are referred to the east limit of Mining Location 12X having an astronomical course of south 0° 57' 40" east.

Beginning at the northwest corner of Mining Location 12X; thence south 01° 34' 20" east along the west limit of that mining location, 2699.73 feet, more or less, to the southwest corner thereof; thence north 89° 59' 25" east along the south limit of that mining location, 660.0 feet, more or less, to the northwest corner of Mining Location 10X; thence south 0° 55' 20" west along the west limit of that mining location a distance of 2622.49 feet, more or less, to the southwest corner thereof; thence north 89° 57' 30" east along the south limit of that mining location a distance of 33.0 feet, more or less, to its intersection with the northerly production of the west limit of Lot 20, in Concession E, in the geographic Township of Paipoonge; thence south

0° 11' 40" west along that production and the west limits of lots 20, 19 and 18, in Concession E, a distance of 3968.19 feet, more or less, to the southwest corner of Lot 18; thence north 89° 57' 30" east along the south limit of Lot 18 a distance of 6100.0 feet, more or less, to the southeast corner thereof; thence north 89° 57' 30" east to the intersection with the centre line of the Kaministiquia River; thence in a general northwesterly direction following that centre line to the intersection with the westerly production of the south limit of Mining Location 10X in the geographic Township of Oliver; thence easterly along that production and the south limit of that mining location to a point distant 1779.11 feet measured south 89° 57' 30" west along that south limit from the southeast corner of Mining Location 10X; thence north 30° 07' east 499.97 feet; thence north 30° 10' west 2530.5 feet, more or less, to a point in the limit between Mining Location 10X and Lot 19, Concession I, in the geographic Township of Oliver, which point is distant 260.0 feet measured westerly along the south limit of that lot from the southeast corner thereof; thence south 89° 59' 25" west along the south limit of that lot a distance of 40.0 feet; thence north 18° 52' 30" west 1120.0 feet; thence north 27° 47' 30" west 1328.9 feet, more or less, to a point in the limit between Mining Location 12X and Lot 19, in Concession I, in the geographic Township of Oliver which point is distant 2233.02 feet measured northerly along the west limit of that lot from the southwest corner thereof; thence north 0° 57' 40" west along the west limit of Lot 19 and its northerly production 463.29 feet, more or less, to the intersection with the easterly production of the north limit of Mining Location 12X; thence north 89° 56' 35" west along the easterly production and the north limit of that mining location a distance of 2613.84 feet, more or less, to the place of beginning.

Excepting therefrom all that part of the right of way of that part of the King's Highway known as No. 17 and all that part of the right of way of Secondary Highway No. 590 lying within the boundaries of the hereinbefore described lands. O. Reg. 245/67, s. 1 (2).

Schedule 62**LAKE OF THE WOODS PROVINCIAL PARK**

In the geographic Township of McCrosson in the Territorial District of Rainy River and described as follows:

Beginning at the intersection of the westerly production of the south limit of Lot 9, in Concession V, with the water's edge of Lake of the Woods; thence easterly along that westerly production and the south limit of lots 9 and 8, in Concession V, to the intersection with the water's edge along the westerly bank of Little Grassy River; thence continuing easterly along the easterly production of the south limit of Lot 8 to its intersection with the

southerly production of the easterly limit thereof; thence northerly along that southerly production and the east limit of Lot 8 to the northeast corner thereof; thence easterly and northerly along the westerly limit of Lot 7, in Concession V, to its intersection with a line drawn westerly parallel to the north limit of that lot, from a point in the east limit thereof distant 39.97 chains measured southerly along the east limit from the northeast corner of Lot 7; thence easterly along that parallel line to its intersection with the east limit of that lot; thence northerly along the west limit of Lot 6, in Concession V, to its intersection with the line between the north half and the south half of that lot; thence easterly along that line to its intersection with the east limit of that lot; thence southerly along the west limit of Lot 5, in Concession V, to its intersection with the line between the north half and south half of that lot; thence easterly along the line between the north half and the south half of lots 5 and 4, to its intersection with the westerly limit of Lot 3, in Concession V; thence northerly along that westerly limit to its intersection with the line between the north half and the south half of the north half of Lot 3; thence easterly along that line to its intersection with the westerly limit of the right of way of Secondary Highway No. 621 as shown on Department of Highways plan P-2701-5; thence northerly along that westerly limit to its intersection with the line between Concessions V and VI; thence westerly along that line to the southeast corner of Lot 5, in Concession VI; thence northerly along the east limit of that lot to the northeast corner thereof; thence westerly along the north limit of that lot and its westerly production to a point distant 10 chains measured northwesterly from and perpendicularly to the water's edge of Lake of the Woods; thence in a general southwesterly, northwesterly, westerly and southerly direction parallel to the said water's edge and distant 10 chains in perpendicular width therefrom to the intersection with the westerly production of the south limit of Lot 9, in Concession V; thence easterly along that production to the place of beginning. O. Reg. 245/67, s. 1 (2).

Schedule 63

OASTLER LAKE PROVINCIAL PARK

In the geographic Township of Foley in the Territorial District of Parry Sound, containing an area of 78 acres, more or less, and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and are referred to the meridian through the northeasterly corner of Lot 138, Concession B, in that township.

Beginning at a point in the easterly limit of Lot 135, Concession B, distant 2866.90 feet measured northerly along that easterly limit from the southeasterly corner of that lot; thence south $89^{\circ} 15' 30''$

west 176.59 feet; thence north $1^{\circ} 54' 30''$ east to a point in the bed of Oastler Lake distant 300 feet measured northerly from and perpendicularly to the water's edge of Oastler Lake; thence in a westerly, northerly, northwesterly, southwesterly, southerly, southeasterly and southwesterly direction parallel to the said water's edge and 300 feet in perpendicular distance therefrom to the intersection with a line drawn north 45° west from a point distant 246 feet measured south $77^{\circ} 31' 30''$ west from a survey post in the northerly limit of that part of the King's Highway known as No. 69 at chainage $19+21.31$ as shown on Department of Highways Plan P-2255-29; thence south 45° east to the intersection of that northerly limit with the water's edge of Oastler Lake; thence north $77^{\circ} 31' 30''$ east along that northerly limit 246 feet, more or less, to a survey post; thence northeasterly along that northerly limit on a curve to the right having a radius of 1507.69 feet, an arc distance of 742.28 feet, the chord equivalent being 734.80 feet measured south $88^{\circ} 22' 15''$ east to a survey post; thence south $74^{\circ} 16'$ east along that northerly limit 61 feet, more or less, to the water's edge of the Boyne River; thence in a northeasterly and northwesterly direction following that water's edge to its intersection with the easterly limit of Lot 135, Concession B; thence northerly along that easterly limit to the place of beginning. O. Reg. 245/67, s. 1 (2).

Schedule 64

OBATANGA PROVINCIAL PARK

In geographic townships Tp. 32, Range 28, Tp. 31, Range 27, and Tp. 32, Range 27, in the Territorial District of Algoma, containing an area of 34,035 acres, more or less, and described as follows:

Beginning at the southwesterly corner of geographic township Tp. 32, Range 27; thence easterly along the south boundary of that geographic township to the southeasterly corner thereof; thence northerly along the west boundary of geographic township Tp. 31, Range 27, a distance of 1 mile; thence east astronomically 2 miles and 8 chains, more or less, to the intersection with the northwesterly limit of the right of way of a travelled road; thence northeasterly along that right of way to its intersection with a line drawn south astronomically from a point in the north boundary of geographic township Tp. 31, Range 27, distant 2 miles and 40 chains measured easterly along that north boundary from the northwest corner thereof; thence north astronomically 4 miles and 30 chains, more or less, to the intersection with the north boundary of geographic township Tp. 31, Range 27; thence westerly along that north boundary 2 miles and 40 chains to the northwest corner of that geographic township; thence westerly along the north boundary of geographic township Tp. 32, Range 27, a distance of 4 miles; thence north astronomically 2 miles and 40 chains; thence west astronomically 2 miles, more or less, to the inter-

section with the boundary between geographic townships Tp. 32, Range 28, and Tp. 33, Range 28; thence southerly along that boundary and the boundary between geographic townships Tp. 32, Range 27, and Tp. 33, Range 27, a distance of 8 miles and 40 chains, more or less, to the place of beginning.

Excepting therefrom that part of the right of way of that part of the King's Highway known as No. 17 lying within the boundaries of the hereinbefore described lands. O. Reg. 245/67, s. 1 (2).

Schedule 65

PAKWASH PROVINCIAL PARK

In the territory lying southeast of the geographic Township of Willans in the Territorial District of Kenora, Patricia Portion, and described as follows:

Beginning at a Department of Highways monument in the westerly limit of that part of the King's Highway known as No. 105 at chainage 163+45.12 as shown on Department of Highways Plan P-2826-41; thence in a northwesterly and northeasterly direction following the westerly limit of that part of the King's Highway known as No. 105 to a Department of Highways monument at chainage 278+71.85 as shown on Highway Plan P-2826-41; thence northeasterly along that westerly limit a distance of 960.0 feet; thence west astronomically to its intersection with the water's edge along the easterly shore of Pakwash Lake; thence westerly, southerly and southeasterly along that water's edge to its intersection with a line drawn north 19° west astronomically from an iron bar, hereinafter referred to as Point A, in the northerly limit of Location R.F.D. 245, distant 2246.10 feet measured south 85° 49' west astronomically from the place of beginning; thence south 19° east astronomically to a point distant 300 feet measured southwesterly from and perpendicularly to the water's edge along the easterly shore of Pakwash Lake; thence in a southeasterly and southwesterly direction parallel to that water's edge and distant 300 feet in perpendicular width therefrom to the intersection with a line drawn north 45° west astronomically from Point A; thence southeasterly in a straight line to the intersection of a line drawn south 85° 49' west astronomically from Point A with the water's edge along the easterly shore of Pakwash Lake; thence north 85° 49' east, a distance of 2342.75 feet, more or less, to the place of beginning. O. Reg. 245/67, s. 1 (2).

Schedule 66

SAMUEL DE CHAMPLAIN PROVINCIAL PARK

In the geographic townships of Calvin, Mattawan and Papineau in the Territorial District of Nipissing, containing an area of 2580 acres, more or less, and described as follows:

Beginning at the northeasterly corner of Lot 14 in Concession I in the geographic Township of Mattawan; thence westerly along the northerly limit of lots 14 to 11, both inclusive, in Concession I to the northwesterly corner of the last mentioned lot; thence westerly in a straight line to the northeasterly corner of Lot 10 in Concession I; thence westerly along the northerly limit of lots 10 to 8, both inclusive, in Concession I to the northwesterly corner of the last mentioned lot; thence southerly along the westerly limit of Lot 8 and its southerly production to the intersection with the northerly production of the westerly limit of Lot 11 in Concession IX in the geographic Township of Calvin; thence southerly along that northerly production and the westerly limit of Lot 11 in Concession IX to the southwesterly corner thereof; thence southerly in a straight line to the northwesterly corner of Lot 11 in Concession VIII; thence southerly along the westerly limit of that lot and its southerly production to the intersection with the inner limit of the 66 foot road allowance along the southerly shore of the Amable du Fond River; thence easterly along that inner limit 115 feet, more or less, to the intersection with a line drawn north 27° 07' 30" east astronomically from Department of Highways monument number 98 as shown on Department of Highways Plan P-2186-11; thence south 27° 07' 30" west astronomically to the intersection with the northerly limit of that part of the King's Highway known as No. 17; thence southeasterly along that northerly limit to its intersection with the easterly limit of Lot 5 in Concession VII; thence northerly along that easterly limit to the northeasterly corner thereof; thence westerly in a straight line to the southeasterly corner of Lot 5 in Concession VIII; thence northerly along the easterly limit of that lot and its northerly production to the intersection with the water's edge along the northerly shore of Champlain Lake; thence in a southeasterly direction following that water's edge and the water's edge of the connecting waters to the confluence with the Mattawa River; thence in a northwesterly direction following the water's edge along the southerly shore of the Mattawa River to the intersection with the southerly production of the easterly limit of Lot 14 in Concession I in the geographic Township of Mattawan; thence northerly along that southerly production and the easterly limit of that lot to the place of beginning.

Excepting therefrom any lands patented before the 20th day of August, 1966. O. Reg. 358/67, s. 1 (3), *revised*.

Schedule 67

SELKIRK PROVINCIAL PARK

In the Township of Walpole in the County of Haldimand, containing an area of 145.0 acres, more or less, and described as follows:

Premising that the bearings hereinafter-mentioned are astronomical and are referred to longitude 80° 01' 53" west.

Beginning at a point in Lot 20 in Concession I, distant 33.04 feet measured south 76° 55' west from a point in the easterly limit of that lot distant 3894.38 feet measured southerly along that easterly limit from the northwesterly corner thereof; thence south 15° 58' 30" east 3141.70 feet; thence north 69° 47' 30" east 10.91 feet; thence south 15° 43' 20" east 457.50 feet; thence south 15° 56' east 382.91 feet; thence south 14° 42' 30" east 180 feet, more or less, to the water's edge of Lake Erie; thence continuing south 14° 42' 30" east to a point distant 300 feet measured southerly from and perpendicularly to the said water's edge of Lake Erie; thence in a northwesterly direction parallel to the water's edge of Lake Erie and 300 feet in perpendicular distance therefrom, to the intersection with the southerly production of the westerly limit of Lot 20, Concession I; thence northerly along the said southerly production to the water's edge of Lake Erie; thence north 15° 09' west along the westerly limit of that lot, a distance of 478.76 feet to the north shore of Sandusk Creek; thence south 67° 24' 20" east 332.30 feet; thence north 4° 48' west 526.80 feet; thence north 55° 20' 30" west 28.0 feet; thence north 5° 55' west 1422.0 feet; thence north 13° 53' west 344.50 feet; thence north 11° 38' 20" west 325.42 feet; thence north 12° 32' 20" west 383.44 feet; thence north 77° 35' 50" east 792.38 feet; thence north 76° 55' east 500.0 feet, more or less, to the place of beginning.

Excepting therefrom the lands of Her Majesty the Queen in right of Canada, as set forth in Instrument No. 52001 registered in the Registry Office for the Registry Division of Haldimand on September 18th, 1963.

And subject to an easement in favour of the Hydro-Electric Power Commission of Ontario over part of the herein described lands as set forth in Instrument No. 21963 registered in the Registry Office for the Registry Division of Haldimand on April 21st, 1942. O. Reg. 358/67, s. 1 (3), *revised*.

Schedule 68

MURPHYS POINT PROVINCIAL PARK

In the Township of North Burgess in the County of Lanark and described as follows:

Beginning at the intersection of the southwesterly limit of Lot 10 in Concession V with the southeasterly limit of the travelled road along the westerly end of Noble Bay as shown on a plan of survey by J. K. Benner, Ontario Land Surveyor, dated September 22nd, 1959; thence northeasterly along the southeasterly limit of that travelled road to the intersection with the water's edge along the northwesterly shore of Noble Bay of Rideau Lake; thence northeasterly

and easterly following the water's edge along the northwesterly and northerly shore of Noble Bay in Lot 9 in Concession V to a point in a line drawn parallel to and distant 550 feet measured north-easterly from and perpendicularly to the southwesterly limit of that lot; thence southeasterly along that parallel line to a point distant 300 feet measured northwesterly from and perpendicularly to the water's edge along the southeasterly shore of Noble Bay; thence in a northeasterly and easterly direction parallel to the water's edge of Noble Bay and distant 300 feet in perpendicular width therefrom to a point in the water's edge along the northwesterly shore of Island Number 275; thence in a northeasterly and southeasterly direction following the water's edge to a point, distant 300 feet measured northwesterly from and perpendicularly to the water's edge along the southeasterly shore of Noble Bay; thence in an easterly, southerly and southwesterly direction parallel to the said water's edge of Noble Bay and the northwesterly shore of Rideau Lake and distant 300 feet in perpendicular width therefrom to a point in the southeasterly production of the line between lots 5 and 6 in Concession IV; thence southwesterly in a straight line to the intersection with the southeasterly production of the line between lots 10 and 11 in Concession IV, distant 300 feet measured southeasterly along that southeasterly production from the intersection with the water's edge along the northwesterly shore of Rideau Lake; thence northwesterly along that production and that line between lots 10 and 11 in Concession IV to the intersection with the water's edge along the southeasterly shore of Hogg Bay of Rideau Lake; thence northwesterly along the production of that line between lots 10 and 11 in Concession IV to the intersection with the water's edge along the northwesterly shore of Hogg Bay; thence northwesterly along that line between lots 10 and 11 to the intersection with the water's edge along the southeasterly shore of Loon Lake; thence northwesterly along the production of that line between lots 10 and 11 to the intersection with the water's edge along the southerly shore of a small unnamed island in Loon Lake; thence northeasterly and northwesterly along the water's edge of that small unnamed island to the intersection with the southeasterly production of the line between lots 10 and 11 in Concession V; thence northwesterly along that southeasterly production and the line between lots 10 and 11 in Concession V to the place of beginning.

Excepting therefrom lands patented before the 15th day of December, 1965. O. Reg. 358/67, s. 1 (3).

Schedule 69

BALSAM LAKE PROVINCIAL PARK

In the Township of Bexley in the County of Victoria, containing an area of 1109 acres, more or less, and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and are referred to the southwesterly limit of Lot 19 North West Bay Range having an astronomical bearing of north 58° 28' west as shown on Department of Highways Plan P-2448-15.

Beginning at the intersection of the northeasterly limit of Lot 26, North West Bay Range, with the southeasterly limit of the right of way of that part of the King's Highway known as No. 46 as shown on Department of Highways Plan 2448-36; thence south 40° 17' 20" west along that highway limit 3977.04 feet; thence south 31° 32' west along that highway limit 1337.99 feet; thence south 13° 36' east 52.20 feet to the northeasterly limit of the right of way of a travelled road; thence south 58° 28' east along that right of way limit 8575.1 feet; thence continuing south 58° 28' east 70.06 feet; thence south 49° 07' 30" west 41.74 feet; thence south 45° 27' 30" west 27.34 feet to the southwesterly limit of Lot 19 North West Bay Range; thence south 58° 28' east along that limit and its southeasterly production 98 feet, more or less, to the water's edge of North Bay of Balsam Lake; thence continuing south 58° 28' east to a point distant 300 feet measured southerly from and perpendicularly to the water's edge of North Bay of Balsam Lake; thence in a northeasterly direction parallel to that water's edge and 300 feet in perpendicular distance therefrom to the intersection with the southeasterly production of the northeasterly limit of Lot 26, North West Bay Range; thence north 59° 32' 40" west along that production and that limit to the place of beginning. O. Reg. 320/68, s. 2 (6).

Schedule 70

PANCAKE BAY PROVINCIAL PARK

In the geographic Township of Ryan in the Territorial District of Algoma, containing a total area of 1151 acres, more or less, and described as follows:

Premising that the bearings hereinafter mentioned are astronomical and are referred to the centre line of that part of the King's Highway known as No. 17 at chainage 76+24.67 having a bearing of north 65° 53' 14" west.

1. Part of the Township of Ryan, and part of the bed of Pancake Bay of Lake Superior, described as follows:

Beginning at the intersection of the southerly limit of the right of way of that part of the King's Highway known as No. 17 with the westerly limit of Section D; thence north 83° 18' 34" east along that highway limit 3074.63 feet; thence north 83° 12' 34" east continuing along that highway limit 2492.07 feet; thence northeasterly along that highway limit on a curve to the right having a radius of 5629.58 feet, an arc distance of 836.80 feet, the chord equivalent

being 836.03 feet measured north 87° 28' 04" east; thence south 88° 16' 26" east along that highway limit 1283.21 feet; thence southeasterly along that highway limit on a curve to the right having a radius of 2764.79 feet, an arc distance of 1080.26 feet, the chord equivalent being 1073.40 feet measured south 77° 04' 50" east; thence south 65° 53' 14" east along that highway limit 3353.79 feet to the easterly limit of Section F; thence south 24° 06' 46" west 1008.0 feet; thence southwesterly in a straight line to a point distant 2061.84 feet measured north 89° 59' 40" east from the southwesterly corner of said Section D; thence south 89° 59' 40" west 2061.84 feet to the southwesterly corner of that section; thence northwesterly along the westerly limit of that section 3539.59 feet to the place of beginning.

2. Part of the Township of Ryan described as follows:

Beginning at the intersection of the northerly limit of the right of way of that part of the King's Highway known as No. 17 with the westerly limit of Section D; thence north 83° 30' 34" east 12.04 feet; thence north 83° 18' 34" east along that highway limit 3015.21 feet; thence north 6° 41' 26" west 500.0 feet; thence north 83° 18' 34" east 83.10 feet; thence north 83° 12' 34" east 803.85 feet; thence south 0° 06' 56" east 503.31 feet to the northerly limit of the right of way of that part of the King's Highway known as No. 17; thence north 83° 12' 34" east along that highway limit 1746.10 feet; thence northeasterly along that highway limit on a curve to the right having a radius of 5829.58 feet, an arc distance of 866.53 feet, the chord equivalent being 865.73 feet measured north 87° 28' 04" east; thence south 88° 16' 26" east along that highway limit 1283.21 feet; thence southeasterly along that highway limit on a curve to the right having a radius of 2964.79 feet, an arc distance of 1158.41 feet, the chord equivalent being 1151.05 feet measured south 77° 04' 50" east; thence south 65° 53' 14" east continuing along that highway limit 3264.83 feet to the easterly limit of Section F; thence north 0° 07' 46" east along that limit 2265.04 feet to the northeasterly corner of Section F; thence westerly along the northerly limit of sections F, E, and D to the northwesterly corner of Section D; thence southeasterly along the westerly limit of that section 1784.97 feet, more or less, to the place of beginning. O. Reg. 320/68, s. 2 (6).

Schedule 71

MONTREAL RIVER PROVINCIAL PARK

In the geographic Township of Tp. 29 in Range XIV in the Territorial District of Algoma, containing an area of 108 acres, more or less, and described as follows:

Beginning at a point in the water's edge on the easterly shore of Lake Superior where the same is intersected by the northerly boundary of the geo-

graphic Township of Tp. 29, Range XIV; thence easterly along the northerly boundary of that geographic township to the intersection with the westerly limit of that part of the King's Highway known as No. 17 as shown on a Department of Highways, Ontario, plan of survey P-2652-19; thence southerly along the westerly limit of that King's Highway to a point where the same is intersected by a line drawn west astronomically from a point distant 40 chains measured south astronomically from the 8 mile post on the northerly boundary of the geographic Township of Tp. 29 in Range XIV; thence west astronomically to the water's edge on the easterly shore of Lake Superior; thence in a general northeasterly direction following that water's edge to the place of beginning. O. Reg. 362/68, s. 1.

Schedule 72

MATAWATCHAN PROVINCIAL PARK

In the Township of Matawatchan in the County of Renfrew, containing an area of 160 acres, more or less, and described as follows:

1. The east half of Lot 8 in Concession I and that part of the west part of Lot 8 in Concession II lying westerly of Hutson Lake and an unnamed creek connecting Hutson Lake and an unnamed lake on the line between lots 6 and 7 in Concession II.

2. The east half of Lot 9 in Concession I and that part of Lot 9 in Concession II lying west of Hutson Lake. O. Reg. 362/68, s. 1.

Schedule 73

PORPHYRY ISLAND PROVINCIAL PARK

Part of Porphyry Island situate in Lake Superior, in the Territorial District of Thunder Bay, located at approximate latitude 48° 23' north and longitude 88° 38' west, containing an area of 264 acres, more or less, and described as follows:

Beginning at a point in the water's edge on the westerly shore of that island where the same is intersected by the production northwesterly of the northeasterly limit of Location PP 736 of record in the Department of Lands and Forests, Ontario; thence south 61° 41' east astronomically along that production and the northeasterly limit of that location 302.00 feet, more or less, to the most easterly corner of that location; thence south 28° 19' west astronomically 300 feet to the most southerly corner of that location; thence north 61° 41' west astronomically along the southwesterly limit of that location and its production northwesterly 328.6 feet, more or less, to the water's edge on the westerly shore of Porphyry Island; thence in a general southwesterly direction following that water's edge to the intersection with the production northwesterly of the northeasterly limit of Location DC 46 of record in the Department of Lands and Forests,

Ontario; thence south 31° 32' 30" east astronomically along that production and the northeasterly limit of that location 159.36 feet, more or less, to the most easterly corner of that location; thence south 58° 27' 30" west astronomically 200.00 feet to the most southerly corner of that location; thence north 31° 32' 30" west astronomically along the southwesterly limit of that location and its production northwesterly 198.8 feet, more or less, to the water's edge on the westerly shore of Porphyry Island; thence in a general southwesterly, northeasterly, northerly and southwesterly direction following the water's edge on the easterly and westerly shores of that island to the place of beginning.

Saving and excepting therefrom Location D.T. 10 containing 7.56 acres, more or less, and described as follows:

Beginning at a point in the southwesterly limit of Location D.C. 46 distant 66.19 feet measured on a course of north 31° 32' 30" west from the most southerly corner of said Location D.C. 46; thence south 45° 44' west 202.72 feet; thence south 33° 37' 10" west 154.99 feet; thence south 42° 44' 55" west 169.61 feet; thence south 40° 09' 10" west 507.78 feet; thence south 41° 41' 25" west 359.93 feet; thence south 42° 57' 10" west 290.29 feet; thence south 13° 49' 25" west 81.82 feet; thence south 30° 29' 25" west 442.07 feet; thence south 55° 51' 50" west 345.40 feet; thence south 26° 50' 20" west 250.25 feet; thence south 01° 30' 25" west 97.72 feet; thence south 39° 03' 10" west 200.53; thence south 23° 36' 10" west 343.24 feet; thence south 52° 41' 40" west 30.89 feet; thence north 0° 22' 50" west 26.22 feet to a survey post planted at a point, said point hereinafter being referred to as Point A; thence south 89° 37' 10" west 50 feet to a survey post planted in the high-water mark of Lake Superior; thence continuing south 89° 37' 10" west to the water's edge of Lake Superior; thence in a general southwesterly, southerly and northeasterly direction following the said water's edge to a point in a line drawn on a course of south 0° 22' 50" east from the hereinbefore mentioned Point A; thence north 0° 22' 50" west 436.11 feet, more or less, to a point distant 63.78 feet measured south 0° 22' 50" east from said Point A; thence north 52° 41' 40" east 61.21 feet; thence north 23° 36' 10" east 346.96 feet; thence north 39° 03' 10" east 206.67 feet; thence north 01° 30' 25" east 101.18 feet; thence north 26° 50' 20" east 235.75 feet; thence north 55° 51' 50" east 344.40 feet; thence north 30° 29' 25" east 453.23 feet; thence north 13° 49' 25" east 78.42 feet; thence north 42° 57' 10" east 282.81 feet; thence north 40° 41' 25" east 360.67 feet; thence north 40° 09' 10" east 507.52 feet; thence north 42° 44' 55" east 171.33 feet; thence north 33° 37' 10" east 154.21 feet; thence north 45° 44' east 192.76 feet to a point in the southwesterly limit of said Location D.C. 46; thence north 31° 32' 30" west along the said southwesterly limit of Location D.C. 46, a distance of 30.76 feet, more or less, to the place of beginning. O. Reg. 362/68, s. 1.

Schedule 74**GIBSON RIVER PROVINCIAL PARK**

In the geographic Township of Baxter in the Territorial District of Muskoka, as it existed on the 31st day of December, 1970, containing an area of 415 acres, more or less, and described as follows:

Beginning at a point in the southerly limit of Lot 8 in Concession XV in the geographic Township of Baxter distant 660 feet measured easterly along that southerly limit from the southwesterly corner thereof; thence westerly along the southerly limits of lots 8, 9 and 10 to the southwesterly corner of Lot 10; thence westerly in a straight line to the southeasterly corner of Lot 11; thence westerly along the southerly limit of Lot 11 a distance of 660 feet; thence north $20^{\circ} 51' 40''$ west astronomically to the intersection with the high-water mark along the southerly shore of Gibson River; thence in a general easterly direction following that high-water mark to the intersection with a line drawn north $20^{\circ} 51' 40''$ west astronomically to the place of beginning; thence south $20^{\circ} 51' 40''$ east astronomically to the place of beginning. O. Reg. 362/68, s. 1, *revised*.

Schedule 75**WINISK RIVER PROVINCIAL PARK**

In the Territorial District of Kenora and described as follows:

Beginning at the intersection of longitude $87^{\circ} 40'$ with latitude $52^{\circ} 47'$; thence northerly along longitude $87^{\circ} 40'$ a distance of 26.5 miles, more or less, to latitude $53^{\circ} 10'$; thence easterly along latitude $53^{\circ} 10'$ to a point distant 400 feet measured westerly from and perpendicularly to the high-water mark along the westerly bank of the Winisk River; thence in a northeasterly, northerly, easterly and northeasterly direction parallel to the said high-water mark and 400 feet in perpendicular distance therefrom to latitude $55^{\circ} 00'$; thence easterly along that latitude to a point distant 400 feet measured easterly from and perpendicularly to the high-water mark along the easterly bank of the Winisk River; thence in a southwesterly, westerly, southerly and southwesterly direction parallel to the said high-water mark and 400 feet in perpendicular distance therefrom to latitude $53^{\circ} 10'$; thence easterly along latitude $53^{\circ} 10'$ to longitude $87^{\circ} 10'$; thence southerly along longitude $87^{\circ} 10'$ a distance of 26.5 miles, more or less, to latitude $52^{\circ} 47'$; thence westerly along latitude $52^{\circ} 47'$ a distance of 20.8 miles, more or less, to the place of beginning.

Excepting and reserving therefrom that part of the Winisk Indian Reserve No. 90 situated at the junction of the Asheweig River and the Winisk River. O. Reg. 474/69, s. 1; O. Reg. 183/70, s. 1.

Schedule 76**TRILLIUM WOODS PROVINCIAL PARK**

In the Township of West Oxford in the County of Oxford, containing an area of 25 acres, more or less, and described as follows:

Beginning at a point in the easterly limit of Lot 7 in Concession III distant 1853.94 feet measured southerly along that easterly limit from the north-easterly corner thereof; thence southerly along that easterly limit 926.97 feet; thence westerly parallel to the northerly limit of that lot 1174.80 feet; thence northerly parallel to the easterly limit of that lot 926.97 feet; thence easterly parallel to the northerly limit of that lot 1174.80 feet, more or less, to the place of beginning. O. Reg. 245/69, s. 2.

Schedule 77**WAUBAUSHENE BEACHES PROVINCIAL PARK**

In the Township of Tay in the County of Simcoe, containing an area of 83.61 acres, more or less, and described as follows:

Premising that the bearings hereinafter mentioned are astronomical:

Beginning at a point in the westerly limit of Lot 10 in Concession X distant 7.66 feet measured northwesterly along the southwesterly limit of that lot from the most southerly corner thereof; thence north $32^{\circ} 07' 30''$ west along the southwesterly limit of that lot a distance of 1682.08 feet; thence north $22^{\circ} 15'$ east 150.0 feet; thence north $32^{\circ} 07' 30''$ west 10.94 feet; thence north $22^{\circ} 15'$ east 112.70 feet; thence north $57^{\circ} 57'$ east 230.0 feet; thence north $32^{\circ} 07' 30''$ west 138.09 feet; thence north $2^{\circ} 31'$ east 15.68 feet to the northwesterly limit of that lot; thence north $57^{\circ} 57'$ east along that northwesterly limit 723.16 feet; thence south $42^{\circ} 18'$ east 29.17 feet; thence north $57^{\circ} 57'$ east 33.18 feet; thence north $32^{\circ} 03'$ west 28.69 feet to the northwesterly limit of that lot; thence north $57^{\circ} 57'$ east along that northwesterly limit 702.15 feet; thence south $32^{\circ} 47' 40''$ east 214.08 feet; thence north $55^{\circ} 07' 30''$ east 111.05 feet; thence south $32^{\circ} 47' 30''$ east 978.44 feet; thence south $57^{\circ} 35' 12''$ west 401.0 feet; thence south $33^{\circ} 12'$ east 804.89 feet to the south-easterly limit of that lot; thence south $57^{\circ} 35' 12''$ west along that southeasterly limit 1060.59 feet; thence south $58^{\circ} 19' 30''$ west 594.43 feet to the place of beginning. O. Reg. 245/69, s. 2.

Schedule 78**CHUTES PROVINCIAL PARK**

In the geographic Township of Salter, now in the Town of Massey in the Territorial District of

Sudbury, containing an area of 270.47 acres, more or less, and described as follows:

Premising that the bearings herein are astronomical derived from observation and are referred to the meridian through the centre of the geographic Township of Salter:

Beginning at the southwesterly corner of the Southeast Quarter Section 24; thence northerly along the westerly limit of that section 1392.91 feet; thence north $87^{\circ} 54' 45''$ east 18.02 feet; thence north $0^{\circ} 10' 45''$ west 589.03 feet; thence south $89^{\circ} 32' 45''$ west 23.12 feet to the westerly limit of the Southeast Quarter Section 24; thence northerly along that westerly limit to the water's edge of the River Aux Sables; thence in a northwesterly direction following that water's edge to the westerly production of the northerly limit of the Southeast Quarter Section 24; thence easterly along that production to the northwesterly corner of the Southeast Quarter Section 24; thence easterly along the northerly limit of that section to the northeasterly corner thereof; thence southerly along the easterly limit of that section to the southeasterly corner thereof; thence southerly along the easterly limit of the Northeast Quarter Section 25 a distance of 1806.86 feet; thence north $34^{\circ} 58' 30''$ west 58.27 feet; thence north $0^{\circ} 28' 45''$ west 343.62 feet; thence north $82^{\circ} 05'$ west 281.76 feet; thence south $19^{\circ} 13'$ west 244.53 feet; thence south $32^{\circ} 58'$ west 452.10 feet; thence south $4^{\circ} 03'$ west 317.33 feet; thence south $12^{\circ} 40'$ west 221.80 feet to the northerly limit of the right of way of the Canadian Pacific Railway; thence north $82^{\circ} 42'$ west along that limit 722.01 feet; thence in a westerly direction along that limit on a curve to the left having a radius of 1482.19 feet, an arc distance of 116.62 feet, the chord equivalent being 116.59 feet measured north $84^{\circ} 58' 15''$ west; thence north $0^{\circ} 26' 15''$ west 289.62 feet; thence south $89^{\circ} 33' 45''$ west 100 feet to the easterly limit of Third Street; thence north $0^{\circ} 26' 15''$ west along that easterly limit 746.01 feet to the northerly limit of Spruce Street; thence south $76^{\circ} 46' 45''$ west along that northerly limit 414.03 feet; thence north $0^{\circ} 26' 15''$ west 300 feet; thence south $76^{\circ} 46' 45''$ west 170.0 feet; thence south $0^{\circ} 26' 15''$ east 100 feet; thence south $76^{\circ} 46' 45''$ west 431.10 feet, more or less, to the westerly limit of Northeast Quarter Section 25; thence north $0^{\circ} 26' 15''$ west along that westerly limit 1378.32 feet, more or less, to the place of beginning. O. Reg. 165/70, s. 3.

Schedule 79

MARA PROVINCIAL PARK

In the Township of Mara in the County of Ontario, containing an area of 111.80 acres, more or less, and described as follows:

Premising that the bearings herein are astronomical and are referred to the meridian through

the southeast corner of the south half of Lot 31 in Concession X:

Beginning at a point in the easterly limit of Lot 31 in Concession X distant 2315.10 feet measured southerly along that easterly limit from the north-easterly corner thereof; thence south $49^{\circ} 55' 40''$ east along that easterly limit 398.10 feet; thence south $17^{\circ} 08' 20''$ east along that easterly limit 292.80 feet; thence south $15^{\circ} 21'$ east along that easterly limit 1691.80 feet to the southeasterly corner thereof; thence south $73^{\circ} 01' 20''$ west along the southerly limit of that lot a distance of 1344.50 feet; thence continuing south $73^{\circ} 01' 20''$ west 40 feet, more or less, to the high-water mark of Lake Simcoe; thence south $34^{\circ} 16'$ west 600 feet; thence north $55^{\circ} 44'$ west 890 feet; thence north $34^{\circ} 16'$ east 600 feet, more or less, to the westerly limit of that lot in the high-water mark of Lake Simcoe; thence north $19^{\circ} 02' 20''$ west along that westerly limit 15.0 feet; thence north $15^{\circ} 21'$ west along that westerly limit 1105.10 feet; thence north $16^{\circ} 16'$ west along that westerly limit 532.00 feet to the line between the north half and south half of that lot; thence north $73^{\circ} 27' 30''$ east along that line 1759.0 feet to the place of beginning. O. Reg. 165/70, s. 3.

Schedule 80

MATTAWA RIVER PROVINCIAL PARK

In the geographic townships of Bonfield, Calvin, East Ferris, Mattawan, Orlig and Phelps in the Territorial District of Nipissing, containing an area of 8050 acres, more or less, and described as follows:

Beginning at a point in the easterly limit of Lot 12 in Concession IX in the geographic Township of Calvin, distant 400 feet measured southerly from and perpendicularly to the water's edge of the Mattawa River; thence in a general northwesterly, southwesterly and northwesterly direction parallel to the water's edge of the Mattawa River and its expansions, namely Bouillon Lake and Pimisi Lake, and 400 feet in perpendicular distance therefrom to the easterly limit of Lot 35 in Concession X in the geographic Township of Bonfield; thence northerly along that limit and its northerly production and the easterly limit of Lot 35 in Concession X to a point distant 400 feet measured westerly from and perpendicularly to the water's edge of Talon Lake in the Mattawa River; thence in a general northwesterly and southwesterly direction parallel to that water's edge and 400 feet in perpendicular distance therefrom to the westerly limit of Lot 24 in Concession XV; thence southerly along that limit and its southerly production to the northeasterly corner of Lot 23 in Concession XIV; thence westerly along, the northerly limit of that lot and its westerly

production to the water's edge of Robichaud Lake; thence in a general northerly and northwesterly direction following that water's edge to the intersection with the southerly production of the westerly limit of Lot 22 in Concession XVI; thence northerly along that southerly production and the westerly limit of that lot to the northwesterly corner thereof; thence easterly along the northerly limit of lots 22 and 23 in Concession XVI to a point distant 400 feet measured westerly from and perpendicularly to the water's edge of Talon Lake; thence in a general northerly, southwesterly, southerly and easterly direction parallel to the water's edge of the Mattawa River and its expansions, namely Talon Lake, Tilliard Lake, Bigfish Lake, Whitethroat Lake, Moosegrass Lake, Werwolf Lake, Turtle Lake and Robichaud Lake, and 400 feet in perpendicular distance therefrom to the westerly limit of Lot 22 in Concession XVI; thence southerly along that westerly limit and its southerly production to the water's edge of Robichaud Lake; thence in a general easterly and southeasterly direction following that water's edge to the westerly production of the northerly limit of Lot 23 in Concession XIV; thence easterly along that production and that northerly limit to a point distant 400 feet measured easterly from and perpendicularly to the water's edge of Robichaud Lake; thence in a general southerly and northwesterly direction parallel to the water's edge of Robichaud Lake, Turtle Lake and Trout Lake and 400 feet in perpendicular distance therefrom to the westerly limit of Lot 3 in Concession XV in the geographic Township of East Ferris; thence northerly along that limit and its northerly production to the centre line of Trout Lake in the Mattawa River; thence east astronomically to the southerly production of the westerly limit of Lot 17 in Concession A in the geographic Township of Phelps; thence northerly along that production and that limit to a point distant 400 feet measured westerly from and perpendicularly to the water's edge of the Mattawa River; thence in a general easterly, northerly, northwesterly, northerly, northeasterly, southeasterly, northeasterly, southwesterly, southeasterly, easterly, northwesterly, northerly, northeasterly, southwesterly, northeasterly and easterly direction parallel to the water's edge of the Mattawa River and its expansions, namely Trout Lake, Turtle Lake, Werwolf Lake, Moosegrass Lake, Whitethroat Lake, Bigfish Lake, Tilliard Lake, Talon Lake, Pimisi Lake and Bouillon Lake, and 400 feet in perpendicular distance therefrom to the easterly limit of Lot 4 in Concession I in the geographic Township of Mattawan; thence southerly along that limit and its southerly production to the water's edge of Bouillon Lake; thence easterly along that water's edge to the northwesterly production of the easterly limit of Lot 12 in Concession IX in the geographic Township of Calvin; thence southerly along that production and that limit to the place of beginning.

Excepting therefrom all opened road allowances situate in a municipality and all patented lands. O. Reg. 165/70, s. 3.

Schedule 81

MISSINAIBI PROVINCIAL PARK

In the geographic townships of Abigo and Kildare in the Territorial District of Algoma and the geographic townships of Admiral, Baltic, Barclay, Calais and Missinaibi in the Territorial District of Sudbury, containing an area of 170.12 square miles, more or less and described as follows:

Beginning at the southwesterly corner of the geographic Township of Missinaibi in the Territorial District of Sudbury; thence easterly along that southerly boundary 3 miles and 3063.82 feet; thence north $50^{\circ} 29' 16''$ east astronomically 18 miles and 3173.50 feet to the northeasterly corner of the geographic Township of Calais; thence westerly along the northerly boundary of that geographic township 2 miles and 3520.44 feet to the 108 mile post planted in the base line surveyed by A. Niven, Ontario Land Surveyor in 1889, defining the southwesterly corner of the geographic Township of Kildare in the Territorial District of Algoma; thence northerly along the meridian surveyed by Speight and Van Nostrand, Ontario Land Surveyors, in 1910, being the easterly boundary of the geographic Township of Kildare, to a survey monument planted by Speight and Van Nostrand, Ontario Land Surveyors, in 1910, defining the northeasterly corner of the geographic Township of Kildare; thence westerly along the northerly boundary of that geographic township 3 miles and 1584.00 feet; thence south $56^{\circ} 34' 01''$ west astronomically 14 miles and 1774.70 feet to the westerly limit of the geographic Township of Baltic in the Territorial District of Sudbury; thence southerly along the westerly boundary of that geographic township and the geographic Township of Missinaibi 9 miles and 4943.40 feet, more or less, to the place of beginning.

Excepting therefrom any land granted before the 19th day of November, 1969. O. Reg. 165/70, s. 3.

Schedule 82

POINT FARMS PROVINCIAL PARK

In the Township of Colborne in the County of Huron, containing an area of 760 acres, more or less, and described as follows:

Premising that the bearings herein are astronomical and are referred to the southerly limit of Lot 7 in the Broken Front Concession, having an astronomical bearing of north $89^{\circ} 45' 10''$ east:

Beginning at the southwesterly corner of Lot 7 in Lake Road West Concession; thence north $89^{\circ} 53' 40''$ east 3286.79 feet; thence north $0^{\circ} 00' 20''$ east 1645.37 feet to a point hereinafter referred to as "Point F"; thence northwesterly along a wire fence to a point distant 548.85 feet measured north $51^{\circ} 13' 30''$ west from Point F; thence north $89^{\circ} 57' 10''$

east 417.92 feet; thence north 0° 00' 20" east 187.44 feet; thence north 5° 43' east 100.50 feet; thence north 0° 00' 20" east 375.82 feet; thence north 0° 03' 50" east 33.69 feet; thence south 89° 47' 30" west 3295.20 feet; thence north 0° 11' 10" east 1298.94 feet; thence north 89° 42' 50" east 366.0 feet; thence north 1° 02' 10" west 332.42 feet; thence south 89° 42' 50" west 3044.89 feet; thence south 0° 17' 10" east 100.0 feet; thence south 89° 42' 50" west 454.5 feet, more or less, to the water's edge of Lake Huron; thence continuing south 89° 42' 50" west to a point distant 1320 feet measured northwesterly from and perpendicularly to that water's edge; thence in a southwesterly, northwesterly, southwesterly, southerly and southeasterly direction parallel to that water's edge and 1320 feet in perpendicular distance therefrom to the westerly production of the southerly limit of Lot 7 in the Broken Front Concession; thence easterly along the said westerly production and the southerly limit of that lot to the place of beginning. O. Reg. 165/70, s. 3.

Schedule 83

NORTH BEACH PROVINCIAL PARK

In the Township of Hillier in the County of Prince Edward containing an area of 221 acres, more or less, and described as follows:

Premising that the bearings herein are astronomical:

Beginning at a point distant 4493.98 feet measured south 84° 30' west from the southeasterly corner of Lot 33 in Concession III; thence north 63° 30' 10" east 359.36 feet; thence south 33° 32' 50" east 717.75 feet to the northwesterly limit of a road; thence south 53° 37' 10" west along that northwesterly limit 100.0 feet; thence north 33° 32' 50" west 232.63 feet; thence south 53° 48' 30" west 760.33 feet; thence north 22° 46' 40" west 136.58 feet; thence south 70° 33' 50" west 109.96 feet, more or less, to the high-water mark of Lake Ontario; thence continuing south 70° 33' 50" west to a point distant 1320 feet measured southwesterly from and perpendicularly to that high-water mark; thence in a northwesterly direction parallel to that high-water mark and 1320 feet in perpendicular distance therefrom to the intersection with a line drawn south 56° 43' west from a point distant 4023.64 feet measured north 35° 18' 35" west from the place of beginning; thence north 56° 43' east to that high-water mark; thence north 70° 38' 50" east 278.6 feet; thence, north 31° 27' 10" west 110.0 feet; thence north 88° 54' east 500 feet, more or less, to a point distant 300 feet measured northeasterly from and perpendicularly to the high-water mark of North Bay of Lake Ontario; thence in a general easterly, southeasterly, southerly and southeasterly direction parallel to that high-water mark and 300 feet in perpendicular distance therefrom to a line drawn north 3° 30' west from the place of beginning;

thence south 3° 30' east 825 feet, more or less, to the place of beginning. O. Reg. 165/70, s. 3.

Schedule 84

SANDBANKS PROVINCIAL PARK

In the Township of Hallowell in the County of Prince Edward, containing a total area of 1802 acres, more or less, and described as follows:

Premising that the bearings hereinafter mentioned are astronomical:

1. Beginning at the southwesterly corner of Lot 1, Block H; thence north 19° 29' east along the westerly limit of that block a distance of 418.90 feet; thence south 71° 35' east 329.46 feet; thence north 82° 52' 30" east 503.87 feet; thence south 84° 53' east 174.92 feet; thence north 58° 28' 30" east 23.90 feet; thence south 84° 14' 30" east 46.50 feet; thence north 5° 45' 30" east 251.26 feet to the southerly limit of County Road Number 12; thence south 71° 48' east along that southerly limit 1984.18 feet; thence southeasterly along that southerly limit on a curve to the right having a radius of 68.32 feet an arc distance of 122.20 feet, the chord equivalent being 106.55 feet measured south 20° 33' 45" east; thence south 30° 40' 30" west along the westerly limit of that county road a distance of 584.97 feet; thence south 24° 39' west along that westerly limit 399.86 feet; thence continuing along that westerly limit on a curve to the right having a radius of 83.61 feet, an arc distance of 136.34 feet, the chord equivalent being 121.73 feet measured south 71° 21' 45" west; thence north 61° 55' 30" west along the northwesterly limit of that county road, a distance of 228.08 feet; thence continuing along that northwesterly limit on a curve to the left having a radius of 164.57 feet, an arc distance of 253.22 feet, the chord equivalent being 228.97 feet measured south 73° 59' 45" west; thence south 29° 55' west along that northwesterly limit 636.37 feet; thence south 49° 41' west along that northwesterly limit 28.68 feet; thence north 75° 33' 30" west along the northwesterly limit of County Road Number 12A 140.44 feet; thence south 47° 49' west along that northwesterly limit 873.17 feet; thence south 27° 00' west along that northwesterly limit 428.12 feet; thence southwesterly along that northwesterly limit on a curve to the right having a radius of 457.83 feet, an arc distance of 195.78 feet the chord equivalent being 194.29 feet measured south 39° 15' 01" west; thence south 68° 30' west along the northwesterly limit of Sandbanks Provincial Park Road 430.98 feet; thence south 21° 30' east along that northwesterly limit 21.11 feet; thence south 68° 17' west along that northwesterly limit 511.53 feet; thence south 68° 36' west along that northwesterly limit 328.79 feet; thence north 24° 12' west 528.00 feet; thence south 28° 52' west 720.90 feet; thence north 60° 15' west 113.87 feet, more or less, to the westerly limit of Block H; thence southerly along that westerly limit 176.30 feet; thence north 84° 30' west 1575 feet,

more or less, to a point distant 1320 feet measured southwesterly from and perpendicularly to the water's edge of Lake Ontario; thence in a general northwesterly direction parallel to that water's edge and 1320 feet in perpendicular distance therefrom to the intersection with a line drawn south 7° 45' west from the westerly extremity of a jetty at the outlet of West Lake; thence north 7° 45' east 1030 feet, more or less, to the westerly extremity of that jetty; thence northeasterly along that jetty to the water's edge of Lake Ontario; thence in a northerly direction along the outlet of West Lake to the intersection with the southerly production of the centre line of the road allowance between the townships of Hallowell and Hillier; thence north 64° 45' east 540 feet, more or less, to a point distant 300 feet measured northeasterly from and perpendicularly to the water's edge of West Lake; thence in a general southeasterly direction parallel to that water's edge and 300 feet in perpendicular distance therefrom to a point distant 200 feet measured northwesterly from and perpendicularly to the water's edge of Garratt Island; thence south 7° 25' west 540 feet; thence north 88° 30' east 650 feet, more or less, to a point distant 300 feet measured northerly from and perpendicularly to the water's edge of West Lake; thence in a general southeasterly direction parallel to the said water's edge and 300 feet in perpendicular distance therefrom to a line drawn north 33° 30' east from a point distant 1962.00 feet measured north 23° 24' west from the place of beginning; thence south 33° 30' west 300 feet, more or less, to the water's edge of West Lake; thence south 23° 24' east 1962.00 feet, more or less, to the place of beginning.

2. Beginning at a point on the westerly limit of Block H distant 448.86 feet measured north 19° 29' east along that westerly limit from the southwesterly corner thereof; thence north 19° 29' east along that westerly limit 75.07 feet; thence south 67° 30' east 171.13 feet; thence south 18° 25' west 62.87 feet; thence north 71° 35' west 172.10 feet, more or less, to the place of beginning.

3. Beginning at a point in the westerly limit of Block H distant 20 feet measured southerly along that westerly limit from the northwesterly corner thereof; thence south 71° 35' east 162.40 feet; thence south 18° 25' west 428.06 feet; thence north 67° 30' west 170.57 feet to the westerly limit of Block H; thence north 19° 29' east along that westerly limit 416.0 feet, more or less, to the place of beginning.

4. Beginning at a point in the westerly limit of a public road distant 244.0 feet measured south 5° 45' 30" west along that westerly limit from a point distant 892.93 feet measured south 71° 35' east from the northwesterly corner of Block H; thence south 5° 45' 30" west along the westerly limit of that public road 21.0 feet; thence south 58° 28' 30" west 36.80 feet; thence north 84° 53' west 168.20 feet; thence north 82° 52' 30" east 202.50 feet, more or less, to the place of beginning.

5. Beginning at a point in the northeasterly limit of County Road Number 12 distant 2534.36 feet measured south 32° 39' 25" east from a point distant 320.95 feet measured south 71° 35' east from the northwesterly corner of Block H; thence south 65° 35' east 202.0 feet; thence south 29° 55' west 367.57 feet to the northeasterly limit of County Road Number II; thence north 60° 10' 30" west along that northeasterly limit 141.64 feet; thence north 17° 06' 20" west along that northeasterly limit 81.24 feet; thence north 29° 55' east along the northeasterly limit of County Road Number 12 a distance of 293 feet, more or less, to the place of beginning. O. Reg. 165/70, s. 3.

Schedule 85

SANDBAR LAKE PROVINCIAL PARK

In the geographic townships of Gour, Ignace and Skeg and lands lying north of the geographic Township of Skeg in the Territorial District of Kenora, containing an area of 7800 acres, more or less, and described as follows:

Premising that the bearings herein are astronomical and are referred to the centre line of construction of Secondary Highway No. 599 as shown on Department of Highways Plan P-8114:

Beginning at the Department of Highways monument Number 53 on the westerly limit of the right of way of Secondary Highway No. 599 as shown on Department of Highways Plan P-8064-14; thence west astronomically 3 miles and 2580 feet; thence south 57° west 1 mile and 2970 feet; thence south astronomically 2 miles and 2640 feet; thence east astronomically 4290 feet, more or less, to the westerly limit of the right of way of Secondary Highway No. 599; thence in a northeasterly and easterly direction following that right of way limit to Department of Highways monument Number II; thence north astronomically 3300 feet, more or less, to the high-water mark along the southerly shore of Sandbar Lake; thence in a southeasterly and northeasterly direction following that high-water mark to the intersection with a line drawn north astronomically from Department of Highways monument No. 17; thence south astronomically 2200 feet, more or less, to that highway monument; thence in an easterly and northeasterly direction along the westerly limit of the right of way of Secondary Highway No. 599 to the place of beginning. O. Reg. 165/70, s. 3.

Schedule 86

THE SHOALS PROVINCIAL PARK

In the geographic townships of Cosens, Peters, Topham and Triquet in the Territorial District of Sudbury, containing a total area of 27,670 acres, more or less, and described as follows:

1. Part of the geographic townships of Cosens, Peters, Topham and Triquet described as follows:

Beginning at a point in the southerly limit of the right of way of that part of the King's Highway known as No. 101 at chainage 45+65.32 as shown on Department of Highways Plan P-3230-2; thence easterly along that highway limit 100 feet; thence south astronomically 2 miles; thence east astronomically 1 mile; thence south astronomically 1 mile; thence west astronomically 3 miles and 3168 feet; thence south astronomically 1 mile and 1584 feet; thence west astronomically 4 miles and 3300 feet; thence north astronomically 5 miles and 1584 feet to the southerly limit of the right of way of that part of the King's Highway known as No. 101; thence in a southeasterly, northeasterly and southeasterly direction along that highway limit to the place of beginning.

2. Part of the geographic Township of Peters described as follows:

Beginning at a point in the northerly limit of the right of way of that part of the King's Highway known as No. 101 at chainage 33+62.95 as shown on Department of Highways Plan P-3230-2; thence easterly along that highway limit 330 feet; thence north astronomically 3 miles and 2640 feet; thence west astronomically 2 miles; thence south astronomically 2 miles and 4620 feet to the northerly limit of the right of way of that part of the King's Highway; thence southeasterly along that highway limit to the place of beginning.

3. Part of the geographic townships of Cosens and Peters described as follows:

Beginning at a point in the northerly limit of the right of way of that part of the King's Highway known as No. 101 at chainage 277+88.78 as shown on Department of Highways Plan P-3230-3; thence easterly along that highway limit 100 feet; thence north astronomically 2 miles and 528 feet to the water's edge of Lower Prairie Bee Lake; thence in a westerly, southwesterly, southeasterly and southwesterly direction along the water's edge of Lower Prairie Bee Lake and Prairie Bee Lake to a line drawn north astronomically from a point in the northerly limit of that part of the King's Highway known as No. 101 distant 335.84 feet measured westerly along that highway from chainage 50+56.04 as shown as Department of Highways Plan P-8066; thence south astronomically 3630 feet, more or less, to that highway; thence southeasterly and northeasterly along that highway limit to the place of beginning. O. Reg. 165/70, s. 3.

Schedule 87

TIDEWATER PROVINCIAL PARK

In the Territorial District of Cochrane, containing an area of 2421 acres, more or less, and described as follows:

1. Being composed of Butler Island and Haysey Island in the Moose River opposite the geographic townships of Moose and Horden and part of the bed of the Moose River extending 100 feet into the Moose River from the water's edge around each of those islands.

2. Part of Bushy Island in front of the geographic Township of Horden and described as follows:

Beginning at a point in the water's edge of the Moose River along the westerly shore of Bushy Island distant 4 miles and 3015.54 feet measured south 14° 13' 40" west from post No. 44 as shown on a plan of the Moose River Survey by C. R. Kenny, Ontario Land Surveyor in 1923; thence east astronomically across that island to the water's edge of the Moose River along the easterly shore thereof; thence continuing easterly to a point distant 100 feet measured southerly from the perpendicularly to that water's edge of the Moose River; thence in a northeasterly, northerly, westerly, southwesterly and easterly direction parallel to that water's edge and 100 feet in perpendicular distance therefrom to a line drawn west astronomically from the place of beginning; thence east astronomically to the place of beginning.

3. Part of Charles Island in front of the geographic Township of Horden described as follows:

Beginning at a point in the water's edge of the Moose River along the westerly shore of Charles Island distant 3700.30 feet measured south 58° 30' 00" east from the southwesterly corner of Moosonee Townsite; thence south astronomically 233 feet, more or less, to the water's edge of the Moose River along the easterly shore of Charles Island; thence continuing south astronomically to a point distant 100 feet measured southeasterly from and perpendicularly to that water's edge; thence in a southerly, westerly, northerly and northeasterly direction parallel to that water's edge and 100 feet in perpendicular distance therefrom to the intersection with a line drawn north astronomically from the place of beginning; thence south astronomically to the place of beginning.

4. Part of Charles Island in front of the geographic Township of Horden described as follows:

Beginning at a point in the water's edge of the Moose River along the westerly shore of Charles Island distant 3921.88 feet measured south 68° 44' 34" east from the southwesterly corner of Moosonee Townsite; thence south astronomically 289.7 feet, more or less, to the water's edge of the Moose River along the easterly shore of Charles Island; thence continuing south astronomically to a point distant 100 feet measured southerly from and perpendicularly to that water's edge; thence in an easterly, northeasterly and southeasterly direction parallel to that water's edge and 100 feet in perpendicular distance therefrom to the inter-

section with a line drawn north astronomically from the place of beginning; thence south astronomically to the place of beginning. O. Reg. 165/70, s. 3.

Schedule 88

POLAR BEAR PROVINCIAL PARK

In the Patricia Portion of the Territorial District of Kenora, containing an area of 9,300 square miles, more or less and described as follows:

Beginning at the intersection of the southerly shore of Hudson Bay with longitude 87°; thence

southerly along that longitude to latitude 55°; thence easterly along that latitude to longitude 83° 45'; thence southerly along that longitude to latitude 54°; thence easterly along that latitude to the westerly shore of James Bay; thence in a general northerly and westerly direction along the shore of James Bay and of Hudson Bay to longitude 84° 55'; thence southerly along that longitude to latitude 55° 13'; thence westerly along that latitude to longitude 85° 15'; thence northerly along that longitude to the southerly shore of Hudson Bay; thence in a general northwesterly direction along that shore to the place of beginning. O. Reg. 183/70, s. 2, O. Reg. 290/70, s. 1.

REGULATION 696

under The Provincial Parks Act

GENERAL

INTERPRETATION

1. In this Regulation,

- (a) "camp-site" means a parcel of land in an area operated by the superintendent for the purpose of camping, marked by stakes planted at each of the four corners of the parcel and identified by a number painted or otherwise placed on the stakes;
- (b) "motor vehicle" means a motor vehicle as defined in *The Highway Traffic Act*;
- (c) "officer" means the superintendent or other person in charge of a provincial park, or a forest ranger;
- (d) "superintendent" means the district forester or superintendent in charge of a provincial park. O. Reg. 61/70, s. 1.

CONDUCT OF PERSONS USING PROVINCIAL PARKS

2. No person shall,

- (a) remove or damage any plant, shrub, flower or tree;
- (b) remove or damage any table, bench, seat, fireplace, monument, relic, notice, marker or sign;
- (c) deface, damage or remove any bridge, building, structure, natural object, rock, or any other property of the Crown; or
- (d) cut timber, except under the express written authority of the Minister,

within a provincial park. O. Reg. 61/70, s. 2.

3.—(1) No person shall throw or deposit or cause to be deposited any tin cans, bottles, metal containers, plastic containers and equipment, paper wrappers, rubbish, refuse, waste or litter in a provincial park, except in a place designated for the purpose.

(2) Every person using a camp ground or camp-site in a provincial park shall at all times maintain the area in a clean and sanitary condition, and when vacating the property shall restore such camp ground or camp-site as nearly as possible to its natural condition. O. Reg. 61/70, s. 3.

4.—(1) No person shall permit a horse, dog, or other animal to be at large in a provincial park.

(2) A dog or other animal on a leash exceeding six feet in length is deemed to be at large.

(3) No person shall permit a horse, dog, or other animal, whether on a leash or not, to be in any waters in a provincial park operated by the superintendent as a swimming area, or upon any part of the beach adjacent thereto.

(4) Except in an area operated by the superintendent for the purpose, no person shall drive, walk or ride a horse, pony or other like animal in a provincial park. O. Reg. 61/70, s. 4.

5.—(1) The provisions of *The Forest Fires Prevention Act*, and the regulations made thereunder apply *mutatis mutandis* in a provincial park as though the provincial park were within a declared fire district.

(2) Notwithstanding subsection 1 no person shall,

- (a) start a fire in a camp-site or picnic area except in a fireplace provided by the superintendent; or
- (b) possess or ignite fireworks within a provincial park. O. Reg. 61/70, s. 5.

6.—(1) No person shall,

- (a) use abusive or insulting language, or make excessive noise or disturb other persons;
- (b) throw stones or other missiles; or
- (c) beg, solicit, or invite subscriptions or contributions,

within a provincial park.

(2) Where the superintendent believes on reasonable and probable grounds that a person has contravened clause a of subsection 1, the superintendent may remove the offender from the provincial park and may cancel any permits of the offender pertaining to the provincial park in which the incident occurred.

(3) Where a permit is cancelled in accordance with this section, the permittee is not entitled to a refund.

(4) No person who has been removed from a provincial park under subsection 2 shall within the following seventy-two hour period enter or attempt to enter the provincial park from which that person was removed without the permission of the superintendent. O. Reg. 61/70, s. 6.

OCCUPATION OF PUBLIC LANDS

7. No person shall occupy land in a provincial park except,

- (a) by authority granted under this Regulation;
- (b) under a lease granted before the 2nd day of July, 1954, and any renewal thereof;
- (c) under an agreement for the establishment or operation of any works, facilities or services made under clause *e* of subsection 3 of section 7 of the Act; or
- (d) under a licence of occupation authorizing the occupation of public lands in the park for the purpose of microwave, radio, telephone or television service or the transmission of gas or oil or the transmission of power as defined in *The Power Commission Act*. O. Reg. 61/70, s. 7.

8.—(1) No person shall occupy a camp-site except under the authority of a camp-site permit issued by the officer in charge of the camping area.

(2) A camp-site permit issued in accordance with subsection 1 shall be in Form 1.

(3) Subsection 1 does not apply to group camping authorized under subsection 4.

(4) The fee for group camping by a religious, charitable or educational organization is 10 cents per person per day and may be waived by the superintendent.

(5) The fee payable for a permit in Form 1 is,

- (a) \$2.50 per day where electrical power is not available; and
- (b) \$3 per day where electrical power is available. O. Reg. 61/70, s. 8.

9. A camp-site permit authorizes the permittee and any persons who, when the permit is issued, occupy the vehicle or boat operated by the permittee, to occupy the camp-site designated until 2 p.m. of the departure date shown in the permit. O. Reg. 61/70, s. 9.

10. No person shall camp under the authority of a camp-site permit in a provincial park for more than twenty-eight days in a year. O. Reg. 61/70, s. 10.

11. A camp-site permit is authority for the permittee,

- (a) to park on the camp-site one motor vehicle and a trailer, either of which has not been parked; and

- (b) to use on the camp-site a tent that has not been erected,

on a camp-site in the provincial park under the authority of a camp-site permit for a period of twenty-eight days in the same year. O. Reg. 61/70, s. 11.

12. Where a permit is surrendered before its expiry, the permittee is not entitled to a refund. O. Reg. 61/70, s. 12.

13.—(1) No person shall camp overnight in a provincial park except under the authority of an interior camping permit in Form 2.

(2) Subsection 1 does not apply to the occupation of a camp-site under the authority of a camp-site permit.

(3) The fee payable for a permit in Form 2 is \$1 a night and \$5 for a 16-day period and, where more than one boat is brought into the park by the permittee, an additional fee of \$1 a night or \$5 for a 16-day period is payable in respect of each such boat in excess of one.

(4) A permit in Form 2 expires at 2 p.m. on the last day for which the permit is valid.

(5) An interior camping permit authorizes the permittee and any persons who, when the permit is issued, occupy the vehicle or boat or boats operated by the permittee to camp overnight in the provincial park named in the permit except on a camp-site and except on land within two miles of a highway along which camp-sites are operated. O. Reg. 61/70, s. 13.

14.—(1) Where a person has been issued a camp-site permit he shall not leave the camp-site unattended for a period exceeding forty-eight hours without the written permission of the superintendent.

(2) Where the holder of a camp-site permit fails to comply with the provisions of subsection 1, the superintendent may cancel the permit without refunding any part of the moneys paid therefor.

(3) No person shall enter or remain in a provincial park after the posted hours of closing for the park except where such person is in possession of a valid interior camping permit in Form 2 or a camp-site permit in Form 1. O. Reg. 61/70, s. 14.

15. A picnic may be held only in an area operated by the superintendent for the purpose. O. Reg. 61/70, s. 15.

16.—(1) No person shall take a motor vehicle other than a bus licensed under *The Public Vehicles Act*, or boat into a provincial park without a vehicle entry permit in Form 3 or 4 or a camp-site permit in Form 1.

(2) A permit in Form 3 expires with the day on which it is issued and a permit in Form 4 expires on the 31st day of March next following its date of issue.

(3) The fee for a permit in Form 3 is \$1 and the fee for a permit in Form 4 is \$10.

(4) No person shall take a bus licensed under *The Public Vehicles Act* into a provincial park without paying a fee of \$6 a day.

(5) An unexpired permit issued to authorize the entry of a motor vehicle into the parks under *The St. Lawrence Parks Commission Act* shall be deemed to be a permit for that vehicle in Form 4 for the purpose of this section. O. Reg. 61/70, s. 16.

ASSIGNMENT OF PERMITS

17. No permit issued under this Regulation may be assigned. O. Reg. 61/70, s. 17.

SALE OF GOODS PROHIBITED

18.—(1) No person shall sell or offer for sale any article, thing, or service, within a provincial park.

(2) Subsection 1 does not apply to a sale authorized under any agreement made under the Act. O. Reg. 61/70, s. 18.

TRAFFIC RULES

19. Where the superintendent operates an area for the purpose of parking in a provincial park, no person shall park a motor vehicle in the provincial park except in the area or on land occupied under a deed, lease, licence of occupation or camp-site permit. O. Reg. 61/70, s. 19.

20. No person shall operate a motor vehicle within a provincial park except on a roadway or other place designated for the purpose. O. Reg. 61/70, s. 20.

21. No person shall park a motor vehicle within a provincial park,

- (a) within fifty feet of a bridge;
- (b) in a position or place that prevents or is likely to prevent free and convenient movement of other vehicles; or
- (c) in any prohibited area. O. Reg. 61/70, s. 21.

22.—(1) An officer may direct traffic and in cases of fire, accident, traffic congestion or other emergency, may direct it into such channels as are necessary to prevent or relieve congestion or give right of way.

(2) Every person shall obey any direction given under subsection 1. O. Reg. 61/70, s. 22.

23.—(1) In this section, "vehicle" means a self-propelled vehicle designed to be driven,

- (a) exclusively on snow or ice, or both; or
- (b) on land and water,

or any like vehicle but does not include an automobile. O. Reg. 376/70, s. 1.

(2) No person shall use a vehicle in a provincial park except in an area operated by the superintendent for the purpose. O. Reg. 61/70, s. 23 (2).

(3) Notwithstanding subsection 2, the holder of a licence in Form 2 of Regulation 367 of Revised Regulations of Ontario, 1970 for a trap-line area in a provincial park may use a vehicle in the park for access to and travel on the trap-line area for supervision of the trap-line area. O. Reg. 61/70, s. 23 (3).

24. No person shall land an aircraft within a provincial park at any point other than at an airport licensed under the *Aeronautics Act* (Canada). O. Reg. 61/70, s. 24.

25.—(1) In this section, "non-resident of Canada" means a person who has not actually resided in Canada for a period of at least seven months during the twelve months immediately preceding the time that his residence becomes material under this section.

(2) No person shall leave a boat unattended in a provincial park except,

- (a) on land occupied under a lease, agreement or camp-site permit issued under the Act and the regulations;
- (b) in an area provided for the purpose in the camping area in which he occupies a camp-site;
- (c) in Algonquin Provincial Park,

(i) from the 1st day of April to the 20th day of June, both inclusive, in any year, or

(ii) at any time at a place designated for the purpose by the superintendent on Brewer Lake, Cache Lake, Canisbay Lake, Canoe Lake, Cedar Lake, Costello Lake, Found Lake, Foy's Lake, Grand Lake, Heron Lake, Jake Lake, (known also as Margaret Lake), Kingscote Lake, Kioshkokwi Lake, Lake of Two Rivers, Lake Traverse, Opedongo Lake, Peck Lake, Rain Lake, Rock Lake, Rosepond Lake, Shall Lake, Smoke Lake, Source Lake, Tea Lake, or Whitefish Lake; or

(d) in Quetico Provincial Park at a place designated for the purpose by the superintendent at the Dawson Trail area on French Lake or at the ranger station at Beaverhouse Lake, Cache Bay, Lac la Croix, Prairie Portage or Ottawa Island.

(3) Clause d of subsection 2 does not apply to a non-resident of Canada. O. Reg. 376/70, s. 2.

26.—(1) No person shall use a ski tow in a provincial park without a permit.

(2) The fee for a ski tow permit is \$1.

(3) A ski tow permit shall be in Form 5. O. Reg. 61/70, s. 26.

27. No person shall use a water ski, surf-board or water sled or any like thing in Algonquin Provincial Park except on Cache Lake, Canisbay Lake, Canoe Lake, Cauliflower Lake, Cedar Lake, Grand Lake, Kingscote Lake, Kioshkokwi Lake, Lake of Two Rivers, Lake Traverse, Opeongo Lake, Rock Lake, Smoke Lake, Source Lake, Tea Lake or Whitefish Lake. O. Reg. 61/70, s. 27.

28.—(1) In this section, “boat” means a boat that is propelled by electric, gasoline, oil or steam motive power in excess of 10 horsepower.

(2) No person shall use a boat in Algonquin Provincial Park except on Bonita Lake, Brewer Lake, Cache Lake, Canisbay Lake, Canoe Lake, Carl Wilson Lake, Cauchon Lake, Cauliflower Lake, Cedar Lake, Costello Lake, Found Lake, Foys Lake, Galeairy Lake, Grand Lake, Joe Lake, Kingscote Lake, Kioshkokwi Lake, Lake of Two Rivers, Lake Traverse, Little Cauchon Lake, Little Joe Lake,

Openongo Lake, Radiant Lake, Rain Lake, Rock Lake, Shall Lake, Smoke Lake, Source Lake, Tanamakoon Lake, Tea Lake, Tepee Lake, Waskigomog Lake, Whitefish Lake, or Wilkes Lake. O. Reg. 61/70, s. 28.

29.—(1) In this section, “boat” means a boat that is propelled by electric, gasoline, oil or steam motive power.

(2) No person shall use a boat in Killarney Provincial Park except on David Lake, George Lake or Three Narrows Lake.

(3) No person shall use a boat in Earl Rowe Provincial Park. O. Reg. 61/70, s. 29.

30.—(1) In this section, “boat” means a boat that is registered or that is required to be licensed under the *Canada Shipping Act* and the regulations thereunder.

(2) Except under the authority of an anchor permit in Form 6 issued by the superintendent, no person shall anchor a boat in Rondeau Provincial Park for a period exceeding twenty-four hours.

(3) An anchor permit is authority for the permittee to anchor in an area operated by the superintendent for the purpose, a boat that has not been anchored in Rondeau Provincial Park for a period of twenty-eight days in the same year. O. Reg. 61/70, s. 30.

31. For the purpose of preserving the environment of a provincial park in its natural state, the superintendent may from time to time exclude the public from part of the park by the erection of signs or other suitable means. O. Reg. 61/70, s. 31.

REGULATION 698

under The Psychologists Registration Act

GENERAL

1. In this Regulation, "registrar" means the person appointed by the Board to be registrar. R.R.O. 1960, Reg. 501, s. 1.

2.—(1) Each person appointed as a member shall be appointed for a term of five years.

(2) Each term shall begin and expire on the 1st day of June. R.R.O. 1960, Reg. 501, s. 2 (1, 2), *amended*.

3. Each member shall be paid necessary expenses incurred in connection with the business of the Board. O. Reg. 89/62, s. 1.

4. The Board shall elect a chairman from among its members in each year before the 1st day of June. R.R.O. 1960, Reg. 501, s. 4.

5.—(1) An applicant for a certificate of registration shall pay a fee of \$50. R.R.O. 1960, Reg. 501, s. 5 (1); O. Reg. 89/62, s. 2.

(2) Upon each registration the registrar shall issue a certificate of registration in Form 1.

(3) Upon each renewal of registration the registrar shall issue a certificate of renewal in Form 2. R.R.O. 1960, Reg. 501, s. 5 (2, 3).

6.—(1) Every certificate of registration expires with the 31st day of May next following the date upon which it is issued, unless it is renewed in accordance with subsection 2. R.R.O. 1960, Reg. 501, s. 6 (1).

(2) A certificate of registration may be renewed by paying a renewal fee of \$20 before the certificate expires. R.R.O. 1960, Reg. 501, s. 6 (2); O. Reg. 2/67, s. 1.

7. Where a certificate of registration expires and, within ten years after the expiration of the certificate, the former holder of the certificate applies for a new certificate of registration, a new certificate shall be issued upon payment of a re-instatement fee of \$30. R.R.O. 1960, Reg. 501, s. 7; O. Reg. 89/62, s. 4.

8.—(1) The Board shall conduct or cause to be conducted examinations for registration at least once a year. R.R.O. 1960, Reg. 501, s. 8 (1).

(2) The fee for an examination is \$100. R.R.O. 1960, Reg. 501, s. 8 (2); O. Reg. 89/62, s. 5.

(3) An applicant who fails to qualify at the examination is eligible for re-examination after an interval of one year. R.R.O. 1960, Reg. 501, s. 8 (3).

9. Examiners employed by the Board shall be paid a remuneration of \$50 for each day of their employment. R.R.O. 1960, Reg. 501, s. 9.

10. The Board may, after a hearing, suspend or cancel a certificate of registration when it has been shown to the satisfaction of the Board that the person registered,

(a) has procured registration by misrepresentation or fraud;

(b) has been guilty of malpractice;

(c) is mentally or physically incapable of practising psychology;

(d) has been convicted of an offence under the Act or of any criminal offence for conduct that demonstrates that it is not in the public interest for him to continue to practise as a psychologist; or

(e) has been guilty of any professional misconduct or of conduct unbecoming a psychologist. R.R.O. 1960, Reg. 501, s. 10.

REGULATION 699

under The Public Commercial Vehicles Act

CARRYING GOODS IN BOND

1. A Class L operating licence in Form 1 authorizes the holder to carry goods in bond through Ontario between the states of Michigan and New York upon the route prescribed in the licence. R.R.O. 1960, Reg. 502, s. 1.

2. Every Class L licence shall specify the maximum number of trips that may be made daily by public commercial vehicles operated under the authority of the licence, and the maximum number so specified may vary upon different days of the week or months or periods of the year. R.R.O. 1960, Reg. 502, s. 2.

3.—(1) No Class L licence shall be issued without the approval of the Ontario Highway Transport Board being first obtained as evidenced by the Board's certificate to the Minister that the applicant has furnished proof satisfactory to the Board,

(a) that the applicant has been authorized by the Government of Canada or the appropriate department, branch or official thereof to carry goods in bond through Ontario; and

(b) that the Interstate Commerce Commission (a commission created by Act of the Congress of the United States of America) has approved of the applicant operating public commercial vehicles between areas in appropriate relationship to the proposed route through Ontario.

(2) An application for a Class L licence shall be in Form 2. R.R.O. 1960, Reg. 502, s. 3.

4.—(1) A fee of \$9 shall be paid to the Minister in respect of each trip made through Ontario under the authority of a Class L licence.

(2) The fee referred to in subsection 1 may be collected by the issue by the Minister of Class L Trip Permits in Form 3 which shall be used only in respect of vehicles operated by the holders of Class L licences.

(3) A Class L Trip permit shall accompany the vehicle in respect of which it is issued during the trip, and shall be produced by the driver when demanded by a member of the Ontario Provincial Police Force or an officer of the Department designated by the Minister to assist in the enforcement of the Act. R.R.O. 1960, Reg. 502, s. 4.

5. No public commercial vehicle shall be operated under a Class L licence on a holiday. O. Reg. 70/65, s. 1.

6. The following provisions of *The Public Commercial Vehicles Act* and of Regulation 700 of Revised Regulations of Ontario, 1970 do not apply to holders of Class L licences or to public commercial vehicles operated under the authority of this Regulation:

1. Subsection 3 of section 2, subsection 1 of section 5 and section 9 of *The Public Commercial Vehicles Act*.

2. Subsections 2 and 3 of section 1, sections 2 to 12, sections 17 to 20, clause 1 (b) of subsection 1 of section 21, subsection 2 of section 21, sections 23, 24 and 26 and the Forms of Regulation 700 of Revised Regulations of Ontario, 1970,

but in all other respects *The Public Commercial Vehicles Act* and Regulation 700 of Revised Regulations of Ontario, 1970 apply thereto. R.R.O. 1960, Reg. 502, s. 6; O. Reg. 333/62, s. 1.

REGULATION 700

under The Public Commercial Vehicles Act

GENERAL

PUBLIC COMMERCIAL VEHICLE OPERATING LICENCES

1.—(1) An operating licence authorizes the licensee to conduct upon a highway by means of a public commercial vehicle the business of transportation of goods, subject to the Act, this Regulation and the terms and conditions in the licence.

(2) Every operating licence expires with the 1st day of July in each year unless on or before that day the licensee has applied for and acquired vehicle licences for the current year.

(3) Where the licensee has acquired his vehicle licences as provided in subsection 2, his operating licence shall be deemed to be renewed. R.R.O. 1960, Reg. 503, s. 1.

2.—(1) Operating licences are classified as follows and may contain one or more of the following classifications:

1. Class A—authorizing the licensee, as a common carrier, to conduct a public commercial vehicle service between places on the King's Highway and other places named in the licence.

2. Class C—authorizing the licensee, as a common carrier, to transport goods on a continuous trip,

(i) from the place or places named in the licence if the goods are consigned by one consignor to one or more consignees, or

(ii) to the place or places named in the licence if the goods are consigned to one consignee.

3. Class D—authorizing the licensee to conduct a public commercial vehicle service exclusively for the transportation of goods to or from the person named in the licence or operated exclusively for the transportation of a particular type of goods or class of freight designated in the licence.

4. Class E—authorizing the licensee to conduct a public commercial vehicle service exclusively for the transportation of milk and cream.

5. Class F—authorizing the licensee to conduct a public commercial vehicle service exclusively for the transportation of,

(i) livestock, coal, rough lumber, bricks, tile, cement blocks, cement, cinder blocks, garbage, sand, gravel, rubble, slag, earth, turf and crushed or uncut rock and stone or such of them as are named in the licence, and

(ii) such other materials as are named in the licence for use only in road construction and maintenance and only when carried to stock piles and construction sites, but not liquid or viscous material carried by a tank truck or tank trailer designed for the purpose.

6. Class FS—authorizing the licensee to conduct a public commercial vehicle service exclusively for the transportation of livestock, feed, seed, fertilizer and supplies for use in the operation and maintenance of farms only, or such of them as may be named in the licence, to or from farms within the area defined in the licence.

7. Class H—for the carriage of uncrated used household, office and store furniture and, where specially designed vehicles of the dropframe type are used and equipped with pads, belts, hooks, wardrobes and special packing containers,

(i) new uncrated furniture and fixtures that are part of the furnishing of the dwelling in which they are to be used,

(ii) new uncrated furniture and fixtures that are part of the furnishing of offices, museums, hospitals, factories and public institutions,

(iii) objects of art, displays and exhibits that because of their unusual nature or value require specialized handling and the employment of pads, belts, hooks, wardrobes, and special packing containers.

8. Class K—authorizing the licensee to conduct a public commercial vehicle service exclusively for the transportation of heavy-duty machinery, boilers, transformers and similar equipment that requires special loading devices and cannot be carried on a standard truck, trailer or semi-trailer.

9. Class T—authorizing the licensee, as a common carrier, to conduct a public commercial vehicle service for the transportation of bulk commodities in a tank vehicle. R.R.O. 1960, Reg. 503, s. 2 (1); O. Reg. 371/66, s. 1 (1, 2); O. Reg. 438/70, s. 1.

(2) In paragraph 2 of subsection 1,

(a) "consignor" means,

- (i) a person other than a person who,
 - a. arranges, sells or offers for sale, or
 - b. negotiates for, or
 - c. holds himself out as one who sells, or
 - d. furnishes or provides,

transportation services where the transportation service offered is to be or has been in part furnished by a carrier other than that person, or

- e. is a forwarding agent, a transportation broker, a cartage agent or any person engaged in a similar operation or anyone who enters into a pooling of freight arrangement, or

(ii) a common carrier by rail, a common carrier by air or a common carrier by water, where the transportation of goods is incidental to an immediate prior or subsequent transportation of goods by a common carrier by rail, a common carrier by air or a common carrier by water;

(b) "continuous trip" means a trip without cessation or stopover from the place of commencement to the destination of the shipment other than a cessation or stopover made,

- (i) to refuel the vehicle,
- (ii) to effect any required repairs or to perform any other required maintenance with respect to the vehicle,
- (iii) to provide a reasonable rest period for the driver of the vehicle,
- (iv) in the case of emergency,
- (v) to effect the pickup or delivery of goods, or

(vi) to effect the transfer of goods or interchange of trailers by a person who is the holder of a Class C operating licence or who is the holder of an operating licence that includes the terms of a Class C operating licence,

a. where the terms of the operating licence authorize the transfer of goods or interchange of trailers, and

b. if the goods transferred or the trailers interchanged are transported within the Class C authority of the person to whom the goods are transferred or the trailer interchanged. O. Reg. 371/66, s. 1 (4).

(3) No holder of an operating licence, other than a Class D operating licence, shall transport new uncrated motor vehicles unless his operating licence authorizes him to transport such vehicles.

(4) Where an operating licence authorizes a service to an urban municipality, the urban municipality shall be deemed to include the urban zone thereof. R.R.O. 1960, Reg. 503, s. 2 (4, 5).

(5) Where a Class A licence authorizes service to and from points by routes designated in the licence, the licence shall be deemed to authorize service to and from points situated within a distance of $1\frac{1}{2}$ miles on either side of the routes, and the service shall be conducted over the routes named and such connecting roads as provide access to the said points to and from the said routes, unless specifically prohibited by the terms of the operating licence. R.R.O. 1960, Reg. 503, s. 2 (6); O. Reg. 371/66, s. 1 (6).

(6) No person shall transport uncrated used household, office or store furniture unless he is the holder of,

(a) a Class H operating licence or an operating licence that includes the terms of a Class H operating licence; or

(b) a Class A operating licence that by its terms authorizes the holder to transport uncrated used household furniture. O. Reg. 371/66, s. 1 (5).

(7) In paragraph 9 of subsection 1, "tank" means an enclosed container used for or capable of being used for the storage of bulk commodities during transportation on a highway. O. Reg. 438/70, s. 2.

(8) In paragraph 9 of subsection 1 "tank vehicle" means a commercial motor vehicle or trailer used for or capable of being used for the transportation of

commodities in bulk and which contains or to which there is attached or upon which there has been placed either permanently or otherwise a tank having a capacity of 500 gallons or more. O. Reg. 438/70, s. 2.

(9) No person shall transport bulk commodities in a tank vehicle upon the highway unless he is the holder of a Class T operating licence. O. Reg. 438/70, s. 2.

(10) Subsection 9 does not apply to the holder of a valid subsisting Class E operating licence. O. Reg. 438/70, s. 3, *part*.

3.—(1) A freight-forwarder's licence issued pursuant to section 12 of the Act shall be in Form 9.

(2) For the purposes of this Regulation a freight-forwarder's licence is a Class FF licence.

(3) The holder of a freight-forwarder's licence shall not transport goods upon a highway beyond an urban zone except in a vehicle,

(a) operated by the holder of an operating licence issued pursuant to the Act; and

(b) where the terms of the operating licence referred to in clause *a* authorize the holder to perform the transportation.

(4) No holder of a freight-forwarder's licence shall be the holder of an operating licence. O. Reg. 340/68, s. 1.

4. Where an operating licence is applied for by an applicant who is the holder of an operating licence, the terms of the licence applied for may be included in the operating licence that he holds in lieu of issuing a new operating licence. R.R.O. 1960, Reg. 503, s. 3.

5.—(1) An application for a freight-forwarder's licence shall be in Form 12.

(2) Every Class FF licence expires on the 31st day of December for the year in which it was issued.

(3) The fee for a Class FF licence is \$25. O. Reg. 340/68, s. 1.

6.—(1) Operating licences shall be in the following forms:

- Class A in Form 1
- Class C in Form 3
- Class D in Form 4
- Class E in Form 5
- Class F in Form 6
- Class FS in Form 7
- Class H in Form 8
- Class K in Form 9
- Class T in Form 10

O. Reg. 438/70, s. 4.

(2) An application for an operating licence shall be in Form 11. R.R.O. 1960, Reg. 503, s. 4 (2).

7.—(1) An application for the transfer of an operating licence shall be in Form 13 and shall be signed by the licensee and by the applicant.

(2) The application shall be accompanied by,

(a) a copy of the agreement between the licensee and the applicant covering the sale of the business, equipment, vehicles and vehicle licences; and

(b) a statutory declaration showing the liabilities, if any, of the licensee and showing how those liabilities are to be liquidated. R.R.O. 1960, Reg. 503, s. 5.

PUBLIC COMMERCIAL VEHICLE LICENCES

8.—(1) A vehicle licence authorizes the licensee to operate the vehicle for which it is issued as a public commercial vehicle in providing the service designated in his operating licence.

(2) Every vehicle licence expires on the 31st day of March in each year.

(3) Not more than one vehicle licence shall be in effect at any one time for a public commercial vehicle.

(4) No vehicle licence shall be issued for a public commercial vehicle except,

(a) to the holder of an operating licence who is registered as the owner of the vehicle under *The Highway Traffic Act*; or

(b) subject to the approval of the Minister, to the holder of an operating licence who has entered into a *bona fide* agreement for the lease of the public commercial vehicle. R.R.O. 1960, Reg. 503, s. 6.

9. A vehicle licence shall be in Form 14. R.R.O. 1960, Reg. 503, s. 7.

10.—(1) No person shall display any public commercial vehicle licence plate issued under the Act on any vehicle other than that for which the licence plate was issued.

(2) No vehicle licence or licence plate shall be transferred unless the vehicle for which the licence was issued is sold to the transferee and unless the transferee holds an operating licence authorizing the operation of that class of vehicle. R.R.O. 1960, Reg. 503, s. 8.

11.—(1) Public commercial vehicles shall be classified in accordance with the classification of the

operating licence under which they are operated and the following fees are payable for vehicle licences:

1. For licence and licence plate for each motor vehicle or trailer operated under a Class A, C, D, K or T operating licence having a gross weight, as shown on the licence, of

not more than 2 tons.....	\$ 10.00
more than 2 tons and up to 3 tons..	15.00

4. For a conversion unit consisting of a single axle designed to convert a two-axle commercial motor vehicle into a three-axle commercial motor vehicle with a gross weight of 21 tons.....\$26.50

5. For licence and licence plate for each motor vehicle or trailer operated under a Class E or Class F operating licence.....\$ 1.00

6. For licence and licence plate for each motor vehicle or trailer operated under a Class FS operating licence.. 10.00

7. For the transfer of a vehicle licence.. 1.00

8. For a new licence plate in case of loss 1.00

9. For a vehicle licence issued under paragraph 1 or 3 on or after the 1st day of December and valid only until the 31st day of March next following, one-half of the fee provided for in paragraph 1 or 3. R.R.O. 1960, Reg. 503, s. 9 (1); O. Reg. 215/61, s. 1 (1-4); O. Reg. 438/70, s. 5.

(2) Where the holder of a vehicle licence applies to replace the vehicle for which the licence was issued with another vehicle for which no vehicle licence is in effect, the Minister may permit the vehicle licence and licence plate to be transferred to the substituted vehicle upon payment of a transfer fee of \$1 and any difference in the fees prescribed by this Regulation for the substituted vehicle, if the substituted vehicle is of a greater gross weight.

(3) In this section, "gross weight" means the combined weight of the vehicle and its carrying capacity. R.R.O. 1960, Reg. 503, s. 9 (2, 3).

VEHICLES

12. The vehicle licence issued for each public commercial vehicle, together with a copy of the conditions set out in the operating licence under which it is operated, shall, whenever the vehicle is on a highway, be carried by the driver or be kept in a readily accessible place in the vehicle and shall be produced upon the demand of a member of the Ontario Provincial Police Force or of an officer of the Department. R.R.O. 1960, Reg. 503, s. 10.

13. Every public commercial vehicle used for the transportation of flammable goods shall be equipped with an adequate fire-extinguisher which shall be kept in effective working order at all times and shall be located in the vehicle in a readily accessible place. R.R.O. 1960, Reg. 503, s. 11.

14.—(1) A member of the Ontario Provincial Police Force or an officer of the Department may at any time examine any public commercial vehicle, its contents and equipment for the purpose of ascertaining whether the Act, this Regulation and the operating licence under which the vehicle is operated are being complied with in the operation of the vehicle, and for that purpose the member or officer may require the driver or other person in charge of a public commercial vehicle to stop on a highway.

(2) Every driver or other person in charge of a public commercial vehicle on a highway who is required by a member of the Ontario Provincial Police Force or an officer of the Department, by signals or otherwise, to stop the vehicle for the purpose of examination, shall stop the vehicle and permit and assist in the examination of the vehicle, its contents and equipment. R.R.O. 1960, Reg. 503, s. 12.

DRIVERS

15. Every driver of a public commercial vehicle shall be at least eighteen years of age. O. Reg. 366/66, s. 1.

16.—(1) Every holder of an operating licence shall keep an accurate record of the hours of labour of drivers of vehicles operated under the licence.

(2) Every driver of a public commercial vehicle shall keep an accurate record of his hours of labour.

(3) The records mentioned in subsections 1 and 2 shall be produced when required for inspection by a member of the Ontario Provincial Police Force or an officer of the Department. O. Reg. 366/66, s. 1.

BILLS OF LADING

17.—(1) Subject to subsection 2, every holder of an operating licence or of a freight-forwarder's licence shall issue a bill of lading to the person delivering or releasing goods to the licensee for transportation for compensation. R.R.O. 1960, Reg. 503, s. 13 (1); O. Reg. 340/68, s. 2.

(2) Subsection 1 does not apply to holders of Class E and Class F operating licences, except holders of Class F operating licences transporting live stock, bricks, tile, cement, cement blocks or cinder blocks. R.R.O. 1960, Reg. 503, s. 13 (2).

18.—(1) A bill of lading shall show,

- (a) the name of the consignor;
- (b) the originating point of the shipment;
- (c) the date of the shipment;
- (d) the name of the consignee;
- (e) the destination of the shipment;
- (f) the name of the carrier issuing the bill of lading;
- (g) the name of the freight forwarder issuing the bill of lading;
- (h) the number of the pieces or quantity of goods;

- (i) the contents of packages or particulars of goods;
- (j) the gross weight of each shipment; and
- (k) whether the charges are prepaid or collect. R.R.O. 1960, Reg. 503, s. 14 (1); O. Reg. 340/68, s. 3.

(2) A bill of lading shall include an acknowledgment of receipt by the carrier or the freight forwarder of the goods therein described and an undertaking to carry such goods for delivery to the consignee or the person entitled to receive the goods and shall be signed by, or on behalf of, the issuing carrier or issuing freight forwarder and by the consignor. R.R.O. 1960, Reg. 503, s. 14 (3); O. Reg. 340/68, s. 4.

(3) A bill of lading shall contain on the face thereof,

- (a) a space in which to show the declared valuation of the shipment, if any;
- (b) a space in which to show the amount to be collected by the carrier on a cash-on-delivery shipment;
- (c) where the shipment is at the owner's risk, the words "at owner's risk";
- (d) where the bill of lading is issued by a person other than the holder of a Class H operating licence, the statement, "Maximum liability \$1.50 per pound unless declared valuation states otherwise" printed in bold face type and conspicuously located at the space for the signature of the consignor;
- (e) where the bill of lading is issued by the holder of a Class H operating licence and the terms fix a maximum liability in case of loss or damage to the goods at an amount other than the actual value of the goods, the statement "Maximum liability in case of loss or damage \$. per pound and \$. for the entire shipment described in the bill" printed in bold face type and conspicuously located in the space for the signature of the consignor. R.R.O. 1960, Reg. 503, s. 14 (4).

19.—(1) The following conditions shall be deemed to be a part of every contract for the transportation of goods for compensation other than a contract for transportation for compensation between a freight forwarder and a shipper:

- 1. The carrier of the goods herein described is liable for any loss thereof or damage or injury thereto, except as herein provided.

2. Where shipments are handled by more than one carrier, the carrier issuing the bill of lading, in addition to any other liability hereunder, is liable for any loss, damage or injury to the goods caused by or resulting from the act, neglect or default of any other carrier to whom the goods are delivered and from whom the other carrier is not by the terms of the bill of lading relieved and the onus of proving that such loss, damage or injury was not so caused and did not so result is upon the carrier issuing the bill of lading.
3. The carrier issuing the bill of lading is entitled to recover from any other carrier to whom the goods are delivered in the course of their conveyance to their final destination the amount of the loss, damage or injury that the carrier issuing the bill of lading may be required to pay hereunder caused by or resulting from the handling of the goods by the other carrier, if the carrier issuing the bill of lading is not relieved therefrom by the terms of the bill of lading, and if the loss, damage or injury was not caused by the act, neglect or default of the carrier issuing the bill of lading, subject to the onus set out in paragraph 2.
4. Nothing in paragraph 2 or 3 deprives the holder of the bill of lading or the party entitled to the goods of any remedy or right of action that he may have against the carrier issuing the bill of lading or against any other carrier.
5. The carrier is not liable for loss, damage or delay to any of the goods described in the bill of lading caused by an act of God, the Queen's or public enemies, riots, strikes, defect or inherent vice in the goods, the act or default of the shipper or owner, the authority of law, quarantine or differences in weights of grain, seed, live stock or other commodities caused by natural shrinkage.
6. Where goods are stopped and held in transit at the request of the party entitled to request it, the goods are held at the risk of the owner.
7. No carrier is bound to transport the goods by any particular public commercial vehicle or in time for any particular market or otherwise than with due despatch, unless by agreement specifically endorsed on the bill of lading and signed by the parties thereto.
8. In the case of physical necessity, the carrier has the right to forward the goods by any conveyance or by any route between the point of shipment and the point of destination but, if the goods are forwarded by a conveyance that is not a public commercial vehicle, the liability of the carrier is the same as though the entire carriage were by public commercial vehicle.
9. Subject to paragraph 10, the amount of any loss, damage or injury for which the carrier is liable, whether or not the loss, damage or injury results from negligence, shall be computed on the basis of,
 - (a) the value of the goods at the place and time of shipment including the freight and other charges if paid; or
 - (b) where a value lower than that referred to in clause *a* has been represented in writing by the consignor or has been agreed upon, such lower value.
10. Except in respect of a shipment by the holder of a Class H operating licence, the amount of any loss or damage computed under clause *a* or *b* of paragraph 9 shall not exceed \$1.50 per pound unless a higher value is declared on the face of the bill of lading by the consignor.
11. Where it is a term or condition that the goods are carried at the risk of the consignor or owner, the condition covers only such risks as are necessarily incidental to transportation and does not relieve the carrier from liability for any loss, damage, injury or delay that may result from any negligence or omission of the carrier, its agents or employees, and the burden of proving the absence of negligence or omission is on the carrier.
12. The carrier is not liable for loss, damage, injury or delay to any goods carried under the bill of lading unless notice thereof setting out particulars of the origin, destination and date of shipment of the goods and the estimated amount claimed in respect of such loss, damage, injury or delay is given in writing to the carrier at the point of delivery or at the point of origin within ninety days after the delivery of the goods, or, in the case of failure to make delivery, within ninety days after a reasonable time for delivery has elapsed.
13. Where, through no fault of the carrier, the carrier is unable to effect delivery of goods to the person entitled to receive them, the goods may,
 - (a) be kept in the warehouse of the carrier, subject to a reasonable charge for storage and to the carrier's responsibility as warehouseman only; or

- (b) at the option of the carrier, after written notice of the carrier's intention to do so has been served on the consignor and consignee of the goods in person or by registered mail, be removed to, and stored in, a public or licensed warehouse at the expense of the owner of the goods and there held at the risk of the owner, without liability on the part of the carrier, and subject to a lien for all freight and other lawful charges including a reasonable charge for storage.
14. No carrier is bound to carry any documents, specie or any articles of extraordinary value unless by a special agreement to do so and, where the nature and stipulated value of the goods is disclosed to him, the duty of obtaining such special agreement is on the carrier.
15. The owner or consignee of the goods shall pay the freight and all other lawful charges accruing on the goods and, if required by the carrier, shall pay them before delivery and, if the goods shipped are not those described in the bill of lading, the freight charges shall be paid upon the goods actually shipped with any additional penalties due.
16. Every person, whether as principal or agent, shipping explosives or dangerous goods without previous full written disclosure to the carrier of their nature, shall indemnify the carrier against all loss, damage or injury caused thereby, and the goods may be warehoused at the risk and expense of the owner of the goods.
17. Any alteration, addition or erasure in a bill of lading shall be signed or initialled by the parties thereto. R.R.O. 1960, Reg. 503, s. 15; O. Reg. 340/68, s. 5 (1).
- (2) The following conditions shall be deemed to be a part of every contract for transportation for compensation between a freight forwarder and a shipper:
1. The freight forwarder of the goods herein described is liable for any loss thereof or damage or injury thereto, except as herein provided.
 2. The freight forwarder is not liable for loss, damage or delay to any of the goods described in the bill of lading caused by an act of God, the Queen's or public enemies, riots, strikes, defect or inherent vice in the goods, the act or default of the shipper or owner, the authority of law, quarantine or differences in weights of grain, seed, livestock or other commodities caused by natural shrinkage.
 3. No freight forwarder is bound to transport the goods in time for any particular market or otherwise than with due despatch, unless by agreement specifically endorsed on the bill of lading and signed by the parties thereto.
 4. The amount of any loss, damage or inquiry for which the freight forwarder is liable, whether or not the loss, damage or injury results from negligence, shall be computed on the basis of,
 - (a) the value of the goods at the place and time of shipment including the freight and other charges if paid; or
 - (b) where a value lower than that referred to in clause *a* has been represented in writing by the consignor or has been agreed upon, such lower value.
 5. Where it is a term or condition that the goods are carried at the risk of the consignor or owner, the condition covers only such risks as are necessarily incidental to transportation and does not relieve the freight forwarder from liability for any loss, damage or injury or delay that may result from any negligence or omission of the freight forwarder, its agents or employees, and the burden of proving the absence of negligence or omission is on the freight forwarder.
 6. The freight forwarder is not liable for loss, damage, injury or delay to any goods carried under the bill of lading unless notice thereof setting out particulars of the origin, destination and date of shipment of the goods and the estimated amount claimed in respect of such loss, damage, injury or delay is given in writing to the freight forwarder at the point of delivery or at the point of origin within ninety days after the delivery of the goods, or, in the case of failure to make delivery, within ninety days after a reasonable time for delivery has elapsed.
 7. No freight forwarder is bound to carry any documents, specie or any articles of extraordinary value unless by a special agreement to do so and, where the nature and stipulated value of the goods is disclosed to him, the duty of obtaining such special agreement is on the freight forwarder.
 8. Every person, whether as principal or agent, shipping explosives or dangerous goods without previous full written disclosure to the freight forwarder of their nature, shall indemnify the freight forwarder against all loss, damage or injury caused thereby, and the goods may be warehoused at the risk and expense of the owner of the goods.

9. Any alteration, addition or erasure in a bill of lading shall be signed or initialed by the parties thereto. O. Reg. 340/68, s. 5 (1).

20.—(1) Every driver operating a public commercial vehicle shall carry on each trip a copy or memorandum of the bill of lading and shall produce it when required for inspection by a member of the Ontario Provincial Police Force or an officer of the Department. R.R.O. 1960, Reg. 503, s. 16 (1).

(2) Where a carrier is transporting goods on behalf of a freight forwarder, the driver transporting the goods by a public commercial vehicle shall carry on each trip a copy or memorandum of the bill of lading issued by the freight forwarder and shall produce it when required for inspection by a member of the Ontario Provincial Police Force or an officer of the Department. O. Reg. 340/68, s. 6.

(3) A memorandum of a bill of lading shall bear the same number or other positive means of identification as the original bill of lading and shall show particulars of the goods carried on the vehicle, the name of the consignor, the originating point of the shipment, the name of the consignee, the destination of the shipment, connecting carriers, if any, and whether the charges are prepaid or collect. R.R.O. 1960, Reg. 503, s. 16 (2).

INSURANCE

21.—(1) For each vehicle operated by him a licensee shall provide or effect and carry with an insurer licensed under *The Insurance Act* at least,

- (a) the motor vehicle liability insurance required by section 218 of *The Insurance Act*; and
- (b) in respect of goods carried by,
 - (i) a Class A, C, D, H, K or T vehicle, insurance in the amount of \$4,000 for each vehicle,
 - (ii) a Class FS vehicle, insurance in the amount of \$2,000 for each vehicle, and
 - (iii) a Class E or F vehicle, insurance in the amount of \$1,000 for each vehicle. O. Reg. 263/62, s. 1; O. Reg. 371/66, s. 5; O. Reg. 438/70, s. 6.

(2) Clause *b* of subsection 1 does not apply to public commercial vehicles used exclusively for conveying road-construction materials, iron, steel, coal, rough lumber or other materials of an indestructible or non-flammable nature, or to public commercial vehicles that are used exclusively for hauling semi-trailers and are not designed or used to carry goods. R.R.O. 1960, Reg. 503, s. 17 (2); O. Reg. 331/62, s. 1.

(3) Where a licensee is not a resident of Ontario, the insurance required by subsection 1 may be carried with an insurer who is authorized to transact the insurance in the state or province in which the licensee resides, if the insurer files with the Registrar of Motor Vehicles,

- (a) a power of attorney authorizing the Registrar to accept service of notice or process for itself and for its insured in any action or proceeding arising out of a motor vehicle accident in Ontario;
- (b) an undertaking to appear in any such action or proceeding of which it has knowledge; and
- (c) an undertaking not to set up as a defence to any claim, action or proceeding under a motor vehicle liability policy issued by it, a defence that could not be set up if the policy had been issued in Ontario in accordance with the law of Ontario relating to motor vehicle liability policies, and to satisfy up to the limits of liability applicable under *The Insurance Act* any judgment rendered and become final against it or its insured by a court in Ontario in any such action or proceeding. R.R.O. 1960, Reg. 503, s. 17 (3); O. Reg. 263/62, s. 2.

(4) In lieu of the insurance required by subsection 1, a licensee may file a bond in a form and amount that, in the opinion of the Minister, affords equivalent security for the protection of the public. R.R.O. 1960, Reg. 503, s. 17 (4).

22. A freight forwarder shall file a policy of insurance or bond in a form and amount that, in the opinion of the Minister, affords adequate security for the protection of the public in the event of damage or loss to goods undertaken to be transported. O. Reg. 340/68, s. 7.

CASH ON DELIVERY SHIPMENTS

23.—(1) The holder of an operating licence shall clearly indicate, on the documents accompanying each cash-on-delivery shipment received and transported, the name and address of the shipper or other person designated as payee to whom the delivering carrier shall remit cash-on-delivery funds collected upon delivery of the shipment.

(2) The holder of an operating licence shall segregate all cash-on-delivery funds from other funds and shall deposit the cash-on-delivery funds in a separate bank account or trust fund from which withdrawal shall be made only for remittance directly to the shipper or other person designated as payee.

(3) Where a licensee collects money for or on account of a shipper, the licensee shall remit the money to the shipper within ten days of its collection.

(4) Where a cash-on-delivery shipment is not delivered within ten days of its arrival at its destination, the licensee shall notify the shipper in writing giving reasons for the non-delivery and shall obtain instructions in writing for disposal of the shipment.

(5) Licensees shall maintain a separate record of all cash-on-delivery shipments, collections and remittances, and the record shall be produced when required for inspection by an officer of the Department. R.R.O. 1960, Reg. 503, s. 18 (1-5).

(6) Subsections 1, 2, 3, 4 and 5 do not apply to a freight forwarder. O. Reg. 340/68, s. 8.

GENERAL

24.—(1) The holder of an operating licence shall not discontinue any service authorized under his licence until he has given the Department ten days written notice of his intention to do so.

(2) The Minister may cancel or suspend any operating licence where the holder,

(a) fails to begin service within thirty days after the issuance of the licence or within such further period as is specified in the licence; or

(b) fails for a continuous period of thirty days to give any service authorized by the licence. R.R.O. 1960, Reg. 503, s. 19.

25. An officer of the Department may at any reasonable time examine all books, records and documents used in connection with the business of the holder of an operating licence, or holder of a freight forwarder's licence and for that purpose the holder of the licence and his employees shall permit and assist in the examination. R.R.O. 1960, Reg. 503, s. 20; O. Reg. 340/68, s. 9.

26. Every applicant for an operating licence shall file with the Department a certificate of the Workmen's Compensation Board certifying that he has provisionally complied with *The Workmen's Compensation Act*. R.R.O. 1960, Reg. 503, s. 21.

27. The powers and duties of the Minister under subsection 4 of section 5 and section 11 of the Act are delegated to the Registrar of Motor Vehicles. R.R.O. 1960, Reg. 503, s. 22.

TARIFFS OF TOLLS

28. In sections 29 to 34, "licensee" means the holder of an operating licence. O. Reg. 57/63, s. 1.

29. Sections 30 to 34 do not apply to,

(a) a licensee who is the registered owner of a total of four or less vehicles licensed under the Act, other than a licensee who is the holder of a Class H operating licence;

(b) the holder of a Class E or Class FS operating licence; or

(c) a licensee in respect of the transportation of,

(i) livestock, coal, rough lumber, bricks, tile, cement blocks, cement, cinder blocks, garbage, sand, gravel, rubble, slag, earth, turf or crushed or uncut rock and stone, or

(ii) materials to stock piles and construction sites for use in construction and maintenance of a highway. O. Reg. 57/63, s. 1; O. Reg. 451/67, s. 1.

30.—(1) Each licensee shall file with the Board a tariff of tolls showing all the rates or charges for the transportation of goods to and from points in respect of which the transportation is provided or offered by the licensee or by arrangement with any other licensee or any other carrier.

(2) No licensee shall charge a toll that is not contained in and in accordance with the tariff filed under subsection 1. O. Reg. 57/63, s. 1.

31. A tariff of tolls shall be filed in a form prescribed by the Board and published and maintained available to the public. O. Reg. 57/63, s. 1.

32.—(1) A licensee may file with the Board an amendment to a tariff of tolls filed with the Board but, subject to subsection 2, an amendment shall not become effective until the expiry of thirty days from the date the amendment was filed.

(2) The Board, upon the application of a licensee, may fix the effective date of an amendment on a specified date prior to the expiry of thirty days from the date the amendment was filed. O. Reg. 57/65, s. 1.

33. The following fees are payable by a licensee upon the filing of a tariff of tolls:

Class "A" operating licence	\$50.00
Class "C" operating licence	50.00
Class "D" operating licence	25.00
Class "FF" operating licence	50.00
Class "H" operating licence	25.00
Class "K" operating licence	25.00
Class "T" operating licence	50.00
Filing of an amendment	5.00

O. Reg. 438/70, s. 7.

34. A tariff of tolls filed under section 30 and amendments thereto expire two years from the date upon which the tariff was filed under section 30. O. Reg. 57/63, s. 1.

35. Sections 30 to 34 apply to a freight forwarder and a licensee for the purposes of these sections includes a freight forwarder. O. Reg. 340/68, s. 11.

REGULATION 701

under The Public Health Act

CAMPS IN UNORGANIZED TERRITORY

1. In this Regulation,

- (a) "camp" means a lumbering camp, mining camp or railway construction works or other place where labour is employed in territory without municipal organization;
- (b) "Director" means the Chief, Northern Ontario Public Health Services of the Department;
- (c) "inspector" means a public health inspector appointed under section 134 of the Act. R.R.O. 1960, Reg. 504, s. 1; O. Reg. 185/67, s. 1.

2.—(1) The inspector for the area in which a camp is located shall affix in the living quarters of the camp a notice, which shall contain,

- (a) a summary of the provisions of,
 - (i) Part I that prescribe sanitary standards for the camp, and
 - (ii) Part II that prescribe medical services for employees in the camp,
 as amended from time to time; and
- (b) the name and address of the inspector.

(2) No person shall remove, alter or deface the notice referred to in subsection 1.

(3) Every person who contravenes subsection 2 is liable to a fine of not more than \$20. R.R.O. 1960, Reg. 504, s. 2.

PART I

STANDARDS

3. In this Part,

- (a) "building" means a building used or intended to be used for living accommodation for employees;
- (b) "employer" includes an operator;
- (c) "operator" means a person who,
 - (i) by contract,
 - (ii) by agreement,

- (iii) by permit,
- (iv) by other instrument, or
- (v) in any other manner,

authorizes work or permits work to be undertaken or performed or services to be supplied by contractors, subcontractors, permittees or jobbers or by any other person;

- (d) "standard camp" means a camp used or intended to be used to accommodate fifteen or more employees. R.R.O. 1960, Reg. 504, s. 3.

NOTICE OF OPENING A CAMP

4.—(1) Before a camp intended for living accommodation for five or more employees is used for that purpose, the employer shall send to the inspector a report in writing showing,

- (a) the name and address of the employer;
- (b) the location of the camp;
- (c) the number of employees that the camp is designed to accommodate;
- (d) the means of access to the camp; and
- (e) the nature and expected duration of the work in which the employees to be accommodated will be employed.

(2) Where the camp is a standard camp, the report submitted under subsection 1 shall be accompanied by a plan of the camp that indicates,

- (a) the location of the buildings;
- (b) the source of the water supply; and
- (c) the means of sewage disposal. R.R.O. 1960, Reg. 504, s. 4.

5.—(1) Where any change is made in respect of any of the matters mentioned in subsections 1 and 2 of section 4, the employer shall notify the inspector in writing, giving particulars thereof.

(2) The notification referred to in subsection 1 shall be given to the inspector as soon as possible after the change has been made. R.R.O. 1960, Reg. 504, s. 5.

LOCATION OF CAMPS

- 6.—(1) A camp shall be located,
- (a) on well-drained ground; and
 - (b) at least 150 feet from a lake, river, stream or other body of water.
- (2) Clause *b* of subsection 1 does not apply to a camp where,
- (a) a suitable location is not available to permit compliance therewith; and
 - (b) an inspector is of the opinion that the proposed location will not cause pollution of any adjoining lake, river, stream or other body of water. R.R.O. 1960, Reg. 504, s. 6.

STABLES

7. No stable or other building used or intended to be used for sheltering horses, cattle, pigs or other animals shall be located,

- (a) within 200 feet of a,
 - (i) source of drinking-water supply,
 - (ii) cookhouse, or
 - (iii) bunkhouse; or
- (b) so there is drainage from the stable or other building into a drinking-water supply. R.R.O. 1960, Reg. 504, s. 7.

SANITATION

8.—(1) Every camp shall be maintained in a clean and sanitary condition at all times.

- (2) A camp that,
- (a) has been used for living accommodation of employees; and
 - (b) has been abandoned or closed by an employer,

shall not be used again for living accommodation of employees until the interior of every building has been treated with lime-wash or other suitable material. R.R.O. 1960, Reg. 504, s. 8.

9. The openings to the outside of all buildings in a camp shall be effectively screened against flies from the 1st day of May to the 1st day of November. R.R.O. 1960, Reg. 504, s. 9.

STANDARD CAMPS

10. An employer of labour in a standard camp shall provide for his employees living in the camp the accommodation and facilities prescribed by this Regulation, including accommodation and facilities for,

- (a) sleeping, constructed and maintained as prescribed by sections 11 and 12;
- (b) washing, bathing and laundering clothes, located, equipped and maintained as prescribed by section 14; and
- (c) preparing, serving and storing food as prescribed by sections 18 to 22. R.R.O. 1960, Reg. 504, s. 10.

11. The buildings used or intended to be used for sleeping accommodation and feeding of employees in a standard camp shall be weatherproof and so constructed that,

- (a) the floors are,
 - (i) located at least one foot above the ground level, and
 - (ii) tight-fitting and smooth-surfaced;
- (b) the walls are tight-fitting and the interior is lined with a smooth-surfaced material; and
- (c) each building has two direct exits to the outside as remote from each other as practicable. R.R.O. 1960, Reg. 504, s. 11.

BUNKHOUSES

12. Bunkhouses in standard camps shall be so constructed that,

- (a) the walls extend at least seven feet above floor level;
- (b) the roofs are of tight-fitting lumber;
- (c) the windows,
 - (i) are so located that every part of the bunkhouse is provided with light and ventilation,
 - (ii) comprise a total net area equal to not less than 7 per cent of the floor area, and
 - (iii) may be opened for an area of at least one-half of the total area of the window;

- (d) where stoves or heaters are used, the ventilation is supplied by,
- (i) one fresh-air duct with an inside opening of at least sixty square inches, located under each stove or heater, and
 - (ii) at least two air-outlets with an area of at least three square inches for each bunk, passing through the roof or located at the apexes of the gable ends;
- (e) the bunks are,
- (i) separate,
 - (ii) at least twelve inches above the floor,
 - (iii) single-tiered,
 - (iv) at least eighteen inches apart when not lying lengthwise along the walls,
 - (v) so located that every bunk is provided with 300 cubic feet of air space, and
 - (vi) provided with one locker or one shelf for each bunk; and
- (f) there is a washroom annexed to each bunkhouse and equipped to provide the facilities prescribed by clause *a* of subsection 3 of section 14. R.R.O. 1960, Reg. 504, s. 12.

13. The employer in respect of a standard camp shall,

- (a) cause to be maintained a temperature of at least 65° F. in a bunkhouse when occupied by employees; and
- (b) supply and maintain in sufficient quantities and in a clean and sanitary condition mattresses, blankets, sheets and pillow cases. R.R.O. 1960, Reg. 504, s. 13.

14.—(1) An employer shall supply or cause to be supplied for the use of his employees in a standard camp accommodation as prescribed by subsection 2 and facilities as prescribed by subsection 3 for,

- (a) washing;
- (b) bathing; and
- (c) laundering clothes, where the employer does not provide laundry service.

(2) The accommodation for,

- (a) washing shall comprise a separate washroom annexed to the bunkhouse and with direct access from the bunkhouse to the washroom;
- (b) bathing shall comprise a separate, heated room or heated building; and
- (c) laundering clothes shall comprise a separate, heated room or a heated building.

(3) The facilities for,

- (a) washing shall comprise,
 - (i) a constant supply of hot and cold water, and
 - (ii) sinks or ablution benches with at least one sink or washbasin for every five bunks;
- (b) bathing shall comprise,
 - (i) a constant supply of hot and cold water, and
 - (ii) showers or other means satisfactory to the inspector; and
- (c) laundering clothes shall comprise washing and drying facilities, including,
 - (i) an adequate supply of hot and cold water, and
 - (ii) at least one laundry tub for every fifteen bunks. R.R.O. 1960, Reg. 504, s. 14.

15. Common towels shall not be used in a standard camp. R.R.O. 1960, Reg. 504, s. 15.

16.—(1) An employer shall maintain a constant supply of safe water in a standard camp for drinking, cooking and dishwashing.

(2) When necessary, the water shall,

- (a) be rendered safe by,
 - (i) chlorination,
 - (ii) boiling, or
 - (iii) any other method of water treatment that is approved by the Director and that destroys contamination; and
- (b) be stored in sanitary, covered containers when not required for immediate use. R.R.O. 1960, Reg. 504, s. 16.

17.—(1) Water for drinking in a standard camp shall be,

- (a) placed in clean, sanitary, covered containers equipped with a pouring faucet when needed for immediate consumption; and
- (b) poured directly from the faucet into an individual drinking-container supplied for each employee.

(2) No person shall use a drinking-vessel in common with others. R.R.O. 1960, Reg. 504, s. 17.

18.—(1) An employer shall provide in a standard camp,

- (a) at least one dining-room and one kitchen, separated or partitioned from any living quarters; and
- (b) facilities for storing perishable food at the temperature prescribed by section 20.

(2) Where a kitchen or dining-room adjoins any living-quarters, any direct entrance from the living-quarters shall be by a door. R.R.O. 1960, Reg. 504, s. 18.

19.—(1) Furniture, equipment and appliances in a kitchen or dining room in a standard camp shall be so constructed and arranged as to permit the thorough cleaning of the furniture, equipment and appliances and the maintenance of the kitchen or dining-room in a clean and sanitary condition.

(2) A kitchen or dining-room shall be kept free from materials and equipment that are not regularly used in the kitchen or dining-room.

(3) No person shall,

- (a) use a kitchen or dining-room for sleeping purposes;
- (b) place wearing apparel in a kitchen or dining-room except in a separate cupboard or locker; or
- (c) use a kitchen or dining-room for a purpose other than for preparing, storing or serving food. R.R.O. 1960, Reg. 504, s. 19.

20.—(1) All food in a standard camp shall be protected from contamination.

(2) Perishable food shall be stored in a place maintained at a temperature not higher than 50° F. R.R.O. 1960, Reg. 504, s. 20.

21.—(1) No cups, glasses or dishes that are chipped or cracked shall be used in the preparation, service or storage of food in a standard camp.

(2) No utensil in such condition as to prevent their effective cleansing and sterilizing shall be used in the preparation, service or storage of food in a standard camp. R.R.O. 1960, Reg. 504, s. 21.

22. Utensils used in the preparation, service or storage of food and eating-utensils and drinking-utensils in a standard camp shall be,

- (a) washed in water at a temperature of not less than 110° F., containing a detergent solution capable of removing all grease film and food particles;
- (b) sterilized by covering with,
 - (i) water at a temperature of not less than 170° F. for at least two minutes, or
 - (ii) boiling water for at least thirty seconds; and

(c) dried by exposure to the air in open-mesh wooden or metal baskets. R.R.O. 1960, Reg. 504, s. 22.

23.—(1) Garbage in a standard camp shall be removed after each meal from any room in which food is prepared, served or stored and shall be deposited in covered containers.

(2) The garbage shall be disposed of by,

- (a) incineration; or
- (b) burial at least six inches underground. R.R.O. 1960, Reg. 504, s. 23.

24. Drainage wastes in a standard camp shall be disposed of in cess-pools or leaching-pits located at least twenty feet from the nearest building and draining away from the source of the water supply. R.R.O. 1960, Reg. 504, s. 24.

25. All manure shall be collected and removed from standard camps and disposed of in a sanitary manner. R.R.O. 1960, Reg. 504, s. 25.

26.—(1) Where water-flush toilets are not used, a standard camp shall be provided with one fly-tight, weatherproof toilet accommodation for every ten employees.

(2) Earth-pit privies or pail-privies shall be located at least,

- (a) 150 feet in summer; and
- (b) seventy-five feet in winter,

from the nearest bunkhouse or cookhouse. R.R.O. 1960, Reg. 504, s. 26.

27.—(1) The contents of earth-pit privies in standard camps shall be covered daily with sand, lime or wood-ash.

(2) When the contents of an earth pit are within two feet of the surface of the ground,

(a) the structure shall be removed to a new pit; and

(b) the old pit shall be filled with earth.
R.R.O. 1960, Reg. 504, s. 27.

28. Before a pail-privy in a standard camp is full, the contents shall be removed and buried at least twelve inches underground or disposed of in some other sanitary manner. R.R.O. 1960, Reg. 504, s. 28.

29.—(1) Where water-flush toilets are used in standard camps, they shall be maintained in a clean and sanitary condition, and kept in good repair so that they operate efficiently.

(2) The toilets shall be equipped with suitable drains maintained in a satisfactory condition so that sewage is carried away in a sanitary manner.

(3) Sewage shall be treated or disposed of in such manner as not to become a nuisance or harmful to health. R.R.O. 1960, Reg. 504, s. 29.

CLOSING A CAMP

30. Before a camp is abandoned or closed the employer shall,

(a) bury all garbage, manure and refuse;

(b) fill with earth the earth pit-privies; and

(c) leave buildings clean and in a sanitary condition. R.R.O. 1960, Reg. 504, s. 30.

31. Within fourteen days after a camp is abandoned or closed, the employer shall notify the inspector in writing of the date of abandoning or closing the camp. R.R.O. 1960, Reg. 504, s. 31.

INSPECTION OF CAMPS

32.—(1) An inspector may enter and inspect a camp at any time.

(2) Where an inspector finds that an employer has not complied with the provisions of this Part, he shall notify the employer in writing and send a copy of the notice to the Director. R.R.O. 1960, Reg. 504, s. 32.

33.—(1) Where an inspector,

(a) finds in a camp that any condition exists that is or may become injurious or danger-

ous to health or may hinder in any manner the prevention, mitigation or suppression of disease; and

(b) concludes that the camp should be closed,

the inspector shall so report and shall make a recommendation to the Director.

(2) Where the Director concurs in the recommendation of the inspector, the Director shall so notify the inspector in writing.

(3) Upon receipt of the notice from the Director, the inspector shall order the camp to be closed and to remain closed until the condition has been rectified.

(4) Within two days after issuing the order, the inspector shall give written notice thereof to the employer together with the reasons for closing. R.R.O. 1960, Reg. 504, s. 33.

34.—(1) Notwithstanding section 33, where the inspector finds in a camp that any condition exists that is dangerous to health, he may order the camp to be closed.

(2) Within two days after making the order mentioned in subsection 1, the inspector shall give written notice thereof to the employer together with his reasons for closing the camp.

(3) A copy of the notice and the reasons referred to in subsection 2 shall be sent to the Director. R.R.O. 1960, Reg. 504, s. 34.

35. Every person who contravenes any provision of this Part is guilty of an offence and liable to a fine of not less than \$25 and not more than \$200. R.R.O. 1960, Reg. 504, s. 35.

PART II

MEDICAL CARE

INTERPRETATION

36. In this Part,

(a) "contract physician" means a legally qualified medical practitioner who has entered into a medical contract with an employer;

(b) "employer" means an employer of labour in a camp;

(c) "medical contract" means a contract entered into under this Regulation between an employer and a contract physician for the medical and surgical care and treatment of the workmen of such employer;

- (d) "non-industrial accident" means personal injury to an employee that does not arise out of and in the course of his employment and for which the employer is not liable to provide or to pay compensation under *The Workmen's Compensation Act*;
- (e) "railway" means the undertaking of a railway company;
- (f) "railway company" means a company operating a railway under the provisions of *The Railways Act*, or of the *Railway Act* (Canada);
- (g) "special employee" means an employee who,
 - (i) is not a resident as defined by the regulations under *The Hospital Services Commission Act*, and
 - (ii) is not entitled to receive insured services under a hospitalization plan administered by or under the authority of the government of another province pursuant to an agreement made by that province with the Government of Canada under the *Hospital Insurance and Diagnostic Services Act* (Canada);
- (h) "standard camp" means a camp in which more than fifteen workmen, exclusive of one foreman and one clerk, are usually housed;
- (i) "unorganized district" means those parts of the territorial districts that are without municipal organization. R.R.O. 1960, Reg. 504, s. 36; O. Reg. 185/67, s. 2.

37.—(1) The provisions of this Part apply and have force in every unorganized district.

(2) The provisions of this Part do not apply to a camp established to house workmen employed by a railway company. R.R.O. 1960, Reg. 504, s. 37.

38.—(1) In this section,

- (a) "medical-surgical services agreement" means an agreement made between one or more employers and a trade union or trade unions representing his or their employees to establish a plan for providing such employees with medical and surgical care and treatment to be operated by the employer or employers and representatives of such employees;
- (b) "trade union" means an organization of employees formed for purposes that include

the regulation of relations between employees and employers and includes a provincial, national or international trade union.

(2) The provisions of this Part do not apply to an employer who has entered into a medical-surgical services agreement with a trade union or trade unions representing employees in respect of his employees that are covered by such agreement. O. Reg. 333/65, s. 1.

39. It is the duty of every employer and every person acting on behalf of an employer as a superintendent, manager or agent, or in other supervisory capacity in charge of any camp to enforce the provisions of this Part in the camp. R.R.O. 1960, Reg. 504, s. 38.

40. A copy of the provisions of this Part shall be obtained from the inspector and kept on file in every standard camp and shall be open to inspection by every employee employed therein. R.R.O. 1960, Reg. 504, s. 39.

PROVISION FOR MEDICAL CARE

41.—(1) In this section, "resident employee" means an employee who is resident in a standard camp not less than five days in each week and is not eligible,

- (a) for medical and surgical care benefits under a medical insurance plan operated by the Government of Ontario or the government of another province; or
- (b) for medical and surgical care benefits under a group medical insurance plan established by his employer or is otherwise eligible for such benefits.

(2) Every employer may enter into a medical contract with a contract physician for the medical and surgical care of his employees but in any event the employer shall provide medical and surgical care and treatment for resident employees, subject to the limitations hereinafter set out. O. Reg. 185/67, s. 3.

42.—(1) Where with the approval of the Minister an employer in a standard camp has entered into a medical contract with a legally qualified medical practitioner, the employer may deduct \$1.50 per month from the wages of each employee entitled to the benefits of the medical contract.

(2) No deduction shall be made under subsection 1 unless the medical contract is in force and medical and surgical care and treatment are available to the employees in accordance with the medical contract. O. Reg. 185/67, s. 3.

43. The medical contract referred to in section 42 shall include provisions whereby,

- (a) the contract physician, with respect to the employees entitled to the benefits of the contract, is obliged to,
 - (i) visit the standard camp as often as is necessary to give adequate medical and surgical care and treatment,
 - (ii) render medical and surgical care and treatment to every employee,
 - (iii) report in writing to the Minister once a month all cases of sickness and non-industrial accidents suffered by employees during the previous month, and
 - (iv) notify the Minister in writing of the name and address of any other medical practitioner engaged to perform any services under the contract, other than consultant services; and
- (b) the contract may be terminated by the employer when so required by the Minister under section 57. R.R.O. 1960, Reg. 504, s. 42.

APPROVAL

44. The Minister may approve a medical contract that includes the provisions prescribed in section 43. O. Reg. 185/67, s. 3.

45.—(1) Where an employer applies for the Minister's approval of a medical contract he shall deliver or send by registered mail to the Minister a copy of the medical contract.

(2) Where the Minister has approved a medical contract the employer shall so notify the employees entitled to the benefits of the contract and inform them of the name and address of the contract physician. O. Reg. 185/67, s. 3.

46. Where an employer makes deductions from wages under section 42, the employer shall pay out the total amount deducted to the contract physician within one month after the money is deducted. O. Reg. 185/67, s. 3.

47.—(1) The employer shall keep records showing,

- (a) all sums deducted from the wages of employees under section 42; and
- (b) the disbursement of the sums so deducted.

(2) The employer shall permit inspection of the records at any reasonable time by an inspector,

an officer or employee in the Department who is designated by the Minister, or by a contract physician. R.R.O. 1960, Reg. 504, s. 47.

48. When so required by the Minister in writing, an employer who makes deductions authorized under clause *a* of subsection 1 of section 42 shall submit to the Minister a report for the period required by the Minister, showing,

- (a) the number of employees employed by the employer;
- (b) the number of employees from whose wages any deduction for medical and surgical care has been made by the employer;
- (c) in the case of special employees, the total deductions for hospital care and treatment;
- (d) the total deductions for medical and surgical care; and
- (e) the sums paid under the medical contract to the contract physician. R.R.O. 1960, Reg. 504, s. 48; O. Reg. 185/67, s. 5.

RESPONSIBILITY OF EMPLOYER

49.—(1) Every employer shall provide facilities for the isolation of employees suffering from a communicable disease, to the satisfaction and approval of an inspector, and the employer or contract physician shall arrange for general hospital accommodation and facilities where necessary for the treatment of employees suffering from sickness or injury.

(2) The employer shall provide and pay for the transportation of any employee when necessary for medical and surgical treatment to which he is entitled under this Regulation except as provided in paragraph 7 of section 50. R.R.O. 1960, Reg. 504, s. 50.

50. The responsibility and liability of an employer under sections 41 to 49 are subject to the following limitations:

1. Where,

- (a) an employee has been employed for less than three months out of the six months immediately preceding his need for medical and surgical care and treatment; and
- (b) the illness and consequent inability to work are the result of a chronic or degenerative disease or of an infection or defect arising before the commencement of employment,

the employer is responsible for returning and paying the cost of return of the employee to the municipality in which he was

last resident in Ontario within the meaning of *The Public Hospitals Act* or, where no such residence exists and the employee is without means, the employer is responsible for returning and paying the cost of return of the employee to the place from where he was engaged, and for providing such medical care and treatment and maintenance as the employee needs until he is returned to such municipality or other place.

2. Where an employee has been employed for three months or more out of the six months immediately preceding his need for medical or surgical care, the employer shall provide the employee with medical and surgical care for a period not exceeding thirty days.

3. Where a former employee,

- (a) was employed for a period of thirty days or more;

- (b) is an indigent person; and

- (c) requires medical and surgical care within thirty days after he ceased to be employed, as a result of an illness that originated or was occasioned during the employment,

the employer is responsible for the medical and surgical care for thirty days after the employee ceased to be employed.

4. In cases of communicable disease coming under paragraphs 2, 3 and 7, the employer is responsible for a period not exceeding ninety days.

5. The employer is not liable for the payment of the charges for treatment of any employee in a sanatorium under *The Sanatoria for Consumptives Act*.

6. Where an employee is suffering from an accident for which the employer is not responsible under *The Workmen's Compensation Act*, the employer is responsible and liable for medical and surgical care and treatment, but not for maintenance, in any hospital.

7. Where an employee, while away from the area served by the contract physician, suffers an accident for which the employer is not responsible under *The Workmen's Compensation Act* or becomes sick with other than a communicable disease, he is not entitled to treatment under this Part unless he returns to the camp or to a hospital serving the area. R.R.O. 1960, Reg. 504, s. 52; O. Reg. 185/67, s. 7.

51. Any dispute that arises between any employee, employer or contract physician in respect of the responsibility or liability of an employer or the contract physician for the medical, or surgical care or for the maintenance of the employee under the provisions of this Part may be referred to the Minister by the employee, employer or contract physician and the decision of the Minister therein evidenced by his certificate is final and binding on all persons affected thereby and is not open to question. R.R.O. 1960, Reg. 504, s. 53; O. Reg. 185/67, s. 8.

52.—(1) In this section, "motor vehicle" means an automobile, motorcycle or any other vehicle propelled or driven other than by muscular power, but does not include the cars of electric or steam railways or other motor vehicles running only upon rails.

(2) Nothing in this Part renders an employer or a contract physician responsible or liable for the medical, surgical or hospital care and treatment or for the maintenance of any employee in cases where,

- (a) the illness or injury of such employee arises as a result of,

- (i) acute alcoholism,

- (ii) drug addiction,

- (iii) venereal disease, or

- (iv) cancer; or

- (b) the illness or injury is occasioned by a motor vehicle as a result of a non-industrial accident. R.R.O. 1960, Reg. 504, s. 54.

53. Nothing in this Part affects matters of compensation determinable under *The Workmen's Compensation Act*, or renders an employer or a contract physician responsible or liable for medical, surgical or hospital care and treatment or for the maintenance of any employee in cases to which the said Act applies. R.R.O. 1960, Reg. 504, s. 55.

54. Every employer who makes a deduction from the wages of his employees for medical and surgical care is subject to sections 41 to 53, both inclusive. O. Reg. 185/67, s. 56.

VARIATION OR TERMINATION OF CONTRACTS

55. Where a medical contract entered into under subsection 1 of section 41 is varied or terminated, the employer shall forthwith by registered mail furnish to an inspector or to the Minister,

- (a) particulars of the variation; or

- (b) notice of the termination and the effective date thereof. R.R.O. 1960, Reg. 504, s. 57.

56.—(1) Where the parties to a medical contract referred to in subsection 2 of section 42 desire to vary the contract, the employer shall obtain the approval of the Minister before putting the proposed variation into effect.

(2) Where the contract is terminated by either party, the employer shall forthwith by registered mail give notice thereof to the Minister. R.R.O. 1960, Reg. 504, s. 58, *amended*.

57.—(1) Where an inspector believe that a contract physician,

(a) is neglecting; or

(b) is unable to perform the duties imposed upon him by the contract,

(i) by reason of the condition of his health,

(ii) by reason of the distance at which he resides or practises from the camp, or

(iii) for any other reason,

he shall investigate the circumstances and report thereon fully to the Director.

(2) Where the Director is of opinion that the circumstances are such that the intent of this Part is being substantially defeated as to the contract, he shall so report and shall make a recommendation to the Minister.

(3) Where the Minister is satisfied that the intent of this Part is being substantially defeated as to the contract, he shall so notify the employer and require him to terminate the contract and shall send a copy of the notification and requirement to the contract physician.

(4) Upon receipt of the notification from the Minister under subsection 3, the employer shall immediately terminate the contract. R.R.O. 1960, Reg. 504, s. 59.

COMMUNICABLE DISEASES AND NUISANCES

58. Every employer establishing or operating a camp and every contract physician has, in addition to any other duties or responsibilities cast upon him under this Part, the same duties and responsibilities in respect of communicable diseases and their care, prevention and abatement as lies upon a householder and attending physician under the provisions

of the Act and the regulations. R.R.O. 1960, Reg. 504, s. 60.

59. Upon the occurrence of an outbreak or suspected outbreak of any communicable disease in a camp, the employer shall forthwith notify the contract physician, if any, and an inspector, and every contract physician who is or is made aware of any such outbreak shall forthwith notify the inspector. R.R.O. 1960, Reg. 504, s. 61.

60.—(1) Upon the occurrence of an outbreak or suspected outbreak of any communicable disease in a camp, every employee shall upon the request of an inspector forthwith furnish to the inspector evidence satisfactory to the inspector that the employee has been successfully vaccinated or re-vaccinated within a period of seven years immediately preceding the request and evidence satisfactory to the inspector that the employee has been inoculated against typhoid and paratyphoid fevers within a period of two years immediately preceding the request.

(2) If an inspector, after such request has been made by him, is not satisfied that every employee in a camp has been vaccinated or re-vaccinated, he may quarantine the camp and every person therein until he is satisfied, and any person not observing the quarantine is guilty of a breach of this Regulation. R.R.O. 1960, Reg. 504, s. 62.

OFFENCES AND PENALTIES

61. An employer who signs a return, report or statement required by the Department, knowing or having reason to know that the return, report or statement contains any false information or statement of fact, is guilty of an offence and subject to a fine of not less than \$200 for the first offence and not less than \$500 for any subsequent offence. R.R.O. 1960, Reg. 504, s. 63.

62. An employer or contract physician who contravenes any provision of this Part for which no other penalty is provided or fails or neglects to carry out or obey an order or direction lawfully made by an inspector is liable to a fine of not less than \$25 and not more than \$200 for each offence. R.R.O. 1960, Reg. 504, s. 64.

63. Any person, other than an employer or contract physician, who contravenes a provision of this Part for which no other penalty is provided or fails or neglects to carry out or obey any order or direction lawfully made by an inspector is liable to a fine of not less than \$5 and not more than \$100 for each offence. R.R.O. 1960, Reg. 504, s. 65.

REGULATION 702

under The Public Health Act

CAPITAL GRANTS FOR COMMUNITY HEALTH FACILITIES

1. In this Regulation,

(a) "approved cost" means that portion of the actual cost of a building project of a community health facility approved by the Minister, and includes,

- (i) fees that are approved by the Minister and paid to an architect for his services and the services of his consulting engineers,
- (ii) fees that are approved by the Minister for consultants, other than those paid through the architect,
- (iii) necessary basic equipment and furnishings, and the installation thereof,
- (iv) land surveys and soil tests,
- (v) necessary paving and sodding,

but does not include,

- (vi) initial supplies,
- (vii) financing charges,
- (viii) working capital and pre-opening expenses,
- (ix) contingency allowances,
- (x) landscaping, gardens, works of art, murals, busts, statues and similar decorations, or
- (xi) facilities for ancillary revenue-producing operations;

(b) "balance of the cost" means the remainder after deducting the amount of the grant from the actual cost of the building project;

(c) "building project" means,

- (i) the acquisition of existing buildings and alterations or additions thereto,
- (ii) the construction of a new building or buildings, excluding demolition of existing buildings and other clearance of site,

(iii) the renovation or alteration of an existing building or buildings.
O. Reg. 487/69, s. 1.

2. The amount of capital grant assistance that may be paid by the Minister under subsection 2 of section 22 of the Act shall be two-thirds of the approved cost of the building project. O. Reg. 487/69, s. 2.

3.—(1) An application for capital grant assistance shall be made to the Minister and shall set out such information as the Minister may require.

(2) An application for capital grant assistance shall be accompanied by a preliminary sketch plan in triplicate showing any existing buildings acquired or proposed to be acquired for the purpose of the building project and the alterations necessary thereto or showing the new construction, additions, or alterations, as the case may be.

(3) No tenders shall be called for any proposed new construction, additions or alterations until the Minister is satisfied and so advises in writing that the total funds required for the completion of the building project, including capital grant assistance, will be available. O. Reg. 487/69, s. 3.

4. No capital grant assistance shall be paid unless,

(a) the building project has been approved by the Minister;

(b) the applicant undertakes that it will not, without the consent of the Minister,

(i) sell, mortgage or otherwise dispose of the health facility or any part thereof,

(ii) use the health facility for any other purpose than that for which the grant is made, or

(iii) make any alterations or additions to any building forming part of the health facility;

(c) in the case of a non-profit organization, the non-profit organization undertakes to pay the balance of the cost of the project;

(d) in the case of a municipality or the local board of the municipality, the municipality undertakes to pay the balance of the cost of the project;

(e) in the case of a health unit established by a county under subsection 1 of section 36 of the Act, the county undertakes to pay the balance of the cost of the project; and

(f) in the case of a board of health for a health unit established under subsection 2 of section 36 of the Act the municipalities forming the health unit undertake to pay the balance of the cost of the project in such proportions as are agreed upon by them. O. Reg. 487/69, s. 4.

5.—(1) Capital grant assistance shall be paid as follows:

1. One-fifth when the contract for the building project is signed.
2. One-tenth when one-eighth of the work is completed.
3. One-tenth when one-quarter of the work is completed.
4. One-tenth when three-eighths of the work is completed.
5. One-tenth when one-half of the work is completed.
6. One-tenth when five-eighths of the work is completed.

7. One-tenth when three-quarters of the work is completed.

8. One-tenth when seven-eighths of the work is completed.

9. The balance when the work is completed to the satisfaction of the Minister.

(2) No payment shall be made under subsection 1 unless a member of the Ontario Association of Architects certifies or the Minister is otherwise satisfied that the proper proportion of the work has been completed. O. Reg. 487/69, s. 5.

6. The following non-profit organizations are designated for purposes of section 22 of the Act:

1. Niagara Peninsula Crippled Children's Centre, St. Catharines.
2. Niagara Peninsula Rehabilitation Centre, St. Catharines.
3. Ottawa Crippled Children's Treatment Centre, Ottawa.
4. Thunder Bay Crippled Children Centre, Fort William.
5. Niagara Peninsula Sanatorium, St. Catharines. O. Reg. 487/69, s. 6; O. Reg. 326/70, s. 1.

REGULATION 703

under The Public Health Act

COMMUNICABLE DISEASES

INTERPRETATION

1. In this Regulation,

- (a) "concurrent disinfection" means disinfection carried out while a person is still a patient;
- (b) "contact" includes a person who comes so close to a patient or anything that has been exposed to infection from a patient that the germs of the communicable disease with which the patient is infected may infect that person;
- (c) "negative culture is obtained" means that upon laboratory examination of a specimen no germs of the suspected communicable disease are found in the culture;
- (d) "patient" means a person infected with a communicable disease;
- (e) "plague" means "the plague";
- (f) "provincial laboratory" means a clinical laboratory centre established and maintained by the Minister under section 11 of the Act;
- (g) "recovery" means that a person who is, or was, a patient is no longer infectious;
- (h) "terminal disinfection" means disinfection carried out after recovery, removal or death of a patient. R.R.O. 1960, Reg. 505, s. 1.

APPLICATION OF THE ACT

2. The sections of the Act itemized in columns 2 to 7 of Table 1 are applicable to the communicable disease set opposite thereto in column 1. R.R.O. 1960, Reg. 505, s. 2.

ISOLATION, QUARANTINE AND DISINFECTION

3.—(1) Where a patient has a communicable disease itemized in column 1 of Table 2, the medical officer of health shall,

- (a) cause the patient to be isolated for the period prescribed in column 2 of the Table; and
- (b) cause the persons who are contacts to be,

i) quarantined, or

- (ii) confined in the dwelling where the communicable disease occurs,

for the period prescribed in column 3 of the Table.

(2) Where the medical officer of health is not available, the local board shall take the steps prescribed by subsection 1.

(3) Where the disease of which a person is a contact is scarlet fever, poliomyelitis, epidemic streptococcal sore throat or meningo-coccal meningitis, clause *b* of subsection 1 does not apply to the contact if he,

- (a) has broken his contact with the patient in a manner satisfactory to the medical officer of health; and
- (b) is engaged in a gainful occupation other than handling food or drink intended for consumption by any human being other than himself. R.R.O. 1960, Reg. 505, s. 3.

4. Where a person is infected with, or recovering from, a communicable disease itemized in column 1 of Table 2,

- (a) the patient; and
- (b) every nurse who is or has been in attendance on him,

shall, upon the directions of the medical officer of health, adopt for the disinfection of things that have been exposed to infection the class of disinfection prescribed in column 4 of the Table. R.R.O. 1960, Reg. 505, s. 4.

5. Where a medical officer of health prescribes conditions for, and orders, the disinfection of,

- (a) premises on or in which a communicable disease occurs; or
- (b) utensils, bedding, clothing and other things that have been exposed to infection,

and his order is not complied with within twenty-four hours, he shall quarantine the premises and cause a placard in Form 1 to be affixed on the exterior of the principal entrance to the premises. R.R.O. 1960, Reg. 505, s. 5.

6.—(1) Where a person who is infected with or a contact of,

- (a) Asiatic cholera;
- (b) diphtheria;
- (c) meningococcal meningitis;
- (d) plague;
- (e) poliomyelitis;
- (f) smallpox; or
- (g) typhus fever,

is isolated on premises other than an isolation hospital, the medical officer of health shall take the steps prescribed in subsection 2.

(2) The medical officer of health shall,

- (a) quarantine the premises during the period of isolation prescribed in Table 2 for the disease; and
- (b) cause a placard in Form 2 to be affixed on the exterior of the principal entrance to the premises. R.R.O. 1960, Reg. 505, s. 6.

7.—(1) Unless instructed by the medical officer of health, no person shall remove, deface or destroy a placard affixed under this Regulation.

(2) The medical officer of health shall cause the placard to be removed when,

- (a) his order under section 5 has been obeyed; or
- (b) the period of isolation referred to in subsection 2 of section 6 has ended. R.R.O. 1960, Reg. 505, s. 7.

EYES OF NEW-BORN

8. A physician attending at the birth of a child shall, within one hour after delivery, or so soon thereafter as is practicable, instil into each conjunctival sac of the child such quantity of 1 per cent solution of silver nitrate as in his opinion will be sufficient, without injury to the child, to kill any germs that might cause ophthalmia neonatorum. R.R.O. 1960, Reg. 505, s. 8.

9.—(1) Where, within two weeks after birth, an eye of a child becomes reddened, inflamed or swollen, the persons mentioned in subsection 4 of section 63 of the Act shall report in writing to the medical officer of health,

- (a) the name, age and home address of the child;
- (b) where the child is located, if not at home; and
- (c) the symptoms of the disease.

(2) The person making the report shall immediately place the child under the care of a legally qualified medical practitioner, unless a legally qualified medical practitioner is already attending the child. R.R.O. 1960, Reg. 505, s. 9.

DAIRY PRODUCTS

10. Sections 11, 12 and 13 apply to,

- (a) a carrier of the germs of,
 - (i) amoebic dysentery,
 - (ii) bacillary dysentery,
 - (iii) paratyphoid fever A.B.C., or
 - (iv) typhoid fever; and
- (b) a contact with, or a patient infected with,
 - (i) amoebic dysentery,
 - (ii) Asiatic cholera,
 - (iii) bacillary dysentery,
 - (iv) diphtheria,
 - (v) epidemic streptococcal sore throat,
 - (vi) paratyphoid fever A.B.C.,
 - (vii) poliomyelitis,
 - (viii) salmonellosis,
 - (ix) scarlet fever, or
 - (x) typhoid fever. R.R.O. 1960, Reg. 505, s. 10.

11. Subject to sections 12 and 13, no carrier, patient or contact shall handle food or drink intended for consumption by any human being other than himself. R.R.O. 1960, Reg. 505, s. 11.

12.—(1) Subject to section 13, no milk, cream or product of either of them, including butter and cheese, shall be removed from any premises on which a carrier, patient or contact resides or is engaged in handling milk.

(2) Where a medical officer of health,

- (a) prescribes the precautions to be taken by the carrier, patient or contact to prevent the spread of the disease; and
- (b) is satisfied that the carrier, patient or contact will observe the precautions to be taken,

the carrier, patient or contact may handle milk that is to be delivered to a dairy described in section 13. R.R.O. 1960, Reg. 505, s. 12.

13.—(1) In this section, "dairy" includes,

- (a) creamery; and
- (b) pasteurization plant.

(2) Where the occupier of premises referred to in section 12 desires to have milk removed from the premises for delivery to a dairy, he shall notify the medical officer of health in whose jurisdiction the premises are located, stating the name and location of the dairy to which he desires to deliver the milk.

(3) Upon being notified under subsection 2, the medical officer of health shall inspect the premises and interview the occupier and the carrier, patient or contact.

(4) Where the medical officer of health is satisfied that the disease will not be spread because of the delivery of the milk to the dairy, he shall notify the dairy that a carrier, patient or contact, as the case may be, resides on the premises where the milk is produced or is engaged in the handling of that milk.

(5) Where the operator of the dairy undertakes in writing with the medical officer of health to comply with subsection 6, the medical officer of health may permit the occupier mentioned in subsection 2 to deliver the milk to that dairy so long as the operator fulfills his undertaking.

(6) The operator of the dairy shall,

- (a) pasteurize all the milk; or
- (b) heat it to a temperature not lower than 161° F. for not less than sixteen seconds and immediately thereafter cool it to a temperature not higher than 50° F. R.R.O. 1960, Reg. 505, s. 13.

CARRIERS

14.—(1) Where a medical officer of health believes a person to be a carrier of germs of,

- (a) amoebic dysentery;
- (b) bacillary dysentery;
- (c) paratyphoid fever A.B.C.; or
- (d) typhoid fever,

he shall report in writing to the Deputy Minister,

- (e) the name, age, occupation and address of the carrier;

(f) the disease of which the person is believed to be a carrier; and

(g) the steps he has taken under section 70 of the Act with respect to,

- (i) clinical or laboratory examinations or investigations to which he has required the suspected carrier to submit,
- (ii) orders, directions or prohibitions he has given to that person, and
- (iii) acts he has done to enforce the carrying out of those orders, directions or prohibitions.

(2) Where a medical officer of health, having prohibited a carrier from changing his place of residence, subsequently permits him so to do, the medical officer of health shall notify the Deputy Minister as to the new place of residence of the carrier.

(3) Where the residence of the carrier is being changed from within the jurisdiction of one medical officer of health to within the jurisdiction of another medical officer of health, the former shall forthwith notify the latter of,

- (a) the name of the carrier;
- (b) his proposed new residence; and
- (c) details as to clinical or laboratory examinations of, or investigations made with respect to, the carrier. R.R.O. 1960, Reg. 505, s. 14.

15. The amount of compensation payable under subsection 4 of section 70 of the Act is,

- (a) \$50 a month for the carrier; and
- (b) \$5 a month,
 - (i) for a dependent spouse, and
 - (ii) for each dependant under sixteen years of age. R.R.O. 1960, Reg. 505, s. 15; O. Reg. 147/62, s. 1.

16.—(1) Where a person who has been found to be a carrier of paratyphoid fever A.B.C. or of typhoid fever,

- (a) submits to a provincial laboratory specimens of urine and of faeces taken on the same day of the week in four successive weeks; or
- (b) has had his gall-bladder removed and thereafter submits to a provincial laboratory,

- (i) three specimens of his duodenal contents taken at intervals not shorter than twenty-four hours, and
- (ii) eight specimens of faeces each taken on successive days,

and the specimens submitted under clause *a* or *b* have been examined in the provincial laboratory and have been found not to contain any germs of paratyphoid fever A.B.C. or of typhoid fever, the medical officer of health shall notify that person, in writing, that he is no longer a carrier of those germs, and shall send a copy of that notification to the Deputy Minister.

(2) All specimens referred to in subsection 1 shall be taken under circumstances satisfactory to the medical officer of health. R.R.O. 1960, Reg. 505, s. 16.

RABIES

17. Where a person has been bitten by an animal and that person, or the person in charge of the animal, suspects that the animal has rabies, he shall forthwith notify the medical officer of health,

- (a) of the name and address of the person bitten;
- (b) of the date, time and place of the biting; and
- (c) by giving as much information as he has that is likely to assist the medical officer of health in identifying and finding the animal. R.R.O. 1960, Reg. 505, s. 17.

18.—(1) When a medical officer of health receives a notification under section 17, he shall,

- (a) cause the animal to be confined at the expense of the municipality in a place in which the animal is comfortable; and
- (b) isolate the animal from all other animals and from human beings,

for at least fourteen days or until the isolated animal is no longer suspected of having rabies, whichever period is the longer.

(2) The animal shall be confined in a place where, in the opinion of the medical officer of health, there will be least danger of the disease spreading from the animal.

(3) Where a medical officer of health is of the opinion that an animal confined under subsection 1 is infected with rabies, he shall report to the Deputy Minister,

- (a) the date of the biting;

- (b) the name and address of the person bitten;
- (c) the identification of the confined animal;
- (d) the name and address of its owner; and
- (e) details as to other animals bitten by the confined animal, including,

- (i) the dates of the bitings,
- (ii) the names and addresses of owners of the bitten animals, and
- (iii) the disposal made of the bitten animals. R.R.O. 1960, Reg. 505, s. 18.

PSITTACOSIS

19. In sections 20 and 21,

- (a) "bird" means a bird that may be susceptible to infection with psittacosis; and
- (b) "owner" means a person who has a bird in his possession. R.R.O. 1960, Reg. 505, s. 19.

20.—(1) Where the medical officer of health knows or suspects that a bird is infected with psittacosis, he shall order the owner to isolate that bird and all birds that have been in contact with that bird, until the owner has received from the medical officer of health a certificate that there is no further danger of the disease being spread by any of those birds.

(2) The medical officer of health shall not issue a certificate under subsection 1 until all cages, articles and premises likely to harbour the germs and from which the disease may spread to other birds or human beings have been disinfected to his satisfaction.

(3) Where a bird dies while it is isolated, the owner shall forthwith thereafter report the death to the medical officer of health. R.R.O. 1960, Reg. 505, s. 20.

21.—(1) An owner of a bird that,

- (a) is infected with psittacosis;
- (b) is a carrier of psittacosis; or
- (c) is, or has been, in contact with a bird referred to in clause *a* or *b*,

shall report to the medical officer of health the address of the premises where the bird in his possession is located.

(2) Where a medical officer of health knows or suspects that there is on the premises a bird referred to in subsection 1, he shall, personally or by means of some competent person,

- (a) visit the premises;
- (b) make all necessary inquiries; and
- (c) take such steps as the medical officer of health considers necessary to prevent or mitigate the spread of disease from the bird. R.R.O. 1960, Reg. 505, s. 21.

TUBERCULOSIS

22. Where, under section 64 of the Act, a medical officer of health receives a notice that a person is infected with tuberculosis, the medical officer of health shall forthwith report the matter in Form 3 to the Director of the Division of Tuberculosis Prevention in the Department. R.R.O. 1960, Reg. 505, s. 22.

23. Where, under section 72 of the Act, a medical officer of health has given permission for the removal of a person suffering from tuberculosis, or consents to the change of residence of an occupant of a house in which tuberculosis exists, to a place outside the jurisdiction of that medical officer of health, the medical officer of health, forthwith after giving his permission or consent, shall so notify,

- (a) the Director of the Division of Tuberculosis Prevention in the Department; and
- (b) the medical officer of health whose jurisdiction the patient, or occupant, is entering. R.R.O. 1960, Reg. 505, s. 23.

DISPOSAL OF CORPSES

24. Where a person infected with a communicable disease dies, the person who signs the medical certificate of death under subsection 3 of section 17 of *The Vital Statistics Act* shall report the death to the medical officer of health within twelve hours after signing the certificate. R.R.O. 1960, Reg. 505, s. 24.

25. Sections 26, 27 and 28 apply to the corpse of a person who dies of or while he is isolated for,

- (a) Asiatic cholera;
- (b) diphtheria;
- (c) meningo-coccal meningitis;
- (d) plague;
- (e) poliomyelitis;
- (f) scarlet fever; or
- (g) smallpox. R.R.O. 1960, Reg. 505, s. 25.

26.—(1) As soon as is practicable after death occurs, the person having custody of the corpse shall place it, or cause it to be placed, in a coffin of sound construction.

(2) Where the deceased was infected with smallpox, the coffin shall be hermetically sealed.

(3) The coffin shall,

- (a) be closed forthwith after the corpse is placed in it; and
- (b) not be opened except as directed by the medical officer of health in whose jurisdiction it is located.

(4) No person shall remove a corpse from the isolation room until there has been compliance with subsection 1 and, where applicable, subsection 2.

(5) A corpse shall be buried, cremated or incinerated within twenty-four hours after the person has died.

(6) Where a person has died in a public hospital, or an isolation hospital, the corpse shall be removed from the hospital directly to the place of burial, cremation or incineration. R.R.O. 1960, Reg. 505, s. 26.

27. No person shall attend the funeral of a corpse mentioned in section 25, except,

- (a) persons who dwell in the house in which the person died and who are no longer isolated or quarantined; and
- (b) other persons expressly permitted by the medical officer of health to attend the funeral. R.R.O. 1960, Reg. 505, s. 27.

28. No person shall deliver a corpse mentioned in section 25 to a carrier for transportation or carriage unless the corpse is enclosed in a coffin of sound construction satisfactory to the medical officer of health, and the coffin is enclosed in an outer case sufficiently strong to ensure that the coffin and the hermetical sealing, if any, will not be broken throughout the transportation or carriage. R.R.O. 1960, Reg. 505, s. 28.

Form 3

The Public Health Act
REPORT ON TUBERCULOSIS PATIENT

To the Director of the Division of Tuberculosis Prevention,
Department of Health,
Parliament Buildings,
Toronto, Ontario.

I have received notice that

.....
(name)
of.....
(address)

is known, or suspected, to be suffering from tuberculosis, and I submit herewith such particulars as I have been able to ascertain.

1. Particulars of the disease:

i. Site:.....

ii. If the disease is pulmonary,

(a) primary:.....

(b) minimal:.....

(c) moderately advanced:.....

(d) far advanced:.....

(e) active:.....

(f) inactive:.....

(g) result of most recent sputum
examination:.....

(h) date of most recent sputum
examination:.....

(i) date of most recent chest film:

(j) place of most recent chest film:

.....

(k) date on which disease first dis-
covered:.....

2. Post-sanatorium treatment:

Name of sanatorium	Date of admission	Date of discharge

3. Does person now require sanatorium treatment?
.....

4. Name of any sanatorium to which application has been made for admission:.....

5. The occupation of this person is:.....

6. Address of place of employment:.....

7. Recent contacts of this person are:

Name	Age	Address

.....
(signature of medical
officer of health)
.....
(address)

Date....., 19....

TABLE 2
ISOLATION AND DISINFECTION

Item No.	COLUMN 1 COMMUNICABLE DISEASE	COLUMN 2 PERIOD OF ISOLATION OF PATIENT	COLUMN 3 PERIOD OF QUARANTINE OF CONTACT	COLUMN 4 Class of Disinfection
1	Actinomycosis	From the onset of the disease until recovery		Concurrent
2	Anthrax	From the onset of the disease until recovery		Concurrent
3	Amoebic dysentery	From the onset of the disease until, (a) five days after recovery; and (b) negative cultures are obtained from two specimens of faeces taken at an interval of twenty-four hours		Concurrent and terminal
4	Asiatic cholera	From the onset of the disease until negative cultures are obtained from two specimens of faeces and of urine taken at an interval of five days	During the period of contact with the patient and until, after the period has ended, negative cultures are obtained from two specimens of faeces and of urine taken from the contact at an interval of five days	Concurrent and terminal
5	Bacillary dysentery	From the onset of the disease, (a) until, (i) five days after recovery, or (ii) administration of a specific drug has ceased, whichever period is the longer; and (b) until negative cultures are obtained from two specimens of faeces taken at an interval of twenty-four hours		Concurrent and terminal
6	Chickenpox	From the time of the appearance of vesicles until, (a) seven days thereafter; or (b) the lesions are healed, whichever period is the longer.		

Item No.	COLUMN 1 COMMUNICABLE DISEASE	COLUMN 2 PERIOD OF ISOLATION OF PATIENT	COLUMN 3 PERIOD OF QUARANTINE OF CONTACT	COLUMN 4 Class of Disinfection
7	Diphtheria	<p>i. In territory with municipal organization, from the onset of the disease, (a) for ten days thereafter; and (b) until, (i) negative cultures are obtained from two specimens of the discharge from the nose, the throat and a lesion on any other part of the body, which specimens are taken at an interval of twenty-four hours during which no treatment has been given, or (ii) where the negative cultures cannot be obtained under subclause i, one culture of the discharge from the nose or throat shows a negative result on a virulence test</p> <p>ii. In territory without municipal organization, for three weeks from the onset of the disease</p>	<p>i. During the period of contact with the patient and until one negative culture is obtained from specimens of the discharges from the nose and throat of the contact after the period of contact has been broken in a manner satisfactory to the medical officer of health</p> <p>ii. Same as sub-item i.</p>	<p>(i) Concurrent and terminal</p> <p>(ii) Same as sub-item i</p>
8	Epidemic influenza	From the onset of the disease until recovery		
9	Epidemic streptococcal sore throat	<p>From the onset of the disease, (a) for seven days thereafter; or (b) until the patient has no, (i) sore throat, or (ii) oral, nasal, or aural discharges, whichever period is the longer</p>	For seven days after first becoming a contact	Concurrent
10	Erysipelas	From the onset of the disease until recovery		Concurrent
11	German measles	For five days from the onset of the disease		
12	Glanders	From the onset of the disease until recovery		Concurrent
13	Infectious jaundice	From the onset of the disease until recovery		

Item No.	COLUMN 1 COMMUNICABLE DISEASE	COLUMN 2 PERIOD OF ISOLATION OF PATIENT	COLUMN 3 PERIOD OF QUARANTINE OF CONTACT	COLUMN 4 Class of Disinfection
14	Leprosy			Concurrent and terminal
15	Measles	For seven days after the appearance of the rash		
16	Meningo-coccal meningitis	From the onset of the disease until, (a) ten days thereafter; or (b) recovery, whichever period is the shorter	In the case of a contact who is under twenty-one years of age, until the medical officer of health is satisfied that the patient has been isolated from the contact for ten consecutive days	Terminal
17	Mumps	From the onset of the disease until the swelling in the salivary glands has completely subsided		
18	Ophthalmia neonatorum	From the appearance of the first symptom until a negative culture is obtained from each eye		Concurrent and terminal
19	Paratyphoid fever A. B. C.	From the onset of the disease, (a) until, (i) five days after recovery, or (ii) administration of a specific drug has ceased, (b) whichever period is the longer; and until negative cultures are obtained from two specimens of faeces and of urine taken at an interval of twenty-four hours		Concurrent and terminal
20	Plague	From the onset of the disease until seven days after recovery	Where the patient has the pneumonic type, (a) during the period of contact with the patient; and (b) for seven days thereafter	Concurrent and terminal
21	Poliomyelitis	For seven days after the onset of the disease	For seven days after the contact first came in contact with the patient	Concurrent and terminal
22	Psittacosis	From the onset of the disease until recovery		Concurrent and terminal

Item No.	COLUMN 1 COMMUNICABLE DISEASE	COLUMN 2 PERIOD OF ISOLATION OF PATIENT	COLUMN 3 PERIOD OF QUARANTINE OF CONTACT	COLUMN 4 Class of Disinfection
23	Puerperal sepsis	From the onset of the disease until recovery		
24	Salmonellosis	From the onset of the disease until recovery		Concurrent
25	Scarlet fever	From the onset of the disease, (a) for seven days thereafter; or (b) until the patient has no, (i) sore throat, or (ii) oral or nasal discharges whichever period is the longer	For seven days after the contact first came in contact with the patient	Concurrent
26	Smallpox	From the onset of the disease until, (a) twenty-one days thereafter; or (b) all, (i) crusts have disappeared, and (ii) lesions have healed, whichever period is the longer	i. For a contact who has previously been successfully vaccinated, or a smallpox patient, (a) during the period of contact with the patient; and (b) from the time he was last in contact with the patient until, (i) he has been successfully vaccinated, or re-vaccinated, or (ii) he is proved to the satisfaction of the medical officer of health to be immune. ii. For a contact other than in sub-item i, during the period of contact with the patient and for sixteen days thereafter	Concurrent and terminal
27	Tuberculosis			Concurrent and terminal
28	Tularemia			Concurrent and terminal

Item No.	COLUMN 1 COMMUNICABLE DISEASE	COLUMN 2 PERIOD OF ISOLATION OF PATIENT	COLUMN 3 PERIOD OF QUARANTINE OF CONTACT	COLUMN 4 Class of Disinfection
29	Typhoid fever	From the onset of the disease, (a) until, (i) five days after recovery, or (ii) administration of a specific drug has ceased, (b) until negative cultures are obtained from two specimens of faeces and of urine taken at an interval of twenty-four hours		Concurrent and terminal
30	Whooping cough	For three weeks after the onset of the disease	In the case of a child under twelve years of age who has had no previous attack, for the period of isolation of the patient	

R.R.O. 1960, Reg. 505, Table 2.

REGULATION 704

under The Public Health Act

COMMUNITY HEALTH SERVICES

1. In this Regulation,

- (a) "immunization" means the introduction into the body of a person of a substance approved under the *Food and Drugs Act* (Canada) for the purpose of developing antibodies;
- (b) "tuberculin test" means the introduction into the skin of a person of a substance approved under the *Food and Drugs Act* (Canada) for the purpose of detecting sensitivity of that person to the tubercle bacillus. O. Reg. 278/62, s. 1.

2.—(1) A local board of health may establish, maintain and operate community health services consisting of facilities for the prevention of diseases or disorders, including,

- (a) tuberculosis control clinics and services;
- (b) immunization clinics and services;
- (c) mental health clinics and services; and
- (d) child health centres and services.

(2) The medical officer of health is responsible for the operation of community health services established under subsection 1 and the functioning of its staff. O. Reg. 278/62, s. 2.

3. Any person may attend community health services,

- (a) upon referral by a legally qualified medical practitioner; or
- (b) in accordance with any general public invitation made by the medical officer of health,

and receive such examination, tests, drugs and treatment as the medical officer of health authorizes. O. Reg. 278/62, s. 3.

4. A medical officer of health or a legally qualified medical practitioner, nurse or other person authorized by the medical officer of health may perform a tuberculin test or immunization under this Regulation. O. Reg. 278/62, s. 4.

5. Where a local board maintains and operates mental health clinics and services, it shall supply

adequate medical, nursing and other staff and equipment for the purpose of the mental health services rendered. O. Reg. 278/62, s. 5.

6. Where a local board of health maintains and operates child health centres and services, the medical officer of health may provide facilities for the examination, treatment, immunization and dental examination of infants and children. O. Reg. 278/62, s. 6.

7.—(1) No tuberculin test or immunization or other treatment shall be given under this Regulation to a person who is unmarried and under eighteen years of age unless a consent therefor has been given by the parent or guardian of the person.

(2) Subsection 1 does not apply to any person who is unmarried and under eighteen years of age and who is,

- (a) sixteen years of age or over; and
- (b) gainfully employed or attending a school, university or other institution of learning. O. Reg. 278/62, s. 7.

8.—(1) In this section, "physician" means a legally qualified medical practitioner who is not a member of the staff of the Department or of a local board of health.

(2) Where any person suffers an abnormal reaction after an immunization, tuberculin test or examination has been performed upon him, the medical officer of health may,

- (a) consult a physician and thereafter prepare a report of the consultation which shall be signed by the medical officer of health and the physician consulted;
- (b) arrange for a physician to examine the person suffering from a reaction and record and sign his findings; and
- (c) notify the person examined or a physician designated by him of the findings. O. Reg. 278/62, s. 8.

9. The medical officer of health shall cause to be compiled and maintained a medical record of each person who receives a tuberculin test or an immunization or other treatment under this Regulation showing,

- | | |
|--|---|
| <p>(a) the identity of the person;</p> <p>(b) the date of the test, immunization or treatment;</p> <p>(c) in the case of an immunization, the type thereof and amount; and</p> | <p>(d) in the case of tubercular or other treatment, particulars of the examinations, findings and drugs given. O. Reg. 278/62, s. 9.</p> |
|--|---|

REGULATION 705**under The Public Health Act**

DESIGNATION OF HUMAN AILMENTS

1. The following human ailments are designated for the purpose of section 58 of the Act:

1. Arthritis and rheumatism.
2. Cancer and tumours.
3. Diabetes.
4. Asthma, bronchitis and other diseases of the respiratory tract. O. Reg. 353/65, s. 1.

REGULATION 706

under The Public Health Act

FOOD PREMISES

INTERPRETATION

1. In this Regulation,

- (a) "corrosion-resistant material" means any material that maintains its original surface characteristics after repeated exposure to food and any substance used in its cleansing and disinfection;
- (b) "disinfection" means bactericidal treatment, and "disinfect" and "disinfecting" have a corresponding meaning;
- (c) "employee" means any person who,
 - (i) is employed in food premises, and
 - (ii) handles or comes in contact with any utensil or with food during its preparation, processing, packaging, service, storage or transportation;
- (d) "farm product" means fruit, grains, honey, maple products and vegetables or any class or classes thereof;
- (e) "food" means food or drink for human consumption or any ingredient thereof, other than farm products that have not been manufactured or processed into articles of food or drink;
- (f) "food contact surface" means any surface with which food comes in contact during its preparation, processing, packaging, service or storage;
- (g) "food premises" means any premises where food or drink for human consumption is,
 - (i) manufactured, processed, prepared or handled, or
 - (ii) sold or offered for sale;
- (h) "infection and toxin prone food" means any perishable food consisting in whole or in part of milk, milk products, eggs, egg products, meat, poultry, fish, shellfish or any other ingredient capable of supporting the rapid growth of pathogenic organisms or the production of the toxins of such organisms;
- (i) "mobile food premises" means a vehicle from which food or drink is offered for sale or sold to the public;

- (j) "operator" means a person who by himself or his agent owns or operates food premises;
- (k) "single-service article" means any container or article that is intended to be used only once by the operator in the service or sale of food;
- (l) "utensil" means any article or equipment used in the preparation, processing, packaging, service or storage of food, except a single-service article;
- (m) "vending machine" means any machine or other device that dispenses unit servings of food, either in bulk or in package form. O. Reg. 398/67, s. 1.

ESTABLISHMENT

2. No person shall establish or operate food premises except in accordance with this Regulation. O. Reg. 398/67, s. 2.

3.—(1) This Regulation does not apply to,

- (a) a dwelling where food is prepared or served for consumption by the occupant, his family, his servants or his guests;
- (b) a boarding house that provides meals for not more than ten persons;
- (c) food premises where no food or drink is sold or offered for sale other than,
 - (i) drink in bottles or single-service containers,
 - (ii) peanuts, popcorn and other nuts, or
 - (iii) prepackaged food that is not infection or toxin prone;
- (d) subject to subsection 2, food premises where no food or drink is sold or offered for sale other than,
 - (i) ice cream in cones and frozen confections, or
 - (ii) precooked meat products in the form of wieners, frankfurters and similar food; and

- (e) food premises to which,
 - (i) Regulation 707 of Revised Regulations of Ontario, 1970,
 - (ii) Regulation 714 of Revised Regulations of Ontario, 1970,
 - (iii) Regulation 719 of Revised Regulations of Ontario, 1970, or
 - (iv) Regulation 574 of Revised Regulations of Ontario, 1970,

applies.

(2) The operator of mobile food premises that are exempt under clause *d* of subsection 1 shall comply with this Regulation, except sections 4 and 6 and sections 36 to 57, both inclusive. O. Reg. 398/67, s. 3.

CONSTRUCTION

4. Every food premises shall be so constructed, located and maintained that,

- (a) the premises are free from every condition that may,
 - (i) be dangerous to health,
 - (ii) injuriously affect the sanitary operation of the premises, or
 - (iii) injuriously affect the wholesomeness of food prepared, processed, packaged, served or stored therein;
- (b) no room where food is prepared, processed, packaged, served or stored is used for sleeping purposes and no sleeping quarters open directly into such room;
- (c) a separate room, compartment, locker or cupboard is provided for keeping wearing apparel of employees;
- (d) the floors and floor coverings are tight, smooth and non-absorbent in rooms where,
 - (i) food is prepared, processed, packaged, served or stored,
 - (ii) utensils are washed, or
 - (iii) washing fixtures and toilet fixtures are located;
- (e) the walls and ceilings of rooms and passageways may be readily cleaned and the painting, decorating or other treatment may be maintained in a clean and sanitary condition;

- (f) all rooms and passageways are well lighted and ventilated;
- (g) no toilet room or combined toilet room and washroom opens directly into any room used for the preparation, processing, packaging or serving of food; and
- (h) reasonable protection against the entrance of flies, insects, rodents, vermin, dust and fumes is provided. O. Reg. 398/67, s. 4.

EQUIPMENT

5. Any article or equipment that is used for the preparation, processing, packaging, service, storage or display of food shall be,

- (a) of sound and tight construction;
- (b) kept in good repair; and
- (c) of such form and material that it can be cleaned and disinfected. O. Reg. 398/67, s. 5.

6. Except as otherwise provided, every food premises shall be provided with,

- (a) a supply of potable water handled in a sanitary manner and adequate for efficient operation of the premises;
- (b) hot and cold running water under pressure in areas where food is processed and utensils are washed;
- (c) facilities for washing utensils as prescribed by this Regulation;
- (d) separate hand-washing facilities for employees, in a convenient location;
- (e) toilets, washrooms and dressing rooms as prescribed by this Regulation;
- (f) adequate refrigerated space for the safe storage of perishable food; and
- (g) sufficient containers of durable, leakproof and non-absorbent material with tight-fitting or self-closing lids for storing garbage and waste in a sanitary manner. O. Reg. 398/67, s. 6.

7. Equipment and utensils with which food comes in contact during its preparation, processing, packaging, service or storage shall be,

- (a) corrosion-resistant and non-toxic;
- (b) kept in good repair;
- (c) readily cleanable; and
- (d) free from cracks, crevices and open seams,

but cutting boards, blocks, bakers' tables and churns may be constructed of hardwood or other material satisfactory to the medical officer of health that is free from cracks, crevices and open seams. O. Reg. 398/67, s. 7.

8. Refrigerated rooms and compartments shall be provided with indicating thermometers that may be easily read and are located in the warmest part of the room or compartment. O. Reg. 398/67, s. 8.

9. Racks and shelves shall be provided for the storage of food and no rack or shelf shall be placed less than six inches above the floor. O. Reg. 398/67, s. 9.

10. Tongs, spoons and scoops of corrosion-resistant and non-toxic material shall be provided and shall be used to avoid handling food where possible. O. Reg. 398/67, s. 10.

11. Drinking fountains shall be of sanitary design and construction. O. Reg. 398/67, s. 11.

FOOD HANDLING

12. Food shall be protected from contamination, foreign substances or adulteration. O. Reg. 398/67, s. 12.

13. Food, other than raw fruits and raw vegetables or food that is not infection and toxin prone and is offered for sale in package form, shall be protected against contamination of any kind by means of enclosed containers, cases, cabinets or shelves. O. Reg. 398/67, s. 13.

14. Food shall be transported from the premises where it is prepared, processed, packaged or stored to the premises where it is stored, sold, offered for sale or served in enclosed containers or in such other manner as to prevent contamination of the food and maintain the temperatures herein prescribed. O. Reg. 398/67, s. 14.

15. Milk and liquid edible oil milk substitutes shall be offered for sale or served in or from,

- (a) the original bottle or carton; or
- (b) the original sealed container equipped with an automatic dispensing device,

as received from the distributor. O. Reg. 398/67, s. 15; O. Reg. 1/69, s. 1.

16. Ice used in the preparation and processing of food or drink shall be of safe quality and shall be stored and handled in a sanitary manner. O. Reg. 398/67, s. 16.

17. Infection and toxin prone food that is offered for sale or service in hermetically sealed containers shall be processed,

(a) in accordance with recognized public health standards at the temperature and for the time required to destroy the sporeform of pathogenic micro-organisms; or

(b) at the temperature and for the time required to destroy the vegetative form of pathogenic micro-organisms. O. Reg. 398/67, s. 17.

18. Food referred to in clause *b* of section 17 shall,

(a) have prominently marked on its can or container "Keep Refrigerated"; and

(b) be maintained, transported, stored and offered for sale at a temperature not higher than 40°F. O. Reg. 398/67, s. 18.

19. Cans or containers of infection and toxin prone food shall bear a permanent code marking of the manufacturer or processor designating the plant where and the date on which the food was manufactured. O. Reg. 398/67, s. 19.

20. Water used for washing or rinsing cans prior to processing food and for cooling cans of processed food shall be potable. O. Reg. 398/67, s. 20.

21. Infection and toxin prone food other than food referred to in section 17 shall be maintained, transported and offered for sale at,

- (a) a temperature not higher than 40°F; or
- (b) a temperature not lower than 150°F,

except for such periods of time as may be necessary for the preparation, processing and packaging of the food or for the servicing of a vending machine. O. Reg. 398/67, s. 21.

22. Infection and toxin prone food shall be offered for sale in,

- (a) the container or wrapper in which it is placed at the time of preparation or processing; or
- (b) single-service containers. O. Reg. 398/67, s. 22.

23. Food that is offered for sale in a frozen state shall be sharp frozen at a temperature of 0°F or lower and maintained thereafter at a temperature of 0°F, with a tolerance of plus or minus 5°F, until sold or prepared for use. O. Reg. 398/67, s. 23.

MAINTENANCE

24. Refrigerated and food storage rooms shall be kept clean and sanitary and all interior surfaces, racks and trays shall be cleaned at least once a week or more often if necessary to maintain them in a sanitary condition. O. Reg. 398/67, s. 24.

25. Furniture, equipment and appliances in any room where food is prepared, processed, packaged or served shall be so arranged as to permit thorough cleaning and the maintenance of the room in a clean and sanitary condition. O. Reg. 398/67, s. 25.

26.—(1) Garbage and wastes shall be removed from the premises twice weekly or more often if necessary to maintain a sanitary condition.

(2) In a room where food is prepared, processed, packaged, served or stored, garbage cans shall be,

- (a) cleaned and disinfected before each use;
- (b) removed from the room when full; and
- (c) unless a daily collection service is provided, placed in a separate room, compartment or bin so constructed and maintained as to exclude insects, rodents and vermin and prevent odours and nuisance on the premises. O. Reg. 398/67, s. 26.

27.—(1) Every room where food is cooked shall be provided with adequate means for the removal of smoke, gases and odours to the outside atmosphere.

(2) Walls, ceilings and equipment shall be protected from grease or food particles by,

- (a) placing cooking equipment in a suitable location; or
- (b) providing a shield, canopy or other device of non-absorbent and readily cleanable material. O. Reg. 398/67, s. 27.

28. Every operator shall ensure that,

- (a) food premises are swept and cleaned in such manner as to prevent contamination of food;
- (b) no cup, glass, dish or utensil that is chipped or cracked is used in the preparation, service or storage of food;
- (c) single-service containers and single-service articles are kept in such manner and place as to prevent contamination;
- (d) every room where food is prepared, processed, packaged, served or stored is kept free,
 - (i) of materials and equipment not regularly used in the room, and
 - (ii) of live birds, live animals or live fowl, except those intended for food;

- (e) dispensing scoops and dippers for ice cream or frozen confections or desserts are kept between servings in a dipper-well with running water, or kept in a manner that pre-

cludes contamination and bacterial growth satisfactory to the medical officer of health; and

- (f) the surface of equipment and facilities other than utensils that come in contact with food are washed and disinfected as often as necessary to maintain such surfaces in a sanitary condition. O. Reg. 398/67, s. 28.

29. Notwithstanding subclause ii of clause *d* of section 28, an operator may permit a dog, while serving as a guide or leader for a blind person, to enter and remain in a room where food is served. O. Reg. 135/68, s. 1.

30.—(1) Table covers, napkins or serviettes used in the service of food shall be clean and in good condition and napkins and serviettes shall be laundered before each use.

(2) Subsection 1 does not apply to single-service table covers, napkins or serviettes. O. Reg. 398/67, s. 29.

31. Cloths and towels used for washing, drying or polishing utensils shall be,

- (a) of suitable material;
- (b) in good condition;
- (c) clean; and
- (d) used for no other purpose. O. Reg. 398/67, s. 30.

32. Toxic and poisonous substances required for maintenance of sanitary conditions shall be,

- (a) kept in a cupboard separate from food so as to preclude contamination of any working surface or utensil;
- (b) kept in a container that bears a label on which the contents of the container are clearly identified; and
- (c) used only in such manner and under such conditions that the substances do not contaminate food or endanger the health of any person. O. Reg. 398/67, s. 31.

PERSONNEL

33. Every operator or employee who handles or comes in contact with food during, or with any utensil used in, its preparation, processing or service shall,

- (a) be clean;
- (b) wear clean, washable outer garments and headgear that confines his hair;

(c) submit to such medical examinations and tests as the medical officer of health or the Minister requires; and

(d) be free from and not a carrier of any disease that may spread through the medium of food. O. Reg. 398/67, s. 32.

34. No person who,

(a) has a communicable skin disease or infection; or

(b) resides in a dwelling where a communicable disease occurs,

shall perform work that brings him in contact by any means with food in food premises unless he has obtained a certificate from the medical officer of health that he is free from and not a carrier of any disease that may be spread through the medium of food. O. Reg. 398/67, s. 33.

35. Where an operator knows or has reason to suspect that an employee is violating section 33 or 34 or is working in food premises contrary to Regulation 703 of Revised Regulations of Ontario, 1970, he shall notify the medical officer of health. O. Reg. 398/67, s. 34.

SANITARY FACILITIES

36. Every food premises where food is prepared or processed shall be provided with, for the use of employees,

(a) washrooms and toilet rooms in such numbers as are prescribed in Regulation 454 of Revised Regulations of Ontario, 1970, made under *The Industrial Safety Act*; and

(b) dressing rooms sufficient for all employees to change and store their clothing in clean and sanitary conditions,

and such rooms shall be separate for males and females. O. Reg. 398/67, s. 35.

37. Subject to section 43, every food premises where food is prepared and served to the public for immediate consumption thereon, shall provide for the use of the public washrooms and toilet rooms, one or more for males and one or more for females. O. Reg. 398/67, s. 36.

38. Washrooms shall be equipped with,

(a) one or more basins;

(b) an adequate supply of hot and cold water;

(c) an adequate supply of soap in a suitable container or dispenser;

(d) hot air dryers or individual clean towels for the use of each person using the washing facilities; and

(e) a suitable receptacle for used towels and waste material. O. Reg. 398/67, s. 37.

39. Toilet rooms shall be equipped with a water closet in good working order and a supply of toilet paper. O. Reg. 398/67, s. 38.

40. Washrooms and toilet rooms may form one room. O. Reg. 398/67, s. 39.

41. Every washroom and toilet room shall be,

(a) conveniently located and easily accessible;

(b) provided with facilities for the removal of odours; and

(c) kept clean, sanitary and in good repair. O. Reg. 398/67, s. 40.

42. Food premises referred to in section 37 shall provide signs clearly indicating the location of the washrooms and toilet rooms for the use of the public. O. Reg. 398/67, s. 41.

43. In food premises where food is prepared and served for immediate consumption thereon and that have a total area for the preparation and service of food of not more than 800 square feet the same washrooms and toilet rooms, separate for males and females, may be provided for the use of employees and the public. O. Reg. 398/67, s. 42.

44. Section 37 does not apply to food premises,

(a) located in a building where public washing and sanitary facilities are conveniently available;

(b) where food is prepared for immediate consumption without cooking and beverages such as tea and coffee are sold or offered for sale; or

(c) that are open for business for a period of less than two months in any one year or operated in connection with any exhibition, fair, carnival, race meeting or other public place of amusement or entertainment, where public washing and toilet facilities are available in a convenient location on the premises. O. Reg. 398/67, s. 43.

45. Where the medical officer of health is of the opinion that the installation of water closets is impractical, he may permit the use of privies, if they are,

(a) separate from any other building;

- (b) fly-tight;
- (c) equipped with full-length, self-closing doors;
- (d) constructed so as to prevent the entry of surface or ground water into the pit; and
- (e) adequately lighted and ventilated. O. Reg. 398/67, s. 44.

46. Wash basins and toilet facilities shall be washed and treated with a suitable disinfecting solution at least once in every work day and more often if necessary to maintain them in a sanitary condition. O. Reg. 398/67, s. 45.

CLEANSING AND DISINFECTION OF UTENSILS

47. Utensils shall be washed and disinfected in accordance with this Regulation. O. Reg. 398/67, s. 46.

48. Equipment and facilities for the cleansing and disinfecting of utensils shall consist of,

- (a) an ample supply of potable hot and cold water; and
- (b) mechanical equipment so designed and operated that all utensils are adequately cleansed and disinfected; or
- (c) manual equipment consisting of,
 - (i) at least three sinks of corrosion-resistant material and of sufficient size to ensure thorough cleansing and disinfecting of utensils, and
 - (ii) draining racks of material that is non-corrodible; or
- (d) such other facilities as are herein prescribed. O. Reg. 398/67, s. 47.

49. Utensils for serving food shall be,

- (a) prerinsed or prescraped to remove gross food particles and soils;
- (b) washed in a detergent solution that is capable of removing grease; and
- (c) disinfected in accordance with section 51. O. Reg. 398/67, s. 48.

50. Where manual equipment is used, utensils shall be,

- (a) washed in the first sink in the detergent solution mentioned in clause *b* of section 49;
- (b) rinsed in the second sink in clean water at a temperature not lower than 110°F; and

- (c) disinfected in the third sink. O. Reg. 398/67, s. 49.

51. Utensils shall be disinfected by,

- (a) immersion in water at a temperature of 170°F or more for at least forty-five seconds;
- (b) immersion in a chlorine solution of not less than 100 parts per million of available chlorine at a temperature not lower than 75°F for at least forty-five seconds;
- (c) immersion in a quaternary ammonium compound solution of not less than 200 parts per million at a temperature not lower than 75°F for at least forty-five seconds;
- (d) immersion in a solution containing not less than twenty-five parts per million of available iodine at a temperature not lower than 75°F for at least forty-five seconds; or
- (e) immersion in a solution containing a disinfecting agent that is non-toxic and that provides a bactericidal result not less than the result provided by clause *a*, *b*, *c* or *d* and for which a convenient field test is available. O. Reg. 398/67, s. 50.

52. Where mechanical equipment is used, it shall,

- (a) effectively disinfect all surfaces of utensils in accordance with the bacterial standards prescribed in section 34;
- (b) where spray-type machines are used, be so constructed, designed and maintained that,
 - (i) wash water is reasonably clean at all times and maintained at a temperature not lower than 140°F, and
 - (ii) rinse water is maintained at a temperature not lower than 170°F, or
 - (iii) utensils are subjected to a disinfecting solution at such strength and for such times as are prescribed in section 51;
- (c) be so construed that conveyors in machines are accurately timed to provide time cycles that ensure exposure to disinfecting solutions as prescribed by section 51; and
- (d) be provided with indicating thermometers that are so located as to be easily read. O. Reg. 398/67, s. 51.

53. Notwithstanding section 48 and section 52, the medical officer of health may permit the use of any other machine or device that cleans and dis-

infects utensils to his satisfaction and provides bacterial counts as prescribed by section 54. O. Reg. 398/67, s. 52.

54. The cleansing and disinfecting of utensils shall be in accordance with recognized public health standards and the plate count shall not exceed 100 bacterial colonies per utensil when tested in accordance with the standard plate test, utilizing the swab technique. O. Reg. 398/67, s. 53.

55. After being cleansed and disinfected, utensils shall be kept in such manner and place as to prevent contamination. O. Reg. 398/67, s. 54.

56. Where equipment is so large as to preclude washing and disinfecting by means of sinks or dish-washing machines, it shall be,

- (a) washed or scrubbed with a detergent solution; and
- (b) treated with,
 - (i) live steam from a hose,
 - (ii) rinsed with hot water at a temperature not lower than 200°F at the outlet, or
 - (iii) sprayed or rinsed with a chemical solution designated in section 50 at double the strength therein prescribed. O. Reg. 398/67, s. 55.

57. Every vending machine shall be,

- (a) located in an area that is,
 - (i) readily cleanable and has impermeable and smooth finished floors and walls,
 - (ii) protected from overhead leakage and moisture of condensation, and
 - (iii) free from contamination by any means;
- (b) constructed so that,
 - (i) it is sealed to the floor or is mounted on legs not less than six inches in height or on casters or rollers that permit ease of movement for cleaning purposes,
 - (ii) exterior surfaces permit ready cleaning and maintenance in a sanitary condition,
 - (iii) service connections through the exterior of the machine are effectively sealed and are such as to prevent or discourage unauthorized disconnection,

- (iv) door and panel access openings to product and container storage spaces are tight-fitting and provided with gaskets to prevent the entrance of any contaminating substance or thing,

- (v) ventilation louvers or openings are screened against insects by means of screening material of not less than 16 mesh to the inch,

- (vi) any condenser unit forming part of the machine is sealed from product and container storage spaces,

- (vii) interior surfaces are smooth finished, of corrosion-resistant material and free from junctures and angles that may prevent thorough cleaning,

- (viii) food contact surfaces are free from any toxic material or substance,

- (ix) containers and fittings may be disassembled to permit cleansing and disinfection,

- (x) openings by which food is delivered are protected by means of a self-closing and tight-fitting door or cover, and

- (xi) food storage compartments are self-draining;

(c) provided with,

- (i) a potable supply of water that is piped into the machine under pressure,

- (ii) two check valves and an air gap or other device to prevent the entrance of carbon dioxide or carbonated liquid into the water supply system,

- (iii) piping, fittings and surfaces with which food comes in contact of a material that precludes the production of toxic substances where carbon dioxide or any other substance may react with the piping, fittings and food contact surfaces to produce a toxic or harmful substance in the food,

- (iv) a thermometer of known accuracy to register the air temperature in a food storage compartment containing perishable or infection and toxin prone food, and

- (v) automatic controls that prevent the vending machine from dispensing infection and toxin prone food where the temperatures prescribed by this Regulation are not maintained. O. Reg. 398/67, s. 56.

58. A vending machine is exempt from this Regulation, except sections 12 to 23, both inclusive, and section 57. O. Reg. 398/67, s. 57.

CLOSURE

59.—(1) Where the medical officer of health finds in any food premises that a condition exists that is or may become dangerous to health or may hinder in any manner the prevention, mitigation or suppression of disease, or that through neglect, utensils and equipment are not maintained in a clean and sanitary condition, the local board or the medical officer of health may order that the food premises be closed and remain closed until the condition has been rectified.

(2) Within twenty-four hours after issuing the order, the medical officer of health shall give written notice to the operator, together with the reasons for the closing.

(3) Where a licence has been issued to the food premises, the medical officer of health shall also give the notice and the reasons referred to in subsection 2 to the authority that issued the licence.

(4) As soon as the condition mentioned in subsection 1 has been rectified the medical officer of health shall,

- (a) cancel the order and so notify the owner; and
- (b) notify the authority mentioned in subsection 3, where notice has been given under that subsection. O. Reg. 398/67, s. 58.

INSPECTION

60.—(1) Except in the cases mentioned in section 59, where food premises are inspected, a copy of the inspection report shall be made to the medical officer of health.

(2) Where the inspection discloses that the food premises do not comply with this Regulation, the medical officer of health shall send a copy of the report to the operator. O. Reg. 398/67, s. 59.

REGULATION 707

under The Public Health Act

FROSTED-FOOD LOCKER PLANTS

INTERPRETATION

1. In this Regulation,

- (a) "chill room" means a refrigerated room in which food is chilled or aged before being sharp frozen and placed in a locker;
- (b) "Director" means the Director of the Environmental Sanitation Division of the Department of Health, or any other person designated by the Minister to act for the Director;
- (c) "food" means food for human consumption;
- (d) "locker" means an individual section or compartment for the storage of food in a locker plant;
- (e) "locker plant" means any premises in which space in individual lockers is rented or otherwise made available for the storage of frozen food and that has facilities for the preparation for storage of the food;
- (f) "operator" means a person who, by himself or his agent, owns or operates a locker plant;
- (g) "sharp freeze" means the rapid freezing of food in a room or compartment specially designed and equipped for rapid freezing. R.R.O. 1960, Reg. 507, s. 1.

LICENCE

2. No person shall maintain or operate a locker plant unless he is the holder of a licence therefor issued by the Minister under this Regulation in Form 1, upon application therefor in Form 2. R.R.O. 1960, Reg. 507, s. 2.

3.—(1) An application for a licence shall,

- (a) be in writing; and
- (b) be accompanied by the licence fee.

(2) The licence fee for a locker plant is \$4. R.R.O. 1960, Reg. 507, s. 3.

4. The Minister may issue a licence upon,

- (a) receipt of the prescribed application;

- (b) compliance with the provisions of this Regulation; and

- (c) receipt of the prescribed fee. R.R.O. 1960, Reg. 507, s. 4.

5. A licence,

- (a) applies only to the locker plant specified therein;
- (b) expires on the last day of the year in which it is issued; and
- (c) is transferable only with the approval of the Minister. R.R.O. 1960, Reg. 507, s. 5.

6. The Minister may, upon payment of the prescribed fee, renew any licence if the locker plant complies with this Regulation. R.R.O. 1960, Reg. 507, s. 6.

7. The Minister may suspend or revoke any licence if the locker plant does not comply with this Regulation. R.R.O. 1960, Reg. 507, s. 7.

INSPECTION

8. Every operator shall permit the Director or any other person designated by the Director to have access to and to inspect the locker plant at all reasonable times. R.R.O. 1960, Reg. 507, s. 8.

CONSTRUCTION

9. No person shall establish, erect, reconstruct, alter or enlarge a locker plant except in conformance with this Regulation. R.R.O. 1960, Reg. 507, s. 9.

10. A locker plant shall,

- (a) be located in a place free from any objectionable conditions, including smoke, fumes, dust, odours, flies and any conditions that might injuriously affect food and shall have ready ingress to and egress from every building;
- (b) be free from conditions that might injuriously affect the efficient operation of the plant or the products stored therein;
- (c) be constructed and finished in such manner that it can be maintained in a clean and satisfactory condition;

(d) be provided with refrigeration facilities adequate to maintain the temperatures prescribed by this Regulation; and

(e) be well lighted. R.R.O. 1960, Reg. 507, s. 10.

11. Every locker plant shall contain,

(a) a sharp freeze room or compartment;

(b) rooms and facilities for cutting, preparing and wrapping food;

(c) a chill room for chilling or cooling carcasses in plants where freshly killed carcasses are accepted;

(d) toilet rooms for employees;

(e) dressing rooms for employees; and

(f) such other accommodation as is prescribed by this Regulation. R.R.O. 1960, Reg. 507, s. 11.

12.—(1) The interiors of locker plants shall be of such construction that they can be maintained in a clean and sanitary condition.

(2) All walls and ceilings of rooms in which food is prepared or stored shall be finished with a material that is impervious to moisture and that can be readily cleaned. R.R.O. 1960, Reg. 507, s. 12.

13. The public entrance to the locker room shall not open directly to the outside of the building, but a waiting room or vestibule shall be provided. R.R.O. 1960, Reg. 507, s. 13.

EQUIPMENT

14. Every locker plant shall provide at least 200 lockers of standard size, containing not less than six cubic feet each or storage of at least 1,200 cubic feet. R.R.O. 1960, Reg. 507, s. 14.

15.—(1) The lockers shall be so constructed as to protect the contents from contamination, deterioration, injury and rodents.

(2) Lockers with perforated bottoms shall be provided with suitable liners or trays of unperforated material. R.R.O. 1960, Reg. 507, s. 15.

16. All chill rooms shall be equipped with sanitary hangers spaced so as to prevent the carcasses from coming into contact with each other or the walls of the rooms. R.R.O. 1960, Reg. 507, s. 16.

17. Sufficient wall shelves shall be provided so that no articles or containers are left on the floor. R.R.O. 1960, Reg. 507, s. 17.

18. Metallic drip pans shall be used where necessary to collect drip. R.R.O. 1960, Reg. 507, s. 18.

19.—(1) Every locker plant shall be equipped with at least one gas mask suitable for use in an atmosphere contaminated by such refrigerants as are obnoxious.

(2) The gas mask shall be kept in a readily accessible place. R.R.O. 1960, Reg. 507, s. 19.

20. Every locker plant shall have available a supply of water adequate for the efficient operation of the locker plant and of a quality that is satisfactory to the Director. R.R.O. 1960, Reg. 507, s. 20.

MAINTENANCE

21.—(1) The premises, surroundings and all rooms of locker plants shall at all times be maintained in a clean and sanitary condition.

(2) All equipment and utensils used for handling food shall be of such material and so constructed that they can be easily and thoroughly cleaned. R.R.O. 1960, Reg. 507, s. 21.

22. All equipment and utensils shall be cleaned before being put to use and at the end of each days use and shall be kept in a sanitary condition at all times. R.R.O. 1960, Reg. 507, s. 22.

23. Lockers shall be thoroughly cleaned before they are rented or otherwise made available to patrons. R.R.O. 1960, Reg. 507, s. 23.

24.—(1) All food shall be protected against filth, flies, dust, dirt, insects, vermin, rodents and any contamination or foreign substances.

(2) All openings to the outside of the locker plant shall be effectively screened from the 1st day of May to the 1st day of November and all openings between rooms shall be equipped with full-length, self-closing, tight-fitting doors. R.R.O. 1960, Reg. 507, s. 24.

25. No person shall,

(a) accept or store decomposed or spoiled food in any locker plant; or

(b) store food in such condition or in such manner as to cause injury to or deterioration of food in an adjacent locker. R.R.O. 1960, Reg. 507, s. 25.

26. Where the Director or any person designated by him or the medical officer of health finds any spoiled food in a locker plant, he may order the operator to have it removed. R.R.O. 1960, Reg. 507, s. 26.

27. An operator shall promptly remove from the premises and dispose of, in a sanitary manner, spoiled food or waste or offal incidental to the cleaning, storing or preparation of food for storage. R.R.O. 1960, Reg. 507, s. 27.

28. No person shall use tobacco in a room where food is processed or stored. R.R.O. 1960, Reg. 507, s. 28.

29. No person shall,

- (a) use as a living room or sleeping room; or
- (b) permit a dog or cat or any live animal to enter,

a room used for the preparation, processing, storage or display of food. R.R.O. 1960, Reg. 507, s. 29

30.—(1) All waste and drainage from the operation of any locker plant shall be disposed of in a sanitary manner.

(2) Refuse shall not be permitted to accumulate in the plant or on or near the premises except in properly covered containers or receptacles, which shall be emptied frequently. R.R.O. 1960, Reg. 507, s. 30.

ACCESS TO LOCKERS

31. The operator, medical officer of health or Director or any person designated by him may enter any locker for the purpose of inspection. R.R.O. 1960, Reg. 507, s. 31.

32. No patron of a locker plant shall,

- (a) enter a locker rented to another patron; or
- (b) handle any food belonging to another patron,

unless so authorized by the other patron. R.R.O. 1960, Reg. 507, s. 32.

FOOD OTHER THAN FOOD FOR HUMAN CONSUMPTION

33. No food or substances other than food for human consumption shall,

- (a) be stored in the chill room, sharp freeze room or compartment or locker room of any locker plant; or
- (b) be permitted to come in contact with the equipment used for processing food for human consumption. R.R.O. 1960, Reg. 507, s. 33.

PLANT PERSONNEL

34.—(1) Every person whose work brings him into personal contact with food during its manufacture, preparation, processing or storage shall,

- (a) be clean;
- (b) wear clean washable outer garments and a suitable cap or other head covering for his work only;
- (c) be free from and not a carrier of any disease that may be spread through the medium of food;
- (d) satisfy the medical officer of health of the municipality in which the locker plant is situated as to his freedom from the diseases mentioned in clause c; and
- (e) submit to such examinations and tests as the medical officer of health or the Minister requires.

(2) No person shall work in a locker plant who,

- (a) has any communicable skin disease or infected wound; or
- (b) resides in a house where communicable disease exists,

unless he has obtained a certificate from the medical officer of health. R.R.O. 1960, Reg. 507, s. 34.

35. Every person engaged in handling food shall avoid contact with any substance that might contaminate the food. R.R.O. 1960, Reg. 507, s. 35.

36.—(1) Every locker plant shall, for the use of the employees, be equipped with,

- (a) washing facilities that are conveniently located and provided with adequate soap and hot and cold water;
- (b) clean towels of such kind and quantity that not more than one employee will use the same towel;
- (c) adequate dressing rooms, separate for each sex, where employees may change and store their clothing in clean and sanitary conditions; and
- (d) as many toilet rooms, separate for each sex, as are necessary and that comply with subsection 2.

(2) Every toilet room shall be,

- (a) conveniently located without direct access to any room in which foods are prepared, processed, chilled, frozen or stored;

- (b) equipped with full-length doors;
- (c) properly equipped with sanitary facilities; and
- (d) provided with adequate ventilation and lighting.

(3) Where privies are used, they shall be separated from any other building and be fly-tight and equipped with self-closing doors.

(4) All toilet and washing facilities and the rooms in which they are placed shall be kept clean and sanitary and in good repair. R.R.O. 1960, Reg. 507, s. 36.

STORAGE

37. Before being placed in a locker for storage, all food shall be,

- (a) inspected by the operator;
- (b) wrapped or packed as prescribed by section 40;
- (c) identified by marking the wrapped package with the patron's locker number and date of wrapping;
- (d) processed as prescribed by section 40; and
- (e) sharp frozen. R.R.O. 1960, Reg. 507, s. 37.

38. Upon receiving any fresh carcasses of meat, every operator shall,

- (a) tag or stamp the carcass for identification;
- (b) cause the carcass to be suitably cleaned; and
- (c) place the carcass in the chill room for at least twenty-four hours and such further period of time as is required for the carcass to cool. R.R.O. 1960, Reg. 507, s. 38.

39. When applying marks directly to food, every operator shall use only non toxic ink or other harmless substance. R.R.O. 1960, Reg. 507, s. 39.

40.—(1) Before being frozen all meat shall be wrapped in water-resistant paper.

(2) Before being stored in any locker, all fish shall be eviscerated properly, frozen and wrapped or glazed and shall be so handled as to protect equipment and other stored food from fish flavours and odours.

(3) Before being frozen, all vegetables shall be cleaned, blanched and immediately thereafter cooled with cold water and packed in suitable containers for freezing.

(4) Before being frozen, all fruits shall be cleaned or washed and packed in suitable containers for freezing. R.R.O. 1960, Reg. 507, s. 40.

41. Liquids shall be placed in waterproof containers in order to protect other locker contents from damage in case of breakage or spoiling. R.R.O. 1960, Reg. 507, s. 41.

REFRIGERATION EQUIPMENT

42. The refrigeration equipment for a locker plant shall be provided with accurate and reliable controls for the automatic maintenance of uniform temperatures as required in the different refrigerated rooms, and shall be of adequate capacity to provide, under extreme conditions, the temperatures in the different rooms as prescribed in section 43. R.R.O. 1960, Reg. 507, s. 42.

43.—(1) The following temperatures shall be maintained in each of the rooms mentioned hereunder:

1. Chill room, $+32^{\circ}$ to 42° F.
2. Sharp freeze room or sharp freeze compartment,

(a) -10° F. or lower; or

(b) 0° F. or lower when rapidly moving forced air circulation is employed,

with a tolerance of 10° F. for a reasonable time after unfrozen food is placed therein for freezing.

3. Locker room, not above 0° F. with a tolerance of $+5^{\circ}$ F. for reasonably short periods.

(2) The temperatures prescribed by subsection 1 shall not be construed to prohibit such variations as are necessary during the short periods of time required for defrosting operations. R.R.O. 1960, Reg. 507, s. 43.

44.—(1) Every refrigerated room in a locker plant shall be provided with a direct reading thermometer of known accuracy.

(2) The sensitive bulbs of thermometers in refrigerated rooms shall be placed not less than five feet from any door or cooling unit, and not less than five feet above floor level and in such location that the average temperature of the room will be registered.

(3) Every locker room in a locker plant shall be provided with a self-recording thermometer.

(4) The indicating or recording mechanism shall be placed where it can be conveniently observed by the patrons outside the locker room. R.R.O. 1960, Reg. 507, s. 44.

45. The charts or temperature records of thermometers shall be changed each week, properly dated, signed by the operator and shall be preserved at the plant for a period of at least one year, unless they are requested by the Director within that time. R.R.O. 1960, Reg. 507, s. 45.

46. The self-recording thermometer shall meet the following specifications:

1. The scale range of the instrument shall be at least from -10° F. to $+40^{\circ}$ F.
2. The temperature represented by the smallest scale division on the chart shall be 2° F. or less.
3. The accuracy of the thermometer shall be within 1° plus or minus at 0° F.
4. The pen movement over 5° F. must not be less than one-eighth of an inch.
5. The pen-arm device shall be designed to give a line not to exceed the space representing 1° F. on the chart.
6. The chart shall make one complete revolution in seven days, shall be graduated hourly and daily and shall be not less than eight inches in diameter.
7. The lowest temperature reading shall be recorded on the outer edge of the chart.
8. The chart rotating device shall be fitted with perforating pins preventing rotation of the chart except by means of the clock in the case. R.R.O. 1960, Reg. 507, s. 46.

47. The case for the thermometer shall be locked when the thermometer is in use. R.R.O. 1960, Reg. 507, s. 47.

- 48.—(1) Every operator shall keep an accurate record of,
- (a) the name and address of each patron renting a locker or storing food;
 - (b) the period for which each locker is rented, the charge therefor and the payments made thereon; and
 - (c) the name of every patron who is engaged in the selling of food.
- (2) The records mentioned in subsection 1 shall be open for inspection by the Director or any person designated by him. R.R.O. 1960, Reg. 507, s. 48.

49. Every patron who is engaged in the sale of food shall declare this fact to the operator. R.R.O. 1960, Reg. 507, s. 49.

50. Every locker room shall be equipped with a noise instrument, placed in a satisfactory location for operation from within the locker room. R.R.O. 1960, Reg. 507, s. 50.

Form 1

The Public Health Act

LICENCE FOR A FROSTED-FOOD
LOCKER PLANT

This certifies that.....
of.....
is licensed to maintain and operate a frosted-food
locker plant at.....
for the year ending the 31st day of December, 19...
under *The Public Health Act* and the regulations in
respect of premises for the public cold storage of
food.

Dated at Toronto, thisday of....., 19...
.....
Minister of Health.
R.R.O. 1960, Reg. 507, Form 1.

Form 2

The Public Health Act

APPLICATION FOR LICENCE FOR
FROSTED-FOOD LOCKER PLANT

.....
(name of applicant)
make(s) application to the Minister for a licence to
maintain and operate a frosted-food locker plant at
.....
under *The Public Health Act* and the regulations
thereunder in respect of premises for the public
cold storage of food for the year ending the 31st
day of December, 19.....
Dated at....., Ontario, this.....
day of....., 19.....
.....

REGULATION 708

under The Public Health Act

GRANTS

POLIOMYELITIS

1. Public hospitals approved under *The Public Hospitals Act* that are not eligible for a maintenance grant under Regulation 728 of Revised Regulations of Ontario, 1970 are designated as institutions to which the Minister may make contributions under section 61 of the Act. R.R.O. 1960, Reg. 508, s. 16.

2. The contribution is the amount that is payable to a hospital under section 1 of Regulation 728 of Revised Regulations of Ontario, 1970 and is payable for each visit for physiotherapy treatment for poliomyelitis or impairment of muscular function as a result of poliomyelitis of a person who is not a patient as defined in *The Public Hospitals Act*. R.R.O. 1960, Reg. 508, s. 17.

REGULATION 709

under The Public Health Act

GRANTS TO BOARDS OF HEALTH

1. In this Regulation,

(a) "expenses of the local board" means accounts for services performed, materials and supplies supplied and expenditures incurred for the purposes mentioned in section 20 of the Act;

(b) "local board" means a local board of health of a municipality. O. Reg. 405/67, s. 1.

2. For the purpose of section 21 of the Act, the Minister may pay a grant to a local board in an amount equal to 25 per cent of the expenses of the local board. O. Reg. 405/67, s. 2 (1).

3.—(1) Every local board shall prepare annually a budget estimate of its expenses and shall submit the budget estimate to the Minister not later than the 1st day of March in each year.

(2) The local board may submit amendments to the budget estimate referred to in subsection 1. O. Reg. 405/67, s. 3.

4. Not later than the 1st day of February in each year a local board receiving a grant under section 2 shall submit to the Minister an annual financial statement for the preceding year. O. Reg. 405/67, s. 4.

5.—(1) The accounts of the local board shall be audited at the end of each calendar year by the municipal auditor authorized by law to audit the accounts.

(2) A copy of the auditor's report shall be forwarded to the Minister and the Minister may withhold the grants mentioned in section 2 pending receipt of the auditor's report. O. Reg. 405/67, s. 6.

6. Notwithstanding section 2, a grant to a local board may be reduced by,

(a) 40 per cent where the office of Medical Officer of Health remains vacant for twelve months; or

(b) 50 per cent where the office of Medical Officer of Health remains vacant for twenty-four months. O. Reg. 405/67, s. 7.

REGULATION 710

under The Public Health Act

HEALTH UNITS—AREAS THAT MAY BE INCLUDED IN HEALTH UNITS

1. The Health Unit named in the heading of a Schedule may include the area in territorial districts described in the Schedule. R.R.O. 1960, Reg. 509, s. 1.

2. The townships referred to in the schedules are geographic townships. R.R.O. 1960, Reg. 509, s. 2.

Schedule 1

THUNDER BAY DISTRICT HEALTH UNIT

1. The following townships in the Territorial District of Thunder Bay:

1. Devon.
2. Forbes.
3. Fraleigh.
4. Goldie.
5. Horne.
6. Lybster.
7. Marks.
8. Pearson.
9. Scoble.
10. Strange.

2. That part of the Territorial District of Thunder Bay described as follows:

Beginning at the southwest corner of the Township of Devon; thence northerly along the westerly boundary of the townships of Devon and Fraleigh to the northwest corner of the Township of Fraleigh; thence westerly along the southerly boundary of the Township of Strange to the southwest corner thereof; thence northerly along the westerly boundary of the Township of Strange to the northwest corner thereof; thence easterly along the northerly boundary of the Township of Strange to the southwest corner of the Township of Marks; thence northerly along the westerly boundary of the Township of Marks to the northwest corner thereof; thence easterly along the northerly boundary of the Township of Marks to the

southwest corner of the Township of Conmee; thence northerly along the westerly boundary of the Township of Conmee to the southeast corner of the Township of Horne; thence westerly along the southerly boundary of the Township of Horne to the southwest corner thereof; thence northerly along the westerly boundary of the townships of Horne and Goldie to the northwest corner of the Township of Goldie; thence easterly along the northerly boundary of the townships of Goldie and Forbes to the southeast corner of the Grand Trunk Railway land grant Block No. 1; thence northerly along the easterly boundary of the said Block No. 1 to the northerly boundary of the Township of Fowler; thence easterly along the northerly boundary of the Township of Fowler to its intersection with the southerly production of the easterly limit of the Township of Parry; thence northerly along the said production, the easterly limit of the Township of Parry and the easterly limit of the Grand Trunk Railway land grant Block No. 3 to the northeast corner thereof; thence westerly along the northerly boundary of said Block No. 3 and the Township of Robson to the southeast corner of the Township of Gibbard; thence northerly along the easterly boundary of the Township of Gibbard and Grand Trunk Railway land grant Block No. 4 to the northeast corner of said Block No. 4; thence westerly along the northerly boundary of the said Block No. 4 to its intersection with the southerly production of the easterly limit of the Grand Trunk Railway land grant Block No. 5; thence northerly along the said production and the east limit of the said Block No. 5 to the northeast corner thereof; thence westerly along the northerly boundary of said Block No. 5 to the northwest corner thereof; thence southerly along the westerly boundary of said Block No. 5 to its intersection with the northerly boundary of the Township of Meinzingen; thence westerly along the northerly boundary of the Township of Meinzingen to the northwest corner thereof; thence southerly along the westerly boundary of the townships of Meinzingen and Stedman to the southwest corner of the Township of Stedman; thence easterly along the southerly boundary of the Township of Stedman to the northwest corner of the Township of Inwood; thence southerly along the westerly boundary of the Township of Inwood to the southwest corner thereof; thence easterly along the southerly boundary of the townships of Inwood and Joynt to the southeast corner of the Township of Joynt; thence southerly along the westerly boundary of the Township of Goodfellow and the Grand Trunk Railway land grant Block No. 2 and its production southerly to its intersection with the production easterly of the northerly boundary of the Township of Ames; thence westerly along the said production and the northerly boundary of the Township of Ames to the northwest corner thereof; thence southerly along the westerly bound-

ary of the Township of Ames to its intersection with the northerly boundary of the Township of Moss; thence westerly along the northerly boundary of the Township of Moss to the northwest corner thereof; thence southerly along the westerly boundary of the Township of Moss to the southwest corner thereof; thence easterly along the southerly boundary of the Township of Moss, its production easterly and the southerly boundary of the Township of Begin to the southwest corner of the Township of Lamport; thence southerly along the production southerly of the westerly boundary of the Township of Lamport to its intersection with the United States of America border; thence easterly along the United States of America border to the place of beginning.

3. That part of the Territorial District of Thunder Bay composed of the Fort William Indian Reserve. R.R.O. 1960, Reg. 509, Sched. 1; O. Reg. 157/65, s. 1.

Schedule 2

THE NORTHWESTERN HEALTH UNIT

1. The following townships in the Territorial District of Kenora:

- | | |
|-----------------|-----------------|
| 1. Aubrey. | 33. Hartman. |
| 2. Avery. | 34. Haycock. |
| | 35. Heyson. |
| 3. Baird. | 36. Hodgson. |
| 4. Ball. | 37. Hyndman. |
| 5. Balmer. | |
| 6. Bateman. | 38. Isley. |
| 7. Boys. | |
| 8. Bradshaw. | 39. Jackman. |
| 9. Bridges. | |
| 10. Britton. | 40. Killala. |
| 11. Broderick. | 41. Kirkup. |
| 12. Brownridge. | |
| 13. Buller. | 42. Ladysmith. |
| 14. Byshe. | 43. Laval. |
| | 44. LeMay. |
| 15. Code. | |
| 16. Coyle. | 45. MacFie. |
| | 46. MacNicol. |
| 17. Desmond. | 47. MacQuarrie. |
| 18. Devonshire. | 48. Mafeking. |
| 19. Docker. | 49. Malachi. |
| 20. Dome. | 50. Manross. |
| 21. Drope. | 51. McAres. |
| | 52. McDonough. |
| 22. Echo. | 53. McGeorge. |
| 23. Eton. | 54. McMeekin. |
| 24. Ewart. | 55. Melgund. |
| | 56. Mulcahy. |
| 25. Fairlie. | 57. Mutrie. |
| 26. Forgie. | |
| | 58. Noyon. |
| 27. Gidley. | |
| 28. Glass. | 59. Osaquan. |
| 29. Godson. | |
| 30. Gour. | 60. Pelican. |
| 31. Graves. | 61. Pellatt. |
| 32. Gundy. | 62. Pettypiece. |

- | | |
|-----------------|-----------------|
| 63. Phillips. | 78. Todd. |
| 64. Pickerel. | 79. Tustin. |
| | 80. Tweedsmuir. |
| 65. Ranger. | |
| 66. Redditt. | 81. Umbach. |
| 67. Redvers. | |
| 68. Revell. | 82. Van Horne. |
| 69. Rice. | |
| 70. Rowell. | 83. Wabigoon. |
| 71. Rudd. | 84. Wainwright. |
| 72. Rugby. | 85. Wauchope. |
| | 86. Webb. |
| 73. Satterly. | 87. Willans. |
| 74. Shaver. | 88. Willingdon. |
| 75. Smellie. | 89. Work. |
| 76. Southworth. | |
| 77. Stokes. | 90. Zealand. |

2. The following townships in the Territorial District of Rainy River:

1. Claxton.
2. Croome.
3. Dance.
4. Dewart.
5. Fleming.
6. Halkirk.
7. Mathieu.
8. McLarty.
9. Menary.
10. Miscampbell.
11. Nelles.
12. Pratt.
13. Rowe.
14. Senn.
15. Sifton.
16. Sutherland.
17. Watten.

3. That part of the territorial districts of Kenora and Rainy River described as follows:

Beginning at the point where the boundary between Ontario and Manitoba is intersected by the 9th Base Line; thence east along the 9th Base Line to the southwest angle of the geographic Township of Graves in the Territorial District of Kenora; thence northerly along the westerly limits of the geographic

Township of Graves to the northwest angle of the geographic Township of Graves; thence easterly along the northerly limits of the geographic townships of Graves, McDonough, Bateman and Shaver in the Territorial District of Kenora to the northeast angle of the geographic Township of Shaver; thence southerly along the easterly limits of the geographic Township of Shaver to the southeast angle of the geographic Township of Shaver; thence easterly along the 9th Base Line to a point where it is intersected by the 6th meridian; thence southerly along the 6th meridian to the northwest angle of the geographic Township of Rowell in the Territorial District of Kenora; thence easterly along the northerly limits of the geographic Township of Rowell to the northeast angle of the geographic Township of Rowell; thence southerly along the easterly limits of the geographic Township of Rowell to the southeast angle of the geographic Township of Rowell; thence easterly along the northerly limits of the geographic townships of Stokes, Drope, Webb, Echo and Pickerel in the Territorial District of Kenora and the easterly production of the northerly limits of the said geographic townships of Stokes, Drope, Webb, Echo and Pickerel to the point of intersection with the 4th meridian; thence southerly along the 4th meridian to a point where it is intersected by the 4th Base Line; thence westerly along the 4th Base Line to a point where it is intersected by the northerly production of the easterly limit of the geographic townships of Senn and McLarty in the Territorial District of Rainy River; thence southerly along the said northerly production and the easterly limits of the said geographic townships of Senn and McLarty to the southeast angle of the geographic Township of Senn; thence westerly along the southerly limits of the geographic townships of Senn, Menary and Rowe to the southwest angle of the geographic Township of Rowe; thence northerly along the westerly limit of the geographic townships of Rowe and Croome in the Territorial District of Rainy River and its production northerly to its intersection with the 4th Base Line in the Territorial District of Kenora; thence westerly along the 4th Base Line to its intersection with the boundary between Ontario and the State of Minnesota, one of the United States of America; thence westerly along the boundary between Ontario and Minnesota to its intersection with the Ontario and Manitoba boundary; thence northerly along the Ontario and Manitoba boundary to the place of beginning; but excepting therefrom,

- (a) the Town of Kenora;
- (b) the Town of Keewatin;
- (c) the Town of Dryden;
- (d) the Township of Ignace;
- (e) the Township of Jaffray and Melick;
- (f) the Township of Machin;
- (g) the Township of Red Lake;

(h) the improvement districts of Balmertown and Sioux Narrows; and

(i) all Indian Reserves.

4. That part of the Territorial District of Kenora described as follows:

Beginning at the intersection of the 4th Meridian with the easterly production of the north boundary of the Township of Pickerel, in the Territorial District of Kenora; thence northerly along the said 4th Meridian to the intersection with the easterly production of the north limit of Block No. 10; thence westerly along that production and the north limit of said Block No. 10 and the westerly production of the north limit of said Block No. 10 to the intersection with the 6th Meridian; thence southerly along the said 6th Meridian to the northwest corner of the Township of Rowell in the Territorial District of Kenora; thence easterly along the north boundary of the said Township of Rowell to the northeast corner thereof; thence southerly along the east boundary of the said Township of Rowell to the northwest corner of the Township of Stokes; thence easterly along the north boundary of the townships of Stokes, Drope, Webb, Echo, Pickerel and the easterly production of the north limit of the Township of Pickerel in the Territorial District of Kenora to the point of beginning; but excepting therefrom the Town of Sioux Lookout. O. Reg. 216/61, s. 1; O. Reg. 58/62, s. 1; O. Reg. 23/64, s. 1; O. Reg. 72/67, s. 1.

Schedule 3

THE MUSKOKA-PARRY SOUND DISTRICT HEALTH UNIT

1. The following townships in the Territorial District of Muskoka:

- 1. Baxter.
- 2. Gibson.
- 3. Sinclair.

2. The following townships in the Territorial District of Parry Sound:

- 1. Bethune.
- 2. Brown.
- 3. Burton.
- 4. Conger.
- 5. Cowper.
- 6. Croft.
- 7. East Burpee.

8. Ferguson.
9. Ferrie.
10. Harrison.
11. Henvey.
12. McKenzie.
13. Monteith.
14. Proudfoot.
15. Shawanaga.
16. Spence.
17. Wallbridge.

R.R.O. 1960, Reg. 509, Sched. 3;
O. Reg. 141/69, s. 1;
O. Reg. 70/70, s. 1.

Schedule 4

NORTH BAY AND DISTRICT HEALTH UNIT

The following townships in the Territorial District of Parry Sound:

1. Gurd.
2. Hardy.
3. Laurier.
4. Lount.
5. Mills.
6. McConkey.
7. Patterson.
8. Pringle.
9. Wilson.

O. Reg. 141/69, s. 2.

Schedule 5

THE PORCUPINE HEALTH UNIT

1. The following townships:

- | | |
|--------------|---------------|
| 1. Aurora. | 7. Cody. |
| 2. Barker. | 8. Colquhoun. |
| 3. Bristol. | |
| 4. Brower. | 9. Deloro. |
| 5. Calder. | 10. Devitt. |
| 6. Casgrain. | 11. Eilber. |

- | | |
|---------------|-----------------|
| 12. Foleyet. | 29. McCrea. |
| 13. Fournier. | 30. Munro. |
| 14. Fox. | |
| | 31. Nansen. |
| 15. German. | 32. Newmarket. |
| 16. Godfrey. | |
| 17. Guibord. | 33. O'Brien. |
| | 34. Ogden. |
| 18. Haggart. | 35. Owens. |
| 19. Hanlan. | |
| 20. Hanna. | 36. Pyne. |
| | |
| 21. Idington. | 37. St. John. |
| | 38. Shaw. |
| 22. Kendall. | 39. Shetland. |
| 23. Kennedy. | 40. Staunton. |
| | 41. Stoddart. |
| 24. Lamarche. | |
| 25. Lowther. | 42. Teefy. |
| | 43. Teetzel. |
| 26. Macklem. | |
| 27. Matheson. | 44. Way. |
| 28. McCowan. | 45. Williamson. |

2. The part of the Township of Blount described as follows:

Beginning at the northeasterly corner of the Township; thence west astronomically along the northerly boundary of the Township to the northwesterly corner of the Township; thence south astronomically along the westerly boundary of the Township to the high-water mark of the Abitibi River; thence southeasterly along the high-water mark of the Abitibi River against the stream to the intersection of that stream with the production easterly of the line between concessions 1 and 2 in the Township; thence east astronomically along the line between concessions 1 and 2 of the Township and its productions, to the easterly boundary of the Township; thence north astronomically along the easterly boundary of the Township to the place of beginning.

3. The part of the Township of Leitch described as follows:

Beginning at the southwesterly corner of the Township; thence north astronomically along the westerly boundary of the Township to the high-water mark of the Frederick House River; thence southeasterly along the high-water mark of the Frederick House River against the stream to its intersection with the southerly boundary of the Township; thence west astronomically along the southerly boundary of the Township to the place of beginning.

4. The part of the Township of Clute described as follows:

Beginning at the southwesterly corner of the Township; thence north astronomically along the westerly boundary of the Township to the northwest-

erly corner of the Township; thence east astronomically along the northerly boundary of the Township to the intersection of that boundary with the high-water mark of Frederick House River; thence southerly along the high-water mark of the Frederick House River against the stream to the intersection of that mark with the southerly boundary of the Township; thence west astronomically along the southerly boundary of the Township to the place of beginning.

5. The following townships in the Territorial District of Cochrane:

1. Evelyn.
2. Gowan.
3. Hoyle.
4. Jamieson.
5. Kidd.
6. Mark.
7. Murphy.
8. Robb.

R.R.O. 1960, Reg. 509, Sched. 4;
O. Reg. 11/68, s. 1;
O. Reg. 327/70, s. 1.

Schedule 6

THUNDER BAY DISTRICT HEALTH UNIT

The following townships in the Territorial District of Thunder Bay:

1. Booth.
2. Gorham.
3. Lyon.
4. Purdom.
5. Sibley.
6. Stirling.
7. Tp. 85, Tp. 86, Tp. 87, Tp. 88, Tp. 89, Tp. 90, Tp. 91 and Tp. 92.
8. Ware.

R.R.O. 1960, Reg. 509, Sched. 5;
O. Reg. 34/65, s. 1.

Schedule 7

RENFREW COUNTY HEALTH UNIT

The following townships in the Territorial District of Nipissing:

1. Dickens.
2. Lyle.
3. Murchison.
4. Sabine.

O. Reg. 141/69, s. 2.

Schedule 8

SUDBURY AND DISTRICT HEALTH UNIT

1. The following townships in the Territorial District of Sudbury:

- | | |
|----------------|------------------|
| 1. Abbey. | 39. Brebeuf. |
| 2. Abney. | 40. Broder. |
| 3. Acadia. | 41. Browning. |
| 4. Acheson. | 42. Brunswick. |
| 5. Addison. | 43. Brutus. |
| 6. Admiral. | 44. Buckland. |
| 7. Afton. | 45. Burwash. |
| 8. Alcona. | 46. Busby. |
| 9. Alcorn. | |
| 10. Allen. | 47. Cabot. |

46. Tp. 31, Range 20.

47. Tp. 31, Range 21.

48. Tp. 31, Range 22. O. Reg. 368/70, s. 1.

REGULATION 711

under The Public Health Act

HEALTH UNITS—GENERAL

1. In this Regulation,

- (a) "local board" means the local board of health of a health unit;
- (b) "municipal proportion" means the proportion of the reasonable expenses, not including expenses incurred in the acquisition of real estate, that are,
 - (i) incurred by a health unit,
 - (ii) required to be borne and paid by a municipality under subsection 7 of section 36 of the Act, and
 - (iii) approved by the Minister;
- (c) "population" in respect of a municipality means the population as determined by the last preceding municipal enumeration by the assessor;
- (d) "unorganized area" means the unorganized area included in a health unit. O. Reg. 235/65, s. 1; O. Reg. 224/68, s. 1.

CONSTITUTION OF LOCAL BOARDS

2. The constitution of the local board of a health unit named in the heading of a Schedule shall be that set out in the Schedule. O. Reg. 235/65, s. 1.

3.—(1) In this section, "provincial member" means a member of a local board who is appointed by the Lieutenant Governor in Council.

(2) A provincial member shall hold office for a term of three years.

(3) Where the office of a provincial member becomes vacant before the end of the term a provincial member may be appointed for the remainder of the unexpired term.

(4) A provincial member is eligible for reappointment at the expiration of his term of office. O. Reg. 235/65, s. 1.

4. The local board shall appoint a person who is not a member of the local board as secretary-treasurer. O. Reg. 235/65, s. 1.

5. The local board shall,

- (a) hold at least six meetings in each year at the times and places fixed by a resolution of the local board;
- (b) give or cause to be given to the medical officer of health notice of such meetings; and
- (c) permit the medical officer of health to attend such meetings. O. Reg. 235/65, s. 1.

6. The local board shall fix the remuneration of the secretary-treasurer. O. Reg. 235/65, s. 1.

MEDICAL OFFICER OF HEALTH

7. The local board, with the approval of the Minister, shall appoint a legally qualified medical practitioner who holds a diploma in public health granted by the University of Toronto or its equivalent as determined by the Minister to be a full-time medical officer of health for the health unit. O. Reg. 235/61, s. 1.

8.—(1) The medical officer of health shall hold office until he has reached the age of sixty-five years or resigns or is dismissed as provided in subsection 3.

(2) Notwithstanding subsection 1, a local board may, with the approval of the Minister, reappoint a medical officer of health after he has reached the age of sixty-five years for a period not exceeding one year at a time until he reaches the age of seventy years.

(3) The medical officer of health shall not be dismissed from office, except by a resolution of a majority of the members of the local board and except with the consent of the Minister. O. Reg. 235/61, s. 1.

9.—(1) Where a vacancy occurs in the office of the medical officer of health, the local board shall forthwith appoint a legally qualified medical practitioner as acting medical officer of health for a period of three months or until a medical officer of health is appointed, whichever first occurs.

(2) Where a local board is unable to acquire the services of a medical officer of health within three months of any acting appointment, the local board shall appoint, with the approval of the Minister, an acting medical officer of health for a further period of three months and shall, with such ap-

proval, continue to so appoint an acting medical officer of health for three-month periods until a medical officer of health is appointed.

(3) Notwithstanding the provisions of section 11 or 17, a grant to a health unit may be reduced by,

- (a) 40 per cent where the office of medical officer of health remains vacant for twelve months; or
- (b) 50 per cent where the office of medical officer of health remains vacant for twenty-four months.

(4) Where the medical officer of health is ill or absent from a health unit for a protracted period, the local board shall appoint, with the approval of the Minister, a legally qualified medical practitioner to be acting medical officer of health during the illness or absence, and the acting medical officer of health has, during the illness or absence of the medical officer of health, all the powers and shall perform all the duties of the medical officer of health. O. Reg. 235/61, s. 1.

10. The medical officer of health of a health unit shall, within its jurisdiction, exercise the same powers and perform the same duties as a medical officer of health appointed under the Act. O. Reg. 235/61, s. 1.

11.—(1) Subject to subsection 2, the amount of the grant that may be paid by the Minister under subsection 9 of section 36 of the Act shall be 50 per cent of the municipal proportion of each municipality forming part of a health unit.

(2) The district health unit grant shall be 75 per cent of the municipal proportion of each municipality forming part of the health unit. O. Reg. 406/67, s. 2 (1, 3).

12.—(1) In this section, “district health unit” means a health unit that is set out as an item of column 1 of Appendix A and is comprised of the municipalities set opposite thereto in column 2 of the said Appendix.

(2) Where a health unit is comprised of the municipalities set out in column 2 of Appendix A, the Minister may pay a district health unit grant to that health unit under subsection 9 of section 36 of the Act. O. Reg. 406/67, s. 2.

13.—(1) Every local board shall prepare annually a budget estimate of its expenses and shall submit the budget estimate to the Minister not later than the 1st day of March in each year.

(2) The local board may submit amendments to the budget estimate referred to in subsection 1. O. Reg. 406/67, s. 2.

14. Not later than the 1st day of February in each year, a local board shall submit to the Minister a financial statement for the preceding year. O. Reg. 406/67, s. 2.

15.—(1) The accounts of the health unit shall be audited at the end of each calendar year by the municipal auditor authorized by law to audit the accounts.

(2) A copy of the auditor’s report shall be forwarded to the Minister. O. Reg. 406/67, s. 2.

16. The Minister may withhold all or a part of the grants mentioned in sections 11, 12 or 17, as the case may be, until he has approved the by-law mentioned in subsection 1 of section 36 of the Act or the agreements mentioned in subsection 2 of section 36 of the Act. O. Reg. 406/67, s. 2.

17. Where a health unit includes an unorganized area, in addition to the grant payable under section 11, the Minister may pay an unorganized area health grant to the health unit. O. Reg. 235/65, s. 1.

18. The grants payable under section 11 or 17 are subject to the reductions permitted by subsection 3 of section 9. O. Reg. 235/65, s. 1, *amended*.

19. For the purpose of subsection 2 of section 36 of the Act, two or more municipalities having a total population of at least 35,000 may enter into an agreement in writing for the formation of a health unit. O. Reg. 235/65, s. 1.

Schedule 31

SIMCOE COUNTY DISTRICT HEALTH UNIT

1. The Board of Health of the Simcoe County District Health Unit shall consist of nine members as follows:

- i. Two members to be appointed by the Lieutenant Governor in Council.
 - ii. Two members to be appointed by the Municipal Council of the City of Barrie.
 - iii. Five members to be appointed by the Municipal Council of the County of Simcoe.
2. A member appointed by a municipal council shall hold office during the pleasure of the municipal council that appointed him. O. Reg. 99/68, s. 5.

Schedule 32

SUDBURY AND DISTRICT HEALTH UNIT

1. The Board of Health of the Sudbury and District Health Unit shall consist of thirteen members as follows:

- i. Two members to be appointed by the Lieutenant Governor in Council.
- ii. One member to be appointed by the municipal councils of the towns of Gore Bay and Little Current, and the municipal councils of the municipal townships of Assiginack, Barrie Island, Billings, Burpee, Carnarvon, Cockburn Island, Gordon, Howland, Rutherford and George Island, Sandfield and Tehkummah.
- iii. Three members to be appointed by the Municipal Council of the City of Sudbury.
- iv. One member to be appointed by the Municipal Council of the Town of Espanola, the Municipal Council of the Town of Webbwood, the Municipal Council of the Town of Massey, the municipal council of the township of Salter, May and Harrow, and the municipal councils of the townships of Baldwin, Nairn and Hallam.
- v. One member to be appointed by the municipal councils of the townships of Drury, Denison, Graham and Waters, and the municipal councils of the towns of Lively and Copper Cliff.
- vi. One member to be appointed by the municipal councils of the townships of Rayside, Balfour, Dowling, Chapleau, the Municipal Council of the Town of Levack and the Trustees of the Corporation of the Improvement District of Onaping.
- vii. One member to be appointed by the municipal councils of the Town of Capreol and the Township of Valley East.
- viii. One member to be appointed by the municipal councils of the townships of

Falconbridge and Neelon and Garson, and the Municipal Council of the Town of Coniston.

- ix. One member to be appointed by the Municipal Council of the Township of Hagar and the municipal councils of the townships of Casimir, Jennings, and Appleby, Ratter and Dunnet, and Cosby, Mason, and Martland.
- x. One member to be appointed by the Council of the Corporation of the Township of Elliot Lake.

2. A member appointed by a municipal council shall hold office during the pleasure of the municipal council that appointed him. O. Reg. 99/68, s. 7; O. Reg. 223/69, s. 1.

Schedule 33

TIMISKAMING HEALTH UNIT

1. The Board of Health of the Timiskaming Health Unit shall consist of fourteen members as follows:

- i. Two members to be appointed by the Lieutenant Governor in Council.
- ii. One member to be appointed by the Municipal Council of the Town of Cobalt, the Municipal Council of the Town of Latchford and the Trustees of The Corporation of the Improvement District of Temagami.
- iii. One member to be appointed by the Municipal Council of the Town of Haileybury.
- iv. One member to be appointed by the Municipal Council of the Town of New Liskeard.
- v. One member to be appointed by the Municipal Council of the Municipal Township of Larder Lake.
- vi. One member to be appointed by the municipal councils of the municipal townships of Brethour, Casey, Dymond, Harley and Harris, and the Municipal Council of the Village of Thornloe.
- vii. One member to be appointed by the municipal councils of the municipal townships of Armstrong, Hudson, James and Kerns.
- viii. Two members to be appointed by the Municipal Council of the Municipal Township of Teck.

ix. One member to be appointed by the Municipal Council of the Township of McGarry.

x. One member to be appointed by the Trustees of the Corporation of the Improvement District of Kingham, the Trustees of the Corporation of the Improvement District of Gauthier and the Municipal Council of the Municipal Township of Playfair.

xi. One member to be appointed by the municipal councils of the municipal townships of Bucke and Coleman.

xii. One member to be appointed by the Municipal Council of the Town of Charlton, the Municipal Council of the Town of Englehart, the Municipal Council of the Township of Chamberlain, the Municipal Council of the Township of Evanturel, the Municipal Council of the Township of Hilliard and the Municipal Council of the Township of Dack.

2. A member appointed by a municipal council shall hold office during the pleasure of the municipal council that appointed him.

3. A member appointed by the trustees of an improvement district shall hold office during the pleasure of the trustees who appointed him. O. Reg. 305/63, s. 1; O. Reg. 252/67, s. 1; O. Reg. 99/68, s. 8; O. Reg. 235/68, s. 1.

Schedule 34

WATERLOO COUNTY HEALTH UNIT

1. The Board of Health of the Waterloo County Health Unit shall consist of ten members as follows:

i. Three members to be appointed by the Lieutenant Governor in Council.

ii. Two members to be appointed by the Municipal Council of the County of Waterloo.

iii. One member to be appointed by the Municipal Council of the City of Waterloo.

iv. One member to be appointed by the Municipal Council of the City of Galt.

v. Three members to be appointed by the Municipal Council of the City of Kitchener.

2. A member appointed by a municipal council shall hold office during the pleasure of the municipal council that appointed him. O. Reg. 155/68, s. 3.

Schedule 35

WELLINGTON-DUFFERIN-GUELPH HEALTH UNIT

1. The Board of Health of the Wellington-Dufferin-Guelph Health Unit shall consist of eleven members as follows:

i. Three members to be appointed by the Lieutenant Governor in Council.

ii. Three members to be appointed by the Municipal Council of the County of Wellington.

iii. Two members to be appointed by the Municipal Council of the County of Dufferin.

iv. Three members to be appointed by the Municipal Council of the City of Guelph.

2. A member appointed by a municipal council shall hold office during the pleasure of the municipal council that appointed him. O. Reg. 99/68, s. 9.

Schedule 36

HAMILTON-WENTWORTH HEALTH UNIT

1. The Board of Health of the Hamilton-Wentworth Health Unit shall consist of nine members as follows:

i. Two members to be appointed by the Lieutenant Governor in Council.

ii. Four members to be appointed annually by the Municipal Council of the City of Hamilton.

iii. Three members to be appointed annually by the Municipal Council of the County of Wentworth.

2. A member appointed by a municipal council shall hold office during the pleasure of the municipal council that appointed him. O. Reg. 234/68, s. 1.

Schedule 37

METRO WINDSOR-ESSEX COUNTY HEALTH UNIT

1. The Board of Health of the Metro Windsor-Essex County Health Unit shall consist of ten members as follows:

i. Two members to be appointed by the Lieutenant Governor in Council.

ii. Four members to be appointed by the Municipal Council of the City of Windsor.

- iii. Four members to be appointed by the Municipal Council of the County of Essex, one of whom shall represent the separated Township of Pelee.

2. A member appointed by a municipal council shall hold office during the pleasure of the municipal council that appointed him. O. Reg. 99/68, s. 10.

Schedule 38

YORK COUNTY DISTRICT HEALTH UNIT

1. The Board of Health of the York County District Health Unit shall consist of five members as follows:

- i. One member to be appointed by the Lieutenant Governor in Council.
- ii. Four members to be appointed by the Council of the County of York.

2. A member appointed by a council shall hold office during the pleasure of the council that appointed him. Repl., O. Reg. 235/68, s. 2; O. Reg. 156/70, s. 1; O. Reg. 286/70, s. 4.

Schedule 39

HALIBURTON, KAWARTHA, PINE RIDGE DISTRICT HEALTH UNIT

1. The Board of Health of the Haliburton, Kawartha, Pine Ridge Health Unit shall consist of eight members as follows:

- i. Two members to be appointed by the Lieutenant Governor in Council.
- ii. Three members to be appointed by the Municipal Council of the united counties of Northumberland and Durham.
- iii. Two members to be appointed by the Municipal Council of the County of Victoria.
- iv. One member to be appointed by the Municipal Council of the Provincial County of Haliburton.

2. A member appointed by a municipal council shall hold office during the pleasure of the municipal council that appointed him. O. Reg. 223/69, s. 2.

REGULATION 712

under The Public Health Act

INDIGENT PATIENTS

1. In this Regulation,

- (a) "Director" means the Director of the Division of Epidemiology of the Department;
- (b) "patient" means an indigent person who applies for a free supply of insulin. O. Reg. 283/64, s. 1.

2.—(1) An application for the supply free of charge of insulin to indigent persons shall be in Form 1.

(2) Part I of Form 1 shall be completed by,

- (a) the patient;
- (b) an adult residing with a patient who because of mental or physical disability is unable to complete Part I; or
- (c) the parent or guardian, where the patient is under sixteen years of age.

(3) Part II of Form 1 shall be completed by a legally qualified medical practitioner.

(4) Part III of Form 1 shall be completed,

- (a) by the clerk of the municipality in which the patient resides;
- (b) where the patient is a patient in a hospital, by the superintendent of the hospital if a municipality is paying maintenance for the patient; or
- (c) where the patient resides in unorganized territory, by a clergyman, a constable of the Ontario Provincial Police Force, a post-master or a field worker appointed under *The Welfare Units Act*.

(5) Where the Director has in his possession the information mentioned in Part I of Form 1, the Minister may supply insulin notwithstanding that Part I of Form 1 has not been completed. O. Reg. 283/64, s. 2.

3.—(1) The municipality in which the patient resides shall contribute to the Minister 25 per cent of the cost of the insulin supplied to the patient.

(2) The Director shall send a statement in Form 2 to the clerk of the municipality in which the patient resides.

(3) The statement shall be sent on the first days of March, June, September and December in each year. O. Reg. 283/64, s. 3.

4.—(1) An oral hypoglycaemic agent is designated as a substance for the control or treatment of diabetes for the purpose of section 60 of the Act.

(2) Where a municipality,

- (a) supplies or causes to be supplied free of charge to an indigent person an oral hypoglycaemic agent upon the prescription of a duly qualified medical practitioner; and
- (b) sends monthly to the Director a statement in Form 3,

the Minister may contribute to the municipality 75 per cent of the cost incurred by the municipality as shown on the statement. O. Reg. 283/64, s. 3.

Form 1

The Public Health Act

PART I

APPLICATION FOR A FREE SUPPLY OF INSULIN

Name of patient in full
..... (surname)
.....
..... (given name)

Married, single, widowed, divorced or separated
.....

If a married woman, husband's given name in full
.....

If widowed, deceased husband's given name in full
.....

Age (last birthday).....

Address
..... (post office) (street or rural route number)
.....
..... (township, village, town or city)

.....
(county or as the case may be)

I,
(name in full)

solemnly declare that I am unable to pay for the supply of insulin as set forth in Part II.

.....
(signature of patient)

I,
(name in full)

declare that
(name of patient)

is unable by reason of mental or physical infirmity to complete Part I and to the best of my knowledge and belief he is unable to pay for the supply of insulin as set forth in Part II.

.....
(signature of adult)

I,
(name in full)

declare that I am
(the parent, guardian)

of
(name of patient)

who is under the age of sixteen years and that neither he nor any person responsible for his maintenance is able to pay for the supply of insulin as set forth in Part II.

.....
(signature of parent, guardian)

PART II

CERTIFICATE OF A LEGALLY QUALIFIED
MEDICAL PRACTITIONER

I,
(name in full of legally qualified medical practitioner)

certify that
(name of patient)

requires a supply of insulin of the type and strength as stated in Table 1.

TABLE 1
INSULIN

Type	Strength	Require- ments per day in units	Number of vials for 30 days
Insulin-Toronto	40 units per cc.		
	80 units per cc.		
Protamine Zinc Insulin	40 units per cc.		
	80 units per cc.		
Lente Insulin	40 units per cc.		
	80 units per cc.		
Semilente Insulin	40 units per cc.		
	80 units per cc.		
Ultralente Insulin	40 units per cc.		
	80 units per cc.		

PART III

I,
clerk of the municipality of
solemnly declare that to the best of my knowledge and belief
(name of patient)

is unable to pay for the supply of insulin as set forth in Part II.

Dated....., 19.....
(signature of the clerk)

I,
superintendent of the
(name of hospital)

declare that
(name of patient)

is a patient for whom the municipality of
is paying maintenance in this hospital.

Dated....., 19.....
(signature of the superintendent)

Form 2

The Public Health Act

NOTICE TO MUNICIPALITY

To the clerk of the municipality of
the following indigent persons resident in.....have been supplied
(municipality)
with insulin free of charge during the period from.....to.....
at the cost as follows:

Name of Person	Address	Insulin Supplied					Cost
		Number of Vials					
		Insulin-Toronto	Protamine Zinc Insulin	Lente Insulin	Semi Lente Insulin	Ultra Lente Insulin	
		Units 400 800	Units 400 800	Units 400 800	Units 400 800	Units 400 800	
		____	____	____	____	____	
							Total Cost

REGULATION 713

under The Public Health Act

PASTEURIZATION AREAS

1. Section 104 of the Act applies,

- (a) to villages, improvement districts, townships and counties and to the areas lying outside a municipality in that part of Ontario lying south of the line described in Schedule 1; and
- (b) to villages, improvement districts, townships and police villages north of the line described in Schedule 1 and to those areas lying outside a municipality or police village and included in a geographic township listed in Schedule 2. R.R.O. 1960, Reg. 512, s. 1.

Schedule 1

The north shore of the North Channel and Georgian Bay in Lake Huron, the north limit of the District of Parry Sound, the north limits of the geographic townships of West Ferris, East Ferris, Bonfield, Calvin and Papineau in the District of Nipissing and that part of the boundary between Ontario and Quebec running southeasterly from its intersection with the north limit of the said geographic Township of Papineau. R.R.O. 1960, Reg. 512, Sched. 1.

Schedule 2

1. The geographic townships of Bright, Cobden, Gladstone, Lewis, Long, Shedden, Spragge, Striker and Victoria in the District of Algoma.

2. The geographic townships of Aurora, Barker, Blount, Brower, Calder, Casgrain, Clute, Cody, Colquhoun, Deloro, Devitt, Eilber, Fournier, Fox,

German, Guibord, Haggart, Hanlan, Hanna, Idington, Kendall, Kennedy, Lamarche, Leitch, Lowther, Macklem, Matheson, McCowan, McCrea, Munro, Nansen, Newmarket, O'Brien, Ogden, Owens, Pyne, St. John, Shaw, Stoddart, Teetzel, Way and Williamson in the District of Cochrane.

3. The geographic townships of Aubrey, Baird, Bateman, Boys, Bridges, Britton, Broderick, Buller, Code, Coyle, Desmond, Devonshire, Docker, Drayton, Eton, Ewart, Forgie, Gidley, Glass, Gundy, Hartman, Haycock, Heyson, Jackman, Kirkup, Lady-smith, LeMay, MacNicol, MacQuarrie, Malachi, Manross, McDonough, McMeekin, Melgund, Mutrie, Noyon, Pelican, Pellatt, Pettypiece, Redditt, Redvers, Rice, Rowell, Rudd, Rugby, Satterly, Southworth, Tustin, Umbach, Vermilion, Vermilion Additional, Wabigoon, Wainwright, Work and Zealand in the District of Kenora.

4. The geographic townships of Crerar, Gibbons, Kirkpatrick and Macpherson in the District of Nipissing.

5. The geographic Township of McIrvine in the District of Rainy River.

6. The geographic townships of Bigwood, Broder, Burwash, Cherriman, Creighton, Delamere, Dill, Dryden, Fairbank, Folyet, Haddo, Levack, Lorne, Louise, MacLennan, Merritt, Mongowin, Morgan, Scollard and Snider in the District of Sudbury.

7. The geographic townships of Devon, Fraleigh, Horne, Lybster, Marks, Pearson, Pic, Scoble, Strange, 76, 82, 83 and 84 in the District of Thunder Bay.

8. The geographic townships of Benoit, Lebel and McFadden in the District of Timiskaming. R.R.O. 1960, Reg. 512, Sched. 2.

REGULATION 714

under The Public Health Act

PASTEURIZATION PLANTS

GENERAL

1. In this Regulation,

- (a) "Director" means the Director of the Environmental Health Branch of the Department or any other person designated by the Minister to act for the Director of the Environmental Health Branch of the Department.
- (b) "distributor" means any person who carries on the business of distributing and selling milk to consumers, either directly or through resale by a peddler or storekeeper and, except as provided by this Regulation, includes a peddler, storekeeper, producer-distributor and any other person who retails milk to the consumer;
- (c) "employee" means every person employed in a pasteurization plant or milk plant;
- (d) "operator" means every person who by himself or by his agents owns or operates a pasteurization plant;
- (e) "peddler" means any person who, for resale to the consumer, purchases milk from a distributor and distributes and sells the milk to the consumer;
- (f) "person" includes a partnership, association and firm;
- (g) "processor" means any person carrying on the business of pasteurizing, homogenizing, bottling or in any other way processing milk for human consumption;
- (h) "producer" means any person who produces milk that is sold for human consumption;
- (i) "producer-distributor" means a producer who distributes and sells to the consumer milk of which he is the producer;
- (j) "storekeeper" means any person who from or at a store or shop kept by him sells or offers for sale milk to the consumer, which milk has been purchased for resale from a licensed distributor. R.R.O. 1960, Reg. 513, s. 1; O. Reg. 394/66, s. 1.

2.—(1) Upon proof satisfactory to the Director that a pasteurization plant has complied with the requirements of this Regulation, the Director shall issue a certificate of approval in Form 1.

(2) Every certificate expires on the last day of the calendar year in which the certificate is issued and may be renewed by the Director if he is satisfied that the plant has complied with this Regulation.

(3) The Minister may suspend or revoke any certificate or renewal thereof if the Minister is satisfied that the plant for which the certificate is issued does not comply with any provision of this Regulation. R.R.O. 1960, Reg. 513, s. 2.

3. The certificate of approval issued to any plant in which milk is pasteurized or in which milk products are prepared shall be in Form 1. R.R.O. 1960, Reg. 513, s. 3.

4. Every pasteurization plant, every pasteurization and every operation connected with the handling of milk is subject to the inspection and approval of the Director. R.R.O. 1960, Reg. 513, s. 4.

5. No person shall use any word or term stating or indicating, either orally or in writing, that milk is pasteurized unless the milk has been pasteurized and handled in a pasteurization plant in accordance with this Regulation. R.R.O. 1960, Reg. 513, s. 5.

PLANT AND EQUIPMENT

6.—(1) No person shall establish, erect, reconstruct, alter or enlarge a pasteurization plant unless the approval of the Department has been obtained.

(2) Where an application for approval is made under subsection 1, the applicant shall furnish the Department with a copy of the plans and specifications therefor together with such other material and information as the Department requires. R.R.O. 1960, Reg. 513, s. 6.

7. The location of every pasteurization plant shall be satisfactory to the Department and shall be free from any objectionable conditions, including smoke, fumes, dust, odours, flies and other conditions of nature that might injuriously affect the quality of the milk, and there shall be ready access to and from every building. R.R.O. 1960, Reg. 513, s. 7.

8. The buildings shall be of substantial construction, of adequate size for the operations involved, free from excessive dust, readily cleaned and well lighted. R.R.O. 1960, Reg. 513, s. 8.

9.—(1) During the period from the 1st day of May to the 1st day of November, all outside openings in every building forming part of a pasteurization plant shall be effectively screened or otherwise protected against the entrance of flies.

(2) Window and door screens shall be tight-fitting and shall be kept in good repair and all doors shall be equipped as far as possible with self-closing devices.

(3) Openings through which cans, crates and other articles are passed in rapid succession shall be equipped with flaps, fans or similar devices to exclude flies.

(4) Such additional precautions for the control of flies as may be reasonably necessary or as the Department requires shall be provided. R.R.O. 1960, Reg. 513, s. 9.

10.—(1) Every room in which the processing or handling of milk is conducted or in which equipment is operated shall be adequately lighted by natural or artificial light or both.

(2) Every room shall be adequately ventilated through windows, doors or ventilating ducts so as to prevent condensation on walls, ceiling and equipment. R.R.O. 1960, Reg. 513, s. 10.

11.—(1) The floors of every room in which milk is handled or stored shall be constructed of concrete, tile, brick or other good quality impervious material and the surface shall be smooth, readily cleaned, sloped to convenient outlets and free from joints and depressions in which water or dirt may collect and the joints between walls and floors shall be covered.

(2) Floors shall be kept clean and free from materials and equipment not regularly used in the room.

(3) Suitably trapped drains of sufficient size and so located as to rapidly remove drainage shall be provided.

(4) The walls and ceilings of rooms in which milk is handled or stored shall have smooth surfaces of impervious and washable material, light in colour, and the surfaces shall be kept clean. R.R.O. 1960, Reg. 513, s. 11.

12.—(1) Separate rooms shall be provided in every pasteurization plant for,

- (a) pasteurization, cooling and bottling operations; and

- (b) washing and bactericidal treatment of containers and miscellaneous equipment.

(2) Cans of unpasteurized milk shall not be unloaded directly into or stored in the pasteurizing room.

(3) Where it is possible, self-closing doors shall be provided for the pasteurizing room and the doors shall not open directly into any stable, garage or living quarters.

(4) Cleaned utensils and containers shall be stored in a room or compartment that is kept free from flies, dust, odours and other contamination. R.R.O. 1960, Reg. 513, s. 12.

13. Every pasteurization plant shall, for the purposes of the employees, be equipped with,

- (a) adequate soap and hot and cold water;
- (b) a clean towel for the exclusive use of each employee;
- (c) washing facilities that are conveniently located and that are not used in any way in the operation of the pasteurization plant or the handling of milk; and
- (d) such toilet rooms as are necessary and these rooms shall be conveniently located, properly equipped, of a sanitary condition, in good repair, provided with adequate ventilation and lighting and shall not open directly into any room in which milk, equipment or containers are used or handled and, where privies are used, they shall be separated from any other building and be fly-tight and equipped with self-closing doors. R.R.O. 1960, Reg. 513, s. 13.

14. Adequate and satisfactory water and drainage facilities shall be provided. R.R.O. 1960, Reg. 513, s. 14.

15.—(1) All waste and drainage from the operation of a pasteurization plant shall be disposed of in a sanitary manner.

(2) Refuse shall not be permitted to accumulate in the building or on or near the premises, except in properly covered containers or receptacles.

(3) Stables shall not be erected or maintained in such proximity to the pasteurization plant as to affect adversely the process and all manure and garbage shall be treated with a fly larvicide during the fly season. R.R.O. 1960, Reg. 513, s. 15.

16. The equipment and containers used in the handling, processing or storage of milk shall be so constructed and kept in repair as to facilitate cleaning and bactericidal treatment, and any surfaces of the

equipment and containers with which milk comes in contact shall be of smooth, non-corroded metal or vitreous material, free from accumulation of milk solids and other foreign substances, self-draining and readily accessible for cleaning and every joint in any such equipment or container shall be made flush with the surface or otherwise constructed so as to avoid open seams. R.R.O. 1960, Reg. 513, s. 16.

17.—(1) Every pasteurization plant shall have equipment of sufficient capacity for the maximum output of the plant.

(2) Any equipment used for processing or storing milk shall be constructed of such material and so maintained as not to affect adversely the quality or taste of the milk.

(3) Holding vats shall be adequately insulated to prevent undesirable heat losses.

(4) Tight fitting covers shall be provided for the equipment, and when in either the open or closed position shall be so arranged as to prevent the entrance of drainage or water of condensation from the outside into the milk.

(5) Milk receiving vats shall be so placed and protected as to prevent contamination of the milk. R.R.O. 1960, Reg. 513, s. 17.

18. Every inlet and outlet valve and pipe connection to pasteurization holders shall meet the following requirements:

1. Every valve and pipe line used in inlet and outlet connections on pasteurizers or holders shall be of metal not affected by milk to the extent of corroding or pitting the material and shall not affect the flavour of milk by electrolysis or by other means.
2. Every surface in contact with the milk shall be smooth and free from pits, crevices, cracks, open seams or threads.
3. Passages shall be constructed to prevent pocketing.
4. Every part shall be readily disassembled for cleaning.
5. Every inlet valve shall be of the leak-protector type and every inlet valve and connection shall be so constructed and located as to prevent leakage or short circuiting of unpasteurized milk into pasteurized milk, or into a pasteurizer or holder other than that being filled.
6. Every groove on an inlet valve for diverting leakage shall be of ample dimensions and so arranged as to permit free drainage.

7. Every pipe line between any inlet valve and pasteurizer or holder shall be as short as possible and shall be sloped or otherwise arranged to drain freely.

8. Every outlet valve shall be of the leak-protector type and shall have the valve seat either flush with the inner wall of the pasteurizer or so closely coupled that all milk in the valve pocket is within the influence of the agitation created by the stirring equipment.

9. Every outlet valve shall prevent leakage past the valve seat into the milk outlet and grooves for diverting leakage shall be of ample dimensions and so arranged as to permit free drainage.

10. Sterilizing connections shall be provided where the construction of the outlet valve makes this necessary and they shall be non-clogging and shall not terminate in a channel through which milk is flowing.

11. Valves shall be provided with necessary stops and guides to insure proper operation. R.R.O. 1960, Reg. 513, s. 18.

19. Milk piping and connections shall meet the following requirements:

1. The piping and connections shall be of such size and material that they may be readily cleaned.
2. The piping and connections shall be smooth, free from corrosion and all joints shall be soldered flush.
3. The length of piping shall be reduced to a minimum.
4. No piping, pumps or equipment shall be used for both unpasteurized and pasteurized milk. R.R.O. 1960, Reg. 513, s. 19.

20.—(1) Both indicating and recording thermometers of satisfactory type shall be installed and used on each holder in which the holding time is not automatically controlled and in both inlet and outlet manifolds of vat, pocket or continuous flow installations in which the milk is brought to the final pasteurization temperature before entering the holder and in which the time is automatically controlled.

(2) The bulbs of the indicating thermometer and the recording thermometer shall be as close together as is practicable.

(3) Indicating thermometers shall be easily read and shall be accurate within $\frac{1}{2}$ of 1° F.

(4) Recording thermometers shall be moisture proof, easily read, with scale divisions of not less than one-sixteenth of an inch for each degree between 140°F. and 145°F., and the smallest time-scale division shall not exceed ten minutes and every chart shall be graduated for and shall make one revolution in twelve hours. R.R.O. 1960, Reg. 513, s. 20.

21. The equipment used in milk processing shall be such as to preclude as far as possible the formation of foam in pasteurizers or holders and where foam collects in milk holders, means shall be employed to keep the atmosphere above the milk at a temperature at least 5°F. higher than the pasteurizing temperature. R.R.O. 1960, Reg. 513, s. 21.

22. Milk shall be filtered or strained before pasteurization only and no filters, other than metal screens, shall be placed on the outlet side of the pasteurizer or be used on milk after pasteurization. R.R.O. 1960, Reg. 513, s. 22.

23.—(1) Milk cooling equipment shall be provided of sufficient capacity and type to cool the milk from each pasteurizer or holding vat in a period not exceeding 1½ hours.

(2) The temperature of the pasteurized milk shall not be reduced to lower than 120°F. before passing through the cooling equipment.

(3) The milk shall be cooled to 50° F. or lower within a period not exceeding 1½ hours and held at or below this temperature until delivery.

(4) Surface coolers shall be built of suitable material and so constructed as to afford ready access for cleaning and provision shall be made to prevent water of condensation from coming into contact with the milk or the cooling surfaces.

(5) Open surface coolers shall be either located in separate well ventilated rooms, free from flies, dust, drip, splash, manual contact and other sources of contamination or provided with tight fitting covers or shields, and such covers or shields shall be so arranged as to afford ready access for cleaning the cooler.

(6) Regenerative heater-coolers shall be so constructed and maintained as to prevent access of the unpasteurized milk into the pasteurized milk.

(7) Solder shall not be used on the metal separating the pasteurized milk from the unpasteurized milk. R.R.O. 1960, Reg. 513, s. 23.

BOTTLING EQUIPMENT

24. Milk shall be bottled and capped at the plant where pasteurization takes place and in accordance with the following conditions:

1. Bottling shall be done in mechanical equipment that can be readily cleaned and that does not expose the milk to contamination during the operation.

2. The equipment and the operation shall be such that a uniform mixture of the milk is added to each bottle.

3. No unpasteurized milk shall be bottled or shall come in direct contact with bottling equipment used for pasteurized milk. R.R.O. 1960, Reg. 513, s. 24.

25. Bottles shall be capped by mechanical equipment and hand-capping shall not be permitted. R.R.O. 1960, Reg. 513, s. 25.

26. Adequate cooling facilities and cold storage facilities shall be provided in the pasteurization plant for the pasteurized milk and the milk held in storage before processing. R.R.O. 1960, Reg. 513, s. 26.

27. Containers and other equipment used in the processing or handling of milk shall be washed and disinfected in equipment satisfactory to the Department. R.R.O. 1960, Reg. 513, s. 27.

PASTEURIZATION

28. Milk shall be pasteurized by heating the milk,

(a) to a temperature of at least 143°F. and holding it at that temperature for not less than thirty minutes; or

(b) to a temperature of at least 161°F. and holding it at that temperature for not less than sixteen seconds,

and cooling it immediately thereafter to a temperature of 50° F. or lower, in a manner and with equipment and apparatus approved by the Department. R.R.O. 1960, Reg. 513, s. 28.

29.—(1) The operation of the pasteurizer or holding vat shall be such that the variation in temperature between the hottest and coldest sections of the milk does not exceed 1° F.

(2) The temperature of the milk in the pasteurizer at any time shall be taken as the temperature shown on the indicating thermometer rather than the temperature shown on the recorder.

(3) The temperature shown by the recording thermometer shall be checked daily by the operator against the temperature shown by the indicating thermometer and shall be adjusted to read at no time higher than the temperature shown by the indicating thermometer.

(4) The bulbs of the thermometers shall be placed as close together as is practicable and at the point of lowest temperature in the pasteurizer or holder. R.R.O. 1960, Reg. 513, s. 29.

30.—(1) No recording chart shall be used for a period that will interfere with the clarity of the record or that will permit overlapping of graphs.

(2) The person in charge of the recorder shall sign every chart and shall see that,

- (a) the date of each operation of the pasteurizer or holder;
- (b) the number of the pasteurizer or holder, if more than one is in use, to which the recorder was attached; and
- (c) a recording of the indicating thermometer at some time corresponding with a marked point in the holding period,

are recorded on the chart.

(3) Where more than one recording thermometer is in use, the chart shall be numbered in such a manner as to indicate the recording thermometer that was used for the chart.

(4) The operator shall keep every chart for a period of three months after the date thereof. R.R.O. 1960, Reg. 513, s. 30.

31. Except in case of an emergency, the cover of the pasteurizer shall be kept closed during the holding period and until the milk is removed. R.R.O. 1960, Reg. 513, s. 31.

32.—(1) Any milk that has been contaminated after pasteurization shall be repasteurized but milk that has come into contact with contaminated machinery or has overflowed from routine operations shall not be used for domestic consumption.

(2) Where any milk accidentally passes through equipment without proper treatment, the equipment shall be sterilized before it is used again. R.R.O. 1960, Reg. 513, s. 32.

33.—(1) When it is assembled and immediately before the days operations, any equipment used for pasteurization and subsequent handling of the milk shall be given a bactericidal treatment by steam, hot water or other disinfectant approved by the Department.

(2) Every valve shall be thoroughly steamed or disinfected before being used. R.R.O. 1960, Reg. 513, s. 33.

34.—(1) No piping, pumps or equipment with which pasteurized milk comes into contact shall be used in the handling of unpasteurized milk or other

contaminated material, and no connection shall be permitted between unpasteurized and pasteurized milk.

(2) Every valve and pipe connection to or from a pasteurizer or holder shall be disconnected during the holding period and when not in actual use. R.R.O. 1960, Reg. 513, s. 34.

35. Milk that is or is likely to be held for more than two hours in the plant before pasteurization shall be cooled to 50°F. or lower upon arrival and shall be held at this temperature until pasteurization begins. R.R.O. 1960, Reg. 513, s. 35.

SANITATION

36. No unpasteurized milk shall be bottled in any pasteurization plant or placed in containers for delivery to consumers. R.R.O. 1960, Reg. 513, s. 36.

37.—(1) No products other than milk products and products of which milk is a substantial component shall be handled or processed in a pasteurization plant unless equipment entirely separate from the equipment used in pasteurization is used and the handling or processing is carried on in a separate room. R.R.O. 1960, Reg. 513, s. 37.

(2) Subsection 1 does not apply to the handling and processing of the juice of citrus fruits where such handling and processing does not affect the quality of the milk, if,

- (a) the operator has given notice of his intention so to do at least thirty days before commencing operations; and
- (b) the Director certifies that the plant is capable of handling and processing citrus fruit juices without affecting the quality of the milk.

(3) Where the Director is unable to give his certificate under clause *b* of subsection 2 he shall so advise the operator in writing together with his reasons and send a copy thereof to the Deputy Minister. O. Reg. 218/61, s. 1.

38.—(1) Every container and any equipment that comes into contact with or is used in the handling of milk shall be thoroughly cleaned and subjected to effective bactericidal treatment after each use, and at least once each day.

(2) All dismountable apparatus, including piping, pump parts, valves and pipe fittings shall be taken down daily for cleaning and after cleaning shall be stored on racks or other places protected from contamination.

(3) Every can, tank and other container used for transporting milk to a pasteurization plant shall be

thoroughly cleaned and subjected to effective bactericidal treatment before leaving the plant and the can, tank or other container shall not be used for transporting milk or other products from the pasteurization plant. R.R.O. 1960, Reg. 513, s. 38.

39.—(1) All bottles, cans, containers and equipment shall be stored after cleaning in such manner as to protect against drainage, dust, flies and other contamination.

(2) During storage and when in operation, the interior of every container and any surface thereof exposed to milk shall be protected against manual contact and other sources of contamination. R.R.O. 1960, Reg. 513, s. 39.

40. All bottle caps and other paper or parchment that come into contact with milk shall be purchased and stored in sanitary tubes or cartons and shall be kept free from contamination and in a clean dry place until used. R.R.O. 1960, Reg. 513, s. 40.

QUALITY OF MILK

41.—(1) Unpasteurized milk that reaches a pasteurization plant for pasteurization or processing shall be clean, cool and of good quality.

(2) Any milk that is tainted, soured, unpalatable or otherwise unsatisfactory shall be rejected at the pasteurization plant and shall be returned to the shipper or disposed of at his direction. R.R.O. 1960, Reg. 513, s. 41.

42.—(1) Milk that is to be, or is intended to be, pasteurized shall be cooled within two hours after milking to a temperature of 50° F. or lower and the milk that reaches the pasteurization plant, unless it is to be pasteurized within two hours after milking, shall not have a temperature higher than 60° F.

(2) Where there is a long interval between milking and delivery to the plant, the temperature shall be kept below 50° F. R.R.O. 1960, Reg. 513, s. 42.

DELIVERY OF MILK

43. All milk, except that sold in wholesale quantities, shall be delivered in glass bottles or other containers satisfactory to the Department and every container shall be labelled with the word "pasteurized", and the name of the operator in capital letters of eight point size or larger. R.R.O. 1960, Reg. 513, s. 43.

44.—(1) Every vehicle used for transportation or delivery of pasteurized milk shall be so constructed and maintained as to protect the milk from excessive heat and contamination.

(2) Every vehicle used for transportation or delivery of pasteurized milk shall be kept clean and

shall not be used for transporting anything likely to cause contamination of the milk or the containers. R.R.O. 1960, Reg. 513, s. 44.

PERSONNEL IN PASTEURIZATION PLANTS

45. Every pasteurizing and processing operation shall be under the direct supervision of a person having an adequate knowledge of such operations. R.R.O. 1960, Reg. 513, s. 45.

46.—(1) Every person whose work brings him into contact with the pasteurizing, processing or handling of milk or the handling of containers or equipment shall be free from and shall not be a carrier of any disease that may be spread through the medium of milk.

(2) Every such person shall satisfy the medical officer of health of the municipality in which the milk is sold or delivered as to his freedom from such diseases, and shall submit to such examinations and tests as the medical officer of health or the Department requires.

(3) When an operator believes or suspects that an employee is suffering from any such disease, the operator shall forthwith notify the medical officer of health of the municipality in which the milk is sold or delivered.

(4) Upon evidence satisfactory to the Department that an employee has failed to satisfy any of the requirements of this section, the Department may direct the operator of the plant in which the employee is employed to see that the person is not employed in any work that may bring him into contact with the pasteurizing, processing or handling of milk or the handling of containers or equipment, and the operator shall carry out the direction of the Department. R.R.O. 1960, Reg. 513, s. 46.

47.—(1) Any person employed in a pasteurization plant shall be clean in habits, wear clean, washable outer garments and keep his hands clean while engaged in work.

(2) No person shall spit, smoke or use tobacco in any form in any part of the plant in which milk is processed or handled. R.R.O. 1960, Reg. 513, s. 47.

The Public Health Act

CERTIFICATE OF APPROVAL OF A PASTEURIZATION PLANT

Certificate No.

This is to certify that under *The Public Health Act* and the regulations, and subject to the limitations

thereof, the pasteurization plant operated by.....
.....
at.....
in the County (or as the case may be) of.....
..... is approved.

This certificate expires with the 31st day of Decem-
ber, 19....

.....
Director

Dated at Toronto, this.....day of.....,
19....

O. Reg. 394/66, s. 2.

REGULATION 715

under The Public Health Act

PLUMBING IN UNORGANIZED TERRITORY

1. This Regulation applies to territory without municipal organization. R.R.O. 1960, Reg. 514, s. 1.

2. The drain of every house shall be,

(a) connected to a sewer, septic tank or cess-pool;

(b) ventilated by means of a ventilating pipe that,

(i) extends above the roof of the house and opens at a point sufficiently remote from any window, door, skylight, chimney or other opening into a house so that gases from the ventilating pipe cannot enter the house, and

(ii) is not connected to a chimney of any building; and

(c) constructed and installed in a sanitary manner and made of suitable material. R.R.O. 1960, Reg. 514, s. 2.

3. The waste pipe from a closet, sink, tub, wash-basin or other fixture shall be constructed of suitable materials and installed with tight joints in a sanitary manner. R.R.O. 1960, Reg. 514, s. 3.

4. A refrigerator, drinking fountain or potato-peeling or other machine for processing food stuffs shall not be directly connected to any pipe conveying waste. R.R.O. 1960, Reg. 514, s. 4.

5. A plumbing system shall be designed, constructed and installed so that no air or gas from the system can escape into a building. R.R.O. 1960, Reg. 514, s. 5.

6. No connection shall be made in a potable water system whereby any foreign matter or non-potable water can enter the potable water system and the potable water system shall be separate from and independent of a supply system for non-potable water. R.R.O. 1960, Reg. 514, s. 6.

REGULATION 716

under The Public Health Act

PUBLIC SWIMMING POOLS

1. In this Regulation,

- (a) "clean water" means water added to a public swimming pool after treatment in the pool recirculation system;
- (b) "guest" means a person who contracts for sleeping accommodation in an hotel and includes all the members of his party;
- (c) "hotel" means an hotel, inn or motel or other building or premises operated mainly to provide sleeping accommodation for the public;
- (d) "local board" means the board of health of a health unit;
- (e) "make-up water" means water added to a recirculation public swimming pool;
- (f) "operator" means a person who by himself or by his agent owns or operates a public swimming pool;
- (g) "potable water" means water fit for human consumption;
- (h) "public swimming pool" means an indoor or outdoor pool of water, other than a bathing beach, a natural bathing area or a wading pool,
 - (i) that is used for swimming and recreational bathing, and
 - (ii) to which the public is invited, whether or not a fee is charged,and "pool" has a corresponding meaning;
- (i) "recirculation public swimming pool" means a public swimming pool in which,
 - (i) circulation of water is maintained through the pool by pumps; and
 - (ii) water drawn from the pool, except the water that is discharged to waste, is treated and returned to the pool. O. Reg. 142/65, s. 1; O. Reg. 213/68, s. 1.

2. This Regulation applies to a public swimming pool and any buildings, appurtenances and equipment used in the operation thereof. O. Reg. 142/65, s. 2.

3. No person shall construct a public swimming pool or alter the structure or equipment of a pool, until he has submitted final plans and specifications therefor to the Department and the approval by the Department of the plans and specifications has been given. O. Reg. 450/67, s. 1.

4. This Regulation does not apply to a swimming pool operated on the premises of an hotel for use by its guests. O. Reg. 213/68, s. 1.

5. A public swimming pool that has been constructed before this Regulation comes into force is exempt from sections 8 to 12, both inclusive. O. Reg. 142/65, s. 3.

6.—(1) Where a public swimming pool is constructed or altered during the period from the 7th day of June, 1965 to the 31st day of January, 1968, or where the physical construction or alteration is commenced during that period and the pool is not licensed under section 126 of the Act or the plans and specifications thereof have not been approved by the medical officer of health, the operator shall submit the final plans and specifications to the Department prior to the 15th day of February, 1968 and shall apply for approval by the Department for the continued use of the pool as a public swimming pool.

(2) Where the plans and specifications have been examined and such additional investigation as the Department deems necessary has been carried out and the pool is found to conform to the requirements of sections 7 to 12, both inclusive, the Department shall approve the structure and equipment of the pool for use as a public swimming pool and shall notify the operator in writing.

(3) Where a pool does not conform to one or more of the requirements of sections 7 to 12, both inclusive, the Department may classify the pool as a non-conforming pool.

(4) Subsection 3 does not apply to any pool, the contract for the construction of which is dated later than two weeks after the 31st day of January, 1968.

(5) A pool that has been classified as a non-conforming pool may be approved by the Minister for use as a public swimming pool where,

(a) an undertaking is given in writing by the operator to provide not less than two life-guards for each seventy-five bathers, or fraction thereof; and

(b) such alteration is made in the construction, management or operation of the pool and

such additional equipment or safety devices are provided, as the Minister deems necessary to ensure the health and safety, and to provide adequately for the convenience, of persons in or about the pool.

(6) A notice shall be affixed to the wall adjacent to each entrance to a pool that has been classified as a non-conforming pool for which approval has been given for use as a public swimming pool showing,

- (a) the ratio of lifeguards to bathers that shall be in attendance when the pool is in use; and
- (b) the additional equipment or safety devices that are required under clause *b* of subsection 5.

(7) No pool that has been constructed or altered after the 7th day of June, 1965 shall be operated as a public swimming pool after the 30th day of April, 1968, unless,

- (a) the pool is licensed under section 126 of the Act;
- (b) the plans and specifications of the pool have been approved by the medical officer of health;
- (c) the pool has been approved by the Department; or
- (d) the pool has been classified as a non-conforming pool and has been approved by the Minister for use as a public swimming pool. O. Reg. 450/67, s. 2.

7.—(1) The water in a pool system shall not be deemed to be potable water.

(2) Regulation 647 of Revised Regulations of Ontario, 1970 applies to public swimming pools.

(3) The water in a public swimming pool shall be,

- (a) separated from its potable water supply by air gaps or other means sufficient to prevent the water in the pool from flowing back into the potable water supply; and
- (b) separated by air gaps from the sewer or drainage system into which it drains. O. Reg. 142/65, s. 5.

8. A public swimming pool shall,

- (a) be located in a place reasonably free from smoke, fumes, dust, flies or any condition that might injuriously affect its use and shall have ready ingress to and egress from every building;

(b) be free from conditions that might injuriously affect the efficient operation of the pool; and

(c) be constructed and finished in such a manner that it may be maintained in a clean and satisfactory condition. O. Reg. 142/65, s. 6.

CONSTRUCTION

9.—(1) A public swimming pool shall be so constructed that,

- (a) no water other than make-up water and clean water shall be permitted in the pool;
- (b) bathing may be prevented when the pool is not in operation;
- (c) floors, interior walls, interior partitions and the pool interior and deck have surfaces that permit convenient and thorough cleaning;
- (d) the side and end walls of the pool are vertical for two feet and six inches from the top of the walls;
- (e) the depths of the pool are clearly marked at the deepest point, at the point where the depth is four feet six inches and at the shallowest point;
- (f) the slope of the bottom of any portion of the pool having a water depth of less than four feet six inches shall not exceed one foot vertically in fifteen feet horizontally and in portions having a depth greater than four feet six inches the slope shall not exceed one foot in three feet;
- (g) the pool is surrounded by a hard-surface and impervious deck that is,
 - (i) not less than six feet wide,
 - (ii) sloped to waste drains at a minimum of one inch in four feet, and
 - (iii) equipped with hose connections installed in convenient and safe locations for flushing the deck;
- (h) a perimeter drain is provided where necessary to prevent surface water from the adjacent area draining on to the deck;
- (i) sufficient dressing and locker rooms, toilets, urinals, hand-wash basins and showers are provided;
- (j) the heating and lighting units and electrical outlets are so installed that the safety of the bather is assured;

- (k) the pipe lines terminating in the pool are covered with a suitable cover and the area of the drain cover openings is not less than four times the area of the outlet pipe;
- (l) a water meter is provided to measure the volume of make-up water in gallons;
- (m) a chlorinator or hypochlorinator is installed of sufficient capacity to comply with clause b of subsection 1 of section 15;
- (n) where compressed chlorine gas is used, a separate storage room for the chlorinator and the chlorine cylinders is located and equipped as prescribed by section 11;
- (o) if provided, foot sprays wash the feet by a spray running freely to waste; and
- (p) a black disc six inches in diameter on a white background is provided at the deepest point in the pool or is available for use.

(2) Where a public swimming pool is used at night or where it is situated in a place where adequate natural illumination is not available, a lighting system shall be provided,

- (a) making the deck and underwater areas of the pool and other appurtenances clearly visible; and
- (b) having an independent emergency lighting system that automatically operates whenever the main lighting system fails. O. Reg. 142/65, s. 7; O. Reg. 450/67, s. 3.

10.—(1) A public swimming pool shall be provided with dressing and locker rooms, showers, toilets, urinals and hand-wash basins so constructed that,

- (a) the floor and wall joints are coved;
- (b) the interior partitions of the dressing room and toilet room leave a gap of twelve inches above the floor level;
- (c) there is hot and cold water available in the shower bath facilities with a tempering device on the hot water system to prevent scalding;
- (d) bathers have ready access to the urinals and toilets before entering the showers;
- (e) the floors in the dressing, toilet and shower rooms are of hard-surfaced impervious material and slope to waste drains at a minimum of one inch in four feet; and
- (f) there are hose connections installed in convenient and safe locations for flushing the walls and floors in the dressing, toilet and shower rooms.

(2) Where a pool is used by both sexes simultaneously, the accommodation mentioned in subsection 1 shall be provided separately for each sex.

(3) Where lockers are provided, they shall be vermin proof with adequate ventilation. O. Reg. 142/65, s. 8.

11.—(1) Where there is a chlorine gas storage room, it shall be,

- (a) where practicable, located above ground level with an exit door opening outwardly and directly to the outdoors with screened openings to the outdoors at floor and ceiling level;
- (b) provided with emergency mechanical ventilation taking suction at the floor level and discharging it directly to the outdoors, and of sufficient capacity to produce thirty air changes per hour; and
- (c) equipped with self-contained or air-supplied respiratory protective equipment for use in a chlorine atmosphere.

(2) The respiratory protective equipment shall be kept in a dust-tight cabinet, accessible without a key and located immediately outside the area of probable contamination.

(3) The chlorinator equipment shall be installed and operated by and under the supervision of experienced persons.

(4) The chlorine cylinder valve protection hood shall be kept in place except when the cylinder is connected to the chlorinator.

(5) The chlorine cylinders shall be anchored to prevent dislocation. O. Reg. 142/65, s. 9.

12. A recirculation swimming pool shall,

- (a) be so constructed and operated that a volume of water equal to the total pool volume is circulated and treated at least three times each day;
- (b) be provided with a meter to measure the total recirculated water flow rate;
- (c) be provided with means to remove the surface film off the water either by scum gutters or by the use of surface skimmers of adequate capacity and design;
- (d) be so designed that it can be emptied in twelve hours;
- (e) be provided with adjustable clean water inlets that are,

- (i) located so as to provide uniform circulation of water, and
- (ii) submerged not less than fifteen inches below the surface of the water;
- (f) be so designed that up to 15 per cent of the total pool volume can be withdrawn from the scum gutter or skimmer return lines daily and discharged to waste in the sewer or drainage system; and
- (g) be operated during that part of the year when the pool is open for use, so that pumps, filters, chlorinators and chemical feeders are in continuous operation throughout the entire twenty-four hours of each day without regard to the duration of actual use of the pool each day, but such equipment may be stopped for necessary maintenance or repairs and back-washing of filters. O. Reg. 142/65, s. 10.

13. Clean water and make-up water shall be of a quality satisfactory to the medical officer of health. O. Reg. 142/65, s. 11.

14.—(1) The number of bathers on the pool deck and in the pool, at any one time shall not exceed three persons for each 1,000 gallons of total pool capacity.

(2) The number of bathers using a pool shall be so regulated that the total number of bathers admitted in the length of time specified herein shall not exceed twenty persons for each 1,000 gallons of clean water added to the pool,

- (a) in the case of a recirculation pool or one in which the water flows through continuously during the hours of use for each day; or
- (b) in the case of a fill and draw pool, during the time interval between complete changes of pool water. O. Reg. 142/65, s. 12.

15.—(1) When a swimming pool is being used the water in the pool shall,

- (a) be maintained free from visible pollution;
- (b) have a residual of free available chlorine of not less than 0.5 parts per million as determined by a standard test or such higher residual as the medical officer of health may require in writing from time to time;
- (c) be maintained within the hydrogen ion concentration range of pH 7 to pH 8; and
- (d) be sufficiently clear to permit a black disc six inches in diameter located at the deepest

point in the pool to be clearly visible at a distance of thirty feet.

(2) During use, a swimming pool shall,

- (a) be kept clean;
- (b) be free of obstructions on the deck; and
- (c) in the case of an indoor pool, be adequately ventilated.

(3) Where a pool is a recirculation pool, make-up water shall be added to the pool during each operating day in an amount not less than 3 gallons per bather or such greater amount not exceeding 15 per cent of the water in the pool as the medical officer of health from time to time orders in writing. O. Reg. 142/65, s. 13.

16. Where the owner or operator of a swimming pool supplies bathing apparel or towels, they shall be,

- (a) cleaned and stored in a sanitary manner; and
- (b) after each use stored separately pending removal for laundry. O. Reg. 142/65, s. 14.

17.—(1) When a public swimming pool is in use,

- (a) not less than one lifeguard for each 100 bathers, or fraction thereof shall be on guard duty and the lifeguard shall have no other duties requiring his absence from the deck of the pool when bathers are present;
- (b) a barrier shall be placed between any spectator gallery and the bathers and signs shall be posted forbidding spectators from walking upon the pool deck;
- (c) no person who has not taken a shower immediately before coming on the pool deck shall be allowed in the pool; and
- (d) no food or beverage shall be supplied or consumed in the pool or on the pool deck.

(2) Notwithstanding subsection 1, where there are at least two lifeguards on duty, a lifeguard may absent himself briefly from the pool deck to attend to other duties necessary for the operation or administration of the pool, if he is within call and continuous lifeguard surveillance is maintained by other lifeguards from the pool deck.

(3) No person shall act as a lifeguard unless he is,

- (a) at least seventeen years of age; and
- (b) the holder of a certificate certifying he is the holder of,

(i) the Royal Lifesaving Society Bronze Medallion,

(ii) The Young Men's Christian Association Senior Lifesaver Award, or

(iii) The Canadian Red Cross Society Leader Safety Patrol Award; or

(c) the holder of a certificate that the Minister deems equivalent to the certificate mentioned in clause *b*. O. Reg. 142/65, s. 15.

18. The operator shall post notices in conspicuous places at the pool notifying bathers,

(a) that no person infected with a communicable disease shall enter the swimming pool;

(b) that all bathers shall take a shower using warm water and soap;

(c) that no person shall pollute the water in the swimming pool in any manner;

(d) that no person shall engage in boisterous play in or about the swimming pool; and

(e) of the names and addresses and telephone numbers of persons who are available for resuscitation, medical aid and fire services. O. Reg. 142/65, s. 16.

19. At a swimming pool there shall be provided and conveniently located for emergency use,

(a) one or more reaching poles not less than twelve feet long;

(b) two or more throwing ring-buoys, each having securely attached to it a $\frac{1}{4}$ inch line at least forty-five feet long; and

(c) a first-aid kit that is satisfactory to the medical officer of health. O. Reg. 142/65, s. 17.

20. The operator shall be responsible for the maintenance of the daily record in Form 1 and for such additional records, observations and measurements as the medical officer of health from time to time requires. O. Reg. 142/65, s. 18.

21.—(1) Where a local board or a medical officer of health finds that a condition exists in or about a pool that,

(a) is or may become dangerous to health or safety; or

(b) may hinder in any manner the prevention, mitigation or suppression of disease,

the local board or the medical officer of health may order that the pool be closed and remain closed until the condition is rectified.

(2) Within twenty-four hours after issuing the order, the local board or the medical officer of health shall give written notice thereof to the operator, together with the reasons for closing the pool.

(3) Where a licence has been issued to the operator by the council of a municipality, a copy of the notice and the reasons mentioned in subsection 2 shall be given to the authority that issues licences in the municipality.

(4) Where a licence has been issued by a local board and an order has been issued under subsection 1 by a medical officer of health, a copy of the notice and the reasons mentioned in subsection 2 shall be given to the local board. O. Reg. 142/65, s. 19.

REGULATION 717

under The Public Health Act

QUALIFICATIONS OF MEDICAL OFFICERS OF HEALTH, SANITARY INSPECTORS AND PUBLIC HEALTH NURSES

1.—(1) No person shall be appointed as a full-time medical officer of health unless he is a legally qualified medical practitioner and he has,

(a) secured after not less than one academic year of full-time post-graduate study of public health, a certificate or diploma issued by a Canadian university; or

(b) secured a similar qualification issued by a university outside Canada and accepted as equivalent by a Canadian university.

(2) Notwithstanding subsection 1, all appointments of medical officers of health made before the 11th day of February, 1963 continue in effect until terminated under section 40 of the Act. O. Reg. 31/63, s. 1.

2.—(1) In this section, "sanitary inspector" includes food and dairy inspector. O. Reg. 31/63, s. 2.

(2) No person shall be appointed as a full-time sanitary inspector unless he is a veterinary surgeon or unless, before his appointment, he has secured the certificate granted by The Canadian Public Health Association or by certifying organizations recognized by the Association for this purpose. R.R.O. 1960, Reg. 515, s. 4 (2).

3. No person shall be employed as a public health nurse unless she is registered under *The Nurses Act* and,

(a) has a certificate or diploma from a university in Canada certifying that she has satisfactorily completed a course of not less than one academic year in public health nursing;

(b) has a similar qualification issued by a university outside Canada and accepted as equivalent by a Canadian university; or

(c) has a similar qualification accepted as equivalent by a Canadian university. O. Reg. 31/63, s. 4.

REGULATION 718

under The Public Health Act

SANITARY CODE FOR UNORGANIZED TERRITORY

1. In this Regulation "designated official" means,
- (a) a sanitary inspector appointed under section 134 of the Act;
 - (b) a medical officer of health appointed under section 133 of the Act; or
 - (c) an officer of the Department designated by the Deputy Minister for the purpose of the administration of this Regulation. O. Reg. 277/62, s. 1.
2. Ice for public use in territory without municipal organization shall be secured from a source approved by a designated official. O. Reg. 277/62, s. 2.
3. The parts of sections, 4, 7, 8, 11, 12, 14, 18, 20 and 24 of Schedule B to the Act set out in sections 1 to 8 of the Schedule to this Regulation, as amended by adding the additional requirements included therein, apply to territory without municipal organization. O. Reg. 277/62, s. 3.

Schedule

1. No person shall allow the accumulation upon his premises or deposit or permit the deposit upon any land belonging to him, of anything that may endanger the public health, or deposit upon or into any premises any sewage, manure or other refuse or vegetable or animal matter or other substance capable of endangering the public health unless such sewage, manure or other refuse, vegetable or animal matter or other substance is handled or treated in such manner as does not constitute a health hazard.
- 2.—(1) If a designated official is satisfied upon due examination that any premises, occupied as a dwelling place, has become by reason of the number of occupants, want of cleanliness, the existence therein of a communicable disease or other cause, unfit for such purpose or in any way dangerous or injurious to the health of the occupants or of the public, he may give notice in the following Form to such occupants or any of them or to the owner, requiring the premises to be put in proper sanitary condition or requiring the occupants to quit the premises within such time as the designated official deems reasonable:

NOTICE

To:
(name)

the owner or occupant of premises at
(location)
You are hereby required to put premises at
(location)
.....in proper sanitary
of premises)
condition or quit the same within days.
Dated at, this day of, 19....
.....
(Medical officer of health, sanitary
inspector or other designated
official)

(2) Where the persons so notified or any of them, neglect or refuse to comply with the terms of the notice, every person so offending is liable to the penalties mentioned in section 118 of the Act and a designated official may cause the premises to be properly cleansed at the expense of the owner or occupants or he may close up the premises and the same shall not again be occupied as a dwelling place until put into proper sanitary condition.

3.—(1) No person shall use any premises as a slaughterhouse or as a place for slaughtering animals or fowl therein or for the conduct of any offensive trade as determined under section 97 of the Act unless,

- (a) he has obtained the consent in writing of a designated official; and
- (b) the premises are distant not less than 200 yards from any dwelling house, school house, church or other premises where persons usually live or work and not less than fifty yards from any public street.

(2) Clause b of subsection 1 does not apply to any premises used or occupied by the owner or operator of the slaughterhouse or offensive trade.

4.—(1) This section applies to areas of territory without municipal organization,

- (a) situate within five miles of a municipal boundary;
- (b) that form part of a health unit; or
- (c) that comprise,

- (i) a locality having a population of 100 inhabitants or more,
- (ii) mobile-home parks, motels, service stations or other commercial sites, or
- (iii) subdivisions registered under *The Planning Act*.

(2) No cesspool, septic tank, oxidation pond, sewage lagoon, soil absorption system or privately owned sewage treatment plant into which human, animal or other wastes are discharged shall be established until the approval in writing of a designated official is obtained.

5.—(1) Every householder shall provide and maintain in a sanitary condition for the members of his household adequate facilities for ablution and a sufficient supply of potable water for drinking and sanitary purposes.

(2) Every householder shall provide and maintain in a sanitary condition one sanitary closet for every ten, or fraction of ten, members of his household.

6.—(1) All premises shall be maintained in a clean and sanitary condition.

(2) Every householder and every hotel and restaurant keeper or other person shall dispose of all refuse, for the disposal of which he is responsible,

either by burning it in a suitable incinerator or by placing it in a water-tight and fly-proof covered receptacle, the contents of which shall be regularly removed and disposed of to the satisfaction of a designated official.

(3) Where the inhabitants of a locality who have not been incorporated establish a system for disposal of refuse, the system shall be located, operated and maintained in a manner that is satisfactory to a designated official.

7.—(1) No premises shall be built upon any site, the soil of which has been made up of any refuse unless,

- (a) the soil has been removed from the site and the site disinfected; or
- (b) the written approval of a designated official has been obtained.

(2) Subsection 1 does not apply to premises used in connection with the operation of the disposal site.

8. No person shall offer for sale as food any diseased animal or any meat, fish, fruit, vegetables, milk or other article of food that, by reason of disease, adulteration, impurity or other cause, is unfit for use.

O. Reg. 277/62, Sched.; O. Reg. 118/64, s. 1.

REGULATION 719

under The Public Health Act

SLAUGHTERHOUSES AND MEAT PROCESSING PLANTS

INTERPRETATION

1. In this Regulation,

- (a) "Administrative Officer" means the administrative officer of the Department of Health or any other person designated by the Minister to act for the administrative officer;
- (b) "carcass" means the carcass of cattle, sheep, swine, goats, game or poultry;
- (c) "employee" means any person who,
 - (i) is employed in a slaughterhouse or meat processing plant, and
 - (ii) handles or comes in contact with meat or a manufactured meat product in a plant;
- (d) "food" means food for human consumption;
- (e) "manufactured meat product" means food that is the product of a process and that contains meat as an ingredient and includes meat that is processed by mixing, salting, pickling or smoking or otherwise applying heat or to which edible fats, cereals or sugar have been added;
- (f) "meat" means animal flesh, including the heart, tongue, diaphragm and oesophagus, intended for food;
- (g) "meat processing plant" means a plant where meat is processed or used in the production of a manufactured meat product;
- (h) "plant" means slaughterhouse or meat processing plant;
- (i) "utensil" means any article of equipment with which meat or a manufactured meat product comes in contact in a plant. R.R.O. 1960, Reg. 516, s. 1.

2. This Regulation does not apply to,

- (a) a farmer who slaughters his own animals on his own premises and for his own use; or
- (b) a retail butcher who manufactures fresh sausage from trimmings incidental to the

operation of the butcher shop. R.R.O. 1960, Reg. 516, s. 2.

3. This Regulation shall not be construed as Departmental approval of carcasses, meat or a manufactured meat product originating in a plant to which this Regulation applies. R.R.O. 1960, Reg. 516, s. 3.

4.—(1) No person shall slaughter an animal intended for food except in a slaughterhouse.

(2) No person shall process meat or use meat in the production of a manufactured meat product except in a meat processing plant.

(3) No person shall slaughter or process meat or produce a manufactured meat product except in accordance with this Regulation.

(4) No person shall construct, operate or maintain a plant except in accordance with this Regulation. R.R.O. 1960, Reg. 516, s. 4.

5. No person shall establish a slaughterhouse or meat processing plant or construct premises for use as a slaughterhouse or meat processing plant without first,

- (a) notifying the Department of his intention; and
- (b) furnishing the Department with a copy of the plans or specifications of the premises proposed to be used or constructed. R.R.O. 1960, Reg. 516, s. 5.

CONSTRUCTION AND EQUIPMENT OF PLANTS

6. Every plant shall,

- (a) be located in a place free from conditions that might injuriously affect the sanitary operation of the plant;
- (b) be constructed and finished in such manner that the plant is capable of being maintained in a sanitary condition;
- (c) be equipped with refrigeration facilities capable of maintaining the temperatures prescribed by this Regulation; and
- (d) be fully lighted. R.R.O. 1960, Reg. 516, s. 6.

7. Every slaughterhouse shall be equipped with,
- (a) a killing room for the purpose of slaughtering animals;
 - (b) a chill room for the purpose of chilling meat immediately after it is slaughtered;
 - (c) livestock pens for the purpose of holding livestock before slaughtering;
 - (d) accommodation for washing and dressing for male employees and separate accommodation for washing and dressing for female employees; and
 - (e) a storage room for meat that is not food. R.R.O. 1960, Reg. 516, s. 7.
8. Every meat processing plant shall be equipped with,
- (a) a processing room for the purpose of working with meat while it is being processed;
 - (b) a refrigerated room for the purpose of storing meat; and
 - (c) accommodation for washing and dressing for male employees and separate accommodation for washing and dressing for female employees. R.R.O. 1960, Reg. 516, s. 8.
9. Every plant shall have available a supply of potable hot and cold water adequate for the efficient operation of the plant. R.R.O. 1960, Reg. 516, s. 9.
- 10.—(1) All waste and drainage from the operation of a plant shall be disposed of in a sanitary manner.
- (2) No refuse shall accumulate in a plant or on or near the premises of a plant except in metal containers covered with metal insect-proof covers. R.R.O. 1960, Reg. 516, s. 10.
11. Floors shall be smooth, impervious to liquids and drained, in,
- (a) livestock pens;
 - (b) killing rooms; and
 - (c) rooms in which carcasses, meats or manufactured meat products are chilled, manufactured, processed or stored. R.R.O. 1960, Reg. 516, s. 11.
12. A catch basin shall not be located in any room in which animals are slaughtered or in which meat is processed, prepared or stored. R.R.O. 1960, Reg. 516, s. 12.
13. The walls of a room in which animals are slaughtered or in which meat is processed or stored or in which a manufactured meat product is manufactured or stored shall be of smooth material, impervious to liquids, to a height of not less than six feet. R.R.O. 1960, Reg. 516, s. 13.
14. All outside openings shall be effectively screened sufficient to prevent the entry of flies or other insects during the period from the 1st day of May to the 1st day of November in each year. R.R.O. 1960, Reg. 516, s. 14.
15. Equipment and utensils with which meat or a manufactured meat product comes or is likely to come in contact shall be of such material and so constructed that they can be easily and thoroughly cleansed. R.R.O. 1960, Reg. 516, s. 15.
16. Rails, racks and hooks shall be,
- (a) of metal construction;
 - (b) kept clean, sanitary and in good repair; and
 - (c) arranged so as to prevent contact of meat or a manufactured meat product with a wall or floor. R.R.O. 1960, Reg. 516, s. 16.
17. Tables, benches, blocks and containers shall be,
- (a) free of any crack or crevice; and
 - (b) kept clean, sanitary and in good repair. R.R.O. 1960, Reg. 516, s. 17.
18. Containers used in the rendering, preparation or storage of meat other than meat for food shall be,
- (a) of metal construction;
 - (b) marked to identify the use to which they are put;
 - (c) used for no other purpose; and
 - (d) kept clean and in good repair. R.R.O. 1960, Reg. 516, s. 18.
19. Every refrigerated room in a plant shall be equipped with a direct reading thermometer of known accuracy. R.R.O. 1960, Reg. 516, s. 19.
- MAINTENANCE AND OPERATION
20. The operator of a plant shall advise the Department of the usual hours of operation. R.R.O. 1960, Reg. 516, s. 20.
21. Carcasses shall be removed from the killing room and placed in a chill room immediately after slaughter and dressing. R.R.O. 1960, Reg. 516, s. 21.

22. Meat, manufactured meat products and any ingredient or material used in the processing, manufacture or packaging of meat or a manufactured meat product shall be kept in such manner and place as prevents them from becoming contaminated. R.R.O. 1960, Reg. 516, s. 22.

23. No meat or manufactured meat product that is not for food shall,

- (a) be present in a room in which meat for food is prepared, processed, packed, chilled or stored; or
- (b) come in contact with any equipment or material used in the preparing, processing, packing, storing or handling of meat for food. R.R.O. 1960, Reg. 516, s. 23.

24. No dead or moribund animal shall enter or remain in a plant. R.R.O. 1960, Reg. 516, s. 24.

25. The floors, walls and ceiling of a plant shall be kept clean. R.R.O. 1960, Reg. 516, s. 25.

26. Rooms and passageways in a plant shall be kept free of condensed moisture. R.R.O. 1960, Reg. 516, s. 26.

27. All equipment and utensils shall be cleaned before being put to use and at the end of each days use, and shall be kept in a sanitary condition at all times. R.R.O. 1960, Reg. 516, s. 27.

28.—(1) Meat shall not come in direct contact with the floor or walls in a plant.

(2) Baskets of meat or manufactured meat products shall not be placed in direct contact with the floor. R.R.O. 1960, Reg. 516, s. 28.

29. Utensils that have been in contact with infected material shall be immediately cleansed and sterilized by means of hot water or live steam. R.R.O. 1960, Reg. 516, s. 29.

30.—(1) Manufactured meat products that are customarily eaten without further cooking shall be subjected to a process sufficient to destroy pathogenic bacteria, parasites and the cystic forms of parasites.

(2) The operator of a plant shall, when requested, furnish the administrative officer with the particulars of the process used as required by subsection 1. R.R.O. 1960, Reg. 516, s. 30.

31. No meat or manufactured meat product shall be shipped from a plant for distribution as a frozen food unless it has first been frozen in a sharp freeze room. R.R.O. 1960, Reg. 516, s. 31.

32.—(1) Heads used for food shall be free of hair, scurf, brains, eyes, eardrums, teeth and turbinate and ethmoid bones.

(2) Feet used for food shall be free of hair and scurf. R.R.O. 1960, Reg. 516, s. 32.

33. Where a mark is applied directly to meat, the mark shall be made by a non-toxic substance. R.R.O. 1960, Reg. 516, s. 33.

34. Dogs and cats shall not be permitted in a plant. R.R.O. 1960, Reg. 516, s. 34.

35. The following temperatures shall be maintained in a plant:

- 1. In a chill room, not less than 32° F. and not more than 42° F.
- 2. In a room in which meat or a manufactured meat product is stored, not less than 32° F. and not more than 42° F.
- 3. In a room in which meat or a manufactured meat product is cured, not less than 38° F. and not more than 42° F.
- 4. In a sharp freeze room, 0° F. R.R.O. 1960, Reg. 516, s. 35.

PERSONNEL

36.—(1) No person shall perform work that brings him in contact with meat or a manufactured meat product in a plant unless,

- (a) he is clean;
- (b) he is free from and not a carrier of a disease that may be spread through the medium of food;
- (c) he submits to such examinations and tests as the local medical officer of health or the Minister requires; and
- (d) he wears clean washable outer garments and headgear that covers his hair.

(2) No person who,

- (a) has a communicable skin disease or infection; or
- (b) has resided in premises while a communicable disease has occurred therein,

shall perform work that brings him in contact with meat or a manufactured meat product in a plant unless he has obtained a certificate from the local medical officer of health that he is free from and not a carrier of any disease that may be spread through the medium of food. R.R.O. 1960, Reg. 516, s. 36.

37. No person shall engage in handling meat or a manufactured meat product while he is the bearer of any substance that might contaminate the meat or meat product. R.R.O. 1960, Reg. 516, s. 37.

38.—(1) Every plant shall, for the use of the employees, be provided with,

- (a) washing facilities, provided with soap and hot and cold water;
 - (b) a clean towel for the exclusive use of each employee;
 - (c) dressing rooms, separate for each sex, sufficient for all employees to change and store their clothing in clean and sanitary conditions; and
 - (d) separate water closets or privies for each sex.
- (2) Every water closet shall be,
- (a) located so that it does not open directly into any room containing meat or a manufactured meat product;
 - (b) equipped with a full-length doors; and
 - (c) ventilated and fully lighted. R.R.O. 1960, Reg. 516, s. 38.

39. Where a privy other than a water closet is used, it shall be separate from any other building, be fly-tight and equipped with self-closing doors. R.R.O. 1960, Reg. 516, s. 39.

40. All privies and washing facilities and the rooms used in connection therewith shall be kept clean and sanitary and in good repair. R.R.O. 1960, Reg. 516, s. 40.

INSPECTION

41. Every slaughterhouse and meat processing plant and every operation connected with slaughtering and the processing of meat are subject to the inspection of the administrative officer or any other officer of the Department designated by him. R.R.O. 1960, Reg. 516, s. 41.

42. The administrative officer may take or cause to be taken samples of meat, manufactured meat

products or any ingredient used in the manufacture thereof to determine whether it is likely to cause illness or is fit for human consumption. R.R.O. 1960, Reg. 516, s. 42.

RECORDS

43.—(1) Every operator shall maintain records of purchases of livestock and meats for process or manufacture, and of slaughtering.

(2) The records mentioned in subsection 1 shall include,

- (a) the name and address of the person from whom the meat or livestock is purchased and the date of the purchase;
- (b) live weight or dressed weight of animals for slaughter;
- (c) the weight of meat intended for process or manufacture; and
- (d) the number and kind of animals slaughtered, and the date of slaughtering.

(3) The records mentioned in subsections 1 and 2 shall be open to inspection by an officer of the Department designated by the administrative officer. R.R.O. 1960, Reg. 516, s. 43.

CLOSURE

44.—(1) Where the administrative officer finds in a plant any condition that is or may become dangerous to health or may hinder in any manner the suppression of disease, he may order that the plant be closed and remain closed until the condition or conditions have been rectified.

(2) The administrative officer, after he has issued the order referred to in subsection 1, shall within twenty-four hours of issuing the order give notice thereof in writing to the operator of the plant and shall include the reasons for making the order. R.R.O. 1960, Reg. 516, s. 44.

REGULATION 720

under The Public Health Act

SUMMER CAMPS

INTERPRETATION

1. In this Regulation,

- (a) "operator" means every person who by himself or by his agents owns or operates a summer camp;
- (b) "summer camp" means a camp or summer resort consisting of one or more tents, cabins, vehicles, buildings or other structures together with the land appertaining thereto, established or maintained as living quarters, with or without charge, for ten or more persons for temporary occupancy of three or more days but does not include labour camps, agricultural camps, construction camps or other premises commonly known as highway tourist camps or boarding houses or lodging houses for tourists. R.R.O. 1960, Reg. 518, s. 1.

2.—(1) No summer camp shall be opened or operated and no accommodation shall be offered until a licence so to do has been obtained from the Department by the operator.

(2) Every licence expires on the last day of the calendar year in which the licence is issued and shall be renewed each year.

(3) The Minister may suspend or revoke any licence if the Minister is satisfied that the summer camp for which the licence was issued does not comply with this Regulation. R.R.O. 1960, Reg. 518, s. 2.

3. Every summer camp shall be located on a site that is well drained and not in an environment prejudicial to health. R.R.O. 1960, Reg. 518, s. 3.

4. No person suffering from or known to be a carrier of a communicable disease shall be admitted to or employed in any summer camp. R.R.O. 1960, Reg. 518, s. 4.

5. Every summer camp shall be under the continuous supervision of an attendant who shall exercise every reasonable effort to keep the camp in a clean and sanitary condition and to afford reasonable protection to the persons using the camp. R.R.O. 1960, Reg. 518, s. 5.

6. Every summer camp accommodating children under sixteen years of age shall be under the direct

care and supervision of a responsible and competent adult. R.R.O. 1960, Reg. 518, s. 6.

7. Adequate medical care shall be provided at or be conveniently available to all summer camps. R.R.O. 1960, Reg. 518, s. 7.

8. Adequate sleeping accommodation shall be provided for each occupant of the camp and the arrangement of sleeping places and the number of beds in relation to floor area and ventilation in tents and other buildings shall meet generally accepted standards. R.R.O. 1960, Reg. 518, s. 8.

9. Ventilation in sleeping quarters, kitchens, dining rooms and other buildings shall be such as to provide a reasonable movement of air and to assure the comfort of the occupants. R.R.O. 1960, Reg. 518, s. 9.

10. The doors and windows of kitchens, dining rooms and other buildings shall be adequately screened. R.R.O. 1960, Reg. 518, s. 10.

11. All permanent buildings in which persons are housed shall provide ready exit in case of fire and shall be equipped with sufficient fire extinguishers or other fire-fighting apparatus. R.R.O. 1960, Reg. 518, s. 11.

12.—(1) Every summer camp shall be provided with an adequate water supply for drinking and domestic purposes and only water that is of safe, sanitary quality shall be delivered to the camp or be accessible to the occupants for drinking or domestic use.

(2) The water supply shall be readily available for camp use and shall be placarded as the camp water supply.

(3) Wells or springs used as sources of water supply shall be so constructed and located as to preclude their pollution by seepage or drainage from any source.

(4) No common drinking cup shall be used but sanitary drinking fountains or individual drinking cups may be used. R.R.O. 1960, Reg. 518, s. 12.

13. All tents, buildings and grounds of summer camps shall be maintained in a clean and sanitary condition at all times. R.R.O. 1960, Reg. 518, s. 13.

14. Every summer camp shall be provided with convenient and sufficient sanitary accommodation properly designated for each sex and such facilities

shall be so located, constructed and maintained that they do not become offensive, become breeding places for flies or cause pollution of any adjacent waters. R.R.O. 1960, Reg. 518, s. 14.

15. All toilet seats shall be thoroughly scrubbed daily with soap or alkali solutions and all privies and buildings containing sanitary accommodation shall be equipped with self-closing, tight-fitting doors and all windows, doors and other openings shall be screened against flies. R.R.O. 1960, Reg. 518, s. 15.

16. Sewage, soil from privies, sink waste, laundry water, bath water and other liquid waste from the camp shall be disposed of in a sanitary manner and all such deposited material shall be covered immediately with earth to a depth of at least nine inches and shall not be deposited in any area where it is likely to cause pollution of any water supply. R.R.O. 1960, Reg. 518, s. 16.

17. Laundry operations shall not be carried on in natural waters adjacent to or within a summer camp. R.R.O. 1960, Reg. 518, s. 17.

18. Only milk, cream or other milk products that have been pasteurized in a pasteurization plant to which a certificate of approval has been issued under the regulations regarding milk pasteurization plants shall be sold, offered for sale, delivered to or used in any summer camp. R.R.O. 1960, Reg. 518, s. 18.

19. Adequate facilities shall be provided for storage, handling and protection of food and milk supplies and cold storage shall be available for storing all perishable foods. R.R.O. 1960, Reg. 518, s. 19.

20.—(1) Adequate facilities, including a plentiful supply of hot water shall be provided for washing all dishes and utensils used at a camp.

(2) Soap or other washing compound shall be used to wash dishes and utensils free from all grease and film and the dishes and utensils shall then be immersed for at least two minutes in warm water containing at least 100 parts per million of available chlorine. R.R.O. 1960, Reg. 518, s. 20.

21. Covered, water-tight metal receptacles for depositing refuse and camp litter shall be provided in convenient locations and all such refuse shall be collected daily and burned, buried or removed so that no nuisance or offence is created. R.R.O. 1960 Reg. 518, s. 21.

22.—(1) Children under the age of sixteen years shall not be permitted to bathe at swimming pools or bathing beaches unless they are under the supervision of a competent attendant trained in life saving procedure.

(2) Suitable life saving equipment shall be available at swimming pools or bathing beaches.

(3) Where bathing beaches or other bathing areas are in use, the water shall be free from dangerous pollution. R.R.O. 1960, Reg. 518, s. 22.

23. All buildings and all sanitary accommodation in summer camps shall be adequately lighted. R.R.O. 1960, Reg. 518, s. 23.

REGULATION 721

under The Public Health Act

X-RAY SAFETY

1. In this Regulation,

- (a) "dose" means the quantity of energy absorbed per unit of mass by any material from X-rays, or from secondary particles generated by X-rays, falling upon or penetrating the material, and "dose-rate" means dose per unit of time;
- (b) "dosemeter" means any device that, in the opinion of the Minister, may be reliably used for measuring or estimating dose or dose-rate;
- (c) "inspector" means an inspector appointed for the purpose of this Regulation and includes the chief inspector and a medical inspector;
- (d) "medical inspector" means a legally qualified medical practitioner appointed for the purpose of this Regulation;
- (e) "owner of an X-ray machine or owner of an X-ray source" means, respectively, a person in possession of an X-ray machine or a person in possession of an X-ray source, who has discretionary authority over its use;
- (f) "permanent X-ray location" means an enclosure, room or localized space within the bounds of which the owner of an X-ray machine confines or intends to confine its use;
- (g) "rad" means a unit of dose and is realized when 100 ergs of energy have been absorbed per gram of matter, and "millirad" means a submultiple of a unit of dose equal to 0.001 rad;
- (h) "rem" means a unit of dose equivalent, defined and used in the Atomic Energy Control Regulations of Canada in relation to nuclear radiations and applicable as a unit of X-ray dose on the basis that one rem equals one rad;
- (i) "shield" or "shielding" means a material barrier interposed in the path of a flow of X-rays and having the effect of reducing the dose or dose-rate experienced by any object located beyond the shield;
- (j) "X-ray machine" means an electrically powered device, the principal purpose and function of which is the production of X-rays;
- (k) "X-ray source" means any device, or that portion of it, which emits X-rays, whether or not the principal purpose and function of the device is the production of X-rays;
- (l) "X-ray worker" means any person whose occupation,
 - (i) as owner of an X-ray source,
 - (ii) as employee of an owner of an X-ray source,
 - (iii) as a person providing professional or trade services under contract to an owner of an X-ray source, or
 - (iv) as a student undergoing a course of instruction provided by the owner of an X-ray source,
 requires him to use or operate an X-ray source or to enter regularly a space in which an X-ray source is being operated.
- (m) "X-rays" means artificially produced electromagnetic radiation of wave length shorter than twenty-five one thousand millionths of a centimetre. O. Reg. 29/69, s. 1.

2.—(1) The Minister may appoint one or more inspectors, one of whom shall be designated chief inspector and may appoint one or more medical inspectors, for the purpose of this Regulation.

(2) Every inspector shall be furnished with a certificate of his appointment under the hand and seal of the Minister and, on applying for admission to any premises, he shall, upon demand, produce the certificate. O. Reg. 29/69, s. 2.

3. This Regulation does not apply to the owner of an X-ray source,

- (a) that in every mode of operation produces a dose-rate of less than 0.1 millirad per hour in the body, or in any portion of the body, of any person regardless of his location with respect to the source;

- (b) that contains, as a component essential to the operation of the device of which it is part, a quantity of a radioactive material that is licensable under the *Atomic Energy Control Act* (Canada) and the regulations thereunder; or
- (c) that, in some mode of operation, produces X-rays or other radiation capable of inducing radioactivity in matter on which they fall. O. Reg. 29/69, s. 3.

4.—(1) Every person who,

- (a) is the owner of an X-ray machine when this Regulation comes into force; or
- (b) becomes the owner of an X-ray machine after this Regulation comes into force,

shall register with the Department within ninety days after this Regulation comes into force or he becomes the owner of an X-ray machine, as the case may be.

(2) An application for registration shall be in Form 1.

(3) The owner of an X-ray source that is not an X-ray machine shall register with the Department if so required by the Department.

(4) When a person who is registered as the owner of an X-ray machine or X-ray source under this section ceases to be the owner of any machine or source, he shall notify the Department within thirty days thereafter. O. Reg. 29/69, s. 4.

5.—(1) No owner of an X-ray source shall employ as an X-ray worker any person,

- (a) who is under eighteen years of age, except in the circumstances described in subsection 2;
- (b) who is known by him to be pregnant, unless he limits the dose receivable by such person in accordance with that specified in Part 1 of Appendix A, for X-ray workers, Category 2; or
- (c) who has been found by a medical inspector to be unfit for such employment.

(2) An owner of an X-ray source may permit a person who is,

- (a) over sixteen but under eighteen years of age; and
- (b) undergoing a course of training in a profession or trade in which a knowledge of X-rays is required,

to perform, under safety supervision and by way of practice, those duties of an X-ray worker which must be learned as a part of the course of training. O. Reg. 29/69, s. 5.

6.—(1) Subject to subsection 4, the owner of an X-ray source shall, when so required by the chief inspector on the advice of the medical inspector, arrange for the medical examination of an X-ray worker employed by the owner, at the expense of the owner.

(2) The examination required under subsection 1 shall be prescribed by the medical inspector and shall include such special tests as he may deem necessary.

(3) The report of the examination shall be submitted to the medical inspector within a reasonable time after the examination.

(4) Subsection 1 does not apply to an X-ray worker who is also a person mentioned in clause *a* or clause *b* of subsection 1 of section 9. O. Reg. 29/69, s. 6.

7.—(1) The owner of an X-ray source shall organize the use of the source so that,

- (a) an X-ray worker is unlikely to be exposed to doses in excess of those mentioned in Part 1 of Appendix A;
- (b) a person who is not an X-ray worker is unlikely to be exposed to doses in excess of those mentioned in Part 2 of Appendix A; and
- (c) in the case of an X-ray machine used for irradiation of human beings, a person who is a patient undergoing an application of therapeutic or diagnostic X-rays, prescribed by a person mentioned in clause *a* or clause *b* of subsection 1 of section 9 does not receive an unnecessarily high dose to the region of his body mentioned in the prescription or a reasonably avoidable dose to other regions of his body.

(2) Where, in the course of application of X-rays to a patient, it is not feasible for a person mentioned in clause *a* or clause *b* of subsection 1 of section 9 to limit his exposure as prescribed by clause *a* of subsection 1, the owner shall take all reasonable steps, including those prescribed by the Department, to minimize the exposure of such persons.

(3) Where the owner of an X-ray source employs an X-ray worker,

- (a) who is also an "atomic energy worker" as defined in the Atomic Energy Control Regulations of Canada; and

- (b) whose total exposure for this reason may be due both to X-rays and to other radiations of similar effect on the human body,

the owner shall restrict the part of the X-ray worker's exposure which is due to X-rays so that his combined dose is unlikely to exceed the limits specified in the Atomic Energy Control Regulations of Canada. O. Reg. 29/69, s. 7.

8.—(1) The owner of an X-ray source shall, before an X-ray worker uses the X-ray source, provide the worker with instruction on how to operate it with safety to himself and others, and the owner shall satisfy himself that the instructions are understood by the X-ray worker.

(2) The X-ray worker shall follow the safety instructions given to him by the owner. O. Reg. 29/69, s. 8.

9.—(1) No owner of an X-ray machine shall permit his machine to be used for the purposeful irradiation of human beings,

- (a) by the therapeutic application of X-rays unless the course of X-ray treatment has been prescribed by a legally qualified medical practitioner; or
- (b) by the diagnostic application of X-rays unless the application has been prescribed by,
 - (i) a legally qualified medical practitioner, with respect to any region of the body,
 - (ii) a member of The Royal College of Dental Surgeons of Ontario in the course of the practice of his profession,
 - (iii) a person registered as a chiropractor under Regulation 228 of Revised Regulations of Ontario 1970, with respect to any region of the body,
 - (iv) a person registered as an osteopath under Regulation 232 of Revised Regulations of Ontario 1970, with respect to any region of the body, or
 - (v) a person registered as a chiropodist under Regulation 90 of Revised Regulations of Ontario, 1970, in the course of the practice of his profession.

(2) An owner of an X-ray machine may permit a person mentioned in clause *a* or *b* of subsection 1 to delegate the task of administering the prescribed application of therapeutic or diagnostic X-rays to a human being if the person to whom the task is delegated is,

- (a) a radiological technician registered under *The Radiological Technicians Act*; or

- (b) adequately trained in the opinion of the person prescribing the application and is subject to supervision to the extent considered necessary by him.

(3) Nothing in subsections 1 and 2 shall be deemed to exempt any persons mentioned therein from the general application of this Regulation.

(4) Where a person mentioned in clause *b* of subsection 1 is not available to prescribe the application of a course of diagnostic X-rays in an emergency,

- (a) a veterinary surgeon; or

- (b) a person to whom a task of applying therapeutic or diagnostic X-rays has been delegated,

may apply diagnostic X-rays to a human being. O. Reg. 29/69, s. 9.

10.—(1) An owner of an X-ray machine shall not permit his machine to be used for purposes of industrial radiography unless he has arranged that such use is exercised,

- (a) in the case of a permanent X-ray location which has been approved by the Department under section 11, under the supervision of a certified junior or senior industrial radiographer; and
- (b) in cases other than that mentioned in clause *a*, under the supervision of a certified senior industrial radiographer.

(2) The certifications referred to in subsection 1 shall be in accordance with the current standard for certification of industrial radiographic personnel issued as Standard 48-GP-4 by the Canadian Government Specifications Board. O. Reg. 29/69, s. 10.

11.—(1) On and after the date upon which this Regulation comes into force, no person shall install an X-ray machine in a place which is intended as a permanent X-ray location and the owner of the premises shall not permit such installation unless the approval of the Department therefor has been obtained.

(2) An application for the approval referred to in subsection 1 shall be in forms 2 and 3 and shall be accompanied by plan location drawings in duplicate which shall,

- (a) be to scale;

- (b) identify the owner of the X-ray machine and the owner of the premises;

- (c) show the proposed location of the X-ray machine;
- (d) indicate the occupancy of adjacent rooms, offices or other accommodation, including those above and below the space in which the X-ray machine is to be installed; and
- (e) indicate the additional structural shielding to be installed on the boundaries of the space in which the X-ray machine is to be installed.

(3) After an owner has obtained the approval referred to in subsection 1, he shall not,

- (a) install an X-ray machine of a type different from that for which the space was approved; or
- (b) install more X-ray machines in the space than were allowed for in the approval,

unless he has sought and obtained approval from the Department therefor.

(4) If so requested by the chief inspector, the owner of an X-ray machine which has been installed and used in a permanent X-ray location before this Regulation came into force shall submit to the Department the drawings and information mentioned in subsection 2 with respect to the space in which the X-ray machine is located. O. Reg. 29/69, s. 11.

12. An owner of an X-ray source shall, for the purpose of this Regulation,

- (a) permit an inspector to enter, at any reasonable time, the place where the X-ray source is used;
- (b) furnish such information as the inspector may request, concerning,
 - (i) the extent and manner of use of the X-ray source,
 - (ii) the qualifications and training of the X-ray workers,
 - (iii) the protective procedures which he has established, and
 - (iv) where an incident involving the over-exposure of any person has occurred, the technical circumstances attending the incident;

- (c) permit the inspector to make such technical tests as he may require in order to establish an estimate of the dose which an X-ray worker or other person in the vicinity of the X-ray source may receive or may have received; and
- (d) permit a medical inspector to interview X-ray workers and facilitate his review of medical examination records pertaining to such workers. O. Reg. 29/69, s. 12.

13.—(1) The owner of an X-ray source shall,

- (a) install such structural or other shielding as the Department may direct to prevent persons inside or outside the space in which the X-ray source is used from receiving excessive or unnecessary doses;
- (b) modify, as the Department may direct the X-ray source or the manner in which it is used for the purpose of reducing the dose receivable by persons who are not patients or of preventing patients from receiving unnecessary doses;
- (c) when directed by the Department, post radiation warning signs or install warning devices prescribed by the Department;
- (d) post in a place where it can be read by X-ray workers and others such printed placards as may be supplied by the Department on which there appears an abstract of this Regulation or of some part thereof;
- (e) when directed by the Department, provide X-ray workers with personal or survey dosimeters;
- (f) provide such safety training for X-ray workers as the Department may direct; and
- (g) when so directed by the Department, discontinue the use of an X-ray source, until such changes have been made respecting it or its manner of operation, as the Department may direct.

(2) The Department's direction to the owner of an X-ray source shall be in writing and specify the time within which compliance shall be effected. O. Reg. 29/69, s. 13.

APPENDIX A

PART 1

NORMAL UPPER LIMITS FOR OCCUPATIONAL DOSE
ACCUMULATION BY X-RAY WORKERS

Organ, Tissue or Body Region Subject to X-ray Exposure	Category of X-ray Worker	Dose Accumulation Period (Consecutive Weeks)	Normal Upper Limit for Dose Accumulated in Organ or Region in Relevant Period
Pelvic and abdominal	1	13 52	1.3 rads 5 rads
Pelvic and abdominal	2	balance of term	1 rad
Bone-marrow	1, 2, 3	13 52	3 rads 5 rads
Whole body and gonads	3	13 52	3 rads 5 rads
Skin, bone, thyroid	1, 2, 3	13 52	15 rads 30 rads
Hands and forearms, feet and ankles	1, 2, 3	13 52	38 rads 75 rads
Other single organs	3	13 52	8 rads 15 rads
Other single organs (not pelvic or abdominal)	1, 2	13 52	8 rads 15 rads

Category 1 — Female X-ray workers not known to be pregnant but in the child-bearing years.

Category 2 — Female X-ray workers known to be pregnant.

Category 3 — All other X-ray workers.

NOTE: Where an X-ray worker is also an "atomic energy worker" as defined in the Atomic Energy Control Regulations of Canada, the normal upper limits for combined occupational dose accumulation from X-rays and from other radiations having a similar effect on the body can be read from the foregoing schedule on substitution of the word 'rem' for the word 'rads'.

APPENDIX A

PART 2

NORMAL UPPER LIMITS FOR DOSE ACCUMULATION BY PERSONS, OTHER THAN PATIENTS UNDERGOING AN APPLICATION OF THERAPEUTIC OR DIAGNOSTIC X-RAYS, WHO ARE NOT X-RAY WORKERS

Organ or Tissue Subject to X-Ray Exposure	Normal Upper Limits for Dose Accumulated in Organ or Tissue in one year
Whole body, gonads and bone-marrow	0.5 rads
Skin, bone, thyroid	3 rads
Hands and forearms, feet and ankles	7.5 rads
Other single organs	1.5 rads

The Public Health Act

APPLICATION FOR OWNERSHIP
REGISTRATION

Under *The Public Health Act* and the regulations made thereunder, the *undersigned as owner ☐ or as agent for the owner ☐ of an X-ray machine or of more than one X-ray machine applies for registration with the Department of Health.

1. The name of the owner is.....

2. His business address and telephone number are

.....
(business address) (telephone no.)

3. The owner of the premises in which the X-ray machine(s) is(are) located is: the same ☐; or

.....
(name)

.....
(address) (telephone no.)

4. The general nature of the owner's business is:
X-ray manufacturer, dealer or repair contractor ☐; other industrial ☐; other commercial ☐; educational ☐; research ☐; government ☐; hospital ☐; medical practice ☐; dental practice ☐; chiropractic practice ☐; osteopathic practice ☐; chiropodist practice ☐; veterinary practice ☐; other (specify).....

5. The number of X-ray machines owned at this date is:.....

6. The number of X-ray workers involved with the owner's X-ray machine(s) is:.....

7. The number of X-ray machines which the owner may remove for use outside premises is:.....

8. The owner undertakes to notify the Department of any change of business address.

Application No.....
Approval No.....
Approval Date.....

The Public Health Act

APPLICATION FOR APPROVAL OF
PERMANENT X-RAY LOCATION

Under *The Public Health Act* and the regulations
made thereunder, the undersigned,

* as architect ☐ contractor ☐ owner ☐
engineer ☐ or agent ☐

applies for approval by the Department of Health in
accordance with the drawings and specifications,
submitted herewith in duplicate, of

a space ☐ spaces ☐

for the permanent location of

an X-ray machine ☐ X-ray machines ☐

and in support thereof states the following facts:

1. The owner of the premises in which the space(s)
is(are) located is.....
(name)
.....
(postal address)

2. The premises are identified as.....
(name of building)
.....
(street address, municipality, postal zone)

3. The owner of the X-ray machine(s) is
.....
(name)
.....
(postal address)

4. The drawings and specifications were prepared by
.....
(name of architect or other)
.....
(postal address)

5. The space(s) is (are) allocated for the purpose of,

- (a) the practice of a healing art,
medical X-ray therapy ☐
medical X-ray diagnosis ☐
dental X-ray diagnosis ☐
X-ray diagnosis by a chiropractor ☐,
osteopath ☐, chiroprapist ☐ or veteri-
nary X-ray diagnosis or therapy ☐;
- (b) operational training or instruction with an
X-ray machine ☐;
- (c) scientific or industrial applications of X-rays,
industrial radiography ☐
process or process control ☐
research or laboratory testing ☐
testing, repairing or demon-
strating X-ray machine ☐;
- (d) other use (specify).....

6. This application is accompanied by one com-
pleted Form 3 for each space for which approval
is sought.

*NOTE: Insert × in all applicable boxes.

O. Reg. 29/69, Form 3.

REGULATION 722

under The Public Hospitals Act

CAPITAL FINANCIAL ASSISTANCE FOR HOSPITAL CONSTRUCTION AND RENOVATION

1. In this Regulation,

- (a) "approved cost" means the cost of,
- (i) the construction of new buildings and facilities or the renovation of existing buildings and facilities to be used for the diagnosis and treatment of patients and the proper functioning of a hospital and for other health facilities,
 - (ii) fees that are approved by the Commission and paid to an architect for his services and the services of his consulting engineers,
 - (iii) fees that are approved by the Commission for consultants, other than those paid through the architect,
 - (iv) necessary basic equipment and furnishings, including elevators and air-conditioning in operating rooms, labour and delivery rooms, nurseries and any other areas of the hospital approved by the Commission as requiring air-conditioning,
 - (v) land surveys and soil tests, and
 - (vi) necessary paving and sodding,

but does not include the cost of,

- (vii) land, demolition of existing buildings and other clearance of the site,
- (viii) contingency allowances,
- (ix) financing charges,
- (x) chapel furnishings,
- (xi) landscaping, gardens, works of art, murals, busts, statues and similar decorations,
- (xii) residence accommodation,
- (xiii) campaign costs for raising the hospital's one-third of the approved cost,

(xiv) working capital, or

(xv) facilities for ancillary revenue-producing operations;

- (b) "basic equipment" means all equipment approved by the Commission that is necessary and reasonable to enable a hospital to commence its function as determined at the time of its completion and includes all such equipment that is installed and ready for use not later than twelve months from the date of completion of the hospital.
- (c) "differential" means the difference between the per diem rate approved for a hospital for providing insured services under *The Hospital Services Commission Act* at the standard or public ward level and the hospital charges approved by the Commission for preferred accommodation in the hospital, less the bad debts in respect of the preferred accommodation;
- (d) "loan" means a loan provided under section 6 of the Act;
- (e) "preferred accommodation" means private and semi-private accommodation in a hospital; and
- (f) "renovation program" means a plan to provide adequate accommodation therein by the major renovation or alteration of a hospital, an organized out-patient department, auxiliary services accommodation or any part thereof that has become obsolete or otherwise inadequate. O. Reg. 302/66, s. 1; O. Reg. 81/68, s. 1.

2.—(1) Where the contract for the construction of new hospital buildings or the renovation of existing hospital buildings was signed on or after the 1st day of June, 1966, the Commission shall pay capital financial assistance for the construction or renovation program.

(2) The capital financial assistance under subsection 1 shall amount to two-thirds of the approved cost and shall consist of the grants referred to in subsection 3 and the loan referred to in subsection 4.

(3) The Commission shall retain the hospital construction grants paid by the Department of National Health and Welfare and the grants authorized by Regulation 727 of Revised Regulations of Ontario, 1970 in respect of the new construction and renovation.

(4) The Commission shall make a loan to the hospital in an amount equal to the difference between the capital financial assistance under subsection 2 and the total amount retained and recovered under subsection 3. O. Reg. 302/66, s. 2.

3.—(1) Where the construction of new hospital buildings or the renovation of existing hospital buildings was commenced but not completed before the 1st day of June 1966, a hospital may apply to the Commission for capital financial assistance in the construction or renovation program.

(2) The capital financial assistance under subsection 1 shall consist of the grants referred to in subsection 3 and the loan referred to in subsection 4 and shall be an amount which shall bear the same relation to two-thirds of the approved cost as the cost of the proportion of the construction or renovation program still to be completed after the 1st day of June, 1966 bears to the total approved cost of the construction or renovation program as approved by the Commission.

(3) The Commission shall retain or recover that part of the sum total of the hospital construction grants paid by the Department of National Health and Welfare plus the capital grants authorized by Regulation 727 of Revised Regulations of Ontario, 1970 which shall bear the same relation to two-thirds of the approved cost as the cost of the proportion of the construction or renovation program still to be completed after the 1st day of June, 1966 bears to the total approved cost of the construction or renovation program as approved by the Commission.

(4) The Commission shall make a loan to the hospital in an amount equal to the difference between the capital financial assistance under subsection 2 and the total amount retained or recovered by the Commission under subsection 3. O. Reg. 302/66, s. 3, *amended*.

4. Where a Northern Ontario Grant is made under section 10 of Regulation 727 of Revised Regulations of Ontario, 1970 the amount of such grant shall form part of the hospital's one-third of the approved cost as if it had been received by the hospital from a municipality. O. Reg. 302/66, s. 4.

5. Where the actual cost of the construction or of the renovation program differs from the total approved cost of the construction or renovation program as approved by the Commission, the Commission may make any adjustment in the amount of the capital financial assistance that the Commission deems proper. O. Reg. 302/66, s. 5.

6.—(1) Before any capital financial assistance is provided to a hospital, the hospital shall enter into an agreement with the Commission. O. Reg. 302/66, s. 6 (1).

(2) The agreement may provide for the payment of principal and interest by means of deductions by the Commission from payments made by the Commission to the hospital for the operating cost of the hospital.

(3) The agreement shall provide,

(a) the term of the loan, which shall not exceed twenty years;

(b) the rate of interest on the loan;

(c) for the payment at any time, at the option of the hospital, of earned interest and the accelerated repayment of principal, in all or in part, without notice or bonus;

(d) that the hospital shall apply, half-yearly, to the payment of the interest and principal of the loan an amount equal to three-eighths of the differential derived from the new construction, new facilities and renovation completed with the capital financial assistance provided under this Regulation; and

(e) that the hospital shall apply, half-yearly, to the payment of the interest and principal of the loan an amount equal to the difference between,

(i) the semi-annual amortization payment of the principal and the interest of the loan portion of the capital financial assistance amortized for the term of the loan, and

(ii) the amount referred to in clause *d*. O. Reg. 302/66, s. 6 (2); O. Reg. 81/68, s. 2.

7. The Commission shall pay, half-yearly, to the hospital an amount equal to the amount mentioned in clause *e* of subsection 3 of section 6. O. Reg. 302/66, s. 7; O. Reg. 81/68, s. 3.

8. Before an agreement is made under section 6 the Commission may pay to a hospital two thirds of the fees approved by the Commission and earned by,

(a) consultants required prior to the preparation of the architect's preliminary sketch-plans for the planning of a new hospital or the development of an expansion or renovation program for an existing hospital; and

(b) an architect and consultants approved by the Commission,

- (i) for the development of preliminary sketch-plans of new hospital buildings and facilities or of an expansion or renovation program, when such sketch-plans have been approved by the Commission, and
- (ii) for the completion of final working drawings, when such completed working drawings have been approved by the Commission. O. Reg. 81/68, s. 4.

9. Capital financial assistance under this Regulation shall be paid to a hospital in instalments as follows:

1. One-fifth when the Commission has given final approval for the construction of new buildings or a renovation program and the agreement under section 6 is signed, less any part of the capital financial assistance that has been paid to the hospital under section 8.
2. One-tenth when one-eighth of the work is completed.
3. One-tenth when one-quarter of the work is completed.
4. One-tenth when three-eighths of the work is completed.
5. One-tenth when one-half of the work is completed.
6. One-tenth when five-eighths of the work is completed.
7. One-tenth when three-quarters of the work is completed.
8. One-tenth when seven-eighths of the work is completed.
9. The balance when the approved construction of new buildings or renovation program is completed and the buildings and facilities are furnished, equipped and ready to receive and treat patients. O. Reg. 81/68, s. 5.

REGULATION 723

under The Public Hospitals Act

CAPITAL GRANTS FOR AMBULANCE FACILITIES

1. In this Regulation,

(a) "approved cost" means the cost of,

- (i) the construction of new buildings or the renovation program for existing buildings to be used for an ambulance facility,
- (ii) fees that are approved by the Commission and paid to an architect for his services and the services of his consulting engineers,
- (iii) necessary basic equipment and furnishings and the installation thereof,
- (iv) land acquired for the ambulance facility, demolition of existing buildings and other clearance of site,
- (v) land surveys and soil tests, and
- (vi) necessary paving and sodding,

on or after the 1st day of January, 1968, but does not include,

- (vii) financing charges,
- (viii) working capital and preopening expenses,
- (ix) contingency allowances, or
- (x) landscaping, gardens, works of art, murals, busts, statues and similar decorations;

(b) "basic equipment" means all equipment approved by the Commission that is necessary and reasonable to enable an ambulance facility to commence its function as determined at the time of its completion and includes all such equipment that is installed and ready for use not later than twelve months from the date of completion of the ambulance facility;

(c) "renovation program" means a plan to provide adequate accommodation therein for an ambulance facility by the major renovation or alteration of a hospital or other building. O. Reg. 335/68, s. 1.

2.—(1) The capital grant under subsection 2 shall amount to the approved cost.

(2) Where the contract for the construction of new buildings or the renovation program for existing buildings for an ambulance facility was signed by a hospital on or after the 1st day of January, 1968, the Commission shall pay the hospital a capital grant for the construction or renovation program.

(3) The Commission shall retain any grants paid by the Department of National Health and Welfare and any grants authorized by Regulation 727 of Revised Regulations of Ontario, 1970 in respect of the construction and renovation program.

(4) A hospital receiving a capital grant under this Regulation shall not be paid capital financial assistance for the ambulance facility under Regulation 722 of Revised Regulations of Ontario, 1970. O. Reg. 335/68, s. 2.

3. Where the actual cost of the construction or of the renovation program differs from the total cost as approved by the Commission, the Commission may make any adjustment in the amount of the capital grant that the Commission considers proper. O. Reg. 335/68, s. 3.

4.—(1) The capital grant shall be paid in instalments as follows:

- 1. One-quarter when one-quarter of the work is completed.
- 2. One-quarter when one-half of the work is completed.
- 3. One-quarter when three-quarters of the work is completed.
- 4. The balance when the approved construction of new buildings or renovation program is completed and the buildings are furnished, equipped and ready to function as an ambulance facility.

(2) The Commission may pay to a hospital out of the capital grant the cost of acquiring any necessary land for the ambulance facility when the land and its acquisition have been approved by the Commission, and the remainder of the capital grant shall be paid in accordance with subsection 1. O. Reg. 335/68, s. 4.

REGULATION 724

under The Public Hospitals Act

CAPITAL GRANTS FOR REGIONAL REHABILITATION HOSPITALS

1. In this Regulation,

- (a) "approved cost" means the cost of,
- (i) the construction of new buildings or the renovation program for existing buildings to be used for a regional rehabilitation hospital,
 - (ii) fees that are approved by the Commission and paid to an architect for his services and the services of his consulting engineers,
 - (iii) fees that are approved by the Commission for consultants, other than those paid through the architect,
 - (iv) necessary basic equipment and furnishings and the installation thereof, including elevators and air-conditioning in areas of the hospital approved by the Commission as requiring air-conditioning,
 - (v) land acquisition, demolition of existing buildings and other clearance of site,
 - (vi) land surveys and soil tests, and
 - (vii) necessary paving and sodding,
- but does not include,
- (viii) financing charges,
 - (ix) working capital and preopening expenses,
 - (x) contingency allowances,
 - (xi) chapel furnishings,
 - (xii) landscaping, gardens, works of art, murals, busts, statues and similar decorations, or
 - (xiii) facilities for ancillary revenue-producing operations;

- (b) "basic equipment" means all equipment approved by the Commission which is necessary and reasonable to enable a

regional rehabilitation hospital to commence its function as determined at the time of its completion and includes all such equipment which is installed and ready for use not later than twelve months from the date of completion of the hospital;

- (c) "regional rehabilitation hospital" means a hospital or a separate, organized department of a hospital under the direction of a physician in which special rehabilitation services are provided on the prescription of a physician to disabled persons, treated as in-patients or out-patients, to restore them to health and assist them to adjust so as to function at the best physical, mental, social and vocational level of which they are capable that is designated by the Commission as a hospital to provide such special services for persons in a specified region of Ontario; and
- (d) "renovation program" means a plan to provide adequate accommodation therein by the major renovation or alteration of a hospital or other building, an organized out-patient department, auxiliary services accommodation or any part thereof that is obsolete or otherwise inadequate. O. Reg. 283/67, s. 1.

2.—(1) The capital grant under subsection 2 shall amount to the approved cost.

(2) Where the contract for the construction of new buildings or the renovation program for existing buildings for a regional rehabilitation hospital was signed on or after the 1st day of June, 1966, the Commission shall pay a capital grant for the construction or renovation.

(3) The Commission shall retain any grants paid by the Department of National Health and Welfare and any grants authorized by Regulation 727 of Revised Regulations of Ontario, 1970 in respect of the construction and renovation.

(4) A regional rehabilitation hospital receiving a capital grant under this Regulation shall not be paid capital financial assistance under Regulation 722 of Revised Regulations of Ontario, 1970. O. Reg. 283/67, s. 2.

3.—(1) Where a capital grant is requested for the construction of new buildings or the renovation program for existing buildings for a regional rehabilitation hospital, the approved cost shall include the

full cost of land acquired on or after the 1st day of June, 1966 for the regional rehabilitation hospital.

(2) Where a capital grant is requested for a regional rehabilitation hospital that is a department of a hospital, the approved cost shall include 100 per cent of the cost of that area of the land acquired for the hospital on or after the 1st day of June, 1966 that bears the same relation to the total area of the land acquired for the hospital on or after the 1st day of June, 1966 as the approved cost of the regional rehabilitation hospital bears to the total cost of the new construction and renovation program of the hospital. O. Reg. 283/67, s. 3.

4. Where the actual cost of the construction or of the renovation program differs from the total approved cost as approved by the Commission, the Commission may make any adjustment in the amount of the capital grant that the Commission considers proper. O. Reg. 283/67, s. 4.

5.—(1) The Commission may pay to or on behalf of a regional rehabilitation hospital fees approved by the Commission for consultants required for planning the regional rehabilitation hospital before the preparation of the architect's preliminary sketch-plans.

(2) When the architect's preliminary sketch-plans of the regional rehabilitation hospital have been approved by the Commission, the fees earned by the architect and approved consultants may be paid by the Commission to or on behalf of the regional rehabilitation hospital.

(3) When the architect's workings drawings of the regional rehabilitation hospital have been

approved by the Commission, the fees earned by the architect and approved consultants may be paid by the Commission to or on behalf of the regional rehabilitation hospital.

(4) Where moneys have been paid under subsection 1, 2 or 3, the balance of the capital grant shall be paid to or on behalf of the regional rehabilitation hospital in instalments as follows:

1. One-eighth when one-eighth of the work is completed.
2. One-eighth when one-quarter of the work is completed.
3. One-eighth when three-eighths of the work is completed.
4. One-eighth when one-half of the work is completed.
5. One-eighth when five-eighths of the work is completed.
6. One-eighth when three-quarters of the work is completed.
7. One-eighth when seven-eighths of the work is completed.
8. The balance when the approved construction of new buildings or renovation program is completed and the buildings and facilities are furnished, equipped and ready to receive and treat patients. O. Reg. 283/67, s. 5.

REGULATION 725

under The Public Hospitals Act

CAPITAL GRANTS FOR TEACHING HOSPITALS

1. In this Regulation,

- (a) "approved cost" means the cost of,
- (i) the construction of new buildings and facilities or the renovation of existing buildings and facilities to be used for a teaching hospital, research institute, research facilities or the teaching component in a university-affiliated hospital,
 - (ii) fees that are approved by the Commission and paid to an architect for his services and the services of his consulting engineers,
 - (iii) fees that are approved by the Commission for consultants, other than those paid through the architect,
 - (iv) necessary basic equipment and furnishings and the installation thereof, including elevators and air-conditioning in operating rooms, labour and delivery rooms, nurseries and any other areas of the teaching hospital research institute, research facilities or the teaching component in a university-affiliated hospital approved by the Commission as requiring air-conditioning,
 - (v) land surveys and soil tests,
 - (vi) necessary paving and sodding,
 - (vii) financing charges,
 - (viii) working capital, and
 - (ix) land acquisition, demolition of existing buildings and other clearance of the site,
- but does not include the cost of,
- (x) contingency allowances,
 - (xi) chapel furnishings,
 - (xii) landscaping, gardens, works of art, murals, busts, statues and similar decorations, or

(xiii) facilities for ancillary revenue-producing operations;

- (b) "basic equipment" means all equipment approved by the Commission which is necessary and reasonable to enable a teaching hospital, research institute, research facilities or a teaching component, as the case may be, to commence its function as determined at the time of its completion and includes all such equipment which is installed and ready for use not later than twelve months from the date of completion of the hospital, institute, research facilities or teaching component;
- (c) "renovation program" means a plan to provide adequate accommodation therein by the major renovation or alteration of a hospital, an organized out-patient department, auxiliary services accommodation, research facilities accommodation or any part thereof that has become obsolete or otherwise inadequate;
- (d) "research facilities" means facilities in a teaching hospital provided for research in the health fields associated with the teaching of under-graduate or post-graduate students in the health professions for the purpose of carrying out scientific research, under public support or sponsorship, contributing to the whole body of health knowledge, together with other areas of the hospital to the extent that such other areas service or support the research facilities;
- (e) "research institute" means an institution affiliated with a teaching hospital, the sole purpose of which is research in the health fields associated with the teaching of under-graduate or post-graduate students in the health professions for the purpose of carrying out scientific research, under public support or sponsorship, contributing to the whole body of health knowledge, together with auxiliary areas of the institute to the extent that such areas service or support the research facilities;
- (f) "teaching component" means a designated area of a university-affiliated hospital providing facilities for giving instruction to under-graduate or post-graduate students in the health professions in which the treatment of the patient is the function of a team of staff members, including the

attending staff physician, a resident physician, an intern physician and a clinical clerk and for which each member of the medical staff of the teaching unit and the head of each medical department of the teaching unit are jointly appointed by the university with which the hospital is affiliated and the board of directors of the hospital; and

(g) "teaching hospital" means a hospital providing facilities for the instruction of under-graduate and post-graduate students in the health professions in which the treatment of the patient is the function of a team of staff members, including the attending staff physician, a resident physician, an intern physician and a clinical clerk and for which each member of the medical staff and the head of each medical department of the hospital are appointed jointly by the university with which the hospital is affiliated and the board of directors of the hospital. O. Reg. 213/67, s. 1.

2.—(1) The capital grant under subsection 2 shall amount to the approved cost.

(2) Where the contract for the construction of new buildings or the renovation of existing buildings for a teaching hospital, research institute, research facilities or a teaching component was signed on or after the 1st day of January, 1966, the Commission shall pay a capital grant to a teaching hospital for the construction or renovation program.

(3) The Commission shall retain any hospital construction grants or other moneys paid by the Department of National Health and Welfare and any grants authorized by Regulations 727 and 442 of Revised Regulations of Ontario, 1970 in respect of the new construction and renovation.

(4) A teaching hospital receiving a capital grant under this Regulation shall not be paid capital financial assistance under Regulation 722 of Revised Regulations of Ontario, 1970. O. Reg. 213/67, s. 2.

3.—(1) Where a capital grant is requested for the construction of new buildings or the renovation of existing buildings for a teaching hospital or a research institute, the approved cost shall include the full cost of land acquired on or after the 1st day of January, 1966 for the teaching hospital or the research institute.

(2) Where a capital grant is requested for the construction of a teaching component, research facilities or research institute for a university-affiliated hospital, the approved cost shall include 100 per cent of the cost of that area of the land acquired for the hospital on or after the 1st day of January, 1966 which bears the same relation to the total area of the land acquired for the hospital

on or after the 1st day of January, 1966 as the approved cost of the teaching component, research facilities or research institute bears to the total cost of the new construction and renovation program of the hospital. O. Reg. 213/67, s. 3.

4. Where the actual cost of the construction or of the renovation program differs from the total approved cost of the construction or renovation program as approved by the Commission, the Commission may make any adjustment in the amount of the capital grant that the Commission considers proper. O. Reg. 213/67, s. 4.

5.—(1) The Commission may pay to a teaching hospital fees approved by the Commission for consultants required prior to the preparation of the architect's preliminary sketch-plans for the planning of the teaching hospital, research institute, research facilities or teaching component, as the case may be.

(2) When the architect's preliminary sketch-plans of the teaching hospital, research institute, research facilities or the teaching component, as the case may be, have been approved by the Commission, the fees earned by the architect and approved consultants may be paid by the Commission to the teaching hospital.

(3) When the architect's working drawings of the teaching hospital, research institute, research facilities or teaching component, as the case may be, have been approved by the Commission, the fees earned by the architect and approved consultants may be paid by the Commission to the teaching hospital.

(4) Where moneys have been paid under subsection 1, 2 or 3, the balance of the capital grant shall be paid to the teaching hospital in instalments as provided in subsection 5.

(5) A capital grant under this Regulation shall be paid to a teaching hospital in instalments as follows:

1. One-twentieth when one-twentieth of the work is completed.
2. One-twentieth when one-tenth of the work is completed.
3. One-twentieth when three-twentieths of the work is completed.
4. One-twentieth when one-fifth of the work is completed.
5. One-twentieth when one-quarter of the work is completed.
6. One-twentieth when three-tenths of the work is completed.
7. One-twentieth when seven-twentieths of the work is completed.

8. One-twentieth when two-fifths of the work is completed.
9. One-twentieth when nine-twentieths of the work is completed.
10. One-twentieth when one-half of the work is completed.
11. One-twentieth when eleven-twentieths of the work is completed.
12. One-twentieth when three-fifths of the work is completed.
13. One-twentieth when thirteen-twentieths of the work is completed.
14. One-twentieth when seven-tenths of the work is completed.
15. One-twentieth when three-quarters of the work is completed.
16. One-twentieth when four-fifths of the work is completed.
17. One-twentieth when seventeen-twentieths of the work is completed.
18. One-twentieth when nine-tenths of the work is completed.
19. One-twentieth when nineteen-twentieths of the work is completed.
20. The balance when the approved construction of new buildings or renovation program is completed and the buildings and facilities are equipped, furnished and ready to receive and treat patients or are ready to carry on the scientific research for which the research institute or the research facilities are intended, as the case may be. O. Reg. 213/67, s. 5.

REGULATION 726

under The Public Hospitals Act

CLASSIFICATION OF HOSPITALS

1.—(1) Hospitals are classified as general hospitals, convalescent hospitals, hospitals for chronic patients, active treatment teaching psychiatric hospitals, active treatment hospitals for alcoholism and drug addiction and regional rehabilitation hospitals, and are graded as,

- (a) Group A hospitals, being general hospitals providing facilities for giving instruction to medical students of any university;
- (b) Group B hospitals, being general hospitals having,
 - (i) not fewer than 100 beds, or
 - (ii) fewer than 100 beds and being in a municipality where a Group A hospital is located;
- (c) Group C hospitals, being general hospitals not located where a Group A hospital is located and having fewer than 100 beds;
- (d) Group D hospitals, being general hospitals operated by the Ontario Division of the Canadian Red Cross Society;
- (e) Group E hospitals, being convalescent hospitals;
- (f) Group F hospitals, being hospitals for chronic patients and having not fewer than 200 beds;
- (g) Group G hospitals, being hospitals for chronic patients and having fewer than 200 beds;
- (h) Group H hospitals, being psychiatric hospitals providing facilities for giving instruction to medical students of any university;
- (i) Group I hospitals, being hospitals for the treatment of patients suffering from alcoholism and drug addiction; and
- (j) Group J hospitals, being hospitals designated by the Commission to provide special rehabilitation services for disabled persons in a region of Ontario specified by the Commission for each hospital. O. Reg. 364/67, s. 1 (1); O. Reg. 126/68, s. 1.

(2) The hospitals listed in the Schedule are classified in the group indicated by the heading under which they are listed. O. Reg. 364/67, s. 1 (2).

Schedule

GROUP A HOSPITALS

<i>Item</i>	<i>Location</i>	<i>Name</i>
1.	Hamilton	Hamilton Civic Hospitals

REGULATION 727

under The Public Hospitals Act

GRANTS—CAPITAL

1. In this Regulation,

(a) "auxiliary-services accommodation" means the part of a hospital that is established and maintained by the hospital,

- (i) as autopsy facilities,
- (ii) as a laboratory,
- (iii) as a dispensary,
- (iv) for diagnosis or treatment by X-ray,
- (v) for treatment by occupational therapy and that is not in a psychiatric unit,
- (vi) for treatment by physiotherapy,
- (vii) for emergency services,
- (viii) for community health services,
- (ix) for hospital training facilities,
- (x) as an operating room or a suite of operating rooms,
- (xi) as a delivery room or a suite of delivery rooms,
- (xii) for examining and treatment rooms in nursing units,
- (xiii) for a dietary department, including dining rooms, cafeterias, snack bars and coffee shops that are not in a psychiatric unit,
- (xiv) for a central supply service, or
- (xv) for a laundry service;

(b) "bed unit" means,

- (i) three nursery cubicles for the care of new-born infants, or
- (ii) 300 square feet of interior floor space of auxiliary-services accommodation;

(c) "building project" means,

- (i) the acquisition of existing buildings and the alteration thereof,

(ii) new construction, or

(iii) renovation of or alterations to hospital buildings;

(d) "capital grant" means a grant to a hospital toward the capital cost of,

- (i) a building project for hospital construction for beds for patients, nurses' residence, interns' residence or accommodation for an organized out-patient department or auxiliary-services accommodation, or

(ii) a renovation project;

(e) "central supply service" means a circumscribed area used for the accumulation, preparation, supervision, storage and distribution of medical and surgical supplies to the hospital;

(f) "cost" means the cost of a building project, including architectural fees, but excluding the cost of land and equipment that is shareable for depreciation purposes under the *Hospital Insurance and Diagnostic Services Act* (Canada);

(g) "detention unit" means the part of a hospital that is established and maintained by the hospital for the temporary care of mentally ill and mentally defective persons;

(h) "hospital training facilities" means accommodation for training facilities for health and hospital personnel;

(i) "interns' residence" means living accommodation for interns who are on the staff of the hospital;

(j) "nurses' residence" means living accommodation for student nurses and employees who are engaged in nursing patients of a hospital;

(k) "psychiatric unit" means the part of a public hospital,

- (i) that is established and maintained by the hospital for the purpose of examining, diagnosing, consulting for diagnosing and treating patients suffering from psychiatric disorders, and

- (ii) that is provided with equipment and facilities and the services of a legally qualified medical practitioner who holds a specialist's certificate in psychiatry issued by The Royal College of Physicians and Surgeons of Canada;

(l) "renovation project" means a project to provide adequate accommodation therein by the major renovation or alteration of a hospital, a nurses' residence, an interns' residence, an organized out-patient department, auxiliary-services accommodation or any part thereof that has become obsolete or otherwise inadequate;

(m) "suite of delivery rooms" means a group of rooms and a corridor within a circumscribed area that is used for deliveries and other obstetrical procedures and that is isolated from the rest of the hospital in a manner acceptable to the Commission; and

(n) "suite of operating rooms" means a group of rooms and a corridor within a circumscribed area that is used for surgical operations, other than deliveries and obstetrical operations, and that is isolated from the rest of the hospital in a manner acceptable to the Commission. O. Reg. 308/63, s. 1.

2.—(1) A capital grant for beds for patients shall not be paid to a hospital except upon application in Form 1.

(2) A capital grant for a nurses' residence or an interns' residence shall not be paid to a hospital except upon application in Form 2.

(3) A capital grant for an organized out-patient department or auxiliary-services accommodation shall not be paid to a hospital except upon application in Form 3.

(4) A capital grant for a renovation project shall not be paid to a hospital except upon application in Form 4. O. Reg. 308/63, s. 2.

3.—(1) A capital grant shall not exceed in the case of,

- (a) a psychiatric unit of a Group A hospital or of a Group B hospital having a total bed capacity exceeding 200 beds; or

- (b) a detention unit,

\$8,500 for each bed, or the difference between the grant payable by Her Majesty in right of Canada and the actual cost that is not in excess of \$10,500, whichever is the lesser.

(2) Subject to subsection 1 where a building project was commenced but not completed before the 15th day of August, 1963, in the case of,

- (a) a Group A, B, C or D hospital, the capital grant shall not exceed \$2,000 for each bed included in the project, plus an amount which shall bear the same relation to \$1,200 for each bed as the cost of the portion of the building project still to be completed after the 14th day of August, 1963, bears to the total cost of the building project when finally determined;

- (b) an organized out-patient department or any auxiliary-services accommodation, the capital grant shall not exceed \$2,000 for each bed unit included in the project, plus an amount which shall bear the same relation to \$1,200 for each bed unit as the cost of the portion of the building project still to be completed after the 14th day of August, 1963, bears to the total cost of the building project when finally determined,

or 50 per cent of the cost of the building project, whichever is the lesser. O. Reg. 308/63, s. 3 (1, 2).

(3) Subject to subsections 1 and 7, where a building project was commenced on or after the 15th day of August, 1963, in the case of,

- (a) a Group A, B, C or D hospital, the capital grant shall not exceed \$3,200 for each bed included in the project;

- (b) an organized out-patient department or any auxiliary-service accommodation, the capital grant shall not exceed \$3,200 for each bed unit included in the project;

- (c) a hospital that has agreed to provide laundry service for one or more other hospitals, the capital grant shall not exceed \$3,600 for each bed unit of laundry service;

- (d) a Group E, F or G hospital, the capital grant shall not exceed \$3,000 for each bed included in the project;

- (e) an interns' residence, the capital grant shall not exceed \$2,000 for each bed included in the project,

or 50 per cent of the cost of the building project, whichever is the lesser. O. Reg. 308/63, s. 3 (4); O. Reg. 203/64, s. 1, *amended*.

(4) Where a building project was commenced on or after the 1st day of November, 1964, in the case of a nurses' residence, the capital grant shall not exceed \$3,200 for each bed included in the project. O. Reg. 112/65, s. 1 (2).

(5) For a renovation project, the capital grant for each bed or bed unit improved by such renovation or alteration shall not exceed, in the case of,

- (a) a psychiatric unit of a Group A hospital or a Group B hospital having a total bed capacity exceeding 200 beds, two-thirds of the cost of the renovation project or \$8,500 for each bed and \$3,200 for each bed unit, whichever is the lesser; and
- (b) any renovation project not included in clause a, one-third of the cost of the renovation project or \$2,000 for each bed and \$3,200 for each bed unit, whichever is the lesser,

or such lesser amount as is deemed by the Commission sufficient for the public interest. O. Reg. 203/64, s. 1 (3); O. Reg. 231/64, s. 1.

4.—(1) For the purpose of computing the amount of a capital grant for a suite of delivery rooms or a suite of operating rooms, the suite may include change rooms for doctors and nurses if such change rooms lie outside the circumscribed area of the suite but are adjacent to it and open directly into the suite.

(2) No capital grant is payable for a room that comes within the definition of auxiliary-services accommodation if it contains beds on which a bed grant is payable. O. Reg. 308/63, s. 4.

5.—(1) When an application is made for a capital grant a preliminary sketch-plan in triplicate shall be submitted to the Commission showing any existing buildings acquired or proposed to be acquired for the purposes of the hospital and the alterations necessary thereto or showing the new construction, additions or alterations, as the case may be.

(2) No tenders shall be called for any proposed new construction, additions or alterations until the plans submitted under subsection 1 have been approved by the Commission.

(3) The Commission shall give the Minister notice of any application for a capital grant for a psychiatric unit. O. Reg. 308/63, s. 5.

6.—(1) No capital grant shall be paid to a hospital in Group A, B, C or D where the total number of beds in all the hospitals in the area served by the applicant hospital, including the proposed additional beds, exceeds 5.5 beds for each thousand of the population of the area.

(2) In computing the number of beds in the hospitals for the purpose of subsection 1, beds in a psychiatric unit shall not be included. O. Reg. 308/63, s. 6.

7. No capital grant shall be paid under this Regulation for any bed or bed unit in any part of a building, the cost for the construction or renovation

of which is approved for a grant under Regulation 725 of Revised Regulation of Ontario, 1970 or Regulations 724 of Revised Regulations of Ontario, 1970. O. Reg. 56/68, s. 1.

8. A capital grant for a building project shall be paid in instalments as follows:

1. One-eighth when one-eighth of the work is completed.
2. One-eighth when one-quarter of the work is completed.
3. One-eighth when three-eighths of the work is completed.
4. One-eighth when one-half of the work is completed.
5. One-eighth when five-eighths of the work is completed.
6. One-eighth when three-quarters of the work is completed.
7. One-eighth when seven-eighths of the work is completed.
8. The balance when the building project is completed, furnished, equipped and ready to receive patients. O. Reg. 203/64, s. 2.

9. Where an applicant hospital has,

- (a) secured approval to the building project under subsection 3 of section 4 of the Act; and
- (b) complied with the provisions that are applicable to the building project,

the Commission shall pay the grant in accordance with this Regulation. O. Reg. 308/63, s. 9.

NORTHERN ONTARIO GRANT

10.—(1) In addition to the grants referred to in section 3, the Commission may pay to a public hospital located in a municipality with a population of not more than 12,000 in a territorial district or a provisional county, a special capital grant which shall not exceed,

- (a) an amount equal to the total amount of all contributions, other than grants made by Her Majesty in right of Canada and in right of Ontario, made to a building project; or
- (b) in the case of,
 - (i) a Group B, C or D hospital, \$2,000 for each bed or bed unit, or

(ii) a Group E, F or G hospital, \$1,000 for each bed or bed unit,
whichever is the lesser. O. Reg. 308/63, s. 10 (1);
O. Reg. 56/68, s. 2 (1); O. Reg. 237/70, s. 1 (1).

(2) In addition to the grants referred to in section 3, the Commission may pay to a public hospital located in a municipality with a population of more than 12,000 in a territorial district or a provisional county, a special capital grant which shall not exceed,

(a) an amount equal to the total amount of all contributions, other than grants made by Her Majesty in right of Canada and in right of Ontario, made to a building project; or

(b) in the case of,

(i) a Group B or C hospital, \$500 for each bed or bed unit, or

(ii) a Group E, F or G hospital, \$250 for each bed or bed unit.

whichever is the lesser. O. Reg. 308/63, s. 10 (2);
O. Reg. 56/68, s. 2 (2);

(3) A special grant made under this section shall be paid in instalments in accordance with section 8. O. Reg. 308/63, s. 10 (3); O. Reg. 237/70, s. 1 (2).

Form 1

The Public Hospitals Act

APPLICATION FOR A CAPITAL GRANT FOR CONSTRUCTION OF A HOSPITAL

To: The Ontario Hospital Services Commission,
Toronto.

The
(name of hospital) (location)

applies for a capital grant under the Act and regulations and in support gives the following information:

1. Number of beds in hospital now assigned to the following services:

	Private and Semi- private Beds	Standard- ward Beds	Totals
Medical.....			
Surgical.....			
Maternity.....			
Paediatric.....			
Psychiatric....			
Convalescent...			
Chronic.....			

2. Net gain or loss due to proposed alterations in existing hospital:

	Private and Semi- private Beds	Standard- ward Beds	Totals
Medical.....			
Surgical.....			
Maternity.....			
Paediatric.....			
Psychiatric....			
Convalescent...			
Chronic.....			

3. Number of beds to be provided in new construction:

	Private and Semi- private Beds	Standard- ward Beds	Totals
Medical.....			
Surgical.....			
Maternity.....			
Paediatric.....			
Psychiatric....			
Convalescent...			
Chronic.....			
Bassinets for Newborn.....			
Labour.....			
Recovery.....			

4. Brief description of proposed project, type of construction, services and facilities to be expanded, etc.

5. Proposed date for start of building project.

6. Expected date of completion.

7. Estimated cost per cubic foot of new construction, excluding the cost of fixed equipment and furnishings.

8. Name and address of architect.

9. Estimated cost of project,

(a) acquisition of site, if acquired for this project;

(b) (i) acquisition of a building, if applicable, where such building is to be used for hospital purposes;

(ii) structural alterations to such building;

(c) work on site and landscaping;

(d) new construction, including fixed equipment on which the hospital will not be paid depreciation;

(e) fixed equipment, on which hospital will be allowed depreciation as a shareable cost;

(f) furnishings;

(g) architect's fees;

(h) other professional fees;

(i) renovations or alterations within walls of existing building (agrees with total on Form 4—Application for a Capital Grant for a Renovation Project, if a major renovation is proposed);

(j) any other expenditures that are part of this project (specify);

Total Estimated Cost:

10. Source of funds available for building project,

(a) Cash;

(b) Estates or trusts;

Chairman or Secretary of the Board

Form 3

The Public Hospitals Act

APPLICATION FOR A CAPITAL GRANT FOR
AUXILIARY-SERVICES ACCOMMODATION
OR ORGANIZED OUT-PATIENT
DEPARTMENT

To: The Ontario Hospital Services Commission,
Toronto.

The
(name of hospital) (location)

applies for a capital grant under the Act and regu-
lations in respect of,

- (i) autopsy facilities,
- (ii) a laboratory,
- (iii) a dispensary,
- (iv) an X-ray department,
- (v) an occupational therapy department,
- (vi) a physiotherapy department,
- (vii) emergency services,
- (viii) community health services,
- (ix) hospital training facilities,
- (x) an operating room or a suite of operating rooms,
- (xi) a delivery room or a suite of delivery rooms,
- (xii) an examining and treatment room in nursing units,
- (xiii) a dietary department, including dining rooms, etc.,
- (xiv) a central supply service,
- (xv) a laundry service,
- (xvi) an organized out-patient department.

1. The hospital estimates the dimensions of these
services or facilities as follows:

<u>Service or Facility</u>	<u>Area in Square Feet</u>
----------------------------	----------------------------

- 2. Brief description of proposed project, type of construction, services and facilities to be expanded, etc.
.....
.....
- 3. Proposed date for start of building project.
- 4. Expected date of completion.
- 5. Estimated cost per cubic foot of new construction, excluding the cost of fixed equipment and furnishings.
- 6. Name and address of architect.
- 7. Estimated cost of project,
 - (a) acquisition of site if acquired for this project;
 - (b) (i) acquisition of a building, if applicable, where such building is to be used for hospital purposes;
 - (ii) structural alterations to such building;

Chairman or Secretary of the Board

Form 4

The Public Hospitals Act

APPLICATION FOR A CAPITAL GRANT FOR A RENOVATION PROJECT

To: The Ontario Hospital Services Commission,
Toronto.

The.....
(name of hospital) (location)

applies for a capital grant for a renovation project under the Act and regulations and in support gives the following information:

1. Reasons for considering the proposed project to be a major renovation project:

2. Date(s) when building(s) to be renovated was (were) first constructed.

3. Years of expected life of building(s) after renovation is completed.

4. The number of bassinets and beds of all types that will be abandoned because of the renovation:

(a) Bassinets.

(b) Beds.

5. Describe the present deficiencies of the existing structure, facilities and services:

6. Describe the increased bed and bassinet accommodation, improvements in facilities, services, efficiency and economy or any other improvements that will result from the renovation project:

7. Describe the proposed type of construction, materials, fireproofing, finishes, etc., involved in the renovation project:

8. Further explanation and remarks:
.....
.....

9. Estimated cost of project,

(a) structural alterations or renovations within walls of existing building including fixed equipment on which hospital will not be paid depreciation;

(b) fixed equipment on which hospital will be allowed depreciation as a shareable cost:

(c) furnishings;

(d) architect's fees;

(e) other professional fees;

(f) any other expenditures that are part of this project (specify);.....

Estimated Total Cost:

NOTE: Carry forward above total cost figure to Form 1 or Form 2 if overall project includes new construction.

The remainder of this form will be completed only if Form 1 or Form 2 is not applicable.

10. Name and address of architect.

11. Proposed date of commencement of renovations.

12. Expected date of completion.

13. Source of funds available for building project,

(a) Cash;

(b) Estates or trusts;

(c) Bonds and securities;

(d) Campaign pledges outstanding;

(e) Municipal grant approved but unpaid;

Less financing cost;

(f) Provincial grant (estimated);

(g) Federal grant (estimated);

(h) Other sources (specify);

Total funds in sight

DEFICIT OR SURPLUS

14. Deficit financing
(Include here anticipated receipts from future campaign, municipal grants expected but not approved as yet, terms of loans and repayment arrangements, etc.)

15. Details of approved municipal grants

Chairman or Secretary of the Board

O. Reg. 308/63, Form 4.

REGULATION 728

under The Public Hospitals Act

GRANTS—MAINTENANCE

1. A maintenance grant equal to the amount for which a municipality is liable under section 22 of the Act shall be paid for the treatment of every patient who is an indigent person or who is a dependant of an indigent person and who has resided in unorganized territory for a period of three months within the period of six months next prior to his admission to a hospital, for each day the patient receives treatment. O. Reg. 131/70, s. 1.

2. A maintenance grant shall be paid to a Group F and a Group G hospital for the treatment of every patient therein who,

(a) is an indigent person or a dependant of an indigent person; and

(b) resides in Ontario but is not a resident of a municipality and is not a patient for whose treatment a grant is payable under section 1,

at a rate equal to the amount for which a municipality is liable under section 22 of the Act for each day the patient receives treatment. O. Reg. 131/70, s. 2.

3. In computing the amount of any grant, the day of departure of a patient shall not be included. O. Reg. 131/70, s. 3.

4. The Lieutenant Governor in Council may suspend or withhold any grant or may make a deduction from any grant. O. Reg. 131/70, s. 4.

REGULATION 729

under The Public Hospitals Act

HOSPITAL MANAGEMENT

INTERPRETATION

1. In this Regulation,

- (a) "abortion" means the interruption of a pregnancy before the twentieth week of the period of gestation;
- (b) "attending dentist" means a member of the dental staff who attends a patient in the hospital;
- (c) "attending physician" means a medical practitioner who attends a patient in the hospital;
- (d) "birth" means the complete expulsion or extraction from its mother of a foetus which did at any time after being completely expelled or extracted from the mother breathe or show any other sign of life, whether or not the umbilical cord was cut or the placenta attached;
- (e) "chronically ill person" means a person who, in the opinion of a medical practitioner, has reached the apparent limit of his recovery or has a chronic illness or other condition of a long-term nature and requires continued medical and skilled nursing care in a chronic unit or a hospital for chronically ill patients, but does not require care in a mental hospital or a tuberculosis sanatorium;
- (f) "consultant medical staff" means members of the medical staff who are appointed by the board to act as consultants;
- (g) "convalescent person" means a person whose condition, in the opinion of a medical practitioner, has passed the acute or emergency stage and is improving or can be improved by continued medical and skilled nursing care in a convalescent unit or a hospital for convalescent patients;
- (h) "custodial care" means the personal care, assistance and protection required by a person who has reached the apparent limit of his recovery and whose condition is such that such care is necessary or who has such a degree of senile deterioration that such care is necessary but who does not require continued medical and skilled nursing care in a hospital;
- (i) "custodial person" means a person who, in the opinion of a medical practitioner, requires custodial care;
- (j) "dental staff" means the dentist or dentists to whom the board has granted the privilege of attending patients in the hospital in co-operation with a member of the medical staff;
- (k) "dentist" means a person holding a certificate of licence under *The Dentistry Act*;
- (l) "medical practitioner" means a legally qualified medical practitioner;
- (m) "medical staff" means the medical practitioners to whom the board has granted the privilege of diagnosing, prescribing for and treating patients in the hospital;
- (n) "neonatal death" means the death of a child before the end of the twenty-eighth day after birth;
- (o) "photograph" means a reproduction made by any process that makes an exact copy of the original and includes any photographic plate, microphotographic film, photostatic negative, autpositive and any photographic print made therefrom;
- (p) "president" means the president of the medical staff;
- (q) "secretary" means the secretary of the medical staff;
- (r) "still-birth" means the complete expulsion or extraction from its mother after the twentieth week of pregnancy of a foetus that did not at any time after being completely expelled or extracted from the mother, breathe or show any other sign of life;
- (s) "surgeon" means a member of the medical staff who performs a surgical operation on a patient; and
- (t) "vice-president" means the vice-president of the medical staff. O. Reg. 102/66, s. 1; O. Reg. 263/68, s. 1; O. Reg. 190/69, s. 1.

2.—(1) Subject to subsections 2 and 3, a hospital shall be governed and managed by a board elected or appointed in accordance with the provisions of

the authority under which the hospital is created, established or incorporated.

(2) The president is a member of the board with all rights and responsibilities of a board member.

(3) Where a hospital has 100 beds or more,

(a) the president and vice-president; and

(b) one of,

(i) the chief of the medical staff,

(ii) the secretary of the medical staff,

(iii) the chairman of the medical advisory committee, or

(iv) the vice-chairman of the medical advisory committee,

as provided for by a by-law that may be passed by the board after consideration of a recommendation from the medical staff,

are members of the board with all the rights and responsibilities of a board member.

(4) A medical staff officer entitled to membership on the board under this section shall be in addition to the number of board members provided by or in accordance with the provisions of the authority under which the hospital is created, established or incorporated and shall not replace elected, appointed or *ex officio* members of the board. O. Reg. 102/66, s. 2.

3. The board is responsible for the enforcement of the Act, this Regulation and the by-laws of the hospital. R.R.O. 1960, Reg. 523, s. 3.

4. The superintendent is responsible to the board for the due observance and enforcement of the Act, this Regulation and the by-laws of the hospital. R.R.O. 1960, Reg. 523, s. 4.

5. The superintendent is the officer representing the hospital with whom the Minister, an inspector and officers of the Commission deal in respect of hospital matters. R.R.O. 1960, Reg. 523, s. 5.

6.—(1) The board shall pass by-laws that provide for,

(a) the appointment and functioning of,

(i) an administrator or superintendent,

(ii) a medical staff, and

(iii) a person licensed under *The Public Accountancy Act* as an auditor;

(b) in each Group A hospital, the appointment and functioning of a medical advisory committee which shall include the president, vice-president and secretary of the medical staff and the chief of the dental staff and shall be constituted in accordance with provisions in the agreement between the hospital and the university with which it is affiliated;

(c) in each hospital other than a Group A hospital the election by the medical staff of a medical advisory committee for recommendation to the board for appointment, except the chief of the medical staff who shall be appointed by the board from the members of the active or consulting staff groups after the board has given consideration to the recommendation of the medical advisory committee;

(d) the appointment of members of the medical staff, on the recommendation of the medical staff or the election of such members by the medical staff, to,

(i) a credentials committee,

(ii) a records committee,

and, where there are ten or more members on the active medical staff,

(iii) a therapeutic abortion committee, where therapeutic abortions are to be performed,

(iv) an admission and discharge committee, and

(v) except in hospitals for convalescent persons and hospitals for chronically ill persons, a tissue committee or a medical audit and tissue committee,

and that prescribe the duties and powers of such committees;

(e) the method of determining the professional privileges granted to each member of the medical staff;

(f) an annual physical examination of student nurses, graduate nurses, registered nursing assistants and orderlies;

(g) a physical examination of each employee who handles food within seven days of the commencement of his employment and annually thereafter; and

(h) the establishment and functioning of an administrative and accounting system. O. Reg. 102/66, s. 3; O. Reg. 263/68, s. 2; O. Reg. 304/68, s. 1; O. Reg. 248/70, s. 1.

(2) Where the board of a hospital other than a Group A hospital does not appoint the medical advisory committee recommended by the medical staff within thirty days after receiving the recommendation, the board shall forthwith provide the secretary with a statement in writing of the reasons for not accepting the recommendation of the medical staff, whereupon the medical staff shall, within thirty days after the secretary receives such statement, make a further recommendation to the board. O. Reg. 102/66, s. 3.

(3) The board may provide in hospital by-laws for the appointment and functioning of,

- (a) a dental staff; and
- (b) a chief of the dental staff. O. Reg. 102/66, s. 3.

(4) A hospital that has not passed by-laws in respect of the administrative staff, dental staff or medical staff shall pass such by-laws as are required by the Commission in a written notice to the hospital and submit them to the Commission not later than six months after the notice is received by the administrator. O. Reg. 102/66, s. 3.

(5) A hospital shall amend or revise its by-laws as required by the Commission in a written notice to the hospital and submit to the Commission the amendment or revision not later than four months after the notice is received by the administrator. O. Reg. 102/66, s. 3.

(6) The by-laws shall provide that the medical advisory committee shall,

- (a) make recommendations to the board concerning,
 - (i) every application for appointment or reappointment to the medical staff and to the dental staff, where there is a dental staff,
 - (ii) the hospital privileges to be granted to each member of the medical staff,
 - (iii) the hospital privileges to be granted to each member of the dental staff, where there is a dental staff,
 - (iv) by-laws respecting the medical staff and the dental staff, where there is a dental staff,
 - (v) rules respecting the medical staff and the dental staff, where there is a dental staff,
 - (vi) the dismissal, suspension or restriction of hospital privileges of any member of the medical staff or the

dental staff who contravenes any provisions of the by-laws, *The Public Hospitals Act*, *The Hospital Services Commission Act* or the regulations made under those Acts, and

(vii) the quality of medical care provided in the hospital;

- (b) provide supervision over the practice of medicine in the hospital; and
- (c) advise the board on any matter referred to it by the board. O. Reg. 102/66, s. 3.

7. The fiscal year of a hospital shall end with the 31st day of December in each year. R.R.O. 1960, Reg. 523, s. 7.

8. An annual meeting of the hospital shall be held between the 1st day of January and the 30th day of April in each year on a day fixed by the board. R.R.O. 1960, Reg. 523, s. 8.

9. The board may fix the days for all meetings of the board. R.R.O. 1960, Reg. 523, s. 9.

10. An inspector may,

- (a) administer and enforce this Act and the regulations in a hospital;
- (b) inspect and inquire with respect to the premises, management and operation of a hospital;
- (c) require the superintendent, a member of the medical staff or a hospital employee,
 - (i) to furnish any information in his possession or under his control, and
 - (ii) to make returns, reports or statements in writing,

relating to the hospital but only for the purpose of the Act and this Regulation;

- (d) examine and audit all hospital books, accounts and records; and
- (e) investigate and require information from a person in possession of information in respect of any hospital matter or the financial condition of a patient. R.R.O. 1960, Reg. 523, s. 10.

11. The board shall permit an inspector,

- (a) to examine and audit all hospital books, accounts and records; and
- (b) to inspect or receive information from any book or record relating to the patients,

at any time, but only for the purpose of the Act and this Regulation. R.R.O. 1960, Reg. 523, s. 11.

12. All information, applications, returns, reports and communications required to be furnished or made to the Minister, Deputy Minister or inspector under the Act or this Regulation shall be sent to the Commission. R.R.O. 1960, Reg. 523, s. 12.

13.—(1) An application for the approval of the creation, establishment or incorporation of a hospital under subsection 1 of section 4 of the Act shall be in writing in Form 1.

(2) Before approval is given, an applicant for the approval of a hospital shall send to the Commission a copy of an architect's plan in triplicate showing,

- (a) the proposed number and arrangement of beds and services; and
- (b) a block plan of the property and elevations of the buildings. R.R.O. 1960, Reg. 523, s. 13.

14. When a hospital is to be altered by enlarging or remodelling, a description of the alteration with a copy of an architect's plan in triplicate showing,

- (a) the alteration; and
- (b) the proposed number and arrangement of beds and services to be affected by the alteration,

shall be sent to and approved by the Commission before work is commenced. R.R.O. 1960, Reg. 523, s. 14; O. Reg. 102/66, s. 4.

15.—(1) A hospital shall provide accommodation for the isolation of patients.

(2) The superintendent shall cause to be isolated a patient who is or is suspected to be infected with a communicable disease named or declared under *The Public Health Act* or the regulations thereunder. R.R.O. 1960, Reg. 523, s. 15.

16.—(1) Subject to subsection 2, a hospital shall have on duty at all times sufficient nursing staff to give such nursing care to every patient in the hospital as is required for the patients' care and treatment.

(2) A hospital shall have on duty,

- (a) during the period from midnight until 8 o'clock in the forenoon, at least one registered nurse for each fifty patients or fraction thereof; and
- (b) during the period from 8 o'clock in the forenoon until midnight, at least one registered nurse for each thirty-five patients or fraction thereof. R.R.O. 1960, Reg. 523, s. 16.

17. A hospital shall keep a register of patients, which shall never be destroyed, containing,

- (a) a register number;
- (b) the name of the patient;
- (c) the sex of the patient;
- (d) the age of the patient;
- (e) the date of admission;
- (f) the name of the admitting physician;
- (g) the kind of operation or delivery, if any;
- (h) the sex of the child delivered, if any; and
- (i) the date of discharge or death,

for each patient admitted to the hospital. O. Reg. 102/66, s. 5; O. Reg. 190/69, s. 2.

18.—(1) When a patient is admitted to a hospital, the patient shall be issued a register number.

(2) For the purposes of subsection 1, a baby born alive in a hospital shall be deemed to be admitted at the time of birth. R.R.O. 1960, Reg. 523, s. 18.

19. The register numbers shall be issued to patients by,

- (a) assigning the number "1" to the first patient admitted in the fiscal year and thereafter assigning numbers in the order of admission; and
- (b) adding after the number given under clause a, a virgule and the last two digits of the number of the year in which it is issued. R.R.O. 1960, Reg. 523, s. 19.

20.—(1) A patient shall retain the same register number until his discharge from the hospital.

(2) All records relating to the patient shall bear his register number. R.R.O. 1960, Reg. 523, s. 20.

MEDICAL SERVICES

21. A board shall fix a time and place for the first meeting of the medical staff, which shall be held within one month after the first patient is admitted to a hospital after its creation, establishment or incorporation. R.R.O. 1960, Reg. 523, s. 21.

22.—(1) Subject to subsection 2, the medical staff shall hold monthly meetings of which one shall be the annual meeting.

(2) Where the medical advisory committee submits a request in writing to the board, the board may authorize the medical staff,

- (a) to omit the monthly meeting for the month of July;
- (b) to omit the monthly meetings for the months of July and August; or
- (c) subject to subsections 3, 4 and 5, to omit the monthly meetings.

(3) Where the medical staff of a general hospital is authorized to omit monthly meetings,

- (a) the medical staff shall hold at least four meetings in each fiscal year, of which one shall be the annual meeting;
- (b) the medical advisory committee shall meet monthly to consider medical staff affairs, including reports of all committees of the medical staff;
- (c) the medical advisory committee shall report its proceedings to the medical staff and to the board at least four times in each fiscal year; and
- (d) the medical staff in each department of the hospital shall hold at least ten monthly departmental meetings in each fiscal year.

(4) Where the medical staff of a hospital for convalescent persons or a hospital for chronically ill persons is authorized to omit monthly meetings,

- (a) the medical staff shall hold at least two meetings in each fiscal year, of which one shall be the annual meeting;
- (b) the medical advisory committee shall meet at least once in every three months to consider medical staff affairs, including reports of all committees of the medical staff; and
- (c) the medical advisory committee shall report its proceedings to the medical staff and to the board at least twice in each fiscal year.

(5) Notwithstanding subsections 1, 2 and 3, in a Group A hospital,

- (a) the medical staff shall hold at least one meeting in each fiscal year, which shall be the annual meeting;
- (b) the medical advisory committee shall meet monthly to consider medical staff affairs, including reports of all committees of the medical staff;

(c) the medical advisory committee shall report its proceedings to the medical staff at least once in each fiscal year and to the board at least six times in each fiscal year; and

(d) the medical staff in each department of the hospital shall hold at least ten monthly departmental meetings in each fiscal year. O. Reg. 102/66, s. 6.

23.—(1) At the first meeting held under section 21 and at each annual meeting the medical staff shall,

- (a) elect a president, vice-president and secretary from among themselves; and
- (b) fix a time and place for,
 - (i) the next annual meeting, and
 - (ii) the meetings of the medical staff to be held for the following year.

(2) The president, vice-president and secretary shall hold office until the next annual meeting. R.R.O. 1960, Reg. 523, s. 23.

24.—(1) The medical advisory committee shall appoint annually a member of the medical staff as physician in charge of the obstetrical nursery.

(2) The superintendent shall send to the Commission the name of the physician in charge of the obstetrical nursery, within one week after his appointment.

(3) The physician in charge of the nursery shall report to the Commission and to the superintendent, within twenty-four hours after their appearance, any signs and symptoms that indicate that a baby in the nursery has a communicable disease or infection. R.R.O. 1960, Reg. 523, s. 24; O. Reg. 102/66, s. 7.

25. The secretary shall take the minutes at all meetings of the medical staff. R.R.O. 1960, Reg. 523, s. 25.

26. If a member of the active medical staff is unable to perform his duties in the hospital, he shall notify the president or secretary of the medical staff who shall notify the superintendent and arrange for another member of the active medical staff to perform the duties. R.R.O. 1960, Reg. 523, s. 26.

27. When a member of the medical staff who is attending a patient other than a public-ward patient is unable to perform his duties in the hospital, he shall arrange for another member to perform his duties and notify the superintendent. R.R.O. 1960, Reg. 523, s. 27.

28. If the superintendent believes that a member of the medical staff is unable to perform his duties in the hospital, the superintendent shall notify the president or secretary of the medical staff and thereupon the president or secretary, as the case may be, shall arrange for another member of the medical staff to perform the duties. R.R.O. 1960, Reg. 523, s. 28; O. Reg. 102/66, s. 8.

29. Where a medical practitioner sends any person to a hospital for admission and the medical practitioner knows or suspects that that person is or may become for any reason dangerous to himself or to other patients, the medical practitioner shall notify the superintendent of the danger. R.R.O. 1960, Reg. 523, s. 29.

30. Only a member of the active medical staff shall be permitted to attend a patient for whose treatment a municipality is liable under section 22 of the Act to pay the charges. R.R.O. 1960, Reg. 523, s. 30.

31.—(1) No person shall be admitted to a hospital except,

(a) on the order of a medical practitioner who is a member of the medical staff of that hospital; and

(b) when the medical practitioner is of the opinion that it is medically necessary for the person to be admitted to the hospital as an in-patient.

(2) No person shall be admitted to a hospital for treatment by a dentist except,

(a) when the dentist is of the opinion that it is necessary for the person to be admitted to the hospital as an in-patient; and

(b) on the joint order of the dentist and of a medical practitioner who are members of the staff of that hospital. O. Reg. 102/66, s. 9.

32.—(1) A patient shall not be discharged from a hospital except on a discharge order written and signed by a member of the medical staff.

(2) When a patient is no longer in need of treatment in a hospital, the attending physician shall write and sign an order that the patient be discharged.

(3) A patient shall be deemed to be discharged when the attending physician or another member of the medical staff to whom the attending physician has delegated the duty, writes and signs the discharge order under subsection 2 and communicates it to the patient.

(4) When the patient is discharged he shall leave the hospital the same day but, with the approval of the administrator, the patient may, at his option, remain in the hospital for a further period not exceeding twenty-four hours.

(5) When a patient under the age of sixteen years is discharged, the person liable for his maintenance shall remove him from the hospital on the day he is discharged but, at the request of the person so liable, the patient may, with the approval of the administrator, remain in the hospital for a further period not exceeding twenty-four hours. O. Reg. 102/66, s. 10.

33.—(1) When a person is admitted to a hospital, he shall give the name and address of a relative or friend to be notified under subsection 3.

(2) The attending physician shall notify the superintendent when he believes that a relative or friend should be present at the hospital with the patient.

(3) The superintendent shall so notify the relative or friend. R.R.O. 1960, Reg. 523, s. 32.

34.—(1) A hospital shall be equipped with a clinical laboratory with facilities and staff able to make routine laboratory investigations necessary for the treatment of the patients in the hospital.

(2) When a laboratory investigation,

(a) is necessary for the treatment of a patient; and

(b) cannot be made in a laboratory in the hospital,

the superintendent shall cause the investigation to be made in a laboratory that has the facilities and staff able to make the investigation. R.R.O. 1960, Reg. 523, s. 33.

35.—(1) A surgeon shall not dispose of any tissues removed from a patient during an operation or curettage.

(2) Subject to subsection 3, the superintendent shall send the tissues removed, together with a short history of the case and a statement of the findings at the operation, to a laboratory for an examination and report.

(3) Where the tissue removed is an arm, finger, foot, hand, hemorrhoid, leg, prepuce, tonsil, toe or tooth, the tissue shall not be sent to a laboratory unless the surgeon desires an examination and report.

(4) A report, if any, of a pathologist shall be included in the medical record of the patient that is prescribed by section 38. R.R.O. 1960, Reg. 523, s. 34.

36.—(1) All orders for treatment shall be,

- (a) in writing and signed by the attending physician or attending dentist on a paper attached to the medical record of the patient or in a book designated for physicians' orders; and
- (b) dated and signed by the attending physician or attending dentist or by a medical practitioner authorized by the attending physician or a dentist authorized by the attending dentist,

but an attending physician or a medical practitioner authorized by him or an attending dentist or a dentist authorized by him, may dictate by telephone orders for treatment to a person designated by the administrator to take such orders.

(2) The person to whom an order for treatment has been dictated shall transcribe and sign it and endorse thereon the name of the medical practitioner or dentist who dictated the order and the date and time of receiving the order.

(3) When a medical practitioner or dentist has dictated an order by telephone, he shall sign the order on his first visit to the hospital thereafter. O. Reg. 102/66, s. 11.

37.—(1) Within seventy-two hours after the admission of a patient, the board shall cause a medical practitioner to,

- (a) write a medical history of the patient;
- (b) make a physical examination of the patient and record his findings; and
- (c) make and record a provisional diagnosis of the patient's condition. R.R.O. 1960, Reg. 523, s. 36.

(2) Within thirty-six hours after the admission of a patient for treatment by a dentist, the board shall cause the attending dentist to,

- (a) write a dental history relative to the cause of admission;
- (b) make a dental and oral examination of the patient and record his findings;
- (c) make and record a provisional diagnosis of the patient's dental condition; and
- (d) write a proposed course of dental treatment for the patient. O. Reg. 263/68, s. 3.

(3) Where a patient is admitted for dental surgery, the provisions of subsections 1 and 2 shall be carried out before the dental operation is begun. O. Reg. 263/68, s. 3.

38. The board shall cause to be compiled for each patient a medical record including,

- (a) identification;
- (b) history of present illness;
- (c) history of previous illnesses;
- (d) family history;
- (e) provisional diagnosis;
- (f) orders for treatment;
- (g) progress notes;
- (h) reports of,
 - (i) condition on discharge,
 - (ii) consultations,
 - (iii) follow-up care,
 - (iv) laboratory examinations,
 - (v) medical, surgical and obstetrical treatment,
 - (vi) operations and anaesthesia,
 - (vii) physical examinations,
 - (viii) radiological examinations, and
 - (ix) *post mortem* examination, if any;
- (i) final diagnosis; and
- (j) death certificate. R.R.O. 1960, Reg. 523, s. 37; O. Reg. 102/66, s. 12.

39.—(1) A person who makes any part of a record prescribed by sections 37 and 38 shall deliver the part to the superintendent.

(2) The superintendent is responsible for the safe-keeping of all records relating to a patient. R.R.O. 1960, Reg. 523, s. 38.

40.—(1) When a patient dies, the attending physician shall complete Form 2 and deliver it to the superintendent for the medical record of the patient.

(2) Where the attending physician completes the medical certificate of death that is required by subsection 3 of section 17 of *The Vital Statistics Act* and delivers a copy to the superintendent, subsection 1 does not apply. R.R.O. 1960, Reg. 523, s. 39.

41. When a medical practitioner performs a *post mortem* examination on the body of a patient, he shall make and sign a report of the examination and deliver it to the superintendent. R.R.O. 1960, Reg. 523, s. 40.

42.—(1) Where medical records are photographed in order to keep a permanent record thereof, such photographing shall be carried out in accordance with a practice established by the board after considering a recommendation from the medical advisory committee, for the photographing of medical records of patients and out-patients.

(2) Medical records that have been photographed pursuant to subsection 1 shall be retained for two years from the date of discharge or death of the patient and may be destroyed thereafter by the administrator.

(3) Photographs made pursuant to subsection 1 shall be retained for fifty years from the date when they were made and may be destroyed thereafter by the administrator. O. Reg. 190/69, s. 3.

43. When medical records or photographs thereof are destroyed, the administrator shall forthwith make a statutory declaration under oath stating the date and manner of the destruction, the fact that the destruction was carried out in accordance with a practice established by the board pursuant to section 42 and the names of the patients whose records or photographs of records were destroyed, and the administrator is responsible for the safe-keeping of such declaration. O. Reg. 190/69, s. 3.

44. Medical records that have not been photographed in accordance with a practice established by the board pursuant to section 42 shall be retained by the hospital,

(a) for twenty years following the date of the discharge of the patient or the date of the last visit of the out-patient, as shown on the medical records; or

(b) for five years following the death of the patient or out-patient,

and may be destroyed thereafter by the administrator. O. Reg. 190/69, s. 3.

45. Notwithstanding sections 42 and 44, the period for retention of the medical records of a patient under twenty-one years of age shall not commence until the twenty-first anniversary of his birth. O. Reg. 190/69, s. 3.

46.—(1) Nurses' notes, charts showing temperature, blood pressure and respiration, sheets showing vital signs or fluid balance and other notes not made

by a physician need not be photographed or retained as part of the medical record unless,

(a) a court action has been commenced and the administrator has been served with notice that such notes, charts and sheets may be required;

(b) such notes, charts and sheets contain information which indicates that the patient had suffered some misadventure in the hospital; or

(c) the medical record that should have been made by a physician or physicians is incomplete or inadequate in the opinion of the administrator or of the records committee of the hospital.

(2) Notes, charts and sheets required to be retained under subsection 1 shall be considered part of the medical record.

(3) Notes, charts and sheets not required to be retained under subsection 1 are not part of the medical record but shall be retained for five years from the date of discharge or death of the patient and may be destroyed thereafter by the administrator. O. Reg. 190/69, s. 3.

47.—(1) X-ray films are part of the medical record unless a report of the radiological examination is written by a physician and retained as part of the patient's medical record.

(2) An X-ray film that is not part of the medical record shall be retained after the date of discharge or death of the patient, or after the date of the last visit of the out-patient as shown on the medical record,

(a) for five years, if the film was a film of the chest, other than a miniature film taken as a routine admission procedure;

(b) for five years, if the film was reported as showing some significant abnormality or if the administrator is served with a notice that a court action has been commenced and that the film might be required for use in the action; or

(c) for one year if the film, other than a chest film mentioned in clause a, was reported as not showing any significant abnormality,

and may be destroyed thereafter by the administrator. O. Reg. 190/69, s. 3.

48.—(1) Subject to subsections 2, 3, 4 and 5, a board shall not permit any person to remove, inspect or receive information from a medical record. R.R.O. 1960, Reg. 523, s. 41 (1); O. Reg. 102/66, s. 13 (1).

(2) Subsection 1 does not apply to,

(a) a person with a process,

(i) issued in Ontario out of a court of record or any other court, and

(ii) ordering the removing of, the inspecting of or the receiving of information from a medical record; or

(b) an inspector. R.R.O. 1960, Reg. 523, s. 41 (2).

(3) Notwithstanding subsection 1, a coroner or a legally qualified medical practitioner, magistrate or police officer so authorized in writing and directed by a coroner, may inspect and receive information from medical records and may reproduce and retain copies therefrom for the purposes of an inquest or to determine whether an inquest is necessary, where the coroner has,

(a) issued his warrant to take possession of the body;

(b) issued his warrant for an inquest; or

(c) attended at the hospital to view the body and make an investigation in accordance with *The Coroners Act*. O. Reg. 102/66, s. 13 (3).

(4) Notwithstanding subsection 1,

(a) the registrar and the elected members of the Council of the College of Physicians and Surgeons of Ontario, *ex officio*, after giving prior notice to the Commission and to the administrator on each such occasion of his or their intention to inspect the medical records of a hospital; and

(b) a medical practitioner or medical practitioners appointed by the College of Physicians and Surgeons of Ontario, with the approval of the Commission,

may inspect and receive information from medical records and may reproduce and retain copies therefrom for the purposes of the College. O. Reg. 102/66, s. 13 (3); O. Reg. 440/69, s. 1 (1).

(5) A board may permit,

(a) the attending physician;

(b) the administrator of another hospital who makes a written request to the administrator;

(c) a person who presents a written request signed by,

(i) the patient,

(ii) where the record is of a former patient, deceased, his personal representative; or

(iii) the parent or guardian of an unmarried patient under eighteen years of age;

(d) a member of the medical staff but only for,

(i) teaching purposes, or

(ii) scientific research that has been approved by the medical-staff advisory committee;

(e) a person with a written direction from the Deputy Minister of Veterans Affairs (Canada) or some person designated by him, where the patient is a member or ex-member of Her Majesty's military, naval or air force of Canada; or

(f) the Director of the Research and Planning Branch or the Department or his authorized representative approved by the Commission or an officer or employee of the Commission who is designated by the Chairman,

to inspect and receive information from a medical record and to be given copies therefrom. R.R.O. 1960, Reg. 523, s. 41 (3); O. Reg. 263/68, s. 4; O. Reg. 440/69, s. 1 (2).

(6) Any information received under clause f of subsection 5 shall not be used or disclosed to any person for any purpose other than the purposes of compiling statistics and carrying out medical and epidemiological research for or approved by the Department and the Commission. O. Reg. 440/69, s. 1 (3).

49. No surgical operation shall be performed on a patient unless a consent in writing for the performance of the operation has been signed by,

(a) the patient;

(b) the spouse, one of the next of kin or parent of the patient if the patient is unable to sign by reason of mental or physical disability; or

(c) the parent or guardian of the patient if the patient is unmarried and under eighteen years of age,

but if the surgeon believes that delay caused by obtaining the consent would endanger the life of the patient,

- (d) the consent is not necessary; and
- (e) the surgeon shall write and sign a statement that a delay would endanger the life of the patient. R.R.O. 1960, Reg. 523, s. 42.

50.—(1) Before any anaesthetic is administered to a patient, there shall be entered on the medical record of the patient,

- (a) a history of the present and any previous illnesses;
- (b) the results of laboratory investigations essential to the proper assessment of the patient's physical condition, including in every case an examination of the patient's urine for the presence of sugar and albumen and of his blood for the haemoglobin content; and
- (c) the findings on a physical examination.

(2) Before an anaesthetic is administered to a patient, the anaesthetist shall,

- (a) take a medical history and make a physical examination of the patient sufficient to enable him to evaluate the physical condition of the patient and to choose a suitable anaesthetic for the patient; and
- (b) enter or cause to be entered on the anaesthetic record and sign, a statement of data relevant to administering the anaesthetic from the patient's history, laboratory findings and physical examination.

(3) Where the anaesthetist and the surgeon believe that a delay in the operation caused by obtaining the record mentioned in subsection 1 would endanger the life or a limb or vital organ of the patient, such record may be made after the operation and the anaesthetist and the surgeon shall prepare and jointly sign a statement to this effect with a diagnosis of the patient's condition and deliver it to the administrator. O. Reg. 263/68, s. 5.

51.—(1) Before a surgical operation is performed on a patient, the surgeon shall,

- (a) make a physical examination of the patient sufficient to enable the surgeon to make a diagnosis; and
- (b) enter or cause to be entered on the medical record of the patient and shall sign, a statement of his findings on the physical examination and his diagnosis.

(2) Where a surgeon performs a surgical operation in a hospital, the surgeon shall prepare or cause to be prepared by a medical practitioner who has observed the entire operation, a written description of the operative procedure and findings and the diagnosis made at the operation.

(3) The surgeon shall deliver the written description to the superintendent after the operation.

(4) The surgeon who performs an operation on a patient is responsible for directing the post-operative care of the patient. R.R.O. 1960, Reg. 523, s. 44.

52. The anaesthetist shall prepare an anaesthetic record with respect to each patient that shows the,

- (a) medication given in contemplation of anaesthesia;
- (b) anaesthetic agents used, methods of administration of such agents and the proportions or concentrations of all agents administered by inhalation;
- (c) names and quantities of all drugs given by injection;
- (d) duration of the anaesthesia;
- (e) quantities and type of all blood and the nature of any blood derivations and other fluids administered intravenously during the operation; and
- (f) patient's condition before, during and after the operation. O. Reg. 263/68, s. 6.

53. Before an operation is performed on an indigent patient, two surgeons, one of whom is a member of the active medical staff, shall,

- (a) examine the patient; and
- (b) record in writing and sign their findings and recommendations and deliver those findings and recommendations to the superintendent. R.R.O. 1960, Reg. 523, s. 47.

54.—(1) Where a person takes blood from a person for a transfusion, the person taking the blood shall make a record showing,

- (a) the name, address, blood-grouping and Rh-factor typing of the person from whom the blood is taken;
- (b) the date of taking of the blood;
- (c) the amount of blood taken; and

(d) the result of any Wasserman or Kahn test made on a sample of the blood taken for the transfusion.

(2) The person making the record shall deliver it to the superintendent. R.R.O. 1960, Reg. 523, s. 48.

55. If the attending physician knows or suspects that a maternity patient is suffering from puerperal sepsis or any infection, the attending physician shall forthwith notify the superintendent. R.R.O. 1960, Reg. 523, s. 49.

56.—(1) A maternity patient who is suffering from or is suspected to be suffering from puerperal sepsis or any infection shall be isolated in a room separated from other patients.

(2) The nurse who cares for a maternity patient isolated under subsection 1 shall not attend,

(a) a patient who is not infected; or

(b) a surgical patient. R.R.O. 1960, Reg. 523, s. 50.

57. When a patient dies as a direct or indirect result of pregnancy, the superintendent shall complete and deliver a report in Form 3 to an inspector within twenty-four hours after the death. R.R.O. 1960, Reg. 523, s. 51.

58. When a stillbirth or neonatal death occurs in a hospital, the superintendent shall complete and deliver a report in Form 4 to the Commission within twenty-four hours after the occurrence of the stillbirth or neonatal death. R.R.O. 1960, Reg. 523, s. 52.

59.—(1) When an indigent patient,

(a) is critically ill; or

(b) remains in hospital for a period of thirty days,

at least two members of the active medical staff shall,

(c) hold a consultation; and

(d) record in writing and sign their findings and recommendations in respect of the patient and deliver the record showing the date of the consultation to the superintendent.

(2) At the end of each three-week period during which an indigent patient remains in a hospital after the end of thirty days from the date of admission, at least two members of the active medical staff shall comply with clauses c and d of subsection 1. R.R.O. 1960, Reg. 523, s. 53.

60. A board shall not use or permit to be used within the hospital milk that has not been pasteurized within the meaning of *The Public Health Act*. R.R.O. 1960, Reg. 523, s. 54.

HOSPITAL EMPLOYEES

61. For the purpose of this Regulation, "hospital employees" include,

(a) graduate and student nurses;

(b) interns;

(c) graduate and student physiotherapists and occupational therapists;

(d) registered nursing assistants, student nursing assistants and any other employees on the nursing staff;

(e) ward maids and ward orderlies;

(f) laboratory technicians and student laboratory technicians;

(g) X-ray technicians and student X-ray technicians;

(h) dietitians, student dietitians and food handlers;

(i) school teachers;

(j) social workers; and

(k) all other hospital employees. O. Reg. 102/66, s. 14.

62.—(1) Within fourteen days of his employment, each hospital employee shall receive an intradermal tuberculin test and an X-ray film of his chest shall be taken.

(2) Notwithstanding subsections 1 and 5, where a person starting employment in a hospital gives to the administrator evidence that he has had an X-ray film of his chest made during the year preceding the date of his employment, he shall not be required to have another X-ray of his chest until twelve months after the date of the last previous X-ray film of his chest.

(3) Each hospital employee mentioned in clauses a to j, inclusive, of section 61 who has a negative tuberculin reaction shall receive an additional tuberculin test within six months of the date of the first test and shall receive an additional test within six months of the date of each test where the result of the test is negative.

(4) Each hospital employee mentioned in clause k of section 61 who has a negative tuberculin reaction shall receive an additional tuberculin test within twelve months of the date of the first test and

shall receive an additional test within twelve months of the date of each test where the result of the test is negative.

(5) Each hospital employee who is found to have a positive tuberculin reaction shall have an X-ray film of his chest taken forthwith and every twelve months thereafter.

(6) Where a hospital employee has a negative tuberculin reaction to the tuberculin test done within fourteen days of his employment and has a positive tuberculin reaction to a later tuberculin test, he shall have an X-ray film of his chest taken forthwith after having the positive tuberculin reaction and every three months for the next year; again in six months, and then every twelve months thereafter.

(7) Every hospital employee whose X-ray film shows evidence of abnormal shadowing shall forthwith receive a further examination to determine the nature of the disease.

(8) No tests other than the intra-dermal (Mantoux) test, using one-twentieth of a milligram of Old Tuberculin, shall be used for the tests required under this section.

(9) Notwithstanding subsection 1, where a person starting employment in a hospital gives the administrator evidence that she is pregnant, she shall receive an intra-dermal tuberculin test but an X-ray film of her chest shall not be made.

(10) Where a hospital employee gives the administrator evidence that she is pregnant and she has a positive tuberculin reaction to the intra-dermal test made under subsection 9 or to a later test made under subsection 3, an X-ray film of her chest shall not be made if she gives the administrator evidence that she had a normal X-ray of her chest made within the twelve months prior to the date of the positive tuberculin reaction unless,

- (a) there is additional evidence indicating the possibility that she may have active tuberculosis; and
- (b) all proper technical precautions are taken to protect the foetus from radiation during the making of the X-ray. O. Reg. 102/66, s. 14.

63. Notwithstanding subsections 2 and 6 of section 62, where a hospital employee is found to have developed a positive tuberculin reaction because of the administration of Bacillus Calmette-Guerin Vaccine, the employee shall have an X-ray film of his chest taken within six months of the making of the X-ray film referred to in subsection 1 or 2 of section 62 and within six months after developing a positive reaction and every twelve months thereafter. O. Reg. 102/66, s. 14.

64. Notwithstanding section 62, where a hospital employee produces a certificate by a legally qualified medical practitioner stating that the intra-dermal (Mantoux) test causes an unusually severe reaction in the employee, the intra-dermal test shall not be performed on that employee but an X-ray film of his chest shall be made within fourteen days of his employment and every twelve months thereafter. O. Reg. 102/66, s. 14.

65. No hospital employee found to be suffering from active tuberculosis shall be permitted to work in the hospital and the administrator shall report the case within twenty-four hours to the medical officer of health of the municipality in which the employee resides. O. Reg. 102/66, s. 14.

66. Where a hospital employee shows evidence of tuberculosis, the administrator, within seven days of the time of the diagnosis, shall,

- (a) give written notice of the diagnosis to the Commission, the Department and The Workmen's Compensation Board; and
- (b) forward to The Workmen's Compensation Board a complete report of the medical findings,

and shall keep for inspection by the Commission and the Department a copy of the complete report and of the employee's record of examinations, X-rays and tests. O. Reg. 102/66, s. 14.

67.—(1) The administrator shall keep a permanent record of all examinations and tests of every employee of the hospital and, if requested, shall send a copy of every record, including the X-ray films, to The Workmen's Compensation Board, to the Department or to the Commission.

(2) The permanent record of all examinations and tests referred to in subsection 1 shall be kept by the administrator for three years after the employee has ceased to be employed in the hospital.

(3) Any officer of the Department who is authorized by the Deputy Minister, any officer of the Commission who is authorized by the chairman, or any officer of The Workmen's Compensation Board who is authorized by its chairman, may inspect the medical records of the hospital employees at any time.

(4) The hospital is responsible for all examinations of the hospital employees and none of the expenses thereby incurred are payable by the employees. O. Reg. 102/66, s. 14.

68. Where a medical practitioner believes or suspects that a person admitted by him to a hospital is suffering from tuberculosis, he shall notify the administrator forthwith. O. Reg. 102/66, s. 14.

69. No hospital employee shall be detailed to care for a patient believed or suspected to be suffering from tuberculosis until the employee has received instruction as to the necessary technique to protect himself and others against infection and, where possible, the employee so detailed shall be a positive reactor to the tuberculin test. O. Reg. 102/66, s. 14.

70.—(1) Upon ceasing to be employed, every hospital employee who has been employed for six or more months shall have an X-ray film taken of his chest.

(2) Upon ceasing to be employed, every hospital employee shall be provided by the administrator with evidence showing,

- (a) the employee's reaction to any tuberculin tests received by him while an employee in the hospital with the dates of such tests; and
- (b) the date on which the last X-ray film was taken of the employee's chest, with a copy of the report of that film. O. Reg. 102/66, s. 14.

71. Nothing contained in this Regulation shall prevent an employee from being employed in a hospital when his tuberculosis is inactive. O. Reg. 102/66, s. 14.

HOSPITALS FOR THE CHRONICALLY ILL

72.—(1) A certificate under section 16 of the Act for the admission of an indigent person or the dependant of an indigent person to a hospital for the chronically ill shall be made by a medical practitioner in Form 5.

(2) A certificate under subsection 3 of section 17 of the Act that a person referred to a hospital for the chronically ill from an active treatment hospital is a chronically ill person shall be made in Form 5 by the person's attending physician who is a member of the medical staff of the active treatment hospital from which the patient is referred.

(3) A person, whether or not an indigent person or the dependant of an indigent person, may be admitted directly to a hospital for chronically ill persons without being referred to it from an active treatment hospital if the person is certified by a medical practitioner in Form 5 to be a chronically ill person and in need of treatment in a hospital for chronically ill persons. O. Reg. 102/66, s. 15.

HOSPITALS FOR CONVALESCENT PERSONS

73.—(1) A certificate under subsection 2 of section 17 of the Act that a person referred to a hospital for convalescent persons from an active

treatment hospital is a convalescent person shall be made in Form 6 by the person's attending physician who is a member of the medical staff of the active treatment hospital from which the patient is referred.

(2) A person, whether or not an indigent person, or the dependant of an indigent person, may be admitted directly to a hospital for convalescent persons if the person is certified by a medical practitioner in Form 6 to be a convalescent person and in need of treatment in a hospital for convalescent persons. O. Reg. 102/66, s. 15.

74. No construction, alteration, renovation or acquisition of buildings to be used for hospital purposes shall be undertaken until complete working drawings and specifications of the project have been approved by the Fire Marshal of Ontario. O. Reg. 282/67, s. 1.

75.—(1) The board shall maintain and bring up to date at the request of the Commission an electrically-supervised fire-alarm system consisting of manual and automatic stations and sounding devices so located that the sound of an alarm therefrom can be heard in every area of the hospital.

(2) The fire-alarm system shall be of a type acceptable to the Fire Marshal of Ontario at the time of its installation. O. Reg. 282/67, s. 1.

76.—(1) The board shall provide on each floor and in the basement of its hospital, except in areas where the major fire hazard is an inflammable liquid or is electrical, water-type extinguishers, each with a capacity of two Imperial gallons, so located that a person is not required to travel more than one hundred feet from any point on the same floor to reach the nearest extinguisher.

(2) Where the major fire hazard is that of inflammable liquids or is electrical, fire extinguishers tested and listed for such hazards shall be provided.

(3) All fire extinguishers shall be of a type tested and listed by,

- (a) Underwriters' Laboratories of Canada,
- (b) Underwriters' Laboratories Incorporated,
- (c) Factory Mutual Engineering Division, or
- (d) Fire Officers Committee of the United Kingdom.

(4) Where a fire extinguisher is located in a fire hose cabinet, the extinguisher shall be visible through the cabinet door, or there shall be an indication of its presence clearly marked on the outside of the cabinet.

(5) Vaporizing liquid-type fire extinguishers shall not be located or used in any hospital. O. Reg. 282/67, s. 1.

77.—(1) The board shall provide stand-pipe risers, each with an attached hose and nozzle of a size and design acceptable to the Fire Marshal of Ontario for fire-fighting purposes and located so that all parts of the building are protected.

(2) Where the hose has a diameter of $1\frac{1}{2}$ inches, each such hose shall not exceed seventy-five feet in length and shall be provided with a combination straight stream and fog nozzle.

(3) Where hose $1\frac{1}{2}$ inches in diameter is provided, water pressure shall be maintained in the stand-pipe system so that a pressure of 45 pounds per square inch is exerted at the uppermost hose outlet, with a flow of 35 Imperial gallons per minute. O. Reg. 282/67, s. 1.

78. The board shall ensure that,

- (a) stairways and corridors are adequately lighted at all times;
- (b) doors to stairwells are equipped with self-closers and are kept shut at all times;
- (c) any exit door from a stairwell or corridor and any exit door that may be used by more than one hundred persons as an exit in the event of a fire shall be fastened only with panic hardware; and
- (d) a continuously and internally illuminated "EXIT" sign shall be maintained above each door mentioned in clauses *b* and *c*. O. Reg. 282/67, s. 1.

79. The administrator shall,

- (a) inspect or cause to be inspected the fire-alarm system and all fire-fighting equipment at least once a month;
- (b) test or cause tests to be given to all fire-fighting equipment as recommended by the manufacturer;
- (c) instruct or cause instruction to be given to the staff, including the medical staff, in the use of fire-fighting equipment;

(d) establish a written fire procedure, clearly showing the duties of the staff, including the medical staff, when a fire alarm is given, including a procedure for the evacuation of patients;

(e) train or cause training to be given to all staff, including the medical staff, in the fire procedure established under clause *d*;

(f) post written instructions of the fire procedure established under clause *d* in areas except patients' rooms frequented by hospital staff, including the medical staff;

(g) conduct, in co-operation with the local fire department, if possible, practice by the staff, including the medical staff, in their duties according to the fire procedure established under clause *d*, at least once a month, actuating the fire-alarm system at each practice so that all alarm devices are sounded;

(h) keep for at least two years a written record of the inspections, tests and practices made under this section and the findings thereon;

(i) ensure that patients, visitors and staff, including the medical staff, are not permitted to smoke in rooms where oxygen is being administered, is in use or is stored; and

(j) ensure that all precautions are taken to protect patients and staff, including the medical staff, from receiving electric shocks from any source and especially from equipment used in the examination or treatment of patients. O. Reg. 282/67, s. 1.

80. The board shall,

(a) cause all inflammable anaesthetics that are not in use to be stored in a safe place;

(b) ensure that when inflammable anaesthetics are administered, every precaution is taken to prevent fire and explosion; and

(c) develop policies and rules to govern the control of smoking by any patient when, because of his condition, smoking would create a hazard to his safety or to the safety of others. O. Reg. 282/67, s. 1.

APPLICATION FOR APPROVAL OF A NEW HOSPITAL

We,.....
(name in full) (address) (occupation)

....., and

.....

make application for approval under subsection 1 of section 4 of the Act, of the creation, establishment or incorporation of an institution, building or other premises or place in the.....
(city, town, village or township)

in the.....of.....
(county or district)

as a hospital.

Date....., 19.....

R.R.O. 1960, Reg. 523, Form 1.

Form 2

The Public Hospitals Act

CERTIFICATE OF DEATH

Name of patient.....

Date and hour of death.....

CAUSE OF DEATH
(read instructions on reverse side)

	Approximate interval between onset and death
I	
IMMEDIATE CAUSE—State the disease, injury or complication that caused death, not the mode of dying, such as heart failure, asphyxia, asthma, et cetera.	(a)..... due to
MORBID CONDITIONS, if any, giving rise to immediate cause (state in order backwards from immediate cause).	(b)..... due to
	(c).....
II	
OTHER MORBID CONDITIONS (if important) contributing to death but not causally related to immediate cause.	

INSTRUCTIONS

- 1. The morbid conditions relating to death are divided into two parts. In Part I are those conditions causally related to the "IMMEDIATE CAUSE" and in Part II those not causally related thereto. In most cases the completion of Part I will be sufficient. Detailed certification is not required, the entry of a single cause is preferable in cases where a single cause is sufficient, as in Example I. Where the person completing the certificate finds it necessary to record more than one cause, it is important that the causes be stated in the position provided on the form as indicative of their mutual relationship.
- 2. Follow these instructions:
 - 1. Name first the "Immediate Cause" of death, i.e., the disease, injury or complication that caused death (not mode of dying or terminal condition).
 - 2. Then give the other morbid conditions (if any) of which the immediate cause was the consequence, in order of causal relationship, stating the most recent one first and then the others in order.
 - 3. Part II is reserved for other important contributory morbid conditions, particularly when death was due to a combination of maladies, none of which would have been fatal alone.
 - 4. Use accepted terms for morbid conditions and never record mere symptoms.
 - 5. Maternal deaths—qualify all diseases resulting from childbirth, miscarriage or abortion by the word "puerperal", for example, puerperal septicaemia; distinguish between septicaemia originating in abortion and in childbirth.
 - 6. Cancer—specify the organ or first part affected.
 - 7. Violent deaths—where a death was due to a violent cause, the person completing the medical certificate shall indicate clearly whether the death was due to accident, suicide or homicide and the manner and nature of the injury that resulted in death; where the death was due to accident, the circumstances shall be stated as fully as possible, for example, an automobile accident shall always be designated as such.
- 3. The following examples illustrate the essential principles in the use of the form:

I	Example 1	Example 2	Example 3	Example 4	Example 5
IMMEDIATE CAUSE State the disease, injury or complication that caused death, not the mode of dying, such as heart failure, asphyxia, asthenia, et cetera.	(a) Lobar pneumonia due to	(a) Pulmonary tuberculosis due to	(a) Acute peritonitis due to	(a) Broncho pneumonia due to	(a) Uraemia due to

MORBID CONDITIONS, if any, giving rise to immediate cause (state in order backwards from immediate cause).	(b) due to	
	(c)	
II		
OTHER MORBID CONDITIONS (if important) contributing to death but not causally related to immediate cause.		

11.

ANTENATAL CARE

If the patient received antenatal care from a legally qualified medical practitioner indicate,

- (a) the name of such physician:.....
- (b) the date of the first antenatal examination:.....
- (c) the findings, with date in each case, on,
 - (i) abdominal examination:.....
 - (ii) urinalysis:.....
 - (iii) blood pressure examination:.....
 - (iv) pelvic examination:.....
 - (v) haemoglobin:.....method used:.....Rh: pos. or neg.
- (d) compliance of the patient with any treatment ordered:.....
- (e) any morbid conditions present before pregnancy:.....
- (f) any morbid conditions arising during pregnancy:.....
.....when discovered:.....
what were they?.....
on how many occasions was patient present at antenatal clinic?.....

12.

LABOUR

Where labour took place in the hospital,

- (a) date and hour labour commenced:.....
- (b) duration of labour hours:.....
- (c) was labour spontaneous or induced?.....
- (d) period of gestation in weeks:.....
- (e) qualifications of nurses in attendance:.....
- (f) complications of labour:.....

13.

DELIVERY

Where delivery took place in the hospital,

- (a) presentation:.....
- (b) any complications of second stage:.....
- (c) character of delivery—spontaneous, forceps (low, mid, high), version, Caesarean, other
.....

- (d) name the anaesthetic agent used:.....amount given:.....
 Length of time administered:.....by whom given:.....
 (e) was placenta retained, adherent or manually separated?.....
 (f) any abnormalities of third stage?.....
 (g) was the infant stillborn?.....if NOT, did it survive twenty-four hours?.....

14.

POSTPARTUM

Describe the postpartum condition of the patient as follows:

- (a) did the temperature rise to 100.4 ° Fahrenheit or over, twice or oftener between the 2nd and 10th days after delivery?.....
 (b) complications that arose after delivery (i) haemorrhage, (ii) eclampsia, (iii) puerperal sepsis, (iv) other:.....
 (c) treatment given to complication(s) named in clause (b):.....
 (d) where puerperal pyrexia or sepsis is named in clauses *a* or *b*, any probable source and mode of infection:.....
 (e) where eclampsia is named in clause *b*,
 (i) date albumen first discovered:.....
 (ii) other symptoms of eclampsia:.....

REPORT OF STILLBIRTH OR NEONATAL DEATH

I,....., superintendent
 of the.....hospital in the.....
 (city, town, township)
of.....in the.....
 or village).....(county or as the case may be)
 of.....report that a.....
 (stillbirth or neonatal death)
 occurred in the above-named hospital on the.....day of....., 19....
 at.....o'clock in the.....noon.

I have the following information with respect to this.....
(stillbirth or neonatal death)

1. Father,

- (a) name:.....
- (b) address:.....

2. Mother,

- (a) name:.....
- (b) hospital register number:.....
- (c) address:.....
- (d) marital status:.....
- (e) racial origin:.....
- (f) number of previous pregnancies,
 - (i) abortions:.....
 - (ii) stillbirths:.....
 - (iii) live births:.....
- (g) any abnormalities associated with previous deliveries:.....

3. If mother is dead give,

- (a) date of her death:.....
- (b) cause of her death:.....

4. If a stillbirth give,

- (a) sex:.....
- (b) weight:.....
- (c) period of gestation at time of extraction or expulsion:.....
- (d) probable time of death:.....

5. If a neonatal death give,

- (a) sex:.....
- (b) weight at birth:.....
- (c) date, hour and minute of death:.....
- (d) cause of death:.....

I	
IMMEDIATE CAUSE—State the disease, injury or complication that caused death, not the mode of dying, such as heart failure, asphyxia, asthenia, et cetera.	(a) due to
MORBID CONDITIONS, if any, giving rise to immediate cause (state in order backwards from immediate cause).	(b) due to (c)
II	
OTHER MORBID CONDITIONS (if important) contributing to death but not causally related to immediate cause.

INSTRUCTIONS

1. The morbid conditions relating to death are divided into two parts. In Part I are those conditions causally related to the "IMMEDIATE CAUSE" and in Part II those not causally related thereto. In most cases the completion of Part I will be sufficient. Detailed certification is not required, the entry of a single cause is preferable in cases where a single cause is sufficient, as in Example I. Where the person completing the certificate finds it necessary to record more than one cause, it is important that the causes be stated in the position provided on the form as indicative of their mutual relationship.
2. Follow these instructions:
 1. Name first the "Immediate Cause" of death, i.e., the disease, injury or complication that caused death (not mode of dying or terminal condition).
 2. Then give the other morbid conditions (if any) of which the immediate cause was the consequence, in order of causal relationship, stating the most recent one first and then the others in order.
 3. Part II is reserved for other important contributory morbid conditions, particularly when death was due to a combination of maladies, none of which would have been fatal alone.
 4. Use accepted terms for morbid conditions and never record mere symptoms.
 5. Maternal deaths—qualify all diseases resulting from childbirth, miscarriage or abortion by the word "puerperal", for example, puerperal septicaemia; distinguish between septicaemia originating in abortion and in childbirth.
 6. Cancer—specify the organ or first part affected.
 7. Violent deaths—where a death was due to a violent cause, the person completing the medical certificate shall indicate clearly whether the death was due to accident, suicide or homicide and the manner and nature of the injury that resulted in death; where the death was due to accident, the circumstances shall be stated as fully as possible, for example, an automobile accident shall always be designated as such.

3. The following examples illustrate the essential principles in the use of the form:

I	Example 1	Example 2	Example 3	Example 4	Example 5
IMMEDIATE CAUSE State the disease, injury or complication that caused death, not the mode of dying, such as heart failure, asphyxia, as-thenia, et cetera.	(a) Lobar pneumonia due to	(a) Pulmonary tuberculosis due to	(a) Acute peritonitis due to	(a) Broncho pneumonia due to	(a) Uraemia due to
MORBID CONDITIONS, IF ANY, GIVING RISE TO IMMEDIATE CAUSE (state in order backwards from im-mediate cause).	(b) due to	(b) due to	(b) Acute appendicitis due to	(b) Operation due to	(b) Chronic nephritis due to
	(c)	(c)	(c)	(c) Strangu-lated inguinal hernia	(c)
II

REGULATION 730**under The Public Lands Act****HUNTING BY AIRCRAFT**

1. In this Regulation "Crown lands" includes any water the bed of which is vested in the Crown. O. Reg. 268/63, s. 1.

2. No person shall land an aircraft on Crown lands for the purpose of hunting or knowingly discharge a passenger from an aircraft on Crown lands for the purpose of hunting, except at an angling or hunting camp occupied under authority issued by the Crown. O. Reg. 268/63, s. 2.

REGULATION 731

under The Public Lands Act

RESTRICTED AREAS—DISTRICT OF ALGOMA

1. The area in territory without municipal organization, more particularly described in Schedule "A" hereto and being composed of the geographic townships of Ley, Havilland, Tilley, Fisher, Herrick, Tp. 29 Range 14, Tp. 29 Range 15, and part of the geographic townships of Tp. 28 Range 15, Tp. 28 Range 13, Tp. 27 Range 13, Tp. 27 Range 12, Kincaid, Ryan, Palmer, Archibald, and Tupper in the Territorial District of Algoma is designated as a restricted area. O. Reg. 138/67, s. 1.

Schedule "A"

All and Singular those certain tracts of land in the Territorial District of Algoma, and being composed of the geographic townships of Ley, Havilland, Tilley, Fisher, Herrick, Tp. 29 Range 14, Tp. 29 Range 15, and part of the geographic townships of Tp. 28 Range 15, Tp. 28 Range 13, Tp. 27 Range 13, Tp. 27 Range 12, Kincaid, Ryan, Palmer, Archibald, and Tupper described as follows:

Beginning at the intersection of the east boundary of the geographic Township of Ryan with the north limit of Mining Location Number 8; thence east along the said north limit and its easterly production a distance of 3 miles; thence north astronomically to the intersection with the north boundary of the geographic Township of Palmer; thence continuing north astronomically a distance of 3 miles; thence east astronomically to the intersection with the water's edge along the westerly bank of the Batchawana River; thence in a southerly, southwesterly, and southeasterly direction following the said water's edge to the intersection with the north boundary of the geographic Township of Fisher; thence easterly along the north boundaries of the geographic townships of Fisher and Tilley to the northwest corner of the geographic Township of Archibald; thence south along the west boundary of the last-mentioned geographic township to the northwest corner of Lot 12 in Concession III; thence east along the north limits of lots 12 and 11 in Concession III to the northeast corner of said Lot 11; thence south along the east limit of Lot 11 in concessions III, II and I to the intersection with the north boundary of the geographic Township of Tupper; thence south along the east limit of Lot 11 in concessions VI, V, IV and III in the geographic Township of Tupper to the southeast corner of Lot 11 in Concession III; thence

west along the south limits of lots 11 and 12 in Concession III to the intersection with the east boundary of the geographic Township of Havilland; thence south along that east boundary to the southeast corner of the last-mentioned geographic township; thence west along the south boundaries of the geographic townships of Havilland and Ley to the southwest corner of the last-mentioned geographic township; thence west on the westerly production of the south boundary of the geographic Township of Ley to the water's edge of Lake Superior; thence in a northerly, easterly, northeasterly, northwesterly and northeasterly direction following the water's edge of Lake Superior to the westerly production of the north boundary of geographic Township Tp. 28 Range 15; thence east along the said westerly production and the north boundary of geographic Township Tp. 28 Range 15 to the intersection with the westerly limit of the right-of-way of that part of the King's Highway known as No. 17; thence southeasterly along that right-of-way to the intersection with a line drawn west astronomically from the intersection of the high-water mark on the northerly bank of the Montreal River with the westerly boundary of the geographic Township of Home; thence east astronomically to a point distant 3 miles measured west astronomically from the said intersection of the high-water mark on the northerly bank of the Montreal River with the westerly boundary of the geographic Township of Home; thence south astronomically to the intersection with the south boundary of geographic Township Tp. 28 Range 15; thence west along the south boundary of the last-mentioned geographic township to the northeast corner of geographic Township Tp. 29 Range 14; thence south along the east boundary of that geographic township to the southeast corner thereof; thence west along the south boundary of that geographic township to the intersection with a line drawn north astronomically from the intersection of the south boundary of the geographic Township of Kincaid with the easterly limit of the A. McDonell Location; thence south astronomically to the said intersection on the easterly limit of the A. McDonell Location; thence southeasterly along the said easterly limit to the southeasterly corner thereof; thence south astronomically to the intersection with the westerly production of the north limit of Mining Location No. 8; thence east along the said westerly production and the said north limit of Mining Location No. 8 to the point of commencement; together with Batchawana Island in Batchawana Bay of Lake Superior. O. Reg. 138/67, Sched. A.

REGULATION 732**under The Public Lands Act****RESTRICTED AREAS—DISTRICT OF COCHRANE**

1. The area in territory without municipal organization being composed of the townships of O'Brien, Owens, Teetzel and Williamson in the Territorial District of Cochrane is designated as a restricted area. O. Reg. 84/62, s. 1.

REGULATION 733

under The Public Lands Act

RESTRICTED AREAS—DISTRICT OF COCHRANE—TOWNSHIPS OF DEVITT, EILBER, McCOWAN, BARKER, McCREA AND IDINGTON

1. The area in territory without municipal organization being composed of the geographic townships of Devitt, Eilber, McCowan, Barker, McCrea and Idington in the Territorial District of Cochrane is designated as a restricted area. O. Reg. 137/67, s. 1.

REGULATION 734

under The Public Lands Act

RESTRICTED AREAS—DISTRICT OF COCHRANE—TOWNSHIPS OF FOURNIER, LAMARCHE, CLUTE AND HANNA

1. The area in territory without municipal organization, more particularly described in Schedule "A" hereto and being composed of the geographic Township of Fournier and part of the geographic townships of Clute, Hanna and Lamarche in the Territorial District of Cochrane is designated as a restricted area. O. Reg. 12/70, s. 1.

Schedule "A"

In the geographic townships of Clute, Fournier, Hanna and Lamarche in the Territorial District of Cochrane, described as follows:

Beginning at the southeasterly corner of the geographic Township of Lamarche; thence northerly along the easterly boundary of that geographic township to the northeasterly corner thereof; thence westerly along the northerly boundary of that geographic township to the intersection with the southerly production of the easterly limit of Twelfth Avenue in the Town of Cochrane; thence southerly along that southerly production 1452.0 feet; thence west astronomically 1380 feet, more or less, to the southerly production of the easterly limit of Eighth Avenue in the Town of Cochrane; thence northerly along that production to the northerly boundary of the geographic Township of Lamarche; thence westerly along the northerly boundary of that geographic township to the northwesterly corner thereof; thence southerly along the westerly boundary of that geographic township to the northeasterly corner of the geographic Township of Fournier; thence westerly along the northerly boundary of that geographic township to the water's edge along the easterly bank of the Frederick House River; thence northerly along that water's edge to the westerly production of the southerly limit of Lot 10 in Concession I in the geographic Township of Clute; thence easterly along that westerly production to the inner limit of the road allowance laid out along

the easterly shore of the Frederick House River; thence northerly along that inner limit to the northerly limit of Concession VIII in the geographic Township of Clute; thence westerly along that northerly limit and its westerly production to the westerly boundary of the geographic Township of Clute; thence southerly along that westerly boundary to the southwesterly corner of that geographic township; thence easterly along the southerly boundary of that geographic township to the westerly boundary of the geographic Township of Fournier; thence southerly along that westerly boundary to the southwesterly corner thereof; thence easterly along the southerly boundary of the geographic townships of Fournier and Lamarche to the easterly limit of Lot 8 in Concession VI in the geographic Township of Hanna; thence south $0^{\circ} 02'$ east 5031.18 feet; thence south $0^{\circ} 01'$ east 5301.12 feet; thence south $89^{\circ} 54'$ east 2636.70 feet; thence south $0^{\circ} 03'$ west 5317.62 feet; thence south $89^{\circ} 57'$ east 5280.0 feet; thence south $0^{\circ} 03'$ east 5267.46 feet; thence south $89^{\circ} 57'$ east 3783.78 feet to the westerly limit of the right-of-way of that part of the King's Highway known as Number 11; thence in a northwesterly direction following that right-of-way limit to the intersection with the westerly limit of Lot 3 in Concession III; thence north $0^{\circ} 08'$ west along that westerly limit 2143.88 feet to the northwesterly corner thereof; thence north astronomically 1771.22 feet to the southerly limit of Location MM 18; thence easterly along that southerly limit to the southeasterly corner of that location; thence north astronomically along the easterly limit of that location 327.47 feet to the northeasterly corner thereof; thence south $89^{\circ} 59'$ west along the northerly limit of that location 128.47 feet to the easterly limit of Plan M57c; thence north astronomically 8560 feet along that easterly limit to the northeasterly corner of Lot I-E according to Plan M57c; thence south $89^{\circ} 48'$ west along the northerly limit of said Lot I-E a distance of 2633.07 feet to the south-easterly corner of Lot H-E according to Plan M57c; thence north $0^{\circ} 02'$ west 5010.06 feet along the easterly limit of Plan M57c to the southerly boundary of the geographic Township of Lamarche; thence easterly along that southerly boundary to the place of beginning. O. Reg. 12/70, Sched. "A".

REGULATION 735

under The Public Lands Act

RESTRICTED AREAS—DISTRICT OF KENORA

1. The area in territory without municipal organization being composed of part of the Patricia Portion of the Territorial District of Kenora, more particularly described in Schedule "A" hereto and containing an area of 93.4 square miles, be the same more or less is designated as a restricted area. O. Reg. 145/63, s. 1.

Schedule "A"

All and Singular that certain territory situate, lying and being in the Territorial District of Kenora, Patricia Portion, containing an area of 93.4 square miles, be the same more or less, and which territory is more particularly described as follows:

Beginning at the intersection of the 7th Base Line surveyed by Phillips and Benner, Ontario Land Surveyors, in 1928 with the Interprovincial Boundary between Ontario and Manitoba; thence east along the said 7th Base Line a distance of 15 miles plus 72.916 chains to a mile post planted therein marked 82M; thence north astronomically a distance of 5 miles plus 69.674 chains, more or less, to a line drawn east astronomically from the mile post marked 76M planted in the Interprovincial Boundary between Ontario and Manitoba; thence west astronomically a distance of 15 miles plus 69.674 chains, more or less, to the said 76th Mile Post planted in the said Interprovincial Boundary between Ontario and Manitoba; thence south along the said Interprovincial Boundary a distance of 5 miles plus 69.674 chains, more or less, to the place of beginning. O. Reg. 145/63, Sched. "A".

REGULATION 736

under The Public Lands Act

RESTRICTED AREAS—DISTRICT OF KENORA, PATRICIA PORTION

1. The area in territory without municipal organization, more particularly described in Schedule "A" hereto and being composed of unsurveyed territory in the Territorial District of Kenora, Patricia Portion, is designated as a restricted area. O. Reg. 353/66, s. 1.

Schedule "A"

Beginning at the southeast corner of the geographic Township of Heyson; thence westerly along the south boundary of that geographic township 0.5 miles; thence south astronomically to a point in a line drawn west astronomically from the confluence of the water's edge along the westerly shore of the Chukuni River with the water's edge along the westerly shore of Pakwash Lake; thence west astronomically to that confluence; thence in a southerly, westerly, and easterly direction following the water's edge along the westerly and southerly shores of Pakwash Lake to the confluence with the water's edge on the westerly shore of the Chukuni River; thence in a southerly, easterly and south-easterly direction following the water's edge along the westerly and southerly shores of the Chukuni River to the intersection with a line drawn north astronomically from a point in a line drawn west astronomically from the most southerly corner of location R.F.D. 314, and which point is distant 5 miles measured west astronomically from the wester-

ly limit of that part of the King's Highway known as No. 105; thence south astronomically to that line drawn west astronomically from the most southerly corner of that location; thence east astronomically to the water's edge on the westerly shore of Lac Seul; thence in a general northerly direction following that water's edge to the confluence with the water's edge along the westerly shore of the Wenasaga River; thence northerly following that water's edge to the confluence with the water's edge along the southerly shore of Wenasaga Lake; thence westerly and northerly following the water's edge along the southerly and westerly shores of Wenasaga Lake to the intersection with a line drawn east astronomically from the intersection of the water's edge on the southerly shore of Sandy Creek with a line drawn south astronomically from the water's edge on the most easterly extremity of Bruce Lake; thence west astronomically to the water's edge on the southerly shore of Sandy Creek; thence north astronomically to the intersection with a line drawn east astronomically from the confluence of the water's edge along the easterly shore of Two Island Lake with the water's edge along the southerly shore of the Chukuni River; thence west astronomically to that confluence; thence in a southwesterly, north-easterly, southwesterly and northwesterly direction following the water's edge of Two Island Lake and Gullrock Lake to the intersection with the easterly production of the south boundary of the geographic Township of Heyson; thence westerly along that production to the place of beginning. O. Reg. 353/66, Sched. "A".

REGULATION 737

under The Public Lands Act

RESTRICTED AREAS—DISTRICT OF SUDBURY

1. The area in territory without municipal organization, more particularly described in Schedule "A" hereto and being composed of the geographic townships of Muskego, Reeves and Sewell and part of the geographic townships of Foleyet and Keith in the Territorial District of Sudbury, is designated as a restricted area. O. Reg. 275/67, s. 1.

Schedule "A"

The geographic townships of Muskego, Reeves and Sewell and part of the geographic townships of Foleyet and Keith in the Territorial District of Sudbury, described as follows:

Beginning at the northeasterly corner of the geographic Township of Sewell; thence southerly along the easterly boundary of that geographic township to the southeasterly corner thereof; thence

westerly along the southerly boundaries of the geographic townships of Sewell and Reeves, to the southwesterly corner of the last-mentioned geographic township; thence southerly along the easterly boundary of the geographic Township of Keith 3 miles, more or less, to the 6 Mile Post planted therein; thence west astronomically 3 miles; thence north astronomically 3 miles, more or less, to the northerly boundary of that geographic township; thence westerly along the northerly boundary of that geographic township to the northwesterly corner thereof; thence westerly along the southerly boundary of the geographic Township of Foleyet, 4.5 miles; thence north astronomically 9 miles, more or less, to the northerly boundary of that geographic township; thence easterly along that northerly boundary 4.5 miles, more or less, to the northwesterly corner of the geographic Township of Muskego; thence easterly along the northerly boundaries of the geographic townships of Muskego, Reeves and Sewell to the place of beginning. O. Reg. 275/67, Sched. "A".

REGULATION 738

under The Public Lands Act

RESTRICTED AREAS—DISTRICT OF SUDBURY—TOWNSHIPS OF COCHRANE, CHAPLEAU, GALLAGHER, PANET, TP. 28 AND TP. 29

1. The area in territory without municipal organization, more particularly described in Schedule "A" hereto and being composed of part of the geographic townships of Cochrane, Chapleau, Gallagher, Panet, Tp. 28 and Tp. 29 in the District of Sudbury is designated as a restricted area. O. Reg. 53/69, s. 1.

Schedule "A"

All those parcels or tracts of land in the geographic townships of Gallagher, Cochrane, Chapleau, Panet, Tp. 28 and Tp. 29, in the District of Sudbury, described as follows:

Beginning at the northeasterly corner of the geographic Township of Gallagher; thence southerly along the easterly boundary of that geographic township 3 miles and 0.59 chains; thence west astronomically 3 miles; thence south astronomically 3 miles, more or less, to the southerly boundary of that geographic township; thence continuing south astronomically 1 mile; thence west astronomically 3 miles, more or less, to the westerly boundary of geographic Township 28; thence continuing west

astronomically 3 miles; thence north astronomically 1 mile, more or less, to the northerly boundary of geographic Township 29; thence westerly along the northerly boundary of that geographic township to the southwesterly corner of the geographic Township of Chapleau; thence northerly along the westerly limit of that geographic township 6 miles and 0.97 chains, more or less, to the southerly boundary of the geographic Township of Panet; thence westerly along that southerly boundary 2.45 chains to the southwesterly corner of that geographic township; thence northerly along the westerly boundary of that geographic township 3 miles; thence easterly in a straight line 6 miles, more or less, to the intersection of the westerly boundary of the geographic Township of Cochrane with the line between concessions II and III in the said geographic township; thence easterly along that line between concessions II and III 5 miles and 79 chains, more or less, to the easterly boundary of the geographic Township of Cochrane; thence southerly along the easterly boundary of that geographic township 3 miles, more or less, to the place of beginning.

Saving and Excepting therefrom Indian Reserves Nos. 61, 74 and 75.

Also Saving and Excepting therefrom the Corporation of the Township of Chapleau. O. Reg. 53/69, Sched. "A".

REGULATION 739

under The Public Lands Act

RESTRICTED AREAS—DISTRICT OF SUDBURY—TOWNSHIPS OF WAKAMI AND TP. 22

1. The area in territory without municipal organization, more particularly described in Schedule "A" hereto and being composed of part of the geographic townships of Wakami and Tp. 22 in the Territorial District of Sudbury, is designated as a restricted area. O. Reg. 430/67.

Schedule "A"

In the geographic townships of Wakami and Tp. 22 in the District of Sudbury, described as follows:

Beginning at the southwesterly corner of geographic township Tp. 22; thence northerly along the westerly boundary of that geographic township a distance of 3 miles; thence east astronomically a distance of 6 miles, more or less, to the easterly boundary of that geographic township; thence southerly along that easterly boundary a distance of 3 miles, more or less, to the southeasterly corner thereof; thence southerly along the easterly boundary of the geographic Township of Wakami a distance of 3 miles; thence west astronomically a distance of 6 miles, more or less, to the westerly boundary of that geographic township; thence northerly along that westerly boundary a distance of 3 miles, more or less, to the place of beginning. O. Reg. 430/67, Sched. "A".

REGULATION 740**under The Public Lands Act****RESTRICTED AREAS—DISTRICT OF THUNDER BAY**

1. The area in territory without municipal organization being composed of Mining Claims TB 98166, TB 98179, TB 98181, TB 98182 and TB 99859 in unsurveyed territory lying south of Long Lake Indian Reserve No. 77 in the Territorial District of Thunder Bay is designated as a restricted area. O. Reg. 90/62.

REGULATION 741

under The Public Lands Act

RESTRICTED AREAS—DISTRICT OF THUNDER BAY

1. The area in territory without municipal organization, more particularly described in Schedule "A" hereto and being composed of part of the Territorial District of Thunder Bay is designated as a restricted area. O. Reg. 455/70, s. 1.

Schedule "A"

All that parcel or tract of land in the District of Thunder Bay described as follows:

Commencing at a point on longitude $89^{\circ} 00'$ west distant 4 miles measured southerly along that longitude from its intersection with the 7th Base Line; thence west astronomically 6 miles; thence south astronomically 8 miles; thence east astronomically 12 miles; thence north astronomically 8 miles; thence west astronomically 6 miles, more or less, to the point of commencement. O. Reg. 455/70, Sched. "A".

REGULATION 742

under The Public Lands Act

RESTRICTED AREAS—DISTRICT OF THUNDER BAY—TOWNSHIPS OF BLACKWELL, CONACHER, FORBES, GOLDIE, HAGEY, HAINES, LAURIE AND THE DAWSON ROAD LOTS

1. The area in territory without municipal organization, more particularly described in Schedule "A" hereto and being composed of the geographic townships of Blackwell, Conacher, Forbes, Goldie, Hagey, Haines, Laurie and the Dawson Road Lots in the District of Thunder Bay is designated as a restricted area. O. Reg. 200/69, s. 1.

Schedule "A"

In the geographic townships of Blackwell, Conacher, Forbes, Goldie, Hagey, Haines and Laurie and the Dawson Road Lots, in the Territorial District of Thunder Bay, described as follows:

Beginning at the southwesterly corner of the geographic Township of Haines; thence easterly along the southerly boundary of the geographic townships of Haines, Hagey and Conacher to the southerly corner of the last mentioned geographic township; thence east astronomically to the westerly limit of Lot 80 of the Dawson Road Lots; thence southerly along the westerly limit of that lot to the southwesterly corner thereof; thence southeasterly along the southerly limit of the Dawson Road Lots and its easterly production to the water's edge along the westerly bank of the Kaministiquia River; thence northerly along that water's edge to the easterly production of the northerly boundary of the geographic Township of Forbes; thence westerly along that easterly production and the northerly boundary of the geographic townships of Forbes, Goldie, Blackwell, Conacher, Hagey and Haines to the northwesterly corner of the last mentioned geographic township; thence southerly along the westerly boundary of that geographic township to the place of beginning. O. Reg. 200/69, Sched. "A".

REGULATION 743

under The Public Lands Act

RESTRICTED AREA—DISTRICT OF TIMISKAMING

1. The area in territory without municipal organization being composed of the townships of Boston, Lebel, Marquis, Marter, McElroy, Otto and Pacaud in the Territorial District of Timiskaming is designated as a restricted area. O. Reg. 85/62. s. 1.

REGULATION 744

under The Public Lands Act

RESTRICTED AREAS—DISTRICTS OF COCHRANE AND TIMISKAMING

1. The area in territory without municipal organization, more particularly described in Schedule "A" hereto and being composed of the geographic townships of Bristol, Carscallen and Ogden in the Territorial District of Cochrane, and the geographic townships of Hillary, Denton, Keefer and Thorneloe in the Territorial District of Timiskaming is designated as a restricted area. O. Reg. 238/69, s. 1.

Schedule "A"

In the territorial districts of Cochrane and Timiskaming described as follows:

Commencing at the northwesterly corner of the geographic Township of Carscallen in the Territorial District of Cochrane; thence southerly along the westerly boundary of that geographic township to the southwesterly corner thereof; thence westerly along the northerly boundary of the geographic Township of Keefer in the Territorial District of

Timiskaming to the northwesterly corner thereof; thence southerly along the westerly boundary of the geographic townships of Keefer and Hillary to the southwesterly corner of the last-mentioned geographic township; thence easterly along the southerly boundary of the geographic Township of Hillary to the southeasterly corner thereof; thence northerly along the easterly boundary of the last-mentioned geographic township to the northeasterly corner thereof; thence easterly along the southerly boundary of the geographic townships of Denton and Thorneloe to the southeasterly corner of the last-mentioned geographic township; thence northerly along the easterly boundary of the last-mentioned geographic township to the northeasterly corner thereof; thence easterly along the southerly boundary of the geographic Township of Ogden in the Territorial District of Cochrane to the southeasterly corner thereof; thence northerly along the easterly boundary of the last-mentioned geographic township to the northeasterly corner thereof; thence westerly along the northerly boundary of the geographic townships of Ogden, Bristol and Carscallen to the point of commencement. O. Reg. 238/69, Sched. "A".

REGULATION 745

under The Public Lands Act

RESTRICTED AREAS—DISTRICTS OF TIMISKAMING AND NIPISSING

1. The area in territory without municipal organization, more particularly described in Schedule "A" hereto and being composed of the geographic Township of Gillies Limit, in the Territorial District of Timiskaming, and the geographic townships of Law, Olive and Sisk and part of the geographic townships of Askin, Best, Milne and Riddell, in the Territorial District of Nipissing, is designated as a restricted area. O. Reg. 164/68, s. 1.

Schedule "A"

All those lands in the geographic Township of Gillies Limit, in the Territorial District of Timiskaming, and in the geographic townships of Law, Olive and Sisk, and part of the geographic townships of Askin, Best, Milne and Riddell, in the Territorial District of Nipissing described as follows:

FIRSTLY:

Composed of the whole of the geographic Township of Gillies Limit in the Territorial District of Timiskaming, together with part of the geographic Township of Best in the Territorial District of Nipissing and which part is described as follows:

Beginning at the intersection of the northerly boundary of the geographic Township of Best with the southwesterly boundary of the geographic Township of Gillies Limit; thence south astronomically to the northerly boundary of the Improvement

District of Temagami; thence easterly along that northerly boundary to the southwesterly boundary of the geographic Township of Gillies Limit; thence northwesterly along that boundary to the place of beginning.

SECONDLY:

Part of the Territorial District of Nipissing described as follows:

Beginning at the northwesterly corner of the geographic Township of Law; thence southerly along the westerly boundary of the geographic townships of Law, Olive and Sisk to the southwesterly corner of the last-mentioned geographic township; thence easterly along the southerly boundary of the geographic Township of Sisk to the southeasterly corner thereof; thence northerly along the easterly boundary of the geographic Township of Sisk to the northeasterly corner thereof; thence northerly along the easterly boundary of the geographic Township of Olive a distance of 3 miles; thence east astronomically a distance of 3 miles; thence north astronomically across the geographic townships of Milne, Askin and Riddell to the northerly boundary of the geographic Township of Riddell; thence westerly along the northerly boundary of the geographic Township of Riddell to the northwesterly corner thereof; thence southerly along the westerly boundary of the geographic Township of Riddell to the southwesterly corner thereof; thence westerly along the northerly boundary of the geographic Township of Law to the place of beginning. O. Reg. 164/68, Sched. "A".

REGULATION 746**under The Public Lands Act**

RESTRICTED AREAS—PART OF THE DISTRICT OF COCHRANE

1. The area in territory without municipal organization and composed of the geographic townships of Casgrain, Hanlan, Kendall and Way in the Territorial District of Cochrane is designated as a restricted area. O. Reg. 29/64, s. 1.

REGULATION 747

under The Public Lands Act

SALE OF PUBLIC LANDS FOR SUMMER RESORT LOCATIONS

1. In this section and sections 2 to 8,

- (a) "commercial use" means any use of a summer resort location, other than private use;
- (b) "cottage" means a building in which facilities are provided for cooking and for shelter for one or more persons living therein, as a single and non-profit house-keeping unit;
- (c) "frontage" means any limit or limits of a summer resort location contiguous to or adjacent to a lake, river or road but, where a summer resort location has limits contiguous to or adjacent to a lake or river and a road, "frontage" means the limit or limits contiguous to or adjacent to the lake or river.
- (d) "irregular area" means a summer resort location having frontage longer than twice the width of the location;
- (e) "private use" means the use of a summer resort location for the erection and maintenance of a cottage;
- (f) "regular area" means a summer resort location having frontage not longer than twice the width of the location;
- (g) "side" means a limit of a summer resort location that meets a frontage of the location;
- (h) "width" means,
 - (i) where a summer resort location has only one side, the distance measured in a straight line between the ends of that side,
 - (ii) where a summer resort location has only two sides and the sides are parallel, the distance between the sides, measured perpendicularly,
 - (iii) where a summer resort location has only two sides and the sides are not parallel, the distance between the sides, measured in a straight line from the mid-point of each side, or

- (iv) where a summer resort location has three or more sides, the distance that is longest when measured in a straight line between the mid-points of two sides meeting the same frontage. R.R.O. 1960, Reg. 524, s. 20 (1); O. Reg. 87/69, s. 1.

2. An application to purchase a summer resort location for private or commercial use shall be in Form 1. R.R.O. 1960, Reg. 524, s. 21.

3.—(1) Subject to section 5, the Minister may sell to an applicant who is twenty-one years of age or over, for private use,

- (a) a regular area not smaller than one-half an acre and not larger than two acres and having a width not under 100 feet and not over 200 feet;
- (b) an irregular area not smaller than one-half an acre and not larger than two acres; or
- (c) an island containing not less than one acre and not more than three acres. R.R.O. 1960, Reg. 524, s. 21 (1), O. Reg. 307/61, s. 1 (1); O. Reg. 87/69, s. 2 (1).

(2) The maximum width and the maximum acreage of a regular area fixed by clause *a* of subsection 1 does not apply to the sale of a summer resort location, the plan of survey and field notes of which have been filed in the Department on or before the 12th day of April, 1957.

(3) The maximum acreage of an irregular area fixed by clause *b* of subsection 1 does not apply to the sale of a summer resort location, the plan of survey and field notes of which have been filed in the Department on or before the 12th day of April, 1957. R.R.O. 1960, Reg. 524, s. 21 (2, 3).

(4) The minimum and maximum width of a regular area fixed by clause *a* of subsection 1 does not apply to a lot on a plan of subdivision registered in the proper registry or land titles office on or after the 1st day of January, 1968. O. Reg. 87/69, s. 2 (2).

(5) The minimum and maximum width of a regular area fixed by clause *a* of subsection 1 does not apply to,

- (a) summer resort location HA 195 being part of Lot 32 in Concession A in the Township of Watten in the Territorial

District of Rainy River and designated as Part 1 on a plan and field notes of survey dated the 14th day of March, 1968, signed by H. A. Smith, Ontario Land Surveyor, of record in the Office of Land Titles at Fort Frances as Plan RR 498;

(b) summer resort location PA 2 being part of Lot 6 in Concession III in the Township of Bayly in the Territorial District of Timiskaming and designated as parts 1 and 2 on a plan and field notes of survey dated the 23rd day of March, 1968, signed by P. A. Blackburn, Ontario Land Surveyor, of record in the Office of Land Titles at Haileybury as Plan TER 747; and

(c) the part of summer resort location EB 2283 being part of the Township of Kirkup in the Territorial District of Kenora and designated as parts 1 and 3 on a plan and field notes of survey dated the 30th day of June, 1967, of record in the Office of Land Titles at Kenora as Plan KR 1855. O. Reg. 517/70, s. 1.

(6) The minimum and maximum acreage of a regular area fixed by clause *a* of subsection 1 does not apply to the summer resort locations situate in the Township of Barrie in the County of Frontenac and designated as lots 44 and 45 according to Registered Plan 1114 registered in the Registry Office for the Registry Division of Frontenac. O. Reg. 517/70, s. 1.

(7) The minimum and maximum acreage of an irregular area fixed by clause *b* of section 1 does not apply to the summer resort locations situate in the Township of Kirkup in the Territorial District of Kenora and designated as lots 1 and 2 according to a plan registered in the Office of Land Titles at Kenora as Plan M-483. O. Reg. 517/70, s. 1.

(8) Subject to section 5, the Minister may sell to an applicant who is twenty-one years of age or over, for commercial use,

(a) a regular area not smaller than three acres and not larger than fifteen acres and having a width not under 300 feet and not over 1,200 feet;

(b) an irregular area not smaller than three acres and not larger than fifteen acres; or

(c) an island containing not less than three acres and not more than fifteen acres. R.R.O. 1960, Reg. 524, s. 22 (4); O. Reg. 370/61, s. 1 (2).

4.—(1) Subject to subsection 5 of section 3, the purchaser or the patentee and owner of a summer resort location for commercial use may apply for additional land abutting his summer resort location

for commercial use but the summer resort location and the additional land together shall not,

(a) where the summer resort location and additional land comprise a regular area, have a width of over 1,200 feet or an area larger than fifteen acres; or

(b) where the summer resort location and additional land comprise an irregular area, have an area larger than fifteen acres.

(2) Where an application to purchase additional land under subsection 1 is accepted, the purchaser shall comply with subsection 4 of section 8. R.R.O. 1960, Reg. 524, s. 23.

5.—(1) The purchaser or the patentee and owner, of a summer resort location sold for private use is not entitled to purchase another summer resort location for private use.

(2) Subject to section 4, the purchaser or the patentee and owner of a summer resort location sold for commercial use is not entitled to purchase another summer resort location for commercial use. R.R.O. 1960, Reg. 524, s. 24.

6.—(1) The price at which the public lands of which an adequate plan of survey and field notes are of record in the Department or consisting of a lot on a registered plan of subdivision are to be sold for summer resort locations is fixed at,

(a) subject to clause *b*, for a regular area for private use,

(i) \$500, or

(ii) \$250 and an additional \$2.50 for each foot of frontage,

whichever is the greater;

(b) for a lot for private use, on a plan filed in the Office of Land Titles at Kenora as No. M-387 or a plan filed in the Office of Land Titles at Haileybury as No. M-215, \$250 and an additional \$1 for each foot of frontage;

(c) for an irregular area for private use,

(i) \$750, or

(ii) \$250 and an additional \$2.50 for each foot of frontage up to and including 200 feet and \$1 for each foot of frontage in excess of 200 feet,

whichever is the greater;

(d) for an island for private use,

(i) \$600, or

- (ii) \$250 and an additional \$350 for each acre,

whichever is the greater;

- (e) for a regular or irregular area for commercial use,

- (i) \$1,500, or

- (ii) \$300 and an additional \$4 for each foot of frontage and \$100 for each acre in excess of eight,

whichever is the greater; and

- (f) for an island for commercial use, \$300 and an additional \$350 for each acre. R.R.O. 1960, Reg. 524, s. 25 (1); O. Reg. 218/69, s. 1.

(2) The price at which public lands, other than those mentioned in subsection 1, are to be sold as summer resort locations for private use is fixed at,

- (a) for a regular area,

- (i) \$300, or

- (ii) \$50 and an additional \$2.50 for each foot of frontage,

whichever is the greater;

- (b) for an irregular area,

- (i) \$550, or

- (ii) \$50 and an additional \$2.50 a foot for each foot of frontage up to and including 200 feet and \$1 for each foot of frontage in excess of 200 feet,

whichever is the greater; and

- (c) for an island,

- (i) \$350, or

- (ii) \$350 for each acre,

whichever is the greater.

(3) The price at which public lands, other than those mentioned in subsection 1, are to be sold as summer resort locations for commercial use is fixed at,

- (a) for a regular or irregular area, \$4 for each foot of frontage and an additional \$100 for each acre in excess of eight; and

- (b) for an island, \$350 for each acre. R.R.O. 1960, Reg. 524, s. 25 (2, 3).

7. The acceptance of an application to purchase a summer resort location shall be in Form 2. R.R.O. 1960, Reg. 524, s. 26.

8.—(1) A purchaser of a summer resort location shall,

- (a) where the location is surveyed, pay the purchase price with his application;

- (b) where the location is not surveyed and the Minister has instructed the Surveyor General to cause the location to be surveyed, pay \$175 of the purchase price with his application and the balance of the purchase price within thirty days of the date on which he is notified in writing of the amount of that balance; or

- (c) where the location is not surveyed and the Minister does not cause the location to be surveyed,

- (i) pay \$25 of the purchase price with his application,

- (ii) file with the district forester within six months of the date of his application for the approval of the Surveyor General a plan and field notes of survey of the location on transparent linen, certified by an Ontario land surveyor, and a metes and bounds description of the location, and

- (iii) pay the balance of the purchase price within thirty days of the date on which he is notified in writing of the amount of the balance. R.R.O. 1960, Reg. 524, s. 27 (1).

(2) Where the summer resort location is sold for private use, the purchaser shall erect on the location within twenty-four months from the date on which he paid the full amount of the purchase price a cottage having at least 320 square feet of floor space and in the construction of which he has expended labour and material valued according to the prevailing wage rates for labour and prices for material in the locality at not less than,

- (a) \$1,800, except on a lot mentioned in clause b; or

- (b) \$2,500 on a lot on a plan of subdivision filed in the office of Land Titles at Bracebridge as No. M-312. R.R.O. 1960, Reg. 524, s. 27 (2); O. Reg. 218/69, s. 2.

(3) Subject to subsection 4, where the summer resort location is sold for commercial use, the purchaser shall erect on the location within twenty-four months from the date on which he paid the full amount of the purchase price a building or buildings of the type required for the commercial use for which the land was sold and in the construction of which he has ex-

pendent labour and materials valued at not less than \$3,000 according to the prevailing wage rates for labour and prices for materials in the locality, and

- (a) in the case of a regular area, \$2,000 for each 100 feet of width over 600 feet; or
- (b) in the case of an irregular area or of an island, \$2,000 for each acre over 10 acres.

(4) Where the purchaser of a summer resort location sold for commercial use, whether or not letters patent for the location have issued, subsequently purchases an abutting summer resort location for commercial use, he shall expend labour and materials on the location or on the abutting location, or on both, valued,

- (a) in the case of a regular area, at not less than \$2,000 for each 100 feet of width; or
 - (b) in the case of an irregular area or of an island, at not less than \$2,000 for each acre.
- R.R.O. 1960, Reg. 524, s. 27 (3, 4).

9.—(1) Sections 1 to 8 do not apply to the sale of a lot on a plan of subdivision registered in the Registry Office for the Registry Division of the County of Norfolk as No. 436 or the plan of subdivision registered in the Registry Office for the Registry Division of the East Riding of the County of Northumberland in two parts as Nos. 320 and 321. O. Reg. 370/61, s. 2.

(2) The public lands composed of lots numbered 275, 285 and 341 on the plan of subdivision registered in the Registry Office for the Registry Division of the County of Norfolk as No. 436 shall be sold as summer resort locations at a price of \$405, \$882 and \$427, respectively. O. Reg. 370/61, s. 2.

10.—(1) An application for letters patent for land sold for a summer resort location shall be in Form 3.

(2) Where application in Form 3 is made, an officer or agent of the Department shall make an inspection and complete an inspection report.

(3) Where the inspection report shows that the purchaser has complied with the terms and conditions of sale, the Minister may direct the issue of letters patent to the applicant therefor.

(4) Notwithstanding that application in Form 3 has not been made, the Minister may,

- (a) direct an officer or agent of the Department to make an inspection and complete an inspection report; and
- (b) where the inspection report shows that the terms and conditions of the sale have been complied with, direct the issue of letters patent to the purchaser or to any person claiming under him. R.R.O. 1960, Reg. 524, s. 28.

FEEES FOR LICENCES OF OCCUPATION OR LAND USE PERMITS

11.—(1) In this section, "lines" means the towers, poles, wires, cables and other conductors used for the purpose of conveying or distributing electricity or energy for telegraph, telephone or electric light, heat or power purposes. R.R.O. 1960, Reg. 524, s. 29 (1).

(2) The fee for a licence of occupation or a land use permit permitting the holder thereof to occupy public lands is,

- (a) for the erection, operation and maintenance of lines where the area comprises,
 - (i) not more than 100 acres, 50 cents an acre, or \$25, whichever is the greater,
 - (ii) more than 100 acres but not more than 500 acres, \$50 and an additional 35 cents for each acre in excess of 100, or
 - (iii) more than 500 acres, \$190 and an additional 25 cents for each acre in excess of 500;

(b) for the construction, operation and maintenance of roads,

(i) \$4 a mile or part thereof, or

(ii) \$25,

whichever is the greater;

(c) for the erection, operation and maintenance of sawmills and depots for woods operations, including log storage,

(i) \$10 for each acre up to and including five acres and an additional \$2 for each acre in excess of five acres, or

(ii) \$50,

whichever is the greater;

(d) for the erection, operation and maintenance of booms for the purpose of log storage,

(i) the sum of \$10 for each acre up to and including five acres and \$1 for each acre in excess of five acres, or

(ii) \$50,

whichever is the greater;

(e) for the erection, operation and maintenance of sawmills and depots for woods operation including log storage and for the erection, operation and maintenance of booms for log storage,

- (i) the sum of \$10 for each acre up to and including five acres and an additional \$2 for each acre in excess of five acres for the area not covered with water and the sum of \$10 for each acre up to and including five acres and an additional \$1 for each acre in excess of five acres for the area of land covered with water, or

(ii) \$100,

whichever is the greater;

- (f) for the cutting and removal of hay,

(i) \$1 a ton, or

(ii) \$10,

whichever is the greater;

- (g) for grazing purposes,

(i) 50 cents an acre, or

(ii) \$10,

whichever is the greater;

- (h) for a site for a private residence,

(i) not in excess of one acre, \$25, or

(ii) in excess of one acre, \$25 and an additional \$10 for each acre in excess of one acre;

- (i) for the tapping of maple trees,

(i) 5 cents for each splice, or

(ii) \$15,

whichever is the greater;

- (j) for the removal of sphagnum moss, \$25 and an additional 5 cents for each 100 pounds;

- (k) for the removal of peat moss, \$25 and an additional 2½ cents for each 100 pounds; and

- (l) for a site for the erection and operation of a camp for commercial use in connection with angling or hunting,

(i) \$45, if the site is contiguous to a lake or river or to a road allowance along a lake or river, or

(ii) \$35, if the site is not contiguous to a lake or river or to a road allowance along a lake or river. R.R.O. 1960, Reg. 524, s. 29 (2); O. Reg. 370/61, s. 3.

(3) A fee of \$20 is prescribed for a land use permit permitting the holder thereof to occupy the public land therein described as a site for a camp for private use in connection with angling or hunting.

(4) The holder of a licence of occupation or a land use permit for a purpose set out in subsection 2 or 3 shall pay the prescribed fee for each year or part thereof that the licence of occupation or land use permit is in effect. R.R.O. 1960, Reg. 524, s. 29 (3, 4).

(5) Notwithstanding anything contained in this section, where a land use permit does not reserve the Crown timber on the public land therein described, the Minister may increase the prescribed fee payable under this section by the value of the Crown timber as determined by the Minister. O. Reg. 113/70, s. 1.

12.—(1) Subject to subsection 2, the fee for a lease or a licence of occupation permitting the holder thereof to occupy public lands covered with water, except the Great Lakes and interconnecting waters, is,

- (a) for the erection and maintenance of a boat-house for private use,

(i) \$15, or

(ii) \$15 for each acre,

whichever is the greater;

- (b) for the erection and maintenance of a dock for private use,

(i) \$15, or

(ii) \$15 for each acre,

whichever is the greater;

- (c) for the erection and maintenance of a boat-house and dock for private use,

(i) \$30, or

(ii) \$30 for each acre,

whichever is the greater;

- (d) for the erection and maintenance of protection works and groynes for private use,

(i) \$10, or

(ii) \$10 for each acre,

whichever is the greater;

- (e) for the erection and maintenance of a boat-house for commercial use,

(i) \$30, or

- (ii) \$30 for each acre,
whichever is the greater ;
- (f) for the erection and maintenance of a dock
for commercial use,
 - (i) \$30, or
 - (ii) \$30 for each acre,
whichever is the greater ;
- (g) for the erection and maintenance of a boat-
house and dock for commercial use,
 - (i) \$60, or
 - (ii) \$60 for each acre,
whichever is the greater ;
- (h) for the installation and maintenance of pro-
tection works and groynes for commercial
use,
 - (i) \$20, or
 - (ii) \$20 for each acre,
whichever is the greater ;
- (i) for the erection, operation and maintenance
of a marina for commercial use,
 - (i) \$60, or
 - (ii) \$60 for each acre,
whichever is the greater ;

- (j) for the purposes of an airport for commercial
use,
 - (i) \$50, or
 - (ii) \$50 for each acre,
whichever is the greater ;
 - (k) for the installation, operation and mainten-
ance of intake and outfall pipes or sewers for
commercial use,
 - (i) \$50, or
 - (ii) \$50 for each acre,
whichever is the greater ; and
 - (l) for the installation, operation and mainten-
ance of a pipe line for commercial use,
 - (i) \$35, or
 - (ii) \$35 for each acre,
whichever is the greater. R.R.O. 1960,
Reg. 524, s. 30 (1).
- (2) The fee for a lease or a licence of occupation
permitting a municipality to occupy, for municipal
purposes, public lands covered with water is \$100.
O. Reg. 447/69, s. 1 (1).
- (3) The holder of a lease or licence of occupation
for a purpose set out in subsection 1 shall pay the
prescribed fee for each year or part thereof that the
lease or licence of occupation is in effect. R.R.O.
1960, Reg. 524, s. 30 (3); O. Reg. 447/69, s. 1 (2).

R.R.O. 1960, Reg. 524, Form 10.

REGULATION 748

under The Public Libraries Act

GENERAL

PART I

CERTIFICATES

INTERPRETATION

1. In this Part,

- (a) "applicant" means an applicant for a Certificate of Librarianship or a Certificate of Library Service;
- (b) "bachelor's degree from a graduate library school" includes a diploma for a one-year course from a library school that does not grant a degree;
- (c) "Deputy Minister" means Deputy Minister of Education. O. Reg. 56/67, s. 1.

2.—(1) Where an applicant submits to the Deputy Minister evidence that he,

- (a) holds,
 - (i) a bachelor's degree from a university, and
 - (ii) a master's degree from the library school of the University of Toronto or from a library school in a course the Minister deems adequate; and
- (b) has completed successfully five years of experience as a qualified librarian, certified by the Director of Provincial Library Service,

the Minister shall grant him a Class A Certificate of Librarianship in Form 1.

(2) Where an applicant submits to the Deputy Minister evidence that he,

- (a) holds,
 - (i) a bachelor's degree from a university,
 - (ii) a bachelor's degree from a graduate library school in a course the Minister deems adequate, and
 - (iii) a master's degree from a university in a course the Minister deems adequate; and

- (b) has completed successfully five years of experience as a qualified librarian, certified by the Director of Provincial Library Service,

the Minister shall grant him a Class A Certificate of Librarianship in Form 1. O. Reg. 56/67, s. 2.

3. Where an applicant submits to the Deputy Minister evidence that he holds,

- (a) a bachelor's degree from a university; and
- (b) a bachelor's degree,
 - (i) from the library school of the University of Toronto, or
 - (ii) from a graduate library school in a course the Minister deems adequate,

the Minister shall grant him a Class B Certificate of Librarianship in Form 2. O. Reg. 56/67, s. 3.

4. Where an applicant submits to the Deputy Minister evidence that he has completed successfully an undergraduate library course,

- (a) that was of at least four years' duration; and
- (b) that the Minister deems adequate, or

a course that the Minister deems equivalent thereto, the Minister shall grant him a Class C Certificate of Librarianship in Form 3. O. Reg. 56/67, s. 4.

5. Where an applicant submits to the Deputy Minister evidence that he has completed successfully a library course,

- (a) that was of at least two years' duration; and
- (b) that the Minister deems adequate, or

a course that the Minister deems equivalent thereto, the Minister shall grant him a Class 2 Certificate of Library Service in Form 4. O. Reg. 56/67, s. 5.

6. Where an applicant submits to the Deputy Minister evidence that he has completed successfully a library course,

- (a) that was of at least one year's duration; and
- (b) that the Minister deems adequate, or

a course that the Minister deems equivalent thereto, the Minister shall grant him a Class I Certificate of Library Service in Form 5. O. Reg. 56/67, s. 6.

7. For the purpose of this part, a Class D Certificate of Library Service issued before the 8th day of February, 1967 shall be equivalent to a Class I Certificate of Library Service. O. Reg. 56/67, s. 7.

PART II

GRANTS

INTERPRETATION

8. In this Part,

- (a) "adjusted 1969 grant" means the grant payable to a board in respect of the year 1969 exclusive of any special grant payable to the board in respect of such year, multiplied, where the total current expenditures of the board in 1969 are less than the total current expenditures of the board in 1968, by the ratio of the total current expenditures of the board in 1969 to the total current expenditures of the board in 1968;
- (b) "capital expenditure from the revenue fund" means an expenditure from the revenue fund for a bookmobile, for land and buildings used exclusively for library purposes, for equipment for libraries and, when a new library is built, for books;
- (c) "debt charges" means the amount of money necessary annually for a board, or for a municipal council on behalf of a board, to pay the interest on all debt and the principal of long-term debt not payable from a sinking fund, and to provide a fund for the redemption of debentures payable from a sinking fund;
- (d) "expenditure for maintenance" means an expenditure incurred by a board for library purposes, exclusive of a capital expenditure from the revenue fund and an expenditure for debt charges;
- (e) "population" means,
 - (i) where a library is established under Part I of the Act or a predecessor thereof or under Part IV of the Act, or a regional library system is established under Part III of the Act, the total number of inhabitants of the municipality or of the combination of municipalities for which the library or the regional library system is established, as determined by reference to the latest census of the

inhabitants of the municipality or municipalities taken under *The Assessment Act*, or a predecessor thereof, except that, where such determination is inappropriate due to the formation of a new municipality or an alteration of the boundaries of an existing municipality, the population estimated by the Department of Municipal Affairs shall be used in respect of such new or altered municipality, and

- (ii) where a public library is established by the council of an Indian band, the population, determined by the Department of Indian Affairs and Northern Development (Canada), of the reserve, as defined in the *Indian Act* (Canada), that has been set apart for the use and benefit of the band and that is served by the library;
- (f) "special grant" means,
 - (i) for a board of a public library established under Part I of the Act or of a county library established under Part IV of the Act, the grant computed by multiplying 20 cents by the population of the municipality or municipalities for which the board is established, paid to the board in respect of the year in which the board is established, and
 - (ii) for a board of a regional library system established under Part III of the Act that in any year begins to operate a cataloguing centre approved by the Minister, the grant paid to the board for such year in respect of the expenditures for the cataloguing centre;
- (g) "total current expenditures" means the total of expenditures for maintenance, expenditures for debt charges, and capital expenditures from the revenue fund;
- (h) "year" means the period from and including the 1st day of January to and including the 31st day of December next following. O. Reg. 298/70, s. 1.

APPORTIONMENT

9. The legislative grants for boards shall be,

- (a) apportioned and distributed to boards in accordance with this Regulation; and

- (b) applied to such library purposes as the board receiving the grants deems expedient. O. Reg. 56/67, s. 9.

10.—(1) The grants payable under this Regulation shall be paid in the number of instalments and at the times designated by the Minister.

(2) Where in any year the amount voted by the Legislature for the grants under this Regulation is insufficient or more than sufficient to pay the grants in full, the Minister may make a *pro rata* reduction or increase, as the case may be. O. Reg. 56/67, s. 10.

GRANTS FOR MUNICIPAL AND COUNTY PUBLIC LIBRARY BOARDS

11.—(1) Subject to subsection 2, the board of a public library established under Part I of the Act or under a predecessor thereof, and the board of a county library established under Part IV of the Act shall be paid a grant equal to the amount computed by multiplying 65 cents by the population of the municipality or municipalities for which the library is established.

(2) The grant payable to a board under subsection 1 shall be,

- (a) in the case of a board to which a grant was payable in 1969, not more than 115 per cent of the adjusted 1969 grant for the board, and not less than the adjusted 1969 grant for the board; and
- (b) in the case of a board of a municipality formed on or after the 1st day of January, 1970, by amalgamation of two or more existing municipalities or by annexation of all or part of a municipality or of territory without municipal organization to an existing municipality, or by both amalgamation and annexation, as the case may be, not less than the sum of,

- (i) the adjusted 1969 grants for the boards of the public libraries established for the municipalities so amalgamated, and
- (ii) the adjusted 1969 grant for the board of a public library established for a municipality, a combination of municipalities, or a school section in territory without municipal organization, all or part of which is so annexed, where the population of the portion annexed is greater than half the population of the municipality, the combination of municipi-

palities or the school section in territory without municipal organization, for which the public library was established. O. Reg. 298/70, s. 2.

GRANTS FOR REGIONAL LIBRARY SYSTEMS BOARDS

12.—(1) Subject to subsection 2, the board of a regional library system established under Part III of the Act shall be paid a grant equal to,

- (a) the amount computed by multiplying 35 cents by the population of the municipality or municipalities for which the board is established; and
- (b) \$1.50 for each square mile, not in excess of 100,000 square miles, that forms part of the area of the region.

(2) In the case of the board of a regional library system to which a grant was payable in 1969, the grant payable to the board under subsection 1 shall be,

- (a) not more than 115 per cent of the adjusted 1969 grant for the board; and
- (b) not less than the adjusted 1969 grant for the board.

(3) In addition to the grant payable under subsection 1, the Minister may make a payment to a board of a regional library system to assist in the development of a province-wide network of library services. O. Reg. 298/70, s. 2.

GRANTS FOR OTHER LIBRARY BOARDS AND LIBRARIES

13. A public library board established for a school section in territory without municipal organization continued under subsection 4 of section 2 of the Act or a county library co-operative board continued under section 52 of the Act shall be paid a grant equal to the adjusted 1969 grant for the board. O. Reg. 298/70, s. 2.

14. Where a public library established by the council of an Indian band is approved by the Minister, the council of the band shall be paid a grant equal to the amount computed by multiplying 65 cents by the population. O. Reg. 298/70, s. 2.

GENERAL

15. For the purposes of this Part, The Municipality of Metropolitan Toronto shall be deemed to be a region complying with the requirements of section 38 of the Act. O. Reg. 298/70, s. 2.

REGULATION 749

under The Public Service Act

GENERAL

PART I

APPOINTMENTS AND ASSIGNMENTS

NEW APPOINTMENTS

1.—(1) Where the Commission authorizes a deputy minister to maintain lists of eligibles and the deputy minister delegates all or part of this authority to a person in his department, the person delegated by the deputy minister shall be a civil servant and the deputy minister shall, as soon as practicable, inform the Commission in writing of the civil servant delegated and of any change in the delegation.

(2) No person shall be added to the list of eligibles for a position unless he meets the qualifications determined by the Commission for the position. O. Reg. 190/62, s. 1.

2. Where the qualifications of applicants for any position in the civil service are equal, preference shall be given to those who were honourably discharged or retired from active service in Her Majesty's forces in respect of,

- (a) the War of 1914 to 1918;
- (b) the War of 1939 to 1945; or
- (c) the Korean War, 1950-1953. O. Reg. 190/62, s. 2.

3.—(1) Subject to subsection 2, the Commission may upon the recommendation of the deputy minister, assign a civil servant from one position in his department to another position in his department. O. Reg. 190/62, s. 3 (1).

(2) Where the incumbent of a position is unable to act, his deputy minister may designate a civil servant in the department to fill the position in an acting capacity for a period not exceeding twenty working days. O. Reg. 190/62, s. 3 (2); O. Reg. 324/69, s. 1 (1).

(3) Where the deputy minister has designated a civil servant under subsection 2 and after twenty working days the incumbent is still unable to act, the civil servant filling the position shall be paid as if he were assigned to the position. O. Reg. 190/62, s. 3 (3); O. Reg. 324/69, s. 1 (2).

4. The Commission may assign a civil servant from a position in one department to a position in another department upon the recommendation of

the deputy minister of the department to which the civil servant is assigned and the Commission shall determine whether or not the deputy minister of the department from which the civil servant is assigned concurs. O. Reg. 190/62, s. 4.

UNCLASSIFIED SERVICE

5.—(1) The unclassified service is divided into the following groups:

1. Group 1, consisting of employees who are employed under individual contracts in which the terms of employment are set out and who are employed,

- (a) on a project of a non-recurring kind;
- (b) in a professional or other special capacity;
- (c) on a temporary work assignment arranged by the Commission in accordance with its program for providing temporary help; or
- (d) for twenty-four hours or less during a week.

2. Group 2, consisting of employees employed on a project of a seasonal or recurring kind that does not require the employees to be employed on a full-time, year round basis. O. Reg. 167/70, s. 1; O. Reg. 289/70, s. 1.

(2) Every person who is an employee in the unclassified service at the time this section comes into force,

- (a) shall be appointed to Group 1 or Group 2 of the unclassified service as determined by the terms of employment specified in paragraph 1 or 2 of subsection 1; or
- (b) shall, if qualified, be assigned to a vacant position in the classified service. O. Reg. 167/70, s. 1.

(3) No person who occupies a position in the classified service shall be employed in the unclassified service, except with the approval of the Commission. O. Reg. 167/70, s. 1.

(4) No person employed in the unclassified service shall supervise the work of persons employed in the classified service, except with the approval of the Commission. O. Reg. 167/70, s. 1.

(5) Where an employee who is employed in one group of the unclassified service is appointed to another group of the unclassified service, the employee shall be informed in writing, at the time of the appointment, of the group to which he is appointed. O. Reg. 167/70, s. 1.

(6) Where an employee in the unclassified service is appointed to Group 1 of the unclassified service to be employed on a project of a non-recurring kind,

(a) the employee shall be informed in writing that he is appointed to the project and of the estimated time of the project; and

(b) the project shall be designated on the payroll. O. Reg. 167/70, s. 1.

(7) Nothing in sections 8 to 67 applies to an employee appointed to Group 1 of the unclassified service. O. Reg. 167/70, s. 1.

6. Where a civil servant undertakes employment in Group 1 of the unclassified service, his period of employment in the said Group 1 shall not be computed in determining length of service for any purpose and his service as a civil servant before and after the period shall be deemed to be continuous for all purposes. O. Reg. 281/67, s. 1; O. Reg. 258/70, s. 1.

7.—(1) Where a civil servant is assigned from one position to another position and the position to which the civil servant is assigned has a higher maximum salary than the maximum salary for the position from which the civil servant was assigned, the assignment shall be probationary for a period of three months from the date of the assignment.

(2) At the conclusion of the three-month probationary period referred to in subsection 1, the civil servant shall,

(a) be assigned permanently to the position; or

(b) if his deputy minister is not satisfied that the civil servant has met the requirements of his position, be reassigned to his former position or assigned to a position for which the maximum salary is equal to the maximum salary of his former position.

(3) Sections 59 to 63 do not apply to a civil servant referred to in this section who has been,

(a) assigned permanently to a position under clause *a* of subsection 2; or

(b) reassigned to his former position or assigned to a position, for which the maximum salary is equal to the maximum salary of his former position, under clause *b* of subsection 2. O. Reg. 258/70, s. 2.

8.—(1) In this section, "Civic Holiday" means the first Monday in August in each year.

(2) Every civil servant and every public servant appointed to Group 2 of the unclassified service is entitled to a holiday, in each year, on each of the following days:

1. New Year's Day.

2. Good Friday.

3. Easter Monday.

4. Victoria Day.

5. Dominion Day.

6. Civic Holiday.

7. Labour Day.

8. Thanksgiving Day.

9. Remembrance Day.

10. Christmas Day.

11. Boxing Day.

12. Any special holiday proclaimed by the Governor General or the Lieutenant Governor.

(3) Where a civil servant or a public servant appointed to Group 2 of the unclassified service is required to work on any holiday specified in subsection 2, the civil servant or public servant, as the case may be, is entitled to a compensating day as a holiday in lieu thereof.

(4) When any holiday specified in subsection 2, except Remembrance Day, falls on a Sunday, the day next following is in lieu thereof a holiday. O. Reg. 215/70, s. 1.

PART II

CONDITIONS OF EMPLOYMENT

ATTENDANCE

9.—(1) Where the specifications for a classified position in the administrative staff call for a normal working day with regular hours, the hours worked shall be $7\frac{1}{4}$ hours per day and $36\frac{1}{4}$ hours per week performed during the hours as determined by the deputy minister beginning not earlier than 8.00 a.m. and ending not later than 5.00 p.m. O. Reg. 190/62, s. 5 (1); O. Reg. 215/70, s. 1.

(2) There shall be a recess period for lunch of not more than $1\frac{1}{4}$ hours taken at such times as the official in charge with the approval of the deputy minister determines. O. Reg. 190/62, s. 5 (2).

(3) Where the deputy minister does not determine the hours during which work is to be performed, the hours shall be from 8.15 a.m. to 4.30 p.m. with one hour for the recess period for lunch, for the months of July and August of each year, and shall be from 8.30 a.m. to 5.00 p.m. for the remainder of the year with 1¼ hours for the recess period for lunch. O. Reg. 190/62, s. 5 (3).

(4) Each deputy minister shall ensure that all public offices in his department are kept open during lunch recesses. O. Reg. 190/62, s. 5 (4).

10.—(1) Each deputy minister shall ensure that registers are maintained in his department, in which shall be recorded the attendance and absences of each public servant in the department and the information contained in the registers shall be sufficient to substantiate,

- (a) all payments of salary; and
- (b) the accrual of all credits associated with the salary,

of each public servant in the department.

(2) The deputy minister may exempt from the application of subsection 1 such public servants in his department for whose attendance records special provision has been made.

(3) Each deputy minister shall supply the Commission with a monthly summary of all absences in his department in such form as is specified by the Commission from time to time. O. Reg. 479/70, s. 1.

11.—(1) A public servant is entitled to an attendance credit of 1¼ days for each month of regular attendance. O. Reg. 247/65, s. 2.

(2) A public servant is not entitled to an attendance credit in respect of a month in which he is absent from duty,

- (a) without leave;
- (b) by removal from employment for cause; or
- (c) for more than twelve days for any reason other than vacation leave-of-absence or leave-of-absence with pay. O. Reg. 247/65, s. 2.

(3) For each month in which a public servant is absent from duty for not more than twelve days, other than by vacation leave-of-absence or leave-of-absence with pay, he is entitled to an attendance credit of three-quarters of a day. O. Reg. 247/65, s. 2.

(4) Where a public servant who is appointed prior to the 1st day of January, 1970, and who has

completed ten years' continuous service ceases to be a public servant, he is entitled to be paid an amount computed by multiplying half of the number of days in his attendance credits at the date he ceased to be a public servant by the annual salary that he was receiving at the date he ceased to be a public servant and dividing the product by 261, but the total amount shall not exceed half of the annual salary. O. Reg. 17/70, s. 1 (1).

(5) Where a public servant who is appointed prior to the 1st day of October, 1965 ceases to be a public servant after having completed more than five years but less than ten years continuous service, he is entitled to be paid an amount computed by multiplying half of the number of days in his attendance credits at the date he ceased to be a public servant by the annual salary that he was receiving at the date he ceased to be a public servant and dividing the product by 261, but the amount shall not exceed half of the annual salary. O. Reg. 17/70, s. 1 (3).

(6) A payment under subsection 4 or 5 may, at the option of the public servant, be paid in one lump sum or distributed in payments equal to his monthly salary with the final payment being any remaining balance unpaid. O. Reg. 247/65, s. 2; O. Reg. 17/70, s. 1 (5).

12.—(1) In this section "teacher" means a teacher as defined in *The Teaching Profession Act*. O. Reg. 308/64, s. 1.

(2) Upon appointment to the public service a teacher is entitled to an attendance credit of nine days for each year of past teaching service up to but not exceeding forty-five days, but in no case shall the attendance credit exceed the sick leave credit accumulated by the teacher during his past teaching service. O. Reg. 308/64, s. 1.

(3) Upon appointment to the civil service a teacher who was employed in Group 1 of the unclassified service is entitled to an attendance credit of fifteen days for each year of past teaching service in Group 1 of the unclassified service, but there shall be deducted from the total of such attendance credits any attendance credits used by the teacher while he was employed in Group 1 of the unclassified service. O. Reg. 380/70, s. 1.

(4) For the purpose of computing the amount payable to a public servant under subsections 4 or 5 of section 11, any portion of an attendance credit given to him under this section that stands to his credit when he ceases to be a public servant shall be deducted from his accumulated credits. O. Reg. 247/65, s. 3; O. Reg. 2/66, s. 2.

13.—(1) Where a public servant who is not on the probationary staff is appointed on or after the 1st day of January, 1970 and has completed a minimum of one year's continuous service ceases to be a public servant because of,

- (a) death;
- (b) retirement under section 17 of the Act;
- (c) retirement pursuant to section 12 of *The Public Service Superannuation Act*;
- (d) retirement pursuant to section 18 of *The Public Service Superannuation Act*; or
- (e) release from employment under subsection 4 of section 22 of the Act,

the public servant is entitled to severance pay equal to one week of salary for each year of service. O. Reg. 17/70, s. 2.

(2) Subsection 1 does not apply to a public servant who was appointed to the public service on or after the 1st day of January, 1970 and who,

- (a) voluntarily severs his employment in the public service;
- (b) is dismissed from employment under subsection 3 of section 22 of the Act; or
- (c) has abandoned his position pursuant to section 20 of the Act. O. Reg. 17/70, s. 2.

(3) Any severance pay to which a public servant is entitled under subsection 1 shall be reduced by an amount equal to any payment to which the public servant is entitled under clause *a* of subsection 1 of section 28. O. Reg. 84/70, s. 1.

14.—(1) In this section,

- (a) "attendance year" means the period from the 1st day of October in a year to and including the 30th day of September in the following year; and
- (b) "unused attendance credits" means attendance credits accumulated during an attendance year less any attendance credits used during that attendance year. O. Reg. 17/70, s. 2.

(2) On and after the 1st day of October, 1970, within four weeks of the close of an attendance year a public servant shall,

- (a) elect to have all his unused attendance credits for the attendance year added to his total of accumulated attendance credits; or
- (b) if he has not elected under clause *a*, be paid a bonus of,
 - (i) one-fifth of his unused attendance credits for that attendance year, where the public servant has completed at least one but less than ten years of service,

- (ii) one-quarter of his unused attendance credits for that attendance year, where the public servant has completed ten or more years of service and has accumulated less than 261 days of attendance credits, and

- (iii) one-third of his unused attendance credits for that attendance year where the public servant has completed ten or more years of service and has 261 or more days of accumulated attendance credits,

and the public servant's attendance credits for that attendance year shall be reduced by the amount of attendance credits for which he was paid the bonus and the balance of unused attendance credits for that attendance year shall be added to the public servant's accumulated total of attendance credits. O. Reg. 17/70, s. 2; O. Reg. 84/70, s. 2.

(3) The bonus of one-quarter or one-third referred to in clause *b* of subsection 2 shall be,

- (a') determined from the public servant's length of service and accumulated attendance credits, as of the 1st day of October in the attendance year; and
- (b) calculated at the rate of salary the public servant was receiving on the 30th day of September in the attendance year. O. Reg. 17/70, s. 2.

LEAVE OF ABSENCE

15.—(1) Subject to subsection 2, no public servant shall receive pay for absence caused by sickness in excess of his accumulated credits. O. Reg. 190/62, s. 8 (1); O. Reg. 247/65, s. 4 (1).

(2) Where, after having served one year in the service, a civil servant is absent by reason of sickness for a period in excess of his accumulated credits,

- (a) any credits he has accumulated for overtime and for vacation leave-of-absence shall be applied to his deficit of attendance credits;
- (b) his deputy minister may grant him pay for not more than thirty days of excess absence and shall report to the Commission any excess absence granted for more than ten days; and
- (c) where vacation leave-of-absence is applied under clause *a* he may apply to his deputy minister for vacation leave of absence without pay after return to duty and within a twelve month period equal to the vacation credits applied to his deficit of attendance credits.

(3) Any payments in excess of credits made under subsection 2 shall be charged against the future credits to which the civil servant becomes entitled, and any unpaid balance shall be deducted from the amount paid to the civil servant or to his personal representative under section 28. O. Reg. 190/62, s. 8 (2, 3).

(4) Any payments in excess of credits made under subsection 2 may be repaid by the civil servant by the payment in cash to the Treasurer of Ontario and Minister of Economics of an amount equal to the payments made. O. Reg. 324/69, s. 2.

(5) After five days absence caused by sickness, no leave with pay shall be allowed unless a certificate of a legally qualified medical practitioner is forwarded to the deputy minister of the department, certifying that the public servant is unable to attend to his official duties. O. Reg. 190/62, s. 8 (4); O. Reg. 247/65, s. 4 (2).

(6) Notwithstanding subsection 4, the Commission or a deputy minister may require a public servant to submit the certificate required by subsection 4 for a period of absence of less than five days. O. Reg. 190/62, s. 8 (5); O. Reg. 247/65, s. 4 (3).

(7) His deputy minister may grant leave-of-absence with pay for not more than six days in any fiscal year to a public servant upon any special or compassionate ground and the period of the leave shall be charged against the credits of the public servant. O. Reg. 190/62, s. 8 (6); O. Reg. 247/65, s. 4 (4).

(8) Where a public servant is absent by reason of a summons to serve as a juror or a subpoena as a witness, the public servant may at his option,

- (a) treat the absence as leave without pay and retain any fee he receives as a juror or as a witness;
- (b) deduct the period of absence from his vacation leave-of-absence credits or his overtime credits and retain any fee he receives as a juror or as a witness; or
- (c) treat the absence as leave with pay and pay to the Treasurer of Ontario any fee he has received as a juror or as a witness. O. Reg. 190/62, s. 8 (7); O. Reg. 247/65, s. 4 (5).

(9) Where a civil servant is absent by reason of an injury or an industrial disease for which a claim is made under *The Workmen's Compensation Act* and he does not have accumulated credits of thirty days or more, his salary shall continue to be paid for a period not exceeding thirty days and, if the award is not made, subsection 3 applies to any of such salary paid in respect of any period in excess of his accumulated credits. O. Reg. 190/62, s. 8 (8).

(10) Where a civil servant is absent by reason of an injury or an industrial disease for which an award is made under *The Workmen's Compensation Act*, his salary shall continue to be paid for a period not to exceed the three month period immediately after the date the absence commenced and any absence in respect of the injury or industrial disease shall not be charged against his credits. O. Reg. 14/66, s. 1; O. Reg. 418/70, s. 1 (1).

(11) Where the Workmen's Compensation Board makes an award to a civil servant that is less than his regular salary and where the award continues to apply for more than three months and he has accumulated credits, his regular salary may be paid and the difference between the regular salary paid after the three months period and the salary awarded shall be converted to its equivalent time and deducted from his accumulated credits. O. Reg. 190/62, s. 8 (10); O. Reg. 247/65, s. 4 (6); O. Reg. 418/70, s. 1 (2).

16.—(1) Where for reasons of health a public servant is frequently absent or unable to perform his duties, his deputy minister may require him to submit to a medical examination at the expense of the department. O. Reg. 176/63, s. 1; O. Reg. 247/65, s. 5.

(2) Where for reasons of health a civil servant is absent for a total of six months in a two-year period, his deputy minister shall require him to submit to a medical examination at the expense of the department and the deputy minister shall file a copy of the report of the medical examination with the Commission. O. Reg. 176/63, s. 1.

(3) The Chairman of the Commission may, at the expense of the Commission, refer the report for further medical opinion and for the purpose may require such further medical examination as he considers necessary. O. Reg. 176/63, s. 1.

17.—(1) A minister may grant a leave-of-absence for not more than one week with pay and not more than one week without pay in a fiscal year to a civil servant in his department for the purpose of taking military, naval, air force or civil defence training. O. Reg. 258/70, s. 3 (1).

(2) Leave-of-absence without pay and without the accumulation of credits may be granted to a civil servant for a period of,

- (a) up to one month by his deputy minister; or
- (b) over one month upon the certificate of the Commission. O. Reg. 190/62, s. 9 (2); O. Reg. 402/68, s. 2.

(3) Clauses *a* and *b* of subsection 2 do not apply in respect to leave of absence for the purpose of childbirth. O. Reg. 545/70, s. 1.

(4) Leave-of-absence with pay may be granted for special or compassionate purposes to a civil servant for a period of,

(a) up to six months with the approval of his deputy minister and upon the certificate of the Commission; and

(b) over six months upon the certificate of the Commission and with the approval of the Lieutenant Governor in Council. O. Reg. 190/62, s. 9 (3).

(5) No employee shall absent himself from duty on a leave-of-absence provided for in this section unless he has previously obtained the authorization required by this section. O. Reg. 190/62, s. 9 (4); O. Reg. 247/65, s. 6 (3).

(6) Where leave is authorized by a minister or deputy minister, such authorization shall be reported to the Commission forthwith. O. Reg. 190/62, s. 9 (5).

18.—(1) A deputy minister shall grant leave-of-absence without pay and without accumulation of credits for the purpose of childbirth to a female public servant who has served more than one year, including service as a Crown employee immediately prior to appointment as a public servant. O. Reg. 545/70, s. 2 (1).

(2) The leave of absence referred to in subsection 1 shall,

(a) before delivery, be for a period of up to six weeks immediately preceding the specified date of delivery, as determined by a legally qualified medical practitioner; and

(b) after delivery, be for such period, not exceeding six weeks, as is determined by a legally qualified medical practitioner. O. Reg. 545/70, s. 2 (2).

(3) Notwithstanding clause *a* of subsection 2, where in the opinion of a deputy minister,

(a) the duties of the position of a female public servant cannot reasonably be performed by a pregnant woman; or

(b) the performance of a female public servant's work is materially affected by her pregnancy,

the deputy minister may require the female public servant to proceed on a leave of absence before or after the commencement of the period of six weeks immediately preceding the specified date of delivery. O. Reg. 545/70, s. 2 (2).

(4) A female public servant returning to the department where she was employed prior to a

leave of absence for childbirth shall be assigned to her former classification and be paid at the step in the salary range that she had attained when the leave of absence was granted. O. Reg. 545/70, s. 2 (2).

19.—(1) Upon the certificate of the Commission and with the approval of the Lieutenant Governor in Council, a deputy minister may grant to a civil servant in his department leave-of-absence with pay for a period of one year for the purpose of undertaking employment with the Government of Canada in connection with a foreign aid program or employment with a foreign government or other public agency.

(2) Leave-of-absence granted under subsection 1 may be renewed in the same manner that the initial leave-of-absence was granted and subject to the same terms and conditions, but in no case shall leave-of-absence granted under this section exceed five years.

(3) A civil servant who is granted leave-of-absence under this section,

(a) is entitled to the attendance and vacation credits that would accrue to him if he was employed in his regular position; and

(b) shall submit regular personal attendance reports. O. Reg. 192/66, s. 1 (1-3).

(4) The employing agency shall reimburse the Treasurer of Ontario and Minister of Economics for,

(a) the salary of the civil servant;

(b) contributions made by the Government of Ontario on behalf of the civil servant,

(i) in respect of *The Public Service Superannuation Act* and the *Canada Pension Plan*; and

(ii) in respect of surgical-medical insurance, life insurance and other benefits that the Government of Ontario may provide on his behalf; and

(c) the cash equivalent of attendance credits accumulated in accordance with section 11. O. Reg. 192/66, s. 1.

20.—(1) Upon the certificate of the Commission and with the approval of the Lieutenant Governor in Council, a deputy minister may grant to a civil servant in his department leave-of-absence without pay and without accumulation of credits for a period of one year for the purpose of undertaking employment with the Government of Canada in connection with a foreign aid program or employment with a foreign government or other public agency.

(2) Leave-of-absence granted under subsection 1 may be renewed in the same manner that the initial leave-of-absence was granted and subject to the same terms and conditions, but in no case shall the total leave-of-absence granted under this section exceed five years.

(3) Where leave-of-absence without pay and without accumulation of credits is granted, the civil servant shall pay the full premium for his life insurance and may, at his option, continue his surgical-medical insurance, provided that he pays the full premium. O. Reg. 192/66, s. 1.

21.—(1) Vacation leave-of-absence for a civil servant is,

(a) three weeks in each year of his service, during,

(i) the first seventeen years of his service as of the 1st day of January, 1969,

(ii) the first sixteen years of his service, as of the 1st day of January, 1970, and

(iii) the first fifteen years of his service, as of the 1st day of January, 1971; and

(b) four weeks in each year of his service thereafter. O. Reg. 16/70, s. 1 (1); O. Reg. 258/70, s. 4 (1).

(2) The vacation leave-of-absence of a civil servant or a public servant appointed to Group 3 of the unclassified service who,

(a) has not completed three years of service; and

(b) is entitled to a vacation leave-of-absence of three weeks under subclause i of clause a of subsection 1,

shall accumulate *pro rata* for each month of service, commencing on the 1st day of October, 1969. O. Reg. 84/70, s. 3.

(3) Where a civil servant has completed twenty-five years of service, there shall be added, on that occasion only, five days of vacation credits to his accumulation of vacation credits. O. Reg. 16/70, s. 1 (5).

(4) For each month in which a civil servant is absent from duty for not more than twelve days, other than by vacation leave-of-absence or leave-of-absence with pay, he is entitled to a vacation credit of,

(a) three-quarters of a day in each year of his service during,

(i) the first seventeen years of his service, as of the 1st day of January, 1969,

(ii) the first sixteen years of his service, as of the 1st day of January, 1970, and

(iii) the first fifteen years of his service as of the 1st day of January, 1971; and

(b) one day in each year of his service thereafter. O. Reg. 16/70, s. 1 (6); O. Reg. 258/70, s. 4 (2).

(5) A civil servant is not entitled to a vacation credit in respect of a month in which he is absent from duty for more than twelve days for any reason other than vacation leave-of-absence or leave-of-absence with pay. O. Reg. 247/65, s. 7; O. Reg. 258/70, s. 4 (3).

(6) Vacation leave-of-absence shall,

(a) accumulate *pro rata* for each month of service;

(b) be taken within eighteen months,

(i) of his appointment to the civil service, or

(ii) from the date of return to duty from the last vacation leave,

whichever is the later date; and

(c) be taken at such time as the deputy minister determines. O. Reg. 247/65, s. 7; O. Reg. 258/70, s. 4 (4).

(7) A civil servant is entitled to a vacation leave-of-absence under subsection 1 when he has completed six months service in the public service. O. Reg. 247/65, s. 7; O. Reg. 258/70, s. 4 (5).

(8) For the purpose of computing the six month period referred to in subsection 7, a public servant may include any continuous period he served as an employee in the public service of Ontario immediately before he became a civil servant. O. Reg. 247/65, s. 7; O. Reg. 258/70, s. 4 (6).
